About the Authors

Ahuchaogu, Chinedu D. is a student in the Toxicology program at the University of Maryland Eastern Shore. His research interest includes probing the effect of Polychlorinated biphenyls on the human endocrine system and, energy generation.

Ampim, Peter is an Assistant Professor in the Department of Agriculture, Nutrition and Human Ecology of the College of Agriculture and Human Sciences. His current research activities span sustainable and organic agriculture and specialty crops.

Branch-Vital, Angela is an Associate Professor of Health at Prairie View A&M University. Her areas of research interest include: social inequalities, health disparities and social change, developing interventions within the communities, evaluation and redesign of health services, and multi-level models in public health.

Das, Kausik S. is an Associate Professor of Physics at the University of Maryland Eastern Shore. His expertise lies in micro and nanofluidics, energy harvesting and storage, desalination and molecular sieving, nanomaterial-based sensors and memory devices to micro-gravity research. Details about his research can be found here: <https://sites.google.com/view/kausik-das/research>

McDonald, Andrea is an Assistant Professor in the Department of Health and Kinesiology and the Whitlowe R. Green College of Education at Prairie View A&M University. Her research interests include: food preparation literacy, rural and minority health issues in adolescent family, school health issues in the Caribbean, community need assessments, and qualitative research methods (photo-voice & grounded theory).

Noah, Michelle Mbia majored in Agriculture with a concentration in Plant and Soil Sciences at Prairie View A&M University. She graduated in the spring of 2017 and is currently pursuing a Masters degree in Soil Science at Alabama A&M University. She plans to continue to pursue a Ph.D. in Soil and Remote Sensing after completing her Master program. **Obeng, Eric** is a Postdoctoral Researcher at the Cooperative Agricultural Research Center of the College of Agriculture and Human Sciences. He works with Dr. Peter Ampim. His is an Agronomist and currently works on specialty crops. **Walker, Asia** is a senior Health Education major at Prairie View A&M University. She is interested in the determinants of mental health in underserved and underrepresented populations. She aspires to become a public health practitioner as well as to pursue an MD in osteopathic medicine. Her expected graduation date is May 2020.

Weerasooriya, Aruna is an Associate Professor in the Department of Agriculture, Nutrition and Human Ecology and is the Leader of the Plant Systems Research group at the Cooperative Agricultural Research Center of the College of Agriculture and Human Sciences. Dr. Weerasooriya is a Plant Scientist and focuses on medicinal plants.
