TO ALL EXTENSION WORKERS:

This year 175 Texas Extension workers have received some kind of professional training. We know you will be interested in looking over the attached list of Extension workers and the training institutions which they attended.

We think this large number of people receiving professional training indicates real interest on the part of Extension workers in improving their professional abilities. We are quite pleased with this fine representation and hope that members of this organization will continue to study for the purpose of improving Extension work.

Very truly yours,

Dear Mr. Mayo:

A few days ago I received a letter stating that I had been given a increase in salary of \$500.25 per year beginning Septemeber 1, which I was very thankful for, but my September check does not show a \$500.25 increase as such, it only show a \$27.39 per month plus Tax and retirement of \$2.70 making a total of \$30.09 per month which will make a annual increase of \$361.08 per year.

I through I should call your attention to this matter because it might be an error at the office at College Station.

I unders tand we lost the encrease we got last August which was about \$10.00 per month and if same was taken from the \$500.25 will still be some difference not shown in the September check.

TO ALL COUNTY AGENTS IN THE FARM UNIT PROGRAM

Dear County Agent:

Some of our farm unit demonstrators have done an excellent job this year. In general, the crops and pastures have been good to excellent in most places. If the demonstration was laid out right in the beginning, this year's crops should show big differences between the treated area and the check plot.

These differences should make good publicity for you when the yields from the different demonstrations are collected and summarized. To help you summarize these results, I am enclosing FUD 3, Revised 1949. If you need help with this form, there is a sample entry in your Farm Unit Handbook. Please return this form to me by December 10, 1949.

Some farm families this year have made outstanding contributions both to themselves and their neighbors. We would like to have these stories, following the outline which is enclosed.

Sincerely,

Roy L. Donahue
Extension Agronomist

P. S. Counties in the program for the first time this year will have no report to make. RLD.
