EXTENSION SERVICE
COUNTY AGENT WORK

Prairie View, Texas
October 2, 1946

TO ALL NEGRO COUNTY AGRICULTURAL AGENTS:

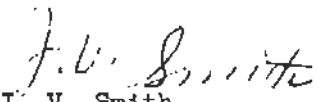

Dear Co-Worker:

Some sections are calling for cotton pickers, especially Taylor County. They are paying pickers \$ 2.00--2.50 per hundred and \$ 1.50 for pulling. They need 1,000 hands according to the report. If you have any laborers that can be sent to Taylor or Collins Counties, we will appreciate your cooperation.

Some of the states that are calling for hands are Mississippi, Arkansas, and Arizona. Cotton in Arizona produces two bales to the acre, and \$ 2.65 is being payed for picking and it is not long staple cotton.

Places will be provided for the pickers to live in and they will be assisted in transportation if needed. So if you have any hands for the section growing states get in touch with the Farm Labor Office, College Station, Texas.

Yours truly,

J. V. Smith

Dear Mr. Adams:

This is to inform you that your letter of October 11th has been received. However Mr. Smith is not in the office, but I do expect him in by Thursday.

In his absence I advise you to get in touch with Mr. E. V. Cook, Agricultural Agent for Taylor County, since there is not a Negro County Agricultural Agent in that particular county.

I shall refer this matter to Mr. Smith upon his return, and I am sure if any further steps are needed he will advise you about them immediately.

EXTENSION SERVICE
COUNTY AGENT WORK

TO ALL NEGRO COUNTY AGRICULTURAL AGENTS

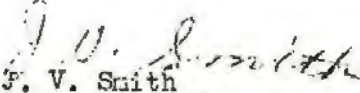

Dear Co-worker:

I know that all county agents are acquainted with the Farm Labor program and know how to fit in the present Farm Labor program in their various counties. I hope you are contributing in a fine way to the program. I am again urging all County Agents to send me a summary report of your activities (work) accomplished in working with the Farm Labor program.

I would like for all agents to send me a copy of your monthly Farm Labor report, also your weekly report just as you have been sending it.

We have some co-agents that have secretaries paid in part and in full, but they fail to send any report to this office. May I expect your report?

Yours truly,

F. V. Smith

Dear Mr. Smith:

I am attempting to comply to your request by mailing you a copy of my Farm labor monthly report. I did not make a weekly report, therefore, I have none to send you.

I have made an effort to do some farm labor work for 4 months. The first month I had a secretary. The 2nd month she had to undergo an operation. The 3rd month she came back to work and the fourth month she went back to school.

Very truly yours,

Dear Smith:

I want to thank you for the information contained in your letter of October 15.

I was very glad to know of the progress being made in getting the rice harvested and was also glad to see that additional pickers are going into the Central Texas area.

Keep up the good work.

TO ALL NEGRO COUNTY AGRICULTURAL AGENTS

Dear Co-worker:

The present world food and other prices have caused all of us to realize more each day that the health, prosperity and security of our world are dependent upon the production capacity of our farms and wood-lands. It is our duty to assist farmers in every way possible to increase their output of products.

I feel that you have assisted the farmers in a big way. I therefore take this method to thank you for the help you have given the farmers, thus enabling them to meet the great demands that must be met.

No doubt you will have many requests, from time to time, from hands for various types of jobs like poultry production, harvesting, truck operation, farming on halves and many other jobs. What ever request you have for hands, please keep record of it and send it to my office here at Prairie View and I will be able to assist them in getting located at some farm or ranch.

Send me a summary of farm labor work in your county by December 10, 1946 so that I may be able to include it in my annual report. Thanking you very kindly, I am

Yours truly,

Dear Mr. Hohn:

I have just finished checking the counties that grow rice, and the reports the county agents show that from 80-85% of the rice was harvested before that heavy rain fall last week. However the lost seems to be around five bushels per acre that was not harvested.

The farmers have begun harvesting as of this week, beginning with the 12th of November 1946. All county agents reported that all request in their counties was filled and no extra hands were needed. Many counties that have sent hands to the rice fields was of great help to the rice growers, according to the reports.

Mr. Combs stated that all the rice planted in that county -Jefferson- was fertilized and the demonstration by plane, used in the rice fields was a complete success according to the reports.
