Dear Mr. Williams:

While attending the District meeting at Bay City on the 21st, did I understand you to state that each agent would be asked to bring one farm leader to attend the AAA meeting at Prairie View on the 9th? Also, that we would remain over night for a conference the next day?

Please drop me a card stating whether the above statements or questions hold true or not.

Dear Mr. Williams:

The enclosed pamphlet - "A War-Time Program for United States Farmers" - is sent to you with the hope that you will find time to read it, if you have not already done so.

Mr. Myers points out and discusses in a brief, simple, clear-cut, and definite way certain important job responsibilities of American farmers in our all-out war effort.

As explained in the circular, the maximum production of essential food crops, the investment of a part of the net farm income in War Bonds and the maintaining of a sound financial position now and during the post-war period cannot be overemphasized in the program designed for the benefit of all farm people.

In this and all other farm programs, may I assure you that we are ready at all times to be of assistance.

Very truly yours,

Cornelius King
Special Assistant to the Governor

Mr. J. H. Williams,

Dear Williams:

Received your letter relative to this present meat situation. I wish I could give you something definite but have nothing to base my statement on should I make one.

Director Williamson has just returned from the Land Grant College meeting in Chicago and while there he was advised that some type of educational meetings are going to have to be held very soon. They, of course, will involve information on ration, of which meat no doubt is going to be the first and major item. I am rather doubtful whether there will be any information available before November 10 but if there is, I am sure that it will be sent on to you immediately.

Here is my opinion. Farm people as well as city people are going to be asked to voluntarily curb their appetites on the products that are gradually becoming scarce. This will mean that all people, regardless of their status, are going to be asked to limit their consumption of meat to two and one-half pounds per week. Few people are eating more than this, generally speaking, and a large number of farm people will stay below this figure. My attitude is that if this is the good American spirit and what it takes to win this war, farm people are going to accept practically one hundred percent and growl very little about it.

If farm people have a visible meat supply for their families this coming year, I think they should go ahead and conserve it to the best of their ability. When it comes to eating it, I think that they should think of two and one-half pounds per week and adhere to it as close as conditions will permit.

As I said before, we will get this information to you as soon as possible after it is released.

Very truly yours,

Roy W. Snyder,
Animal Industries Specialist.

Dear Dr. Evans:

In reply to your request for information on the status of C. J. Westbrook, former County Agricultural Agent for Lee county who is now in the services of the armed forces.

After Westbrook was notified to report for duty, I requested the Commissioners Court to grant him a leave of absence. This they would not do. Their excuse was they were not certain of the work or whether the job would be available after the duration.

Westbrook had done a satisfactory job during his tenure in the county. In spite of the fact that there was some opposition by certain people in the county who exerted pressure on him. I would gladly re-employ Westbrook at the end of the duration when and if an opening is available.

Under the circumstances, this is all we can offer Westbrook. It is his desire to retain his former status, and keep his teacher's retirement intact. I am suggesting that this information be transmitted to Mr. Westbrook.

Dear Sir:

I contacted Mr. C. L. Hart as you said concerning the Negro 4-H Club Swine Program in purchasing five gilts to be distributed to the boys of Liberty County on the Sears Cow-Hog-Hen Demonstration. Mr. Regenbrecht's letter to Mr. Hart only states to replace gilts are none barren or dead. Mr. Hart told me that such gilts would be gotten for that date, but you would have to get him permission from Mr. Regenbrecht to do such.

Two of my 4-H club boys gilts farrowed 14 living pigs. Eight gilts and six males. These pigs will be eight weeks old on January 15, or will be ready for delivery on that date.

I would appreciate a letter concerning the matter from you.

This is to report that I saw Mrs. Palmer and Raligan Thursday and Curtis Fri as planned.

I told them to each report on individual conference as planned, we did not spend much time on the material, other than stressing the importance of getting reports for Dec. report and the importance of using the leaders.

Palmer, Curtis & Poole plan to have one Co. meeting and one Bi-Co meeting during next month.

Mr. Raligan plans to use a combination of the above.

Each man saw the need of getting the people to have enough meat to get the proper amount.

Plan of work was discussed.

Dear Sir:

I was by your house yesterday, and you might notice that note I left in your box. I shall return that ex as soon as I come that way again or when you come to this county. I might be that you will need me again this year on Annual Reports in the Prairie View office. If you do, please make my date on Friday. Ofcourse I will bring your ex back then.

I have recieved some more questionnaires from my local board. It seems that they are getting down to real business out here. I would not be a bit suprise if I be place in 1-A, and be subject to call before winter in over. I have looked into the situation and I have found that if they begin to call married men in this county I am very eligible, because my wife is working. If have further found that if I went to a defense job, I could get a leave of absense from my commissioner's court for the duration. Can I get a leave from the Extension Service for the duration, if I'd go on a defense job? Please make a thorough investigation on this, as I want to be able to move before I am moved. I have some more facts about the ~~count~~ county that I'd like to reveal to you in the near future.
