1912

The Prairie View State Normal and Industrial College was organized under "An Act to provide for the organization and support of a Normal School at Prairie View in Waller county, for the preparation and training of colored teachers," which Act was approved April 19, 1879.

The general laws of the State governing the College have been amended from time to time, but in brief the statutes now governing the College are as follows:

The Prairie View State Normal and Industrial College (which name was declared by the Twenty-sixth Legislature) shall be under the control and supervision of the Board of Directors of the Agricultural and Mechanical College of Texas.

The Board of Directors shall appoint a principal teacher and such assistant teacher or teachers of said school, and such other officers of said school as may be necessary, and shall make such rules, by-laws and regulations for the government of said school as they may deem necessary and proper, and shall regulate the course of study, and the manner of performing labor to be performed by the students, and said Board of Directors shall regulate the course of discipline necessary to enforce the faithful discharge of the duties of all officers, teachers, students and employes of said school, and shall have the same printed and circulated for the benefit of the people of the State, and the officers, teachers, students and employes of said school.

Article 3887. Said board shall appoint a principal teacher and such assistant teacher or teachers of said school and such other officers of said school as may be necessary, and shall make such rules, by-laws and regulations for the government of said school as they deem necessary and proper, and shall regulate the course of study and the manner of performing labor to be performed by the students, and shall provide for the board and lodging and instruction to the students, without pecuniary charge to them other than that each student shall be required to pay one-third of the cost of said board, lodging and instruction, quarterly, in advance, and said board of directors shall regulate the course of discipline necessary to enforce the faithful discharge of the duties of all officers, teachers, students and employes of the school, and shall have the same printed and circulated for the benefit of the people of the State and the officers, teachers, students and employes of said school.

SEC. 2. The near approach of the end of the session and the crowded condition of the calendar of both houses of the Legislature, and the improbability that this bill can be reached in its order on three several days in each house, and the great need and demand for the passage of this act, creates an emergency and an imperative public necessity exists for the suspension of the constitutional rule requiring to be read on three several days in each house, and said rule is so suspended.

Approved June 6, 1899.

## COLLEGE CALENDAR.

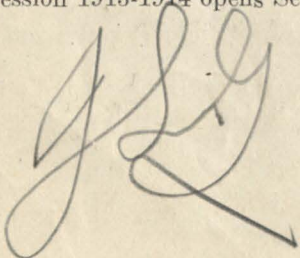

---

1912.

Fall Term begins Wednesday, September 4.  
First Payment Entrance Dues, All Students, September 4  
Entrance Examination, September 4-7.  
State Holiday, Thanksgiving, November 28.  
Term Examination, December 3-6.  
Winter Term begins December 9.  
Christmas Holidays, December 25, January 1, 1913.

1913.

State Arbor Day, February 22.  
State Holiday, Texas Independence, March 2.  
Term Examination, February 25, 26, 27, 28.  
Spring Term begins March 3.  
State Holiday, San Jacinto, April 21.  
Final Examinations, May 12-15.  
Final payment of Accounts, May 17.  
Commencement Sunday, May 18.  
Commencement Day, May 19.  
Alumni Reunion, May 19.  
Summer Session, June 1st to August 1st.  
Farmers' Congress, July 24-27.  
Session 1913-1914 opens September 3.

DEPARTMENTS OF ADMINISTRATION AND INSTRUCTION.

---

E. L. BLACKSHEAR, Principal.  
Economics and History of Industry.

W. C. ROLLINS, Treasurer.  
Instructor in Bookkeeping.

CHARLES ATHERTON,  
Dean of Normal Department and Professor of Pedagogy.

P. E. BLEDSOE,  
Professor of Science.

J. T. HODGES, Librarian,  
Professor of English.

N. A. BANKS, Chaplain,  
Mathematics.

C. H. GRIGGS,  
History.

C. H. WALLER,  
Superintendent Farm and Professor of Agriculture.

W. P. TERRELL,  
Mechanical Department.

R. L. ISAACS, Registrar,  
Associate Professor of Mathematics.

MISS A. L. EVANS,  
Associate Professor English, Dean of Women.

MISS ROBERTA E. L. LYMAN,  
Department of Cooking and Domestic Economy.

MISS E. E. HOUSWORTH,  
Sewing and Millinery Department.

GEORGE J. AUSTIN,  
In Charge of Young Men.

ASSISTANT PROFESSORS.

---

H. J. MASON,  
Associate in English.

A. DAY, JR.,  
Science.

MISS C. B. DRISDALE,  
History.

R. F. JOHNSON,  
Shoemaking.

A. E. FLEWELLYN, JR., Engineer,  
Plumbing.

MISS RUTH COX,  
Sewing.

MISS W. B. PATTERSON,  
Teacher of Music.

T. H. BRITAIN,  
Carpentry.

J. B. MOORE,  
Blacksmithing.

MISS MARY B. CROSS,  
English.

NAPOLEON B. EDWARDS,  
English.

W. A. BLACKSHEAR,  
Carpentry.

MISS LIZZIE ANDERSON,  
Cooking.

MISS MAMIE ATHERTON,  
Cooking.

MISS M. J. SIMMS,  
Assistant in Pedagogy and General Assistant.

E. W. SCOTT,  
Broom and Mattress Making.

JOHN HARRIS,  
Assistant in Agriculture.

H. S. ESTELLE,  
Assistant in Agriculture.

J. V. SMITH,  
Assistant in Agriculture.

---

OFFICERS.

---

MISS A. L. EVANS,  
Dean of Women and Head Preceptress.

.....  
Assistant Preceptress.

MRS. R. B. HARBERT,  
Assistant Preceptress.

MISS E. E. HOUSWORTH,  
Assistant Preceptress.

MISS C. B. DRISDALE,  
Assistant Preceptress.

DR. E. R. GRAVELLY, M. D.,  
Resident Physician.

H. J. MASON,  
Secretary to Principal.

R. L. ISAACS,  
Registrar.

H. C. ALDRIDGE,  
Steward.

A. D. EWELL,  
Foreman of Laundry and Instructor in Hat Making

MRS. R. L. EWELL,  
Assistant in Laundry.

J. T. HODGES,  
Librarian.

R. L. ISAACS,  
Registrar and Secretary to Faculty.

A. E. FLEWELLEN,  
Power and Light Plant.

WM. COOK,  
Foreman Printing Office.

MISS NETTIE BUTLER,  
Trained Nurse.

W. C. ROLLINS,  
Superintendent of Sabbath School.

J. T. HODGES,  
Director Y. M. C. A.

MISS C. B. DRISDALE,  
Director W. C. T. U.

MISS A. L. EVANS,  
Director Y. W. C. A.

## STANDING COMMITTEES OF THE FACULTY.

---

Committee on Discipline.—E. L. Blackshear, chairman; W. P. Terrell, R. L. Isaacs, George J. Austin, N. A. Banks, W. C. Rollins, Chas. Atherton.

Committee on Discipline of Female Students.—Miss A. L. Evans, chairman; Mrs. R. B. Harbert, Miss Roberta L. Lyman, Miss E. E. Housworth, Miss M. B. Cross, Miss Ruth E. Cox, Miss Mamie Atherton, Miss Lizzie C. Anderson, Miss Clara B. Drisdale, Miss M. J. Sims.

Committee on Classification of Students and Entrance Requirements.—N. A. Banks, chairman; J. T. Hodges, C. H. Griggs, Miss A. L. Evans, R. L. Isaacs.

Committee on Schedule.—P. E. Bledsoe, chairman; W. P. Terrell, W. C. Rollins, E. L. Blackshear.

Committee on Athletics for Boys.—W. C. Rollins, chairman; C. H. Waller, W. P. Terrell.

Committee on Athletics for Girls.—Miss C. B. Drisdale, chairman; Miss M. J. Sims, Miss A. L. Evans, Miss C. B. Cross.

Committee on Religious Activities.—N. A. Banks, chairman; J. T. Hodges, W. C. Rollins, C. B. Drisdale, A. L. Evans, E. E. Housworth.

Committee on Affiliated Schools.—N. A. Banks, chairman; Chas. Atherton, J. T. Hodges.

Committee on Text-Books, Library and School Exchange.—J. T. Hodges, chairman; C. H. Griggs, W. P. Terrell.

Committee on Lectures and Students' Entertainments.—R. L. Isaacs, chairman; Miss A. L. Evans, W. C. Rollins, E. L. Blackshear.

# **PRAIRIE VIEW STATE NORMAL AND INDUSTRIAL COLLEGE.**

## **OBJECT OF THE SCHOOL.**

Prairie View State Normal and Industrial College has for its object the training of persons desiring to fit themselves for the important profession of teaching, by giving them thorough instruction and practical drill in the best recognized methods of organizing, disciplining, and conducting schools.

The particular aims are to fit colored youths for responsible positions in the colored public schools of Texas, to impart something of the scholarly spirit indispensable to excellence in teaching, and to awaken an enthusiasm for the education and for the industrial and moral improvement of the colored race in Texas.

Believing in the value of industrial training in connection with the literary and professional studies, as a means to mental, moral and economic improvement, the Board of Directors have added Agricultural and Mechanical departments and a department of Female Industries to give a well rounded education and to prepare the students for practical life.

## **ORGANIZATION AND GOVERNMENT.**

The Prairie View State Normal and Industrial College of Texas is a branch of the Agricultural and Mechanical College of Texas at College Station, and is under the control of the Board of Directors and President of that College. The Board of Directors elect a Principal and Faculty, to whom are entrusted the affairs of the institution.

It is the duty of the Principal to exercise immediate supervision and direction, subject to the regulations and restrictions imposed by the Board of Directors.

The instruction of the institution is committed to departments. These departments are, at present, as follows: Science, Mathematics, English, Pedagogy and History, Mechanical, Agricultural, Sewing and Millinery and Cooking.

Such assistant teachers are employed as are needed to carry out the work of the departments.

The discipline, as well as instruction of all the students of the institution, is committed to the Faculty, the Principal being held responsible for the enforcement of regulations and the maintenance of discipline, with the privilege of calling in, at any time, the assistance of any or all of the Faculty.

The immediate supervision of the young ladies of the institution is intrusted to a Preceptress, whose duty it is to see that the conduct of the young women, their personal habits, manners, carriage, modes of dress, and habits of study conform to correct standards.

APPLICATION FOR ADMISSION TO THE PRAIRIE VIEW  
STATE NORMAL AND INDUSTRIAL COLLEGE,  
PRAIRIE VIEW, TEXAS.

REMARKS.

**PRAIRIE VIEW NORMAL COLLEGE—LAW ESTABLISHING COURSE  
AND MAKING APPROPRIATIONS THEREFOR.**

---

S. B. No. 17.]—An Act to establish and maintain a four-year college course of classical and scientific studies at the Prairie View Normal and Industrial College at Prairie View, Waller county, Texas.

*Be it enacted by the Legislature of the State of Texas:*

That the sum of twenty-five hundred dollars for the first year and eighteen hundred dollars for the second year be set apart and is hereby appropriated out of the general revenue for the inauguration and maintenance of a four-year college course of classical and scientific studies at the Prairie View State Normal and Industrial College, to which graduates of the normal course shall be admitted without examination and to which others may be admitted after having passed a satisfactory examination in the branches comprised in the normal course; provided, that no State student shall be admitted to the privileges of the said course; and, provided further, that the diploma conferred on the completion of the said course shall entitle the holder without other or further examination to teach in any of the colored public free schools of the State.

Approved March 28, 1901.

**REQUIREMENTS FOR ADMISSION.**

1. **AGE.**—Students shall not be less than sixteen years of age at the time of their admission. (Article 3886, Revised Statutes, Chapter 5, Title 86, as amended by S. H. B. No. 379.)

2. **HOW TO APPLY FOR ADMISSION.**—Write to the Principal for an application blank, which will be forwarded, giving full instructions. No appointee or other applicant should come to the College without having made application for admission and accommodations, subject to the Entrance Examination. For requirements see No. 4 below; also see application blank in the back of this catalogue.

3. **PLEDGE TO TEACH ABOLISHED.**—The pledge to teach as many sessions in the public free schools of Texas as the applicant may have attended sessions of the College is no longer required.

4. **ENTRANCE EXAMINATION.**—Candidates for admission into First Year must sustain a satisfactory examination on arrival at the College in the following subjects:

Arithmetic.—Through Percentage.

English Grammar, embracing a knowledge of the parts of Speech, their Uses and Relations; the Sentence, its Kinds, Uses, Analysis and Construction.

English Composition.—Each applicant must submit an original composition on some every-day topic assigned by the Professor of English, of not less than 200 words, as a test of the applicant's handwriting, spelling and thought-expression.

Geography, Texas History, U. S. History.

**Advance Standing.**—Applicants for higher classes than First Year are referred to course of study. A thorough preparation in all English branches and in the subjects of the year previous to the desired year is especially urged.

5. **MORAL CHARACTER.**—All candidates for admission must furnish testimonials of good character and if coming from other schools or recently in attendance thereon must bring honorable dismissal from such schools.

6. **HEALTH.**—No sickly, diseased or infirm person should apply for admission, and any applicant for admission may be subjected to a physical examination by the medical officer of the school, if occasion demands it.

7. **PAYMENTS ON ENTRANCE.**—All other students must pay the entrance fees and one month's board money in advance.

8. **WHAT THE STATE DOES NOT FURNISH.**—Each candidate for admission must furnish his own clothing and bed clothing, including at least three sheets, six towels, and one pillow, three pillow cases, two quilts and one blanket, one good comb, hair brush, tooth brush, shoe brush and clothes brush, a pair of rubber overshoes. All articles of clothing should have the owner's name carefully written on them with indelible ink. Young men must be careful to bring along a suit of overalls for wear on duty in the shop or on the farm.

9. **PROMOTION AND GRADUATION.**—Every student is required to make a general average of 75 per cent and not less than 65 per cent in every branch of study.

**EXPENSES FOR SESSION.**

Payable on entrance, female students, including entrance fee, medical fee, uniform and first month's board.....	\$ 24.50
Payable on entrance, male students, including entrance fee, medical fee, uniform and first month's board.....	29.50
Board per month for all students.....	10.00
Total amount to pay for male students for session of nine months .....	109.50
Total amount to pay for female students for session of nine months .....	104.50

The first payment of \$24.50 for female students includes the following items: entrance fee, \$5.00; medical fee, \$2.00; girl's uniform, \$7.50; and first month's board, \$10.00, making a total of \$24.50, which must be paid on entrance.

The first payment of \$29.50 for male students includes the following items: entrance fee, \$5.00; medical fee, \$2.00; boy's uniform, \$12.50, including uniform hat; and first month's board, \$10.00, making a total of \$29.50, which must be paid on entrance.

The system of renting books which has been the custom here for several years has been abolished and the book fee of \$5.00 is no longer charged the students; but instead, students will be required hereafter to purchase their own books. This plan has been adopted for several reasons, chief among which is, that every student ought to own his own text-books and keep them as a nucleus of his educational library. The Board of Directors have arranged for the establishment of a book store at Prairie View where all students can purchase their text-books; hence parents in sending their children to school must furnish them with money to buy their text-books and also stationery used for school purposes, such as tablets and loose leaf note books and examination papers.

All dues are payable in advance and in case of failure to meet dues, the pupil may be suspended.

Parents should send money for children's account as due directly to the Treasurer, W. C. Rollins, Prairie View, Waller county, Texas. Don't send money in ordinary letter nor is registered letter the best means of sending money. Send your money by postoffice money order, express money order or by bank money order or draft. If you send money by personal check, remember such checks have to pay discount for collection.

## THE DAILY ROUTINE.

Students rise at 5:40 a. m. From 6 to 6:45 a. m., study hour. Breakfast 6:45 to 7:15. From 7:15 to 7:45 students sweep, dust and arrange their rooms. Chapel devotions, 7:45 to 8:00 a. m. After devotions students march to their recitation rooms. There are six periods of recitation, averaging forty-five minutes, and a period of thirty minutes for vocal music. Dinner at 12:40 p. m. From 1:40 to 3:05 p. m., instructive practice; 3:05 to 3:40 p. m., manual labor; 3:40 to 5:05 p. m., second division in instructive practice. Supper at 5:40 p. m. Study hours, 7 to 9:30 p. m. Retiring bell at 10 p. m.

## TEXT-BOOKS.

*Mathematics.*—Arithmetic. Algebra (Sheldon; Fisher and Swartz). Geometry (Wentworth). Trigonometry (Conants).

*English.*—Rhetoric (Genung). American Literature (Watkins).

*Civics and History.*—Texas History (Pennybacker's). U. S. History (Cooper). General History (Barnes).

*Natural and Physical Sciences.*—Geology (Le Conte). Chemistry (Williams). First Lessons in Physical Science (Avery). Physics. Physiology (Coleman).

*Pedagogy and Philosophy.*—School Management (White). History of Education. Pedagogy (Hewitt).

*Cooking.*—Theory and Practice of Cooking (Fisher). Boston Kitchen and School Text-book (Lincoln). Hand-book of Domestic Science (Wilson).

*Mechanics.*—Power and Power Transmission (Kerr). Strength of Material (Merriman). Elements of Electricity and Magnetism (Jackson).

*Agriculture.*—Plant Culture (Goff). Animal Feeding (Jordon). Principle and Practice of Butter Making (Larson). Agriculture (Welborn).

## NEW TEXT-BOOKS ADOPTED.

Physical Geography (Tarr).

In lieu of the corresponding text-books named above, the following text-books have been adopted:

*Arithmetic.*—Myers and Brooks.

*Biology.*—Boyers.

*Ethics.*—Steele.

*Physics.*—Milliken and Gale.

*Rhetoric.*—Lockwood and Emerson (for third year instead of fourth year).

*Grammar.*—Buehler's Modern.

*American Literature.*—Watkins (for fourth year instead of third).

*English Literature.*—Watkins (with class study in classes).

*Psychology.*—Halleck's.

*History of English Literature.*—Halleck's; Civil Government, Townes.

*History of Education.*—Monroe.

*Veterinary Science.*—Reynolds.

*Vegetable Gardening.*—Green.

*Agriculture.*—Wilkinson.

### COURSES OF STUDY BY DEPARTMENTS.

The instruction of students is committed to a Faculty which is organized into departments of instruction. The following departments are now in operation: Mathematics, English, Science, Pedagogy and History, Mechanics, Agriculture, Dressmaking and Millinery, and Cooking.

A detailed statement of the work of these departments follow:

#### DEPARTMENT OF MATHEMATICS.

N. A. BANKS.

R. L. ISAACS.

Six courses are required in this department for graduation from the Normal Course.

COURSE I.—*Arithmetic.* First Year, Fall and Winter Terms; six hours per week.—This course covers a review of Arithmetic, beginning at Percentage, Profit and Loss, Commission, Simple Interest, Ratio and Proportion, Trade and Bank Discount, Partial Payments, Partnership, Exchange, Taxes, Life and Fire Insurance, Stocks and Bonds, and Mensuration.

Text: Myers & Brooks.

COURSE II.—*Algebra.* Four terms' work: Spring Term of First Year, and Fall, Winter and Spring Terms of Second Year; six hours per week.—Elementary Algebra completed, embracing the following topics: Addition, Subtraction, Multiplication and Division of Algebraic Numbers and Quantities; Simple Equations; Factoring; Common Factors and Multiples; Fractions and Fractional Equations; Simultaneous Equations; Involution and Evolution; Quadratic Equations; Simultaneous Quadratic Equations.

Text: Sheldon's.

COURSE III.—*Plane Geometry.* Three terms: Third Year, Fall, Winter and Spring Terms; six hours per week.—Topics: Rectilinear Figures; the Circle; Proportion and Similar Polygons; Areas of Polygons; Regular Polygons and Circles; Problems in Construction; Maxima and Minima; Exercises.

Text: Wentworth's.

COURSE IV.—*Solid Geometry.* Fall Term and Winter Term, Fourth Year; six hours per week.—Topics: Lines and Planes in Space; Polyhedrons.

Text: Wentworth's Book VI and VII.

COURSE V.—*Plane Trigonometry*. Spring Term. Fourth Year; six hours per week.—Topics: Functions of Acute Angles; Solution of Right and Isosceles Triangles; Solution of Oblique Triangles.

Text: Wentworth's.

COURSE VI.—Reviews in Arithmetic, Algebra and Plane Geometry, four weeks, Spring Term. Fourth Year.

## DEPARTMENT OF ENGLISH AND HISTORY.

C. H. GRIGGS.

MISS A. L. EVANS.

N. B. EDWARDS.

The aim of this department is to aid the student to understand the English language, to speak and write it with ease and accuracy, and to develop in him the capacity to appreciate its best literature. To accomplish this purpose the following courses are proposed:

I. *Grammar and Composition*.—First-Year Class; Fall, Winter and Spring Terms, six hours a week.—This course consists of a thorough study of the sentence, together with the parts of speech and their offices. Selections from the productions of Longfellow, Irving and Bryant are studied and extracts from these writers are to be committed to memory. The composition work includes weekly themes on everyday subjects and making outlines.

English Grammar—Buehler's Modern.

II. *Word Analysis and Composition*.—Second-Year Class; Fall Term, five hours a week.—This term will be devoted to a study of the history, derivation and meaning of words. Attention will be given to synonyms, antonyms, homonyms, also to the spelling and use of words. The written exercises will consist of letter writing and paragraph writing.

Swinton's Word Analysis.

III. *Rhetoric and Composition*.—Second-Year Class; Winter and Spring Terms, six hours a week.—Attention will be given to the study of style, diction and figures of speech. The work in composition will consist in exercises in the simpler forms of description and narration. These will be required each week.

Outlines of Rhetoric—Genung.

IV. *Introduction to American Literature*.—Seniors: Fall and Winter Terms, four hours a week.—The history of American literature will be studied under three periods: Colonial, Revolutionary and National. Special attention will be given to a study of some of the masterpieces of American writers. The written work of these two terms will consist of the simpler forms of exposition and outlines of literary selections.

American Literature—Watkins. Masterpieces of American Literature—Houghton, Mifflin & Co. American Literature—Painter.

V. *Practical Rhetoric*.—Fall Term, four hours a week; Winter Term, three hours a week.—The principles of exposition and argumentation will be studied with frequent written exercises. Students will also be given exercises in writing abstracts and summaries. Subjects for written discussions will be taken largely from current events.

Practical Elements of Rhetoric—Genung.

VI. *English Literature*.—Seniors; Spring Term, three hours a week.—The leading English writers are studied and attention is given to their relation to the different periods. Two of the plays of Shakespeare will be studied, and the students will be required to make written reports at stated times upon the books they have read during the term. In addition to their weekly themes, each member of the class will be required to submit six carefully prepared essays during the term.

Studies in English Literature.—Swinton's and Painter's.

#### DEPARTMENT OF AGRICULTURE.

C. H. WALLER.

JOHN HARRIS.

The aim of this course is to give a student a general idea of the relation of plants, water, and air to the soil. Attention is also given to the study of root growth, office of leaves, relation of stock, use and kind of implements necessary to a farm. We also make a study of the common diseases of farm animals.

COURSE I. *Formation and Preparation of Soil*.—First-Year Class; Fall Term, eight hours a week.—Lectures and Practice.

COURSE II. *Farm Implements*.—First-Year Class; Winter Term, eight hours a week.—Lectures and Practice.

COURSE III. *Habits and Growth of Plants*.—First-Year Class; Spring Term, eight hours a week.—Lectures and Practice.

COURSE IV. *Fall Crops*.—Second-Year Class; Fall Term, eight hours a week.—Planting of Fall Crops.—Lectures and Practice.

COURSE V. *Seed Selection and Testing*.—Second-Year Class; Winter Term, eight hours a week.—Pruning.—Lectures and Practice.

COURSE VI. *When and How to Plant*.—Second-Year Class; Spring Term, eight hours a week.—Lectures and Practice.

COURSE VII. *Judging Breeds of Live Stock*.—Third-Year Class; Fall Term, eight hours a week.—Practice.

COURSE VIII. *Dairying*.—Third-Year Class; Winter Term, eight hours a week.—Lectures and Practice.

COURSE IX. *Feeds and Feeding*.—Third-Year Class; Winter Term, eight hours a week.—Lectures and Practice.

COURSE X. *Breeding Live Stock*.—Third-Year Class; Spring Term, eight hours a week.—Lectures.

COURSE XI. *Anatomy of the Horse and Common Diseases*.—Senior Class; Fall Term, eight hours a week.—Lectures.

COURSE XII. *Anatomy and Common Diseases of the Cow*.—Senior Class; Winter Term, eight hours a week.—Lectures.

COURSE XIII. *Experiments in Farm and Garden Crops*.—Senior Class; Spring Term, eight hours a week.—Lectures and Practice.

### *Shorter Two-Year Course in Agriculture and Horticulture.*

The aim of this short course is to give the young men a brief knowledge of the soil and the relation of plants and animals.

#### FIRST YEAR.

1. History of Plants. Root Crops and Harvesting Crops. Lectures and Practice.—Fall Term, eight hours a week.
2. Kinds of Crops for Market. Seed Selection. Manner and Time of Planting. Lectures and Practice.—Winter Term, eight hours a week.
3. Management and Business of Farm. Garden Plants. Farming continued. Lectures and Practice.—Spring Term, eight hours a week.

#### SECOND YEAR.

1. Subsoil. Tap Root. Fall Crops and How to Select Seeds. Lectures and Practice.—Fall Term, eight hours a week.
2. Fertilizers. Kind of Soil. Pruning, Habits of Plants and Animals. Hot Beds. Lectures and Practice.—Winter Term, eight hours a week.
3. Dairying. Selection and Breeding of Stock.—Spring Term, eight hours a week.

### *Two-Year Course in Dairying.*

#### FIRST YEAR.

*Fall Term*.—Heredity. Variation. Prepotency. Inbreeding. Line Breeding. Fecundity. Cross Breeding and Mating.

“Principles of Breeding.”—Show.

*Winter Term*.—Conformation of Dairy Cow. Selecting and Judging. Dairy Breeds. Beef Breeds.

“Principles of Breeding.”—Show.

*Spring Term*.—Animal Nutrition. Composition and Relative Feeding Value of Different Crops. Nutritive Ratio. Feeding for Milk. Feeding for Beef.

“Feeds and Feeding.”—Henry.

## SECOND YEAR.

*Fall Term.*—Conditions affecting Secretion. Testing Milk. Methods of Creaming. Use and Care of Separator. Ripening Cream. Churning, Salting, Finishing and Marketing Butter.

*Winter Term.*—Ferments and Fermentations of Milk. Control of the Fermentations of Milk. Care of Milk Vessels. Theory of Cheese-making.

“Milk and Its Products.”—Wing.

*Spring Term.*—Location and Construction of Dairy Buildings. Structure of Bacteria Contamination of Milk. Relation of Disease Bacteria to Milk. Preservation of Milk. General Management of Creameries.

“Dairy Bacteriology.”—Russell.

The Department of Agriculture also offers a course in Poultry-Culture. Several runs of standard breeds, with incubators and brooders, are used to illustrate the subject.

## ANIMAL HUSBANDRY AND GENERAL FARM DEPARTMENT.

C. H. WALLER, Superintendent.

JOHN HARRIS, Foreman.

E. W. SCOTT, Broom and Mattress Making.

The Agricultural Department has been separated into two divisions: Science and Demonstration, and General Farm or Subsistence Department.

The General Farm Department deals chiefly with the practical work of agriculture, furnishing the greater part of school necessities, such as vegetables, farm crops, hogs and beef.

This department embraces the following crops: Corn, 135 acres, sweet potatoes, 10 acres; Irish potatoes,  $2\frac{1}{2}$  acres; ribbon cane for syrup, 10 acres; sorghum, 6 acres; Colorado grass, 5 acres; prairie grass, 50 acres; garden and truck, 7 acres; cotton, 22 acres; watermelon, 15 acres; black-eyed peas, 8 acres; broom corn, 6 acres; trucking for hogs, 4 acres. We have in this department 4 mule teams, 1 horse, 102 head of Poland-China hogs; we have also a grist mill, by means of which we are able to grind out our own meal; a syrup mill with which we have made during the past season more than 400 gallons of syrup.

## BROOM AND MATTRESS MAKING.

E. W. SCOTT, Instructor.

## FIRST YEAR.

Assorting corn, putting on handle corn, cutting shoulders, putting on turn-back corn, covering brooms, cutting the head and putting on hurl, putting on tinlocks, sewing, scraping and clipping brooms, bunching in dozens, etc.

## SECOND YEAR.

A continuation of all the items of the first year's teaching, requiring in addition thereto all the finishing necessary to the manufacture of the very best high-grade broom.

Also how to grade and classify corn, how to estimate accurately the amount of waste or loss in any given ton of corn, and how many brooms of different grades any given ton of corn will make.

Also how to estimate the proper cost of a given grade of broom corn per ton according to market price at the time, classing the corn properly.

Also the cost of the production of any given number of brooms when corn is at a given price and grade, and when labor and incidentals are at certain values.

Also instruction in the making and repairing of mattresses and in the making of pillows and chair seating. Everything is done thoroughly and practically, looking to the final equipment of the apprentice for an independent living in his trade.

The boys are also constantly impressed with the necessity of absolute integrity of character, and of the reliability in business dealings.

## TRUCK FARM.

C. H. WALLER, Superintendent.  
JOHN HARRIS, Foreman.

Vegetables for the Mess Hall are grown in this division, and especial attention is given to the students taking special work in it, so that they might learn all the essentials in scientific truck growing.

The chief aim is to experiment with the growing of different vegetables and to prepare young men for positions as managers or foremen of farms.

The truck farm consists of 7 acres proper, with 65 acres additional for field crops. The division has two mules and five horses for its use. Sweeps, cultivators, spikes and disc harrows, turn plows and middle splitters.

The dairy herd consists of 55 graded cows and a registered Jersey male.

The dairy barn is a spacious wood structure, with cement floor and running water for cleaning.

Rakes, hoes, spades, picks, grub picks, wheel hoes, garden tools are used in the truck garden by the students.

## COURSE IN TRUCK GARDENING—TWO YEARS.

Fall term:

Culture of fall crops.

Lectures and outlined reading.

Winter term:

Seed selections and testing.

Spring term:

? ? ?

Canning of fruits and vegetables.

## CULTURE OF SPRING CROPS—TWO YEARS.

Fall term:

Study of diseases and remedies for insects and fungi.

Winter term:

Mechanical analysis of soil and tree planting.

Spring term:

Pruning and budding, supplemented with lectures.

## MECHANICAL DEPARTMENT.

W. P. TERRELL, Superintendent and Professor of Mechanics.

E. W. MADISON, Tailoring.

A. E. FLEWELLEN, JR., Engineer.

J. B. MOORE, Instructor in Blacksmithing, Wheelwrighting and Plumbing.

A. D. EWELL, Laundry and Hat Factory.

T. H. BRITAIN, Carpentry.

WILLIAM BLACKSHEAR, Carpentry.

R. F. JOHNSON, Shoemaking.

WILLIAM COOK, Printing.

The great object of the department is to foster a high appreciation of the value and dignity of intelligent labor. The boy who sees nothing in manual labor but dull, brute force, looks with contempt upon the labor and the laborer; but as soon as he acquires skill himself, the conditions are reversed, and henceforth he appreciates the work and honors the workman. The students are trained in the use of the various tools employed in the mechanic arts, and are thus given a good foundation in manual training, which will enable them to teach the arts in the schools in which they may be employed.

With this end in view, the course has been revised and re-arranged. Instruction is given by means of practice in the shops, by lectures, and by text-books.

The work in carpentry and blacksmithing is arranged in graded series, beginning with the simple joints and leading to the more difficult ones. The students are taught how to care for hand tools, machine tools, and how to sharpen edge tools. Some general repairing is done which gives them more practical ideas.

By combination of the courses the students in the short course are given such knowledge as will enable them to become good carpenters, blacksmiths, and stationary engineers. Drawing is taught throughout the course. The courses are as follows:

I. *Carpentry*.—First-Year Class; eighteen weeks, six hours a week (alternate with agriculture).—Names and care of tools, sawing across and with the grain, and keeping the line. Planing, marking, gauging, making butt-joints, half joints, mortised and tenon, dowel-pin joints. Text: "Bench Work in Wood."—Goss.

II. *Forging*.—Second-Year Class; Fall and Winter Term, six hours a week.—Names and use of general blacksmithing tools, fuels, making

and managing forge fires, taking proper heats, plain forging, forming, shaping and bending, drawing out, upsetting, squaring up, twisting, ring-bending, cutting off, punching, drilling, scarfing and welding iron.

III. *Wood Turning*.—Third-Year Class; Winter Term, six hours a week.—The lathe and its parts, preparation of stock, roughing out and turning straight pieces. Tapering, squaring-off, cutting-in, convex, concave and compound curves, chisel handles, table legs, face-plate work and chucking.

IV. *Forging*.—Third-Year Class; Fall Term, six hours a week (continuation of II).—Welding iron and steel, welding steel to steel, tool making, tempering cold chisels, punches, screw-drivers, turning chisel and scribes, bolts, cutting threads and tapping nuts.

V. *Power and Power Transmission*.—Third-Year Class; Fall and Winter Terms, five hours a week.—The use of shafting, belting, boilers, engines and pumping machines, etc.

Text: Kerr.

VI. *Drawing*.—Second-Year Class; Fall, Winter and Spring Terms, two hours a week.—Free-hand Drawing. Webb, Ware and Zaner Series.

VII. *Drawing*.—Second-Year Class; Fall, Winter and Spring Terms, three hours a week.—Instrumental Drawing, Geometrical Construction. Parts I and II: Giesecke.

VIII. *Drawing*.—Third and Senior Classes; Fall, Winter and Spring Terms, four hours a week.—Instrumental drawing. Enlarging, tracing and drawing to scale, parts of machines and buildings, designing.

IX. *Lectures*.—Third-Year Class; Spring Term, five hours a week.—Strength of Materials: Merriman.

Senior Class; Fall Term, five hours a week.—Estimating and Calculating Quantities.

X. *Electricity and Magnetism*.—Senior Year; Winter and Spring Terms, five hours a week. Text: Jackson.

XI. *Carpentry*.—Second-Year Class; Spring Term, six hours a week.—Dove-tailing, paneling, scarf-joints, framing, cutting rafters and scroll-sawing.

XII. *Forging*.—Short Course.—Second Year; Winter Term, twenty hours a week.—Making horse-shoes, shoeing horses, filing, clipping, and cutting key sects.

XIII. *Forging*.—Second-Year Class; Spring Term, twenty hours a week.—Third-Year Class; Fall Term, six hours a week.—Case hardening, annealing, and brazing.

XIV.—*Repairing and Plumbing*.—Throughout the course.

XV. *Forging*.—Third-Year Class; Fall Term, sixteen hours a week.—Making springs, welding, and tempering.

XVI. *Carpentry*.—Second-Year Class; Spring Term, six hours a week.—Third-Year Class; Fall and Winter Terms, six hours a week.—Making door and window frames, swinging sash, building model houses.

XVII. *Elementary Mechanics*.—Second-Year Class; Fall, Winter and Spring Terms, three hours a week.—Lectures. Also Second-Year Class; Spring Term, three hours a week.—Short Course.

### SPECIAL TRADE COURSES.

I. *Laundering*.—Full course in Hand and Machine Laundering, Soap-Making, Dyeing, Bleaching, and Repairing. A. D. Ewell.

II. *Hat-Making*.—Blocking and Finishing of Felt Hats in all Styles and Cleaning and Repairs. A. D. Ewell.

III. *Wheelwrighting*.—Repair and Manufacture of Wagons, Buggies and Vehicles. A. E. Flewellen.

IV. *Carpentry*.—House Planning and Building and Cabinet Making. T. H. Brittain.

V. *Tailoring*.—Stitching, Patching, Sewing, Cutting, Fitting, and Making. E. W. Madison.

VI. *Shoemaking*.—Repairs and Making-to-Measure Shoes and Boots. R. F. Johnson.

### COURSE IN WHEELWRIGHTING.

The aim of this course is to familiarize the student with the different parts of common vehicles, the material entering into the construction of these parts and their construction in detail.

The student is taught to build common wagon wheels, filling patent hubs (Savern), setting axle-trees of different kinds with special attention to gather and tuck, the proportion of wheels to axles, hounds and tongues, placing skeins, laying off axles, demonstration of tread, shrinking tires, bands, and bolting wheels, relation of tire, felloe and spoke study of wheel dishing and the necessity for same, measuring, driving spokes, building and ironing wagon beds, strengthening of parts by ironing, building buggy beds and bracing same.

In addition to the above outlined class work, the instructor in this division lectures twice per month to the class, thus providing a theory as well as the practice. General repair work is also done in connection with the work of the class and the student finishing the course is prepared to do practical everyday work both in iron and wood.

## COURSE IN TAILORING.

In this division, young men are taught to clean, dye, press, repair, draft, cut, trim, and make garments. The main object is to give the student a thoroughly practical as well as theoretical knowledge of the craft and such training as will equip him to enter the trade.

The First Year's work consists in learning the care and general use of the equipment of the shop, becoming familiar with the names and uses of the implements of the trade, practice in hand needle work, such as basting and making stitches of all kinds—running stitch, back stitch, cross stitch, common stitch, catch stitch, padding stitch, etc. Dry cleaning, steam cleaning and pressing are also taken up during the first year.

The Second Year's Work reviews the work of the First Year and takes up cutting and making parts of trousers, such as pockets, flaps, flies, waistbands; sewing buttonholes and buttons; making overalls, shirts, collars, etc. General practice in repair work—patching, darning (by hand and by machine), altering trousers, coats and vests. Dyeing, pressing and cleaning of all outer garments, including skirts and jackets.

The Third and Fourth Year's work includes such of the work of previous years as is found necessary and in addition thereto takes up a study of materials, varying texture and quality of goods. Testing and selection of goods; pressing and folding of garments; drafting and cutting of garments of all kinds; drafting layouts; cutting and making trousers, coats, vests and skirts; taking measures and designing of various kinds.

## DIVISION OF SHOE-MAKING.

This division has been recently enlarged by additions of new equipment and machinery and a large class of young men now receive daily instruction and regular practice work in Shoe-making and in all grades of repairing. The ultimate aim is to give the student a practical and working knowledge of the trade. All the repairing of shoes for students and teachers is done in the school shop and a large part of the shoes are made in this division.

The equipment in this division consists of one Singer vamping machine for making uppers, one Howe forearm machine for making boot-tops and fancy stitching, one Singer universal feed-arm machine for repairing and circle stitching, one Globe lasting jack, one Amazeen Skinner machine, one Lufkin improved machine for folding vamps and quarters. Chase's patent splitting machine, one rounding clamp, button machine, one insole and turn channeling machine, two hundred pairs of lasts.

The First Year's work consists of thread making, waxing thread, attaching bristles, use and care of tools, use of the awl and bristles, stitching or sewing of up rips, quality and use of the varying grades of leather, different grades of leather, different kinds of leather and adaptability of each, patching and half-soleing single and double sole sewed shoes, selection of sole and patch leather, finishing in higher grade repair work, setting edges and finishing, inseaming and stitch-

ing on outsoles. Correlated with the work of this year, each student is required to pursue the course in Mechanical Drawing.

The Second Year's work reviews the work of the First Year and takes up the preparation of the bottom stock for new shoes, upper fitting, measuring lasts, rounding up insoles for different styles of bottoms, cutting channels in new insoles and outsoles, building different styles of heels on new work, shaping and finishing edges on new work.

The Third Year's Work takes up the use of machines of all kinds, the care of machines, selection of thread for various purposes, method of getting out an upper for broad or narrow lasts, handling the parts of the upper after they have been cut, the use of the Amazeen skinner, the use of the Lufkin folder, how to prepare tip for vamp, how to insert web into boots and shoes, how to insert the lining, how to begin the stitching of the upper, position of the back in applying the vamp to Blucher uppers, lectures once a week by the instructor.

#### DIVISION OF HARNESS-MAKING.

In the Harness Department, a student is trained to cut and make harness from hides. All ready-made parts used are trimmings, such as buckles, cockeyes, resetts, etc.

A boy is trained to make harness according to the work they are to be used for; to attach cockeyes to tugs used for heavy work by the use of clips, and clip cockeyes to lighter grades of tugs with rivets only.

First Year—In this department the student learns the value and use of tools, and repairing.

Second Year—Repairing, making such new parts to take the place of old ones not worth repair, such as tugs not worth repair, straps, belly band, back bands, sides of bridles, etc.

Third Year—Learning to use power harness stitcher, measuring, cutting and making harness from start to finish, making whips, quirts, plating handles to main body on same.

#### THE DIVISION OF PRINTING.

W. M. COOK, Instructor.

#### COURSE OF STUDY.

The Division of Printing is the latest addition to the Mechanical Department, having been installed during the past session. It is in charge of a practical printer of twenty years' experience. In this division, classes are offered excellent opportunity to acquire a practical knowledge of the art of printing in all its phases. At present all grades of printing (except book-binding), are taught daily, with practice work and lectures. This practice work and theory embraces all forms of job work and the publication of the Standard, the weekly newspaper issued from this institution. The course in printing offers an opportunity to learn a useful art, and at the same time it affords

incidentally a most useful practice in spelling, grammar, punctuation, and rhetorical composition.

The equipment consists of numerous fonts of new and up-to-date job and display type, latest improved newspaper and job chases, wood and metal furniture, new 10x15 Chandler and Gordon job press, one large newspaper Power Press, one 23-inch Chandler and Price Paper Cutter, type cases, stands, etc.

First Year—Learning the boxes, names and uses of material, the care of machinery, rollers, etc., and the methods of operating the presses.

Second Year—The names of job, advertising and display type. The point system, the imposition of newspaper forms, make-ready on job and cylinder presses. How to mix inks for color printing. First lessons the imposition of book forms, folders, etc. Practice in ad setting and job work.

Third Year—Review work of second year and extended knowledge of imposition and the point system. Table composition, book-binding, etc.

### FOUR YEARS' COURSE IN MECHANIC ARTS.

#### FIRST YEAR CLASS.

Forging (15) .....	16	Designing.			

The object of the *short course* in Mechanics is to train students in the use of tools and to lay a broad foundation for those who wish to become tradesmen. With this end in view the course has been carefully selected and arranged. Our purpose is not only to make men workmen but to make workmen men. Special students in this short course in Mechanic Arts are required to take all subjects in literary course except special work in Teacher's Course.

## DEPARTMENT OF SCIENCE.

J. H. CRAWFORD.\*  
P. E. BLEDSOE.  
A. DAY, JR.  
MRS. N. R. CRAWFORD.

This department renders service to the Normal, Agricultural and Mechanical Departments of the school and gives instruction in the following subjects: Physical Geography, Physiology, Physics, Zoology, Chemistry, Botany, and Geology.

I. *Physical Geography*.—First-Year Class: Fall and Winter Terms, four hours a week.—In this subject the relation between the physical features and the plant and animal life of a locality are kept continually in mind. These topics are given special attention:

1. The earth as a whole: Shape, size; motions of the earth and their effects; latitude, longitude, and time.
2. The land: Erosive agents of the soil; plains and plateaus; mountains and volcanoes.
3. The atmosphere: Composition, motion and storms.
4. The sea: Depth and temperature; tides and currents.

Text: Maury.

II. *Physiology*.—First-Year Class; Spring Term, four hours a week.—Under this subject is given a general study of the structure, functions and care of the human body. Liberal use is made of the human skeleton; models of head, eye, ear, mouth and a section of skin. Special attention is given to hygiene, the organs of respiration, circulation and digestion and the effect of alcoholic beverages and narcotics upon the system. Drawings of tissues, bones and organs showing relative positions are required.

Text: Coleman.

III. *Elementary Physics*.—Second-Year Class; Fall and Winter Terms, four hours a week.—In this course, matter, mechanics, sound, heat, radiant energy, magnetism and electricity are studied and experiments made illustrative of the underlying principles.

Text: Avery's "First Lessons in Science."

\*Deceased.

*Advanced Physics.*—Senior Class; Fall and Winter Terms, four hours a week.—The laboratory work in this course is largely quantitative. Students are required to make experiments and to solve and form problems illustrative of the same.

1. Theory: Divisions, properties and conditions of matter; motions, force, work and energy; gravitation and gravity; uniform and accelerated velocity; pendulum; simple machines; mechanics of solids, liquids and gases; heat, light; electricity, sound.

2. Laboratory: Careful measurements of lengths, areas, volumes, and masses; problems in the mechanics of solids, liquids and gases; study of simple machines; problems in heat, light and sound.

Text: Gage.

V. *Inorganic Chemistry.*—Third-Year Class; Fall and Winter Terms, four hours a week.—The aim of this course is to give the student a knowledge of the chemical properties of the common elements and their compounds and to undertake as much qualitative and quantitative work as may be necessary to illustrate the law of Avogadro and the laws of the definite and multiple proportions. Over one hundred experiments are performed and the results and inferences are recorded in note books. Considerable attention to the practical side of the subject and the composition and manufacture of soap, glass, alloys, fertilizers, etc., are discussed freely and fully.

Text: Williams.

VI. *Biology.*—Second-Year Class; Spring Term, four hours a week.—This course is elementary; however, considerable attention is paid to the relationship of the different classes of animals and their adaption to their environment. The life history of some animals is traced, noting the transformations through which they pass in coming to maturity. The student is taught the use of the microscope and a number of lantern slides are used.

Text: Steele.

VII. *Botany.*—Third-Year Class; Spring Term, four hours a week.—The plant is studied as a living body possessed of organs with functions similar to those of animals. The life relations are observed in the laboratory by tracing its development from the seed and studying the functions of root, stem, leaf and flower. Such plants are selected for laboratory study as will best exemplify the phase of the life condition under consideration. A herbarium of the local flora is prepared by each student and some analytical work of at least twenty specimens.

Text: Bergen.

VIII. *Geology.*—Senior Class; Spring Term, four hours a week.—This subject is treated under three divisions:

1. Structural and Dynamical Geology, which gives an account of the origin and nature of the earth's crust; its movements, producing mountains, table lands and valleys, with attendant phenomena of earthquakes, volcanoes, etc., also erosion, transportation and deposit by wind, water and ice.

2. Historic Geology, which treats of the organic life of geological periods.

3. Economic Geology, which treats of the soil and climate of a locality and its adaptation to the wants of man.

Text: Le Conte.

### DEPARTMENT OF COOKING.

MISS ROBERTA LYMAN.

MISS MAMIE ATHERTON.\*

MISS LIZZIE C. ANDERSON.

Cooking is the art of preparing food for the nourishment of the human body. Within the past few years much interest has been taken in this branch of Domestic Science. The rapid and marked improvement in cooking utensils, valuable research along the line of food economy, the establishment by the government of food experimental stations and the introduction of cooking into the public schools, even in universities, have all helped to bring the matter before the public so that scientific cooking is no longer a mere fad but a demand on the present age.

COURSE I.—*First-Year Class*, three hours a week.

Fall Term. 1. Simple meats and Vegetable Dishes. Making Pies. Measurements.

2. Fuels. Range. Chimney. Canning and Preserving.

3. Making Soups. Yeast. Plain Breads.

Winter Term. 1. Study of Beef, Mutton, Pork and Venison, with diagrams of cuts.

2. Study of Milk, Butter, Cheese and Fish.

3. Study of Fowls, Eggs, and internal organs of the animals used for food.

4. Plain Confections: Cakes, Pastry.

Spring Term. 1. Composition of the human body.

2. Mineral matter. Impure water and foreign matter.

3. Food Principles: Practical lessons on preparing fish, eggs, meat and fruit.

4. Adaptation of food to climate, occupation, etc.

COURSE II.—*Second-Year Class*, four and one-half hours a week.

Fall Term. 1. Study of Desserts, Extracts and Baking Powders.

2. Way in which food supplies the wants of the body.

3. Nutrition. Absorption and Digestion.

4. Making Jellies, Pickles, Marmalades, etc.

Winter Term. 1. Composition of food. Practical lessons in fancy confections.

2. Study of preservation of food condiments.

---

\*Part of year.

3. Practical lessons in rolls, fancy desserts, cakes, etc.
4. Study of fungus plants and other vegetables.

Spring Term. 1. Jellies, Salads, Puff Pastry, Practical lessons in Salads, dishes with gelatin, fruit, etc.

2. Dietaries. Fermentation. Invalid cooking.
3. Review of work in study of food composition.
4. Plain creams and sherbets.

COURSE III.—*Third-Year Class*, six hours a week.

Fall Term. 1. French terms and cooking. Symbols and chemical terms.

2. Fancy fruits and desserts.
3. Study of oleaginous seeds, farinaceous and saccharine preparations.
4. Care of kitchen utensils. Setting tables.

Winter Term. 1. Pastry cooking. Special work in Breads, Pastry, Cakes.

2. Study of alcoholic beverages and non-alcoholic beverages.
3. Review of work of department.
4. Selection, care and arrangement of kitchen furniture.

Spring Term. 1. Special work in breads, pastry and cakes.

2. Complete Inventory.
3. Care of Dining Room.

COURSE IV.—*Senior Class*, six hours a week.

Fall Term. 1. Study of Menus. The usual and average American dinner consists of:

DINNER.		
Soup.		Celery.
Potatoes.	Roast.	Tomatoes.
	Salad.	
Crackers.		Cheese.
	Dessert.	
	Coffee.	

This should be served in five courses. Attention must be given to the following points:

1. The care of the dining room before dinner.
2. The setting of the table, side table and sideboard.
3. Preparation of relishes, bread, water, etc.
4. Serving the meats.

Winter and Spring Terms.—Etiquette of serving and carving. An essay of not less than 800 words. All books submitted neatly copied. Correct all First-Year students' books and papers. Prepare meals and serve to board.

## DEPARTMENT OF PEDAGOGY AND HISTORY.

JAMES T. HODGES.  
MISS C. B. DRISDALE.  
MISS M. B. CROSS.

**COURSE I.** History of Texas (Pennybacker).—This course merely reviews the text and is made to include notes and statistics on the industrial history and growth of the State.

First Year; Fall Term, five times a week.

**COURSE II.** United States History (Barnes). In addition to a review of the text, special attention is given to the policy of expansion and to the biographical and industrial history of the United States.

First Year; Winter Term, five times a week.

**COURSE III.** Civics (Young).—This course aims at an intelligent knowledge of the history of our government, the birth, spirit, growth and operation of our constitutional liberties to the end that a strong patriotic sentiment and a worthy citizenship will result.

First Year; Spring Term, five times a week.

**COURSE IV.**—English History (Lancaster).—The aim of this course is to afford a close study of the early English people, their steady growth, their public spirit and institutions and the expansion of their colonial and maritime policies.

Second Year; Fall and Winter Terms, five times a week.

**COURSE V.** Pedagogy.—School Management (White).—This course comprehends plain and practical talks on the following subjects: Written and Oral Recitations; Ends and Means of Management; Elements of Governing Power; Conditions of Control; Devices in School; School Grading; Will in Conduct.

Second Year; Spring Term, five times a week.

**COURSE VI.** General History (Barnes).—In this course time and attention are put upon those ancient and modern nations who have contributed largely to the progress of the world. Special attention is given to those men and great historical movements which have influenced the course of modern progress and made it continuous.

Third Year; Spring Term, five times a week.

**COURSE VII.** Pedagogy (Hewitt).—Recitations and discussions on following subjects: Study of Mental Powers, The Art of Training, The Teacher, The School, The Lesson.

Third Year; Spring Term, five times a week.

**COURSE VIII.** Psychology (Baldwin).—The following subjects are carefully studied to the end of forming correct mental habits and of becoming qualified, sound instructors of youth: Attention, Instinct,

Sensation, Sense, Preception, Memory, Imagination, Conception, Judgment, Reason, Will.

Fourth Year; Fall Term, five times a week.

COURSE IX. Moral Science (Hickok).—The purpose of this course is to find our reasonable duty to ourselves, to others, to our government and to God. Our effort is to find also right rules of conduct and the plain ground for personal duty and responsibility.

Fourth Year; Winter Term, five times a week.

COURSE X. History of Pedagogy (Seeley).—In this course we study the growth of pedagogy, of primary and State education and the great educational movements such as Christianity, The Renaissance, and Protestantism. Special study is given to educators: Erasmus, Montaigne, Luther, Cominius, Rousseau, Pastalozzi, Froebel, Herbert Spencer, Horace Mann, Drs. Parker, Harris Curry, and Booker T. Washington.

Fourth Year; Spring Term, five times a week.

#### DEPARTMENT OF SEWING AND MILLINERY.

E. E. HOUSWORTH.

R. E. COX.

##### PLAIN SEWING.

FIRST YEAR. *Fall Term.*—Basting; overbasting; overhanding; hemming; backstitching; gathering and shirring.

Short lecture on the subjects taught. Practice three hours per week.

*Winter Term.*—Herring-bone stitching on flannels; French and flat fell, tucking and whipping ruffles, slip and blind stitching. Darning on cashmere.

Short lectures on subjects taught. Practice three hours per week.

*Spring Term.*—Making buttonholes and eyelets. Names of sewing machines and parts, how to clean, oil and operate the machine, attachments and their uses. Art needlework.

Lecture on cotton goods and their manufacture. Practice three hours per week.

SECOND YEAR. *Fall Term.*—Machine stitching; choice of material, cutting and making plain underwear.

Theory one and one-half hours per week.

Practice three hours per week.

*Winter Term.*—Taking measures, cutting and making negligee shirts and aprons.

Theory one and one-half hours per week.

Practice three hours per week.

*Spring Term.*—Taking measures, cutting and making aprons, plain shirt waists and dresses for children and adults. Adapting patterns to tall and short figures.

Theory one and one-half hours per week.

Practice three hours per week.

THIRD YEAR. *Fall Term.*—Theory, measurements and drafting, two and one-half hours per week. Choice of materials, drafting and cutting plain shirt waist and underwear from measurements.

Practice six hours per week.

*Winter Term.*—Theory, talks on form, drafting and cutting foundation and top skirts from measurements and how to make them.

Practice six hours a week.

*Spring Term.*—Drafting basques with extra seams for stout figures. Talks on form, talks on colors and textiles, applied to dress. Advanced work in making dresses from different materials.

FOURTH YEAR. *Fall Term.*—Drafting sleeves and accessories for waists and skirts. How to bone and finish waists. Lecture on shopping, choice of color and material.

Practice three hours per week.

*Winter Term.*—Designing and drafting, cutting, fitting and pressing. Talks on the manufacture of cloth. Drafting jackets and capes of different styles. Making various styles of collars and pockets.

Practice three hours per week.

*Spring Term.*—Drafting garments of different kinds, making and finishing garments of various styles from different materials. Lectures on cleaning and renovating garments.

Practice three hours per week.

#### MILLINERY COURSE.

(For Seniors and Specials.)

*Fall Term.*—Theory. Instructions in the choice of materials; making wire and buckram shapes of different styles; wiring; folds. Talks on shapes of heads as related to hats.

Practice three and three-quarter hours per week.

*Winter Term.*—Theory. Making and trimming turbans and toques; full facings, fitted facings, puffed edges; making a variety of bows. Talks on manufacture of felt and straw hats.

Practice three and three-quarter hours per week.

*Spring Term.*—Talks on the manufacture of crepe and silk. Draping mourning bonnets. Making and trimming spring and summer hats of different styles from light weight materials and straw. Making flowers of ribbon. Talks on the combination of colors and how to freshen straw and ribbon.

In Memoriam  
Prof. W. B. Woodruff

Prof. W. B. Woodruff, who died in the service of the institution December 14, 1911, had been identified with the school as teacher and superintendent of the farm for more than 20 years. His work was most highly commended by the Board of Directors for he had brought the farm department up to a very high point of efficiency. Prof. Woodruff had won the favor and confidence of the authorities of the school as well as the patrons and all others having dealings with the college along his line. He had the happy faculty of cultivating friendship with nearly everyone who met him. His genial nature and broad heart made him an admirable associate. His life and work were a noble example for the inspiration of the boys and girls of the race.

## YOUNG WOMEN'S DEPARTMENT.

MISS A. L. EVANS, Preceptress in Charge of Girls' Dormitories.

MRS. R. B. HARBERT, Assistant Preceptress.

MISS E. E. HOUSWORTH, Assistant Preceptress.

MISS C. B. DRISDALE, Assistant Preceptress.

## DISCIPLINE.

We strive to use such discipline as will develop a *high type of womanhood*. Girls are encouraged to do right from *principle*. They are placed on their honor, and *conduct becoming ladies* is insisted upon.

The Preceptress lives with the female pupils and is present to advise and direct them.

Since we believe a knowledge of the details of household economy is essential to the education of every woman, each female pupil is required to spend some time every day in caring for the dormitories.

The *health* of the girls is a subject of constant care, and pupils are taught under direction to care for the ill.

*Plainness and economy* in dress are encouraged by precept and example.

Cleanliness of person, apparel, rooms and premises is the rule.

WHAT TO BRING.—Two blankets or quilts; three sheets, each two and three-fourths or three yards long; three pillow cases; one white bedspread; four towels; four table napkins; two yards unbleached domestic for clothes bag; one pair rubber overshoes; one mackintosh rain cloak; one umbrella.

## DORMITORIES.

The female pupils are housed in five buildings; three three-story brick buildings of 94 rooms and nine hallways, with a commodious front gallery looking south and extending the entire length of the building; the other two are comfortable two-story frame buildings of sixty and thirty-two rooms.

All buildings are well lighted and ventilated. The rooms are heated by box stoves, and there is no extra charge for fuel.

The five buildings each afford good accommodations for one hundred and fifty girls.

The class-work in Sewing, Millinery and Cooking is carried on in the Girls' Industrial Building.

In the brick building are located the office of the Preceptress, the girls' reading room and the girls' reception room.

## YOUNG MEN'S DEPARTMENT.

GEO. J. AUSTIN, Monitor.

## DISCIPLINE.

The aim of this department is to teach the male pupils self-respect, self-control and regard for the rights, feelings and property of others.

The boys are required to keep their rooms neat and clean.

Cleanliness of person, apparel, rooms, and premises is insisted upon.

A special aim is to inculcate a sense of honor; a regard for truthfulness and honesty; and appreciation of duty and personal responsibility, and habits of application and industry.

#### DORMITORIES.

Foster Hall is a three-story brick building containing 29 rooms and three halls. The second floor of the Kirby Hall contains 10 rooms; the Pickett Hall 16 rooms. These buildings afford fair accommodations for 150 boys.

#### THE DINING HALL.

H. C. ALDRIDGE, Steward.

P. E. BLEDSOE, Director of Mess Hall.

C. H. GRIGGS, Assistant Director.

The pupils and some of the teachers take meals in the school dining hall, which is large, airy, well lighted and comfortable.

The tables are served at meal time by young men students, who in this way earn a portion of their school expenses.

A high standard of social conduct is aimed at. Pupils are constrained to cultivate a quiet, genteel, refined demeanor. Boisterousness is discouraged, and anything tending toward familiarity or vulgarity in conduct or conversation meets with sharp disapproval.

The director is in charge of the pupils in the dining room.

The corps of boy waiters have the duty of serving the meals, waiting at tables, and clearing tables, cleaning dishes and setting up tables for the succeeding meal.

The diet is plain and healthful, with considerable variety, both of material and preparation. On holidays a special dinner is served.

#### THE SCHOOL LAUNDRY.

W. P. TERRELL, Superintendent.

A. D. EWELL, Foreman.

MRS. R. L. EWELL, Assistant.

The laundry is supplied with steam and equipped with suitable machinery.

There are three large cylindrical washers, one extractor or rotary wringer, clothes starcher, collar and cuff ironer and mangle.

The entire washing, ironing and sorting of the clothes for all the pupils is done in the steam laundry by the girl pupils, assisted by three boys and directed by a foreman.

Pupils thus have the opportunity of learning a useful calling, while doing their own laundering.

## DEPARTMENT OF MUSIC.

MISS W. B. PATTERSON.

## COURSE IN PIANO.

Piano, Violin and Mandolin thoroughly taught. Pupils advanced according to ability. The Piano Course includes the following studies: Root's Pleasant Hours Instruction Book, Sonatina Album, containing sonatinas and rondos by Bach, Beethoven, Haydn, Mozart and others; Sonata Album by Haydn, Mozart and Beethoven; Field's Nocturnes, Mozart's Sonatas, Chopin's Nocturnes and Artist's Repertoire.

Mandolin Course—F. de Christofaro's Method, Nos. 1 and 2.

Violin Course—White's Method, Kayser's Elementary and Progressive Studies and other Technics.

## **GENERAL INFORMATION.**

### **SITUATION AND SURROUNDINGS.**

The Prairie View State Normal and Industrial College is located in Southeast Texas, in Waller county, six miles east of Hempstead. The situation is commanding and beautiful. The buildings face a broad prairie on the south, which runs for miles to the southeast. To the west and north lie extensive tracts of timber. Five miles southeast is the growing little town of Waller. The Houston & Texas Central Railway runs in front of the school, a mile distant, making the college easy of access by rail from all parts of the State.

A constant Gulf breeze, which often becomes a strong wind, insures a pure and healthful atmosphere, and the general health of the pupils has been good.

### **HOW TO REACH PRAIRIE VIEW.**

Several days before leaving home, students should inform their nearest railroad ticket agent that Prairie View Station is in Waller county on the main line of the Houston & Texas Central Railroad, and find out from him the best route to reach it. Find out also on what day and on what train you will arrive, and notify the Principal of the school of your coming.

### **OPENING DAY.**

The thirty-third annual session opens Wednesday, September 4, 1912, and every student, if possible, should reach the College on the opening day.

### **MESS HALL.**

All student boarders and all unmarried teachers take their meals at this building in the large dining hall. The aim of the State is to furnish a palatable, healthful diet at actual cost of material and service.

### **YOUNG WOMEN'S DORMITORIES.**

The girls of the institution are housed in five dormitory buildings: one, a two-story frame building of 31 rooms; the second a three-story brick building of 36 rooms, and the third and fourth are three-story brick buildings of 28 rooms each on second and third floors and containing on the first floor the Sewing and Cooking Departments, and the fifth a frame building with 16 rooms. These five buildings are all lighted by electric lights and have water connection and baths with hot and cold water.

### YOUNG MEN'S DORMITORIES.

The Kirby Building has been moved to the east part of the campus, and has undergone an extensive and thorough remodeling and repair, which has made this one of the most useful and tasteful buildings of the institution. The upper story contains ten bed rooms for senior boys; the lower, seven rooms, are used for the Chemical and Physical Laboratory and recitation rooms.

Pickett Hall is a frame building of sixteen rooms for the accommodation of young men. The new frame two-story building erected during the session contains 32 rooms.

The three-story brick dormitory, Foster Hall, was built for boys in order to meet the growing demand for room. This building contains twenty-nine rooms, with good light, ventilation and furnishings. A brick bath house contains shower baths for boys.

### THE "BARRACKS."

The constantly increasing number of students applying for admission at Prairie View necessitates constant effort to provide for their accommodation. In addition to the regular dormitory buildings for boys, it has been necessary to erect a temporary frame structure known as the Barracks. This building throughout is comfortable, roomy and sanitary and well lighted by electricity and will accommodate about forty boys.

### ACADEMIC HALL.

This hall is a stately building—the main central part being three stories in height and containing, above, the chapel, with a gallery, and below, the principal's office, book store, library and reading room. Two wings, each of two stories, contain six recitation rooms and two committee rooms, used solely by the Board of Directors whenever the business of the school requires their presence at the institution.

### THE SHOP.

The shop of the Mechanical Department is a two-story brick structure, with an additional room of brick, containing the wood-working outfit, and additions containing the blacksmithing outfit, engine and boiler, steam laundry, printing, shoe and harness shop, etc.

### THE CAMPUS.

The school campus comprises at present fifty acres in which the above buildings are appropriately situated. Fourteen teacher's cottages are located around the campus. All the dormitories and school buildings have light and water connections.

### HONORS.

Students who complete the studies of the full course satisfactorily, making required averages, will receive a Normal Diploma. Said diploma has by law the rank of a permanent teacher's certificate and is valid during good behavior.

First Grade Normal Certificates, valid for six years, and Second Grades valid for three years in the public schools of Texas, may be issued to those who complete the required subjects and attain the required standing in the work of the Third and Second Years, respectively.

In addition to an attendance of at least nine months, and satisfactory class-room work and deportment, students must show a commendable ability to teach before either certificate or diploma is granted.

The right of a pupil to receive a diploma or a certificate shall be determined by the Faculty, in full meeting, according to the standard of scholarship, and the mode of recording the same, as have been regularly and previously provided for.

### LIBRARY AND READING ROOM.

The general library and reading room occupies a space on the first floor of Academic Hall. It contains about 2000 volumes of reference books, history, biography, poetry and general literature. Most of these books are selected with special reference to the tastes of students and young people—and are classified according to the latest methods. They are all catalogued on cards, and drawn by all pupils without cost.

The reading room receives regularly some of the leading newspapers and periodicals, and is open seven hours on each week day, two hours on Sunday and three hours on holidays. A reading room for girls with equal accommodations is located in their brick dormitory.

### RELIGIOUS OBSERVANCES.

On Sunday morning at 9:30 a Sunday school is regularly held, followed by a review of the lesson by the superintendent. Two voluntary Christian societies are maintained by students, assisted by teachers, the Y. W. C. A. for girls and the Young Men's Christian Association for the young men. The Young Men's Christian Association is well organized and holds two meetings each week; one for Bible study outlined as by the International Committee, and another where different religious and moral subjects are discussed.

At 7 p. m. every Sabbath, students assemble in the Chapel to hear a sermon or a religious lecture.

### LITERARY SOCIETIES.

In addition to the classes in monthly rhetorical, each class is expected to organize and maintain a literary society throughout the ses-

sion. These literary societies are officered and governed by members of the respective classes, a teacher being assigned to encourage and supervise each organization. Experience demonstrates that much useful drill and education may be derived from the proper conduct and management of these societies.

### RHETORICALS.

The fifth and sixth periods of every other Monday in the school year are given to rhetorical. The whole student body is divided into groups and one group is assigned to a teacher. Two hours of the first Friday night in each month of school are given to a public program composed of pieces rehearsed during the month and the pupils rendering them. Pupils are held accountable in the proficiency of this work, which has been given a relative weight in our system of grading.

### SOME GENERAL REGULATIONS.

1. The discipline of the school aims to lead its students to self-control, and to prepare them for the successful discharge of the practical duties of every-day life and citizenship as well as for the special duties of school, farm, shop and home.

2. Promptness to all school duties is exacted. Neatness and cleanliness is a rule of the institution.

3. Students are impressed that intelligent labor is dignified and necessary to all individual or social development.

4. No student need come to Prairie View with the idea that it is a place to get a certificate to teach with little real effort. Thorough, conscientious work must be done to merit any honor from the institution.

5. No student can leave the ground at any time, or omit any school duty, unless by written consent from the Principal.

6. The use of tobacco and of all narcotic or alcoholic stimulants, is forbidden as being a hindrance to the process of education.

7. Students whose conduct raises doubt or suspicion of their character and motives may be requested to withdraw from the institution.

8. True politeness is the rule of social conduct, and rudeness in speech or manner, ill temper, noisy, boisterous behavior, disputes and quarrels, are forbidden.

9. Extravagance and showiness in dress are not approved of by the Faculty. A neat, plain attire, and a modest, self-respecting demeanor, are expected of each student. Young ladies who graduate are required to wear a uniform designated by the Faculty.

10. Pay students are required to settle their dues in advance for the month, and students who fall behind ten days in the payment of their dues shall receive a notice, giving them ten days more to settle; and at the expiration of that time, if settlement is not made, such student shall be sent home.

11. All students are required to improve their advantages to a reasonable degree and according to their ability, and when it becomes

apparent that a pupil's time is not profitably employed he will be requested to withdraw.

12. Any student who marries during the school session forfeits his rights to any further connection as a student, and will be required to withdraw immediately from the institution.

13. Any student who proves physically unable to attend to school duties may be requested to withdraw.

14. Pupils proving to be consumptives will be sent home for proper medical treatment.

15. Idle, inattentive, refractory pupils will be dismissed.

#### CONCLUSION.

In preparing this catalogue, an attempt has been made to give the information necessary to those who think of attending school here. The course of study, entrance requirements, text-books, cost of board, and other matters of equal importance, are fully stated. However, if after carefully reading its contents the reader should desire further information concerning the school, a letter of inquiry addressed to the Principal will receive prompt attention.

In Memoriam  
Prof. J. H. Crawford

Prof. J. H. Crawford, Professor of Science of the Prairie View School at the time of his death, March 31, 1912, had given eleven years of his life to the work and had built it up to a point of efficiency far exceeding that of the department of any other Negro Normal School in the country. He was the governing influence on the committee of discipline, having a special gift of the power of control. Mr. Crawford's very life, aside from his regular duties, was consecrated to the matter of the discipline of the school. He had a fatherly care and interest in each boy and girl. He was a kind, sympathetic, strong, Christian man.

## ENROLLMENT, BY CLASSES, FOR SESSION 1911-1912.

## FIRST YEAR CLASS—MALES.

Alexander, H. G.	Cleburne.
Allen, H. A.	Mt. Pleasant.
Allen, P. A.	Kendleton.
Boyd, Ennis	Glenflora.
Blackshear, T. R.	Prairie View.
Boone, A. P.	Wharton.

Ward, N. M.	Weatherford.
Washington, J. W.	Highbank.
Young, Frank	New Waverly.

## SECOND YEAR CLASS—FEMALES.

Adams, Beatrice	Oakwoods.
Abrams, Beatrice	Oakwoods.
Arline, Minnie	Spurger.
Allen, Jeffie	Waco.
Adkins, Willie M.	Kilgore.
Adams, Elizabeth	Montgomery.
Ayers, Lelia	Houston.
Arnold, Jessie	Cameron.
Allen, Ella	Gause.
Alexander, Ruth	Hickston.
Bradley, Lougenia	Anderson.
Bracey, Lela	Bellville.
Bryant, Mary H.	Floresville.
Boyd, Artese	Hearne.
Birch, Wimmie L.	Highbank.
Bolden, Inez	Huntsville.
Bush, Pearl L.	Bellville.
Butler, Vida L.	Marlin.
Booker, Gertrude	Houston.
Butler, Beatrice	Yoakum.

Brooks, Mineola	Sealy.
Banks, Ora	Manor.
Bell, Elizabeth	Grapeland.
Brooks, Hortense	Woodville.
Barnhill, Anna	Crockett.
Cain, Florence	Emory.
Cole, Birdie	Wallis Station.
Cooper, Sarah	Caldwell.
Cotton, Bessie	Hutchinson.
Campbell, Kennie	San Antonio.
Calhoun, Louella	Hungerford.
Carter, Alline	Houston.
Dickey, Annie	Huntsville.
Dickie, Birdie	Huntsville.
Daniels, Bessie B.	Jonesville.
Doty, Olga	McKinney.
Bailey, Victoria	Grapeland.
Dibrell, Lola	Columbus.
Dillard, Hattie	Chappel Hill.
Darden, Dora	Barnes.
Evander, Vivian	Houston.
Edwards, Bertha	Lexington.
Freeman, M. C. E.	Los Angeles, Cal.
Ford, E. C. L.	Waco.
Fuller, Pauline	Fort Worth.
Felder, Madie	Chappel Hill.
Fitzgerald, Earnestine	Longview.
Fields, Annie	Hungerford.
Flanagan, Effie	Elderville.
Frazier, Saphronia	Magnolia Springs.
Green, Esma	Sherman.
Green, Beatrice	Somerville.
Green, Minnie	Iola.
Graves, Minnie	Caldwell.
Grady, Maude	Austin.
Herron, Ella	Guadalupe.
Hill, Luvenia	Temple.
Herron, Sina	Chatfield.
Hamilton, Margaret	Speegleville.
Hurdle, Hattie	Dixon.
Hall, Rachael	Bobville.
Holland, Ida	Orange.
Hart, Lola	Houston.
Hill, W. M.	Somerville.
Hopkins, Minnie	Dawson.
Johnson, Bonnie	Houston.
Jackson, India	Bonus.
Hardy, Lucy	Lakeland.
Jarvis, Lillian	Bryan.
Jackson, Lillie	Bellville.
Jones, Norma	Austin.
Johnson, Australia	Marshall.
Johnson, Alberta	Temple.
Jackson, Delitha	Houston Heights.
Jones, Maude	Houston.
Kennedy, Robbie	Rockdale.
Lewis, Ethel	Stoneham.
Lawrence, Katy	Dobbin.
Lee, M. A.	Prairie View.
Lott, Bessie	Runge.
Lemmons, Mozella	Crockett.
LaRue, Lela	Crockett.
Lawrence, Iva	Caldwell.
Lewis, Mabel	Terrell.
McPeters, Bulah	Clarksville.
McKinney, Effie	Navasota.

Moore, Minnie	Cameron.
Meredith, Katherine	Caldwell.
Mills, Ertie	Huntsville.
Moxley, Martha	Gilmer.
Maxwell, Julia	Highbank.
Mable, Rosa	Washington.
Miller, Willie	Houston.
Madison, Roberta	Austin.
McGuire, Pearlie	Longview.
McCall, Lula	Houston.
Moore, Annie	Hallettsville.
Nunley, Mattie	Vandalia.
Nobles, Margaret	Cuero.
Neal, Mary	Mahl.
Owens, Annie M.	Terrell.
O'Bryant, Mary	Huntsville.
Orr, Elizabeth	Frost.
Overstreet, Zehprania	Marlin.
Powdrill, Della	Nacogdoches.
Pierson, Pallie	Caldwell.
Patrick, Margaret	Midway.
Pope, Rosa	Houston Heights.
Quarles, Bell	New Waverly.
Randle, Adeline	Huntsville.
Randle, Lula B.	Waco.
Rowe, Dora	Sherman.

SUMMARY.

Males .....	66
Females .....	175
Total .....	241

UNDERGRADUATES—1909.

FIRST GRADE CERTIFICATES, GRANTED MAY 24, 1909—EXPIRE  
MAY 24, 1915.

Minnie Arnold.	Jeffry C. Gregg.	Jas. A. Osby.
Archie Anderson.	Turner Greer.	Wilbur C. Orum.
Selena A. Brown.	Lottie V. Howard.	Vallie H. Ratcliff.
Sammie D. Brown.	Lizzie Z. Hill.	Louise Ray.
Ida L. Barrens.	Katie E. Hardin.	Jennie Ratten.
Deborah Best.	Ella Hart.	W. H. C. Ratcliff.
Frankie E. Buckner.	Lydia L. Hawkins.	Fannie L. Reece.
W. A. Brown.	W. H. Hightower.	Allonia V. Richards.
Birdie Brewer.	Beatrice E. Johnson.	Nellie E. Reaves.
Marion Cooper.	Bonnie R. Jones.	Mercedes Smith.
Ardella C. Cavitt.	Andrew W. Jackson.	Loma R. Sims.
Thos. J. Choyce.	Pansy Kilpatrick.	May E. Stubbs.
Effie L. Crawford.	Myrtle S. Kitchen.	Lillian M. Sparks.
Mary B. Cross.	Mrs. B. A. Lilly.	Roy L. Stinnett.
Bessie Crawford.	Emma Lumpkins.	Addie M. Towles.
H. C. Davis.	Ruby L. Massey.	Roberta L. Thomas.
Beatrice L. Davis.	Mattie E. Manning.	Willie Tipps.
Lula L. Deveraux.	Lula Motley.	Arthur R. Turner.
Arie A. Estes.	Tracey P. Mason.	Johanna Thomas.
Lula B. Furch.	Martha B. McNeely.	Blanche Verette.
Jennie A. Fitzgerald.	Donald L. Maddox.	Olera B. White.
Gertrude M. Goodwin.	Alice V. McDade.	Mary E. Williams.
Rosetta M. Green.	Mary N. McGlasson.	Wm. M. Duvall.
Lizinka Grant.	W. T. McMichael.	
Mrs. M. B. Goins.	Emma B. Nathan.	

UNDERGRADUATES—1910.

FIRST GRADE CERTIFICATES, GRANTED MAY 23, 1910—EXPIRE  
MAY 23, 1916.

Katie I. Austin.	David L. Davis.	Hugh W. Harper.
Ethel V. Arline.	Blanche Drake.	James L. Hall.
Martha Ake.	Bertha Fulbright.	John M. Harris.
Napoleon B. Byrd.	Ezra Fisher.	Arletha Jones.
Fannie Butler.	Hortense Frame.	Jeremiah H. Jones.
Oressiae Boyd.	Maggie Faust.	Edna L. Jones.
Rufus C. Baird.	Lillian Garland.	Prudie A. Johnson.
Henrietta Brown.	Lucile Green.	Lula Jamison.
Blanche Bonner.	Elijah L. Gregory.	Katie Jones.
Mary E. Criner.	Viola Goodwin.	Jas. R. Johnson.
Ida Cole.	Bessie M. Hatchett.	Chas. E. Johnson.
Minnie Cox.	Maud E. Hardaway.	Arthur E. Jones.
Henry C. Carpenter.	Edna M. Hedrick.	Willia King.
Frank C. Constant, Jr.	Doc M. Carter.	Minerva Kennedy.
E. J. Campbell.	Odee C. Griggs.	Ed. Kerr.
Gertrude Cole.	Maggie Hearne.	Albert V. Lee.
Oscar C. Davison.	Richard E. Eckles.	Susie A. Lucas.
Carrie Dailey.	Jas. R. Hill.	D. L. Littles.
C. H. Daniels.	W. A. Hammond.	Emma Leonard.

Emma Madison.	Bessie Rabb.	Anna Watson.
Zena Massey.	Jaunita Sawyer.	Naunita M. White.
W. A. Minor.	Sarah Sheffield.	Sallie D. Williams.
Phelan McCoy.	Amanda Stewart.	Alberta Wylie.
Sadie J. Minkens.	Rebecca Starks.	Lucretia Walker.
Gertrude North.	Virginia Stewart.	Etna O. Warden.
Ed. Orviss.	Jeddie L. Strom.	Mamie G. White.
Vernon D. Orviss.	Minnie O. Spiller.	Geore Williams.
Pearl Philio.	Lena Shropshire.	Mae O. Worsham.
Lillie Pleasant.	Luberdia Thomas.	Irene Winn.
Georgia Pierce.	Saunders J. Thompson.	Eula P. Winn.
G. W. Powdrill.	Ouida Valentine.	Clara Young.
Bertha Patillo.	Mamie Vernall.	Peter E. Young.
Vera Prather.	George A. Wells.	
Tim W. Phillips.	Sanford J. Washington.	

SECOND GRADE CERTIFICATES, GRANTED MAY 23, 1910—EXPIRE  
MAY 23, 1913.

Geneva Abernathy.	Cleopatra Harris.	Hamilcar Payne.
Lucile Alexander.	Sam'l C. Hunter.	Etta Phillips.
Katie Anderson.	Malacia Hilliard.	Gussie Phillips.
Ralph M. Bassett.	Zeslia Hughes.	Myrtle Price.
Henrietta Bailey.	Fannie E. Hamilton.	Mollie Quinn.
Cleopatra Bates.	Beatrice Holland.	Edward Robinson.
Lillie Bates.	Estella Ikard.	Albert G. Robinson.
Ethel Beall.	Nannie James.	Aldina Rucker.
Ulysses S. Blanks.	Nina James.	John L. Sanders.
Jesse Bradford.	Mettie O. Jackson.	John W. Sanders.
Willie Bradley.	Rhoda Jackson.	Mamie Sims.
Terie Brailsford.	A. R. Johnson.	Bessie Sims.
Ela Brown.	Mrs. M. A. Johnson.	Clarence Smith.
Ethel Bledsoe.	Phillip A. Jones.	Nugent Smith.
Beatrice Bryant.	Jake J. Jones.	Mattie Small.
Clara Campbell.	Minnie Jones.	Willie M. Stanton.
Falonia Calhoun.	Rachel Judie.	Georgia Spears.
Verona Cotton.	Ella Kennon.	Mary V. Somerville.
Willia Cotton.	Lula Kevels.	Minnie L. Stockton.

## SAMPLE EXAMINATION FOR SECOND YEAR.

## UNITED STATES HISTORY.

1. Indicate the parts of America claimed originally by each of the European nations. Why were they so claimed?
2. State the motive and cause of each charter change in the Virginia colony. Tell of the Bacon and Clayborne rebellions.
3. Show difference in causes and results between King William's War and the French and Indian War.
4. What questions growing out of the French and Indian War helped to bring on the Revolutionary War? Show how.
5. Name three difficulties that stood in the way of the treaty of peace at the close of the Revolutionary War. How?
6. Locate and tell how and when the United States made each addition to its territory since 1800.
7. Why is foreign immigration encouraged by the United States? What restrictions and what prohibitions are put upon it?
8. What is the Monroe Doctrine? What called it forth? On what occasions has it been applied?

## ARITHMETIC.

1. A bought a sack of sugar weighing 150 lbs. at  $5\frac{1}{2}$  c. a pound; B made 10 purchases of 15 pounds each at 6c. a pound. Who made the better deal and what per cent did he save?
2. A man drew out of the bank three-fifths of his money, and expended 30 per cent of 50 per cent of this for 728 bushels of wheat at  $\$1.12\frac{1}{2}$  a bushel. Find amount left in bank.
3. For what sum must a note payable in 60 days be drawn to produce  $\$493$ , when discount is at 8 per cent?
4. A note of  $\$650$ , dated March 2, 1869, and payable April 1, 1870, was discounted February 3, 1870. What were the proceeds?
5. Find the square root of 3-5 to four decimal places; of 9 1-3 ten thousandths.
6. A horse is tied to a stake with a rope 30 feet long. Find area of the flat of land on which he feeds.

## ALGEBRA.

1. Divide  $a^4 - 81b^4$  by  $a - 3b$ .
2. Change to a mixed or integral expression: (a)  $\frac{x^2 - 2x + 1}{x - 1}$ ;  
 (b)  $\frac{x^2 - 2x + 1}{x + 1}$ ; (c)  $\frac{16(7x^2 + 1)}{4x - 4}$ .
3.  $\frac{m^2 - n^2}{(c + d)^2} \div \frac{m - n}{c + d}$  equals what?
4. Simplify: (a)  $1 - \frac{1}{1 + \frac{1}{x}}$ ; (b)  $\frac{11a^2 - 22ax}{33(a^2 - 4x^2)}$
5. A house and garden cost  $\$850$ ; five times the price of the house was equal to twelve times the price of the garden. Find the price of each.
6. How many 10-cent pieces and how many 25-cent pieces must be taken so that 70 pieces shall make  $\$10$ ?

## SPECIMEN ENTRANCE EXAMINATION QUESTIONS.

## ADMISSION EXAMINATION, FIRST YEAR.

## UNITED STATES HISTORY.

1. Name and locate the first four permanent settlements made by Europeans in North America.
2. Tell the story of John Smith. Who was Pocahontas? Who King Philip? Who William Penn? Who Roger Williams?
3. Who settled Pennsylvania, Massachusetts, New York, Texas?
4. What became of the French and Spanish possessions in the new world?
5. What did Franklin, Washington, Jefferson do? Who were the Tories?
6. What was the Missouri compromise? The Dred Scott Decision? What the Monroe Doctrine?
7. What were the armies fighting about at Quebec, at Yorktown, at Gettysburg? How were the questions settled?

## GEOGRAPHY.

1. Define meridian, tropic and zone. Locate and define the prime meridian.
2. Name the coast forms of land and water. Locate three of each.

followed by Mrs. Gingles, Mrs. B. Bedford, Bellville;  
Steve White; Rev. R. M. Johnson, Leabetter.

Every colored farmer should prepare to attend next session.

## THE SUMMER SCHOOL.

---

### OBJECT OF SUMMER SESSION.

There is a large class of progressive teachers whose regular engagements in the public schools make it impossible for them to attend the regular nine months' sessions of any college.

There is another large class of progressive teachers whose large family responsibilities make it impossible for them to set aside sufficient finance to support their families and at the same time maintain themselves in a nine months' college session.

There is still another class of earnest, deserving young men and women who have to support their aged fathers and mothers, and who are maintaining relatives in school and are thereby prevented from saving up enough money at any one time to attend a full college session.

In view of the growing interest in industrial education, there are still others who desire to study scientific agriculture, mechanics, dressmaking, domestic science and other trades, and yet find it inconvenient to attend the regular nine months' session.

To meet the long-felt wants of these many classes is the object of the summer session of the Prairie View State Normal and Industrial College.

### SCOPE OF WORK

1st. All the work of the regular normal course, including the industries of the college, will be taught in the summer session.

2nd. Special courses, such as typewriting, stenography, business courses, languages, higher mathematics, vocal and instrumental music, etc., will be taught by competent instructors to those who desire to make a specialty of these subjects, or any of them.

### CREDIT FOR WORK DONE.

1st. Those who attend during the Summer Term will have their standing recorded in the College records, and due credit will be given for this work just as in the case of work done during the regular Fall, Winter and Spring Terms, and when a student has satisfactorily completed the courses leading to a certificate or diploma, making the required averages in both class work and examinations, such certificate or diploma may be granted, provided that no student shall receive a normal diploma unless he shall have attended at least three terms of the regular session, in addition to the work done during the Summer Terms; and provided that no certificate shall be granted unless the student has attended at least one term of the regular session, three terms in all.

2nd. Those who do not desire to pursue the regular course, but
