Academic Achievement Week April 16-22

The week of April 16 through 22 has been designated "Academic Achievement Week" by PVA&M President A. I. Thomas.

The major activities of the week will include the Annual Honors Convocation scheduled Thursday,

April 20 and The President's Banquet for honor students Thursday Evening. The convocation speaker is Dr. Herman Branson, President of Lincoln University (Pa.)

of Pennsylvania, Texas

Prairie View students whose names were listed on The First Semester Honor Roll will be the guest of honor during both events on Thursday. The entire faculty will participate along with honor stu-

dents in the colorful professional.

President Thomas has called on all departments of the College to participate in various ways in highlighting the importance of academic scholarship. The purposes of the

week were listed as follows:

(1) To maintain the absolute focus on "Scholarship" established at the opening of the 1971-72 school year.

(2) To recognize those students who earned a place on the honor roll for the first semester.

(3) To encourage the faculty and students to join in an effort to characterize Prairie View as a "Community of Scholars."

(4) To encourage all students to concentrate their efforts on achieving the highest possible academic average during the 1971-72 school year.

(5) To establish scholarship as a "way of life" at Prairie View A. and M. College.

Honors Convocation Speaker — Dr. Herman Branson, Lincoln University (Pa.) President, will keynote Academic Achievement Week.

ROTC Field Day Saturday

Prairie View A&M College's Army Reserve Officer's Training Corps (ROTC) invites the public

MISS ROTC — Barbara Parker of Dekalb, Texas.

to observe its 28th Annual ROTC High School Field Day, April 15, 1972, on the west parking area of the Memorial Student Center at Prairie View.

High schools throughout Texas have been invited to compete for awards in individual and unit drill as well as for trophies for the rapid reassembly of the scrambled parts of an M-14 Rifle, (weapons scramble).

The following Houston high schools are slated to attend: Jones, Sharpstown, Yates, Worthing, Houston Tech, Lamar and Reagan. Visitors will thrill to the click of boots and the cadence of bodies in precision marching which starts at 9:30 a.m. At 10 a.m. they will be amazed at the speedy reassembly of weapon parts.

Beginning at 1:30 free

fall parachuting by the finest jumpers in the world: the Golden Knights of the U. S. Army parachute team will be on display in the air and on the field south of the Memorial Student Center. The Knights will plummet through the air at 120 miles per hour, pop their parachutes and demonstrate their championship free fall skills and precision parachuting accuracy.

The Golden Knights are the Army's official demonstration unit as well as some of the finest competitive jumpers in the world. They have also done extensive research and development work in new parachuting techniques and equipment for the nation's airborne forces, space program and other government agencies. Admission is free. BE SURE TO BE THERE.

EPSILON PI TAU QUEEN — Miss Sherry Shivers is pictured accepting Sweetheart trophy during recent banquet. I. E. Dean S. R. Collins is seated at right.

I. I. E. Representative Visits Prairie View

Miss Lucy Keller, program specialist for the Institute of International Education for the Houston regional office, recently visited the office of Dr. C. Edward Tatum, Foreign Student Advisor, in consultation with the Dean of the School of Arts & Sciences and President A. I. Thomas.

Miss Keller gave advice and suggestions concerning the foreign students and faculty from foreign lands at Prairie View. She commended this institution for its great role in international programs, further helping to cement human relations in a perplexed and troubled world.

Youth Leadership Conference Set

The Annual Youth Leadership Conference will be held on campus April 22, Reverend W. Van Johnson, Director of Student Activities, announced.

Designed for developing leadership among high school youth, the conference will focus attention on the problems of drugs.

Parent's Day Scheduled

The Third Annual Parent's Day will be observed at Prairie View A&M on April 30.

According to Reverend W. Van Johnson, Director of Student Activities, and Mrs. Delia M. Hunt, Coordinator of Parent's Day, programs will be held in the Field House beginning at 8:30 a.m. Parents will tour campus facilities during the afternoon, and a closing reception is scheduled at the President's campus residence.

Admiral Gravelly scheduled to deliver message at Commencement Exercises.

PV Awarded Grant for Summer Geography Institute

Prairie View A&M College has been awarded a federal grant to sponsor a special workshop for 30 geography and social studies teachers from secondary schools Summer 1972, according to Dr. W. W. Clem, Dean, School of Arts and Sciences.

The workshop will run from June 12-23, 1972. The theme: Workshop On Teaching Strategies: Performance Based Teaching and Environmental Perception.

Real teaching situations will be discussed and the participants will develop strategies, methods, and materials evolving from the geographic themes under study. Materials from the High School Geography Project, and other earth science and social science curriculum studies will be used in conjunction with materials developed by the Commission on College Geography. Field problems and field experience will be integral parts of

all the activities. The workshop is intended to upgrade the teaching of social studies in secondary schools. Participants will pay their own transportation, room and board. They will receive a stipend of \$100 per week.

The instructors will be Dr. Donald R. Deskins, Professor of Geography, University of Michigan; Mr. Joe Copes, graduate student in geography, University Clark, Worcester, Massachusetts; and Dr. C. Edward Tatum. Visiting consultants will be Dr. Phillip Bacon, Professor of Geography, University of Houston; Dr. William Dooley, and Dr. Dean R. Hodwon, Professor of Geography, Stephen F. Austin State University.

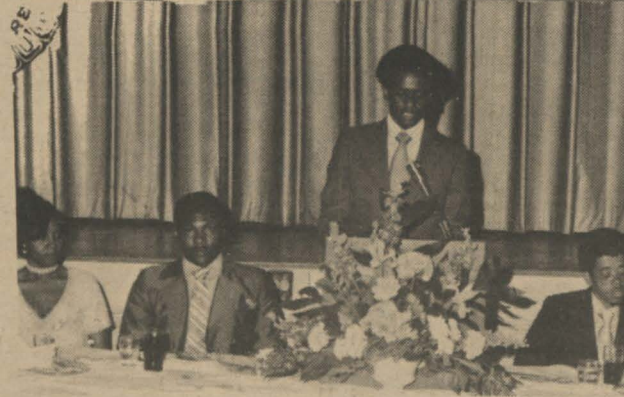

All interested persons should consult the Chairman, Department of Geography and Economics, Prairie View A&M College, Prairie View, Texas 77445.

Collegiate FFA Holds Annual Spring Banquet

The Collegiate FFA Chapter at Prairie View A&M College held its annual banquet March 17, 1972 in the Memorial Student Center. The banquet was attended by some one hundred members and

SCENES FROM THE FFA SPRING BANQUET

guests. The banquet was dedicated to Mr. J. R. Powell, who for twenty-one years has contributed his time and effort toward furthering the interest of Agriculture at Prairie View A&M College. Mr. Powell will be retiring at the close of the Spring semester 1972.

The master of ceremonies for the banquet was Raymond Polk. Other program participants were Larry Hickman invocation, James Brown welcome, Horace Garvie introduction of guests, William Blakemore introduction of speaker, Dean J. C. Williams presentation of faculty awards, Don Moten presentation of student awards, Don Reese presentation of sweethearts, and Mr. Oliver Smith presentation of distinguished service award.

The guest speaker for the banquet was Dr. E. M. Norris, former head of the Agricultural Education Department, Prairie View A&M College. Dr. Don Knotts serves as adviser to the Collegiate FFA Chapter.

On the left are action shots of some of the activities of the Annual Spring Banquet of the Collegiate FFA Chapter.

1. Horace Garvie introduces special guest.

2. Raymond Polk makes special presentation to Chandra Bell.

3. Dean J. C. Williams presents Mr. Weather- spoon with faculty award. Other faculty members receiving awards were Mr. E. J. Johnson, Dr. A. N. Poindexter, an Dr. Don Knotts.

4. Aggie Sweethearts — Chapter sweethearts pictured are from left to right ATA sweetheart Gloria Anderson, FFA sweethearts Doris Reed and Guenita Tucker.

5. Dr. E. M. Norris, former head of the Department of Agricultural Education at Prairie View was the guest speaker at the banquet.

Junior College Counseling Program To Continue

The Institute to Train Veterans for Junior College Counseling at PV A&M has received a \$236,000 grant from the U. S. Department of Health, Education and Welfare, under provisions of Title V Part E of the Education Professions Development Act. This grant will enable the Institute to continue its operation for the third consecutive year.

All college fees are paid by the Institute and each veteran is granted stipends for living expenses for himself and his dependents.

This unique one-year program for veterans leads to a master's degree in Guidance and Counseling. Completion of course work and field assignment require two semesters and a summer term. Some 20 students are graduated each year by the Institute.

As part of his training, each student in the Institute works two weeks in each of the following units of the College: the student residence halls, the student center, and the offices of admissions, registrar, dean of men, financial aid, career planning and placement. The work experience gives meaning to the class and prepares the student for field placement in one of ten — out of forty — cooperating junior and community colleges in the state of Texas.

The program, originally established by Dr. George Stafford, Director of Admissions, is now under the direction of Professor Waymon Webster.

The Charles Gilpin Players will be doing Ed

DUPONT VISITORS — President A. I. Thomas presents plaque to Mr. Burt C. Pratt, representative of the E. I. DuPont DeNemours and Company for outstanding service to the College. Also representing DuPont was Mr. R. N. Noisette (left). Engineering dean and staff members helped entertain the visitors.

Group to Appeal Higher Court PV Students Lose in Their Bid for Local Voting Rights

U. S. District Judge James Noel says Waller County Tax Assessor-Collector Leroy E. Symm did not violate state law by refusing to register five students to vote in the county.

Noel said in his decision Wednesday the state is entitled to assume that students are transients in their university communities if a reasonable opportunity is given to show the contrary.

The students contended Symm violated their right to vote in the county by requiring them to complete a questionnaire as a

condition of being considered for registration.

Symm said he required the questionnaire to provide a basis for applying for enforcing the general residency statute.

Symm said he based his decision on the student's relationship to the community. He said he would not hesitate to register students who had parents living in the county, who were married and living with their spouses in the county, who owned real estate in the county or had a firm offer of employment in the county upon graduation.

"Symm declined to register plaintiffs to vote after reaching a good-faith determination that plaintiffs were not residents of Waller County within contemplation of the state residency statute," Noel said.

PV Received Over \$4 Million In Federal Grants This Year

Prairie View A&M has received more than four million in Federal grants so far this 1971-72 fiscal year. The announcement was made last Tuesday, March 7, at the monthly faculty-staff meeting by Dr. Ivory V. Nelson, vice president for Research and Special Projects. Dr. Nelson listed fifteen programs which have been funded by the National Science Foundation, the U. S. Department of Agriculture and the U. S. Department of Health, Education and Welfare, both directly and through the Texas Education Agency.

These grants will enable the college to originate or continue various programs dealing with instructional

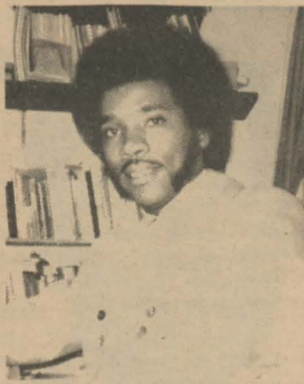

equipment; student loans, scholarship, work study, educational opportunity; science; vocational education; manpower development training; construction of greenhouse and farm shop; driver and traffic advanced study; veterans institute; teacher development for desegregation of schools; agricultural extension and agricultural research.

"Applications for more than three million are still pending," Dr. Nelson also said. "They relate to thirty-two new and current programs of interest not only to PVC but also to the surrounding communities. Additional announcements will be made as soon as they are approved."

PREMEDICAL SOCIETY VISITS SAN ANTONIO MEDICAL SCHOOL — A few members of the Premedical Society were entertained by Assoc. Dean Fred Taylor, M. D. (in white coat), Dean of

the Dental School, and the Coordinator of the School of Medical Technology at the University of Texas Medical School, San Antonio, Texas.

Vinson Burton, Jr.

Walter C. Farrell

Geographers Visit; Give PV Lectures

Mr. Vinson Burton, Jr., a Ph.D. candidate in geography at the University of California in Los Angeles, recently visited Prairie View's Dept. of Geography and Economics; where he presented a profound and informative lecture to the World Geography class for inservice teachers held on Tuesday evening.

Mr. Burton presented a discussion on his dissertation entitled, "The effects of Faulting Upon Slope and Drainage Characteristics Along the San Gabriel Fault Zone." He received the B.A. degree with first class honors from North Carolina Central University, the M.A. degree in Geography from Michigan State University.

The Department of Geography and Economics was host to Mr. Walter C. Farrell, who addressed a large enthusiastic group of students and faculty on "Harlem"; Geographic Mecca for Black Cultural Pride and Unity 1900-1930. Mr. Farrell, native to Raleigh, North Carolina is presently a Ph.D. candidate in Geography and one of the few Black Scholars to receive the Experienced Teacher Fellowship of the Association of American Geographers.

Pharmacy Professor Presents Seminar To Biology Majors

Dr. Robert L. Boblitt, Professor of Medicinal Chemistry and Assistant to the Dean of Pharmacy at the University of Houston presented a twenty minute film on pharmacy education and opportunities to the Biology Majors.

The number and type of questions asked Dr. Boblitt indicated a sincere interest in the proposed pre-pharmacy curriculum that is to be submitted for approval in the near future.

Club Crescendo Showcase Coming Soon!

After putting on a successful PRE-SHOWCASE BENEFIT for the PANTHER TRACK TEAM March 15, THE "CRES" must now begin preparation for the 20th ANNUAL CRESCENDO SHOWCASE which is tentatively scheduled for APRIL 25 in the OLD GYM. A Grand TOTAL of \$265 - - - was raised through the BENEFIT DANCE AND SHOW this past month all of which was donated exclusively to THE PANTHER TRACK TEAM, while we "CRES" settled simply for the satisfaction of knowing that we had made a generous contribution towards a worthwhile goal.

Throughout past years, "CLUB CRESCENDO" has been a subject of adversity and criticism. Most of this criticism stems mainly from the fact that CLUB CRESCENDO is not a GREEK ORGANIZATION, as it seems the common concept of society on the matter is that, it an organization isn't Greek it's existence isn't a meaningful one. On the contrary, CRESCENDO is an organization with a purpose, a very definite purpose. We of CRESCENDO do not simply strive for the prestige that being a GREEK seems to instill within the minds of many.

First of all, we are BLACK PEOPLE, we were born BLACK and we will die BLACK, in view of this the most obvious thing would be to unite in the name of BLACKNESS and not GREEKNESS.

Departments Work On Career Day For Sophomores

Mr. John Patterson, Assistant Professor of Business has arranged "Career Seminar-Majors Day for Sophomores" for the Business Department.

Mr. Patterson has engaged speakers from industry, the faculty and various students who will participate in a dialogue with the various speakers.

The seminar will take place, Wednesday, April 12, 1972 from 1:00 to 4:30 in Auditorium of Harrington Science Building.

There will be two free door prizes, Mr. Patterson promised: an Aretha Franklin album and a new accounting text book for the two lucky winners.

Advance Course Ball at Rice

The Advanced Course, Army ROTC and their guests will dance to the music of Prairie View's own stage band on Friday, April 14th in the Rice Hotel's Best Ballroom. The Advanced Course ball, whose theme is "We've Only Just Begun" will feature the coronation of Miss ROTC and the Battalion Queens for the next school year as well as Cadet Cornelius Easter's fabulous singing talents.

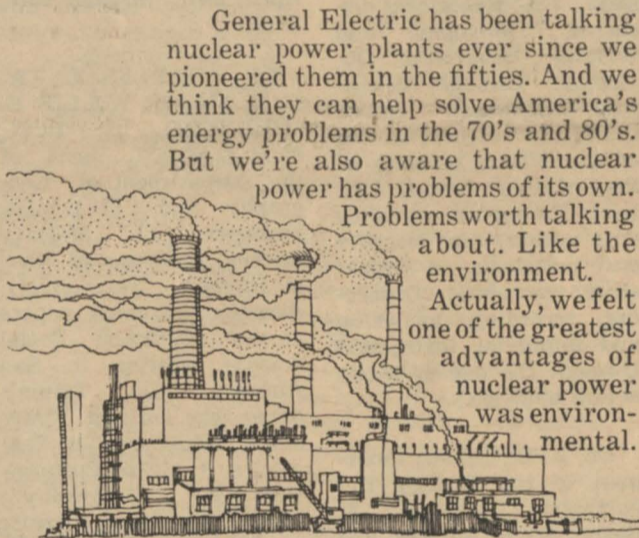

Secondly, our purpose, as I said before is a very definite one, CRESCENDO is an organization comprised of talent, essentially musical talent, but it doesn't stop there. CRESCENDO boasts of some of the CAMPUS' best artists, poets, designers, athletes, and students in general and if I may quote myself from a past edition of the Prairie View Panther, "through his talents man has his most natural way of expressing himself. As an oil refinery is to oil so is CRESCENDOS to the BLACK man and his God-Given talents." So you see, as Crescendos and keeping the preceding item in mind, being the underdog in a "Greek Society" really isn't that bad."

Miss Prairie View Pageant Set for April 26

EIGHT OF ESTIMATED 13 CONTESTANTS PICTURED ABOVE — Top: Betty Bell, Sandra Bell, Beverly Brown, Bernadine English. Below: Sandra Hainsworth, Carol Johnson, Sandra Roberts and Francis White.

Why doesn't General Electric talk about thermal pollution when they talk about nuclear power plants?

General Electric has been talking nuclear power plants ever since we pioneered them in the fifties. And we think they can help solve America's energy problems in the 70's and 80's. But we're also aware that nuclear power has problems of its own.

Problems worth talking about. Like the environment. Actually, we felt one of the greatest advantages of nuclear power was environmental.

Unlike fossil-fueled power plants, there is no smoke to pollute the air.

But like fossil-fueled plants, there is warmed water released to surrounding waterways.

Cooling it. We recognize thermal pollution as a serious problem. And GE and America's utilities are working on thermal problems at nuclear sites on a plant-by-plant basis.

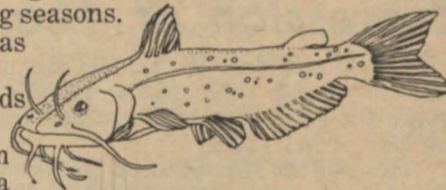

Many people don't realize, for example, that utilities are required by federal law to design and operate their plants within temperature limits prescribed by the states.

So utilities are spending millions of dollars on dilution control systems, cooling ponds and cooling towers to comply.

But, in addition, utilities are sponsoring basic research on heat exchange and its ef-

fect on aquatic life. More than 97 utilities have been financially involved in over 300 such studies.

Good effects? It's been found, in some cases, adding heat to water can actually be beneficial. Warm irrigation water has extended growing seasons. Warm water has created new wintering ponds along water-fowl migration routes. Florida is using it to grow shrimp and lobster. In Texas, it's increasing the weight of commercial catfish by as much as 500%.

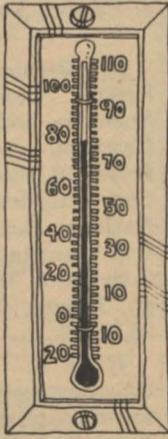

Work to be done. Listing these benefits is not to beg the issue. Thermal effects remain a tough problem to solve at many sites. Each plant must be considered individually, in its own environment, and this is being done.

General Electric, the utilities and environmentalists will continue to work hard. Because we think the advantages of nuclear power far outweigh the disadvantages.

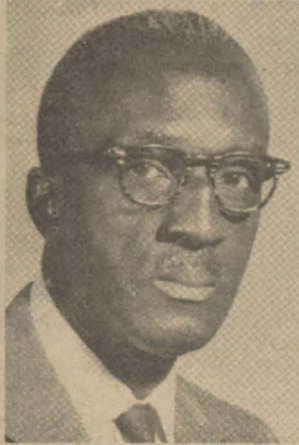

Why are we running this ad? It's one ad of a series on the problems of man and his environment today. And the ways technology is helping to solve them.

The problems of our environment (not just nuclear power problems) concern us because they will affect the future of this country and this planet. We have a stake in that future. As businessmen. And, simply, as people.

If you are concerned too, we'd like to hear from you. Write General Electric, Dept. 901-CN, 570 Lexington Avenue, New York, N. Y. 10022.

GENERAL ELECTRIC

Collegiate FFA Chapter Honors J. R. Powell

The Collegiate Future Farmers of America Chapter of Prairie View A&M College dedicated the 1972 FFA banquet to Mr. J. R. Powell who for twenty-one years has contributed his time and effort toward furthering the interest of Agricultural Education and the School of Agriculture here at Prairie View A&M. The ceremonies were conducted on March 17, 1972 in the Memorial Center Ballroom at 8:00 p.m. Mr. Powell plans to retire at the end of the present school year.

Economic Scientist Visits, Lectures

Faculty-Staff News

DRS. W. W. CLEM, J. W. ECHOLS, J. E. JOHNSON, and MR. BILL ORMAN, dean of the School of Arts and Sciences, dean of the Graduate School, director of Teacher Education and director of the Performance-Based Teaching Program, respectively, attended the Annual Conferences of the American Association of Colleges for Teacher Education (AACTE), held February 23-25, 1972 at the Conrad Hilton Hotel in Chicago.

DR. W. W. CLEM, dean of the School of Arts and Sciences, will attend a National Conference on Higher Education sponsored by the American Association of Higher Education, March 5-8 in Chicago, Illinois. One of the highlights of the meeting will be a discussion on "The Philosophical Justifications for Black Colleges in a Multiracial Society." Also, there will be a caucus of representatives of black colleges to study common problems and seek satisfactory solutions.

DR. H. G. HENDRICKS, professor of Education, conducted two workshops during the month of February. At the first workshop, Dr. Hendricks discussed "Developing and Writing Behavioral Objectives Through Taxonomic Analysis," before thirty-five teachers in the administration building of Port Arthur School District. The second workshop with seventy-nine teachers and principals, in Brookshire, was about "Observing, recording, analyzing and improving instruction through the use of interaction analysis."

Dr. L. C. Collins, chairman of the Biology Department; Drs. J. E. Berry, B. K. Chopra and R. D. Humphrey, faculty members in the Biology Department, recently attended a course for college science teachers in Austin. These courses are sponsored by the American Association for the Advancement of Science and funded by the National Science Foundation.

Dr. Bernice B. Rollins, Head, Department of Business, and Mrs. D. W. Hawkins, Assistant Professor of Business Education, attended the Annual National Business Education Association (NBEA) Convention held in Chicago, Illinois, February 23-25, 1972.

While in Chicago, Mrs. Hawkins also attended several sessions of the Teacher Education Association (TEA) Convention, which was held at the Conrad-Hilton Hotel. The theme for the sessions was: Understanding the Student Who "Cops Out."

Enrollment Opened in Staff Group Insurance Program

Members of the college faculty and staff heard the Texas A&M System Director of Insurance and Safety discuss open enrollment of insurance plans at this week's monthly staff meeting.

Also present and contributing to the discussion and answering questions were representatives of the various carriers of Optimal Life, Accidental Death and Dismemberment, Long Term Disability Income, and Hospitalization Group programs.

The opportunity to enroll is made available to all eligible employees and their dependents who have not previously enrolled in the optional insurance programs. It is also an opportunity for present participants to increase their amount of coverage under the Accidental Death and Dismemberment program and for insureds enrolled in Hospitalization Plan I to change to Hospitalization Plan II.

Eligible employees desiring coverage in the Op-

tional Life, Long Term Disability Income, and Hospitalization coverage will be required to submit evidence of insurability prior to being approved for coverage under any of these three programs. Any costs involved in providing a physical examination, if required as evidence of insurability, will be the responsibility of the employee.

The effective date of the insurance coverage (s) will be September 1, 1972, or when written approval has been received from the company(s) if later. All enrollment applications and medical forms must be completed and received in the Payroll Services office by May 1, 1972.

Prairie View: What's New

Prairie View has received more than four million in Federal grants so far the 1971-72 fiscal year. The announcement was made by Dr. Ivory V. Nelson, vice president for Research and Special Projects. These grants will enable Prairie View to originate or continue various programs dealing with instructional equipment; student loan, scholarship, work study, educational opportunity; science; vocational education; manpower development training; construction of greenhouse and farm shop; driver and traffic advanced study; veterans institute; teacher development for desegregation of schools; agricultural extension and agricultural research.

The Institute to Train Veterans for Junior College Counseling has received a \$236,000 grant from the U. S. Department of Health, Education and Welfare. This grant will enable the Institute to continue its operation for the third consecutive year.

Prairie View has received a \$248,833.00 grant from the U. S. Office of Education to continue its program to retain teachers displaced because of desegregation of schools.

The Prairie View Performance-Based Teacher Center Consortium has received a new \$18,600 grant to install in-service teacher training in nine Consortium school districts, involving 149 teachers.

A tentative schedule of Prairie View's 1972 summer session is now available. According to the Office of the Registrar, there will be two six weeks sessions - June 5th through July 15 and July 17th through August 26th -

and a three week session - July 17 through August 4th - which is being offered as an alternate to the second session. Both graduate and undergraduate courses will be offered. Persons interested may contact the College's Admission Office.

The Houston Clinical Center of Prairie View's School of Nursing will have new facilities in a multi-million dollar medical center Baylor College of Medicine and Texas A & M University will erect.

Seven Law Enforcement specialists were on the Prairie View campus recently, and discussed with the administration the possibility of offering a bachelor's degree in Law Enforcement, beginning next fall.

Prairie View Alumni and Parents of Prairie View students are now receiving a new campus publication entitled ACTION. The monthly publication spotlights various education programs, expansion programs and other campus actions.

Scholarship Aid For Students In Newspaper Work

May 1st is the deadline for aspiring young Southern newspapermen and women to submit applications for Ralph McGill Scholarships.

The Ralph McGill Scholarship Fund offers scholarships of up to \$1,500 each to students who have completed at least two years of college, and who have demonstrated an abiding interest in the news and editorial phase of newspapering. Jack Tarver, Chairman of the

Business Students To Hear Alumna Talk On Insurance

Miss Georgia B. Terry, a graduate of Prairie View A. and M. College, who is currently a Carrier Agent with American General Life Insurance Company, Houston, Texas, one of the largest in the United States, has agreed to speak to interested Business Administration and Education students at 11:30 a.m. Tuesday, April 18, in Room 105, Old Science Building.

A very modest person, Miss Terry is the recipient of several honors since joining the firm. She recently completed a prepaid trip to study Sales Production at Louisiana State University and is currently studying in a Life Underwriters' Training Course, in preparation for successfully making the esteemed title of CLU (Charter Life Underwriter).

Interested students in all areas of the college are invited to hear Miss Terry explain exactly how to become successful in the Insurance field.

fund's Advisory Committee, said scholarships are limited primarily to those young men and women whose roots lie in the South. Applicants must also convince the Awards Committee that they firmly intend to pursue a career in daily or weekly newspapering. Tarver said the Awards Committee wants to give scholarships to those who are likely to become leaders in the newspaper field.

Successful applicants will be required to maintain a "B" average in order to keep the scholarship. A letter of not more than 500 words telling why the applicant wants a scholarship, together with a photograph of the applicant, must accompany each application. Applicants also must have a letter of recommendation from a college authority.

Application blanks may be obtained from: The Ralph McGill Scholarship Fund; Box 4689; Atlanta, Georgia 30302.

DELTA ON THE MOVE — The local undergraduate and graduate chapters of Delta Sigma Theta Sorority are pictured above following the special Chapel Services sponsored by the groups. Deltas also sponsored other activities recently including a regularly monthly Immunization Clinic.

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

You're paying for many more - - and vastly more important - - gifts than those you put under the Christmas tree last year.

You paid out hard-earned tax dollars to buy the gift of good health for yourself, your family and all other Texans.

Your gift budget this year included \$9.5 million to buy and equip 20 health care facilities - hospitals, nursing homes, rehabilitation centers, and outpatient facilities for those areas of Texas with the greatest need. The gift included 258 modern hospital beds and 198 modern nursing home beds, as well as 30 rehabilitation beds.

Over the past 25 years your gift budget has purchased nearly 30,500 hos-

pital beds. Your shopping counselor was the Health Facilities Construction Section of the State Health Department.

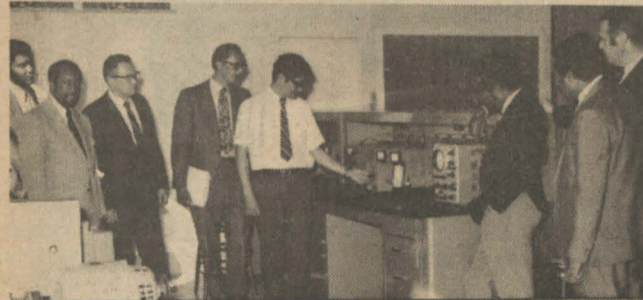

To give the gift of safe drinking water, you paid for some 210,000 water analyses for bacteriological quality by State Health Department laboratories. Appraisals of plans for over 500 water-related projects were conducted this year, covering both new facilities and improvements to existing systems. More than 90 percent of the Texas population is now served by approved water supplies.

You and other Texans have invested over \$100 million in rural water supplies serving almost

100,000 rural families. Your gift consultants in this instance were State Health Department engineers.

To help prevent pollution from entering Texas streams, plans and specifications for 384 new facilities and expansions of existing sewage treatment plants were reviewed, and 139 engineering reports concerning existing facilities were also reviewed. You paid the bill. The consultants for this work were also State Health Department engineers.

To upgrade the quality of air we breathe, Texas industry spent millions of dollars during 1970. Other millions are being earmarked for improvements. Your tax dollars hired a team of engineers and technicians so the Texas Air Control Board could keep close surveillance of industry in their efforts toward pollution control.

HUGHES AIRCRAFT VISITORS — A team of representatives from Hughes Air-Craft Company in California visited Engineering and other departments and services of the college.

ROTC NEWS

SCENES FROM AROTC AFI — Pictured above are scenes from the Annual Federal Inspection of the AROTC Department. Top left: Lt. Col. Vernon Black, PMS and Chief Instructor Col. Oberly. Top right: Col. Oberly, Brigade Commander,

Cdt./Col. Orvin Roberson, Lt. Col. Black and 1st Btn. Commander Cadet Billy Vance. Lower left: the AROTC Queens. Lower right: Inspection of Company A as Cadet Eddie Polk looks on.

December Graduate Completes Basic Course

2 Lt. James E. Kirkwood, a December graduate of Prairie View A&M College recently completed the six week Infantry Office Basic Course at Fort Benning, Georgia. Of the 205 commissioned officers enrolled in the course Lt. Kirkwood finished in the top 20% of his class. For this accomplishment, he was placed on the Commandant's List at Ft. Benning. Lt. Kirkwood in addition to being on the Commandant's List was the only black officer to receive this honor.

While at Prairie View, Lt. Kirkwood of Houston's Booker T. Washington High School was on a four year Army ROTC Scholarship. He majored in Mathematics and minored in Business Administration. He was also an Honor Student and nominated to

Who's Who In American Colleges and Universities, 1971-72. Lt. Kirkwood is a member of the National Society of Pershing Rifles, Association of the United States Army and Alpha Phi Alpha Fraternity, Inc.

Prairie View 68-54

March 10, 1972 is a date that will forever be remembered as a dark day for the N. R. O. T. C. Unit at Rice University. The Prairie View A&M Unit basketball team "pounced" upon the Rice U N.R.O.-T.C. Teams, devastating them by a score of 68-54. The leaders of the Rice onslaught were senior Christopher Peterson and freshmen Adam Bell and Paul Crawford. Bell was the game high scorer.

Midshipmens Annual Picnic

Saturday, March 18, 1972 — The Prairie View N.R.O.T.C. Midshipman Battalion celebrated its annual Spring Picnic today. The well attended picnic was held at the residence of LtCDR and Mrs. Burrell. Visitors at the picnic included the Honorable Mayor Sam, Mayor of the city of Prairie View and Mr. C. W. Frey, retired Chief Engineer of Prairie View A&M College. Because of the great air of harmony that was felt by all present at the

Midshipmen Visit Pensacola

On a typically warm Texas day seventeen NROTC Midshipmen boarded a Navy C118 aircraft at Ellington AFB for what was to turn out to be a most exciting, educational and fun filled four days at the "Home of Naval Aviation" Pensacola, Florida. While in Pensacola the Midshipmen were given a "birds eye view" of the life and training of a Naval Aviator. The first day the Midshipmen had to get up and eat breakfast at the ungodly hour of 0600, however, soon half open eyelids gave way to wide eyed stares and sweaty palms as the Midshipmen went through the Parachute Bailout Trainer. Having survived the Bailout Training without any broken bones the Midshipmen were taken to the swimming pool for a sea survival training demonstration. Finally, to close out the days activities they were given a ride in a UH-1L Huey Helicopter. Tired, but, happy the Midshipmen returned to the Bachelors Officers Quarters, many spent the rest of the evening at the Officers Club an experience I think few will forget.

The next day started with a trip to Nas Saufley Field where the Midshipmen were given a one hour flight in the T-34 aircraft. Returning, to Nas Pensacola they were then taken to a lecture given by Training Squadron Ten about the training and life of the Naval Flight Officer (Navigator). The day ended with a Jet indoctrination tour Training Squadron Four.

The following morning the Midshipmen boarded another C-118 aircraft leaving the sunny beaches of Florida for the trip back to the "Yard".

picnic, the proposed TOD was extended four hours.

ROTC Awards Ceremony Held Thursday

Cadets of the Army ROTC Brigade at Prairie View A&M College complete in many areas. On April 13th, those Military Science students who have achieved academic and military excellence will receive awards as indicated below, in an awards ceremony on Pork Chop Hill:

AWARD	RECIPIENT
Superior Cadet MS IV	C/Col Orvin Roberson
Superior Cadet MS III	C/LT Frank Melton
Superior Cadet MS II	C/SFC Arlie LeBeaux
Superior Cadet MS I	Cadet Alonzo Lester
AFCEA (Armed Forces Communications and Electronics Association)	C/LTC Florence Brown
Reserve Officers' Association MS IV	C/CPT Walter Bryant
Reserve Officers' Association MS III	C/CPT Cornelius Easter
Reserve Officers' Association MS II	Cadet SFC Larry Lester
AMVETS (American Veterans of WWII)	C/COL Roy C. Brown
Basic Course Scholastic Award	C/SFC Arlie LeBeaux
Advance Course Scholastic Award	C/COL Orvin Roberson
Best Drilled Squad	C/1SG Charles Brown, Athletes CO
Best Drilled Platoon	C/LT S. Scyres, 1st Plt, E CO

Kappa Delta Pi Members Attend Meet in Arizona

The National Convocation of Kappa Delta Pi an Honor Society in Education held its biennial Convocation at the Del Webb Towne House in Phoenix, Arizona, March 22-26. Counselor Charles F. Randle and Kadelpians Jacqueline Howard, Johnnie Jones and Leonardine Willis attended.

Highlights of the Convocation were Student

Forums; Counselor Forums; Breakfast and Lunch Sessions; an all day Excursion and Steak Dined in the Desert; a Banquet with Dr. Harry S. Broudy as speaker, plus entertainment by a group of Indian Dancers.

In the final business session Kadelpians failed to take a stand after long debate on the school bussing issue.

A.S.C.E. Student Chapter News

The Prairie View A & M College ASCE student chapter conducted its annual student paper contest on Tuesday, March 14, 1972 in the engineering building. Four members of the student chapter competed. Mr. P. V. Ramakrishnaiah presented a paper on "Wind Damages to Properties in Texas" and won the first prize. Mr. Lee Edwards presented a paper on "Permafrost Damages to the Engineering Structures" and won the second prize. Mr. Thomas Hadnot presented a paper on "Statistical Methods of Determining Yield in Cold Rolled Steel Rods" and won the third prize. Mr. Richard Ernest presented a paper on "Atmospheric Pollution."

Mr. Wilson A. Curtis of the English Department, Mr. S. R. Daruvalla of the Electrical Engineering Department, Mr. P. R. Kahjautia of the Architectural Engineering Department, Mr. C. T. Luke and Mr. R. S. N. Rao of the Civil Engineering Department acted as judges for the contest. The meeting was well attended and there was a lively question and answer session at the end of each paper. The student chapter provided refreshments at the end of the meeting.

The winner represented Prairie View A & M College at the student paper contest conducted by the Houston Branch ASCE on March 21, 1972. The other contestants were from Rice University and University of Houston. Mr. P. V. Ramakrishnaiah represented Prairie View and won the first prize.

He will represent the Prairie View ASCE student chapter on a state wide paper contest programmed by the Texas Section ASCE at Fort Worth during the last week of August.

PV Student Spends Week in New York As Guest of Mobil

Arthur J. Rawls, P. O. Box 148, Trinity, Texas, a student at Prairie View A&M College, was one of 21 Black college sophomores who recently spent a week in the business world as guests of Mobil Oil Corporation in New York. It was the fifth year of the program.

The students, 12 men and nine women, met with Mobil managers and visited company installations in the New York-Philadelphia area. Black college graduates now working for Mobil told of their experience with the company.

Mobil executives showed the students the real career opportunities in business; let them see how a large corporation function; and demonstrated the educational requirements, employment procedures and interviewing techniques.

Omega Psi Phi

The brothers of Omega Psi Phi Fraternity wish to congratulate Brother Florence Brown who was named to Who's Who in American Colleges and Universities for 1972. Brother Brown is a senior majoring in industrial electronics.

Nominees are selected from college, junior, senior, and graduate students matriculated in four-year undergraduate institutions or graduate schools. Selection is based on the students academic standing, service to the community, leadership in extracurricular activities and whose future potential are decidedly above average.

Brother Brown is president of Epsilon Pi Tau and the I. E. Honor Society; parliamentarian of the Blackstone Pre-Law Society; a member of the National Society of Scabbard and Blade and many more campus organizations. In Omega, Brother Brown has been extremely active. During his first year as an Omega man, he served as the keeper of records and seal and the alternate delegate to the regional meeting in San Antonio. This year he is serving as the assistant keeper of records and seal, dean of history, and the delegate to the regional meeting in Lake Charles, Louisiana.

used the new multi-ethnic reading curriculum during the fall term of 1972. At the beginning and at the end of a three month period, the children in the program were tested with Science Research Associate Achievement Series for Reading. Gains for individual children varied widely, but the average gain was six months in grade level for the three months period.

"The implications of these findings were," Dr. Grossman observed, that as multi-ethnic children gain in positive attitudes and appreciations for themselves and others, they also made significant academic progress."

Alpha Phi Alpha News

Serving the Prairie View community and Waller Independent School District, Alpha men are tutors to sixth and seventh grade students at the Prairie View Training School. Under the supervision of Bro. Herman T. Jones, Brothers Sherry Tarver, Louis Brown, Daniel Taylor, Frank Jackson, Sammy Ross and Arthur Wilson are devoting their time to students who need assistance in various academic courses. Emphasis is being placed on Mathematics, History and the Sciences. These men are also helping to co-ordinate

and are participating in the recreational programs of these students.

An Easter Egg Hunt was sponsored for youths of the Prairie View community by the Alpha Phi Alpha Fraternity. The hunt was given Saturday morning, March 25, 1972 at the Newman Center. The regularly scheduled Children's Hour was set aside for this affair. Brothers Arthur Wilson and Robert Dean co-ordinated the Easter Egg Hunt, which was reported to have been a big success.

PV Educators Develop Multi-Ethnic Learning Materials

Multi-ethnic learning materials have become necessary adjuncts to school desegregation.

In the Waller and North Forest Independent School Districts of Texas, where desegregation created new academic and behavioral conditions, some 20 teachers working with educators at Prairie View A&M College, have developed a reading program which meets the needs of multi-ethnic disadvantaged elementary school children who were reading one to three years behind their grade levels. — These children, like six million non-white children across the country, were learning to read in books which either omit them entirely, or scarcely mention them or anyone who looks like them.

Funded by the U. S. Department of Health, Education and Welfare, this reading program, under the direction of Dr. Gwendolyn Grossman, has been operating with the effective participation of Dr. William Walters, professor of Education and Mrs.

Clarissa Booker, curriculum specialist.

"The purpose of the program," Dr. Grossman said, "was to plan, develop, produce, and distribute instructional materials which reflect all ethnic groups, provide for the sequential and behavioral growth of the children, cope with social realities, dispel prejudice, and minimize fears and conflicts which may arise from newly integrated situations."

The production of multi-ethnic reading materials began during a nine-week workshop last summer. At that time, a five-school reading clinic was in progress in North Forest. Teachers in the clinic co-operated then with workshop specialists in pre-testing the new materials.

High motivational value was the first criterion for the choice of material. The children's own experiences provided the subject for some of the stories, and some illustrations were actual photographs of the pupils.

Participating schools in Waller and North Forest

ROTC CADETS AND MIDSHIPMEN from across the nation met recently in Washington, D. C. for the Mid-Winter Conference of the Reserve Officers Association. Highlighting the Conference were a Pentagon Seminar held for the Cadets and Midshipmen, a wreath laying ceremony at Arlington National Cemetery and visits with some of the nation's Military and Civilian leaders.

Posed at a breakfast meeting held at the U. S. Capitol are left to right, Assistant Secretary of the Defense Roger T. Kelley, Midshipman Wendell Chinn, Prairie View A & M College; Rear Admiral U. G. Lambert and Senator Strom Thurmond (Dem-SC) the speaker at the meeting. (US Army Photo)

GOLDEN KNIGHTS — The Para-wing is one of the revolutionary parachutes that the Golden Knights are helping to develop for the nation's Abn forces, space program, and other government agencies. The Para-wing is actually more of a glider than a parachute. It glides two or more feet across the sky for each foot it sinks. Its forward speed is up to 15 mph. and it can be turned full circle in 5 seconds or less. With these flight characteristics, the para-wing makes a jumper more of a pilot who flies the chute than a passenger who just rides in it for a landing.

4 Ex-Panthers Sign NFL Contracts

Prairie View A&M officials announced Thursday four former Panther football players have signed as free agents with professional teams.

Sammy Lee of Bay City signed with the Atlanta Falcons; Dewey Rogers of Nacogdoches with the Cleveland Browns; Luther Hudson, of Dallas, with the Kansas City Chiefs

and James Wilson with the Falcons.

SCHOOL POPULATION HITS 60 MILLION

A record 60.2 million Americans will be in school this year — from the elementary grades through graduate school—the Office of Education estimated recently in Washington.

Purple and Gold Grid Game Set For April 20

The Prairie View Panthers will end their 1972 spring training season with the annual Prairie View Purple vs Gold game Thursday evening, April 20 at 5 p.m.

Jim Hillyer, the Panthers' grid boss went into spring training with the hopes of putting together an offensive attack that would compliment a strong defensive attack.

Hillyer's main concern is the Panthers improvement in the offensive line and at running back. He'll have to compensate for the losses of Jerry Wallace, center; Wendell Jones, tackle; Sam Mitchell, guard; and Sammy Lee, tightend, in the offensive line. Dewey Rogers, end; Leslie Hudson, tackle and Luther Gentry, tackle; are losses in the defensive line. Luther Hudson is the only loss in the secondary.

The offensive line will return regulars Ernest Jones, Willie Davis, Jessie Simon and Byron Briggs, but must come up with newcomers to give depth to the position. Develous Weatherspoon, and Gerald Rideaux, will return at tightend.

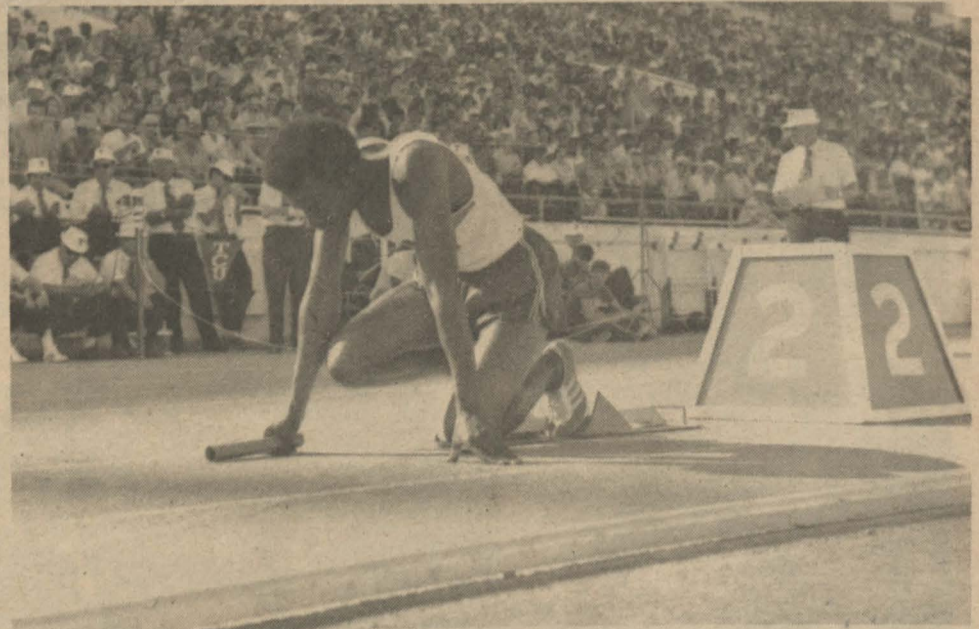

Hillyer feels that with the veterans he has returning at running backs, he should be able to come up with a likely combination. Enoch Morgan, 1970's leading rusher and Ronnie Brooks, 1971's leading rusher, along with Allen Merchant, Aubrey Lewis, John Lewis, Randy McGraw, Tony Harris and Roy Davis, are all bidding for the running back positions. Hardy Malvo, and Andrew Smith, are the quarterback prospects.

The wide receiver slot could be the Panthers' strongest spot. Louis Neal, John Moore and Griffin Jackson, are returnees. Newcomer Joe Long, is expected to add depth. Douglas Wilson has also looked good.

On defense, the Panthers will have size, but spectacular progress must be made at the end position left vacated by Dewey Rogers. Jessie Wolf, Maurice Gindratt, Ernest Reed, Gus Rich and James Wolf, will man the other positions. The linebacker positions could be the strongest area of defense. Talmadge Sharpe, heads the crew of Henry Tennessee, who has an outstanding freshman season, along with Edward Lewis, Dufrey Thompson, Ricky Lewis, Thomas Wilborn, and promising newcomer George Collins.

The secondary will draw competition from Lester Morgan, Hise Austin, Sam Bradford, Jerome Anderson, Charles Brown, C. L. Whittington, David Shaw, Daniel Simmons, and newcomers Raydell Iglehart and Joe Benson.

Paul Cassel and Jackie Harrold, have been moved from offense to defense to give the line depth. Raymond Burgess, will

PV AT TEXAS RELAYS — disqualifying them in a heartbreaking incident. Clifford McBride runs scratch leg for 440 relay. Panthers dropped baton

Won 6 SWAC Titles

PV Golfers Seek Nationals

For the past ten years, Prairie View's golf teams have drawn the kind of respect in the Southwestern Athletic Conference, that that Wyatt Earp drew as sheriff of Wichita.

Since 1959, the Panthers have packed away 9 Southwestern Athletic Conference titles. Even more impressive is they have won the Conference title the past six years and the oddsmakers have made them a unanimous choice to make it seven in a row.

The Panthers are doing well nationally, too. Last season they ranked 12th among NAIA colleges and universities.

The 1972 team is considered one of the most talented of any Panther team. Three of the current members have won the Southwestern Athletic Conference title. Robert Jackson, a senior, was medalist winner as a sophomore. Michael Sapenter, a junior won conference medalist honors as a freshman and sophomore Marvin Wilson, turned the trick last year.

With three conference champs, each of who having won medalist honors this season. What will they do for an encore?

"We are shooting for the nationals," said Robert Jackson, who's the only senior on the team. "We have a good group this year and I can't see anything stopping us. We ranked 12th in the nation last year and everybody is back."

Jackson admits that the Panthers strongest competition comes from each other and that's the way it has been in the Panthers last three meets. Jackson won medalist honors at the Rice Invitational; Sapenter was medalist winner at the TSU Relays golf meet and Wilson, took the cake

be one of the top punt and kickoff prospects returning, along with punters Leroy Clark and George Borner. Borner will also play linebacker and Clark may see action in the secondary.

Summer Jobs Available In or

Near Your Hometown

Mr. Fontenot, Head of the Automotive Technology Department, reports that summer jobs will be open for Automotive and Industrial Technology majors who would like to be employed as interns in a law office in or near the city or town from which they come.

Automotive and Industrial Technology majors who are interested in summer employment as interns in a law office may contact Mr. Fontenot, in person, as soon as possible, in his office which is located in room nine of the Automotive Technology Department. Other students may contact Dr. L. J. Hammand at her office in the Political Science Department.
