THE NAIA GOAL: "Athletics—Education for Leadership, Character, Citizenship"

We of NAIA are greatly concerned about the need for the immediate improvement of the

conduct of our intercollegiate athletic program. This year we have instituted a program throughout our 520 member colleges and universities to improve this extremely important phase of the educational process. Throughout the

A. O. Duer

31-year history of the National Association of Intercollegiate Athletics, our foremost goal has been to insure that the intercollegiate athletic program at our institutions is educationally defensible—that it is an integral part of the college curriculum just as are liberal arts, physical education, the debate team, the college newspaper, teacher education, etc.

To this end, our program intends to present a positive approach to a change of emphasis within all segments of the college community of the member institution as we strive to raise the level of moral and ethical practices within the program.

As an alumnus or sports fan of an NAIA member institution, you have a great influence on the total atmosphere in which athletic contests are held. Individually, we are all aware of what is good and unacceptable conduct at an athletic event. However, too often in a crowd situation we tend to violate our private convictions under the emotional stress of the contest and justify or rationalize our laxity because of our enthusiasm.

We hope that each of you will give your influence to encourage the highest in courtesy and vocal enthusiasm toward officials, coaches, athletes and fans who are guests of your institution. They are amateur athletes, don't forget, who are performing for your enjoyment. More than 99 per cent of them will never play professionally, so this represents the zenith of their athletic accomplishments. Let us help these fine young people to get the By A. O. Duer, NAIA Executive Secretary-Treasurer

most out of their efforts and leave with them a good feeling when they remember their college careers and your community in later life.

For some years, the official NAIA stationery and envelopes have carried

the following slogan: "ATHLETICS—EDU-CATION FOR LEAD-ERSHIP, CHARAC-TER, CITIZENSHIP". You see it at the top of this page. We of NAIA are serious about this motto or slogan. This is what we feel it is all about. Intercollegiate athletics is unfortunately about the

last bastion for fair play. But we feel that if the athlete is properly trained, he will take this feeling of fair play into the business world and be an active agent for good.

Now, in addition to what you, as a fan or alumnus, can do to put an immediate stop to the evils of intercollegiate athletics, we want to share with you some of the responsibilities that the college community must assume, so that you can serve as an encouraging force to them and be able to measure the progress within your area.

The officials of the NAIA member institution must make definite statements of the aims and objectives of the intercollegiate program as a part of the total educational process. This requires the leadership of the college president, faculty athletic representative and his committee, the athletic director and his coaches, and the student body leaders.

Then, in addition, these campus leaders must involve the entire community and see that it is dedicated to these emphases of sportsmanship and fair play. This involves the attitude toward and treatment of opponents, the conduct of athletes on and off the field of competition, the conduct of fans, and the planning to assure the highest level of conduct in every area of the contest. This must be accomplished if athletics is to share its responsibility in preservation of our democratic and free society. Otherwise, the decay of morality and ethical practices will continue to our ultimate destruction.

How often have we all looked forward for days, weeks and months to a particular contest between our favorite team and its No. 1 rival? How

often have we discussed with our friends a previous meeting between these two institutions that occurred as long as ten or even twenty years before? How often has this game to which we looked forward with such anticipated enjoyment degenerated into a booing contest between the ri-

val factions that probably included a fistfight or two between the players and in general resulted in a performance that we all regretted when the emotions cooled? The time to prevent amateur contests from becoming something of which we are not proud is before and during the contest, and not afterward.

We are asking the cooperation and support of everyone connected with the athletic program in the most direct or remote way to engender the necessary leadership and the equally necessary "followership" and take the steps to set standards which will be expected of each segment of the college community.

Keen competition and winning will still be a major emphasis of the coach, the athlete, the student body and the fans, but always within the definite rules of conduct.

A most significant area of this program must be the maintenance of sound and positive relationships between participating institutions and a lessening of tensions caused by incidents unworthy of the program.

Let me leave you with three thoughts. The success of this program depends upon you and YOUR conduct. As a participant in, or supporter of, intercollegiate athletics, you must subscribe firmly to the belief that intercollegiate athletics is worthy of only your highest conduct. This is an area of endeavor where the actions of ONE person—yourself— will make a significant difference.

What's so great about ROTC?

Check 'em.

Great opportunity. You earn a commission while you earn your college degree. Graduate —you start at the top. Fulfill your military obligation as an Army officer. With officer's pay. Officer's privileges.

Great advantages. Employers prefer a college graduate with service as an officer. Pay more to get him. Because he's a trained, experienced leader. Can handle heavier responsibilities.

Great success. From the 5% of college men who had ROTC training have come 24% of our state governors, 28% of executives earning \$100,000 to \$325,000 per year, 10% of Congress, 15% of our ambassadors.

Great guys. ROTC men are campus leaders —in ROTC, athletics, extracurricular activities. And they do better scholastically than non-ROTC students.

Great extras. \$50 per month in junior and senior years. Scholarships for outstanding students. Free flight training at over 125 colleges. Extra social activities—military balls, honor societies, bands, rifle teams.

Any way you look at it, there's a lot more going for you when you're in ROTC.

Your future, your decision ...

choose Army ROTC.

TODAY'S GAME

Arkansas head football mentor Vannette Johnson brings his Golden Lions to Prairie View sporting a perfect 3-0 conference record. The Lions suffered one set back at the expense of Lincoln University. To give you an idea how the game goes Saturday after Saturday the Lions defeated Wiley Wildcats 25-19 and Wiley defeated Lincoln early in the season. Dating back to 1952 when the Lions and Panther Classic began, the Lions never defeated the Panthers until last year (67) and it was done in grand style. The Golden Lions rolled up a 65-7 win over the Panthers. The Golden Lions are led by Edward Cross, an All-American glue fingered receiver wearing number 0.

Prairie View Coach Wright will be trying to start the Panthers streak over the Golden Lions once again. Uriel "Sloppy Joe" Johnson a flashy flanker will be the Golden Lions biggest concern. Johnson caught 2 passes for 111 years, including an 85 yarder in their 13-10 loss

to Bishop last Saturday night. All-American candidate, 6'6", 265 lb. Clarence Williams leads an improved offensive line. Prairie View's next game is homecoming against a fine Mississippi Valley team coached by former Texas Southern All American end William "Rock" Glossom.
