Prairie View Normal College—Law Establishing Course,
and Making Appropriations Therefor.

S. B. No. 17.]—An Act to establish and maintain a four-year college course of classical and scientific studies at the Prairie View Normal and Industrial College at Prairie View, Waller County, Texas.

Be it enacted by the Legislature of the State of Texas:

That the sum of twenty-five hundred dollars for the first year and eighteen hundred dollars for the second year be set apart and is hereby appropriated out of the general revenue for the inauguration and maintenance of a four-year college course of classical and scientific studies at the Prairie View State Normal and Industrial College, to which graduates of the normal course shall be admitted without examination and to which others may be admitted after having passed a satisfactory examination in the branches comprised in the normal course; provided, that no State student shall be admitted to the privileges of the said course, and provided further, that the diploma conferred on the completion of the said course shall entitle the holder without other or further examination to teach in any of the colored public free schools of the State.

Approved March 28, 1901.

PRAIRIE VIEW STATE NORMAL AND INDUSTRIAL COLLEGE.

S. H. B. No. 379.]—An Act to amend Articles 3886 and 3887, of Chapter 5, of Title 86, of the Revised Statutes of the State of Texas, relating to the Normal School for Colored Teachers at Prairie View.

Be it enacted by the Legislature of the State of Texas:

SECTION 1. That Articles 3886 and 3887, Chapter 5, of Title 86, of the Revised Civil Statutes of the State of Texas be so amended as that same will hereafter read as follows:

Article 3886. Said board of directors shall admit one student from each Senatorial district, who shall be appointed by the Senator representing said district, and one student from each Representative district, who shall be appointed by the member of the Legislature representing said district; provided, that where there are more than one Representative in a district each Representative of such district shall appoint one student, said students to be taken from the colored population of this State, which said students shall not be less than sixteen years of age at the time of their admission; provided, the said school shall hereafter be called and known as "Prairie View State Normal and Industrial College."

Article 3887. Said board shall appoint a principal teacher and such assistant teacher or teachers of said school and such other officers of said school as may be necessary, and shall make such rules, by-laws and regulations for the government of said school as they deem necessary and proper, and shall regulate the course of study and the manner of performing labor to be performed by the students, and shall provide for the board and lodging and instruction to the students, without pecuniary charge to them, other than that each student shall be required to pay one-third of the cost of said board, lodging and instruction, quarterly, in advance, and said board of directors shall regulate the course of discipline necessary to enforce the faithful discharge of the duties of all officers, teachers, students and employes of the school, and shall have the same printed and circulated for the benefit of the people of the State and the officers, teachers, students and employes of said school.

SEC. 2. The near approach of the end of the session, and the crowded condition of the calendar of both houses of the Legislature, and the improbability that this bill can be reached in its order on three several days in each house, and the great need and demand for the passage of this act, creates an emergency and an imperative public necessity exists for the suspension of the constitutional rule requiring bills to be read on three several days in each house, and said rule is so suspended.

Approved June 6, 1899.

OBJECT OF THE SCHOOL.

Prairie View State Normal and Industrial College has for its object the training of persons desiring to fit themselves for the important profession of teaching, by giving them thorough instruction and practical drill in the best recognized methods of organizing, disciplining, and conducting schools.

The particular aims are to fit colored youths for responsible positions in the colored public schools of Texas, to impart something of the scholarly spirit indispensable to excellence in teaching, and to awaken an enthusiasm for the education and for the industrial and moral improvement of the colored race in Texas.

Believing in the value of industrial training in connection with the literary and professional studies, as a means to mental, moral and economic improvement, the Board of Directors have added Agricultural and Mechanical Departments and a department of the female industrial employments in order to give a well rounded education and to prepare the students for practical life.

ADMISSION REQUIREMENTS.

1. AGE.—Students shall not be less than sixteen years of age at the time of their admission. (Article 3886, Revised Statutes, Chapter 5, Title 86, as amended by S. H. B. No. 379.)

2. HOW TO APPLY FOR ADMISSION.—Write to the Principal for an application blank which will be forwarded giving full instructions. No appointee or other applicant should come to the College, without having made application for admission and accommodations, subject to the Entrance Examination requirements (see No. 4 below; also see application blank in the back of this Catalogue.)

3. PLEDGE TO TEACH.—A pledge must be signed by all who enter the Normal Course to teach as many sessions in the public free schools of Texas as the applicant may attend sessions of the College.

4. ENTRANCE EXAMINATIONS.—Candidates for admission must sustain a satisfactory examination on arrival at the College in the following:

Arithmetic to Percentage [including Notation and Numeration; Addition, Subtraction, Multiplication and Division of Integers; Properties of Numbers; Divisibility, Factoring, Common Divisors, Multiples and Cancellation; Reduction, Addition, Subtraction, Multiplication and Division of Common Fractions; Decimals, Decimal Currency, Addition, Subtraction, Multiplication and Division of Decimals; Denominate Numbers (Measure of Extension, Capacity, Weight, Time, Angles, and Value); Reduction of Denominate Numbers and Denominate Fractions; Addition, Subtraction, Multiplication and Division of Denominate Numbers; Longitude and Time; Duodecimals, Measurements; Surfaces, Land, Rectangular Solids, Boards and Timbers, Capacity of Bins and Cisterns.]

English Grammar, embracing a knowledge of the parts of Speech, their Uses and Relations; the Sentence, its Kinds, Uses, Analysis and Construction.

English Composition.—Each applicant must submit an original composition on some every day topic assigned by the Professor of English, of not less than 200 words, as a test of the applicant's hand writing, spelling, and thought-expression.

Geography; Texas History (Pennybacker's); U. S. History (Estill's).

5. MORAL CHARACTER.—All candidates for admission must furnish testimonials of good character and if coming from other schools or recently in attendance thereon must bring honorable dismissal from such schools.

6. HEALTH.—No sickly, diseased, or infirm person should apply for admission and any applicant for admission may be subjected to a physical examination by the medical officer of the school, if occasion demands it.

7. PAYMENTS ON ENTRANCE.—State students when applying for admission must be prepared to pay the entrance fees and one term's board money in advance. All other students must pay the entrance fees and one month's board money in advance.

8. WHAT THE STATE DOES NOT FURNISH.—Each candidate for admission must furnish his own clothing and bed-clothing, including at least three sheets, six towels, and one pillow; three pillow-cases, two quilts and one blanket. All clothing should be carefully marked with the name of the applicant. Each applicant must bring along a good comb, hair-brush, tooth-brush, shoe-brush, and clothes-brush and a pair of rubber overshoes.

ORGANIZATION AND GOVERNMENT.

The Prairie View State Normal and Industrial College of Texas is a branch of the Agricultural and Mechanical College of Texas at College Station, and is under the control of the Board of Directors and President of that College. The Board of Directors elect a principal and a faculty, to whom are entrusted the affairs of the institution.

It is the duty of the Principal to exercise immediate supervision and direction, subject to the regulations and restrictions imposed by the Board of Directors.

The instruction of the Institution is committed to departments, a member of the Faculty being at the head of each department. These departments are, at present, as follows: Science, Mathematics, Pedagogy, English, History, Mechanical, Agricultural, Sewing and Millinery and Cooking.

Such assistant teachers are employed as are needed to carry out the work of the departments.

The discipline, as well as instruction of all the students of the Institution is committed to the Faculty, the Principal being held responsible for the enforcement of regulations and the maintenance of discipline, with the privilege of calling in, at any time, the assistance of any or all of the Faculty.

The immediate supervision of the young ladies of the Institution is entrusted to a Preceptress, whose duty it is to see that the conduct of the young women, their personal habits, manners, carriage, modes of dress, and habits of study conform to correct standards.

COURSES OF STUDY BY DEPARTMENTS.

The instruction of the students is committed to a faculty and this faculty is organized into departments of instruction. The following departments have been organized and are in operation: Professional Work, English, History, Science, Mathematics, Mechanical, Agricultural, Dressmaking and Millinery, and Cooking, and Music.

A detailed statement of the work of these departments is given below.

DEPARTMENT OF PEDAGOGY.

E. L. BLACKSHEAR.

W. C. ROLLINS.

This department affords the students who are preparing to teach an insight into the methods of teaching the public school studies; the proper modes of school organization and government; the principles of mental development, and the rules and rewards of right conduct and the grounds of personal duty and responsibility. Six courses are offered and required of all normal graduates.

I. METHODS OF TEACHING.—Second Year Class; Fall, Winter and Spring Terms, 3 hours a week.—Daily recitations and occasional written model lessons. Education defined. Educational laws. Forms of instruction. Educational principles. Object lessons. Methods of teaching; Language, Mathematics, Physical Science and Simple Arts. Raub's Methods; White's Methods.

II. SCHOOL MANAGEMENT.—Third Year Class; Fall and Winter Terms, 3 hours a week.—Written and oral recitations. Ends and Means of management. Elements of governing power. Conditions of control. Devices in school. School grading. Will in conduct. School incentives. Punishment.

White's School Management.

III. PEDAGOGY.—Third Year Class; Spring Term, 3 hours a week.—Study of the mental powers. The Art of Training. The Teacher. The School. Lessons.

Hewett's Pedagogy.

IV. PSYCHOLOGY.—Senior Class; Fall Term, 4 hours a week.—Attention. Instinct. Sensation. Sense Perception. Memory. Phantasy. Imagination. Conception. Judgment. Reason.

Baldwin's Elements of Psychology.

V. HISTORY OF EDUCATION.—Senior Class; Winter Term, 4 hours a week.—Education among Greeks and Romans. Education in the Middle Ages. The Renaissance—Erasmus, Rabelias and Montague. Protestantism and Primary Instruction. Luther and Commenius. Fenelon. Rousseau and the Emile. Pestalozzi, and Leonard and

Gertrude. Froebel. Herbert Spencer. Horace Mann. Francis Parker. W. T. Harris. President Eliot. Jabez L. Curry. Booker T. Washington.

Compayre's History of Pedagogy.

VI. ETHICS.—Senior Class; Spring Term, 4 hours a week.—Duties to Self—Self-control and self-culture. Duties to Others—Kindness and respect. Duties to Nature—Use, but not abuse. Duties to God—Reverence, godly fear and humility. Civil Government—Duties of the citizens; of the State. Divine Government—Divine justice; divine grace. Parental Government—The family; Marriage; duties of parents; duties of children.

Hickok's Moral Science.

DEPARTMENT OF AGRICULTURE.

W. B. WOODRUFF.

R. H. HINES.

R. W. JAMES.

The aim of this course is to give the student a general idea of the relation of plants, water, and air to the soil. Attention is also given to the study of root growth, office of leaves, relation of stock, use and kind of implements necessary to a farm. We also make a study of the common diseases of farm animals.

COURSE I. *Formation and Preparation of Soil.*—First Year Class; Fall Term, 8 hours a week.—Lectures and Practice.

COURSE II. *Farm Implements.*—First Year Class; Winter Term, 8 hours a week.—Lectures and Practice.

COURSE III. *Habits and Growth of Plants.*—First Year Class; Spring Term, 8 hours a week.—Lectures and Practice.

COURSE IV. *Fall Crops.*—Second Year Class; Fall Term, 8 hours a week.—Planting of Fall Crops. Lectures and Practice.

COURSE V. *Seed Selection and Testing.*—Second Year Class; Winter Term, 8 hours a week.—Pruning. Lectures and Practice.

COURSE VI. *When and How to Plant.*—Second Year Class; Spring Term, 8 hours a week.—Lectures and Practice.

COURSE VII. *Judging Breeds of Live Stock.*—Second Year Class; Fall Term, 8 hours a week.—Practice.

COURSE VIII. *Dairying.*—Third Year Class; Winter Term, 8 hours a week.—Lectures and Practice.

COURSE IX. *Feeds and Feeding.*—Third Year Class; Winter Term, 8 hours a week.—Lectures and Practice.

COURSE X. *Breeding Live Stock.*—Third Year Class; Spring Term, 8 hours a week.—Lectures.

COURSE XI. *Anatomy of the Horse, and Common Diseases.*—Senior Class; Fall Term, 8 hours a week.—Lectures.

COURSE XII. *Anatomy and Common Diseases of the Cow.*—Senior Class; Winter Term, 8 hours a week—Lectures.

COURSE XIII. *Experiments in Farm and Garden Crops.*—Senior Class; Spring Term, 8 hours a week.—Lectures and Practice.

Shorter Two-Year Course in Agriculture and Horticulture.

The aim of this short course is to give the young men a brief knowledge of the soil and the relation of plants and animals.

FIRST YEAR.

1. History of Plants. Root Crops and Harvesting of Crops. Lectures and Practice.—Fall Term, 8 hours a week.

2. Kind of Crops for Market. Seed Selection. Manner and time of Planting. Lectures and Practice.—Winter Term, 8 hours a week.

3. Management and Business of Farm. Garden Plants. Farming Continued. Lectures and Practice.—Spring Term, 8 hours a week.

SECOND YEAR.

1. Subsoil. Tap Root. Fall Crops and how to Select Seeds. Lectures and Practice.—Fall Term, 8 hours a week.

2. Fertilizers. Kind of Soil. Pruning. Habits of Plants and Animals. Hot Beds. Lectures and Practice.—Winter Term, 8 hours a week.

3. Dairying. Selection and Breeding of Stock. Spring Term, 8 hours a week.

Two-Year Course in Dairying.

FIRST YEAR.

Fall Term.—Heredity. Variation. Prepotency. Inbreeding. Line Breeding. Fecundity. Cross Breeding and Mating.

“Principles of Breeding”—Show.

Winter Term.—Conformation of Dairy Cow. Selecting and Judging. Dairy Breeds. Beef Breeds.

“Principles of Breeding”—Show.

Spring Term.—Animal Nutrition. Composition and Relative Feeding Value of Different Crops. Nutritive Ratio. Feeding for Milk. Feeding for Beef.

“Feeds and Feeding”—Henry.

SECOND YEAR.

Fall Term.—Conditions affecting Secretion. Testing Milk. Methods of Creaming. Use and Care of Separator. Ripening Cream. Churning, salting, finishing and marketing Butter.

Winter Term.—Ferments and Fermentations of Milk. Control of the Fermentations of Milk. Care of Milk Vessels. Theory of Cheesemaking.

“Milk and Its Products”—Wing.

Spring Term.—Location and Construction of Dairy Buildings. Structure of Bacteria Contamination of Milk. Relation of Disease Bacteria to Milk. Preservation of Milk. General Management of Creameries.

“Dairy Bacteriology”—Russell.

MECHANICAL DEPARTMENT.

E. H. HOLMES.
 A. E. FLEWELLEN, JR.
 J. W. TOWNS.

The great object of the department is to foster a high appreciation of the value and dignity of intelligent labor. A boy who sees nothing in manual labor but dull, brute force, looks with contempt upon the labor and the laborer; but as soon as he acquires skill himself, the conditions are reversed, and henceforth he appreciates the work and honors the workman. The students are trained in the use of the various tools employed in the mechanic arts, and are thus given a good foundation in manual training, which will enable them to teach the arts in the schools in which they may be employed.

With this end in view the course has been revised and rearranged. Instruction is given by means of practice in the shops, by lectures, and by text-books.

The work in carpentry and blacksmithing is arranged in graded series, beginning with the simple joints and leading to the more difficult ones. The students are taught how to care for hand tools, machine tools and how to sharpen edge tools. Some general repairing is done which gives them more practical ideas.

By combination of the courses the students in the short course are given such knowledge as will enable them to become good carpenters, blacksmiths, and stationary engineers. Drawing is taught throughout the course. The courses are as follows:

I. *Carpentry*.—First Year Class; 18 weeks, 6 hours a week (alternate with agriculture).—Names and care of tools, sawing across and with the grain, and keeping the line. Planing, marking, gauging, making butt-joints, half-joints, mortised and tenon, dowel-pin joints.

Text: "Bench Work in Wood"—Goss.

II. *Forging*.—Second Year Class; Fall and Winter Term, 6 hours a week.—Names and use of general blacksmithing tools, fuels, making and managing forge fires, taking proper heats, plain forging, forming, shaping and bending, drawing out, upsetting, squaring up, twisting, ring-bending, cutting-off, punching, drilling, scarfing and welding iron.

III. *Wood Turning*.—Third Year Class; Winter Term, 6 hours a week.—The lathe and its parts, preparation of stock, roughing out and turning straight pieces. Tapering, squaring-off, cutting-in, convex, concave and compound curves, chisel handles, table legs, face-plate work and chucking.

IV. *Forging*.—Third Year Class; Fall Term, 6 hours a week.—Continuation of II), Welding iron and steel, welding steel to steel, tool making, tempering cold chisels, punches, screwdrivers, turning chisel and scribes, bolts, cutting threads and tapping nuts.

V. *Power and Power Transmission*.—Third Year Class; Fall and Winter Terms, 5 hours a week.—The use of shafting, belting, boilers, engines and pumping machines, etc.

Text: Kerr.

VI. *Drawing*.—First Year Class; Fall, Winter and Spring Terms, 2 hours a week.—Free-hand drawing. Webb, Ware and Zaner Series.

VII. *Drawing*.—Second Year Class; Fall, Winter and Spring Terms, 3 hours a week.—Instrumental Drawing. Geometrical Construction. Parts I and II, Giesecke.

VIII. *Drawing*.—Third and Senior Classes; Fall, Winter and Spring Terms, 4 hours a week.—Instrumental Drawing. Enlarging, tracing and drawing to scale, parts of machines and buildings, designing.

IX. *Lectures*.—Third Year Class; Spring Term, 5 hours a week.—Strength of Materials.

Senior Class; Fall Term, 5 hours a week.—Estimating and Calculating Quantities.

X. *Electricity and Magnetism*.—Senior Year; Winter and Spring Terms, 5 hours a week.

XI. *Carpentry*.—Second Year Class; Spring Term, 6 hours a week.—Dove-tailing, paneling, scarf-joints, framing, cutting rafters and scroll-sawing.

XII. *Forging*.—Short Course.—Second Year; Winter Term, 20 hours a week.—Making horse-shoes, shoeing horses, filing, clipping, and cutting key sects.

XIII. *Forging*.—Second Year Class; Spring Term, 20 hours a week.—Third Year Class; Fall Term, 6 hours a week.—Case hardening, annealing, and brazing.

XIV. *Repairing and Plumbing*—Throughout the course.

XV. *Forging*.—Third Year Class; Fall Term, 16 hours a week.—Making springs, welding, and tempering.

XVI. *Carpentry*.—Second Year Class; Spring Term, 6 hours a week. Third Year Class; Fall and Winter Terms, 6 hours a week.—Making door and window frames, swinging sash, building model houses.

XVII. *Elementary Mechanics*.—Second Year Class; Fall, Winter and Spring Terms, 3 hours a week.—Lectures. Also Second Year Class; Spring Term, 3 hours a week.—Short Course.

The object of the *short course* in Mechanic Arts is to train students in the use of tools and to lay a broad foundation for those who wish to become tradesmen. With this end in view the course has been carefully selected and arranged. Our purpose is not only to make men workmen but to make workmen men.

DEPARTMENT OF ENGLISH.

C. W. LUCKIE.

A. L. EVANS.

The aim of this department is to aid the student to understand the English language, to speak and write it with ease and accuracy and to develop in him the capacity to appreciate its best literature. To accomplish this purpose the following courses are proposed:

I. *Grammar and Composition*.—First Year Class; Fall, Winter and Spring Terms, 6 hours a week.—This course consists of a thorough study of the sentence together with the parts of speech and their offices. Selections from the productions of Longfellow, Irving and Bryant are studied and extracts from these writers are to be committed to memory. The composition work includes weekly themes on everyday subjects and making outlines.

English Grammars—Whitney and Lockwood; Sisk. Elements of English Composition—Chittenden.

II. *Word Analysis and Composition*.—Second Year Class; Fall Term, 5 hours a week.—This term will be devoted to a study of the history, derivation and meaning of words. Attention will be given to synonyms, antonyms, homonyms, also to the spelling and use of words. The written exercises will consist of letter writing and paragraph writing.

Swinton's Word Analysis.

III. *Rhetoric and Composition*.—Second Year Class; Winter and Spring Terms, 6 hours a week.—Attention will be given to the study of style, diction and figures of speech. The work in composition will consist in exercises in the simpler forms of description and narration. These will be required each week.

Outlines of Rhetoric.—Genung.

IV. *Introduction to American Literature*.—Third Year Class; Fall and Winter Terms, 4 hours a week.—The history of American literature will be studied under three periods: Colonial, Revolutionary and National. Special attention will be given to a study of some of the masterpieces of American writers. The written work of these two terms will consist of the simpler forms of exposition and outlines of literary selections.

American Literature—Watkins. Masterpieces of American Literature—Houghton, Mifflin & Co. American Literature—Painter.

V. *Practical Rhetoric*.—Seniors; Fall Term, 4 hours a week; Winter Term, 3 hours a week.—The principles of exposition and argumentation will be studied with frequent written exercises. Students will also be given exercises in writing abstracts and summaries. Subjects for written discussions will be taken largely from current events.

Practical Elements of Rhetoric—Genung.

VI. *English Literature*.—Seniors; Spring Term, 3 hours a week.—The leading English writers are studied and attention is given to their relation to the different periods. Two of the plays of Shakespeare will be studied, and the students will be required to make written re-

ports, at stated times, upon the books they have read during the term. In addition to their weekly themes, each member of the class will be required to submit six carefully prepared essays during the term.

Studies in English Literature—Swinton.

DEPARTMENT OF SCIENCE.

J. H. CRAWFORD.

P. E. BLEDSOE.

This department renders service to the Normal, Agricultural and Mechanical Departments of the school and gives instruction in the following subjects: Physical Geography, Physiology, Physics, Zoology, Chemistry, Botany, and Geology.

I. *Physical Geography*.—First Year Class; Fall and Winter Terms, 4 hours a week.—In this subject the relation between the physical features and the plant and animal life of a locality are kept continually in mind. These topics are given special attention:

1. The earth as a whole: Shape, size; motions of the earth and their effects; latitude, longitude and time.
2. The land: Erosive agents of the soil; plains and plateaus; mountains and volcanoes.
3. The atmosphere: Composition, motion and storms.
4. The sea: Depth and temperature; tides and currents.

Text: Maury

II. *Physiology*.—First Year Class; Spring Term, 4 hours a week.—Under this subject is given a general study of the structure, functions and care of the human body. Liberal use is made of the human skeleton, models of head, eye, ear, mouth and a section of skin. Special attention is given to hygiene, the organs of respiration, circulation and digestion and the effects of alcoholic beverages and narcotics upon the system. Drawings of tissues, bones and organs showing relative positions are required.

Text: Hutchinson.

III. *Elementary Physics*.—Second Year Class; Fall and Winter Terms, 4 hours a week.—In this course, matter, mechanics, sound, heat radiant energy, magnetism and electricity are studied and experiments made illustrative of the underlying principles.

Text: Avery's "First Lessons in Science."

IV. *Advanced Physics*.—Senior Class; Fall and Winter Terms, 4 hours a week.—The laboratory work in this course is largely quantitative. Students are required to make experiments and to solve and form problems illustrative of the same.

1. Theory: Divisions, properties and conditions of matter; motions, force, work and energy; gravitation and gravity; uniform and accelerated velocity; pendulum; simple machines; mechanics of solids, liquids and gases; heat; light; electricity; sound.

2. Laboratory: Careful measurements of lengths, areas, volcanoes and masses; problems in the mechanics of solids, liquids and gases; study of simple machines; problems in heat, light and sound.

Text: Gage.

V. *Inorganic Chemistry*.—Third Year Class; Fall and Winter Terms, 4 hours a week.—The aim of this course is to give the student a knowledge of the chemical properties of the common elements and their compounds and to undertake as much qualitative and quantitative work as may be necessary to illustrate the law of Avogadro and the laws of the definite and multiple proportion. Over one hundred experiments are performed and the results and inferences are recorded in note books. Considerable attention to the practical side of the subject and the composition and manufacture of soap, glass, alloys, fertilizers, etc., are discussed freely and fully.

Text: Williams.

VI. *Zoology*.—Second Year Class; Spring Term, 4 hours a week.—This course is elementary, however, considerable attention is paid to the relationship of the different classes of animals and their adaptation to their environment. The life history of some animals is traced, noting the transformations through which they pass in coming to maturity. The student is taught the use of the microscope and a number of lantern slides are used.

Text: Steele.

VII. *Botany*.—Third Year Class; Spring Term, 4 hours a week.—The plant is studied as a living body possessed of organs with functions similar to those of animals. The life relations are observed in the laboratory by tracing its development from the seed and studying the functions of root, stem, leaf and flower. Such plants are selected for laboratory study as will best exemplify the phase of the life condition under consideration. A herbarium of the local flora is prepared by each student and some analytical work of at least twenty specimens.

Text: Bergen.

VIII. *Geology*.—Senior Class; Spring Term, 4 hours a week.—This subject is treated under three divisions:

1. Structural and Dynamical Geology, which gives an account of the origin and nature of the earth's crust; its movements, producing mountains, table lands and valleys, with attendant phenomena of earth quakes, volcanoes, etc., also erosion, transportation and deposit by wind, water and ice.

2. Historic Geology, which treats of the organic life of the various geological periods.

3. Economic Geology, which treats of the soil and climate of a locality and its adaptation to the wants of man.

Text: Le Conte.

DEPARTMENT OF HISTORY.

H. M. TARVER.

FIRST YEAR.

COURSE 1. Texas History (Pennybacker).

In addition to Pennybacker's Text, this course includes an industrial history of the State with notes and statistics.

Fall Term, 6 times a week.

COURSE 2. United States History (Barnes).

Students are supposed to know much of the history of our country and something of a teacher's course is given, with special attention to the policy of expansion to the biographical and industrial history of the United States, rather than a tread-mill review of the military and political campaigns.

Winter and Spring Terms, 6 times a week.

SECOND YEAR.

COURSE 3. Civics (Young).

This course aims at a reliable knowledge of the history of our government, the birth, growth and operation of our constitutional liberties compared with the provisions and limitations in other constitutional governments, to the end that a strong patriotic sentiment and a more perfect citizenship will result.

Fall Term, 6 times a week.

COURSE 4. English History (Lancaster).

Expansion of the empire, the growth of constitutional liberty and its colonial and maritime policies specialized.

Winter and Spring Terms, 6 times a week.

THIRD YEAR.

COURSE 5. General History (Myers). Ancient History.

Time and attention are put upon those ancient people only who have contributed largely to the progress of the world.

Fall Term, 6 times a week.

COURSE 6. Mediæval History.

The up of ancient customs, religions and governments and the development of modern nations, languages, the Papacy, the Crusades, the Reformation, are emphasized.

Winter Term, 6 times a week.

COURSE 7. Modern History .

The growth of modern institutions; the spirit of arbitration; American discoveries and colonial enterprises and their reaction on Europe; Liberal tendencies and revolts against absolutism; French Revolution; the Eastern and far Eastern troubles, are carefully studied. This course aims at a liberal knowledge mainly of the great world events and epoch-making discoveries and inventions.

Spring Term, 6 times a week.

FOURTH YEAR.

COURSE 8. Political Economy (Macvane).

An outline course in Political Economy, touching only the sources and development of wealth, exchange, values, and productive labor, is given in this course.

Fall Term, 3 times a week.

COURSE 9. Industrial History of the United States.

This course will afford the student an insight into development of American Industries by tracing their beginning and rise; their rela-

tion to natural resources and to the home and foreign markets; the influence of inventions, of negro slavery, of trades unions, and foreign immigration.

Winter Term, 3 hours a week.

COURSE 10. Government of Texas (Garrison).

The government of Texas, with special attention to the political History of the State and the laws under which we live, and a brief conspectus of political science.

Winter Term, 3 times a week.

DEPARTMENT OF COOKING.

MABEL A. BOHANNON.

Cooking is the art of preparing food for the nourishment of the human body. Within the past few years much interest has been taken in this branch of Domestic Science. The rapid and marked improvement in cooking utensils, valuable research along the line of food economy, the establishment by the government of food experimental stations and the introduction of cooking into the public schools, even in universities, have all helped to bring the matter before the public so that scientific cooking is no longer a mere fad but a demand of the present age.

COURSE I.—*First Year Class*, 3 hours a week.

Fall Term.—1. Simple Meats and Vegetable Dishes. Making pies. Measurements.

2. Fuels. Range. Chimney. Canning and Preserving.

3. Making Soups. Yeast. Plain Breads.

Winter Term.—1. Study of Beef, Mutton, Pork and Venison, with diagrams of cuts.

2. Study of Milk, Butter, Cheese and Fish.

3. Study of Fowls, Eggs, and internal organs of the animals used for food.

4. Plain Confections: Cakes, Pastry.

Spring Term.—1. Composition of the human body.

2. Mineral matter. Impure water and foreign matter.

3. Food principles. Practical lessons on preparing fish, eggs, meat and fruit.

4. Adaptation of food to climate, occupation, etc.

COURSE II. *Second Year Class*, 4½ hours a week.

Fall Term.—1. Study of Desserts, Extracts and Baking Powders.

2. Way in which food supplies the wants of the body.

3. Nutrition, Absorption and Digestion.

4. Making Jellies, Pickles, Marmalades, etc.

Winter Term.—1. Composition of food. Practical lessons in fancy confections.

2. Study of preservation of food condiments.

3. Practical lessons in rolls, fancy desserts, cakes, etc.

4. Study of fungus plants and other vegetables.

Spring Term.—1. Jellies, Salads, Puff Pastry, Practical lessons in Salads, dishes with gelatine fruit, etc.

2. Dieteries. Fermentation. Invalid cooking.
3. Review of work in study of food composition.
4. Plain creams and sherbets.

COURSE III.—*Third Year Class*, 6 hours a week.

Fall Term.—1. French term and cooking. Symbols and chemical terms.

2. Fancy fruits and desserts.

3. Study of obaginous seeds, farinaceous and saccharine preparations.

4. Care of kitchen utensils. Setting tables.

Winter Term.—1. Pastry cooking. Special work in Breads. Pastry, Cakes.

2. Study of alcoholic beverages and non-alcoholic beverages.

3. Review of work of department.

4. Selection, care and arrangement of kitchen furniture.

Spring Term.—1. Special work in breads, pastry and cakes.

2. Complete Inventory.

3. Care of Dining Room.

COURSE IV.—*Senior Class*, 6 hours a week.

Fall Term.—1. Study of Menus. The usual and average American dinner consists of:

DINNER.		
Soup.		Celery.
	Roast.	
Potatoes.		Tomatoes,
	Salad.	
Crackers.		Cheese.
	Dessert.	
	Coffee.	

This should be served in five courses. Attention must be given to the following points:

1. The care of the dining room before dinner.
2. The setting of the table, side table and side board.
3. Preparation of relishes, bread, water, etc.
4. Serving the meats.

Winter and Spring Terms.—Etiquette of serving and carving. An essay of not less than 800 words. All books submitted neatly copied. Correct all first year students' books and papers. Prepare meals and serve to board.

MILLINERY COURSE

The knowledge gained in these classes enables women to select or make their own hats and bonnets with judicious expenditure of time and money, selecting such materials and designs as are suitable for various occasions and individuals.

1. Millinery—Senior Year and Special Course, 3½ hours per week.—Foundation work; Making wire frames, buckram frames of all sorts. Practice, 5 hours per week.

2. Senior Year.—Winter Term and Special Course, $3\frac{3}{4}$ hours per week.—Making, covering and trimming hats, making all sorts of bows. Practice, $5\frac{1}{2}$ hours per week.

3. Millinery.—Senior, Spring Term, and Special Course, $3\frac{3}{4}$ hours per week.—Making hats, bows and toques of straw braids over frames. Also lace and chiffon hats. Children's hats.

Practice, 5 hours per week.

SEWING AND DRESSMAKING COURSE.

FIRST YEAR.

1. Sewing; Hand work. Fall Term.—Use of needle, thimble, scissors, thread, etc., even and uneven basting, hemming, gathering, bindings or bands.

Talks on history of needles, thimbles, and different kinds of cotton material. Practice, $2\frac{1}{2}$ hours per week.

2. Sewing; Hand work. Winter Term.—Felling, shirring, machine stitch, scalloped edges, honey-combing, facing, false hems, eyelets, loops, gussets, tucks, plaiting, etc. Lectures. Practice, $2\frac{1}{2}$ hours per week.

3. Sewing; Hand work, Spring Term.—Buttonholes, buttons, hooks, eyes, French hems on Damask, darning cloth, stocknet, stocking web, patching, fancy stitches of all kinds. Lectures. Practice, $2\frac{1}{2}$ hours.

SECOND YEAR.

Sewing-machine Work; Fall Term.—Making plain garments, as aprons, Waists, tea jackets, etc. Drafting simple garments for children and adults. Three hours per week.

Winter Term.—Talks on the manufacture of linen, cotton and woolen material. Reproducing dressing sacques, undergarments, collars, etc. Three hours per week.

Spring Term.—Making underwear of all kinds. Cutting and making simple garments for children and adults. Three hours per week.

Art Needle Work. Four hours per week.—Consisting of Mexican drawn-work, Kensington stitches, embroidery work.

THIRD YEAR.

Fall Term.—Measurements and drafting, $2\frac{1}{2}$ hours.—Drafting plain waists by measurements. Practice taking measures. Sponging and refinishing materials, matching stripes and plaids. Five hours per week.

Winter Term.—Reproducing plain garments, binding waists, finishing lined waists, finishing seams. Dressmaking begun. Five hours per week.

Spring Term.—Dressmaking, $2\frac{1}{2}$ hours.—Drafting skirts by measurements; how to fit waists both lined and unlined. Making dresses, wrappers, etc., 5 hours.

FOURTH YEAR.

Fall Term.—Study of color from textures, definitions and pronunciations of technical terms used in dressmaking.

Dressmaking. Three hours per week.

Winter Term.—Reproducing from French and American plates. Work continued from first term. Three hours per week.

Spring Term.—Dressmaking completed; continuation of work from Fall and Winter Terms. Latter part of this term is devoted to making graduating costumes. Three hours per week.

YOUNG WOMEN'S DEPARTMENT.

MISS H. F. KIMBRO,
Teacher of Housekeeping and Preceptress, in Charge of
Girls' Dormitories.

DISCIPLINE.

We strive to use such discipline as will develop a *high type of womanhood*. Girls are encouraged to do right from *principle*. They are placed on their honor, and *conduct becoming ladies* is insisted upon.

The Preceptress lives with the female pupils and is present to advise and direct them.

Since we believe a knowledge of the details of household economy is essential to the education of every woman, each female pupil is required to spend some time every day in caring for the dormitories.

The *health* of the girls is a subject of constant care, and pupils are taught under direction to care for the ill.

Plainness and *economy* in *dress* are encouraged by precept and example.

We believe experience adds much to proficiency.

Cleanliness of person, apparel, rooms, and premises is the rule.

WHAT TO BRING.—Two blankets or quilts; three sheets, each two and three-fourths or three yards long; three pillow cases; one white bed spread; four towels; four table napkins; two yards unbleached domestic for clothes bag; one pair rubber overshoes; one mackintosh rain cloak; one umbrella.

DORMITORIES.

The female pupils are housed in two buildings: one, a three-story brick building of 36 rooms and nine hallways, with a commodious front gallery looking south and extending the entire length of the building; the other a comfortable two-story frame building.

Both buildings are well lighted and ventilated. The rooms are heated by box stoves and there is no extra charge for fuel.

These two buildings afford good accommodations for one hundred and fifty girls.

The class-work in Sewing, Millinery, Cooking and Music is carried on in the frame building.

In the brick buildings are located the office of the Preceptress, the girls' reading room and the girls' reception room.

YOUNG MEN'S DEPARTMENT.

R. L. ISAACS, Monitor.

DISCIPLINE.

The aim of this department is to teach the male pupils self-respect, self-control, and regard for the rights, feelings, and property of others. The boys are required to keep their rooms neat and clean.

Cleanliness of person, apparel, rooms, and premises is insisted upon.

A special aim is to inculcate a sense of honor; a regard for truthfulness and honesty; an appreciation of duty and personal responsibility, and habits of application and industry.

DORMITORIES.

Foster Hall, named in honor of the late Hon. L. L. Foster, is a three-story brick building containing 29 rooms and three halls. The second floor of the Kirby Hall contains 10 rooms; the Pickett Hall 16 rooms. These buildings afford fair accommodations for 150 boys.

THE DINING HALL.

H. C. ALDRIDGE, Steward.

R. L. ISAACS, Monitor.

MRS. A. E. BOHANON, Matron.

The pupils and a part of the teachers take meals in the school dining hall, which is large, airy, well-lighted and comfortable.

The tables are served at meal times by young ladies—students—who in this way earn a portion of their school expenses.

A high standard of social conduct is aimed at. Pupils are constrained to cultivate a quiet, genteel, refined demeanor. Boisterousness is discouraged, and anything tending toward familiarity or vulgarity in conduct or conversation meets with sharp disapproval.

The Monitor and Preceptress are in constant supervision over the pupils in the dining-room.

The Matron and a corps of girl waiters have the duty of serving the meals, waiting at tables, and clearing tables, cleaning dishes and setting up tables for the succeeding meal.

The diet is plain and healthful, with considerable variety both of material and preparation. On holidays a special dinner is served.

THE SCHOOL LAUNDRY.

E. H. HOLMES, Superintendent.

E. H. MATTHEWS, Foreman.

JAMES SANDERSON, Student Assistant.

The laundry is supplied with steam and equipped with suitable machinery.

There are two large cylindrical washers, one extractor or rotary wringer, clothes starcher, collar and cuff ironer and mangle.

The entire washing, ironing and sorting of the clothes for all the pupils is done in the steam laundry by the girl pupils, assisted by three boys and directed by a foreman and a female assistant.

Pupils thus have the opportunity of learning a useful calling, while doing their own laundering.

GENERAL INFORMATION.

SITUATION AND SURROUNDINGS.

The Prairie View State Normal and Industrial College is located in Southeast Texas, in Waller County, six miles east of Heampstead. The situation is commanding and beautiful. The buildings face a broad prairie on the south, which runs for miles to the southeast. To the west and north lie extensive tracts of timber. Five miles southeast is the growing little town of Waller. The Houston & Texas Central Railway runs in front of the school, a mile distant, making the College easy of access by rail from all parts of the State.

A constant Gulf breeze, which often becomes a strong wind, insures a pure and healthful atmosphere, and the general health of the pupils has been good.

HOW TO REACH PRAIRIE VIEW.

Several days before leaving home, students should inform their nearest railroad ticket agent that Prairie View Station is in Waller County, on the main line of the Houston & Texas Central Railway, and find out from him the best route to reach it. Find out also, on what day and on what train you will arrive, and notify the Principal of the school of your coming.

OPENING DAY.

The twenty-sixth annual session opens the second Wednesday in September, September 13, 1905, and every student, if possible, should reach the College on the opening day.

MESS HALL.

All student boarders and several of the teachers take their meals at this building in the large dining hall. The aim of the State is to furnish a palatable, healthful diet at actual cost of material and service.

GIRLS' DORMITORIES.

The young ladies of the institution are housed in two dormitories—one a two-story frame building, with a capacity of accommodating forty students, containing music rooms, sewing room and model kitchen; the other a three-story brick building of tasteful architecture, with thirty-six rooms, large, well ventilated, and neatly furnished.

YOUNG MEN'S DORMITORIES.

The Kirby Building has been moved to the west part of the campus, and has undergone an extensive and thorough remodeling and repair which has made this one of the most useful and tasteful buildings of the institution. The upper story contains ten bed rooms for boys; the lower, seven rooms, four of which are used for the Chemical and Physical Laboratory, and the remaining three by classes in the Agricultural Department.

Pickett Hall and Chapel Hall are frame buildings for the accommodation of young men; one of eight, the other of sixteen rooms.

A new three-story brick dormitory, Foster Hall, has been built for boys in order to meet the growing demand for room. This building contains twenty-nine rooms, with good light, ventilation, and furnishings.

ACADEMIC HALL.

This hall is a stately building—the main central part being three stories in height and containing, above, the chapel, with a gallery, and below, the principal's office, the laboratory, library and reading room. Two wings, each of two stories, contain six recitation rooms and two Committee Rooms, used solely by the Board of Directors whenever the business of the school requires their presence at the Institution.

THE SHOP.

The shop of the Mechanical Department is a one-story structure, the main room of brick, containing the wood-working outfit, and additions containing the blacksmithing outfit, engine and boiler, steam laundry, etc.

THE CAMPUS.

The school campus comprises at present fifty acres, in which the above buildings are appropriately situated. Fourteen teachers' cottages are located around the campus.

UNIFORMS.

All students, both male and female, are required to purchase and wear the school uniform designated by the Faculty. These uniforms are required as a matter of economy and to improve the appearance of the students as a body. They can be purchased at a reasonable price at the institution, and must be worn by all. Young men should have a suit of overalls for wear when on duty in shop or farm.

LITERARY SOCIETIES.

Three literary societies are maintained by the students of Prairie View—the Pansy, the Columbian, and the Philomathian.

RELIGIOUS OBSERVANCES.

On Sunday morning at 10:30, Sabbath school is regularly held, followed by a lecture or sermon. Attendance at these services is obligatory on part of all students. Three voluntary Christian societies have been maintained by the students.. The Young Women's Christian Association has an organization among the young women, which holds a regular prayer meeting on Sunday morning. The Young Men's Christian Association is well organized and holds a regular meeting Sunday morning at 9:30 in the chapel. On Sunday afternoons at 3:30 p. m. the Society of Christian Endeavor holds a topical prayer-meeting. The good effect of these societies is seen in the improvement of the moral tone, and in the cultivation of a better regard for truth and duty.

THE DAILY ROUTINE.

Students rise at 5:40 a. m. From 6 to 6:45 a. m., study hour. Breakfast, 6:45 to 7:15 a. m. From 7:15 to 7:45, students sweep, dust and arrange their rooms. At 7:45 a. m. all assemble in the chapel for devotions. After devotions students march to their recitation rooms. There are six periods of recitations, averaging forty-five minutes, and a period of thirty minutes for vocal music. Dinner at 1 p. m. From 2 to 3:30 p. m. is the first period for industrial practice; from 3:30 to 5 p. m. the second period for industrial practice. Supper at 5:40 p. m. Study hours, 7 to 9:30 p. m. Retiring bell at 10 p. m. School work continues on Saturdays until 1 p. m.

SOME GENERAL RULES.

The discipline of the school aims to lead its students to self-control, and to prepare them for the successful discharge of the practical duties of every-day life and citizenship, as well as for the special duties of school, farm, shop, and home.

Promptness to all school duties is required. Neatness and cleanliness are emphasized.

Students are impressed that intelligent labor is dignified and necessary to all individual or social development.

No student need come to Prairie View with the idea that it is a place to get a certificate to teach, with little real effort. Thorough, conscientious work must be done to merit any honor from the institution.

No student can leave the grounds at any time, or omit any school duty, unless by written consent from the Principal.

The use of tobacco, and all narcotic or alcoholic stimulants, is forbidden, as being a hindrance to the process of education.

Students whose conduct raises doubt or suspicion of their character and motives, may be requested to withdraw from the institution.

True politeness is the rule of social conduct, and rudeness in speech or manner, ill temper, noisy, boisterous behavior, disputes and quarrels are forbidden.

Extravagance and showiness in dress are not approved of by the Faculty. A neat, plain attire, and a modest, self-respecting demeanor, are expected of each student. Young ladies who graduate are required to wear a uniform designated by the Faculty.

All students are required to improve their advantages to a reasonable degree and according to their ability, and when it becomes apparent that a pupil's time is not profitably employed he will be requested to withdraw.

APPARATUS.

A beginning has been made in securing some of the necessary apparatus in natural science. A laboratory has been fitted up, and an opportunity is offered classes in this important branch of a good education. Special opportunities will be afforded students who wish to study Chemistry as a preparation for the study of Pharmacy and Medicine.

LIBRARY AND READING ROOM.

The Reference Library contains a number of carefully selected volumes, and students have ample opportunity for forming a habit of reading, and thus broaden their education. In connection with the Reference Library is a Reading Room, furnished with a number of the leading magazines, and much current reading matter. A separate Reading Room has been established for the girls.

All students have full access to the library and reading rooms at stated periods free.

STATE STUDENTS.

Each of the State Senators and State Representatives has the right by legislative enactment to the appointment of a State student at this College. Every appointee must stand an entrance examination in Arithmetic to Percentage, Orthography, English Grammar, and Composition, Texas History and United States History, and any appointee who fails to show a reasonable degree of proficiency in the above branches will be rejected and his place filled by the Senator or Representative appointing him. Every appointee must present, on entrance satisfactory testimonials of good character. Such State students as show a decided ability in scholarship and aptitude for teaching are recommended by the Faculty for reappointment.

Payments of State Students.—Each appointee must pay \$55 for the session of nine months—\$20 on entrance, \$17.50 on December 1st and \$17.50 on March 1st following.

PAYMENT OF DUES.

All dues are payable in advance, and in case of failure to meet payments when due a pupil may be suspended.

HONORS.

Students who complete the studies of the full course satisfactorily, making required averages, will receive a normal diploma. Said diploma has by law the rank of a permanent teacher's certificate and is valid during good behavior.

First Grade Normal Certificates, valid for six years, and Second Grades, valid for three years in the public schools of Texas, may be issued to those who complete the required subjects and attain the required standing.

In addition to an attendance of at least nine months, and satisfactory class room work and deportment, students must show a commendable ability to teach before the honors of the institution are granted.

The right of a pupil to receive a diploma or a certificate shall be determined by the Faculty, in full meeting, according to such standard of scholarship, and the mode of recording the same, as may have been previously agreed upon.

LIBRARY.

The general library and reading room occupies a space on the first floor of Academic Hall. It contains about 2000 volumes of reference books, history, biography, poetry, and general literature. Most of these books are selected with special reference to the taste of students

and young people—and are classified according to the latest methods. They are all catalogued on cards, and drawn by all pupils without cost.

The reading room receives regularly some of the leading newspapers and periodicals, and is open seven hours on each week day, two hours on Sunday and four hours on holidays. A reading room for girls with equal accommodations is located in their brick dormitory.

TEXT-BOOKS.

Mathematics—Arithmetic (Robinson's Complete). Algebra (Sheldon; Fisher and Swartz). Geometry (Wentworth). Trigonometry (Wentworth).

English—English Grammar (Whitney and Lockwood). Rhetoric (Genung). Practical Rhetoric (Genung). English Literature (Swinton). American Literature (Watkins).

Civics and History—Texas History (Pennybacker's). U. S. History (Barnes). General History (Barnes). English History (Lancaster). Civil Government (Young). Economics (McVea). Civil Government of Texas (Garrett).
