HON. T. D. ROWELL, <i>Vice-President</i>	Jefferson.
HON. A. HAIJUSEK.....	Lat Grange.
HON. W. P. SEBASTIAN.....	Breckenridge.
HON. WALTON PETEET.....	Dallas and Mineral Wells.
HON. L. L. McINNIS.....	Bryan.
HON. R. T. MILNER (<i>ex-officio</i>).....	Austin.
HON. JOHN M. GREEN.....	Yoakum.

PRAIRIE VIEW NORMAL COLLEGE—LAW ESTABLISHING COURSE AND
MAKING APPROPRIATIONS THEREFOR.

S. B. No. 17.]—An Act to establish and maintain a four-year college course of classical and scientific studies at the Prairie View Normal and Industrial College at Prairie View, Waller County, Texas.

Be it enacted by the Legislature of the State of Texas:

That the sum of twenty-five hundred dollars for the first year and eighteen hundred dollars for the second year be set apart and is hereby appropriated out of the general revenue for the inauguration and maintenance of a four-year college course of classical and scientific studies at the Prairie View State Normal and Industrial College, to which graduates of the normal course shall be admitted without examination and to which others may be admitted after having passed a satisfactory examination in the branches comprised in the normal course; provided, that no State student shall be admitted to the privileges of the said course; and provided further, that the diploma conferred on the completion of the said course shall entitle the holder without other or further examination to teach in any of the colored public free schools of the State.

Approved March 28, 1901.

PRAIRIE VIEW STATE NORMAL AND INDUSTRIAL COLLEGE.

S. H. B. No. 379.]—An Act to amend Articles 3886 and 3887, of Chapter 5, of Title 86, of the Revised Statutes of the State of Texas, relating to the Normal School for Colored Teachers at Prairie View.

Be it enacted by the Legislature of the State of Texas:

SECTION 1. That Articles 3886 and 3887, Chapter 5, of Title 86, of the Revised Civil Statutes of the State of Texas be so amended as that same will hereafter read as follows:

Article 3886. Said board of directors shall admit one student from each Senatorial district, who shall be appointed by the Senator representing said district, and one student from each Representative district, who shall be appointed by the members of the Legislature representing said district; provided, that where there are more than one Representative in a district each Representative of such district shall appoint one student, said students to be taken from the colored population of this State, which said students shall not be less than sixteen years of age at the time of their admission; provided, the said school shall hereafter be called and known as "Prairie View State Normal and Industrial College."

Article 3887. Said board shall appoint a principal teacher and such assistant teacher or teachers of said school and such other officers of said school as may be necessary, and shall make such rules, by-laws and regulations for the government of said school as they deem necessary and proper, and shall regulate the course of study and the manner of performing labor to be performed by the students, and shall provide for the board and lodging and instruction to the students, without pecuniary charge to them, other than that each student shall be required to pay one-third of the cost of said board, lodging and instruction, quarterly, in advance, and said board of directors shall regulate the course of discipline necessary to enforce the faithful discharge of the duties of all officers, teachers, students and employes of the school, and shall have the same printed and circulated for the benefit of the people of the State and the officers, teachers, students and employes of said school.

SEC. 2. The near approach of the end of the session and the crowded condition of the calendar of both houses of the Legislature, and the improbability that this bill can be reached in its order on three several days in each house, and the great need and demand for the passage of this act, creates an emergency and an imperative public necessity exists for the suspension of the constitutional rule requiring bills to be read on three several days in each house, and said rule is so suspended.

Approved June 6, 1899.

COLLEGE CALENDAR.

1907.

Fall Term begins Wednesday, September 4.
First Payment Entrance Dues All Students, September 4.
Entrance Examination, September 4-6.

Agriculture.

R. L. ISAACS,
Associate Professor of Mathematics.

PAUL BLEDSOE,
Associate Professor of Science.

W. P. TERRELL,
Mechanical Department.

W. B. WOODRUFF,
Superintendent of Farm and Instructor in Broom and Mattress Making.

MISS E. E. HOUSEWORTH,
Sewing and Millinery Department.

MISS M. A. BOHANNON,
Department of Cooking and Domestic Economy.

ASSISTANTS.

W. C. ROLLINS, English.
MISS A. L. EVANS, English.
C. H. WALLER, Agriculture.
MISS T. ISAACS, General Assistant.
RUFUS JOHNSON, Shoemaking.
ROBERT RAYFORD, Tailoring.
A. F. FLEWELLYN, Blacksmithing.
MISS M. N. CHESNUTT, Sewing.
MISS ISABEL ELLIS, Teacher of Music.
T. H. BRITAIN, Carpenter.

OFFICERS.

MISS HARRIET F. KIMBRO, Preceptress.
J. L. MORRISON, M. D.,
Physician.
W. C. ROLLINS,
Secretary.
R. L. ISAACS,
Monitor.
H. C. ALDRIDGE,
Steward.
Z. T. LEROY,
Foreman of Farm.
A. D. EWELL,
Foreman of Laundry.
PAUL BLEDSOE,
Librarian.
J. H. CRAWFORD,
Secretary of the Faculty.
C. W. LUCKIE,
Bookkeeper and Treasurer.
G. O. SANDERS,
Electrician.

PRAIRIE VIEW STATE NORMAL AND INDUSTRIAL COLLEGE.

OBJECT OF THE SCHOOL.

Prairie View State Normal and Industrial College has for its object the training of persons desiring to fit themselves for the important profession of teaching, by giving them thorough instruction and practical drill in the best recognized methods of organizing, disciplining, and conducting schools.

The particular aims are to fit colored youths for responsible positions in the colored public schools of Texas, to impart something of the scholarly spirit indispensable to excellence in teaching, and to awaken an enthusiasm for the education and for the industrial and moral improvement of the colored race in Texas.

Believing in the value of industrial training in connection with the literary and professional studies, as a means to mental, moral and economic improvement, the Board of Directors have added Agricultural and Mechanical Departments and a department of Female Industries to give a well rounded education and to prepare the students for practical life.

ORGANIZATION AND GOVERNMENT.

The Prairie View State Normal and Industrial College of Texas is a branch of the Agricultural and Mechanical College of Texas at College Station, and is under the control of the Board of Directors and President of that College. The Board of Directors elect a Principal and a Faculty, to whom are entrusted the affairs of the Institution.

It is the duty of the Principal to exercise immediate supervision and direction, subject to the regulations and restrictions imposed by the Board of Directors.

The instruction of the Institution is committed to departments, a member of the Faculty being at the head of each department. These departments are, at present, as follows: Science, Mathematics, English, Pedagogy and History, Mechanical, Agricultural, Sewing and Millinery and Cooking.

Such assistant teachers are employed as are needed to carry out the work of the departments.

The discipline, as well as instruction of all the students of the Institution is committed to the Faculty, the Principal being held responsible for the enforcement of regulations and the maintenance of discipline, with the privilege of calling in, at any time, the assistance of any or all of the Faculty.

The immediate supervision of the young ladies of the Institution is

entrusted to a Preceptress, whose duty it is to see that the conduct of the young women, their personal habits, manners, carriage, modes of dress, and habits of study conform to correct standards.

ADMISSION REQUIREMENTS.

1. AGE.—Students shall not be less than sixteen years of age at the time of their admission. (Article 3886, Revised Statutes, Chapter 5, Title 86, as amended by S. H. B. No. 379.)

2. HOW TO APPLY FOR ADMISSION.—Write to the Principal for an application blank, which will be forwarded, giving full instructions. No appointee or other applicant should come to the College, without having made application for admission and accommodations, subject to the Entrance Examination. For requirements see No. 4 below; also see application blank in the back of this Catalogue.

3. PLEDGE TO TEACH.—A pledge must be signed by all who enter the Normal Course to teach as many sessions in the public free schools of Texas as the applicant may attend sessions of the College.

4. ENTRANCE EXAMINATIONS.—Candidates for admission into First Year must sustain a satisfactory examination on arrival at the College in the following:

Robinson's Complete Arithmetic.

English Grammar, embracing a knowledge of the parts of Speech, their Uses and Relations; the Sentence, its Kinds, Uses, Analysis and Construction. (Whitney & Lockwood Text.)

English Composition.—Each applicant must submit an original composition on some everyday topic assigned by the Professor of English, of not less than 200 words, as a test of the applicant's handwriting, spelling, and thought-expression.

Geography.—Texas History (Pennybacker's); U. S. History (Estill's).

Advance Standing.—Applicants for higher classes than First Year are referred to course of study. A thorough preparation in all English branches and in the subjects of the year previous to the desired year, is especially urged.

5. MORAL CHARACTER.—All candidates for admission must furnish testimonials of good character and if coming from other schools or recently in attendance thereon must bring honorable dismissal from such schools.

6. HEALTH.—No sickly, diseased, or infirm person should apply for admission, and any applicant for admission may be subjected to a physical examination by the medical officer of the school, if occasion demands it.

7. PAYMENTS ON ENTRANCE.—For admission State students must be prepared to pay the entrance fees and one term's board money in advance. All other students must pay the entrance fees and one month's board money in advance.

8. WHAT THE STATE DOES NOT FURNISH.—Each candidate for admission must furnish his own clothing and bed-clothing, including at

least three sheets, six towels, and one pillow, three pillow-cases, two quilts and one blanket, one good comb, hair brush, tooth brush, shoe brush and clothes brush, a pair of rubber overshoes. All articles of clothing should have the owner's name carefully written on them with indelible ink. Young men must be careful to bring along a suit of overalls for wear on duty in the shop or farm.

EXPENSES FOR THE SESSION.

STATE STUDENTS.

Payment on entrance.....	\$ 20 00
Maintenance, payment December 1st.....	17 50
Maintenance, payment March 1st.....	17 50
	\$ 55 00
Total	\$ 55 00

NON-STATE STUDENTS.

Payment on entrance.....	\$ 20 00
Maintenance, \$10 a month for eight months.....	80 00
	\$100 00
Total	\$100 00

The first payment of \$20 by all students includes matriculation fee of \$5 and book-rent fee of \$5, the other \$10 going for maintenance.

Students pay \$1.50 a quarter for use of text-books, hence only 50 cents of the book-rent fee may be returned. Fees for maintenance are always *payable in advance*.

Remember *all students must pay \$20 on entrance*.

THE DAILY ROUTINE.

Students at 5:40 a. m. From 6 to 6:45 a. m., study hour. Breakfast, 6:45 to 7:15 a. m. From 7:15 to 7:45, students sweep, dust and arrange their rooms. At 8:00 a. m. all assemble in the chapel for devotions. After devotions students march to their recitation rooms. There are six periods of recitation, averaging forty-five minutes, and a period of thirty minutes for vocal music. Dinner at 1 p. m. From 2 to 3:30 p. m. is the first period for industrial practice; from 3:30 to 5 p. m. the second period for industrial practice. Supper at 5:40 p. m. Study hours, 7 to 9:30 p. m. Retiring bell at 10 p. m. School work continues on Saturday until 1 p. m.

TEXT-BOOKS.

Mathematics—Arithmetic (Robinson's Complete). Algebra (Sheldon; Fisher and Swartz). Geometry (Wentworth). Trigonometry (Wentworth).

English—English Grammar (Whitney and Lockwood). Rhetoric (Genung). Practical Rhetoric (Genung). English Literature (Swinton). American Literature (Watkins).

Civics and History—Texas History (Pennybacker's). U. S. History (Barnes). General History (Barnes). English History (Lancaster). Civil Government (Young). Economics (McVea).

Natural and Physical Sciences—Manual of Geography (Maury). Physical Geography (Maury). Zoology (Steele). Geology (Leconte). Chemistry (Williams). First Lessons in Physical Science (Avery). Physics (Gage). Botany (Bergen). Physiology (Coleman).

Pedagogy and Philosophy—School Management (White). History of Education. Pedagogy (Hewitt). Psychology (Baldwin). Moral Philosophy (Hickok).

Cooking—Theory and Practice of Cooking (Fisher). Boston Kitchen and School Text-Book (Lincoln). Hand-Book of Domestic Science (Wilson).

Mechanics—Power and Power Transmission (Kerr). Strength of Material (Merriman). Elements of Electricity and Magnetism (Jackson).

Agriculture—Plant Culture (Coff). Plant Studies (Coulter). Animal Feeding (Jordon). Principal and Practice of Butter Making (Larsan).

COURSES OF STUDY BY DEPARTMENTS.

The instruction of students is committed to a Faculty which is organized into departments of instruction. The following departments are now in operation: Mathematics, English, Science, Pedagogy and History, Mechanics, Agricultural, Dress Making and Millinery, and Cooking.

A detailed statement of the work of these departments follows:

* DEPARTMENT OF MATHEMATICS.

E. L. BLACKSHEAR.

R. L. ISAACS.

Six courses are required in this department for graduation from the Normal Course.

COURSE I.—*Arithmetic*. First Year, Fall and Winter Terms; six hours per week.—This course covers a review of Arithmetic, beginning at Percentage, Profit and Loss, Commission, Simple Interest, Ratio and Proportion, Trade and Bank Discount, Partial Payments, Partnership, Exchange, Taxes, Life and Fire Insurance, Stocks and Bonds, and Mensuration.

Text: Robinson's Complete.

COURSE II.—*Algebra*. Four terms' work: Spring Term of First Year, and Fall, Winter and Spring Terms of Second Year; six hours per week.—Elementary Algebra completed, embracing the following topics: Addition, Subtraction, Multiplication and Division of Algebraic Numbers and Quantities; Simple Equations; Factoring; Common Factors and Multiples; Fractions and Fractional Equations; Simultaneous Equations; Involution and Evolution; Quadratic Equations; Simultaneous Quadratic Equations.

Text: Sheldon's.

COURSE III.—*Plane Geometry*. Three terms: Third Year, Fall, Winter and Spring Terms; six hours per week.—Topics: Rectilinear Figures; the Circle; Proportion and Similar Polygons; Areas of Polygons; Regular Polygons and Circles; Problems in Construction; Maxima and Minima; Exercises.

Text: Wentworth's.

COURSE IV.—*Solid Geometry*. Fall Term and Winter Term, Fourth year; six hours per week.—Topics: Lines and Planes in Space; Polyhedrons.

Text: Wentworth's, Books VI and VII.

COURSE V.—*Plane Trigonometry*. Spring Term. Fourth Year; six hours per week.—Topics: Functions of Acute Angles; Solution of Right and Isosceles Triangles; Solution of Oblique Triangles.

Text: Wentworth's.

COURSE VI.—Reviews in Arithmetic, Algebra and Plane Geometry, four weeks, Spring Term. Fourth Year.

DEPARTMENT OF ENGLISH AND HISTORY.

C. W. LUCKIE.

A. L. EVANS.

W. C. ROLLINS.

The aim of this department is to aid the student to understand the English language, to speak and write it with ease and accuracy, and to develop in him the capacity to appreciate its best literature. To accomplish this purpose the following courses are proposed:

I. *Grammar and Composition*.—First-Year Class; Fall, Winter and Spring Terms, six hours a week.—This course consists of a thorough

study of the sentence, together with the parts of speech and their offices. Selections from the productions of Longfellow, Irving and Bryant are studied and extracts from these writers are to be committed to memory. The composition work includes weekly themes on everyday subjects and making outlines.

English Grammars—Whitney and Lockwood; Sisk. Elements of English Composition—Chittenden.

II. *Word Analysis and Composition*.—Second-Year Class; Fall Term, five hours a week.—This term will be devoted to a study of the history, derivation and meaning of words. Attention will be given to synonyms, antonyms, homonyms, also to the spelling and use of words. The written exercises will consist of letter writing and paragraph writing.

Swinton's Word Analysis.

III. *Rhetoric and Composition*.—Second-Year Class; Winter and Spring Terms, six hours a week.—Attention will be given to the study of style, diction and figures of speech. The work in composition will consist in exercises in the simpler forms of description and narration. These will be required each week.

Outlines of Rhetoric.—Genung.

IV. *Introduction to American Literature*.—Third-Year Class; Fall and Winter Terms, four hours a week.—The history of American literature will be studied under three periods: Colonial, Revolutionary and National. Special attention will be given to a study of some of the masterpieces of American writers. The written work of these two terms will consist of the simpler forms of exposition and outlines of literary selections.

American Literature—Watkins. Masterpieces of American Literature—Houghton, Mifflin & Co. American Literature—Painter.

V. *Practical Rhetoric*.—Seniors; Fall Term, four hours a week; Winter Term, three hours a week.—The principles of exposition and argumentation will be studied with frequent written exercises. Students will also be given exercises in writing abstracts and summaries. Subjects for written discussions will be taken largely from current events.

Practical Elements of Rhetoric—Genung.

VI. *English Literature*.—Seniors; Spring Term, three hours a week.—The leading English writers are studied and attention is given to their relation to the different periods. Two of the plays of Shakespeare will be studied, and the students will be required to make written reports at stated times upon the books they have read during the term. In addition to their weekly themes, each member of the class will be required to submit six carefully prepared essays during the term.

Studies in English Literature—Swinton's and Painter's.

DEPARTMENT OF AGRICULTURE.

J. W. HOFFMAN.

The aim of this course is to give the student a general idea of the relation of plants, water, and air to the soil. Attention is also given to the study of root growth, office of leaves, relation of stock, use and kind

of implements necessary to a farm. We also make a study of the common diseases of farm animals.

COURSE I. *Formation and Preparation of Soil.*—First-Year Class; Fall Term, eight hours a week.—Lectures and Practice.

COURSE II. *Farm Implements.*—First-Year Class; Winter Term, eight hours a week.—Lectures and Practice.

COURSE III. *Habits and Growth of Plants.*—First-Year Class; Spring Term, eight hours a week.—Lectures and Practice.

COURSE IV. *Fall Crops.*—Second-Year Class; Fall Term, eight hours a week.—Planting of Fall Crops.—Lectures and Practice.

COURSE V. *Seed Selection and Testing.*—Second-Year Class; Winter Term, eight hours a week.—Pruning.—Lectures and Practice.

COURSE VI. *When and How to Plant.*—Second-Year Class; Spring Term, eight hours a week.—Lectures and Practice.

COURSE VII. *Judging Breeds of Live Stock.*—Second-Year Class; Fall Term, eight hours a week.—Practice.

COURSE VIII. *Dairying.*—Third-Year Class; Winter Term, eight hours a week.—Lectures and Practice.

COURSE IX. *Feeds and Feeding.*—Third-Year Class; Winter Term, eight hours a week.—Lectures and Practice.

COURSE X. *Breeding Live Stock.*—Third-Year Class; Spring Term, eight hours a week.—Lectures.

COURSE XI. *Anatomy of the Horse and Common Diseases.*—Senior Class; Fall Term, eight hours a week.—Lectures.

COURSE XII. *Anatomy and Common Diseases of the Cow.*—Senior Class; Winter Term, eight hours a week.—Lectures.

COURSE XIII. *Experiments in Farm and Garden Crops.*—Senior Class; Spring Term, eight hours a week.—Lectures and Practice.

Shorter Two-Year Course in Agriculture and Horticulture.

The aim of this short course is to give the young men a brief knowledge of the soil and the relation of plants and animals.

FIRST YEAR.

1. History of Plants. Root Crops and Harvesting Crops. Lectures and Practice.—Fall Term, eight hours a week.

2. Kinds of Crops for Market. Seed Selection. Manner and Time of Planting. Lectures and Practice.—Winter Term, eight hours a week.

3. Management and Business of Farm. Garden Plants. Farming Continued. Lectures and Practice.—Spring Term, eight hours a week.

SECOND YEAR.

1. Subsoil. Tap Root. Fall Crops and How to Select Seeds. Lectures and Practice.—Fall Term, eight hours a week.

2. Fertilizers. Kind of Soil. Pruning. Habits of Plants and Animals. Hot Beds. Lectures and Practice.—Winter Term, eight hours a week.

3. Dairying. Selection and Breeding of Stock. Spring Term, eight hours a week.

Two-Year Course in Dairying.

FIRST YEAR.

Fall Term.—Heredity. Variation. Prepotency. Inbreeding. Line Breeding. Fecundity. Cross Breeding and Mating.

“Principles of Breeding.”—Show.

Winter Term.—Conformation of Dairy Cow. Selecting and Judging. Dairy Breeds. Beef Breeds.

“Principles of Breeding.”—Show.

Spring Term.—Animal Nutrition. Composition and Relative Feeding Value of Different Crops. Nutritive Ratio. Feeding for Milk. Feeding for Beef.

“Feeds and Feeding.”—Henry.

SECOND YEAR.

Fall Term.—Conditions affecting Secretion. Testing Milk. Methods of Creaming. Use and Care of Separator. Ripening Cream. Churning, salting, finishing and marketing Butter.

Winter Term.—Ferments and Fermentations of Milk. Control of the Fermentations of Milk. Care of Milk Vessels. Theory of Cheese-making.

“Milk and Its Products.”—Wing.

Spring Term.—Location and Construction of Dairy Buildings. Structure of Bacteria Contamination of Milk. Relation of Disease Bacteria to Milk. Preservation of Milk. General Management of Creameries.

“Dairy Bacteriology.”—Russell.

MECHANICAL DEPARTMENT.

W. P. TERRELL.

A. E. FLEWELLEN, JR.

T. H. BRITTAIN.

The great object of the department is to foster a high appreciation of the value and dignity of intelligent labor. The boy who sees nothing in manual labor but dull, brute force, looks with contempt upon the labor and the laborer; but as soon as he acquires skill himself, the conditions are reversed, and henceforth he appreciates the work and honors the workman. The students are trained in the use of the various tools employed in the mechanic arts, and are thus given a good foundation in manual training, which will enable them to teach the arts in the schools in which they may be employed.

With this end in view the course has been revised and rearranged. Instruction is given by means of practice in the shops, by lectures, and by text-books.

The work in carpentry and blacksmithing is arranged in graded series, beginning with the simple joints and leading to the more difficult ones. The students are taught how to care for hand tools, machine tools, and how to sharpen edge tools. Some general repairing is done, which gives them more practical ideas.

By combination of the courses the students in the short course are given such knowledge as will enable them to become good carpenters, blacksmiths, and stationary engineers. Drawing is taught throughout the course. The courses are as follows:

I. *Carpentry*.—First-Year Class; eighteen weeks, six hours a week (alternate with agriculture).—Names and care of tools, sawing across and with the grain, and keeping the line. Planing, marking, gauging, making butt-joints, half joints, mortised and tenon, dowel-pin joints.

Text: "Bench Work in Wood."—Goss.

II. *Forging*.—Second-Year Class; Fall and Winter Term, six hours a week.—Names and use of general blacksmithing tools, fuels, making and managing forge fires, taking proper heats, plain forging, forming, shaping and bending, drawing out, upsetting, squaring up, twisting, ring-bending, cutting-off, punching, drilling, scarfing and welding iron.

III. *Wood Turning*.—Third-Year Class; Winter Term, six hours a week.—The lathe and its parts, preparation of stock, roughing out and turning straight pieces. Tapering, squaring-off, cutting-in, convex, concave and compound curves, chisel handles, table legs, face-plate work and chucking.

IV. *Forging*.—Third-Year Class; Fall Term, six hours a week (continuation of II).—Welding iron and steel, welding steel to steel, tool making, tempering cold chisels, punches, screwdrivers, turning chisel and scribes, bolts, cutting threads and tapping nuts.

V. *Power and Power Transmission*.—Third-Year Class; Fall and Winter Terms, five hours a week.—The use of shafting, belting, boilers, engines and pumping machines, etc.

Text: Kerr.

VI. *Drawing*.—First-Year Class; Fall, Winter and Spring Terms, two hours a week.—Free-hand drawing. Webb, Ware and Zaner Series.

VII. *Drawing*.—Second-Year Class; Fall, Winter and Spring Terms, three hours a week.—Instrumental Drawing, Geometrical, Construction. Parts I and II, Giesecke.

VIII. *Drawing*.—Third and Senior Classes; Fall, Winter and Spring Terms, four hours a week.—Instrumental Drawing. Enlarging, tracing and drawing to scale, parts of machines and buildings, designing.

IX. *Lectures*.—Third-Year Class; Spring Term, five hours a week.—Strength of Materials. (Merriman.)

Senior Class; Fall Term, five hours a week.—Estimating and Calculating Quantities.

X. *Electricity and Magnetism*.—Senior Year; Winter and Spring Terms, five hours a week. Text: Jackson.

XI. *Carpentry*.—Second-Year Class; Spring Term, six hours a week.—Dove-tailing, paneling, scarf-joints, framing, cutting rafters and scroll-sawing.

XII. *Forging*.—Short Course.—Second Year; Winter Term, twenty hours a week.—Making horse-shoes, shoeing horses, filing, clipping, and cutting key sects.

XIII. *Forging*.—Second-Year Class; Spring Term, twenty hours a week.—Third-Year Class; Fall Term, six hours a week.—Case hardening, annealing, and brazing.

XIV. *Repairing and Plumbing*.—Throughout the course.

XV. *Forging*.—Third-Year Class; Fall Term, sixteen hours a week.—Making springs, welding, and tempering.

XVI. *Carpentry*.—Second-Year Class; Spring Term, six hours a week.—Third-Year Class; Fall and Winter Terms, six hours a week.—Making door and window frames, swinging sash, building model houses.

XVII. *Elementary Mechanics*.—Second-Year Class; Fall, Winter and Spring Terms, three hours a week.—Lectures. Also Second-Year Class; Spring Term, three hours a week.—Short Course.

FOUR YEARS' COURSE IN MECHANIC ARTS.

FIRST YEAR CLASS.

The object of the *short course* in Mechanic Arts is to train students in the use of tools and to lay a broad foundation for those who wish to become tradesmen. With this end in view the course has been carefully selected and arranged. Our purpose is not only to make men workmen but to make workmen men. Special students in this short course in Mechanic Arts are required to take all subjects in literary course except special work in Teacher's Course.

DEPARTMENT OF SCIENCE.

J. H. CRAWFORD.

P. E. BLEDSOE.

This department renders service to the Normal, Agricultural and Mechanical Departments of the school and gives instruction in the following subjects: Physical Geography, Physiology, Physics, Zoology, Chemistry, Botany, and Geology.

I. *Physical Geography*.—First-Year Class; Fall and Winter Terms, four hours a week.—In this subject the relation between the physical features and the plant and animal life of a locality are kept continually in mind. These topics are given special attention:

1. The earth as a whole: Shape, size; motions of the earth and their effects; latitude, longitude and time.
2. The land: Erosive agents of the soil; plains and plateaus; mountains and volcanoes.
3. The atmosphere: Composition, motion and storms.
4. The sea: Depth and temperature; tides and currents.

Text: Maury.

II. *Physiology*.—First-Year Class; Spring Term, four hours a week.—Under this subject is given a general study of the structure, functions, and care of the human body. Liberal use is made of the human skeleton, models of head, eye, ear, mouth and a section of skin. Special attention is given to hygiene, the organs of respiration, circulation and digestion and the effects of alcoholic beverages and narcotics upon the system. Drawings of tissues, bones and organs showing relative positions are required.

Text: Coleman.

III. *Elementary Physics*.—Second-Year Class; Fall and Winter Terms, four hours a week.—In this course, matter, mechanics, sound, heat radiant energy, magnetism and electricity are studied and experiments made illustrative of the underlying principles.

Text: Avery's "First Lessons in Science."

IV. *Advanced Physics*.—Senior Class; Fall and Winter Terms, four hours a week.—The laboratory work in this course is largely quantitative.

tive. Students are required to make experiments and to solve and form problems illustrative of the same.

1. Theory: Divisions, properties and conditions of matter; motions, force, work and energy; gravitation and gravity; uniform and accelerated velocity; pendulum; simple machines; mechanics of solids, liquids and gases; heat; light; electricity; sound.

2. Laboratory: Careful measurements of lengths, areas, volumes and masses; problems in the mechanics of solids, liquids and gases; study of simple machines; problems in heat, light and sound.

Text: Gage.

V. *Inorganic Chemistry*.—Third-Year Class; Fall and Winter Terms, four hours a week.—The aim of this course is to give the student a knowledge of the chemical properties of the common elements and their compounds and to undertake as much qualitative and quantitative work as may be necessary to illustrate the law of Avogadro and the laws of the definite and multiple proportions. Over one hundred experiments are performed and the results and inferences are recorded in note books. Considerable attention to the practical side of the subject and the composition and manufacture of soap, glass, alloys, fertilizers, etc., are discussed freely and fully.

Text: Williams.

VI. *Zoology*.—Second-Year Class; Spring Term, four hours a week.—This course is elementary; however, considerable attention is paid to the relationship of the different classes of animals and their adaptation to their environment. The life history of some animals is traced, noting the transformations through which they pass in coming to maturity. The student is taught the use of the microscope and a number of lantern slides are used.

Text: Steele.

VII. *Botany*.—Third-Year Class; Spring Term, four hours a week.—The plant is studied as a living body possessed of organs with functions similar to those of animals. The life relations are observed in the laboratory by tracing its development from the seed and studying the functions of root, stem, leaf and flower. Such plants are selected for laboratory study as will best exemplify the phase of the life condition under consideration. A herbarium of the local flora is prepared by each student and some analytical work of at least twenty specimens.

Text: Bergen.

VIII. *Geology*.—Senior Class; Spring Term, four hours a week.—This subject is treated under three divisions:

1. Structural and Dynamical Geology, which gives an account of the origin and nature of the earth's crust; its movements, producing mountains, table lands and valleys, with attendant phenomena of earthquakes, volcanoes, etc., also erosion, transportation and deposit by wind, water and ice.

2. Historic Geology, which treats of the organic life of the various geological periods.

3. Economic Geology, which treats of the soil and climate of a locality and its adaptation to the wants of man.

Text: Le Conte.

DEPARTMENT OF COOKING.

MABEL A. BOHANNON.

Cooking is the art of preparing food for the nourishment of the human body. Within the past few years much interest has been taken in this branch of Domestic Science. The rapid and marked improvement in cooking utensils, valuable research along the line of food economy, the establishment by the government of food experimental stations and the introduction of cooking into the public schools, even in universities, have all helped to bring the matter before the public so that scientific cooking is no longer a mere fad but a demand of the present age.

COURSE I.—*First-Year Class*, three hours a week.

Fall Term. 1. Simple Meats and Vegetable Dishes. Making Pies. Measurements.

2. Fuels. Range. Chimney. Canning and Preserving.
3. Making Soups. Yeast. Plain Breads.

Winter Term.—1. Study of Beef, Mutton, Pork and Venison, with diagrams of cuts.

2. Study of Milk, Butter, Cheese and Fish.
3. Study of Fowls, Eggs, and internal organs of the animals used for food.
4. Plain Confections: Cakes, Pastry.

Spring Term.—1. Composition of the human body.

2. Mineral matter. Impure water and foreign matter.
3. Food principles. Practical lessons on preparing fish, eggs, meat and fruit.
4. Adaptation of food to climate, occupation, etc.

COURSE II.—*Second-Year Class*, four and one-half hours a week.

Fall Term.—1. Study of Desserts, Extracts and Baking Powders.

2. Way in which food supplies the wants of the body.
3. Nutrition, Absorption and Digestion.
4. Making Jellies, Pickles, Marmalades, etc.

Winter Term.—1. Composition of food. Practical lessons in fancy confections.

2. Study of preservation of food condiments.
3. Practical lessons in rolls, fancy desserts, cakes, etc.
4. Study of fungus plants and other vegetables.

Spring Term.—1. Jellies, Salads, Puff Pastry, Practical lessons in Salads, dishes with gelatine fruit, etc.

2. Dietaries. Fermentation. Invalid cooking.
3. Review of work in study of food composition.
4. Plain creams and sherbets.

COURSE III.—*Third-Year Class*, six hours a week.

Fall Term.—1. French terms and cooking. Symbols and chemical terms.

2. Fancy fruits and desserts.
3. Study of obaginous seeds, farinaceous and saccharine preparations.
4. Care of kitchen utensils. Setting tables.

Winter Term.—1. Pastry cooking. Special work in Breads. Pastry, Cakes.

2. Study of alcoholic beverages and non-alcoholic beverages.
3. Review of work of department.
4. Selection, care and arrangement of kitchen furniture.

Spring Term.—1. Special work in breads, pastry and cakes.

2. Complete Inventory.
3. Care of Dining Room.

COURSE IV.—*Senior Class*, six hours a week.

Fall Term.—1. Study of Menus. The usual and average American dinner consists of:

DINNER.		
Soup.		Celery.
	Roast.	
Potatoes.		Tomatoes.
	Salad.	
Crackers.		Cheese.
	Dessert.	
	Coffee.	

This should be served in five courses. Attention must be given to the following points:

1. The care of the dining room before dinner.
2. The setting of the table, side table and sideboard.
3. Preparation of relishes, bread, water, etc.
4. Serving the meats.

Winter and Spring Terms.—Etiquette of serving and carving. An essay of not less than 800 words. All books submitted neatly copied. Correct all first year students' books and papers. Prepare meals and serve to board.

DEPARTMENT OF PEDAGOGY.

JAMES T. HODGES.
MISS E. B. SHIPLEY.

COURSE I. History of Texas (Pennybacker).—This course merely reviews the text and is made to include notes and statistics on the industrial history and growth of the State.

First Year; Fall Term, six times a week.

COURSE II. United States History (Barnes). In addition to a re-

view of the text, special attention is given to the policy of expansion and to the biographical and industrial history of the United States.

First Year; Winter Term, six times a week.

COURSE III. Civics (Young).—This course aims at an intelligent knowledge of the history of our government, the birth, spirit, growth and operation of our constitutional liberties to the end that a strong patriotic sentiment and a worthy citizenship will result.

First Year; Spring Term, six times a week.

COURSE IV. English History (Lancaster).—The aim of this course is to afford a close study of the early English people, their steady growth, their public spirit and institutions and the expansion of their colonial and maritime policies.

Second Year; Fall and Winter Terms, six times a week.

COURSE V. Pedagogy—School Management (White).—This course comprehends plain and practical talks on following subjects: Written and Oral Recitations; Ends and Means of Management; Elements of Governing Power; Conditions of Control; Devices in School; School Grading; Will in Conduct.

Second Year; Spring Term, six times a week.

COURSE VI. General History (Barnes).—In this course time and attention are put upon those ancient and modern nations who have contributed largely to the progress of the world. Special attention is given to those men and great historical movements which have influenced the course of modern progress and made it continuous.

Third Year; Fall and Winter Terms, six times a week.

COURSE VII. Pedagogy (Hewitt).—Recitations and discussions on following subjects: Study of Mental Powers, The Art of Training, The Teacher, The School, The Lessons.

Third Year; Spring Term, six times a week.

COURSE VIII. Psychology (Baldwin).—The following subjects are carefully studied to the end of forming correct mental habits and of becoming qualified, sound instructors of youth: Attention, Instinct, Sensation, Sense, Perception, Memory, Imagination, Conception, Judgment, Reason, Will.

Fourth Year; Fall Term, six times a week.

COURSE IX. Moral Science (Hickok).—The purpose of this course is to find our reasonable duty to ourselves, to others, to our government and to God. Our effort is to find also right rules of conduct and the plain ground for personal duty and responsibility.

Fourth Year; Winter Term, six times a week.

COURSE X. History of Pedagogy (Seeley).—In this course we study the growth of pedagogy, of primary and State education and the great educational movements such as Christianity, The Renaissance, and Protestantism. Special study is given to educators: Erasmus, Montaigne, Luther, Commenius, Rousseau, Pestalozzi, Froebel, Herbert Spencer, Horace Mann, Drs. Parker, Harris, Curry, and Booker T. Washington.

Fourth Year; Spring Term, six times a week.

DEPARTMENT OF SEWING AND MILLINERY.

E. E. HOUSEWORTH.

M. N. CHESNUTT.

PLAIN SEWING.

FIRST YEAR. *Fall Term.*—Basting; overcasting; overhanding; hemming; backstitching; gathering and sherring.

Short lecture on the subjects taught. Practice three hours per week.

Winter Term.—Herring-bone stitching on flannels; French and flat fell, tucking and whipping ruffles, slip and blind stitching. Darning on cashmere.

Short lectures on subjects taught. Practice three hours per week.

Spring Term.—Making buttonholes and eyelets. Names of sewing machines and parts, how to clean, oil and operate the machine, attachments and their uses. Art needle work.

Lecture on cotton goods and their manufacture. Practice three hours per week.

SECOND YEAR. *Fall Term.*—Machine stitching; choice of material, cutting and making plain underwear.

Theory one and one-half hours per week.

Practice three hours per week.

Winter Term.—Taking measures, cutting and making negligee shirts and aprons.

Theory one and one-half hours per week.

Practice three hours per week.

Spring Term.—Taking measures, cutting and making aprons, plain shirt waists and dresses for children and adults. Adapting patterns to tall and short figures.

Theory one and one-half hours per week.

Practice three hours per week.

THIRD YEAR. *Fall Term.*—Theory, measurements and drafting, two and one-half hours per week. Choice of materials, drafting and cutting plain shirt waist and underwear from measurements.

Practice six hours per week.

Winter Term.—Theory, talks on form, drafting and cutting foundation and top skirts from measurements and how to make them.

Practice six hours per week.

Spring Term.—Drafting basques with extra seams for stout figures. Talks on form, talks on colors and textiles, applied to dress. Advanced work in making dresses from different materials.

Practice six hours per week.

FOURTH YEAR. *Fall Term.*—Drafting sleeves and accessories for waists and skirts. How to bone and finish waists. Lecture on shopping, choice of color and material.

Practice three hours per week.

Winter Term.—Designing and Drafting, cutting, fitting and pressing. Talks on the manufacture of cloth. Drafting jackets and capes of different styles. Making various styles of collars and pockets.

Practice three hours per week.

Spring Term.—Drafting garments of different kinds, making and finishing garments of various styles from different material. Lectures on cleaning and renovating garments.

Practice three hours per week.

MILLINERY COURSE.

(For Seniors and Specials.)

Fall Term.—Theory. Instructions in the choice of materials; making wire and buckram shapes of different styles; wiring; folds. Talks on shapes of heads as related to hats.

Practice three and three-quarter hours per week.

Winter Term.—Theory. Making and trimming turbans and toques; full facings, fitted facings, puffed edges; making a variety of bows. Talks on manufacture of felt and straw hats.

Practice three and three-quarter hours per week.

Spring Term.—Talks on the manufacture of crepe and silk. Draping mourning bonnets. Making and trimming spring and summer hats of different styles from light weight materials and straw. Making flowers of ribbon. Talks on the combination of colors and how to freshen straw and ribbon.

YOUNG WOMEN'S DEPARTMENT.

MISS H. F. KIMBRO,

Preceptress, in Charge of Girls' Dormitories.

DISCIPLINE.

We strive to use such discipline as will develop a *high type of womanhood*. Girls are encouraged to do right from *principle*. They are placed on their honor, and *conduct becoming ladies* is insisted upon.

The Preceptress lives with the female pupils and is present to advise and direct them.

Since we believe a knowledge of the details of household economy is essential to the education of every woman, each female pupil is required to spend some time every day in caring for the dormitories.

The *health* of the girls is a subject of constant care, and pupils are taught under direction to care for the ill.

Plainness and *economy* in *dress* are encouraged by precept and example.

We believe experience adds much to proficiency.

Cleanliness of person, apparel, rooms and premises is the rule.

WHAT TO BRING.—Two blankets or quilts; three sheets, each two and three-fourths or three yards long; three pillow cases; one white bed spread; four towels; four table napkins; two yards unbleached domestic for clothes bag; one pair rubber overshoes; one mackintosh rain cloak; one umbrella.

DORMITORIES.

The female pupils are housed in two buildings: one, a three-story brick building of 36 rooms and nine hallways, with a commodious front gallery looking south and extending the entire length of the building; the other a comfortable two-story frame building.

Both buildings are well lighted and ventilated. The rooms are heated by box stoves and there is no extra charge for fuel.

These two buildings afford good accommodations for one hundred and fifty girls.

The class-work in Sewing, Millinery and Cooking is carried on in the Girls' Industrial Building.

In the brick buildings are located the office of the Preceptress, the girls' reading room and the girls' reception room.

YOUNG MEN'S DEPARTMENT.

R. L. ISAACS, Monitor.

DISCIPLINE.

The aim of this department is to teach the male pupils self-respect, self-control and regard for the rights, feelings, and property of others.

The boys are required to keep their rooms neat and clean.

Cleanliness of person, apparel, rooms, and premises is insisted upon.

A special aim is to inculcate a sense of honor; a regard for truthfulness and honesty; an appreciation of duty and personal responsibility, and habits of application and industry.

DORMITORIES.

Foster Hall is a three-story brick building containing 29 rooms and three halls. The second floor of the Kirby Hall contains 10 rooms; the Pickett Hall 16 rooms. These buildings afford fair accommodations for 150 boys.

THE DINING HALL.

H. C. ALDRIDGE, Steward.

J. W. HOFFMAN, Director of Mess Hall.

The pupils and some of the teachers take meals in the school dining hall, which is large, airy, well-lighted and comfortable.

The tables are served at meal times by young men students, who in this way earn a portion of their school expenses.

A high standard of social conduct is aimed at. Pupils are constrained to cultivate a quiet, genteel, refined demeanor. Boisterousness is discouraged, and anything tending toward familiarity or vulgarity in conduct or conversation meets with sharp disapproval.

The director is in charge of the pupils in the dining room.

The corps of boy waiters have the duty of serving the meals, waiting

at tables, and clearing tables, cleaning dishes and setting up tables for the succeeding meal.

The diet is plain and healthful, with considerable variety both of material and preparation. On holidays a special dinner is served.

THE SCHOOL LAUNDRY.

W. P. TERRELL, Superintendent.

A. D. EWELL, Foreman.

The laundry is supplied with steam and equipped with suitable machinery.

There are two large cylindrical washers, one extractor or rotary wringer, clothes starcher, collar and cuff ironer and mangle.

The entire washing, ironing and sorting of the clothes for all the pupils is done in the steam laundry by the girl pupils, assisted by three boys and directed by a foreman.

Pupils thus have the opportunity of learning a useful calling, while doing their own laundering.

DEPARTMENT OF MUSIC.

ISABEL ELLIS.

The Piano course is divided into six grades, and pupils will be advanced as rapidly as their work justifies.

COURSE.

Theory and harmony are compulsory only to those wishing to complete the course. To be a thorough musician one must be able to interpret the best compositions.

The theory course includes elements of acoustics, accent, rhythm and tempo.

STUDIES.

The needs of the individual pupil are consulted, and studies given accordingly. Standard studies such as are used in the leading schools are used.

First Grade.—Kohler, Mathew's and Mason's technic.

Second Grade.—Heller, Czerny, Mathew's and Mason's technic.

Third Grade.—Heller Op. 32. Bach preludes and easy pieces selected from standard composers.

Fourth Grade.—Bach 2-voice inventions and easy sonatas.

Fifth Grade.—Bach 3-voice inventions and Beethoven's sonatas.

Sixth Grade.—Chopin, Bach and Beethoven sonatas and pieces, selected.

GENERAL INFORMATION.

SITUATION AND SURROUNDINGS.

The Prairie View State Normal and Industrial College is located in Southeast Texas, in Waller county, six miles east of Hempstead. The situation is commanding and beautiful. The buildings face a broad prairie on the south, which runs for miles to the southeast. To the west and north lie extensive tracts of timber. Five miles southeast is the growing little town of Waller. The Houston & Texas Central Railway runs in front of the school, a mile distant, making the college easy of access by rail from all parts of the State.

A constant Gulf breeze, which often becomes a strong wind, insures a pure and healthful atmosphere, and the general health of the pupils has been good.

HOW TO REACH PRAIRIE VIEW.

Several days before leaving home, students should inform their nearest railroad ticket agent that Prairie View Station is in Waller county, on the main line of the Houston & Texas Central Railroad, and find out from him the best route to reach it. Find out also on what day and on what train you will arrive, and notify the Principal of the school of your coming.

OPENING DAY.

The twenty-eighth annual session opens Wednesday, September 11, 1907, and every student, if possible, should reach the College on the opening day.

MESS HALL.

All student boarders and all single teachers take their meals at this building in the large dining hall. The aim of the State is to furnish a palatable, healthful diet at actual cost of material and service.

GIRLS' DORMITORIES.

The young ladies of the institution are housed in two dormitories—one a two-story frame building, with a capacity of accommodating forty students; the other a three-story brick building of tasteful architecture, with thirty-six rooms, large, well ventilated and neatly furnished.

YOUNG MEN'S DORMITORIES.

The Kirby Building has been moved to the west part of the campus, and has undergone an extensive and thorough remodeling and repair which has made this one of the most useful and tasteful buildings of the institution. The upper story contains ten bed rooms for senior boys; the lower, seven rooms, four of which are used for the Chemical and Physical Laboratory, and the remaining three by classes in the Agricultural Department.

Hall is a frame building of sixteen rooms for the accommodation of young men.

A three-story brick dormitory, Foster Hall, has been built for order to meet the growing demand for room. This building contains twenty-nine rooms, with good light, ventilation and furnish-

ACADEMIC HALL.

Academic Hall is a stately building—the main central part being three stories in height and containing, above, the chapel, with a gallery, and the principal's office, book store, library and reading room. Two wings of two stories, contain six reception rooms and two commons, used solely by the Board of Directors whenever the business of the school requires their presence at the Institution.

THE SHOP.

The shop of the Mechanical Department is a one-story structure, the main room of brick, containing the wood-working outfit, and additions containing the blacksmithing outfit, engine and boiler, steam laundry, etc.

THE CAMPUS.

The school campus comprises at present fifty acres, in which the above buildings are appropriately situated. Fourteen teachers' cottages are scattered around the campus.

STATE STUDENTS.

Each of the State Senators and State Representatives has the right by legislative enactment to the appointment of a State student at this College. Every appointee must stand an entrance examination in Arithmetic, Percentage, Orthography, English Grammar, and Composition, Texas History and United States History, and any appointee who fails to show a reasonable degree of proficiency in the above branches will be rejected and his place filled by the Senator or Representative appointing.

Every appointee must present, on entrance, satisfactory testimonials of good character. Such State students as show a decided ability, scholarship and aptitude for teaching are recommended by the faculty for reappointment.

Payment of State Students.—Each appointee must pay \$55 for the term of nine months, \$20 on entrance, \$17.50 on December 1st and \$17.50 on March 1st following.

PAYMENT OF DUES.

Dues are payable in advance, and in case of failure to meet payment when required, a pupil may be suspended.

HONORS.

Students who complete the studies of the full course satisfactorily making required averages, will receive a normal diploma. Said diploma has by law the rank of a permanent teacher's certificate and is granted during good behavior.

First Grade Normal Certificates, valid for six years, and Second Grades valid for three years in the public schools of Texas, are granted to those who complete the required subjects and attain the required standing.

In addition to an attendance of at least nine months, and satisfactory class-room work and deportment, students must show a demonstrated ability to teach before the honors of the institution are granted.

The right of a pupil to receive a diploma or a certificate is determined by the Faculty, in full meeting, according to such standards of scholarship, and the mode of recording the same, as may have been previously agreed upon.

LIBRARY AND READING ROOM.

The general library and reading room occupies a space on the second floor of Academic Hall. It contains about 2000 volumes of reference books, history, biography, poetry, and general literature. Most of the books are selected with special reference to the tastes of students and young people—and are classified according to the latest methods. The books are all catalogued on cards, and drawn by all pupils without cost.

The reading room receives regularly some of the leading newspapers and periodicals, and is open seven hours on each week day, two hours on Sunday and three hours on holidays. A reading room for girls with equal accommodations is located in their brick dormitory.

RELIGIOUS OBSERVANCES.

On Sunday morning at 10:30 Sunday School is regularly held, followed by a review of the lesson by the Superintendent. Two voluntary Christian societies are maintained by students assisted by teachers, the King's Daughters for girls and the Young Men's Christian Association for the young men. The Young Men's Christian Association is organized and holds two meetings each Sunday; one for Bible study as outlined as by the International Committee, and another where different religious and moral subjects are discussed.

LITERARY SOCIETIES.

At present there are four literary societies organized and managed by the students—The Excelsior, Wheatley, Douglass and Pansy. There are two for the young men and two for the young women. These societies are entirely separate in work, time and place of meeting. The work is done in private meetings. Each society is permitted to give a program once during the year.

RHETORICALS.

The fifth and sixth periods of every other Monday in the school year are given to rhetoricals. The whole student body is divided into groups and one group is assigned to a teacher. Two hours of the first Friday night in each month of school are given to a public program composed of pieces rehearsed during the month and the pupils rendering them. Pupils are held accountable in the proficiency of this work, which has been given a relative weight in our system of grading.

SOME GENERAL REGULATIONS.

1. The discipline of the school aims to lead its students to self-control, and to prepare them for the successful discharge of the practical duties of everyday life and citizenship, as well as for the special duties of school, farm, shop and home.

2. Promptness to all school duties is exacted. Neatness and cleanliness is a rule of the institution.

3. Students are impressed that intelligent labor is dignified and necessary to all individual or social development.

4. No student need to come to Prairie View with the idea that it is a place to get a certificate to teach, with little real effort. Thorough, conscientious work must be done to merit any honor from the institution.

5. No student can leave the grounds at any time, or omit any school duty, unless by written consent from the Principal.

6. The use of tobacco, and of all narcotic or alcoholic stimulants, is forbidden as being a hindrance to the process of education.

7. Students whose conduct raises doubt or suspicion of their character and motives, may be requested to withdraw from the institution.

8. True politeness is the rule of social conduct, and rudeness in speech or manner, ill temper, noisy, boisterous behavior, disputes and quarrels, are forbidden.

9. Extravagance and showiness in dress are not approved of by the Faculty. A neat, plain attire, and a modest, self-respecting demeanor, are expected of each student. Young ladies who graduate are required to wear a uniform designated by the Faculty.

10. Pay students are required to settle their dues in advance for the month, and students who fall behind ten days in the payment of their dues shall receive a notice, giving them ten days more to settle; and at the expiration of the time, if settlement is not made, such student shall be sent home.

11. All students are required to improve their advantages to a reasonable degree and according to their ability, and when it becomes apparent that a pupil's time is not profitably employed he will be requested to withdraw.

12. All female students are required to purchase at the institution and wear a prescribed uniform, the cost of which shall not exceed \$5. All male students must purchase at the institution a work suit to be worn when engaged in industrial practice. Cost not to exceed \$3.50.

CONCLUSION.

In preparing this catalogue, an attempt has been made to give the information necessary to those who think of attending school here. The course of study, entrance requirements, text-books, cost of board, and other matters of equal importance, are fully stated. However, if after carefully reading its contents the reader should desire further information concerning the school, a letter of inquiry addressed to the Principal will receive prompt attention.

Committee on Scholarship Fund:	} R. L. ISAACS, T. T. THOMPSON, L. A. NASH.

SPECIMEN ENTRANCE EXAMINATION QUESTIONS.

ADMISSION EXAMINATION, FIRST WEAR.

UNITED STATES HISTORY.

1. Name and locate the first four permanent settlements made by Europeans in North America.
2. Tell the story of John Smith. Who was Pocahontas? Who King Phillip? Who William Penn? Who Roger Williams?
3. Who settled Pennsylvania, Massachusetts, New York, Texas?
4. What became of the French and Spanish possessions in the new world?
5. What did Franklin, Washington, Jefferson do? Who were the Tories?
6. What was the Missouri Compromise? The Dred Scott Decision? What the Monroe Doctrine?
7. What were the armies fighting about at Quebec, at Yorktown, at Gettysburg? How were the questions settled?

GEOGRAPHY.

1. Define meridian, tropic and zone. Locate and define the prime meridian.
2. Name the coast forms of land and water. Locate three of each.
3. What is the difference in the heating of land and water, and why? Give resulting effect upon climate.
4. In what part of the world is wheat grown? Corn? Rice?
5. Name the form of government and three colonial possessions of each: Russia, United States, Great Britain.
6. How long is the steamship route from New York to Manila by way of Suez Canal, and what are the intermediate ports?
7. How do you go from St. Petersburg to Odessa by water?
8. Locate high and low Europe. Give the natural divisions of the surface of North America.

ARITHMETIC.

1. In three weeks a man ploughed a field; the first week he ploughed $\frac{3}{4}$ of it, the second week $\frac{1}{4}$ of it; what part of the field did he plough the third week?
2. If $3\frac{1}{2}$ cords of wood can be bought for twice as many dollars, how many can be bought for \$31.50?
3. $2\frac{3}{4} \times 3.75$ equals what? Solve by fractions.
4. What is the product of 18-9 and its reciprocal?
5. Three persons bought 18 tons of coal and divided it so that the first had $\frac{3}{7}$ of it; the second $\frac{5}{12}$, and the third the remainder. How many tons did the third man get?
6. A Mexican dollar is worth \$13-20; how many Mexican dollars must be given in exchange for three cows valued at \$72.50?
7. One-third and $\frac{1}{4}$ of a yard is what fraction of a mile?
8. Add to $3\frac{1}{2}$ lbs., $8\frac{3}{4}$ oz. and 2.55 dwt.

ENGLISH GRAMMAR.

1. Explain the difference between a thought and a sentence.
2. Define and illustrate a Simple sentence, a Complex sentence, a Compound sentence.
3. Analyze this sentence: "Whatsoever ye would that men should do to you, do ye even so to them."
4. Illustrate three different uses of the infinite.
5. Explain and illustrate the difference between a noun clause and an adjective clause; between a clause of reason and one of cause.
6. Write a brief essay upon this subject: The Uses of the Eyes.

SAMPLE EXAMINATION FOR SECOND YEAR.

UNITED STATES HISTORY.

1. Indicate the parts of America claimed originally by each of the European nations. Why were they so claimed?
2. State the motive and causes of each charter change in the Virginia Colony. Tell of the Bacon and Clayborne rebellions.
3. Show difference in causes and results between King William's War and the French and Indian War.
4. What questions growing out of the French and Indian War helped to bring on the Revolutionary War? Show how.
5. Name three difficulties that stood in the way of the treaty of peace at the close of the Revolutionary War. How?
6. Locate and tell how and when the United States made each addition to its territory since 1800.
7. Why is foreign immigration encouraged by the United States? What restrictions and what prohibitions are put upon it?
8. What is the Monroe Doctrine? What called it forth? On what occasions has it been applied?

ARITHMETIC.

1. A bought a sack of sugar weighing 150 lbs. at $5\frac{1}{2}$ c. a pound; B made 10 purchases of 15 pounds each at 6c. a pound: Who made the better deal and what per cent did he save?
2. A man drew out of the bank three-fifths of his money, and expended 30 per cent of 50 per cent of this for 728 bushels of wheat at \$1.12 $\frac{1}{2}$ a bushel: Find amount left in the bank.
3. For what sum must a note payable in 60 days be drawn to produce \$493, when discount is at 8 per cent?
4. A note of \$650, dated March 2, 1869, and payable April 1, 1870, was discounted February 3, 1870: What were the proceeds?
5. Find the square root of $\frac{3}{4}$ to four decimal places; of $9\frac{1}{2}$ ten-thousandths.
6. A horse is tied to a stake with a rope 30 feet long: Find area of the flat of land on which he feeds.

ALGEBRA.

1. Divide $a^4 - 81b^4$ by $a - 3b$.
2. Change to a mixed or integral expression: (a) $\frac{x^2 - 2x + 1}{x - 1}$;
(b) $\frac{x^2 - 2x + 1}{x + 1}$; (c) $\frac{16(7x^2 + 1)}{4x - 4}$
3. $\frac{m^2 - n^2}{(c + d)^2} \div \frac{m - n}{c + d}$ equals what?
4. Simplify: (a) $1 - \frac{1}{1 + \frac{1}{x}}$; (b) $\frac{11a^2 - 22ax}{33(a^2 - 4x^2)}$

5. A house and garden cost \$850; five times the price of the house was equal to twelve times the price of the garden: Find the price of each.
6. How many 10-cent pieces and how many 25-cent pieces must be taken so that 70 pieces shall make \$10?
