### ☆ TONIGHT'S GAME ☆

Prairie View and Texas Lutheran continue their football competition for the 14th year with TLC now holding the edge in the win column seven games to PV's six victories. Naturally the Panthers are hoping to even the series in 1984.

The Panthers also hope to end a five game losing streak with their first game on campus this year. With the backdrop of Blackshear Field – the feeling

of the home crowd – and the unusual occasion of the first night game in Pantherland history – something different will happen.

The TLC Matadors from Seguin, Texas are always a strong contender, and this year's team is proving to be no exception. Watch for a tough, hard fought game between these two very friendly but very competitive opponents.

## Prairie View A&M

Engineer, researcher, government administrator, technical consultant and now university president. That's Dr. Percy Pierre, the fifth president of Prairie View A&M University.

The 45-year-old native of Donaldsonville, La. earned the bachelor's and master's degree in electrical engineering from Notre Dame. he earned a doctoral degree in electrical engineering from Johns Hopkins University.

He has taught electrical engineering at Notre Dame, Southern University, Johns Hopkins University, Morgan State, University of Michigan, UCLA and at Howard where he was dean of engineering from 1971 to 1977.

Dr. Pierre also has worked for the Rand Corporation, was program officer with the Alfred P. Sloan Foundation, served as a White House fellow and Assistant Secretary of the Army for Research, Development and Acquisition. He also founded a Washington DC consulting firm in 1981.

Athletics played a big part in his background having played basketball on his high school team.

And as chief executive officer at Prairie View the excellence and high achievements which he has earned will be transcended into the athletic department with successful programs across the board expected under Dr. Pierre's guidance.

Dr. Pierre currently serves as a member of the Board of Trustees at Notre Dame, a member of the National Aeronautics and Space Administration, on the Advisory Committee for Engineering at the Johns Hopkins University, is treasurer for the White House Fellows Foundations, member of the Advisory Committee for Engineering at Florida A&M University and Florida State University, a counselor for the Texas A&M Research Foundation and co-vice chairperson for the Texas Committee for Employer Support of the Texas National Guard and Reserve.

Dr. Pierre is married to the former Olga Markham and has two daughters, Kristin and Allison.

## Texas Lutheran College

Texas Lutheran is a senior, co-educational, liberal arts college owned by The American Lutheran Church. It receives support and students from all three major Lutheran synods. Students and faculty represent all major religious denominations and come from 37 states and 7 foreign countries.

The College is committed to the development of the whole person and utilizes the resources of the Christian tradition in the fulfillment of that task. The administration and faculty have a genuine concern for each student, which is implemented by a low student-teacher ratio.

The institution is located on the western edge of Seguin (population 18,000), county seat of Guadalupe County, in south-central Texas. The 120-acre campus is only a 30-minute drive from San Antonio on IH-10. The state capital of Austin and the attractions of the Gulf Coast and Mexico are in easy driving distance.

Texas Lutheran offers 28 areas of study leading to the bachelor of arts, bachelor of science, bachelor of music education or associate in science degree. The College admits students of any race, color, and national or ethnic origin.

A modern institution of the church, TLC strives to meet creatively the needs of its students, its constituencies, and the larger society it serves. The College offers the opportunity for developing a capacity to learn as well as the motivation to keep on learning. TLC aims to cultivate both the intellect and the spirit as instruments of service. This deliberate and simultaneous attention to humane and spiritual values forms the essential foundation of a Texas Lutheran College educa-

# **NROTC \$15,000 SCHOLARSHIPS:**

**A VALUABLE SCHOLARSHIP.  
A VALUABLE CHALLENGE.**

The two-year NROTC Scholarship Program offers you a two-year college scholarship that's worth as much as \$15,000 in tuition. And it offers you the challenge of becoming a Navy Officer with early responsibilities and decision-making authority.

During college, the Navy pays tuition, cost of textbooks, instructional fees, and an allowance of \$100 a month for up to 20 months during your last two years of college. Upon graduation and completion of requirements, you are commissioned a Navy Officer.

Call your Navy representative for more information on this challenging program.

# National Football Foundation's College Football Hall of Fame

Since the College Football Hall of Fame opened in August 1978, it has appealed to people of all ages with just about every interest imaginable . . . people who like movies, sports, computer games, American history, modern museums, great athletes, colorful displays, nostalgia, memorabilia, stirring speeches, cheerleaders, marching bands, Saturday afternoons in the fall and college football.

When the Hall of Fame was dedicated in August 1978, "Red" Blaik was the keynote speaker. He spoke to the crowd on behalf of all Hall of Famers and said,

"This is the best happening in college football since the legalization of the forward pass." His comment exemplifies the excitement that awaits college football fans who visit the shrine and the experience that already has been enjoyed by thousands.

The College Football Hall of Fame is not only a place to see,

learn and participate in the history of football, but a place to get to know the game as it is today. From its one-eighth mile long Time Tunnel, which traces the 2,000-year development of the game from ancient Greece to the present in more than 30 time capsules, to the Hall of Fame Room where each of the Hall of Famers are honored, to its futuristic use of computer terminals that allow the visitor to match wits with the great coaches or to call up the biographies of every Hall of Famer, the museum can and does bring the total college football experience to life. Its personalized approach and action-oriented attractions have intrigued all who have visited. As "Sleepy" Jim Crowley, one of the Notre Dame Four Horsemen, simply said, "This Hall of Fame is not in the telling or talking about, it's in the seeing."

## Galbreath Field

The National Collegiate Division III Football Championship (Amos Alonzo Stagg Bowl) moved to the College Football Hall of Fame's Galbreath Field in 1983. Augustana College (Illinois) came from behind for an exciting 21-17 victory over Union College (New York).

This year's championship again will be played at Galbreath Field on Saturday, December 8. The Amos Alonzo Stagg Bowl will mark the culmination of a three-week, 16-team national play-off among the nation's most outstanding small college football teams. Every aspect of the play-off is under the administration of the NCAA Division III Football Committee.

Galbreath Field is a 10,000-seat stadium located immediately adjacent to the College Football Hall of Fame at Kings Island, Ohio. The first intercollegiate game was played at Galbreath Field on September 12, 1981, between Ashland College and the University of Dayton.

# CIMARRON '84 THIS ONE'S GOT THE TOUCH.

The Cadillac touch. It's Electronic Fuel Injection, matched by a tenacious Touring Suspension that comes to grips with the road. It's leather-faced front bucket seats with lumbar support behind a leather-trimmed steering wheel that lets you know you're in control. It's new grille and taillight styling. Laser-accurate quality fits. It's Cimarron '84...with something no other car in its class has. The Cadillac touch.

**BEST OF ALL...IT'S A CADILLAC.**

Let's Get It Together...Buckle Up.

# An Important Message on Proposition 2

On November 6, 1984, the voters of Texas will be asked to approve a Constitutional Amendment, Proposition 2, which is critical to Prairie View A&M University in particular and public higher education in Texas in general. The ballot language reads as follows:

## FOR OR AGAINST . . .

The Constitutional Amendment created from general revenue a special higher education assistance fund for construction and related activities, to restructure the Permanent University Fund, and to increase the number of institutions eligible to benefit from the Permanent University Fund.

Proposition 2 establishes a new constitutionally dedicated fund for all public four year institutions outside the University of Texas and Texas A&M University Systems. At the same time, it broadens participation in the bonding program of the Permanent University Fund to include all UT and A&M Units. With its passage, all public senior colleges and universities will have dedicated funding to meet urgent needs for construction, repair and rehabilitation of existing facilities, and purchase of equipment, library books and materials.

This Constitutional Amendment provides the classrooms, libraries, laboratories, and educational equipment so vital to Texas students and our future.

It has widespread support from faculty members, administrators, students and others in higher education, as well as from both political parties and many public officials. The governing boards of all public universities have endorsed it.

It is essential that all alumni, friends and supporters of Prairie View A&M University understand the significance of this proposition.

Please consider its importance when you cast your ballot on November 6, 1984.

## **It turns heads as well as it turns corners. Celebrity Eurosport.**

At first glance, you'll notice the 1984 Celebrity Eurosport looks like a very special four-door sedan.

As you can see, its sleek shape is designed to reward your eyes, while it cheats the wind.

What you can't see, however, are the things that make Celebrity Eurosport as enjoyable to drive as it is to look at.

Inside, there's more passenger room than 101 out of 106 import cars.

Special F41 Sport Suspension components produce a ride that's firm, yet extremely comfortable.

And under the hood, Eurosport's available High Output V6\* produces ample power to shorten the distance between here...and there.

All of which adds up to an automobile *Car and Driver* magazine calls "an absolute joy to whip through the hills on a ripply stretch of two-lane blacktop." (3/84)

Celebrity Eurosport. From Chevrolet. Test drive one today. And find out how good a four-door sedan can be.

\*Some Chevrolets are equipped with engines produced by other GM divisions, subsidiaries, or affiliated companies worldwide. See your dealer for details.
