GENERAL INFORMATION

ADMISSION

GENERAL ADMISSION REQUIREMENTS

Prairie View A&M University accepts applications for admission without regard to race, color, national origin or religious commitment. All communications in regard to admission should be addressed to the Director of Admissions, Prairie View A&M University, Prairie View, Texas 77445.

LOCATION

Prairie View A&M University is located in Waller County, forty-six miles northwest of Houston. Buses discharge passengers at the Prairie View Station. Taxi Service is available to and from the station.

PURPOSE

Three separate and distinct functions of Prairie View A&M University are clearly set forth in State and Federal acts for its establishment and support.

First, it is an institution for the preparation and training of teachers.

Second, it is to offer arts and scientific curricula.

Third, it is a Texas Land Grant institution providing opportunities for training in Agriculture, Home Economics, Engineering and related branches of learning.

In addition, the institution offers training in health and education so that it may give to the state professionally trained nurses and provide opportunities for observation and practice to newly graduated students of medical colleges.

Prairie View A&M attempts to serve the citizens of Texas at the points of their greatest needs and endeavors to bring the students' training into closer relationship with life's occupations.

The central theme of the philosophy of the institution is that education must have the objective of making a worthwhile life and respectable living.

PHILOSOPHY AND OBJECTIVES

Historically the philosophy of Prairie View A&M has been to assist each student in living a worthwhile life and making a worthwhile living.

This philosophy is accomplished through the following aims and objectives:

1. To develop responsible citizens who will contribute to the democratic life.
2. To develop a community of scholars.
3. To provide an environment where students may achieve the optimal personal and social development.
4. To provide for the maximum intellectual development of the student.
5. To provide each student with saleable skills in a vocation or group of vocations.
6. To inspire each student to become a leader in his generation.
7. To assist each student to make the best use of his resources in college and later life.
8. To assist each student in becoming an over-achiever.
9. To develop in each student a moral concern for others and a concept of service to others.
10. To have the entire campus (including residence halls) serve as a center of learning as well as a center of wholesome democratic living.

GENERAL INFORMATION

INSTRUCTIONAL ORGANIZATION

The institution is organized for instruction into nine major divisions as follows:

- The College of Agriculture
- The College of Arts and Sciences
- The College of Business
- The College of Education
- The College of Engineering
- The College of Home Economics
- The College of Industrial Education and Technology
- The College of Nursing
- The Graduate School

HISTORY

The Fifteenth Legislature of the State of Texas met in the year 1876. One of the acts of that Legislature provided for the establishment of "An Agricultural and Mechanical College" for Negro citizens to be located in Waller County. L. M. Minor was elected first teacher of the school (Alta Vista Agricultural College). He served in this capacity from 1878 to 1879. In the last year of his principalship a legislative act provided for reorganization of the college and made funds available for the training of public school teachers therein. The teaching of Military Tactics was initiated in compliance with the Legislative act of 1876.

The second principal, E. H. Anderson, served from 1879 to 1884; and L. C. Anderson, the third principal, held the position for the next twelve years. The gray stone Administration building, whose architectural design was widely admired, was erected in 1889, and the Old Agricultural Building was erected in 1890. During L. C. Anderson's administration, the 20th Legislature agreed to an "Agricultural and Mechanical Department" to be attached to the Normal; the Hatch Act brought the college a branch Experiment Station.

For the next nineteen years, E. L. Blackshear served "Prairie View Normal" as principal. During his administration, significant growth was made in the curriculum and the plant. In 1889 the name was changed to "Prairie View State Normal and Industrial College," and the new name indicated the enlargement of the curriculum. A four-year college course was authorized by the State Legislature in session 1901. Among additions to the plant were two dormitories for men, Foster Hall (1909) and Luckie Hall (1909); a dormitory for women, Crawford Hall (1912); and a combination Auditorium-Dining Hall building (1911).

I. M. Terrell, the fifth principal, held the position during the war years 1915-1918. Despite the world conflict, the school plant expanded widely to accommodate mechanic and household arts; a Household Arts Building, the Power and Ice Plant, and the Laundry were erected in 1916; and in 1918 Spence Building for the Division of Agriculture was erected. The close of World War I brought the activation of a recognized Reserve Officers' Training Corps to the campus. The Cooperative Extension Service was also launched at this time.

The sixth principal of Prairie View was J. G. Osborne, whose tenure lasted from 1918 to 1925. Six buildings were added to the College in 1924 and 1925; the Veterinary Hospital, the Science Building, the College Exchange, the Elementary Training School, a Home Economics Practice Cottage, and a Music Conservatory. The Nursing Division was founded in 1918.

In 1926, W. R. Banks became the seventh principal of Prairie View. He served until August 31, 1947, at which time he became Principal Emeritus. He held the position longer than any of his predecessors, and Prairie View developed along several lines in his period. The physical plant doubled its size by adding six buildings valued at more than \$100,000.00 each. The Dining Hall and the Hospital, three apartment houses for men teachers, three dormitories for women, a greenhouse, an incubator house, a classroom building, a new Auditorium-Gymnasium, a new Mechanic Arts building, and over sixty cottages for families were additions to the physical plant.

One of the significant studies of the period was an exhaustive examination of the objectives and purposes of Prairie View in 1933-34. Out of the study emerged Principal Bank's most often quoted statement: "Prairie View College must serve the State of Texas at the points of her greatest needs." The establishment of the Prairie View Conference on Education in 1931 is an important event in the history of the University. In the years that the Conference has met, Prairie View has been host to educators, ministers, doctors, business men and women, housewives, social workers, and farmers.

In the establishment of the Division of Graduate Study in 1937 Prairie View University added another page to its expanding history.

In 1936 the first buildings were constructed to house the N.Y.A. resident center, and a new chapter in Vocational Training for youth was opened. The project was enlarged and made a training center for Negro men in critical occupations for support of the war effort. The men filled positions as welders, mechanics, pipe fitters, machine operators, and moulders in shipyards, foundries, and machine shops all over the nation. The project terminated in July 1943. The facilities are now used for vocational trade courses.

In July 1943, a training unit of the Army Specialized Training Program was established with a maximum strength of 200 trainees enrolled in BE-1 Curriculum.

In 1943, when the Forty-eighth Legislature met in January, it appropriated \$160,000.00 for the erection of a Library Building. This amount was supplemented by \$20,000.00 for equipment and books.

The name of the college, Prairie View Normal and Industrial College, was changed to Prairie View University in 1945, by an act of the 49th Legislature.

The Forty-ninth Legislature passed the bill permitting Prairie View University to offer, as the need arises, all courses offered at the University of Texas.

On September 1, 1946, Dr. E. B. Evans became the eighth principal of Prairie View.

The Fiftieth Legislature of the State of Texas, by Act signed by the Governor on February 27, 1947, changed the name of the school from Prairie View University to Prairie View Agricultural and Mechanical College of Texas. The Act provided that courses be offered in agriculture, the mechanic arts, engineering and the natural sciences connected therewith, together with any other courses authorized at Prairie View at the time of the passage of this Act, all of which shall be equivalent to those offered at the Agricultural and Mechanical College of Texas.

In March, 1947, the old Academic Building which housed the principal administrative offices, was destroyed by fire. The Fiftieth Texas Legislature, which was then in session, made an emergency appropriation of \$300,000.00 for the erection of the present Administration Building which was completed in March 1949.

The title of the Principal was changed to Dean by the Board of Directors and became effective during the 1947-48 school year. On September 1, 1948, the title of Dean was changed to President and on December 3, 1948, E. B. Evans, the eighth Principal, was inaugurated as the first President of Prairie View Agricultural and Mechanical College of Texas.

The Divisions of Agriculture, Arts and Sciences, Home Economics, and Mechanics Art were changed to Schools of Agriculture, Arts and Sciences, Home Economics, and Engineering, effective September 1, 1950. The Directors of the respective schools were named Deans, becoming effective at the same time.

A new women's dormitory was completed in September 1950 at a cost of \$350,000.00 and was named for the late Dean of Women, Miss M. E. Suarez. It houses 247 women and has facilities for recreational and social activities. A similar building for male students, named for a former teacher, J. M. Alexander, was completed in 1952. The E. B. Evans Animal Industries Building, valued at \$284,000.00, was completed in 1951, and the Gibb Gilchrist Engineering Building in 1952, at a cost of \$258,170.00.

Construction of still more adequate housing for the rapidly-growing student body was completed in early 1955 with additions to Suarez Hall and to Alexander Hall costing approximately \$550,000.00. These additions provided space for 240 more women students and 250 more men students.

GENERAL INFORMATION

A dairy barn and utilities warehouses were completed at a cost of \$32,000.00 and \$15,000.00 worth of water and sewer line installations were added to the college system. Construction of an exchange store and single faculty women's and single faculty men's dormitories were also completed in 1955. The latter has been named for George W. Buchanan, former manager of the exchange and ex-teacher of mathematics. The Faculty Women's dormitory was named for the late Lucille B. Evans, wife of President E. B. Evans. The hospital of 1939 has recently been named for J. C. Osborne, the sixth principal of the College.

A new and completely modern Home Economics building, named for Mrs. Elizabeth C. May Galloway (Elizabeth C. May building) former Dean of the School of Home Economics, was added in 1957. The old Home Arts structure was renovated into a modern Music Building.

The Board of Directors of the Texas A&M University System approved a \$3,000,000.00 building and improvement program for the college in 1957. The new \$1,000,000.00 Memorial Student Center was completed early in 1960 and construction on a \$2,000,000.00 science building was completed in 1961. Other construction during this period included building utilities, street extensions, storm sewers and underground electric facilities. The \$1,500,000.00 Health and Physical Education Building, with seating capacity of 5,000 was completed in 1964. In 1965 two new air-conditioned dormitories, valued at \$2,500,000.00 were completed to house 900 students (450 male and 450 female). The Spring Semester of the 1966-67 Year, construction began on a half-million dollar addition to the W. R. Banks Library.

The College was accepted for membership in the Southern Association of Colleges and Secondary School in December, 1958, and later received reendorsement and full approval of the National Council for Accreditation of Teacher Education. Improvements in offerings and facilities for Science, Mathematics and Engineering also resulted during the years from 1958 to the present time.

President E. B. Evans, who in 1959 became eligible for modified retirement, was asked by the Board of Directors to continue as President of the College. This great tribute came in the midst of many other state and national honors for Dr. Evans in recognition of outstanding service to education.

His services continued until August 31, 1966, at which time he was bestowed the title, President Emeritus.

On September 1, 1966, Dr. J. M. Drew, who had served as Dean of Instruction and Dean of Graduate Studies became the second president of Prairie View Agricultural and Mechanical College. Shortly after taking office, Dr. Drew became ill and, as a result of his asking to be relieved of his office the Board of Directors asked President Emeritus Evans to serve as Acting President.

On November 22, 1966, the Board of Directors elected as the third president, Dr. Alvin I. Thomas. Prior to his elevation to the presidency, Dr. Thomas had served as Dean of the School of Industrial Education and Technology. Dr. Thomas introduced, for Prairie View A&M, the concept of the residential college. In one of his early addresses, Dr. Thomas said, "Resting on some 1440 acres of beautiful countryside — 30 minutes from the largest city in the South and 5th largest city in America. Prairie View can create an environment which will contain only those influences which will affect a student for good and we can lock out the intellectual pollution of the cities and give the students a refreshing, undistracted experience aimed at maximum personal, social and intellectual growth."

At Prairie View A&M, practically all of the students live in residential halls; because of this arrangement, the University has the ability to provide a special kind of learning situation; the residence halls, as well as the library and the classrooms are learning centers. As a residential University, Prairie View uses all of its resources to provide the greatest number of influences which will act to develop a student in the fullest possible manner.

On May 19, 1968, the Naval ROTC Unit was established at the College. It was the first new unit to be established in 22 years and the first at a predominantly Negro College.

At the request of President Thomas, the Board of Directors, in August, 1968 appointed seventy-nine persons to comprise the Centennial Council. The Council was re-

quested to formulate a master plan for guiding the future of the University. The Council, broadly representative of the national and state geographical areas, and of various economic, ethnic, educational, social and professional backgrounds, upon the completion of sixteen months of deliberate and serious study presented its recommendations in a published document, "A Developmental Plan, 1970-80, Prairie View A&M College of Texas."

One of the early outgrowths of the Council's masterplan occurred in the Fall of 1970, when the Board of Directors sold in excess of thirteen-million dollars in bonds for the construction of two residence halls and a dining facility. The residence halls, accommodating 1,500 students, were opened for occupancy in August, 1972. The dining facility was opened the second semester of the 1972-73 academic year.

Other major completed construction representing outgrowths of the master plan for Prairie View A&M includes the following:

Building	Date Completed	Costs
Fire Protection and Security	1971	\$140,000
Laundry Building	1973	821,000
Burleson-Ware ROTC	1973	226,918

The value of the physical plant has increased from \$12 million in 1966 to \$40 million in 1978. By virtue of legislation enacted by the 63rd Legislature of the State of Texas, Prairie View A&M College was named Prairie View A&M University.

THE W. R. BANKS LIBRARY

The building housing the library, named in honor of a former chief executive of the University, has two stages of physical growth. The first section was completed in 1945 at a cost of \$171,869.91. A half million dollar addition was completed in 1968.

The building has three floors and a book stack section with four levels. The library has a book capacity of 301,000 volumes and study space for 550 students simultaneously.

The library, being air-conditioned, is ideal for serious study, for investigation and research, and for recreational reading. Its beautiful and convenient study appointments include the Reference Room, seating 176; the Reserves Reading Room, seating 147; the Graduate Study Room, seating 52; the Current Periodicals Reading Room, seating 42; the Special Collections Room, seating 20; and the Reading Lounge, seating 31. Artistic tastes of readers are fostered in the Art Room.

The collections of the library include 245,000 books, 103,692 microforms, a Texas Documents Collection of 5,000 items, Special Collections of Afro-Americana, Prairie Viewiana, master's theses, and curriculum materials as well as archival holdings of 14,708 items. The library currently subscribes to 2,200 periodicals.

The library contains an admirable and growing bibliographic apparatus including author-title card catalogs; subject-card catalogs; kerdex files containing indexes to the library's holdings in journals, newspapers, documents, etc.; printed catalogs such as those of the Library of Congress and the British Museum; periodical indexes, bibliographies (international, national, regional, local, subject, special); abstracts and abstract journals; research reporting journals; bibliographic journals; union lists of important printed materials; and guides to various resources.

STUDENT FINANCIAL AIDS

A. D. James, Director

The Financial Aid Program at Prairie View is designed to give assurance that no deserving student of ability will be denied an opportunity for higher education because of financial need.

The Financial Aid Center Administers the following programs:

1. Student Employment
2. Student Loans (all types)
3. Student Scholarships
4. Student Financial Grants
5. Counseling and Advisement on Financial Aid

BASIC GUIDELINES FOR STUDENTS SEEKING FINANCIAL AID

1. In general, financial aid at Prairie View A&M University is based on need. The Financial Aid Office attempts to provide the student with the difference between the amount of money a student and his family can provide for his education and the cost of that education.
2. Financial Aid is related to the expenses at Prairie View. Factors such as family size and the amount of money the student and his family can be expected to contribute for an academic year are all taken into consideration.
3. Financial Aid is intended and may be used for educational expenses only. No part of the aid provided may be sent home to cover family expenses, car notes, finance charges, medical bills, etc.
4. Financial Aid may be provided in a package in which scholarships, loans, grants and student employment may be combined.
5. Financial Aid provided will not exceed the student's need as determined by the Financial Aid Form.
6. Financial Aid will be constantly reviewed and adjusted as other student resources become known and available. This means that after the need award has been made, if the student receives a scholarship, Social Security benefits, Veterans benefits, etc., adjustments will be made to eliminate overfunding the needs of the student.
7. Where appropriate, the financial aid adjustment will be made by reducing the loan first.

UNIVERSITY SCHOLARSHIP SERVICE

Prairie View A&M University participates in The College Scholarship Service. Its primary functions include handling the confidential statements submitted by parents in support of applications for financial aid and serving as a clearing house of information for the colleges on scholarships, loans, and other forms of student aid.

The colleges using the CSS share the belief that scholarships should be awarded to students selected on the basis of ability and promise but that the amount of the awards should vary according to the financial need of the students and their families. The questions asked in the Financial Aid Form are designed to bring out the information needed by the colleges to understand fully the family financial picture, and to make certain the financial aid can be awarded to those qualified students whose need is greatest. Entering students seeking financial assistance are required to submit a copy of the Financial Aid Form (FAF) to the College Scholarship Service, designating Prairie View A&M University as a secondary school. Applications may be received by writing Prairie View A&M University.

STUDENT EMPLOYMENT

Student employment provides an opportunity for a student to contribute in a meaningful way to the progress of the University and to his financial welfare. Down through the years, students have contributed their skills and efforts in making a better Prairie View A&M University through student employment. The University holds that work experience can be a real learning opportunity for the student and therefore may be considered an integral part of the student's educational experience.

Whenever feasible, students are encouraged to help defray expenses through part-time employment rather than through loans. In this way, they need not leave college with a monetary debt to repay.

LOANS

NATIONAL DIRECT STUDENT LOAN PROGRAM. The Higher Education Amendments of 1972 provide for the National Direct Student Loan program. Long-term, low-interest loans are available for needy students. Each borrower must be enrolled or accepted for enrollment at the undergraduate, graduate, or professional level, be registered for at least one-half the normal course load, show need for funds, and maintain a good academic standing.

Application for the National Direct Student Loan should be made through the Financial Aid Office.

The loan limit for a student during his first two years of undergraduate study may not exceed \$2,500, with a maximum cumulative amount of \$5,000 for undergraduate study. Loans are available for the graduate or professional student, with a maximum of \$10,000, including loans made at both the undergraduate and graduate level. The amount of the individual loan is based upon financial need of the student as well as availability of funds of the institution.

Repayment time is normally ten years, beginning nine months after the student has completed his studies. There is no interest charges while the student is in school, but the loan draws interest of 3% beginning nine months after the time the student leaves school. Under certain circumstances a portion of the loan may be cancelled for designated public service.

The loan program replaces the National Defense Student Loan Program, enacted by Title II of the National Defense Education Act of 1958.

NURSE TRAINING LOANS. Long-term, low interest loans are available under the Nurse Training Act of 1964 for students enrolled in approved nursing programs leading to a diploma or degree. The maximum loan for an academic year is \$2,500, up to an aggregate loan amount of \$10,000. The borrower has the opportunity to cancel up to 85% of the loan over a three-year period as a professional nurse in certain designated areas of service.

ACADEMIC STATUS

1. One must be a full-time student enrolled in a school having a Loan Fund established under the Nursing Student Loan Program, or must have been accepted for enrollment as a full-time student.
2. One must be engaged in pursuing a course of study leading to a baccalaureate or associate degree in nursing.
3. One must be in good standing and capable of maintaining such standing.

The maximum amount available to an individual borrower in an academic year or its equivalent is \$2,500.00.

UNITED STUDENT AID FUNDS (USAF) LOANS are available to students through their local hometown banks on the recommendation of the University. This operates as the guaranteed loan program in Texas if the student is not in extreme need. Undergraduate students may borrow up to \$2,500.00. Students who attend an extra term during a given twelve month period may borrow up to \$2,500.00 per year. Graduate students may borrow \$5,000.00 each academic year. An undergraduate student may borrow up to \$5,000.00 maximum. A graduate student may borrow up to \$15,000.00.

GENERAL INFORMATION

The interest rate is seven per cent. Interest will be paid to the lender by the Federal Government while the student is in school, and three per cent interest will be paid while the student is repaying the loan, and provided the family income is \$15,000.00 or less.

A student need not begin repayment until the first day of the tenth month after he leaves school.

HINSON-HAZLEWOOD COLLEGE STUDENT LOAN. The Hinson-Hazlewood College Student Loan Program was enacted by the Texas Legislature and endorsed by Texas voters in 1965. The program was originally known as the Texas Opportunity Plan and is sometime referred to as the TOP loan. Funds are provided by the issuance of State of Texas bonds, and the Coordinating Board, Texas College and University System is responsible for administering the program. All accredited public and private non-profit institutions of higher learning in Texas are eligible to participate in the program.

To apply for a loan in participating institution, an individual must (1) be a legal resident of Texas, (2) be accepted for enrollment or enrolled for at least one-half a normal academic course load and be meeting the academic requirements of the participating college or university, and (3) show that he has insufficient financial resources to finance his education.

A student may borrow no more than the difference between actual financial resources and reasonable college expenses. The maximum loan for a nine month academic year is \$1,500. Loans of up to \$500 are available for summer school. The maximum amount which may be borrowed under this program may not exceed \$7,500.

Federal insurance coverage is provided on all loans. An insurance premium of $\frac{1}{4}$ of 1% per year is deducted from each loan for remission to the Federal Government.

The current interest rate is 7% per annum. If the student qualifies for federal interest subsidy benefits, the Federal Government will pay the interest until the time of repayment begins. Eligibility for federal interest subsidy benefits is based on the student's need for the loan.

Repayment of the loan begins nine months after the student ceases to be enrolled for at least one-half a normal course load. Payments must be made monthly, with the minimum payment being \$30.00. The loan repayment period may not exceed ten years from the date a student last enrolled in a participating institution.

Detailed information and application forms may be obtained through the Financial Aid Office.

SCHOLARSHIPS

THE CHARLES T. AND KATIE B. BRACKINS SCHOLARSHIP GRANT. The University has a scholarship agreement with an Advisory Board of the Mercantile National Bank of Dallas whereby Mrs. Eloise M. Willis, grantor, makes funds available in the amount of two \$500.00 loans per year in honor of the late Charles T. and Katie B. Brackins, respected and beloved citizens of the City of Dallas. The Advisory Board chooses the recipients from those candidates who can qualify for consideration. A primary prerequisite is that the applicant must be a graduate of a school of the Dallas Independent School District. Inquiries in regard to the grant may be directed to the Dallas High School Principal of Lincoln High School, Washington Technical High School, Madison High School, or to the Director of Financial Aids at Prairie View A&M University, Prairie View, Texas 77445.

Graduate Assistantships Available

Graduate teaching and research assistantships are available to students with exceptional academic records and promise for successful graduate study. Interested applicants should submit their applications and credentials to the office of the Dean, Graduate School. Application forms and dates to be submitted are available upon request through the Graduate School.

 The student who registers late will be charged a fee of \$1.00 for the first day plus \$1.00 each additional day with a maximum of \$5.00.
 - B. Automobile Registration
 Each student who owns an automobile on campus must have the vehicle registered. The fee is \$5.00 per six weeks, and \$10.00 for both summer terms, or \$10.00 per regular semester.
 - C. Laboratory Fees — A lab fee is charged for the use of the laboratory in such classes as Chemistry and Biology.

GRADUATE SCHOOL

PRAIRIE VIEW A&M UNIVERSITY — 1979-80

WAYMON WEBSTER, Dean, Graduate School

The Graduate School has general supervision of all graduate studies carried out in the specialized departments, divisions, schools, and colleges of the university and in this respect serves as an administrative unit concerned with all aspects of graduate study. Procedures, regulations and policies which provide direction for graduate programs are developed by the Graduate Council administered by the Dean of the Graduate School. This Council, consisting of ex-officio, elected, and appointed members, is responsible for determining the basic policies of the Graduate School.

Prairie View A&M University has a distinct character identified with its graduate program and subsequently reflects a kind of philosophy and objectives to be achieved. This character peculiarly related to the University has been a distinguishing feature and will continue to serve as the underlying source of stimulation for continuous improvement.

ACCREDITATION

Prairie View A&M University is accredited by the Texas Education Agency, the Southern Association of College and Schools, and the National Council for Accreditation of Teacher Education.

ADMISSION TO THE GRADUATE SCHOOL

Applicants for admission to the Graduate School should submit a regular application blank properly executed at least thirty days prior to the opening of the season in which they wish to register. This is to be accompanied by an official transcript of undergraduate work completed.

1. Arrange for two (2) official transcripts of all previous college work inclusive of Bachelor's degree to be sent to the office of the Graduate Dean within appropriate time to be considered along with submitted application form.
2. A previously earned Bachelor's degree from an accredited College or University is a prerequisite for admission to the Graduate School.

Final Dates for Admission

The following dates have been established as final dates for applying for admission:

For September Admission	August 1st
For January Admission	December 1st
For Summer Session Admissions	May 1st

These closing dates are necessary to provide the Graduate School Office with sufficient opportunity to review all applications for admission. Processing of application cannot begin until all credentials are on file with the office of the Graduate Dean.

Criteria in Evaluating Graduate Applications

1. The undergraduate record, particularly in fields related to the applicant's projected graduate study must reflect a grade point average of 2.75 or better. There must be evidence of satisfactory preparation for graduate study in the fields chosen. The general undergraduate record, educational experiences and one's record in relation to major field of specialization will be considered in determining admission status.
2. Written recommendations from known faculty members or persons knowledgeable about the applicant's potential for graduate study must be submitted.
3. Levels of performance on the Graduate Record Examination (GRE) for Master of Arts and Master of Science Degree candidates; levels of performance on the Graduate Management Admission Test (GMAT) for Master of Business Administration (MB) Degree must be acceptable.

4. Evidences of acceptable character and personality are considered in evaluating applications.

Foreign Student Requirements

All students whose native language is not English must take the "Test of English as a Foreign Language" and submit scores to the Graduate School as evidence of their ability to utilize English as a language of instruction. The TOEFL test score is the only evidence which will be accepted in this regard. An application for admission to the Graduate School will not be considered prior to the receipt of the TOEFL score. Application to take the test should be addressed to TOEFL, Educational Testing Service, Princeton, New Jersey, at least nine months in advance of the intended date of commencing graduate work. The test is administered four times per year in centers throughout the world.

Types of Admission

Degree Applicant: A student who wishes to pursue a program leading to the Master's degree.

Certificate Applicant: A student who wishes to pursue a program of study leading to the professional certificate. This applicant must meet the same criteria as the Degree Applicant for admission to the Graduate School.

Special Student: "Special Students" may be of four categories. They are: (1) students who do not wish to become applicants or candidates for a Master's degree, (2) those students who do not qualify for admission as "Degree Applicants," (3) students who are removed from "Degree Applicant" status of low quality of performance, and (4) a student whose application forms were not completely processed within the 30 days prior to the opening of the session for which he wishes to register. This student may enroll for one semester, with the stipulation that he signs a form verifying (a) his awareness of his status and (b) his understanding that upon the completion of the processing of his folder, he will comply with requirements specific to his classification. Work taken by this special student is recorded by the Registrar's Office and the Graduate Office, but is not usable on a degree program until and unless the student secures admission to the Graduate School as a degree student. A special student in this category who secures admission will be converted to Degree Student Status. A special student who is denied admission will be converted to a non-degree status.

Special students, in the first category, may become Degree Applicants when they can comply with all admission requirements.

Graduate credit toward a degree will not be allowed normally for any course unless the student has been granted admission to the Graduate School. In case of unusual circumstances a maximum of nine (9) hours taken prior to admission to the Graduate School may be accepted in the degree program.

Graduate Work by Seniors

A senior in this university who lacks six semester hours or less of having completed the requirements for the undergraduate degree may, with the approval of his undergraduate dean, the Dean of the University, and the Dean of the Graduate School, register for graduate courses, not to exceed six semester hours, while completing his undergraduate requirements. If graduate credit is desired for any part of the work carried, the combined load of the graduate and undergraduate courses must not exceed 12 semester hours.

ADVISEMENT AND ACADEMIC COUNSELING

Each student is assigned a departmental major advisor on his matriculation at the University. The student should consult with the advisor at least once a semester and receive approval of courses to be taken for the degree. Consultation on all academic, vocational, social and emotional concerns should begin with the major advisor.

DEGREE PLAN

The student should file a Degree Plan within his first semester of matriculation in the University. Degree Plan forms may be obtained from Major Advisor. The Major Advisor, Departmental Head and Graduate Dean review and approve the Degree Plan.

INSTRUCTIONAL PROGRAMS

The Graduate School offers graduate programs designed to educate scholars and practitioners whose professional roles will effect the improvement of practices in their professions.

The Graduate School offers programs leading to the Master of Arts degree, Master of Science degree, Master of Business Administration degree, Master of Education degree, and Professional Certification.

MASTER'S DEGREE**General Requirements**

The master's degree requires a minimum of thirty semester hours beyond the bachelor's degree. Generally, at least twenty semester hours of graduate work in the major field and ten semester hours in the minor field will be required.

A minimum of thirty semester hours, exclusive of thesis, with an average grade of B or better, in courses approved for graduate credit, is required for the degrees of Master of Arts and Master of Science. Thirty-six semester hours of course work are required for the degree of Master of Education.

Master of Arts Degree

The purposes of the Master of Arts degree are: to develop the student's ability for continued self-directed study in this field of specialization, to improve the student's professional competence, and to enable the student to broaden his cultural background, to develop his personal and social responsibility and to prepare for community leadership.

Master of Science Degree

The Graduate School offers the Master of Science degree in certain natural sciences and in curricula which stress improving occupational competency in business and industrial firms and in the public and social agencies of the community. These programs emphasize applied knowledge and professional skills. They are designed to develop in the student an extensive knowledge of his academic field, competence in research procedures, and a deeper understanding of human behavior. The programs seek to develop a student's ability to solve problems through combining findings of research with technical skills of occupations.

Master of Business Administration Degree

The purpose of the program for the Master of Business Administration degree is to develop insights, analytical skills, and competences essential to a satisfactory performance as an executive in contemporary business.

Master of Education

The Master of Education Degree is a specialized professional degree appropriate for those who plan careers in teaching or related careers. Prerequisites for this degree are eighteen semester hours of undergraduate education credits and two or more years of teaching experience. A written research report and/or special project of exceptional quality will be required of each student for this degree.

Professional Certification Programs

Professional Certification programs are offered in the Graduate School for public school teachers, Counselors, Supervisors and Administrators. Upon satisfying the required competencies in the certification programs, the student earns the professional certificate in the area of specialization.

Degree Program Requirements

The following requirements apply to each degree program:

1. Course Requirements —
 - a. A minimum of thirty (30) semester hours, exclusive of thesis, with an average grade of "B," or better, in courses approved for graduate credit, is required for the degrees of Master of Arts and Master of Science.

GRADUATE SCHOOL

- b. A minimum of thirty-six (36) semester hours of course work is required for the degree of Master of Education and Master of Business Administration.
- c. Ordinarily, at least twenty (20) semester hours of graduate work in the major field and ten (10) semester hours in the minor field will be required.

2. Transfer of Credit —

Credit obtained in a different but recognized institution, not exceeding six semester hours, may be transferred and credited to the Master's degree, provided that the work was of graduate character and provided that acceptance of the transferred credit does not reduce the minimum residence period of one academic year. Graduate credit for which the student received lower than a "B" grade cannot be transferred to this University. Transfer of advanced credit is not made unless requested by the student in a letter to the Dean of Graduate Study. Such a transfer of credits from another institution to apply in partial fulfillment of the requirements of the Master's degree must be approved by the Graduate Council. An "A" grade from another institution or earned in extension courses, may not be used to validate a grade of "C" earned in this College.

3. Extension and Correspondence Courses —

A student who has satisfied requirement for admission to the Graduate School may receive credit toward the Master's degree for extension courses, subject to the following conditions: (1) graduate credit will be given only for courses approved by the Graduate Council; (2) the courses fit in with the student's program of study; (3) graduate credit for extension courses shall not exceed six semester hours and shall not reduce the residence requirement for the degree; and (4) an "A" grade from another institution or earned in extension courses, may not be used to validate a grade of "C" earned in this University. Correspondence work is not accepted for graduate credit. With the consent of the department concerned, a student may take work by correspondence to remove deficiencies in his undergraduate training.

4. Not more than a total of nine semester hours of extension and transferred credits combined may be counted toward the Master's degree.

5. Quality of Work —

A candidate must maintain at least a "B" average in all work taken in graduate study.

6. English Usage Requirement —

A student who is deficient in English usage but who is otherwise doing satisfactory work will be required to satisfy the Committee on English Usage with regard to his use of the English language, before he is allowed to graduate. Such deficiency might be determined by an English Usage examination or by reports of instructors of courses in which a student is registered.

7. Admission to Candidacy —

A graduate student having been previously admitted to full graduate status does not automatically become a candidate for the Master's degree. To become a candidate, the student must complete the following requirements:

- a. Achieve a satisfactory score on the Graduate Record Examination or GMAT.
- b. Prepare and submit official application for Candidacy Form reflecting the applicant's having satisfactorily completed twelve (12) semester hours of required graduate courses with an average of "B" or better. This candidacy form should provide a listing of courses completed as well as those to be completed. This instrument becomes the basic guide for the student and advisor to be followed through to completion of the degree program.

This candidacy form is procurable in the office of the Graduate Dean. The application when approved by both major and minor areas of specialization must be submitted to the Graduate Dean for approval.

8. Foreign Language Option —

At the option of the head of the department in which the major work is done, a reading and working knowledge of French, German or Spanish may be required to complete the requirements for the Master of Arts degree.

9. Thesis —

In addition to the thirty semester hours in graduate courses all candidates for the degrees of Master of Arts and Master of Science must present an acceptable thesis on a subject germane to the major course of study. The thesis must be written under the direction of a member of the faculty of the Graduate School in the department in which the individual is working. The thesis must have the approval of each member of the Student's Reading Committee. This work must be acceptable with respect to both scholarship and literary quality. A candidate for an advanced degree must have his thesis subject approved by his Chairman at least six months before the date of his intended graduation in order that it may be examined by each member of the Advisory Committee of the student.

Two copies of the thesis must be filed in the Graduate Office.

10. Seminar Paper —

All candidates for the degree of Master of Education are required to enroll in a Seminar in connection with which a seminar paper will be written according to a prepared form approved in writing by the instructor in charge of the seminar. This paper shall deal with a topic in the student's major field of concentration.

11. Application for the Degree —

Any candidate expecting to graduate at the end of a regular long session is required to file application for the degree expected by October 15th on a form available in the Registrar's Office. If graduation is expected at the end of the summer session the application for the degree should be made by March 15th. The application should be directed to the Registrar with prior approval of major advisor and Dean of Graduate School.

12. Final Examination —

After the thesis has been completed and filed with the Graduate Office, the candidate is required to pass a general comprehensive examination which shall be a test of the candidate's knowledge of the study which he has mainly pursued. This general examination is conducted by the Student's Advisory Committee of which the representative of the major field shall act as Chairman, and at least two other examiners to be appointed by the Dean of the Graduate School after consultation with the Advisory Committee. Any member of the Graduate Faculty may attend the examination as a visitor.

A candidate who fails in his general examination must register in the Graduate School and carry work for an additional semester before an opportunity will be given for a second examination, unless special permission is granted by the Graduate Council for an earlier examination at the request of the department concerned.

13. Recommendation for the Degree —

Upon completion of all requirements for the Master's degree, candidates are certified for graduation by the Chairman of the Graduate Council. Degrees are publicly conferred at the close of the regular and the summer sessions.

Time Limit On Work for Master's Degree

A student must complete his Master's work within six consecutive years after his first enrollment in the Graduate School. Credit for individual courses completed in residence between six and seven years before all requirements for the Master's degree are completed may be validated by special examination given by the department concerned. Courses completed in extension, or at another institution, cannot be validated. A course in which a grade "C" was earned cannot be validated. A validated course is valid as credit toward the Master's degree only during the term it is validated.

Grading System for Graduate Students

Course work for graduate students is reported as "A" (95-100); "B" (85-94); "C" (75-84); "D" (65-74); "F" (below 65); "I" (incomplete); "W" (Withdrew officially or withdrew passing).

No graduation credit is given for courses in which a grade lower than "C" is received. In order to show satisfactory progress toward an advanced degree a student must receive an average grade of "B". A graduate student is expected to maintain a "B" average in all his work.

The work of a graduate student performed in connection with this thesis problem is reported as "satisfactory" or "unsatisfactory."

A graduate student may receive a grade of "I" — incomplete, in a course with the privilege of finishing the work at a later date. "Incomplete" work must be completed within twelve months after the close of the term in which the grade was earned, or no credit will be allowed for the course.

Graduate students registered in courses that are open to advanced undergraduates must do a certain amount of work in addition to that required of undergraduates. The nature of this additional work may be the reading of additional books on the subject and presenting a review of same, the making of reports, or such other work as the teacher in charge of the course may deem wise.

Comprehensive Examination

Candidates for the Master of Education degree are required to pass a comprehensive examination covering the professional field of education and the general field of his major study. The examination is designed to test the student's ability to apply principles, to analyze, to synthesize, and to evaluate. It is thus recommended that the student remain current with the literature both in Education and the field of his major interest. Candidates for the degree are expected to have developed should scholastic skills and the potentiality for research.

1. The comprehensive examination will be written, but where very unusual circumstances require it, the examination may be oral — if recommended by the major adviser and/or departmental head, appropriate School or College Dean, and the Dean of the Graduate School.
2. Grades for this examination must be filed in the Departmental Office and the Office of the Graduate School.
3. In the event that a student fails to pass the first examination, the advisor and departmental head may recommend that the candidate be permitted to prepare himself for re-examination. In this event, the student and his advisor will plan a program of study, including independent study, further course work, or both. His semester hour requirements may thus be extended. Re-examination cannot take place until a minimum of one semester has elapsed.
4. A second failure by a candidate would require further study with reexamination permitted only after two semesters have elapsed since the semester in which the examination was taken.

Student Petitions and Appeals

A student who has problems arising from evaluation, advancement to candidacy, degree requirements, or general regulations should discuss them first with a graduate major adviser. If a student wishes to review a problem or to appeal a decision, he should first consult with the departmental chairman, and the school dean, in that order.

Course Load

1. Maximum Load

- a. During a regular session, a graduate student may not enroll for more than 15 hours.

- b. During a six-weeks summer term, a student may not enroll for more than six hours, except that one course is a four-hour course, in which case he may enroll for seven hours. The total hours for the summer session may not exceed twelve hours.
 - c. A student may not enroll for more than three hours during a three-weeks summer term.
 - d. A student enrolled in the three-weeks term may not enroll for more than one three-hour course in the six-weeks terms being conducted concurrently.
2. Graduate Work of Teachers Employed in Texas Public Schools

The student load of teachers employed full-time may not exceed six semester hours or equivalent per semester.

Graduate Assistantships Available

Graduate teaching and research assistantships are available to students with exceptional academic records and promise for successful graduate study. Interested applicants should submit their applications and credentials to the office of the Dean, Graduate School. Application forms and dates to be submitted are available upon request through the Graduate School.

Student Responsibility

It is the responsibility of the student to inform himself and to carry out all regulations and procedures required by the program he is pursuing. In no case will a rule be waived or an exception granted because a student pleads ignorance of the rule or asserts that he was not informed of it by his adviser or other authority.

College of Agriculture

F. L. Richards, Dean,

O. C. Simpson, Director-Agricultural Research, Hoover Carden, Administrator Extension Service

The College of Agriculture offers the Master of Science degree in Agriculture with a major in four different specialized areas. The major areas are Soils, Agricultural Education, Agricultural Economics and Extension Education. The Master of Education degree (M.Ed.) is also offered in Agricultural Education.

The master's curriculum in agriculture provides excellent preparation for specialized careers. The variety of course offerings, the research for the graduate thesis and the variety of occupational experiences provided the graduate student substantially enrich the Master's degree program in Agriculture.

DEPARTMENT OF AGRICULTURAL ECONOMICS (AgEc)

Alfred L. Parks, Head

1977-78 Faculty

Bobby Mixon, Thaddeaus McDonald

To fulfill the requirements of the M.S. degree program in this subject matter field, the student must satisfactorily complete at least 18 semester credit hours of course, work in agricultural economics and satisfy all other requirements prescribed including supporting courses and a thesis. Prerequisite academic preparation is prescribed in the Department graduate program handbook.

DESCRIPTION OF COURSES

513. Agricultural Finance. (3-0) Credit 3. Theories, principles and problems of financing agricultural businesses including farms and ranches; costs and returns from the use of capital; forms and roles of capital in agriculture; capital productivity and earnings; capital market organization and institutions; supply and demand of financial resources; role of debt in firm growth.

523. Agricultural Marketing. (3-0) Credit 3. Theoretical foundations of marketing in the modern economic system, including values added in the marketing system; dimensions and functions of marketing in relation to time, space and value; market integration and product quality control; market contracting, orders and power.

533. Research Methods. (3-0) Credit 3. Philosophy, methods and techniques of scientific research in the discovery of new knowledge especially in economic development and productivity of agriculture; role of theory and assumptions; definition of research problem; research project proposals including objectives and procedures; analytical methods and techniques in research; evaluation of research studies and development of thesis prospectus or equivalent.

613. Agricultural Prices. (3-0) Credit 3. Theories and principles fundamental to pricing of agricultural factors of production and agricultural commodities; relationship of prices within the agricultural sector and between those in the agricultural sector and those in the general economy; kinds of price changes; forecasting factors and conditions that affect agricultural prices; futures trading; parity prices; administrated prices.

723. Economic Development and Agriculture. (3-0) Credit 3. Attributes and role of agriculture in national economic development; factors affecting agricultural productivity in underdeveloped areas; roles of research, teaching and extension in agricultural development; firm management and institutional administration in economic development.

733. Agricultural Firm Organization and Management. (2-2) Credit 3. Theories of the firm and the management process; farm-ranch business growth and productive efficiency; control and coordination of the agents of production; risk and uncertainty; agri-business organization and management; managerial decision-making. Laboratory application of principles of economics to the production process, including analysis of costs, returns, and productivity.

743. Economics of Natural Resource Development. (2-2) Credit 3. Nature and economic dimensions of private and public control and use of natural resources, including land; stock and flow resource concepts; time and space as they affect resources utilization and benefits. Laboratory studies of field problems in resources development and use.

763. Agricultural Policy. (3-0) Credit 3. Theoretical foundations of policy-making economic value of public policies and programs to the agricultural industry; interrelation of the social, political and economic system, and agriculture; policy development and implementation; value of agricultural policy to society.

793. Special Topics. (3-0) Credit 3. Special topics dealing with economic problems of agriculture in relation to the economy; contemporary domestic and international issues. Formal presentations and discussions. Development and test of needed new courses.

800. Research (Thesis). Credit 6. Initiation and completion of a research project of approved originality and scope for an advanced degree. The thesis report is to be of format, style and quality consistent with the standards of the agricultural economics profession. Prerequisite: Approval of Department Head.

DEPARTMENT OF AGRICULTURAL EDUCATION AND EXTENSION EDUCATION

C. L. Strickland, Sr., Head

Freddie Richards, Emerson Sanders

The candidate for the Master of Agriculture degree with a major in Agricultural Education or a major in Extension Education will select courses from the description of courses listed below. To fulfill the requirements for the Master of Agriculture with a major in Education or Extension the student must complete at least 18 semester hours of course work from the courses listed below and satisfy all other requirements prescribed, including supporting courses and a thesis. A total of 30 semester hours is needed for the Master of Agriculture degree. The candidate for the Master of Education degree with a major in Agricultural Education must complete 36 hours of course work and write a paper directly related to his major.

DESCRIPTION OF COURSES

503. Seminar. (Agricultural Education 503 Seminar) (1-0) or (2-0) Credit 3. Group study of current legislature and research development in agricultural education and related areas of education.

513. Methods and Principles of Adult Education. (Agricultural Education Adult Education) (3-0) Credit 3. An analysis of the problems related to adult education in vocational education and to the development of objectives and procedures in the organization and conduct of such instruction. Identification of the basic principles that motivate adults to learn.

523. Supervised Practice Program Building. (AgEd 523 Prog Bldg) (3-0) Credit 3. Teaching in Vocational Agriculture. Permission of instructor is required. Based upon researches in project accounting and analysis.

533. Occupational Experience Programs in Agriculture. (AgEd 533 Occupational Experience) (3-0) Credit 3. Study of the nature and scope of occupational experience programs. Cooperative part-time training and pre-employment laboratory experience programs will be emphasized.

543. Advanced Methods in Agricultural Education. (AgEd 543 Advanced Methods) (3-0) Credit 3. Advanced course in teaching. Professional public school or extension experience or approval of Department Head.

553. Youth Leadership Activities and Programs. (AgEd 553 Youth Activities) (3-0) Credit 3. Methods of development and conducting youth programs, and organizations; objectives, program content, and evaluation.

523. Plant Nutrition and Soil Fertility. (Agron 523 Pl Nutr and Soil Fert) (3-0) Credit 3. I. A study of the most important elements for plant growth derived from the soil; their source and availability in the soil and their functions in plant metabolism. Emphasis will be placed on nitrogen, phosphorus, potassium, calcium sulphur, iron, zinc, aluminum and magnesium, including the cause and correction of copper, aluminum, and manganese toxicity in plants. Prerequisites: 9 hours of soil and 3 hours of plant physiology.

593. Advanced Soil Management. (Agrn 593 Soil Mgmt) (2-2) Credit 3. The application of the principles of soil management to the solution of practical farm problems.

603. Soil Mineralogy in Relation to Soil Formation. (Agro 603 Soil Mineralogy) (3-0) Credit 3. I. A study of weathering processes and products in relation to soil formation and effects of mineralogical composition on soil properties and profile characteristics. Prerequisites: 9 hours of soil and 3 hours of physics or consent of instructor.

563. Workshop in Agricultural Education. (AgEd 563 Workshop) (3-0) Credit 3. Study of selected problems in teacher and/or extension education. Consultants utilized in specialized areas.

613. Philosophy of Agricultural Education. (AgEd 613 Philosophy) (3-0) Credit 3. Study of Philosophy and evaluation of education in agriculture; socioeconomic influence for the establishment of agricultural education.

623. Public Relations and Agricultural Education. (AgEd 623 Public Relations) (3-0) Credit 3. Methods and practices of acquainting the public with the scope and purposes of vocational education through print, radio, visual aids, and full use of written and spoken words.

633. Guidance and Counseling for Rural Youth. (AgEd 633 Guidance and Counseling) (3-0) Credit 3. Study of educational, occupational, and vocational opportunities for rural youth; techniques of individual group counseling in guidance. Practicum in personality and occupational interest testing. Educational and occupational trends.

643. History and Principles of Vocational Education. (AgEd 643 Principles) (3-0) Credit 3. The historical development of vocational education. The objectives of vocational education. Types of vocational programs, services and activities.

714. Problems in Agricultural Education. (AgEd 714 Problems) Credit 1 to 4. Studies related to classroom, laboratory, supervised farming, work experience, extension education, and adult and young farmer educational activities in agriculture. Directed individual study of selected problems.

723. Technological Change. (AgEd 723 Change) (3-0) Credit 3. A study of cultural change — a theoretical base for planned technological change. Emphasis will be given in methods of planning and implementing change, its effects and how it can be predicted.

DEPARTMENT OF SOIL SCIENCE

Faculty T. S. Harris, E. Brams, A. Mangaroo

The Soil Science Department offers a Master of Science degree in Agriculture with a major in soil science. This program provides students with an excellent opportunity to develop and improve their research capabilities while becoming better trained in basic soil science. Requirements which must be met to obtain this degree are as follows:

1. A minimum of thirty (30) credit hours in the graduate curriculum and a thesis for which zero (0) credit hours are earned. A minimum of eighteen (18) of the required 30 credit hours should be earned by completing courses in soil science.
2. All other requirements pertaining to graduate study must be met in accordance with the directives stipulated in the University's General Catalogue.

In conjunction with the department's research program, research equipment and facilities are maintained and utilized to increase the experience of graduate students and maximize their involvement in research activities.

COURSE DESCRIPTIONS

- 514. Soil Microbiology. (Agron. 514 Soil Micro) (3-2) Credit 4. I.** Soil Microorganisms and their effect on soil physical and chemical characteristics, nitrogen fixation, organic matter decomposition and denitrification. Prerequisite: 9 hours of soils and 6 hours of biology or consent of instructor.
- 614. Soil Physics. (Agro 614 Soil Physics) (3-2) Credit 4. I.** A study of the most important physical properties of soil such as structure, texture, aeration, soil water movement, and thermal relationships. Prerequisites: 2 semesters of physics, 9 hours of soils or consent of instructor.
- 623. Tropical Soils. (Agro 623 Tropical Soils) (3-0) Credit 3. II.** The physical and chemical properties of tropical soils; their fertility status and effects of cultural practice on soil properties. Soil conservation and management will be considered for different soils under diverse environmental conditions and farming practices. Special consideration will be given to the yield of tropical crops and their response to cultural practices, including control of soil-borne diseases, pests, and weeds.
- 703. Soil Fertility Problems of Savanna-Prairie Ecology. (Agro 703 Savanna-Prairie Ecology) (3-0) Credit 3. II.** A consideration of management practices of Savanna-Prairie soils in relation to yields of pasture and row crops and on soil properties. Particular attention will be given to the effect of lime and rotational systems on efficiency of fertilizers under varying rainfall and temperature situations.
- 713. Soils and the Quality of the Environment. (Agro 723 Soils and Environ) (3-0) Credit 3. II.** The study of the pollution of soils, soil erosion and pollution, agricultural derived chemicals as pollutants, soil as an aid to waste disposal, and other pollutants related to agriculture.
- 714. The Physical Chemistry of Soils. (Agro 714 Soil Phys Chem) (3-2) Credit 4. I** A study of the physicochemical properties of soil with particular emphasis on methods and instruments employed in characterizing clay minerals, soil acidity, ionic adsorption and absorption, nutrient fixation and release and plant uptake. Prerequisites: 9 hours of soils, 9 hours of chemistry, and 3 hours of physics.
- 743. Fertilizer Technology and Use. (Agro 743 Fert Tech) (3-0) Credit 3. II.** A study of problems in fertilizer manufacture, storage, use, application, and chemical reactions of fertilizer when applied to soil, fertilizer recommendation according to soil types and crops.
- 753. Soil Genesis, Morphology and Classification. (Agro 753 Soil Gen and Class) (3-0) Credit 3. I.** The principles dealing with the reasons why soils differ, how soils differ and how soils are related to one another and to the landscape in which they occur.
- 763. Soil Survey and Interpretation. (Agro 763 Soil Survey) (3-0) Credit 3. II.** The methods and techniques employed in making soil surveys and their interpretations for better land use.
- 773. Soils Interpretations for Land Use Planning. (Agro 773 Land Use) (3-0) Credit 3. I.** A study of factors affecting land use planning and the suitability of soils for various land uses such as residential and industrial development, septic tank fields, sewer lagoon, foundations, roads and streets, recreation, agricultural production and others.
- 801. Seminar. (Agron. 801 Seminar) (1-0) Credit 1. I and II.** Presentation and discussion on topics of individual research.
- 802. Special Problems. (Agro 802 Problems) (2-0) Credit 2. I and II.** Students will select from among the following areas to develop an investigative paper based on library, field and/or laboratory.
- 803. Introduction to Biometrics. (Agro 803 Biometrics) (2-2) Credit 3.** A study of the scientific method, statistical concepts data, analytical procedures, and experimental designs.
- 813. Application of Biometrics. (Agro 813 Biometrics) (2-2) Credit 3.** A study of error control through proper experimental design utilization in bio-research.

DEPARTMENT OF ANIMAL SCIENCE

Faculty

W. Baker, F. Pinkerton, A. Poindexter, L. Weatherspoon

The Department of Animal Science offers one Graduate level Course. The Research Program in the Department offers the graduate student in other areas of agriculture an opportunity for thesis Research.

COURSE DESCRIPTION

College of Arts & Sciences

ECONOMICS

Majors and minors are offered in the Department of Economics on the Graduate Level. Students desiring to major or minor in Economics should consult with the Head of the Department and plan a program in conjunction with the major professor.

The graduate courses in Economics permit intensive research and study in the subject matter areas of the various departments of the Social Sciences.

Among the specific objectives are (1) development of ability to use available literature, facilities and techniques of investigation, (2) advancement of independent thought necessary for further study, and (3) experimentation and contribution to the field.

A major in Economics is required to take at least 21 semester hours of course work in Economics. A minor in Economics is required to take a minimum of 9 hours in Economics.

To major in economics, the student should present undergraduate credits of 30 semester hours in economics, business administration, mathematics, geography and/or other social sciences of which 15 should be in economics.

To minor in economics, the student should submit a minimum of 9 semester hours of undergraduate credit in economics.

The student must prepare a thesis proposal for approval by his committee at least 14 weeks prior to the close of the semester in which the student expects to receive his degree. The candidate must pass a final examination (oral) not less than two weeks before the date on which the degree is to be conferred.

For course sequence, or any other information, consult the Head of the Department and the professor offering the course.

ENGLISH

The English Department offers a Master of Arts degree.

For admission to graduate study in English a student should present at least an undergraduate minor, 24 semester hours in this field. A student is expected to pass an English qualifying examination before admission to candidacy is approved.

Prerequisite courses, such as the English Language which the student did not take while an undergraduate at this university, must be taken before the student begins the coursework in the graduate program.

REQUIREMENTS FOR A MASTER OF ARTS DEGREE IN ENGLISH

Requirements are stated in terms of minimum essentials. Students are urged to indicate some effort toward enrichment of background by including in their programs more than the minimum essentials. The 21 credit hours must be in courses on the graduate level — numbered 500 and above.

THE MAJOR — Suggested courses

Course Number	Credit Hours
English 533, 543, 583, 753, 803, 813, 823, 883	3 each

ADMISSION TO CANDIDACY

Action on admission to candidacy for a Master of Arts Degree in English will be taken after the student (1) has been in residence for at least one semester or summer session, earning at least twelve hours of graduate course credits; (2) has maintained a "B" average or better; (3) has satisfactorily passed a comprehensive examination in English Language and Literature.

The student failing to meet the above requirements will be continued on probation for a second semester. In the event he does not meet the requirements for candidacy at this time, it will be understood that no more graduate credits earned by him will be applicable to a Master's Degree.

MINORS

Prerequisite — The Equivalent of an Undergraduate Minor in English

I. In English

The following courses are required to fulfill the 12 credit hours for a graduate minor in English:

Course Number	Credit Hours
English 533, 583, 813, 883.....	3 each

HEALTH & PHYSICAL EDUCATION

REQUIREMENTS FOR MASTERS OF SCIENCE DEGREES IN PHYSICAL EDUCATION

Students with undergraduate major or minor in Physical Education will be required to complete additional courses designed to give them competence in the areas of subject matter that are basic to this field. A demonstration of skill in teaching a wide variety of Physical Education activities is required. Courses listed below are prerequisite courses:

I. Basic Science:

A. Minimum

1. Zoology (or its equivalent)
2. Anatomy
3. Physiology

II. Health Education Courses:

A. Minimum (choice of two)

1. Personal Hygiene
2. Principles of Health Education
3. Methods of Health Education
4. Health Education

III. Technical Training in Physical Education

Organization and Administration of Physical Education	3 hrs.
Methods and Materials in Physical Education	3 hrs.
Kinesiology	3 hrs.
Care and prevention of Athletic Injuries of First Aid	2 hrs.
Tests and Measurements in Physical Education	3 hrs.
Coaching	3 hrs.
Modern Dance, Folk Dance, or Gymnastics	3 hrs.

PHYSICAL AND HEALTH EDUCATION

Prerequisites for a graduate major will ordinarily consist of not less than 30 semester hours of undergraduate credits in the chosen field or in some related field. A graduate minor will ordinarily be based upon not less than 12 semester hours of undergraduate work.

If the transcript of the undergraduate record of a student does not meet the above qualifications, additional satisfactory undergraduate work will be required before the student is admitted to graduate status.

It should be clearly understood that admission to the graduate school does not imply admission to candidacy for a degree.

Courses for which graduate credit may be obtained are numbered above 500. A minimum of 21 prescribed hours and a thesis are required.

Graduate courses required for a major in physical education

623. Physiology of Muscular Exercises	3 hrs.
633. Advanced Tests and Measurements in Physical Education	3 hrs.
653. Administrative Problems in Physical Education	3 hrs.
703. Seminar I — Techniques of Research in Physical Education	3 hrs.
713. Seminar II — Thesis	3 hrs.
723. Kinesiology	3 hrs.
733. Supervision in Physical Education	3 hrs.
753. Scientific Foundation of Physical Education	3 hrs.
763. Physical Education Curriculum	3 hrs.
613. Individual Physical Education	3 hrs.
593. Psychology of Motor Learning	3 hrs.
693. Teaching Physical Education	3 hrs.

GRADUATE MINOR IN PHYSICAL EDUCATION

653.	Administrative Problems in Physical Education	3 hrs.
733.	Supervision in Physical Education	3 hrs.
753.	Scientific Foundation of Physical Education	3 hrs.
763.	Physical Education Curriculum	3 hrs.

DESCRIPTION OF COURSES

593. Psychology of Motor Learning. (PE 593 Psych of Motor Learning) (3-0) Credit 3. I or II. Learning process in motor skills as the foundation of teaching methods in physical education activities; practical experience in testing theories.

613. Individual Physical Education. (PE 613 Indiv PE) (3-0) Credit 3. I or II. Making a physical education program meet the needs of handicapped individuals; fundamental principles in the selection and adoption of activities in corrective procedure; abnormal physical conditions that come to the care of reports. Prerequisites: Physical Education 314 and 323.

623. Physiology of Muscular Exercises. (PE 623 Exercise) (3-0) Credit 3. Effect of exercise upon bodily functions and effects of special types of exercises upon body function.

633. Tests and Measurements. (PE 633 Test Measmt) (2-1) Credit 3. Tests available in the field for the various situations from elementary school to college. Use of various Anthropometric and strength test instruments.

653. Administrative Problems in Physical Education. (PE 653 Adm Probms) (3-0) Credit 3. I or II. Coordination of the different phases of the program; administrative problems of physical education, intramural and intercollegiate athletics.

693. Teaching Physical Education. (PE 693 Tchg PE) (3-0) Credit 3. I or II. A study of traditional and innovative teaching techniques in physical education as well as the practical application of teaching styles.

703. Seminar I — Techniques of Research in Physical Education. (PE 703 Seminar I). Techniques used in physical education research; historical, philosophical, descriptive (observation, questionnaire, interview, job analysis), experimental and comparative methods; methods of preparing bibliographies, of selecting and defining thesis problems. This course must be taken during the first twelve hours of graduate work. (Credit 3).

713. Seminar II — Thesis. (PE Seminar II). Guidance in thesis writing; analysis of data, presentation of thesis topics in seminar groups for discussion and criticism. To be taken after thesis data have been gathered or with the consent of the instructor. (Credit 3).

723. Kinesiology. (PE Kinesiology) (2-1) Credit 3. I. Musculature and bone structure of the body in relation to the science of movement, joint mechanism and muscle action with special application to athletes and training.

733. Supervision in Physical Education. (PE 733 Supervision). Study of principles and tools of educational supervision and their application to physical education. (Credit 3).

753. Scientific Foundation of Physical Education. (PE 753 Foundation) (3-0) Credit 3. Principles taken from biology, sociology, psychology, anatomy and physiology, basic to the teaching of physical education.

763. Physical Education Curriculum. (PE 763 Curriculum) (3-0) Credit 3. Study of activities, aims, objectives and outcomes as they relate to courses of study and their construction; development of a course of study for the student's own particular situation.

REQUIREMENTS FOR A GRADUATE MINOR IN HEALTH EDUCATION

A program of Health Education may be arranged for students seeking a graduate minor.

A prerequisite of six semester hours of undergraduate work in Health Education is required of all persons seeking a graduate minor in this field. Personal Hygiene and Community Hygiene are normally accepted for this requirement; however, equivalent courses will be considered. In the case of students with unusual preparation or experience in specific areas related to the health field, an exception may be made with reference to the above requirements after consultation with the departmental advisor.

A program totaling not less than 12 semester hours will be arranged in consultation with the departmental adviser. The following two courses will be required of all students. Other courses may be selected to meet the needs and interest of the student.

REQUIRED COURSES

Health Education 683.	Community Planning for Health	3 hrs.
Health Education 693.	Teaching of Health	3 hrs.

The student may select any of the following courses to complete the requirement of 12 semester hours:

Health Education 693.	Contemporary Health Problems	3 hrs.
Health Education 663.	Health Care of Children	3 hrs.
Health Education 673.	Nutrition and Health	3 hrs.
Health Education 901.	Environmental Sanitation	1 hrs.
	Laboratory (or) Workshop in Health Education	1 to 6 hrs.
Psy. 563.	Mental Hygiene	3 hrs.

SAFETY EDUCATION

Education 543.	Safety Education	3 hrs.
Auto 503.	Drivers Education and Training	3 hrs.

DESCRIPTION OF COURSES

HISTORY

Teacher Education and Liberal Arts Programs are offered in the Department of History. Students pursuing the M.A. degree should select their program of studies and the professor under whose direction they wish to prepare for examination and write their thesis as early as possible in the first semester of residence. The minor program of study will be arranged by the student and the major professor with the view of keeping the two reasonably related. The program of study and the area of thesis interest, to be approved by the Department of History, must be filed before the end of the first semester or the summer after the entrance of the student into the graduate school of the University.

All students are required to take History 563, arrangements should be made to take this course as early as possible after the beginning of work for the Master's degree.

Twenty hours of satisfactory work is required for a major in the field of History, and twelve hours for the minor. The satisfactory completion of thesis, the subject of which is to be determined in consultation with the major professor, is required of all persons graduating with a major in this field. Minors in this field are allowable only if the candidate can demonstrate that the techniques of this field are necessary for his research project or that the Minor Field is reasonably associated with Major specialty in content and orientation.

Prerequisites for majoring or minoring in the field of History are: (a) Lower college courses in American and European History corresponding to the lower college offering in the field at Prairie View; (b) At least an advanced course in either modern and/or contemporary European or American History; (c) A cumulative average of "B" in their social science courses on the undergraduate level; (d) Preliminary to the graduate regulation on candidacy for the degree, no person shall be acceptable for pre-candidacy status if by the end of the first semester he has not shown the proper inclination to master the skills and attitudes attendant upon graduate study.

The Teacher Education program at the professional level leads to the M.Ed. degree and consists of the successful completion of a composite program of thirty-six (36) hours. The thirty-six hours are a composite of all of the following major fields in the social sciences in the following order: History 6 hours; Economics 3 hours; Geography 3 hours; Sociology 3 hours. The building of research techniques in social sciences will encompass five hours of class and seminar work. The resources area of history will include six (6) hours and the professional development area of education will also include six (6) hours.

In lieu of the thesis there will be a series of studies, the culminating one to be presented as evidence of research proficiency centered either in the problem areas of the "Nature of the Learner," "School and Community Relations," or "Instructional Problems." There should be an element of consistency in the program of studies as well as the research problems developed by the student in consultation with the departmental advisors for teacher education, and the program with its emphasis should be filed with the student's departmental records as early in the development of studies as possible. Because of the nature of this subject area, the department offers no minors in this field of study.

DESCRIPTION OF COURSES

Problems in the Diplomatic History of the United States with emphasis on the analysis of the growth of principles in the making and the execution of American Foreign Policy to 1889 and challenges to those principles since 1889. Readings, oral and written reports and research projects.

633-643. American Foreign Relations, 1775 to the Present. (Hist 633-643 Foreign Rltn) (3-0) Credit 3. I and II. The United States in its relations with Latin-America and the rest of the world; public opinion and the economy.

653. Contemporary United States History, 1898 to the Present. (Hist 653 Contemporary) (3-0) or (2-0) Credit 3 or 2. II. Twentieth Century American development thus; America comes of age; the quest for social justice; the Great Crusade (World War I); postwar normalcy and reaction; Democracy in transition — the New Deal; and American leadership in the United Nations. Lectures, discussions, special reports.

633. Economic History of the United States. (Hist 633 U. S. Econ) (3-0) Credit 3. I. Historical review of the development of agriculture, commerce, industry, and business from colonial times to the present; social and economic forces in American society with attention to various mass movements; industrialization for the country and the necessity for governmental regulations; historical interpretation of trade unions, employer's association, cooperative. Lectures, discussions, readings, special reports.

673. History of the Negro in America. (Hist 463 Negro) (3-0) Credit 3. This course emphasizes the importance of the Negro's own history and the positive role he has played in shaping his destiny. Also there will be investigation of the stereotyped views that have been handed down from one generation to the next, slanted accounts of black experience, apathy of many blacks and prejudices of many whites.

683. Sectionalism and Civil War, 1700-1867. (Hist 683 Sectionalism) (3-0) Credit 3. I. Regional hypothesis; socio-economic regionalism; government, politics, and the regional compromise in the middle period; ideas in important issues and men; reconstruction and the new nation. Lectures, discussions, special reports.

693. The New South, 1865 to the Present. (Hist 693 New South) (3-0) Credit 3. II. Relation of the South to national development since 1860; the death of the Old South; Reconstruction and the new nation; the "New Departure," 1876-1900; Southern strivings to follow national patterns, 1900-1932; the New Deal and the New South; the South in world perspective. Lectures, discussions, readings, special reports.

Mathematics

A person holding the Bachelor of Science Degree from an approved college with a major in Mathematics is eligible for admission to graduate study leading to the Master of Science in Mathematics. Otherwise, the necessary deficiencies will have to be made up before work can begin toward the Master's Degree.

A minimum grade of "B" must be earned in each course.

Programs leading to Masters of Science Degree in mathematics: A student may select one of three programs.

Program A — 30 semester hours of graduate mathematics.

Program B — 21 semester hours of graduate mathematics and a minor in some other area.

Program C — (Professional Certificate) 21 semester hours of graduate mathematics; 12 hours of education; and 6 hours of thesis research.

In addition, each program must include a carefully prepared thesis. Research opportunities are available in Differential Equations, Topology, Geometry, Algebra, Mathematics Education, and Matrix Theory.

A minor in Mathematics at the graduate level must include 12 semester hours of graduate mathematics.

DESCRIPTION OF COURSES

503. Reading and Research. (Math 503 Rdng and Res) (3-0) Credit 3. Reading and discussion of advanced Mathematics Articles appearing in various Mathematical Journals; Patterns and Techniques of Mathematical Research; Modern Techniques and Trends in the field of Advanced Mathematics.

513. Seminar. (Math 513 Seminar) (3-0) Credit 3. Seminar in Mathematics for in-service teachers. Lectures, demonstrations, reports on current trends in the field of Mathematics. Consent of Instructor.

523. The Real Number System. (Math 523 Real Num Sys) (3-0) Credit 3. The development of the real number system, deductive systems, field properties, order properties, completeness properties, powers and roots, and decimal representations. Prerequisite: Math 224.

533. Selected Topics in Modern Mathematics. (Math 533 Select Topics) (3-0) Credit 3. Introduction to symbolic logic and set theory; applications to elementary algebra, linear and plane analytical geometry; probability and statistics. Consent of Instructor.

543. Fourier Series and Boundary Value Problems. (Math 543 Fouriers) (3-0) Credit 3. Application of partial differential equations to problems involving heat flow, fluid flow, electric fields, mechanical vibrations, and other similar problems arising in chemistry, physics, radio theory, and engineering. Prerequisite: One course in ordinary differential equations.

553. Calculus for High School Science and Mathematics Teachers. (Math 553 Calculus) (3-0) Credit 3. Concise treatment of certain fundamental ideas in the mathematics of the calculus with a point of view of extending, illuminating, and clarifying the teacher's past knowledge with understanding. Consent of Instructor.

563. Modern Techniques in Elementary Mathematics. (Math 563 Mod Tech) (3-0) Credit 3. This course is designed especially for teachers of elementary mathematics. Teaching strategies: Pedagogical and motivational techniques; effective uses of media and mathematics materials.

573. Computer Programming for High-School Teachers. (Math 573 Prog for Teachers) (2-2) Credit 3. Basic computer concepts and terminology. Computer characteristics, storage fundamentals of input and output operations. Flow charts and block diagrams. Programming elementary logarithms using a scientific language.

583. Structure and Concepts of Arithmetic. (Math 583 Structure) (3-0) Credit 3. Introduction to sets, the number concept, the evolution of numeration systems, modular sys-

tems, the number system, measurement, ratio, proportion, and percentage

- 593. Logic and Geometry. (Math 593 Logic) (3-0) Credit 3.** Elementary logic, plausible, reasoning, informal geometry, coordinate geometry, and geometry as a mathematic system.
- 623. Introduction to Partial Differential Equations. (Math 623 Diff Equatns) (3-0) Credit 3.** Basic concepts; techniques for solving first and second order partial differential equations; wave equations; the potential equation; the heat equation; approximate (numerical) solutions; existence and uniqueness theorems.
- 633. Elementary Functions. (Math 633 Functions) (3-0) Credit 3.** Real numbers system, algebraic functions and their properties, circular functions and their properties, exponential functions and their properties, logarithmic functions and their properties, hyperbolic functions and their properties. Prerequisite: Graduate standing in Mathematics.
- 643. Integrated Introduction to Geometry for Teachers. (Math 643 Integ Geom) (3-0) Credit 3.** The origin of geometry; the three classical problems of antiquity; the five platonic solids; Euclid's elements and fallacies; a modern set of axioms for geometry; geometics in the Euclidean plane; transformation groups; hyperbolic geometry; elliptic geometry. Consent of Instructor.
- 653. Intermediate Analysis. (Math 653 Analysis) (3-0) Credit 3.** Continuous functions, sequences, limits of functions, integrable functions, properties of integrable functions, the integral of continuous and bounded functions, series; step-functions. Prerequisite: Three (3) courses in Calculus or consent of Instructor.
- 673. Advanced Analysis. (Math 673 Adv Analysis) (3-0) Credit 3.** Continuous functions of several numbers, properties of functions of several numbers, the double integral, the integrated integral, the Riemann-Stieltjes integral. Prerequisite: Mathematics 623.
- 693. Modern Techniques in Secondary Mathematics. (Math 693 Mod Tech) (3-0) Credit 3.** Teaching Strategies: Instructional packages composed of modules of various areas and topics of mathematics; performance based teaching methods; effective use of audio and video equipment and materials; small group methods.
- 703. Modern Algebra. (Math 703 Algebra) (3-0) Credit 3.** Fundamental concepts of Algebra, integral domains, fields. Introduction to such concepts as groups, vector spaces, and lattices. Prerequisite: Math 453.
- 723. Analytic Mechanics. (Math 723 Anal Mech) (3-0) Credit 3.** Application of mathematics to problems of physics and engineering. Special emphasis will be placed upon the role of differential equations in describing physical laws and principles, such as Newton's Law of Motion, Einstein's equation of motion and Kirchoff's Law of Electricity. Prerequisite: Consent of Instructor.
- 743. Statistics for High School Teachers. (Math 743 Stat HS Tchr) (3-0) Credit 3.** Processes of statistical methods, with reference to applications in various fields and with special application to analysis of school data.
- 763. Intermediate Differential Equations. (Math 763 Diff Equatns) (3-0) Credit 3.** Existence theorems, uniqueness theorems, vector and matrix treatment of linear and non-linear systems of ordinary differential equations.
- 813. Theory of Matrices. (Math 813 Matrices) (3-0) Credit 3.** Definitions, matrix algebra; inverse of a matrix, transpose of a matrix, rank of a matrix; matrices and linear transformations; differentiations and integration of matrices; application of matrices to systems of linear equations; quadratic forms, bilinear forms and systems of differential equations. Prerequisite: Math 224.
- 843. Techniques of Research. (Math 843 Research) (3-0) Credit 3.** Study of research in mathematics education, the sources of information and techniques available, and approved form and style in preparation of research reports and thesis.
- 853. Project and/or Thesis Research. (Math 853 Project) (3-0) Credit 3 to 6 hrs.** Prerequisites: Mathematics 843 and advisors' approval for project or thesis study. Individual conferences and advisement on selection and preparation of research proposal or thesis study.

863. Real Variables. (Math 683 Variables) (3-0) Credit 3. Introduction to point sets, rigorous approach to the concept of function and limit, the Riemann integral, the Lebesgue integral, and some of their generalizations. Prerequisite: Math 653 or consent of Instructor.

873. Probability. (Math 873 Probability) (3-0) Credit 3. Theory of permutations, combinations, distribution, repeated trial, hitting a target, and discussion of the probability integral. Prerequisite: Math 224.

893. Complex Variables. (Math 893 Complex Varbl) (3-0) Credit 3. Rational functions of a complex variable, conformal mapping. Cauchy-Riemann equations, analytical continuation, residues and applications. Prerequisite: Math 653.

MUSIC

The University offers courses leading to the degree of Master of Arts with a major in Music. This degree is open to persons holding a Bachelor of Music or Bachelor of Science or Arts with concentration in music from an institution of recognized standing. These degrees presented as entrance requirements in the graduate department must represent an amount of work equivalent to that prescribed in the School of Arts and Sciences at Prairie View A&M University.

Candidates for the master's degree may major in theory, applied music or music education.

MUSIC EDUCATION

Requirements: 12 to 15 hours — 30 hours in all subjects

1. Courses in the field: 12-15 hours
Thesis: A written literary work involving original research.
2. Applied Music (6 hours minimum)
Continuation of one's applied instrument.
3. Minor Cognates: Any one: —
Aural Theory
Written Theory
Music Literature

683. The Teaching of Music Literature. (Music 683 Tchg Litr) (3-0) Credit 3. Problems in the presentation of music appreciation to high school students.

753. The Teaching of Vocal and Instrumental Music in the Elementary School. (Music 753 Elem Sch Tech) (3-0) Credit 3. Organizational and administration of rhythm bands and small instrumental groups in the elementary school, and of choral groups.

773. Problems in Teaching Sight-Singing and Ear Training. (Music 773 Sight Sing) (3-0) Credit 3. Student must audit first-year courses and engage in practice teaching plus one hour of theory and one hour of lecture.

873. Teaching of Vocal Music in High School. (Music 873 HS Vocal) (3-0) Credit 3. Organization and administration of (a cappella) choirs, boys' chorus or glee club, girls' chorus or glee clubs, and voice training classes.

893. The Teaching of Instrumental Music in the High School. (Music 893 HS instrum) (3-0) Credit 3. Organizational administration of bands and orchestras in the junior and senior high schools.

911, 921, 931, 941, 951, 961, 971, 981, 991. Music Workshop. (Music 911, 921, 931, 941, 951, 961, 971, 981, 991 Workshop) Credit I. A comprehensive four day course offered the first six weeks of the summer school embracing the organization and conducting of bands, choirs and piano classes and presenting evaluative criteria of music teaching in elementary and high schools. Music fee: \$3.00.

943. Drill and Band Formation in the High School. (Music 943 HS Band) (3-0) Credit 3. Signals, formations, maneuvers for the Marching Band; band shows and pantomimes.

963. Piano Class Teaching. (Music 963 Piano Meth) (3-0) Credit 3. Methods of teaching piano in groups of 10 to 30 students in the elementary and high schools.

973. Seminar in Music Education. (Music 973 Seminar) (3-0) Credit 3. Current philosophy of education; the place of music in the curriculum; review and criticism of music curricula, and evaluation of materials and methods of the various types of music schools existing in America; special study of some problems associated with the aspect of music teaching in which interested.

THEORY**12 to 15 hours — 30 hours total for degree**

1. Thesis: A written literary work involving original research or an arrangement of a work, or an original work for full symphony orchestra.
2. Student must include 953, 783 and 793 or 763.
3. Applied Music: (6 hours)
Continuation of one's applied instrument
4. Minor cognate: Any one: —
School Music
Applied Music
Music Literature

DESCRIPTION OF COURSES

653. Advanced Score Reading. (Music 653 Score Reading) (3-0) Credit 3. Transportation and study of various clefs for instruments of all voices, ranges of instruments; introduction to the playing of voice and instrumental scores since the 10th century; practice in sight reading and studying such scores.

673. Dictation and Sight-Singing. (Music 673 Dictation) (3-0) Credit 3. Advanced courses in aural theory.

693. Analysis of Form. (Music 693 Analysis) (3-0) Credit 3. Practical analysis of intermediate and larger forms; eighteenth and nineteenth century harmony as illustrated in the works of Haydn, Mozart, Beethoven, Brahms, Franck, etc.

763. Advanced Orchestration. (Music 763 Orchestration) (3-0) Credit 3. Score for full symphony orchestra.

783. Contrapuntal and Chromatic Dictation. (Music 783 Dictation) (3-0) Credit 3. Dictation in two- and three-part counterpoint, and four-part chromatic harmony.

793. Chromatic and Modern Harmony. (Music 793 Mod Harmony) (3-0) Credit 3. Harmonic materials and technique from creative and analytical angles; harmonic idiom on the period from the late nineteenth century to the present.

833. Advanced Orchestral Conducting. (Music 933 Conducting) (3-0) Credit 3. Conducting from chamber music and classical symphonic scores; conducting from Romantic and Modern scores. Examination of school music materials and classical symphonic scores. Interpretation of the large forms of instrumental music.

953. Advanced Analytical Harmony. (Music 953 Anal Harmony) (3-0) Credit 3. Harmonic analysis of Chorales of Bach; piano sonatas of Beethoven, violin sonatas of Brahms and symphonic works of Mozart, Beethoven, Wagner and Franck.

PIANO**Requirements:**

Undergraduate recital already given.

1. Three complete concertos
2. Material for two programs.
3. Public performance of a concerto; chamber ensemble, and one recital program for piano.
4. Must have two sequences in minor cognate as:
Aural Theory
Written Theory
Music Literature
Music Education

Four hours of daily practice: two one-hour lessons, one-hour studio class each week, if possible. Three hours each semester.

12 to 15 hours credit required (In Piano alone 30 hours total for degree)

DESCRIPTION OF COURSES

Music 613. Piano. (Musc 613 Piano) (3-0) Credit 3. Three concertos of contrasting type (Mozart, Beethoven, Brahms, Schumann, Chopin, Liszt, Tchaikowsky, Rachmaninoff, etc.).

Music 623. (Musc 623 Piano) (3-0) Credit 3. Sufficient materials for two programs including three or four major compositions of the classical and romantic school. These programs should also include a varied selection of the representative modern compositions.

Bach — Italian Concerto toccatas, transcription by Tausig, Busoni, Liszt, etc. Chromatic Fantasy and Fugue.

Beethoven — A sonata of the grade of difficulty of Op. 53, 57, 109, 110, 111, or Chopin Sonata, and an earlier sonata; or one of Mozart, or modern one.

Music 713. Piano. (Musc 713 Piano) (3-0) Credit 3. Romantic Composers Schumann — (Etude Symphoniques); Franck — (Prelude, Chorale and Fugue); Brahms-Handel — (Variations and Fugue); Liszt — (Sonata, etc.)

Music 723. Piano. (Music 723 Piano) (3-0) Credit 3. Modern Composers — Debussy, Ravel, Scriabin, etc., Contemporary Moderns including American Composers.

Piano Recital

VOICE

Requirements:

Undergraduate recital already given.

1. Two complete roles appropriate to the voice
2. Two complete oratorio roles
3. Public performance of one recital (artist's)
4. Materials for two programs

Three hours of daily practice; 2 one-hour lessons; one-hour studio class if possible each week. Three hours credit each semester.

12 to 15 hours credit required in voice alone (30 hours total for degree)

DESCRIPTION OF COURSES

Voice 613. (Musc 613 Voice) Credit 3. A minimum of 6 songs in each of the four languages (in addition to the undergraduate degree — English, French, German and Italian.

Voice 623. (Musc 623 Voice) Credit 3. Four arias (Languages not specified).

Voice 713. (Musc 713 Voice) Credit 3. Romantic Composers — Schumann; Schubert, Wagner, Liszt, etc.

Voice 723. (Musc 723 Voice) Credit 3. Modern Composers — Debussy; Rachmaninoff, etc. Contemporary writers including American Composers.

612, 622, 712, 722, 812, 822, 912, 922. (Musc 612, 622, 712, 722, 812, 822, 912, 922, Choir) (Choral Practice) (College Choir) (½-4) Credit 2. I and II. Sacred and secular choral music, cantatas and oratorios — offered excellent practical opportunities for expression in part singing. A capella and accompanying singing. Participation required.

INSTRUMENTAL MUSIC

Music 613, 923, 713, 723, 913, 823. (Musc 613-823 Flute) (3-0) Credit 3.

Music 613, 623, 713, 723. (Musc 613-723 Violin) (3-0) Credit 3.

The following courses in Music may be taken as Individualized Instruction.

MUSIC: 613P; 623P; 723P; 613V; 623V; 713V; 723V; 612C; 812C; 822C; 912C; 922C; 713E; 823E; 713V;

NATURAL SCIENCE

The Division of Natural Sciences includes the Departments of Biology, Chemistry and Physics. Each Department has requirements for major and minor students.

BIOLOGY

Requirements for the Master's Degree:

A student entering graduate study in biology must present a minimum of 24 semester hours in undergraduate biology. The background in biology encompassing: general biology or zoology and botany. In addition to the minimum biology courses a student should have completed at least one year of inorganic and organic chemistry. The grade point average in biology courses should be at least 2.75 based upon the 4.00 grading system.

Students who do not meet the minimum prerequisites must do so before being admitted to graduate status unconditionally. Admission to graduate school does not imply admission to candidacy for the Master's degree.

Admission to Candidacy

Admission to candidacy for the Master's degree is granted after the student completes a minimum of twelve (12) semester hours of resident graduate credit in biology. Only two courses with "C" grades, regardless of credit hours, will be accepted toward credit for the Master's degree. The overall grade point average, in biology, of a student seeking the Master's degree must be a "B" or better.

Persons failing to meet candidacy requirements are placed on probation for a semester or a summer. In the event candidacy requirements are not met at this time, it will be understood that no further graduate credits by the student will be applicable to the M.S. Degree in Biology.

Courses for which graduate credit may be obtained are numbered 500 and above. Upon successful completion of the course work and thesis, the student must pass (1) a written comprehensive examination in biology and (2) an oral examination on defense of the thesis and fundamentals of biology.

The course requirements for the Master's degree are flexible. However, the choice and number of allied courses may be arranged by conferring with an assigned advisor and will depend on the student's field of specialization and on his or her previous training.

1. In order to be considered worthy of undertaking work toward the Master's degree, a student must display notable ability in biology, an aptitude in research, and facility in the use of the English Language. To demonstrate the student's fitness in these respects, the Department requires an examination. Action on admission for candidacy for a Master's degree will be taken after the student has been in residence for at least twelve (12) hours of graduate work in biology with an average of "B" or better.
2. An advisor will be appointed for each student to aid in arranging his program and in carrying it to completion. The sequence of courses to be taken in the Department and the choice of work in allied fields depend on the student's previous training and objectives. An understanding of the basic techniques and concepts of biology, chemistry, physics and mathematics is required.
3. In addition to the examination required by the Graduate Division, the student must pass a written comprehensive examination covering the fundamentals of biology and an oral comprehensive examination defending his research in the fundamentals of biology.

Types of Programs Offered in Biology

Program A:

A minimum of 30 hours of graduate biology plus a thesis.

Program B:

A minimum of 20 hours of graduate biology and a minor in some other area plus a thesis.

Graduate Minor in Biology

A minor in Biology at the graduate level includes 12 semester hours of graduate biology.

DESCRIPTION OF COURSES

504. Embryology. (Biol 504 Embryology) (2-4) Credit 4. Descriptive embryology; vertebrate development with special reference to mammals; dissections and examination of selected embryological materials, including serial section of the fetal pig. Prerequisite: Biology 114 and 124. Lab fee: \$3.00

513. Seminar. (Sci 513 Seminar) (3-0) Credit 3. Seminar in biology, chemistry and physics for in-service teachers. Lectures, demonstrations, reports on current trends in the fields of science.

523. Principles of Plant Pathology. (Biol 523 Pathology) (2-3) Credit 3. The fundamentals of parasitism as they effect plants and the means of controlling the diseases resulting from the various parasites which are detrimental to plants. Lab fee: \$3.00.

523. Histology. (Biol 524 Histology) (2-4) Credit 4. Microscopic study of tissues and organs of vertebrates; relation of structure to function. Lab fee: \$3.00

533. Workshop for Elementary Teachers. (Sci Elem 533 Wkshp) (3-0) Credit 3. Workshop in the teaching of Elementary School Science for in-service teachers or supervisors. Lectures, discussions, demonstrations, and construction of teaching materials with special projects; experiences in science principles and generalizations which teachers are called upon to present to and interpret for pupils in their classes.

534. General Physiology. (Biol 534 Physiology) (2-4) Credit 4. Organs of internal secretion, embryology, physiology, microscopic anatomy, and physiology. Prerequisite: Biology 114, 124 and 324.

543. Earth Sciences. (Sci 543 Earth Sci) (3-0) Credit 3. Introduction to astronomy; for teachers of science and mathematics in secondary schools; celestial sphere and coordinates thereon; measures of time; the solar system including the earth, moon, planets, comets, meteors, satellites, and the sun; the stars and their classifications; constellation study; double and variable stars; clusters; interstellar materials; the galactic system; and extra galactic systems. Prerequisite: Mathematics 103, 123.

544. General Entomology. (Biol 544 Entomology) (3-2) Credit 4. The structure, life history, habits and means of recognizing and classifying the more common insects. Attention is also given to their relations with man and other animals as well as with plants. Lab. fee \$3.00.

553. Earth Sciences. (Sci 553 Earth Sci) (3-0) Credit 3. Introduction to geology and weather; for teachers; general principles of physical geology, physiography geologic process and an introduction to historical geology and introduction to the fundamental principles of weather.

554. Experimental Embryology. (Biol 554 Embryology) (2-4) Credit 4. Modern problems and techniques of the development of the principles and mechanisms of development; analysis in factors operating in the morphogenesis, regeneration and development of selected vertebrates. Prerequisite: Biology 414 and 504.

564. Systematic Botany. (Biol 564 Botany) (2-4) Credit 4. Local flora, giving training in the identification and classification of the higher plants. Prerequisite: Botany 134.

683. Experimental Genetics. (Biol 683 Genetics) (3-0) Credit 3. Thorough experimentation to show how variations may be brought about; the techniques of mating and breeding

to support accepted facts. Lab. fee: \$3.00

684. Vertebrate Zoology. (Biol 684 Vertebrate) Credit 4. The course is primarily concerned with phylum Chordata. It is to be presented in accordance with the recognized system of classification of Chordates. Emphasis is placed on evolution, development, physiology, and anatomy of major taxonomic groups of chordates. Prerequisites: Biology 414, 424 or equivalent or permission of the instructor. Lab. fee: \$3.00.

694. Animal Breeding. (Biol 694 Breeding) (2-4) Credit 4. Application of the principles of genetics to animal breeding and improvement. Comparison of various methods of selection and techniques. Prerequisite: Biology 524 Genetics. Lab. fee: \$3.00.

700. Research in Botany. (Biol 700 Research). This course will vary in credit according to the work performed, its value being indicated at registration. Research in Botany may be carried on in any area which the student has a sufficient background. Lab. fee: \$8.00.

703-713. Selected Topics in Biology. (Biol 703-712 Select Topics) (2-2) Credit 3. Basic concepts and recent advances and techniques in physiology, bacteriology, botany, genetics and entomology. Experiments, demonstration and field trips. Prerequisite: General Zoology, Botany or Biology.

704. Biology for Teachers. (Biol 704 Teachers). A training course for prospective teachers of Zoology and Botany. Lectures or conference, field and laboratory work. Prerequisite: at least Biology 604 and 644. Lab. fee: \$3.00.

724. Dairy Bacteriology. (Biol 724 Bacteriology) (3-4) Credit 4. Importance of bacteria in dairy products; the number and types of bacteria in dairy products and significance of their occurrence. Lab. fee: \$3.00.

574. Genetics. (Biol 574 Genetics) (2-4) Credit 4. Laws and principles governing heredity in plants and animals; relation to plant and animal improvement and to Eugenics. Prerequisite: Biology 134, 114. Lab. fee: \$2.00.

594. General Microbiology. (Bacteriology) (Biol 594 Microbiology) (2-4) Credit 4. Morphology, physiology, classification, cultivation and microorganisms, relation to agriculture, premedics, and industry. Prerequisite: General Chemistry, Biology 314 and 114. Lab. fee: \$3.00.

600. Research in Zoology. (Biol 600 Research). This course will vary in credit according to work performed, its value being indicated at registration. Research in Zoology may be carried on in any area listed which the student has a sufficient background. Lab. fee: \$8.00.

624. General Parasitology. (Biol 624 Parasitology) (2-4) Credit 4. Morphology, life history, diagnosis and control of the important parasites affecting man and other animals. Prerequisite: Biology 614. Lab. fee: \$3.00.

634. Neurology. (Biol 634 Neurology) (2-4) Credit 4. A brief review of the brain and cranial nerves of the shark; the morphology of the spinal cord and brain of a mammal; the principal tracts and nuclei reaction systems of the cord and brain of the human nervous system. Lab. fee: \$3.00.

640-650. Seminar in Biological Problems. (Biol 640 650 Seminar). Required of all graduate students in the department. No credit. Lab. fee: \$8.00.

643. Field and Animal Ecology. (Biol 643 Ecology) Credit 3. A study of the composition, dynamics and distribution of biotic communities in various section of the southwest. Outdoor camping and cooking; one week-end and 8 Saturday field trips (subject to change and/or approval). Transportation defrayed by student. Prerequisites: Biology 115, 125 and 134. Laboratory fee: \$2.00.

664. General Invertebrate Zoology. (Biol 664 Invertebrate) (2-4) Credit 4. Classification, morphology, embryology, physiology, and life histories of invertebrate exclusive of insects. Prerequisite: Biology 124. Lab. Fee: \$3.00.

674. Plant Breeding. (Biol 674 Breeding) (2-4) Credit 4. The application of the principles of genetics to plant improvement. Discussions, reports, lectures demonstrations and individual participation in techniques and methods are to be used as procedures of instruction. Prerequisite: Biology 254 Genetics.

SOCIOLOGY

Majors and minors are offered in the Department of Sociology on the Graduate Level. Students desiring to major in Sociology should consult with the Head of the Department and plan a program in conjunction with the major professor. Students pursuing the M.A. degree should select their program of studies and the professor under whose direction they wish to prepare for examination and write their thesis as early as possible in the first semester of residence. The program of study and the area of thesis interest, to be approved by the Department of Sociology, must be filed before the end of the first semester or the summer after the entrance of the student into the graduate school of the University.

Requirements

Students who major in Sociology must present a minimum of 9 semester hours in undergraduate Sociology with substantial credits in History, Political Science or Economics. Students who have had fewer than 18 hours of Social Sciences will be required to complete additional undergraduate hours in Sociology before receiving a Master's Degree.

A major in Sociology is required to take at least 21 semester hours of course work in Sociology. A minor in Sociology is required to take a minimum of 9 hours in Sociology. Specifically required is Sociology 843 and Sociology 563.

Thesis

The satisfactory completion of a thesis, the subject of which is to be determined in consultation with the major professor, is required of all persons graduating with a major in this field. The candidate must pass a final oral examination on the thesis before the degree is conferred.

DESCRIPTION OF COURSES

College of Business

The College of Business offers two graduate programs in Business: Master of Business Administration (MBA) and the Master of Science (M.S.) in Business Education.

CRITERIA FOR ADMISSION

In the determination of an applicant's eligibility for admission, the following measures are of critical importance.

1. Overall undergraduate grade-point ratio of 2.75, grade-point ratio on approximately the last 60 semester hours and grade trend. (The academic record must meet minimum requirements of the Graduate School.)
2. Scores on the Graduate Management Admission Test (formerly the Admission Test for Graduate Study in Business) or the Graduate Record Examination.

Students who plan to enter the Master of Business Education program should earn a satisfactory score on the Graduate Record Examination and meet all other Graduate School admission requirements.

PROCEDURE FOR APPLYING

Students may enter the Master's degree programs at the beginning of any semester or summer term. An applicant should complete the requirements listed below at least four weeks prior to the beginning of the semester or term in which he wishes to enroll and meet the deadlines set forth in the calendar at the front of this catalog.

1. Obtain admission to the University and the Graduate School by filing the following items with the Dean of the Graduate School.
 - A. A complete official transcript of college and university credits.
 - B. Two completed application forms for admission to the Graduate School.
 - C. A completed application form for admission or readmission to the University.
2. Take the Graduate Management Admission Test (GMAT) for the Master of Business Administration.
3. Take the Graduate Record Examination for the Master of Science Degree.

NOTE! Information about the Graduate Management Admission Test (GMAT) and the Graduate Record Examination (GRE) may be obtained from the Admission's Office, Dean of the Graduate School, College of Business or from the Educational Testing Service, Princeton, New Jersey.

Undergraduate students who intend to enter a Master's degree program in the College of Business should take the appropriate tests in the final semester of their senior year. Those students enrolling under a non-degree permit to register (test score not on file) must take the appropriate graduate admission test during their first semester of enrollment. *Note!* A student admitted under non-degree admission is responsible for all obligations as outlined under the degree. If he or she changes to a degree plan, this student must complete at least 36 semester hours of course work after final admittance to the MBA program.

4. A permit to register issued by the Office of Admissions is required for registration. This permit does not constitute admission to the Graduate School or to a Master's program in the College of Business.
5. A formal degree plan constitutes acceptance to the College of Business. A student must adhere to the specifics of his or her degree plan. Degree plans will vary depending upon the student's undergraduate background and the conditions of admission.

RETENTION IN THE MASTER'S DEGREE PROGRAM

For retention into the Master's program a student

1. Must earn a grade of B in each course presented for graduation.
2. Must earn a grade point average of 3.00 or above in all course work pursued during a given semester.

ADMISSION TO CANDIDACY

Prior to or at the time of registration for his first semester of graduate study, the student must plan a tentative program under the direction of an appointed advisor. It is expected that a list of proposed courses will be filed with the College of Business and the Graduate Office before the next registration period.

Upon the completion of 12 semester hours of graduate credit with at least a "B" average, the student must submit a formal degree plan, through the College of Business, to the office of the Dean of the Graduate School. Failure to fulfill this requirement may prevent the student from enrolling the following semester or having credits considered for a degree.

Admission to candidacy is granted by the Dean of the Graduate School after the formal degree plan has been approved.

MASTER OF BUSINESS ADMINISTRATION (MBA)

The MBA (Master of Business Administration) program is open to qualified students who have undergraduate degrees in non-business areas as those having degrees in business or business related fields of specialization. The program is so structured as to be especially suitable for students whose baccalaureate degrees are in Science, Political Science, English, Sociology, Psychology, Engineering, Mathematics and Computer Science.

The MBA curriculum provides broad preparation for management with analytical techniques emphasized because of their importance in modern decision-making. The curriculum consists of courses which make up a common body of knowledge, and specific graduate courses designed to prepare the student for a career in management.

PREREQUISITES

A Bachelor's degree from an approved institution, including at least 24 semester hours in business administration courses, is needed for graduate standing. The Master of Business Administration degree program requires, as a minimum background, courses equivalent in content to those courses required of the undergraduate business major at Prairie View A&M University in the areas of:

	Semester Hours
Statistical Analysis	3
Accounting Principles	6
Finance	3
Principles of Management	3
Principles of Marketing	3
Principles of Economics	6

Graduate students should, if possible, remove any deficiencies by completing special courses at the 500-level which are designed for this purpose.

Considering the above prerequisites, students may pursue one of two plans:

PLAN I*48 Semester Hours****Required Courses:**

Acct 503 Financial Accounting	3 hrs.
Acct 513 Managerial Accounting	3 hrs.
BA 553 Legal Environment	3 hrs.
BA 783 Quantitative Analysis	3 hrs.
FI 583 Theory of Financial Mgt.	3 hrs.

MG 523 Organizational Theory	3 hrs.
FI 603 Managerial Economics	3 hrs.
MG 623 Problems	3 hrs.
*Electives (one area of specialization)	12 hrs.

NOTE! All MBA students must show evidence of having taken a course in Computer Science. This may be shown at the undergraduate level or by enrolling for BA 500. BA 500, however, will not serve to meet a major course requirement or serve as an elective in either of the degree programs.

*Electives must be approved.

BUSINESS EDUCATION

The graduate program in Business Education is designed to provide for the professional development of business teachers. The primary purposes of the program are to maintain and improve the quality of instruction at the secondary level, to provide innovative, creative approaches and practical procedures to curricular programs as well as to individual classes and to develop skills in the processes of problem-solving, decision-making, and research techniques.

The program is adapted to the needs of persons who have completed, as undergraduates, a course of study in Business Education or persons who have completed an undergraduate minor in Business Education.

The major in Business Education leading to the Master of Science degree consists of 30 semester hours and a thesis. The following courses are required:

Problems in Business Education	3 hrs.
Advanced Methods	3 hrs.
Curriculum Construction	3 hrs.
Statistics	3 hrs.
Seminar	3 hrs.
Business Electives	6 hrs.
Electives	9 hrs.

The minor in Business Education consists of 9 semester hours of which the following are required:

Problems in Business Education	3 hrs.

College of Education

H. G. Hendricks, Dean

The College of Education of Prairie View A&M University is strongly teacher-education oriented. As the objectives and scope indicate, a major goal of the educational program is to produce well-qualified and professionally education teachers. The program is geared to train teachers in those competencies and skills that will promote efficiency in their chosen vocation, as well as promote leadership, understanding, higher standards of family living, and devotion to the principles of democracy. The curriculum of the College of Education is divided into sections according to several areas of emphasis, as follows:

1. **Elementary Education and Early Childhood.** Upon satisfactory completion of this curriculum area, the student may be certified to teach grades 1-8 in the public school.
2. **Kindergarten or Early Childhood Education.** This Graduate program leads to an endorsement in kindergarten education are required for this endorsement.
3. **Special Education.** The course offerings in this area require the student to develop a basic program of study in Elementary Education as a pre-requisite to specialization in the special education program. By completing the curriculum offering of 12 semester hours in the area of Mental Retardation or 18 semester hours in the area of Language/Learning Disabilities, an endorsement is earned for either of the above disciplines. A major in Mental Retardation may be pursued also. Certification as Educational Diagnostician may be achieved upon the completion of 42 semester hours.
4. **Counselor Education.** This program is designed primarily for experienced teachers to give them competency as practitioners. The program constitutes the initial professional preparation for students desiring employment as counselors in public schools, vocational-technical schools, higher education institution, or non-educational agencies. Upon completion of the program, the graduate receives a professional certificate in counseling.
5. **Educational Administration and Supervision.** This program is dual in nature, in that public school teachers can choose a 45-hour or a 60-hour program, either for mid-management (Principal) certification, or for certification as Superintendent and professional administration. Graduate level only.
6. **Reading Specialist**
7. **Secondary Education**
8. **Educational Technology**

ADMISSION TO CANDIDACY

Action on admission to candidacy for a Master's Degree will be taken after the student (1) has been in residence for at least one semester or summer session, earning at least twelve hours of graduate course credit; (2) has maintained a "B" average or better; (3) proficiency in English usage.

The student failing to meet the above requirements will be continued on non degree status for a second semester. In the event he does not meet the requirements for candidacy at this time, it will be understood that no more graduate credits earned by him will be applicable to a Master's Degree.

In keeping with proposed changes in state standards for professional certificate programs, those having been admitted to degree and/or certificate programs since September, 1962 will be advised according to a schematic plan consisting of specialization, resources and professional areas of concentration. Courses and professional experiences may be suggested in terms of those areas and more specifically in accord with the specific needs of the graduate students. Specific requirements as to total hours for certificate and/or degrees will remain relatively the same as outlined.

Those seeking admission to graduate programs offered by the College of Education are urged to avail themselves of advisement by an appointed advisor in the appropriate department.

COUNSELOR EDUCATION DEPARTMENT

The Department of Counselor Education offers a program of study leading to a Master's Degree in Guidance. The department's focus is to incorporate a blend of academic knowledge, acquisition and enhancement of skills, and application in laboratory experiences. The program is designed to professionally prepare students to counsel and engage in guidance functions in public schools, vocational technical schools, community and other service agencies.

DEPARTMENTAL ADMISSION REQUIREMENTS

In addition to the university requirements, one must have 3 recommendation checklists, adequate credit hours in professional education and psychology courses in general and a 2.8 cumulative undergraduate average from an accredited institution for unconditional admittance.

Curricula and Program Options

Based upon the applicant's assessed needs, one may take pre-requisites to the area of concentration, or may begin formalized training in one of the following 36 semester hour curricula: (1) Guidance with emphasis in the Public School Setting; (2) Guidance with endorsement in Vocational Counseling; (3) Guidance with emphasis in Special Education.

The Department of Counselor Education offers two program options, with a degree in Guidance, in any of the above suggested curricula.

One, a Master of Education which requires thirty-six semester hours of course work. Included within the thirty-six hours is the completion of research project.

Second, a Master of Science requires a minimum of thirty-six semester hours, exclusive of a thesis, in courses approved for graduate credit by the department.

PROFESSIONAL COUNSELOR'S CERTIFICATE

A student who completes requirements for a Master's degree in Guidance will have fulfilled all curriculum requirements for a Professional Counselor's Certificate. A student who desires the certificate, without fulfilling all degree requirements should check with the chairperson of Counselor Education for specific information. Usually such a student who is otherwise eligible can meet these requirements by completing 30 semester hours with three years of teaching experience.

EDUCATIONAL ADMINISTRATION AND SUPERVISION DEPARTMENT

The Department of Administration and Supervision offers programs for completion of the Master of Science (MS) and Master of Education (M.Ed) degrees and is engaged in the preparation of its students for certification in the areas of educational administration and instructional supervision.

The certification programs are designed to prepare students for the principalship, central office administration, the superintendency, as well as instructional supervision. Students are prepared through the systematic orderings of courses and experiences, matched with the students' background and needs, but not to the exclusion of Texas Education Agency requirements.

ADMISSION REQUIREMENTS

Admission to the department shall be considered complete when the following requirements have been met.

1. Admission to the Graduate School. Applications available at the office of the Dean of the Graduate School.
2. Completion of a degree plan and/or a checklist for certification requirements.
3. Development of a credentials file containing teaching certificate, service record, transcript, and two letters of recommendation.

To qualify for the MS or M.Ed degree, the student must complete the degree plan, and make a satisfactory score on the Master's Comprehensive Examination, scheduled in the fall, winter, and spring semesters.

MASTER'S DEGREE PROGRAMS

Master of Science

Students must complete 30 semester hours to qualify for this degree. In addition to the 30 hours, an acceptable thesis must be completed.

COLLEGE OF EDUCATION

Master of Education

Students must complete a total of 36 semester hours to qualify for this degree. This program includes the completion of a research project in the student's major field of concentration. To meet this requirement, all candidates are required to enroll in Education 843, Techniques of Research, and Education 853, Research Project.

The Department of Reading

The Department of Reading offers advanced courses designed to prepare teachers as reading specialists. Thus, the graduate student completing this program will be able to qualify for the Reading Specialist (All Levels) Professional Certificate. The student may also qualify for a Master's Degree in Elementary Education by taking, either simultaneously or as an addendum, the required courses in Elementary Education. The purpose of the Reading Specialist (All Levels) Professional Certificate Program is to prepare teachers, specialists, teacher educators, and researchers for service at various levels in the field of reading.

This program is designed to provide individual students the opportunity to improve professional competencies commensurate with either personal or professional goals as educators in the area of reading. Therefore, emphasis is placed upon assisting students in the areas of their recognized needs, and students are strongly encouraged to become involved in directed studies or individual research that will improve their professional competence. Specific characteristics of the Reading Specialist Certificate Program are as follows:

1. A minimum of 36 semester hours is required for the Master of Education Degree.
2. Twelve (12) of the required hours include academic specialization in reading courses.
3. Six (6) or more hours are taken in the resource area courses such as Multi-Cultural Education and Linguistics. Six (6) hours of electives are taken in related fields.
4. Six (6) hours of elementary education courses are taken by students who hold Secondary Certificates.
5. Students who have Elementary School Certificates take courses in secondary methods and the growth of adolescents.
6. Six (6) or more hours are taken in Research.

853. Project and Thesis Research (Educ 853 Project) (3-0) Credit 3 to 6 hrs. Prerequisites: Education 843 and advisor's approval for project or thesis study. Individual conferences and advisement on selection and preparation of research proposal or thesis study.

DEPARTMENT OF LABORATORY, CLINICAL, AND FIELD BASED EXPERIENCES

C. F. Randle, Head

A. Undergraduate

This department offers no degrees, certificates, or endorsements. The Head of this department coordinates all Laboratory and Field-based Experiences. These experiences include the following:

1. Student Teaching
2. Observation experiences
3. Practicums
4. Internships
5. Simulation experiences
6. Field-based seminars and workshops
7. Executing contracts with student teaching centers
8. Implementation of Senate Bill #8 — Student Teaching
9. Placement of student teachers and interns in approved centers.
10. Working cooperatively with the state coordinator, district coordinators and department heads in the implementation of the total programs.
11. Coordination of the activities of campus and field-based supervisors.

DEPARTMENT OF SPECIAL EDUCATION

William Kendall: Acting Head

The Department of Special Education has as one of its responsibilities the preparation of teachers for classes of exceptional children in the areas of mental retardation, language/learning disabilities, and educational diagnostician. The department fulfills this responsibility by offering academic courses and practical clinical experience leading to Texas Certification in several areas. Students seeking certification in course areas in special education must certify by endorsement with either the elementary or secondary level.

DESCRIPTION OF COURSES**SPECIAL EDUCATION**

523. Learning and Cognitive Development of the Exceptional Child. (Sp Ed 523 Learning and Cognitive Dvmt of Ectp Child) (3-0) Credit 3. A survey of contemporary theories of intellectual and cognitive development. Emphasis is placed on the work of Piaget, Sears, and recent research from culture and sensory loss, and problems related to cognition and its development in human beings.

533. Communication Problems as They Relate To Exceptional Children. (SP Ed 533 Communication Problems) (3-0) Credit 3. A study of communication barriers in speech and hearing, and language processes from the standpoint of communication; analysis of aphasia and other speech and hearing disorders; etiology, diagnosis, treatment, and implications for teaching and remedial measures.

603. A Survey Course in the Education of Exceptional Children. (Sp Ed 603 Excep Child) (3-0) Credit 3. Foundations for special education set forth; its history, philosophy, policy, case studies, measurements and guidance, selection, organization and qualifications of teachers.

613. Problems and Methods of Teaching Mentally Retarded Children. (Sp Ed 613 Methods) (3-0) Credit 3. Characteristics and needs of the mentally retarded child; principles of adapting the curriculum materials and methods of teaching to the needs of the retarded child.

633. Psychological Problems of the Mentally Retarded Child. (Sp Ed 633 Psy Prob) (3-0) Credit 3. A study of the emotional blocks to learning that affect the adjustment of youth who are mentally retarded.

833. Diagnosis and Prescriptive Teaching (Sp Ed 833 Diag and Prescript Teachg) (3-0) Credit 3. This course deals with problem solving and decision making strategies involved in effective educational planning for individual students classified as exceptional. Special attention is given to the interpretation of diagnostic information in relation to learner needs. Intensive case studies and the writing of educational prescriptions based on diagnoses of various types of disabled student needs are included.

863. Curriculum Adjustment and the Exceptional Child. (Sp Ed 863 Curric Adj and the Excep Child) (3-0) Credit 3. The course involves the adjustment of experiences, methods, materials, and equipment to meet the needs of exceptional children.

873. Practicum in the Study of the Exceptional Child. (Sp Ed 843 Practicum) (3-0) Credit 3. The Practicum provides supervised field centered practice for one semester in a public school setting. The experiences are centered around case and group studies. Emphasis is placed on the use of various formal and informal methods of appraising and communicating exceptional pupils' educational status and progress and designing appropriate remedial prescriptions. The emphasis includes identification of disabilities in cognitive, motor, sensory, language, social, or emotional growth. The student is supervised at the public school level by an experienced Educational Diagnostician.

903. Laboratory. (Sp Ed 903 Laboratory) Credit 3. Techniques of teaching the educable mentally retarded; analysis of materials, methods and specialized services along with an evaluative approach; intensive practice in the curriculum center for teachers of the mentally retarded; field trips; study of observation centers and limited experimental studies.

913. Curriculum Building for Mentally Retarded Children. (Sp Ed 913 Curr-Bldg) (3-0) Credit 3. Basic philosophy and procedures of unit construction as applied to curriculum development; intensive review of foundations of mental retardation. Practical experience, theoretical and scientific concepts of mental retardation.

923. Workshop. (Sp Ed 923 Workshop) Credit 3. Designed to promote areas of professional growth of in-service teachers.

933. Principles of Learning for Exceptional Children. (Sp Ed 933 Prin of Learn for Excep Childn) (3-0) Credit 3. A survey of sensory and experiential deficits in exceptional children and an in depth study of the theoretical and empirical problems involved in sensory and perceptual remediation and compensatory programs. The course also involves a survey of contemporary theories and practices in the development of basic sensory discrimination and perceptual processes and the abnormalities of these processes manifested by exceptional children.

The courses listed below are graduate courses that can be applied toward the provisional certificate in language/learning disabilities.

Psy. 593 Pupil Growth and Development. (Psy 593 Pupil Growth) (3-0) Credit 3. A study of the growth and development of the individual. Emphasis on problems of inheritance, growth, learning, intelligence, emotions, and personality. Consideration given to fundamental psychological needs of the organisms and the conditions under which they may be realized. Applications to educational procedures on home, school and community.

Sp. Ed. 833 Diagnosis and Prescriptive Techniques as Applied to Language/Learning Disabilities. (Sp Ed 833 Diag & Prescript) (3-0) Credit 3. The course will treat techniques of Diagnosis and prescriptions as they apply to language/learning disabilities. Modes of measurement and evaluation will also be treated.

Sp. Ed. 843 Methods and Materials in Teaching Children With Learning Disabilities. (Sp Ed 843 Methods and Materials) (3-0) Credit 3. Effective use of methods and materials in teaching children with language/learning disabilities.

Sp. Ed. 933 Learning Theory and Exceptional Children. (Sp Ed 933 Learn Theory and Excep Child) (3-0) Credit 3. Learning theories as applied to both the typical and atypical student. An in depth approach to the disabilities with which the student is confronted in his attempt to comprehend cognitive aspects of learning.

Sp. Ed. 943 Language Problems of Exceptional Children. (Sp Ed 943 Lang Prob Excep Child) (3-0) Credit 3. An overview of speech pathologies, followed by individual tapes of exceptional public school pupils with speech, cleftpalate speech, articulatory problems, lispng, baby talk, nasality, etc. When possible, children with speech problems will be brought to the laboratory workshop.

College of Home Economics

Students desiring to major in Home Economics on the graduate level must present undergraduate subject matter credits in the following areas: the social sciences, the physical sciences, biological sciences, arts, and education which shall be satisfactory to the advisor under whose direction the major work is to be done. In addition, adequate preparation in undergraduate work in Home Economics is necessary.

Majors may be taken in Home Economics Education and General Home Economics. Minors may be taken in Education, Administration and Supervision, Home Economics Education and General Home Economics.

Twenty (20) semester hours or more are required for major, and (10) semester hours or more are required for a minor for the Master of Science Degree. Six additional hours, including the Master's Essay are required for the Master of Education Degree. Consult the Dean or major professor for additional information.

For the general requirements for admission to candidacy, residence, course requirements, transfer of credit, quality of work, thesis, and application for the Master's Degree, apply in the College of Home Economics. The student is urged to refer to the graduate bulletin for all desired information.

DESCRIPTION OF COURSES

GENERAL HOME ECONOMICS COURSES

513. Studies in Home Management. (HE 513 Home Mgmt) (3-0) Credit 3. A review of management studies, trends in the field and research related to home management. Topics for consideration based upon student needs and interests. Special consideration to such problems as tension and fatigue, physically handicapped, management problems of homemakers employed outside of home, leisure time, and the ages. One major paper required. Abstracts of research studies due weekly.

A study of the basic concepts of measurement and evaluation; consideration of standards appropriate to evaluating the achievement of educational goals; an analysis of the use of measurement in improving instruction and providing a basis for guidance. Experience in construction of varied evaluative instruments. One major paper based upon problems experienced in individual situation. Approval of problem by instructor required.

793. Supervision. (HE Ed 793 Supervision) (3-0) Credit 3. Principles of supervision as applied to home economics education programs, teaching and learning; analysis of leadership functions, program effectiveness, and supervision.

843. Techniques in Educational Research. (HE Ed 843 Research) (3-0) Credit 3. Action research in home economics education. Students conduct small research studies designed to improve classroom techniques and procedures. A written report of a study is required. Required of Master of Education degree candidates.

COLLEGE OF INDUSTRIAL EDUCATION AND TECHNOLOGY

In the College of Industrial Education and Technology, advance work is offered leading to the Degree of Master of Science and the Master of Education in the field of Industrial Education.

Prerequisite to graduate work in these fields, is the completion of a four-year curriculum from a College or University of recognized standing, substantially equivalent to that required of undergraduates in the College of Industrial Education and Technology. Students desiring to do graduate work who do not have the necessary prerequisites will be required to make up all deficiencies as directed by the Dean of the College of Industrial Education before they will be permitted to begin graduate courses.

To qualify for the Master's Degree with a major in Industrial Education at least fifteen (15) semester hours of the total required must be in courses offered to graduate students only. Also, all students will be required to take a course in Industrial Education 763 — Research and Thesis Writing.

Course Requirements—

1. A minimum of thirty semester hours, exclusive of thesis, with an average grade of "B," or better, in courses approved for graduate credit, is required for the degree of master of Science.

In addition to the thirty semester hours in graduate courses all candidates for the degree of Master of Science must present an acceptable thesis on a subject germane to the major course of Study.

2. Thirty-six semester hours of course work are required for the degree of Master of Education.

The student in pursuit of a Master of Education degree must perform satisfactorily on a written comprehensive examination. This examination is provided for each candidate for the degree during his final semester in which all course requirements are met. This examination is related to the over-all objectives of the major program. Its purpose is to identify and evaluate each candidate's knowledge and understanding.

For advanced work in the College, good library facilities and laboratory equipment are provided to carry out the work suggested. Certain research problems may be made available in cooperation with other departments of the university.

DESCRIPTION OF COURSES

AUDIO-VISUAL EDUCATION

503. Audio-Visual Materials in Instruction. (Audio 503 Materials) (2-2) Credit 3. I and II. The improvement of learning and teaching through the effective use of Audio-Visual instructional materials; operational procedures for all types of Audio-Visual equipment.

513. Administration and Supervision of Audio-Visual Education. (Audio 513 Administration) (3-0) Credit 3. I. Emphasis on the supervision of budget and planning of an audio-visual program — for teachers appointed as audio-visual coordinators in their schools, as well as for principals, classroom teachers and students planning a teaching career.

523. Preparation of Graphic Materials. (Audio 523 Graphic Matl) (1-6) Credit 3. II. Emphasis on the construction of audio-visual materials for classroom teaching. Basic production techniques as audio-visual material for various teaching areas. Lab. fee: \$2.00.

543. Laboratory in Audio-Visual Materials. (Audio 543 Laboratory) (1-6) Credit 3. II. Practical experience in the mechanical manipulation of the various audio-visual materials and devices. Includes mechanical theory of materials and equipment.

DRIVER EDUCATION

503. Driver Education and Traffic Safety II. (Dr Ed 703 Traffic II) Credit 3. I, II. This course is primarily devoted to methods of teaching, and traffic safety needs of secondary schools. Laboratory experience in teaching beginners to drive in dual control cars; psychophysical testing, teaching materials and procedures, state laws and regulations. (Approved Certification Course).

703. Driver Education and Traffic Safety II. (Dr Ed 703 Traffic II) Credit 3. I, II. This course is primarily devoted to methods of teaching, and the administration of high school driver and traffic safety education. (Approved Certification Course). Prerequisites: D.E. 303 or 503.

513. Motorcycle Safety & Instruction. (DE 513) Credit 3. This course deals with classroom and laboratory instruction. Laboratory phase is designed to develop safe operational habits and skills, and involves organizing and administering a motorcycle rider and safety program in the public schools. Lab. fee: \$3.00.

523. Motorcycle Instruction & Methods. (DE 523) Credit 3. Rider experience, skill development, service and maintenance procedure methods of instruction, and organization and administration of a motorcycle rider and safety program in public schools. Lab. fee: \$3.00.

723. Driver and Traffic Safety Education III. (DrEd 723) Credit 3. I and II. This course will involve multi-phase instruction including simulation, multi-car driving ranges, and multi-media classroom techniques and procedures. Teachers will receive actual experience in the use of the equipment and facilities involved in the above phases of instruction.

783. Supervision of Driver and Traffic Safety Education. (Dr Ed 783) Credit 3. I and II. This course includes philosophy, principles, practices of supervision, with special emphasis on role playing, group dynamics, problem solving, program scheduling, evaluation of teaching performance, and supervision of non-degree teaching personnel (teaching assistants).

INDUSTRIAL EDUCATION

IE 500. Shop Organization and Classroom Management. (IE 500 Organization) (2-0) (3-0) Credit 2 or 3. I and II. A minimum of 45 clock hours required. Effective organization of vocational classes and management of shops and laboratories for efficient instruction; discussion of factors and principles pertaining to good roll-keeping, reporting systems, grading, record-keeping, and attendance; factors, guidelines and procedures; purchasing, receiving, and storing materials and supplies; safety consciousness and accident prevention; teacher liability; eye protection laws of Texas; heating, lighting, ventilation and sanitation; the shop library; managerial duties and responsibilities of class members. Persons enrolling for 3 semester hours credit will be required to prepare research paper.

IE 510. Development, Organization and Use of Industrial Instructional Materials. (IE 510 Instr Materials) (2-0) (3-0) Credit 2 or 3. I and II. A minimum of 45 clock hours required. Acquiring skills and techniques in developing and preparing instructional materials; proper preparation and use of instruction sheets and lesson plans; materials that meet specific needs; evaluation of existing instructional materials; organizing instructional materials for effective teaching; adopting information from industry into information sheets; constructing lesson plans and instruction sheets. Persons enrolling for 3 semester hours credit will be required to prepare research reports.

523. Tests and Measurements in Industrial Education. (IE 523 Test Measrmt) (3-0) Credit 3. II. Sources of instructional testing and evaluating materials; construction and use of test and evaluating devices; administering, scoring, recording and interpreting tests, progress charts, diagnosis of difficulties, analysis of teaching problems as related to evaluation.

533. Instructional Methods in Industrial Education. (IE 533 Methods) (3-0) Credit 3. I. Study of methods, devices, techniques as applied to teaching industrial subjects; analysis and evaluation of student learning difficulties and teaching responsibilities in industrial classes; also study of the nature, preparation and use of instruction sheets.

540. Occupational Analysis and Course Making. (IE 540 Course Making) (2-0) (3-0) Credit 2 or 3. I and II. A minimum of 45 clock hours required. The meaning of analysis and its value in course making; analyzing occupations for teachable content; reviewing systems of analysis, adaptation of principles of fit individual teacher needs; making course outlines for occupational areas; study of organization of courses of study; preparation and development of segments of courses of study for specific occupational areas. Persons enrolling for 3 semester hours of credit will be required to prepare research reports.

OFFICE OF CAREER EDUCATION AND PLACEMENT

Brutus Jackson, Director

The Office of Career Planning and Placement assists the student, beginning with the freshman year, in planning his career, and assists him in finding employment, both while a student, and after he leaves the University. It sponsors four conferences a year, bringing persons from many walks of life as consultants in career opportunities. It assists with follow-up and counseling services and arranges interviews between prospective employees and employers.

The Office maintains permanent personnel records, including ratings and recommendations of the graduates. These records serve as a source of information such as is frequently requested by employers. Transcripts of courses completed, background information, work experience, faculty recommendations, photographs and other pertinent information are compiled and sent to prospective employers at the request of the graduate, faculty member or employer.

The Office is maintained and operated for the purpose of assisting ex-students and graduates in securing employment. It is also a free public service functioning as an aid to employers in securing qualified personnel.

Graduating seniors and alumni should register with the bureau.

The service is FREE.

In addition to the resources of the W. R. Banks Library, readers may have access to those of other libraries through inter-library loans and other cooperative arrangements. The library staff will make such arrangements upon proper request.

To secure the greatest benefit from the services made available to readers in the library, each reader must become acquainted with library rules and regulations and should seek timely guidance from the qualified members of the library staff.

The library and its facilities contribute to the academic climate of the University by providing comfortable, convenient, adequate and beautiful study areas for those who must do assigned readings, for serious readers, for scholars, and for those who will read for general development and cultural advancement.

To facilitate effective use of the library on the part of its readers, the staff in each service area gives consultation, informational, and directional services to those who require such services. Please feel free to request such help when it is needed.

Library Service hours are as follows:

Monday-Friday: 8:00 a.m.-10:00 p.m.

Saturday: 8:00 a.m.-5:00 p.m.

Sunday: 2:00 p.m.-10:00 p.m.

Any exceptions to these hours will be posted in the library.

EXTRA-CURRICULAR ACTIVITIES

Religious Influences

While no particular denominational influence is exerted at Prairie View A&M, the

administration is thoroughly committed to the belief that religious training benefits the student, and gives support to the religious organizations on the campus with the hope that no student will leave the institution less religious than when he came.

Religious activities, promoted under the direction of the Dean of the Chapel include Sunday School and Morning Worship.

The following religious-oriented student groups are active on the campus:

Baptist Student Movement	Newman Club
Canterbury Association	Church of God In Christ
Church of Christ	
Methodist Student Movement	

In addition to the student groups, there is active the United Ministries, an organization composed of ministers in the University, the campus community, and from nearby towns, with the goal, "A unity of charity within a diversity of theology."

Student Organizations

A wholesome, integrated program of student activities is provided through student organizations. Students may choose, according to individual interests, any activities which meet their desires for companionship, their needs for recognition or growth, their needs for creative effort, or activities which supplement their classroom work in the many departmental or interest groups on the campus.

A. Academic

Honor Societies: Academic units of the University, as a part of the program for stimulating intellectual growth, have developed curricula and facilities qualifying them for establishing chapters of national honor societies. The societies with the years of their charters on the campus are:

- 1936 MU ALPHA SIGMA — Honor Society in Music
- 1940 ALPHA KAPPA MU — Honor Society for University-wide academic excellence
- 1948 BETA KAPPA CHI — Honor Society for Science and Mathematics

Departmental Clubs: In addition to the national honor societies with chapters on the campus, all Schools and Departments sponsor one or more clubs for persons either majoring in or having an interest in the particular discipline.

B. Social

Greek Letter Societies: The following Greek Letter Societies have chapters at the University.

Men

Alpha Phi Alpha
 Kappa Alpha Psi
 Omega Psi Phi
 Phi Beta Sigma

Women

Alpha Kappa Alpha
 Delta Sigma Theta
 Zeta Phi Beta
 Sigma Gamma Rho

Social and Cultural Organizations: There are many clubs operating on campus which combine social and cultural interests. The following are included in this group: Groove Phi Groove Fellowship, Inc., LBA, LBL, Crescendos, Alpha Phi Omega.

Varsity Athletics

Prairie View A&M University is a member of the Southwestern Athletic Conference. Intercollegiate competition includes football, basketball, tennis, track, golf and baseball. The teams are nicknamed "Panthers," and the colors of the University are purple and gold. Athletics for women is gaining in popularity. The "Pantherettes" participate in varsity competition in basketball, track and tennis.

Intramural Recreation

An active sports and recreation program is coordinated by the Director of Recreation. Intramural activities are designed to meet the needs of every student regardless of sex, skill or ability.

Touch-football, basketball, softball, volley ball, tennis, table tennis, badminton, swimming, billiards, chess, checkers, and dominoes are some of the activities offered.

Individual and team trophies are awarded for outstanding performances.

DIVISION OF CONTINUING EDUCATION

I. D. Starling, Director

The Division of Continuing Education was established for the purpose of extending instruction and services of Prairie View A&M University to communities in the State. It is an organization for the people of Texas and the agency through which the various colleges, department and other units of the university may extend their services to citizens of the State.

Continuing Education is the term applied to those organized post-secondary education experiences which is not a part of regular on-campus residential instructional program planned specifically for adult citizens who desire to improve their vocational, professional, cultural, or social learning beyond their present level of education.

PROGRAMS AND ACTIVITIES

The Division of Continuing Education is responsible for the co-ordination of all continuing education programs and activities developed by the colleges, schools and departments of instruction of the university. The usual programs and activities associated with continuing education are credit and non-credit evening courses, short courses, seminars, workshops, conferences, institutes correspondence study, extension classes and school services.

CONFERENCES — INSTITUTES — SEMINARS

The development of conferences, institutes, or seminars by various colleges or department of the university is based on the requests of citizens or needs observed by the university. The Division of Continuing Education assists the various units of the university through co-ordination, program planning, budget development, arrangement for physical facilities and certification of continuing education credits. Conferences, institutes, seminar and short courses may be offered in any region of the state where a sufficient number of persons indicate a need or a desire for the activities.

EXTENSION CLASSES

Extension classes are offered in any community or region of the state where a sufficient number of students may be organized to form a class, where a qualified instructor is available and the location is geographically feasible to serve. The classes are designed primarily to meet the needs of in-service teachers on the graduate level, but this does not preclude enrollment of other qualified professional or non-professional persons. The entrance requirements are the same as those for resident students.

REGISTRATION, FEE, POLICIES AND PROCEDURES

Students who enroll in the Division of Continuing Education are expected to comply with University policy and regulations which govern the respective program or activity. This includes fees, Academic standards and registration procedures.

CONTINUING EDUCATION CREDIT

Continuing Education Credits (C.E.U.) may be earned by students who are properly enrolled in short courses, seminars, or other Program activities in which college semester hours are not earned.
