ANNUAL CATALOGUE

OF THE

PRAIRIE VIEW STATE NORMAL

AND

INDUSTRIAL COLLEGE

FOR THE

SCHOOL YEAR 1900-1901.

WITH ANNOUNCEMENTS FOR THE SCHOOL SESSION
BEGINNING SEPTEMBER 4, 1901.

PRAIRIE VIEW, TEXAS,
WALLER COUNTY.

AUSTIN:
VON BOECKMANN, SCHUTZE & CO., STATE PRINTERS.
1901.

BOARD OF DIRECTORS.

The government of Prairie View Normal and Industrial College is vested in a Board of Directors, consisting of eight members, appointed by the Governor of the State, the Commissioner of Agriculture, Insurance, Statistics, and History being *ex-officio* a member. They are "selected from different sections of the State, and hold office for two years, and until their successors are qualified."

MEMBERS OF THE BOARD.

HON. MARION SANSOM, President,
Alvarado, Texas.

HON. A. C. OLIVER,
Douglassville, Texas.

HON. WILLIAM MALONE,
Hunter, Texas.

HON. F. A. REICHARDT,
Houston, Texas.

HON. JEFFERSON JOHNSON,
Austin, Texas.

HON. ALVOT SMYTH,
Mart, Texas.

HON. P. H. TOBIN,
Denison, Texas.

HON. J. A. KOKERNOT,
San Antonio, Texas.

PRAIRIE VIEW COMMITTEE.

HON. F. A. REICHARDT, Chairman.

HON. MARION SANSOM (*ex-officio*).

HON. JEFFERSON JOHNSON.

PRAIRIE VIEW STATE NORMAL AND INDUSTRIAL COLLEGE.

S. H. B. No. 379.]—An Act to amend Articles 3886 and 3887, of Chapter 5, of Title 86, of the Revised Statutes of the State of Texas, relating to the Normal School for Colored Teachers at Prairie View.

SECTION 1. *Be it enacted by the Legislature of the State of Texas:* That Articles 3886 and 3887, of Chapter 5, of Title 86, of the Revised Civil Statutes of the State of Texas be so amended as that same will hereafter read as follows:

Article 3886. Said board of directors shall admit one student from each Senatorial district, who shall be appointed by the Senator representing said district, and one student from each Representative district, who shall be appointed by the member of the Legislature representing said district; provided, that where there are more than one Representative in a district each Representative of such district shall appoint one student, said students to be taken from the colored population of this State, which said students shall not be less than sixteen years of age at the time of their admission; provided, the said school shall hereafter be called and known as "Prairie View State Normal and Industrial College."

Article 3887. Said board shall appoint a principal teacher and such assistant teacher or teachers of said school and such other officers of said school as may be necessary, and shall make such rules, by-laws and regulations for the government of said school as they deem necessary and proper, and shall regulate the course of study and the manner of performing labor to be performed by the students, and shall provide for the board and lodging and instruction to the students, without pecuniary charge to them, other than that each student shall be required to pay one-third of the cost of said board, lodging and instruction, quarterly, in advance, and said board of directors shall regulate the course of discipline necessary to enforce the faithful discharge of the duties of all officers, teachers, students and employes of said school, and shall have the same printed and circulated for the benefit of the people of the State and the officers, teachers, students and employes of said school.

SEC. 2. The near approach of the end of the session, and the crowded condition of the calendar of both houses of the Legislature, and the improbability that this bill can be reached in its order on three several days in each house, and the great need and demand for the passage of this act, creates an emergency and an imperative public necessity exists for the suspension of the constitutional rule requiring bills to be read on three several days in each house, and said rule is so suspended.

Approved June 6, 1899.

FACULTY.

E. L. BLACKSHEAR, Principal,
Mental and Moral Science and Pedagogy.

W. B. WOODRUFF, Assistant Principal,
Agricultural Department.

C. W. LUCKIE,
English and Latin.

M. H. BROYLES,
Mathematics.

J. E. GUINN,
Natural and Physical Sciences.

H. M. TARVER,
History.

E. H. HOLMES,
Mechanical Department.

MISS CALLIE D. WILLIS,
Female Industrial Department.

MISS HARRIET F. KIMBRO,
Preceptress.

Assistant Instructors.

MISS HATTIE E. LEE, Normal Classes.

R. L. ISAACS, Normal Classes.

W. C. ROLLINS, Normal Classes.

A. E. FLEWELLYN, Industrial Classes.

J. J. BURNETT, Industrial Classes.

OFFICERS.

VAN B. THORNTON, M. D.,
Physician.

WADE C. ROLLINS,
Secretary to Principal.

R. L. ISAACS,
Monitor.

H. C. ALDRIDGE,
Steward.

A. D. EWELL,
Foreman of Laundry.

R. H. HINES,
Foreman of Farm.

MISS HATTIE C. LEE,
Librarian.

LOUELLA CRAIG,
Music Teacher.

M. H. BROYLES,
Secretary of Faculty.

C. W. LUCKIE,
Bookkeeper.

E. L. BLACKSHEAR,
Local Treasurer.

Student Assistants.

E. W. SCOTT, in Mattress-making.
W. M. K. BROWN, in Broom-making.
RUFUS JOHNSON, in Shoe-making.
J. G. SIMS, Engineer.

CALENDAR FOR 1901-1902.

TEXT-BOOKS.

Mathematics.—Arithmetic (Robinson's Complete), Algebra (Sheldon's), Geometry (Wentworth), Trigonometry (Wentworth).

Language, History, Literature.—Grammar (Whitney and Lockwood), Rhetoric (Genung's), The Beginners in Latin (Collier and Daniell), Second Year Latin (Greenough, D'Ooge and Daniell), Cæsar (Harper and Tolman), Virgil (Chase and Stuart), Rhetoric and Composition (Kellogg), Texas History (Pennybacker), United States History (Barnes), General History (Barnes), English Literature (Kellogg), American Classics (selected).

Natural and Physical Sciences.—Descriptive Geography (Maury), Physical Geography (Maury), Botany (Gray's Elementary), Zoology (Steele), Chemistry (Williams), Geology (Le Conte) (First Lessons in Physical Sciences (Avery), Observation Blanks in Physics (Hammill), Physics (Gage), Laboratory Manual of Physics (Gage), Laboratory Manual of General Chemistry (Williams).

Mental, Moral and Educational Sciences.—Pedagogy (Hewitt), School Management (White), Psychology (Baldwin), History of Education (Compayne), Moral Science (Hickok), Methods (Raub).

Miscellaneous.—Civics (Young), Bookkeeping (Bryant and Stratton), Economics (McVae), Civil Government and Constitution of Texas (Garrett).

Agricultural.—Agriculture (Lupton), Soils, Crops, and Form (Morrow).

Mechanical.—Mechanics (Dana), Bench Work in Wood (Goss).

Domestic Economy.—Domestic Science (Willard), Columbian Tailoring System (Conwell), Boston School Kitchen.

OBJECT OF THE SCHOOL.

Prairie View State Normal and Industrial College has for its object the training of persons desiring to fit themselves for the important profession of teaching, by giving them thorough instruction and practical drill in the best recognized methods of organizing, disciplining, and conducting schools.

The particular aims are to fit colored youths for responsible positions in the colored public schools of Texas, to impart something of the scholarly spirit indispensable to excellence in teaching, and to awaken an enthusiasm for the education and for the industrial and moral improvement of the colored race in Texas.

Believing in the value of industrial training in connection with the literary and professional studies, as a means to mental, moral and economic improvement, the Board of Directors have added Agricultural and Mechanical Departments and a department of the female industrial employments in order to give a well rounded education and to prepare the students for practical life.

CONDITIONS OF ADMISSION.

1. Age.—No person under sixteen years of age will be admitted.
2. Pledge.—A pledge must be signed to teach as many sessions in the public free schools of Texas as the student may attend sessions of the School.
3. Qualifications.—Persons applying for admission as State appointees must sustain a satisfactory examination, conducted by a Board of Examiners, appointed by the Senators or Representatives of the respective districts of the State, in Arithmetic, as far as Percentage; Orthography, English Grammar, and Composition, Geography, Texas History, and the History of the United States; in all of which a fair degree of proficiency must be demonstrated to warrant an appointment.
4. Character.—Senators and Representatives are most earnestly requested to carefully consider the moral character of all applicants; their fitness to become teachers, also their scholarship; and to appoint no one who is not in every respect worthy.
5. Incompetent Applicants Shall be Rejected by the Faculty.—No State students shall be admitted into the Institution, who, upon examination by the Principal, shall be found materially deficient in a knowledge of the branches named in condition 3. Hence, Boards of Examiners are earnestly requested not to recommend candidates, unless satisfied as to their qualifications.
6. Faculty Has Power to Dismiss for Deficiencies.—If, after a pupil is admitted, he be found either mentally, morally, or physically unable to pursue the course with a fair prospect of making a teacher in a reasonable time, he will be dismissed, and his Senator or Representative notified to fill the vacancy.
7. Advance payment of entrance fees of \$10.00 by all students, and payment of \$30.00 per year maintenance by State students, \$10.00 of it to be paid on entrance, \$10.00 on December 1st, and \$10.00 on March 1st, a total of forty dollars. Pay students pay \$10.00 per month in advance for their maintenance, or \$90.00 for the nine months session.
8. Entrance of Students.—Persons intending to enter the Institution are requested to be present on the first day, when possible.
9. Duties of Appointee.—State students are requested to notify the Principal, as soon as appointed; and appointees who fail to present themselves at the Institution within ten days after school begins will be denied admittance.
10. All applicants are required to furnish testimonials, giving evidence of their good moral character. Students coming from other institutions will be required to bring honorable dismissals from those institutions.
11. Any applicant for admission may be subjected to a physical examination by the Health Officer of the school, if occasion seems to require it.
12. All students furnish their own sheets, towels, pillows, pillow cases, lamp chimneys, quilts and blankets. Each person must bring comb, hair brush, tooth brush, blacking brush, clothes brush or whisk broom and table linen.

ORGANIZATION AND GOVERNMENT.

The Prairie View State Normal and Industrial College of Texas is a branch of the Agricultural and Mechanical College of Texas, and is under the control of the Board of Directors of that College. The Board of Directors elect a principal and a faculty, to whom is entrusted the immediate control of the school.

It is the duty of the Principal to exercise general supervision and direction over all the affairs of the Institution, subject to the regulations and restrictions imposed by the Board of Directors.

The instruction of the Institution is committed to departments, a member of the Faculty being at the head of each department. These departments are, at present, as follows: Department of Science, Department of Mathematics, Department of Pedagogy, Department of Latin and English, Department of History, Mechanical Department, Agricultural Department, and Female Industrial Department.

Such assistant teachers are employed as are needed to carry out the work of the departments.

The discipline, as well as instruction, of all the students of the Institution is committed to a faculty, a principal teacher being held responsible for the enforcement of regulations and the maintenance of discipline, with the privilege of calling in, at any time, the assistance of any or all of the Faculty.

The immediate supervision of the young ladies of the Institution is entrusted to a Preceptress, whose duty it is to see that the conduct of the young women, their personal habits, manners, carriage, modes of dress, and habits of study conform to correct standards.

COURSE OF STUDY.*

FIRST YEAR.

Arithmetic, 5.
English Grammar, 5.
Geography, 5.

Boys. { week, Gymnastic, 15 minutes
{ daily (except Sunday).

Physical Culture { Calisthenics and Delsarte
for Girls. { Drill, 2 periods per week.

*The figures after subjects indicate the number of hours per week allotted each subject.

GENERAL STATEMENT AS TO COURSE OF STUDY.

The course of study is carried out by departments and a more detailed statement of the work of each department follows.

In addition to the studies named in course of study, a part of the time of the spring terms of the third and fourth year classes will be devoted to reviews in Arithmetic, English, Grammar, United States History, Geography.

DEPARTMENT OF PROFESSIONAL WORK.

E. L. BLACKSHEAR.

This department seeks to give as much professional training to the student-teacher as circumstances will allow. The course comprises Methods of Teaching, School Management, Lectures on Teaching, Psychology, Pedagogy, History of Pedagogy, and Moral Science.

The work in Methods familiarizes the student with the simplest and best methods in Number, Language, Nature Study, Reading, Spelling, Arithmetic, Geography, Grammar and Literature. Attention to Methods is given by each teacher in all classes; and, as far as possible, practice work in teaching will be afforded those showing special aptitude. Raub's has been the text used in these classes.

In School Management, the student is led to see that the purpose of school government is to lead the child to self-control, self-direction in the light of reason, knowledge and conscience. White's is the text used. School Management gives a comprehensive view of the elements that make up the composite whole that we call school, and teaches how to so relate and economize these elements as to secure the best results in education—the *child*, with its sentience, its intelligence, its spontaneity, its capability of growth, its capacity for character; the teacher, wise, pure, tactful, patient, loving, just, strong, healthful, enduring, cheerful, hopeful, fearless, attractive, loved yet deeply respected, prepared yet ever making fresh preparation, directing all things decisively yet unobtrusively, to the true end, which is the development of true character in the child; the school room, buildings, and premises, as related to the health and growth of the child, including heating, seating, lighting, ventilation, arrangement and decoration of grounds, situation and planning of school buildings, laying out of play grounds, and sanitation; *discipline*, formal and incidental, which prepares the child for society with its intricate interaction of spiritual forces, gives him the power of moral resistance, as well as of submission, of co-operative as well as independent action, makes each a law unto himself, explains the significance of disobedience, reconciles moral freedom with the idea of authority, and seeks the formation of a character not merely negatively pure and innocent, but positively and actively good and beneficent. Lectures on Teaching will be given to supplement class work in Methods and Management.

In the History of Pedagogy, the following subjects are made prominent: Education among Greeks and Romans; Education in the Middle Ages; the Renaissance—Erasmus, Rabelais and Montaigne; Protestantism

and Primary Instruction; Luther and Comenius; Fenelon; Rousseau and the Emile; Pestalozzi, Leonard, and Gertrude; Froebel; Herbert Spencer and Horace Mann.

In Psychology, the student is led to observe the gradual unfolding or evolution of mentality: sensation, attention, consciousness, perception, memory, imagination, conception, judgment, reason, and will.

The class in Moral Science is taught the subject under the two great divisions of Duty and Authority. The whole line of positive and negative duties is explained, and the relations of man to man, of citizen to government, of government to citizen, and of government to each other, is set forth. Stress is laid on the duties of industry, economy, self-help, self-culture, respect for parents, and for the rights of others.

The aim of this department is to inculcate a professional spirit; to lead the student to realize that *teaching* is a profession based upon principles; that mind is an entity, capable of being directed in its development; that there is a necessary correlation between studies and the development of the mental faculties; that all correct education leads to the formation of true character.

DEPARTMENT OF ENGLISH AND LATIN.

C. W. LUCKIE.

This department comprises the following branches of study: Grammar, Composition, Rhetoric, Literature, and Latin.

Grammar.

In Grammar the sentence with its numerous forms and many shades of meanings is the unit or subject-matter. The principles of the language as they enter into the sentence and are manifested by it must be studied and classified, and every fact of the subject must be seen and explained in accordance with these principles. The student must understand the relation which each word bears to the sentence, as well as the relation the sentence bears to the whole of the discourse of which the sentence is a part. He should also see the relation the sentence bears to the thought as well as to the mind which creates thought. Until the student sees these relations and can illustrate them he can not be said to have a teaching knowledge of this subject.

Composition.

Composition is an important branch of this department, and care is taken to make it as practical as possible. All the classes are required to prepare and submit, at stated times, for criticism, written productions. These exercises furnish opportunity to test the student's power of clear thinking, and also his knowledge of the principles of the language. As a continuation of this work and a further application of the principles of composition, each candidate for graduation will be required to prepare under the supervision of this department a thesis upon some special subject, to be presented to the Faculty.

Literature.

This study is intended to help the students to an intelligent appreciation of the production of the best writers and to arouse and strengthen in them a love for good literature. For this purpose we have made selections for special study from a few of the representative writers. The third year class gives two hours each week during the entire year to the works of a few of the leading American authors; the fourth year class devotes the same time to a study of the English authors.

Aside from the regular class work in this study, each of these classes has some required reading upon which, at stated times, they must pass examinations.

Latin.

Our course of study provides two years for the study of Latin. Special attention is given to inflections and conjugations so as to make the student familiar with the different changes of the language. In connection with simple translations derivations of words are studied so that the Latin is made to serve the purpose of strengthening the memory, enlarging the vocabulary and enriching the student's English. The second year is devoted to reading extracts of Cæsar, Cicero and Virgil. Practice is also given in Latin prose composition.

MATHEMATICS.

M. H. BROYLES.

The work of this department embraces Practical Arithmetic, Algebra, Geometry, Trigonometry, and Practical Surveying. The department aims to give a thorough drill in the subject-matter of these branches, and to afford the pupils opportunity of observing advanced methods of instruction. It aims, also, to present to the pupil the most approved methods of teaching number and elementary arithmetic. To the end that the results may be as nearly satisfactory as practicable, every available device that can conveniently be used as a means of illustration is brought into play in the section room.

DEPARTMENT OF SCIENCE.

JAMES E. GUINN.

PHYSICAL GEOGRAPHY.

A great deal of importance is attached to the study of Physical Geography. It is the purpose to treat this subject in such a manner as to lead the students to an understanding of the proximate causes of the familiar phenomena to be observed upon the earth. Its aim is to stimulate a

special interest in nature, and to cultivate a habit of careful observation and scientific thought concerning familiar natural phenomena. An effort is made to establish general principles upon which all natural phenomena may be explained.

PHYSIOLOGY.

In this department, a student acquires a sufficient knowledge to enable him to teach the subject. From time to time, lectures are given on selecting suitable sites for dwellings, school houses and churches; ventilation; care of eyes, on poisons and antidotes, and what to do in case of emergencies. Charts are used in general class work.

BOTANY.

The last term of the third year is devoted to Botany. One month is given to text-book, two to analysis and field work. The field work consists of weekly observation of selected field. Each student is required to analyze fifty specimens, and prepare a herbarium, with twenty mounted specimens. Each student is required to furnish a magnifying glass.

PHYSICS.

This course consists of recitations from a standard text-book, and a series of experiments. It is the aim of this department to secure to the student a thorough preparation for such elementary work as may be required of a teacher in the grades of a primary school, or for his work as a teacher of physics in a high school. A student obtains such knowledge of Physics that he is able to pursue the course in Mechanics without embarrassment.

CHEMISTRY.

Chemistry is taught by recitations, oral instruction, and laboratory work. The course is arranged with a view to giving the student as broad a conception of the science as possible in the time allowed for its study, as well as to make him master of large details. An attempt is made to keep in view two primary objects: The study of Chemistry to get a better insight into nature and her laws; and the study of Chemistry in relation to arts and industries. The laboratory work is made a prominent feature of the course. A manual is used in the laboratory, and each student is required to perform one hundred experiments. Laboratory fees, \$1.50 a term.

GEOLOGY.

The general features of Dynamical, Structural, and Historical Geology are considered. The student will be required to classify twenty-five specimens by means of a chart.

The Department of Science gives special instruction, with experiments and lectures in Chemistry, Physics, and Botany, to the students in the Mechanical and Agricultural Departments.

DEPARTMENT OF HISTORY.

H. M. TARVER.

The subjects of Texas History, United States History, Civics, General History, Political Economy and the History of Civilization constitute this department.

The History of Texas is studied in the first year by means of the best class-room texts and original investigations. Collecting of statistics on the natural resources, industrial development and membership and interest in the educational and religious institutions of the State constitute the work in Texas History.

History of the United States.—The broadest aspect of our national life is held as the unit of this course. The course in United States History is completed in the second and third terms of the first year, though supplemented by means of original investigations and methods of imparting the subject in the elementary reviews of the third and fourth year. The student is supposed to know much of the real matter of the history of our country before entering, and an effort is made to give him something of a teacher's course in the subject, a capacity to recognize and follow the great courses to their full effects.

It is taken that the best interest and the broadest philosophy of this subject are not found in its military and political operations, but in its free institutions, its civilized life, to which battles, elections and religions make their contributions.

Civics.—The course in Civics embraces the civil government of the United States and of Texas. Our instructions aim at an intelligent and useful citizenship through a reliable knowledge of the history of our government, the birth, growth and operations of our constitutional liberties, studied in the light of and by comparison with the provisions and limitations in other constitutional governments.

General History.—General History is taken up in the last term of the second year, in which time the first division—Ancient Peoples—is completed. The subject is continued in the third year, when broader and closer parallel reading is required, and the geographical and political institutions are carefully studied.

History of Civilization.—This course is given in the fourth year, and is intended to carry more of the philosophy of history than we could hope to give in any of the other courses. It is confined to the civilization of the world, and aims at a comprehensive study of the past and present civil institutions. The work is largely laboratory, consisting of the preparation of parallel notes and tables on the great events and nations that have influenced and contributed to the world's civilization.

DEPARTMENT OF AGRICULTURE.

W. B. WOODRUFF, Head of Department.

R. H. HINES, Foreman of Farm.

E. W. SCOTT, Student Assistant in Broom and Mattress-making.

MEANS OF INSTRUCTION.

Grain, cotton, hay, forage crops, and live stock are the products of the 1500 acres composing the farm. For the purpose of illustrating the differences between the breeds of stock, pure-bred herds and graded cattle and hogs are kept. The student becomes familiar with all these, and to him is largely entrusted the feeding and care of milk, herd cattle, and other stock. A full outfit of farm implements is kept, including reaper, corn and cotton planters, and a variety of plows, harrows, and cultivators. Access is given to all results reached by all the various experiment stations of the United States, as well as those of the State. The laboratory contains a large number of specimens of soil of the different counties in the State, and nearly all of the sixty-five elements. The library contains reference on branches of agriculture and allied sciences, and the reading room is supplied with the best agricultural papers and periodicals published in this country. Preference is given to papers devoted to the study and discussion of Southern farm conditions.

DAIRY HUSBANDRY.

Special course given in Dairy Husbandry will be provided for, covering the breeding and care of dairy stock, feeding for milk, and use of separator.

HORTICULTURE.

Instruction in this department is both theoretical and practical. In the class room, instruction is given by text-books, and by lectures; in the garden, orchard, and upon the campus and grounds, by object lessons and practical work illustrated what is taught in the class room. Among the subjects considered are the construction and management of hotbeds, propagating of plants and seeds, green-houses, location of truck farms with reference to the soil, the best method of gathering and packing vegetables for near and distant markets.

The time is not sufficient for thorough education in Veterinary science, but the aim is to make the course one of practical value to the prospective stock owners.

Students of this department receive special lectures, instructions, and experiments in Chemistry, Physics, and Botany from Science Department.

BROOM-MAKING.

A broom factory is operated by this department, and good headway is being made in broom-making.

BUTCHERING.

A class in butchering is conducted by the head of this department to prepare fresh meats for the Mess Hall.

MECHANICAL DEPARTMENT.

ELIJAH H. HOLMES, Head of Department and Instructor in Mechanical Drawing.

A. E. FLUELLYN, JR., Instructor in Blacksmithing.

J. J. BURNETT, Instructor in Woodturning.

The great object of the department is to foster a high appreciation of the value and dignity of intelligent labor.

A boy who sees nothing in manual labor but dull, brute force, looks with contempt upon the labor and the laborer; but, as soon as he acquires skill himself, the conditions are reversed, and henceforth he appreciates the work, and honors the workman.

The work of this department is divided into three divisions: wood work, iron work, and drawing.

Bench work in wood consists of exercises with the different wood-working tools, so arranged in a graded series as to embrace the use of all the tools in their various applications.

First.—The use of planes in joining, smoothing, and dgetting the piece out of ind, lining off, and the use of saws in cutting across and with the grain, and keeping to line.

Then follows the making of butt joints, half-joints, mortise, and tenons, splice or scarf-joints, dove-tailing, lap-joints, dowel-pin joints, panel door, roof truss, and the making of useful articles.

MACHINE-WORK IN WOOD.

The first thing taught in connection with the course is the preparation of the wood for the machines. Then follows the exercises in straight turning, cutting in, and squaring off, concave, convex, and compound curves; chuck work, chisel handles, table legs, and balustrades. Instruction is also given on the use of the planing machines, circular, scroll, and band saws.

IRON WORK.

The work in the blacksmith shop consists of a series of exercises in iron and steel, such as drawing, forming, bending, punching, splitting, upsetting, welding, and tempering. The making of lap-rings, lap-links, hooks, chains, tongs, and hammers. Special attention is given to the management of the fire, and the heat taken; also the economy of material and fuel. Filing, chipping, welding of steel to iron, steel to steel, machine work in iron. Such tools as chisels, punches, screw-drivers, and nail sets are made.

DRAWING.

Drawing is taught throughout the entire course. Free-hand, Mechanical, and Agricultural Drawing, Geometrical Construction, projection and development of surfaces, planning and designing. Technical instruction given throughout the course.

FEMALE INDUSTRIAL DEPARTMENT.

MISS CALLIE D. WILLIS, Instructress in Sewing, Millinery and Cooking.

MISS HARRIET F. KIMBRO, Preceptress.

SEWING COURSE.

Sewing has become of late years so valuable an art that a young woman's education is no longer considered complete without some knowledge of this very important branch.

Because of this fact, to the curriculum of most public and high schools and seminaries, sewing has been added.

The course here has been planned so as to impress thoroughly upon the student the value of order, accuracy in sewing, economy in cutting, the art of buying, the various kinds and qualities of materials, and the colors, materials and trimmings suited to the different types of figures. The aim of this department is to fit young women to meet especially the increasing demand for trained teachers and also prepare them to become practical dressmakers. Each student is required to furnish and make for herself at least one dress before graduation.

The students are requested to make their own clothing in the department.

This enables them to have more practice than could otherwise be given.

COURSE OF STUDY.

FIRST YEAR.

FIRST TERM.

Position, threading needles, using thimbles.

Practice on old bits of cloth; even and uneven basting, running, overhanding.

Turning hem by measure, hemming, stitching, back stitching, overcasting.

Talks on history of needles, thimbles and pins.

SECOND TERM.

Felling; flat, bias, and French fell.

Gathering, stroking, putting on bands.

French hem on damask, blind stitching.

Putting in gusset, sewing on tape, sewing on buttons.

Making eyelets, blind loops, making button holes.

Talks on buttons, scissors, emery and thread.

THIRD TERM.

Making an apron, hemming towels, etc.
 Darning, patching, mending.
 Tucking, whipping ruffles, etc. Mitering corners.
 Hemstitching, chain and feather stitching, herring-bone stitch on flannels.
 Making drawers.
 Talks on cotton, wool, linen and silk.
 Names of machines, how to clean and operate, when and how to use attachments.

SECOND YEAR.

FIRST TERM.

Varieties of stitches used in hand sewing.
 Machine sewing, tucking insertions, etc.
 Examples in tape measures, practice in taking measures.
 Draughting.
 Free-hand and construction drawing.
 Cutting and making drawers and underbodies from patterns.

SECOND TERM.

Talks on manufacture of cotton and linen cloth.
 Fancy handkerchiefs, ties, tea cloths.
 Cutting and making skirts, night dresses.
 Cutting and making shirt waists, dressing sacques.
 Draughting and making plain dresses without lining.
 Talks on the growth and manufacture of wool and silk.
 Free-hand and construction drawing.

THIRD TERM.

Child's dress cut from patterns made by hand and machine.
 Pattern making, bow making.
 Cutting waists and skirts by measure.
 Practice in making various plain garments and fancy underwear.
 Free-hand drawing.

THIRD YEAR.

FIRST TERM.

Instruction in choice material.
 Draughting and making skirts from measurements.
 Cutting sleeves, collars and cuffs from patterns.
 Basting, trimming, finishing.
 Free-hand drawing.

SECOND TERM.

Study of form and proportion in relation to draughting and trimming.
 Draughting waists, sleeves, etc., from measurements.
 Draughting waists with extra under-arm piece for stout figures.
 Cutting and fitting plain, close and double-breasted garments.
 Free-hand drawing.

THIRD TERM.

Cutting and matching plaids, figured and striped waists.
 Practice in the use of colors.
 Cutting, fitting, pressing.
 Talks on the choice of materials for house, street, and evening wear.
 Collars, pockets, jacket-making.
 Advanced work in making complete dresses from different materials.
 Complete course given in reproducing from all French and American plates.
 Free-hand drawing.

MILLINERY COURSE.

ENTIRE TERM.

1. Making and covering buckrum frames.
2. Making bandeans, all styles.
3. Making wire frames.
4. Making straw and velvet hats.
5. Making millinery folds and bindings.
6. Making tucked and shirred facings.
7. Making mourning hats and bonnets.
8. Preparing mourning and other trimmings.
9. Cleaning laces, ribbons and velvets.
10. Coloring, sewing and pressing red hats.
11. Remodeling old hats.
12. Making rosettes of silk, ribbon, velvet, net lace, etc.
13. Making knots, twists and drops.
14. Cleaning, dyeing, curling, steaming feathers.
15. Making shirred garden hats for ladies.
16. Mirroring velvet.
17. Trimming, copying, designing.
18. Draping birds and mourning veils.

DEPARTMENT OF MUSIC.

MISS L. E. CRAIG.

Two lessons per week will be given each one. Each one will be required to practice two hours each day, also to read all works on music that will be provided by the department.

The class will be called together monthly for recitals and lectures.
 All pupils must be punctual to practice hours and lessons.

The Prairie View choir, composed of fifty voices, has made rapid advancement in oratorical work.

A ladies' quartette has rendered selections on special occasions. The course of study embraces four departments, viz.: Preparatory, Normal, Academic, Collegiate.

ACADEMIC DEPARTMENT.

Selected studies by Mertke, Schwalm and others.

Etudes by Czerny, Heller, Loeschom, Cramer; Czerny's Octave Studies; Bach's Preludes and Invention; Sonatas by Mozart, Haydn, Clementi, Beethoven; Easy Compositions of Chopin, Mendelssohn, Schumann, Schubert, Liszt and others.

COLLEGIATE DEPARTMENT.

Technical studies by Tausig and others; Bach's Well Tempered Clavichords and Suites; McDowell's, Rubenstein's, Liszt's, Chopin's Studies; Czerny's School of Virtuosity; Kullak's Octave Studies; Beethoven's Great Sonatas; Selections from the Works of Weber, Mendelssohn, Grieg, Chopin, Schumann, Liszt, Rubenstein and others, including piano concertos and the best chamber music.

PREPARATORY DEPARTMENT.

Helen Kilgore.
Czarina M. Jackson.
Mrs. S. W. Western.
Maud Conner.
Estenna Manos.
Louisa Young.
Eddie Blackshear.
Pearl Gaston.
Willie Williams.
Ardie Johnson.
Cleopatra Mims.
Mary Hinton.
Elvis Gwin.
Annie Adams.
Nannie White.
Lizzie Riggins.
Willie Epton.
Sadie Dabneff.
J. A. Randolph.

Willie Dimry.
F. F. Hooks.
William Blackshear.
Mollie Browning.
Fannie Charlton.
Elnora Denton.
Cora Hammond.
Florence Sassar.
Lillian Sanderson.
Mary Lynn.
Henry Simms.
D. Thomas.
Carrie Blake.
Maud Washington.
Ada Thurman.
Gertie Moore.
Annie Hill.
Lugusta Scott.

NORMAL DEPARTMENT.

Emma Haines.
Lucile Johnson.
Viola Duval.
W. A. Johnson.
Lillie B. Crawford.
Pender Rodgers.
Emma Whitly.
Callie D. Willis.
Mabel Young.

Elsie Holiday.
Claudia Johnson.
Pearl Snow.
Alice Williams.
Willie R. Taylor.
Gertrude Ferguson.
Florence Rutledge.
Mary Daniels.

ACADEMIC DEPARTMENT.

Irving Woodard. Bessie Binkley.
Mildred Mabel Hollowell.

VOCAL.

A. J. Booker. Wm. K. Brown.
Jaunita Huddelson.

EXAMINATIONS.

Written examinations shall be held at the close of each month, and at the close of each term.

An average of marks received during the term and at the term examination (the term examination counting one-half), shall determine the grade of the student on that single subject.

In the written monthly examination, the student must score the minimum standing of 60 per cent., and an average of 70 per cent., with the daily standing.

For the term examination, or in passing a subject, 70 per cent. must be secured, and an average of 75 per cent.

Students who fail in the term examination may be permitted by the faculty to retain their places in their classes, but they will not be considered full members of the class. However, a student who fails in a subject but receives the required per cent. in other subjects, may be permitted to make up the deficiency to the satisfaction of the head of the department in which the failure occurred, providing the said deficiency is made up during the same year. Students who fail in examination forfeit all honors or distinctions to which they otherwise might be entitled. No student shall be exempt from examinations. Students found to be dishonest in examinations shall be marked 0. All term examinations shall be written in ink.

GENERAL INFORMATION.

SITUATION AND SURROUNDINGS.

The Prairie View State Normal and Industrial College is located in Southeast Texas, in Waller county, six miles east of Hempstead. The situation is commanding and beautiful. The buildings face a broad prairie on the south, which runs for miles to the southeast. To the west and north lie extensive tracts of timber. Five miles southeast is the growing little town of Waller. The Houston & Texas Central Railway runs in front of the school, a mile distant, making the College easy of access by rail from all parts of the State.

A constant Gulf breeze, which often becomes a strong wind, insures a pure and healthful atmosphere, and the general health of the pupils has been good.

HOW TO REACH PRAIRIE VIEW.

Several days before leaving home, students should inform their nearest railroad ticket agent that Prairie View Station is in Waller county, on the main line of the Houston & Texas Central Railway, and find out from him the best route to reach it. Find out, also, on what day and on what train you will arrive, and notify the Principal of the school of your coming, and you will be met with conveyance at the station, and carried to the school, which is one and one-half miles from the station. Be sure to notify the Principal of your coming, especially if you are to arrive at night.

OPENING DAY.

School opens the first Wednesday in September, and every student, if possible, should reach the College on the day of opening.

MESS HALL.

All student boarders and several of the teachers take their meals at this building in the large dining hall. The aim of the State is to furnish a palatable, healthful diet at actual cost of material and service.

GIRLS' DORMITORIES.

The young ladies of the institution are housed in two dormitories—one a two-story frame building, with a capacity for accommodating forty students, containing music rooms, sewing room and model kitchen; the other a three-story brick building of tasteful architecture, with thirty-six rooms, large, well ventilated, well lighted, and neatly furnished.

YOUNG MEN'S DORMITORIES.

The Kirby Building has been moved to the west of campus, and is undergoing an extensive and thorough remodelling and repair which, when completed, will make this one of the most useful and tasteful buildings of the institution. The upper story will contain ten bed rooms for boys; the lower, seven rooms, four of which will be used for the Chemical and Physical Laboratory, and the remaining three by classes in Mechanical Drawing.

Pickett Hall and Chapel Hall are frame buildings for the accommodation of young men; one of eight, the other of sixteen rooms.

A new three-story brick dormitory is in course of erection for boys in order to meet the growing demand for room. This building will contain twenty-nine rooms.

ACADEMIC HALL.

This hall is a stately building—the main central part being three stories in height and containing, above, the chapel, with a gallery, and below, the Principal's office, the laboratory, library and reading room. Two wings, each of two stories, contain six recitation rooms and two committee rooms, used by the Board of Directors whenever the business of the school requires their presence at the institution.

THE SHOP.

The shop of the Mechanical Department is a one-story structure, the main room of brick, containing the wood-working outfit, and additions containing the blacksmithing outfit, engine and boiler.

THE CAMPUS.

The school campus comprises at present fifty acres. Eight teachers' cottages are located around the campus. Near its center is situated the residence of the Principal. A part of the campus is used for garden and orchard.

UNIFORMS.

All students, both male and female, are required to purchase and wear the school uniform designated by the Faculty. These uniforms are required as a matter of economy and to improve the appearance of the students as a body. They can be purchased at a reasonable price at the institution, and must be worn by all. Young men should have a suit of overalls for wear when on duty in shop or farm.

LITERARY SOCIETIES.

Three literary societies are maintained by the students of Prairie View—the Pansy, the Columbian, and the philomathean. These societies are carefully supervised by the Faculty, and are made a valuable means of general culture, while at the same time affording opportunity for acquiring proficiency in debate and in parliamentary practice.

OBSERVANCE OF THE SABBATH.

While a State institution can not be sectarian or denominational, it should be Christian in its influence over the characters of those who come within the sphere of its influence. Prairie View offers to those who are preparing to teach, or for other callings in life, a Christian home while they are connected with the institution. In the morning at 9:30 Sabbath school is regularly held, followed by a lecture or sermon. Attendance at these exercises is obligatory on part of all students.

RELIGIOUS SOCIETIES.

Three voluntary Christian societies are maintained by the students. The King's Daughters have an organization among the young women, which holds a regular prayer meeting on Sunday morning at one of their buildings. The Young Men's Christian Association is organized here, and holds a regular meeting Sunday evenings at 7 p. m. in the chapel. On Sunday afternoons, at 3:30 p. m., the Society of Christian Endeavor holds its social topical prayer meeting. The good effect of these societies is seen in the evolution of the moral tone, and in the cultivation of a conscientious regard for truth and duty.

THE ALUMNI ASSOCIATION.

Executive Committee.—W. C. Rollins, '96, Prairie View, Texas; Miss M. L. Sparks, '96, Hempstead, Texas; W. L. D. Johnson, '99, Terrell, Texas; Miss E. O. Hall, '94, Dallas, Texas; Jas. E. Davis, '98, Hempstead, Texas; H. T. Haynes, '99, Bryan, Texas.

Officers of the Association.—W. C. Rollins, '96, President, Prairie View, Texas; H. T. Haynes, '99, Secretary, Bryan, Texas; J. E. Davis, '98, Treasurer, Hempstead, Texas.

Annual reunion, Monday of Commencement week.

THE DAILY ROUTINE.

Students rise at 5:40 a. m. From 6 a. m. to 7 a. m. is study time. Breakfast, 7 a. m. to 7:30 a. m. From 7:30 to 8 a. m. students sweep, dust, and arrange their rooms. At 8 a. m. all assemble in the chapel for devotions. After devotions, students march to their recitation rooms. There are seven periods of recitations, averaging 40 minutes. Dinner at 1 p. m. From 2 to 2:40 p. m. is the period for industrial theory. From 2:40 p. m. to 5:40 p. m. the classes in industrial practice come on daily. Supper at 6 p. m. Study hours, 7 to 9:30 p. m. Retiring bell at 10 p. m. Saturdays are devoted to general work and study.

RHETORICAL EXERCISES.

These exercises are required of all students to familiarize them with the arts of composition and expression. Originality in all composition work is insisted upon.

SOME GENERAL REGULATIONS.

The discipline of the school aims to lead its students to self-control, and to prepare them for the successful discharge of the practical duties of every-day life and citizenship, as well as for the special duties of school, farm, shop, and home.

Promptness to all schoolduties is exacted. Neatness and cleanliness is a rule of the institution.

Students are impressed that intelligent labor is dignified and necessary to all individual or social development.

No student need come to Prairie View with the idea that it is a place to get a certificate to teach, with little real effort. Thorough, conscientious work must be done to merit any honors from the institution.

No student can leave the grounds at any time, or omit any school duty, unless by written consent from the Principal.

The use of tobacco, and of all narcotic or alcoholic stimulants, is forbidden as being a hindrance to the process of education.

Students whose conduct raises doubt or suspicion of their character and motives, may be requested to withdraw from the institution.

True politeness is the rule of social conduct, and rudeness in speech or manner, ill temper, noisy, boisterous behavior, disputes and quarrels, are forbidden.

Extravagance and showiness in dress are not approved by the Faculty. A neat, plain attire, and a modest, self-respecting demeanor, are expected of each student. Young ladies who graduate are required to wear a uniform designated by the Faculty.

Pay students are required to settle their dues in advance for the month, and students who fall behind ten days in the payment of their dues shall receive a notice, giving them ten days more to settle; and at the expiration of the time, if settlement is not made, such students shall be sent home.

All students are required to improve their advantages to a reasonable degree and according to their ability, and when it becomes apparent that a pupil's time is not profitably employed he will be requested to withdraw.

APPARATUS.

A beginning has been made in securing some of the necessary apparatus in natural science. A laboratory has been fitted up, and an opportunity is offered classes in this important branch of a good education. Special opportunities will be afforded students who wish to study Chemistry as a preparation for the study of Pharmacy and Medicine.

LIBRARY AND READING ROOM.

The Reference Library contains a number of carefully selected volumes, and students have ample opportunity for forming a habit of reading, and thus broaden their education. In connection with the Reference Library is a Reading Room, furnished with a number of the leading magazines, and much current reading matter. A separate Reading Room has been established for the girls.

All students have full access to the library and reading rooms at stated periods free.

STATE STUDENTS.

Each of the thirty-one State Senators and each of the 128 State Representatives have the right by legislative enactment to the appointment of a State student at the College. Every such State appointee is required to pay \$30.00 per year on his maintenance, and \$10.00 entrance fees. Every appointee must stand an entrance examination in Arithmetic to Percentage, Orthography, English Grammar and Composition, Texas History, and United States History, and any appointee who fails to show a reasonable degree of proficiency in the above branches will be rejected and his place filled by the Senator or Representative appointing him. Every appointee must present, on entrance, satisfactory testimonials of good character. Such State students as show a decided ability in scholarship and aptitude for teaching are recommended by the Faculty for reappointment.

PAYMENT OF DUES.

Students in arrears on board account for twenty days will be dismissed, unless immediate payment is made. And it is made the duty of the Principal by the Board of Directors to notify parents and guardians within ten days after a month's payment is due, that if same is not paid within ten days thereafter the student so in arrears shall be dismissed.

No pay student will be received for a less term than one month, and in no case will funds paid into the institution be returned to persons withdrawing from the school for other causes than sickness.

HONORS.

Students who complete the studies of the course satisfactory will receive a diploma. Said diploma has by law the rank of a Teacher's Certificate of the first grade, valid during good behavior. A first grade certificate, valid for four years, is issued to students who complete satisfactorily the third year of the course. Students who complete satisfactorily

the second year of the course may be granted second grade certificates, valid for two years.

In addition to an attendance of nine months, and satisfactory class room work and deportment, students must show a commendable ability to teach before the honors of the institution are granted.

The right of a pupil to receive a diploma or a certificate shall be determined by the Faculty, in full meeting, according to such standard of scholarship, and the mode of recording the same, as may have been previously agreed upon.

EXPENSES.

Entrance fee, required of all students.....	\$ 5 00
Deposit fund—deposited by all students to cover rent on books, loss of books, damage, etc., balance returned after deducting above items.....	5 00
Maintenance of State appointees, payable in three installments of \$10.00 each. 10.00 on entrance, \$10.00 on December 1, 1901, and \$10.00 on March 1, 1902.....	30 00
Total expense of a State appointee for session of nine months, not including clothing.....	40 00
Maintenance of pay students, monthly.....	10 00
Total cost, per session of nine months, of maintaining a pay student, not including clothing.....	100 00

All dues are payable in advance.

The following fees are charged to cover the material used by each student in the laboratories:

Special student in Chemistry.....	\$2 50
Regular student in Chemistry.....	1 50
Physics, third year.....	50
Physics, second year.....	50
Botany	50

No tuition is charged any one. Day students are admitted on payment of the entrance fee and deposit fund.

MISCELLANEOUS.

Maintenance includes room, chairs, table, bedstead, mattress, washing, fuel, light, and meals in the Mess Hall.

Students must furnish their own bed clothing, pillows and lamp chimneys. Each student should bring with him not less than three sheets, three pillow cases, four towels, one blanket, and two quilts or comfortables.

Each student should be provided with warm underclothing for the winter season, substantial shoes, rubbers and rain-coats.

Parents should not waste their money and injure the health of their children by sending them boxes of meat, confectionaries, etc., while at school.

Parents and guardians should not purchase any finery or extravagant wear for school use. The school uniforms can be purchased at the school, the cost of them is reasonable, and their use will save money.

ADDENDUM.

The last regular session of the Texas Legislature enacted as a law a bill establishing a four year course of classical and scientific studies at the Prairie View State Normal and Industrial College, and making appropriation for the support of same.

In accordance with the provisions of this act, the Board of Directors of the Prairie View College have authorized the following revision and extension of the course heretofore in operation at this college.

This course embraces a total of six years, covering the range of subjects or their equivalent, leading to the degree of Bachelor of Arts, which will be conferred by the Board of Directors on candidates who have satisfactorily completed the course.

Students may be admitted to advanced standing in the course by standing required examination, but the work of the last or senior year must be done at this college.

Students completing the first four years of the course will receive the teacher's diploma as heretofore. This diploma has the rank and validity of a permanent State teacher's certificate.

Graduates of reputable high schools and students of other colleges may be admitted to standing without examination on presentation of satisfactory class examination record in schools previously attended.

THE PRAIRIE VIEW STATE NORMAL AND INDUSTRIAL COLLEGE OF TEXAS.

COURSE OF STUDY.

FIRST YEAR.

Fall Term:

Arithmetic.
Algebra.
Grammar and Composition.
Physical Geography.
Theory and Practice of Industry.

Winter Term:

Algebra.
Grammar and Composition.
United States History.
Physiology.
Theory and Practice of Industry.

Spring Term:

Algebra.
 Grammar and Composition.
 Botany.
 Ancient History.
 Theory and Practice of Industry.

SECOND YEAR.

Fall Term:

Algebra.
 Beginner's Latin.
 Physics.
 Mediæval History.
 Theory and Practice of Industry.

Winter Term:

Plane Geometry.
 Beginner's Latin.
 Physics.
 Modern History.
 Theory and Practice of Industry.

Spring Term:

Plane Geometry.
 Selections from Viri Romæ and Cæsar.
 Civics.
 School Management.
 Theory and Practice of Industry.

THIRD YEAR.

Fall Term:

Plane Geometry.
 Cicero's Orations.
 Chemistry.
 History of Rome.
 Theory and Practice of Industry.

Winter Term:

Solid Geometry.
 Cicero's Orations.
 Chemistry.
 History of Greece.
 Theory and Practice of Industry.

Spring Term:

Algebra.
 Virgil's Aeneid.
 Zoology.
 Pedagogy.
 Theory and Practice of Industry.

FOURTH YEAR.

Fall Term:

Algebra.
 Virgil's Aeneid.
 English History.
 Psychology Applied to Teaching.
 Theory and Practice of Industry.

Winter Term:

Plane Trigonometry.
 Sallust.
 Physics.
 History of Education.
 Theory and Practice of Industry.

Spring Term:

Spherical Trigonometry.
 De Senectute et De Amicitia.
 Economics.
 Moral Science.
 Theory and Practice of Industry.

SENIOR YEAR.

Fall Term:

Mental Philosophy.
 United States History.
 Geology.
 Elective: Xenophon's Memorabilia, German or Spanish.

Winter Term:

Logic.
 Constitutions of the United States and of Texas.
 English Literature.
 Elective: Homer's Iliad, German or Spanish.

Spring Term:

Ethics.
 Astronomy.
 English Literature.
 Elective: Demosthenes' De Corona, German or Spanish.

JUNIOR YEAR.

Fall Term:

Surveying.
 Livy.
 Chemistry.
 Elective: Greek Lessons, German or Spanish.

Winter Term:

Conic Sections.

Horace.

Chemistry.

Elective: Greek Lessons, German or Spanish.

Spring Term:

Analytic Geometry.

Botany.

Tacitus.

Elective: Xenophon's Anabasis, German or Spanish.
