PRAIRIE VIEW A&M UNIVERSITY PANTHERS

vs.

SOUTHERN UNIVERSITY JAGUARS

Saturday, September 24, 1977

7:30 p.m.

RICE STADIUM — HOUSTON

This annual grid contest between arch-rivals Prairie View A&M and Southern Universities is always one of the highlights of the tough Southwestern Conference football schedule. Tonight's game should be no exception as both the Panthers and Jaguars attempt to move forward in the developing SWAC race.

FACTS ABOUT

PRAIRIE VIEW A&M

PRESIDENT — Dr. A. I. Thomas

NAME — Prairie View A&M University

FOUNDED — 1876 by the Fifteenth Legislature of the State of Texas

LOCATION — Prairie View, Texas. A college town located forty-five miles northwest of Houston on U.S. Highway 290.

ADMINISTRATION AND TYPE — A part of the Texas A&M University System. A Public state supported senior college. A Land-Grant College.

ENROLLMENT — 5,675

FACULTY AND STAFF — 225 faculty, 502 support staff

ALUMNI AND EX-STUDENTS — Over 45,000

CAMPUS AREA — 1,400 acres

SCHOOL COLORS — Purple and Gold

CONFERENCE — Southwestern Athletic

NICKNAME — Panthers

STADIUM — Blackshear Field

CAPACITY — 6,000

DR. ALVIN I. THOMAS
President

OPERATION SUCCESS

Operation Success is based on the philosophy that each student admitted to Prairie View A&M University has the potential to succeed.

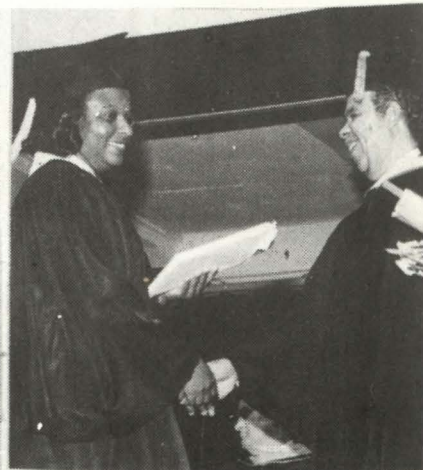

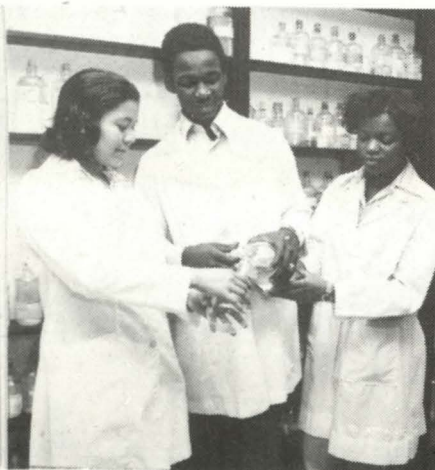

The complete education and experiences of the student at Prairie View A&M University are designed and implemented to help them keep the status to which they were born, namely: **THEY WERE BORN TO WIN!!! THEY WERE BORN TO SUCCEED!!!**

The University recognizes that many students, who are admitted, may have academic, social, cultural, vocational, economic, or personal handicaps.

There are no students admitted, however, with handicaps which cannot be corrected so that the student can achieve success. The students do have the potential to succeed.

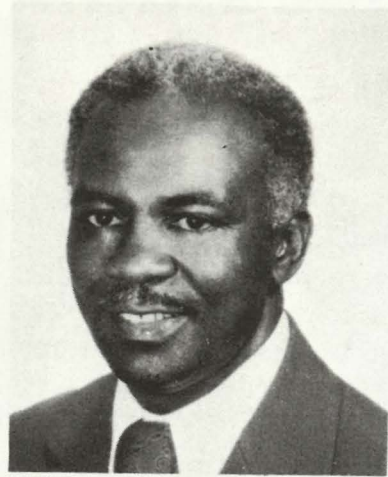

Operation Success is based upon the philosophy that the University will organize its human and material resources into such systems that will maximize the academic, personal-social, cultural, and career awareness and vocational attainment of each student enrolled.

Operation Success is also based upon the philosophy that it is important for the student to enroll at the University, but *it is even more important that he or she graduates from the University with a variety of new experiences and high level achievements.*

Have you ever considered how "Army officer" would look on your job application?

Many employers can give you the answer. Because to fill responsible jobs, they often look for college graduates who have held responsible jobs.

As an Army officer, you have to manage men, materials, and money. Your first year out of college, you shoulder greater responsibilities, at an earlier age, than most other graduates.

So it's no wonder that many employers, looking for demonstrated leadership, rate "Army officer" above most other qualifications. Or why career-minded college students so often take Army ROTC.

In addition to what Army ROTC can mean to you after college, there are many important benefits while you're in college. Scholarship opportunities.

Practical leadership and management experience. And a subsistence allowance of up to \$2,000 during your last two years of college.

But most important is the challenge. Being an Army officer means giving your absolute best. Then getting the people you supervise or command to give theirs.

It means working at one of the toughest, most rewarding jobs of your life. Weigh that carefully. Then decide how "Army officer" would look on your job application.

TALK TO US!

4512 or 4612

SPENCE HALL

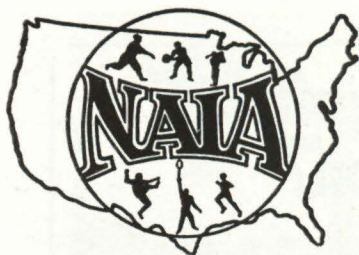

...why don't you

DO IT!!

DO IT!!

ARMY ROTC.

LEARN WHAT IT TAKES TO LEAD.

National Association of Intercollegiate Athletics

Dear Football Fan:

On behalf of the National Association of Intercollegiate Athletics (NAIA) I would like to take this opportunity to extend greetings and welcome you to today's game.

It is the strong feeling of the NAIA that intercollegiate athletics are an integral part of the total educational process. More than 65,000 athletes are annually involved in our organization's athletic program. Football is just one of 15 sports sponsored by the NAIA. The outstanding quality of NAIA Football is indicated by the large number of former NAIA athletes presently on National Football League rosters.

The culmination of our season is the Division I and II national championship games. The Division II national championship will be decided on Saturday, December 3, 1977 at a site of one of the participating teams. It gives me a great deal of pleasure to announce that our Division I national championship game will be played on Saturday, December 10, 1977 in the Kingdome in Seattle, Washington. The Division I championship game will now be known as The Apple Bowl. This year for the first time, a 14-week "NAIA Football Game of the Week" is being telecast via a syndicated network under the auspices of College Sports, Inc.

I echo the sentiment of our entire membership when I say thanks to you for your loyal support and dedication in making this football game an outstanding athletic competition in the best tradition of American higher education.

Dr. Harry Fritz

Sincerely,

Harry Fritz
Executive Director NAIA

The Story of the NAIA . . .

The National Association of Intercollegiate Athletics (NAIA) is a completely autonomous association, currently administering programs leading to national championships in 15 sports for 513 fully accredited four-year colleges and universities.

Established in 1940 as the National Association of Intercollegiate Basketball the NAIB evolved from the institution of a "National Small College Basketball Tournament" which was inaugurated in 1937. In 1952, the NAIB expanded to include tennis, outdoor track and field, and golf, and that year the organization was officially named the NAIA. In the last 25 years, the NAIA has further expanded to encompass football (it was split into two divisions in 1970), cross country, baseball and swimming, which were added to the NAIA program in 1956, wrestling (1958), soccer (1959), bowling (1962), gymnastics (1964), indoor track and field (1966), ice hockey (1968), and volleyball (1969).

The NAIA, with its national office located in Kansas City, is organized into 32 districts, grouped into eight geographical areas. All areas of intercollegiate athletics are organized and administered at the national level. The National office staff consists of an executive director, three assistant executive directors, the public relations staff, as well as mail room and secretarial staff.

On the district level, a District Chairman, a District Publicity Chairman and a District Eligibility Chairman are appointed to

handle various matters at the district level. A major factor in the success of the NAIA program is the importance placed on "grass roots" organization, in which each district administers and organizes the programs of the schools within their own district. The districts are small enough in the number of schools involved that each individual institution has a major voice in the policy and decision-making process within that district. This procedure carries on to the national level, where each of the 32 districts have an equal voice in national matters.

The NAIA clearly outlines its own responsibilities and those of its members: a sound athletic program, administered and controlled by those responsible for the administration of the college or university. The NAIA encourages a broad program of athletic pursuits in its member schools and aims at uniformity and equity in policies and practices through its district and national tournament meets.

Eligibility rules in the NAIA govern all competition in sports recognized by the NAIA, not just post-season competition. These rules must be adhered to by all NAIA member institutions, including those members holding dual affiliations with other associations. NAIA member institutions must pay the annual membership dues and be in support of the policies of the Association.

TONIGHT'S GAME

It's A Brand New Game

By Joe Booker
PVU Sports Publicity Director

It's a brand new ball game. We're babies just noticing that fingers move and that when we shut our eyes the nasties go away, only to still be there when the lights return.

The 1977 football season is about to burst into the lives of everyone here as two football teams see who has got the strongest and the fleetest with the most daring-do.

The 1976 PVU-SU game is a no-no. It didn't exist for the Panthers.

This is the year. This is the game-1977. This one that kickoff at 7:30 p.m. is the one meant to be for both teams.

The lights go up and the birth of the season begins with the pains of players slapping helmets and pounding shoulder pads and it grows as the strain of the National Anthem float toward the stars to announce to one and all that the life of two football teams is about to begin.

As the clock tolls 7:30, the foot meets the ball and it's a mad rush to prove that this baby will be the best of them all.

Well friends, it takes about two hours to decide that and then as the season wears on, it comes down to "taking them one game at a time," the old coach said.

As the late sportswriter Grantland Rice once said, "It's not if you won or lost, but how the game was played."

Maybe this worked in Grantland Rice's day, but now it's if you won.

But as Donald Duck once said, "Well, you can't win 'em all." And if any duck would know, Donald would.

But this is all a new game Baby and it could prove once and for all, that Donald Duck knew what he was talking about.

QUICK LOOK PVU VS SU

RECORDS—PVU had one of its better years in 1976, winning its last three games and four of its last five... The Panthers recorded a 6-5 campaign and finished fourth in SWAC... SU finished the season with a 9-1 record and second place in the SWAC... the Jags only loss was to Alcorn...

COACHES—PVU Coach Hoover Wright has been at Prairie View since 1961... He took over as head football coach in 1966 where he compiled records of 5-3-1, 5-5-0, and 4-6-0... he stepped down after 1968 and returned in 1973. Charlie Bates is going into his sixth year as head coach at Southern... he has compiled records of 2-7-1 in 1972, 6-4 in 1973, 8-3 in 1975 and 9-1 in 1976.

THE SERIES—Southern leads the series 22-20-3, which dates back to 1930... The Jags have won the last 5 games... they won last year 7-6...

THE RATINGS—The Panthers are picked fourth in SWAC, while the Jags are tied for first with Grambling.

THE OFFENSE—Both teams rely heavily on the running game... the Jags run from the veer, while the Panthers run from a multiple set...

THE DEFENSE—Both clubs are known for hard nose defensive play... The Jags finished second in SWAC on defense last year while the Panthers finished fourth.

President Dr. Jesse N. Stone and Family

Southern

BATON ROUGE,
"Mirroring Excellence
As A People's

Southern University's fourth president, Dr. Jesse N. Stone, Jr. has said, "simply put, the goals of the Southern University System are to provide quality education for our students... developing their potential to the highest possible level; and to maximize the resources available to improve the quality of learning."

Approaching its "Centennial" as a university, the institution which got its humble beginning following the bitter years of reconstruction and amidst educational advancement retarded by the race issue...is today "truly a citadel of learning and beacon of hope" facing the challenges of new and increased demands on higher education.

Southern University Baton Rouge campus is parent campus for the only predominantly Black university system in the world. There are other campuses located at the two largest cities in the state, New Orleans and Shreveport.

Southern University was created by act of the Louisiana Legislature in 1880 and has been firmly rooted in Baton Rouge since 1914. As solidly entrenched as the live oak trees that shade its campus, Southern University is located in North Baton Rouge on Scott's Bluff off Interstate 110 North with 512 acres stretching its western border along the majestic Mississippi River.

Known as a "people's University" among academicians and as "Jaguarland" among sports enthusiasts, the Baton Rouge campus has a student population exceeding 9,000 and in addition of the 512 acres, has a 372 acre experimental farm five miles north of the campus.

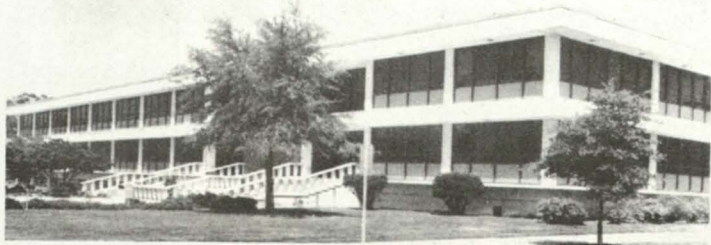

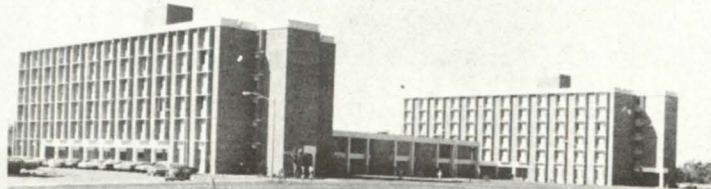

The ever-expanding facilities continue to grow at a rate commensurate with enrollment increases and its general university thrust.

The Baton Rouge Campus is one of the most beautiful sites anywhere, with its Louisiana Oaks, Lake Kernan, and azaleas as part of a landscape enhanced by the Mississippi River, creating a picturesque-setting to go with its claim to "one of the most modern physical plants in the South."

The SU System is managed by an 18-member Board of Supervisors, provided for in the Louisiana Constitution, adopted in April 1974. The SU System is headed by a system president and each campus entity by a Chancellor.

On the Baton Rouge Campus, there are nine (9) schools and colleges, with a Law School and Graduate School. Collectively, these schools and colleges offer some 128 programs of study. The University confers the bachelor of sciences degree in agriculture, business, elementary and secondary education, vocational education, recreation, liberal studies, architecture, civil engineering, electrical engineering, mechanical engineering, industrial technology, and home economics. The University also confers the bachelor of music, bachelor of arts in liberal studies, bachelor of music education, the jurors doctorate, the master of art in education, the master of education, the master of arts in social sciences, the master of sciences, along with commissions in both, the Army and Naval ROTC. Additional components of the Baton Rouge Campus are the special schools, such as a School for the Deaf, a School for the Blind, and the SU Laboratory School with Grades "K" through "12."

CAMPUS SCENES AT SOUTHERN UNIVERSITY

University

LOUISIANA
And Providing Service
University"

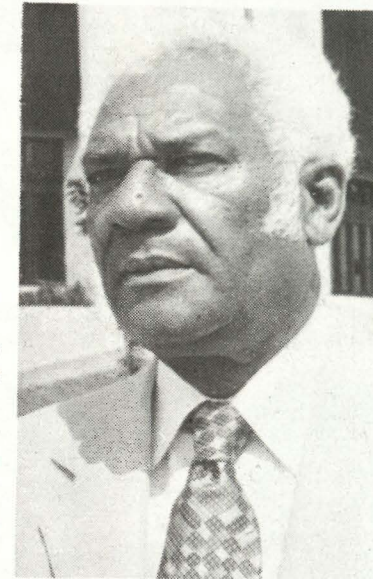

Few schools in the state approach Southern University in terms of accreditation. The University is accredited by the Southern Association of Colleges and Schools and each unit by the appropriate accrediting agency.

The quality of its faculty is well illustrated in the fact that 50 percent of the faculty hold the doctorate degree. Assembled on the Baton Rouge Campus is an unusually strong faculty - one that is creative, innovative, patient, tolerant, understanding and above all, competent in their respective subject areas.

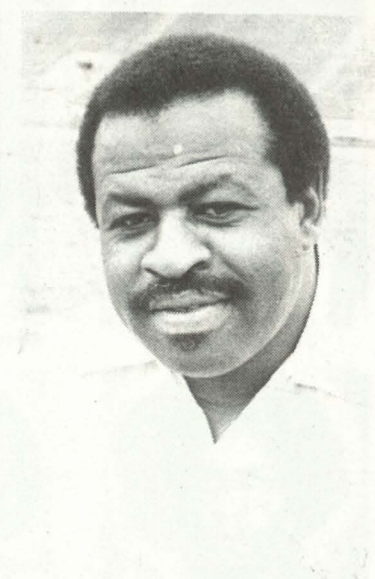

SU's system-wide faculty consist of 583 persons. Many of them have outstanding records in teaching, research, and publication, and have achieved recognition within their respective fields. Of the total faculty, 196 have earned terminal degrees, 17 have juris doctorates, and 355 are holders of the masters degrees. In addition, there are 898 classified and unclassified employees.

Southern University remains at the forefront in higher education, whether its hosting the Joint Administrators Conference for the State; the Annual High School Rally; A Summer NCAA Recreation Program for 1000 Underprivileged Youths; presenting the first amateur production of "Porgy and Bess"; or whether its designing an Extended Day Program, which affords the working public time to attend classes at times convenient for them...the University "mirrors Excellence in providing service as a people's university."
