Farris-Ware Company Wins Top A.U.S.A. Activity Award

The Farris-Ware Company, Prairie View A. and M. College, Prairie View, Texas, received the award for the Best Activity to Assist the ROTC Unit in the annual competition of the Association of the United States Army.

The award was presented on October 16 by Gen. Charles H. Bonesteel, III, USA, Ret., AUSA vice-president, at the 19th annual meeting of the Association. Also present was Joseph Kremonas, execu-

tive director, Marketing, of Martin Marietta Aerospace.

Commander of the Company, Cadet Charles Brown, accepted the award on behalf of the Company during the seminar sessions held for the ROTC students.

The Farris-Ware Company was selected from more than 60 AUSA-affiliated ROTC companies throughout the country. By working with the Association, the ROTC cadets receive additional information concerning the role that the Army plays in the service of the Nation.

Through the publications of the Association, the cadets also gain added information and insight into matters of national defense that can be shared with other students and citizens generally.

The AUSA meetings were held Oct. 15-17 at the Sheraton-Park Hotel in Washington, D. C. and at the closing dinner on Wednesday the annual George Catlett Marshall Medal will be presented to the Secretary of State, the Hon. Henry A. Kissinger.

Yearbook Photo Schedule Posted

Individual yearbook photos of students and staff members will be taken on campus during the week of November 12 to 16.

All PV personnel are urged to pose for pictures. The visiting photographer will be located in the Memorial Center. The Yearbook staff pays the cost.

Organizations will be scheduled for group photos during the week following Thanksgiving.

PV SPIRIT — The Panther cheerleaders, shown during a drill in Grambling recently, have been going great in PV games this fall. They were in top form in the Cotton Bowl-Dallas last Saturday — helping to support the Panthers in their 25-3 victory over Bishop College.

Career Festival Set For October 30

Vocational Careers in Government will be major concern at the Career Festival scheduled on October 30, from 8:30 a.m. to 4:30 p.m.

Several federal agencies will be present and will be recruiting students from all majors.

Agencies planning to participate include — Social Security Administration, U. S. Army Audit Agency, U. S. Geological Survey, Soil Conservation Service, Fort Hood Civilian Personnel, Farmers

Home Administration, Federal Aviation Administration, Veteran's Administration, Veterans Hospital,

Ellington Air Force Base, U. S. Army Engineering District, NASA Johnson Spacecraft Center, Internal Revenue, Bureau of Customs, Equal Employment Opportunity Commission, Housing and Urban Development, Health, Education, and Welfare Department, Federal Highway Administration.

International Festival Features 22 Countries

On Tuesday evening, October 30, 1973, at 7:00 p.m. in the Ballroom of the Memorial Union, the students and faculties from foreign countries in cooperation with the Geography Club and the Iota Epsilon Chapter of Gamma Theta Upsilon (International Geography Fraternity) will sponsor an unusual International Festival.

The festivities will feature representatives from 22 foreign countries. Foreign students and faculties from Prairie View A&M

University, Texas A&M University, the University of Houston, Texas Southern University, Huston-Tillotson College and Sam Houston State College will acquaint the university with the cultures of their homelands. The festivities will commence with exhibitions and food tastings in the lower floor exhibit rooms of the student union at 5:00 p.m.

This festival is unique and we will all learn if we attend this occasion. Come one! Come all! Bring your guest.

Tri-Beta Society Inducts Twenty-Five New Members

On the night of October 18, 1973, Beta Beta Beta Biological Society inducted into its ranks 25 new members. Active members: Olivia Allen, Howard Brigham, Eula Forte, Stephen Johnson, Marion Lucas, Helen Stephens, Willie Stewart, Reginald Ware, Lillian Gosey, Associate members: Cathryn Banks, Kenneth Carter, Linda Jones, Sandra Richardson, Sandra Strange, Mart Thomas, Julia Vinson, Charles Williams, Roy Snaer. Graduate members: Beverly Calhoun, Robert Calhoun, Nancy Carter, Geraldine Cormier, Lowri Howard, Diana Smith, Ronald Abler. Beta Beta Beta is purposed to further the interest in the sciences.

The guest speaker for the induction ceremony was Dr. Paul Rodriguez, Division of Earth & Life Sciences, University of Texas at San Antonio. His topic was "Genetic Con-

trol, Formal Genetics, and Filial Susceptibility of *Aedes aegypti*". His topic dealt primarily with the methods being explored to combat the growth and development of the filarial virus in the *Aedes aegypti* mosquito, which can cause yellow fever in humans.

Charles Melton, president of Beta Beta Beta, presided over the ceremony and lecture.

Piper Professor Nominating Panel Named

President A. I. Thomas has appointed a nominating committee for the "Piper Professor of 1974".

The committee includes: Mr. C. T. Edwards, Chairman; Mr. J. J. Woods, Dr. Anne Campbell, Dr. George Woolfolk, Mr. Joseph Phillips, Miss Anne Wilson, Mrs. Ernestine Outley, Dr. Jewel Berry, Dr.

PV IN COUNTY PARADES — Army and Navy ROTC drill units join attractive queens and the PV A&M marching band in both the Waller County and Austin County Fair parades during the past two weeks. Thousands lined the parade routes in Hempstead and Bellville.

E. Thornton.

Prairie View A&M is authorized to submit three

nominations to the Minnie Stevens Piper Foundation before November 20.

Noted Biologist Speaks at PV

Dr. Robert E. Hungate, Professor of Bacteriology, University of California at Davis, presented a seminar entitled "The Roles of Micro-organisms in the Nutrition of Vertebrates". This seminar was given at 3:30 p.m., on October 31, 1973, in Harrington Science Building.

Dr. Hungate presented his lecture during a tour of Southern States upon his return from Europe. Prairie View was fortunate to have a scientist of his caliber for a visit.

Dr. Hungate is considered an expert on the function and physiology of the rumen. He has written several texts and numerous scientific papers concerning this subject. One of his books, *The Rumen and Its Microbes*, a widely read book, is in the W. R. Banks Library.

Dr. Hungate has served on several advisory boards and holds membership in many scientific societies. During the year 1970-71 he served as president of the

JOB INTERVIEWS for engineering students will be conducted by Arizona's second largest electric utility from 9 a.m. to 4 p.m. Monday, Oct. 29, at Prairie View A & M.

Syl Mabry, personnel administrator for the Salt River Project at Phoenix, Arizona, said his company is looking for students, who will graduate this semester with either bachelors or masters degrees in either mechanical or electrical engineering.

American Society for Microbiology.

Drama Class Visits Dance Theatre

Mr. Theodis Shine's drama class had the pleasure of viewing Agnes de Mille's Heritage Dance Theatre. The group performed at Jones Hall in Houston on the 17th and 18th of October. The performance started at 8:30 p.m. and it consisted of eight performances, with each being 30 to 45 minutes long.

The Society for the Performing Arts in association with S. HUOK presented the show.

The drama group consisted of instructors, Mr. Shine, Miss Edmund, and Miss Reed, and students, Sandra Mason, Michael McQuake, Barbara Smith, Jerrie Johnson, Nina McClendon, James Thomas, Denise Ford, Ronald Mitchell, Kathy Franklin, Phyllis Parks, Deborah Arnold, Lincoln Webber, Walter Parks, Thomas Gilmore, and Zachery Winn.

The most dramatic part of the performance was "A ROSE FOR MISS EMILY". This was a melodrama, written by William Faulkner, which showed how one individual's loneliness could lead to destruction.

Miss Emily was played by Gemze de Lappe and Her Lover was David Evans. The Choreography was done by Agnes de Mill, Music by Alan Hovhaness, and Costumes and

GETTING DOWN — Pictured above are the winners of the Continental Clubs Dance Contest held recently in the Women's Gym.

Panther Sponsors "Calendar Girl"

The Publications Staff of Prairie View A&M are now in the process of selecting young ladies to reign as a calendar month queen for the 1973-74 school year. The queens for September, October, and November have been selected, and we are presently accepting applications for the month of December. The qualifications are as follows:

1. poise
2. charm
3. personality
4. good school citizenship
5. good school spirit
6. beauty

If you would like to enter our contest please submit to our office immediately the following items on a sheet of paper or a 5x7 index card:

a photo or snapshot, your name, hometown, major, astrological sign, hobbies, and your ambition or goal in life

not later than November 8, 1973, 12:00 noon. (All

Scenery by A. Christina Giannini.

The next presentation will be LENINGRAD KIROV BALLET, and the Performance will be June 4-9, 1974.

Fellowships To Africa Available For 1974-75

For the 1974-75 academic year, approximately 13 scholarships will be available for students and young professionals to study or do research for one academic year in one of the following countries:

Algeria
Cameroon
Ethiopia
Ghana
Tanzania
Liberia
Nigeria

In addition, grants may also be available to Kenya, Morocco and Tunisia.

Ten grants will be provided under the Fulbright-Hays Program of the Department of State, and three will be offered under a program sponsored by the International Telephone and Telegraph Corporation. All grants include maintenance for one academic year for the grantee, round-trip international transportation, and health and accident insurance.

Candidates may apply to one country only, but may list two alternate country choices. A separate Statement of Proposed Study is required for each country listed.

Applicants must hold a bachelor's degree or its equivalent by the beginning of the year. See FELLOWSHIPS, Page 3

Your Choice of Colors

Hey, did you ever stop to consider that the BLACK race is the only one that affords you the choice of choosing whether your companion's skin is black, medium black, light black, dark brown, medium brown, light brown, dark tan, medium tan, light tan, dark red, medium red, light red, dark yellow, medium yellow, or high (light) yellow and you don't have to integrate to do it.

If we missed you when we visited Prairie View
If you have a technical discipline...
if you are about to decide where to put your education and abilities to work...
if you want to be involved in fast paced technological achievement...

CONSIDER THESE FACTS ABOUT THE TEXAS INSTRUMENT EQUIPMENT GROUP WHEN CONSIDERING YOUR FUTURE.

Texas Instruments is one of the leading technological companies in the world, with more than 40 manufacturing plants in 17 countries. Opportunities for your career include:

- ☆ Challenge — our growth goal is to reach \$3 billion in annual sales by 1980. Our growth requires engineers who have a desire for responsibility in an innovative, enthusiastic corporation where the atmosphere is informal but highly competitive, demanding and professional.
- ☆ State of the art technology — Stay current by working in systems development that is the forefront of electromechanical design or fabrication.
- ☆ Opportunity — As industry leaders in many fields, your career at TI can take shape in radar, electrooptics, guidance control, communications, computer design and other areas. Our growth provides endless, diversified advancement opportunities for engineers.

Positions require degree in engineering or computer science.

If you are excited about the challenge and opportunity of being involved in fast paced, significant technological achievements, consider Texas Instruments. Send resume to:

Economics and Geography Dept. Sponsors Transportation Lectures

This year the Department of Geography and Economics is offering a series of lectures on contemporary transportation problems. The Department of Geography and Economics has added to its staff the very fine leadership of Mr. Jasper L. Harris. Mr. Harris, received his B. S. degree in Geography from North Carolina Central University and his M. A. degree in Geography at the University of North Carolina, Chapel Hill, with a concentration in Industrial Geography.

His interest and work experiences have been that of an industrial analyst. Mr. Harris and his students in the Geography of Transportation class are sponsoring a series of lectures on this very important field of study:

October 3 - Air Transportation in Texas

October 10 - The Role of Water Transportation in Texas

October 19 - Transportation and Agriculture in Texas

October 24 - Mass Transportation

November 12 - Transportation Policy & Regulation

December 5 - Transportation Problems in Central Business Districts

These lectures are presented by representatives from the Texas Transportation Institute at Texas A&M University. They are held each Monday, Wednesday and Friday at 1:30 p.m. in Old Science No. 207. Interested persons are invited to attend.

Fellowships

Any of these Caterpillar areas of employment offers the same thing: a relevant job.

By relevant job, we mean a job that will let you use the knowledge you worked so hard to attain. And let you use that knowledge to your fullest extent.

At Caterpillar, we feel that we'd be cheating you, as well as ourselves, if we placed confining restrictions on how you apply your knowledge. That's why when we give you a problem to solve, we also give you everything you'll need to come up with the best possible solution.

It's our people that have put us in our world leadership position. It's going to be our people, and their ideas that will keep us there.

If you think you'd like to work for a company that will pay you to use what you've learned, talk to your placement director about Caterpillar. Waiting for you are a wide-spread variety of relevant jobs with a company doing business in 12 nations on 5 continents.

Our recruiter will be on campus November 9, 1973.

by Sandra Strange

Well, he has done it again. How much more of questionable politics are the American people supposed to endure? I refer to the firing of Archibald Cox this past week-end by Mr. Nixon (Tricky Dicky). Why did Mr. Nixon fire Mr. Cox? Mr. Cox opposed Mr. Nixon on the "Watergate tapes" controversy. So what? This country is supposed to be based on the right to oppose any one he pleases. Right? Questions like these are filling my mind, and as of late I have no concrete answers for them. Maybe the man that represents me in Congress can, that is why I am going to drop him a line. Maybe you should do the same.

A Prayer

Paternal Spirit, transcendent in power yet tender in mercy, our Lord,

We, persons comprising the fellowship of Prairie View A&M University (administration, faculty, and student body), attracted by the good life and inspired by worthy principles, appear at this place this very minute, trying. The daytime strain and fatigue is answered in the evening with temporary reward or temporary dismay. Let our efforts to excel be equal to sound intentions. Be with us. Stand by us.

Our search for thy divinity leaves no omission to consider the brotherhood of man. Indeed within humanity is a beauty that must be of heaven. The soprano cry of a baby's voice must be. The crinkling sound of a letter to a soldier in war must be. Often the "right of man" and the "what's happening lady" are at school, as the "take care of yourself" and the "we'll be seeing you darling" are at home. Help us to realize that germane to the alleviation of individual perplexities is the fraternity of all mankind.

Surely time will not erase a scene, the knees pressed against the floor, the soul forsaking a hurt it cannot seem to evict for words transforming deep anguish to joy as they leave for your eternal throne. Lord, visit with ineffable sustaining power we who aspire, that no thrift or perseverance will be in vain.

Amen

Jacob Bryant Moore 9-27-73

So You Have A Gripe

Dear Betti Ruth

I've just found out that the man I go with is married. I've been seeing him since the semester began and now I don't see how I can let him go. What should I do?

Signed,

Confused

Dear Confused:

The mess you're part of (and it is a mess) has many sides. Really, you haven't told me enough about your particular situation. However, since you aren't the only one, I'll make a few points.

(1) Why are you truly going with the man? Love is more profitable when he's single even when you're not out for marriage.

(2) Where does Mr. Married take you? Have you gone further than

PVU weekend dances, the Memorial Center and behind the field house?

(3) How did you find out he was married? If you found out from him, he may want you to take the hint and move on.

(4) How long do you want the relationship to last? How deep do you expect his love will go? Remember IT'S CHEAPER TO KEEP HER if nothing else.

NOTE: Last week there was an error in the column. It would be less embarrassing to be seen at PV's Birth Control Clinic than being sent home. Not the other way around.

Have you got a gripe? Would you like to see what I would do in your case? Write or call the publication office and Betti Ruth

Phi Beta Sigma Strikes Water

Phi Beta Sigma Fraternity installed an electric pump and tank system at a local Waller County residence as one of its major service projects to help improve the Community. The project was carefully planned by the Sigmas along with the help of Father Doyle, local Catholic Priest.

A series of problems caused the installation to be delayed for three weeks as the Sigmas engineers worked around the clock to figure out a solution.

Several major well companies advised the Sigmas to drill another well, but under the leadership of "Chief Fry" and faculty advisors Sam Daruvalla and Joseph Phillips, the project was completed.

The project was financed by Phi Beta Sigma Fraternity and The Newman Association of Prairie View.

Pictured above, in Monaville, Texas are (L) engineers (and Sigmas Brothers) Freeman, "Chief Fry," Crockett and Scur-

A Tribute To The Black Woman

Of all the women in the world,
The Black woman is the pearl.
She is the apple of my life,
And I will accept no other as my wife.
All through bondage she made her way;
That's why her position is so unassailable today.
Without any tender loving care she fought her ground,
And in her place — she was always found.
When times got rough and others started checking out.

The Black woman was still checking in.
She kept on pushing with blistered hands;
Hoping that one day there would be an end.
The time has come, Black Woman!
Cast all worries from your head,
And look to Jesus as the Bible says.
Your last days here will really fly, so
Lift up your head high and keep on
Trucking until you die.

By Larry James Jernigan

will answer. As you can see from the above situation, I will not tell you what to do but I will see from the above situation, you see it as I do.

Debra Sapenter

2nd of Three Part Series

Just Thought I'd Have Sumpin' To Say

Ho-hum, another day of living . . . ? Who says? What is living, I mean, you know . . . Life — Is It Really Worth Living?

Discrimination, disgust, prejudice, drugs, hunger, rejection, abortion, violence, hatred, generation gap, war . . . are elements of life that oughta really make life worthwhile, huh? Then, too, there are the elements of joy, peace, kindness, people, love, pride, honor . . . to, so to speak, complete life off. Life is the existence of the above elements — their wear and tear on one's soul; the realization and acceptance that your way is not always the right way; experiences that make one all the more what he is and is to be: self-control when anger wants to take hold; or just having a ball, Ripple anyone?

I am told, my friends, that life as a human being though BLACK entitles us to just that — life, liberty, the pursuit of happiness. Tell me. Do you really have those things, how about any one of them?

What makes life for you? For me, it is the elements from both the good and the bad side of life. The good because it is just that . . . good, pleasant,

ry. Proof of the success of the mission lies in the cool, cool water emanating from the hose held by Freeman.

beautiful. The bad because it helps us to better appreciate the good. Take violence. A bad element if ever — I saw one. It describes Vietnam violence which is ever present in the United States. Both countries cry out for a declaration of peace. A white boy brings home a black girl and is disowned. Now take love, the very most important and most beautiful element of life to me. I hope I don't get carried away with it but I love it, love it, love it, love . . . Now then love is not an easy feeling to put into words. It is that strong or passionate affection for a person that is all-consuming, all-committing, and worth dying for. It is the ties that bind a mother to the child she bears. It is the sacrifice of God's son for mankind. Yes, even for people in poverty there are the riches of love — their children. Their families are the beginning and the end for them. See why I like to talk about love and life — It's . . . just — aw man, let me tell it to you like this. If I were to have another chance to live after I died I would readily jump for it knowing oh, too, well that there are ever-present obstacles and pitfalls in life, but remembering also that there is the beauty and glory of love, too. Life — Is It Really Worth Living for YOU?

(Juanita Caldwell)

A college degree used to open a whole world of advancement. At JPL it could open a universe of achievement.

Because that's where we're headed, Venus, Mercury and Mars. And we need bright young minds to help us get there, people like the above. We hired them for their potential. They've already made good through their accomplishments. If you want a career with unlimited horizons. Contact your Campus Placement Office for further information, or send your resume to: JET PROPULSION LABORATORY, California Institute of Technology, 4824 Oak Grove Dr., Pasadena, Ca. 91103.

TED MOODY IS LEARNING HOW TO FLY

"He's a classy guy. Always went all-out." These are the words of one of the Dartmouth football coaching staff about Ted Moody, a former star linebacker. Ted graduated from Dartmouth College in '72 with a degree in Economics and a mission in mind . . . to be a pilot . . . A Naval Aviator.

Now Ted Moody is going all out again. This time in Pensacola, Florida as a Naval Aviation Officer Candidate. He is finding out what it takes to be a Naval Aviator. He's finding it takes a lot of classroom work and long hours studying. It takes a lot of work on PT fields and obstacle courses. It takes special training like the parachute slide and the land survival mission in which you must hunt your own food and erect your own shelter. It takes a lot of time in a cockpit and even some old fashioned close order drill. And it takes a lot more. But, most of all, it takes the right kind of man.

No, you don't have to play football to be a Naval Aviator, but you do have to have a college degree and a lot of drive. And, when the

time comes for you to wear your "Navy Wings of Gold" you will know what it takes. It takes your best!

For more information on what it takes to become a Naval Aviation Officer Candidate call, toll free: **800-841-8000**. (In Georgia, call 800-342-5855) or mail in the attached coupon. Be someone special.

College Students Poetry Anthology

The National Poetry Press announces its Spring Competition. The closing date for the submission of manuscripts by College Students is **NOVEMBER 5.**

Any student attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Shorter works are preferred by the Board of Judges, because of space limitations.

Each poem must be **TYPED** or **PRINTED** on a separate sheet, and must bear the **NAME** and **HOME ADDRESS** of the student, and the **COLLEGE ADDRESS** as well.

MANUSCRIPTS should be sent to the **OFFICE OF THE PRESS, NATIONAL POETRY PRESS, 3210 Selby Avenue, Los Angeles, Calif. 90034.**

Sigma Gamma Rho Revived at PV A&MU

It's been a long time since anyone has seen a Sigma line composed of girls, and newcomers to PV probably didn't know that Sigma Gamma Rho existed.

Avora Kathy Franklin informed us about the background of SGR. It was first founded in 1922 at Butler University in Indianapolis, Indiana, and the first charter line on campus was in 1969, and the last line was in 1971.

The initiation service was held Friday night at 6:00 p.m. in Suarez Hall and officers were elected. The new slate is headed by Jerrie Johnson, president; Verlean Hailey, vice-president; Sandra Mason, Secretary; Kathy Franklin, reporter; Gloria Ned, chaplain; Carolyn Moore, sergeant at arms; and Sarah Hackett, treasurer. Other members of the line include Gracie Shelton, Ann Martin, Dianna Doucet, Bonnie Jones, and Cynthia McZeal.

Some of the services of Sigma Gamma Rho are to emphasize finer womanhood and strive for scholarships, advertising for sororities in the SGR paper, aid in community programs, help with the National Council of Negro Women, Girl Scouts, Boy Scouts, and the YWCA. Sigma Gamma Rho has chapters in major parts of the United States, and the Bahamas and Africa.

On Location

Staff Member Visits Actress Cecily Tyson

MRS. MAMIE J. McCLOUD (Dept. of Modern Foreign Languages), visited on location Monday, Oct. 8th with CECILY TYSON (Black actress nominated for an Academy Award for her role in Sounder). Mrs. McCloud was invited to the set by her cousin, Ted Hayes, who is a Press Agent for the Black Syndicate of Louisiana Newspapers. The filming is being done in St. Francisville, La., (about 20 miles from Southern University). The movie is being made by CBS for a premiere television showing on Jan. 26th, 1974.

The movie entitled: **Miss Jane Pittman** is based on a novel written by Black Playwright, Arthur Gaines. Miss Tyson plays the part of Miss Jane Pittman. The novel tells the story of Jane Pittman who was born in slavery and died at the age of 112 in 1967. The movie is not meant to be the usual slave story, but it relates the story of this particular slave, (Jane Pittman), because of the very significant and active parts she took in all freedom movements, beginning in slavery time to marches with the late Dr. Martin Luther King. Her last active participation was in a Freedom March at the age of 110.

St. Francisville was chosen for the setting because of the numerous plantation homes that exist in good condition in that area. Most of the scenes take place at Cottage Grove plantation and in the town of St. Francisville. Except for Miss Tyson and about four other actors and actresses, the local townspeople are used in the movie.

On the set officially advising the production were several Southern U. faculty members from the Dept. of Speech and Drama and Dr. Tolson of the History Dept. Also present was the novelist, Mr. Arthur Gaines.

Mrs. McCloud was able to see the shooting of one scene and was amazed and impressed with the a-

mount of hard work and the multi-facet paraphernalia that go with movie making. Since Miss Tyson is playing the role that must span from a very young girl to a woman of 112 years, the make-up is fantastic. In the scenes where she plays the aged lady, applying the make-up takes four hours and the make-up weighs 14 lbs. Three pairs of contact lenses are worn by Miss Tyson to make her eyes look like those of a person over 100 yrs. old. Miss Tyson is giving her same brilliant performance as she did in *Sounder*. Her acting is superb in all of her different portrayals of Miss Jane Pittman.

MED SCHOOL ADMISSION PROBLEMS?

EuroMed may offer RX via overseas training

For the session starting Fall, 1974, the European Medical Students Placement Service, Inc. will assist qualified American students in gaining admission to recognized-overseas medical schools.

And that's just the beginning. Since the language barrier constitutes the preponderate difficulty in succeeding at a foreign school, the EuroMed program also includes an intensive 12 week medical and conversational language course, mandatory for all students. Five hours daily, the course is given in the country where the student will attend medical school.

In addition, the European Medical Students Placement Service provides students with a 12 week intensive cultural orientation course, with American students now studying medicine in that particular country serving as counselors.

Senior or graduate students currently enrolled in an American university are eligible to participate in the EuroMed program.

For application and further information, phone toll free, (800) 645-1234

or write, EUROPEAN MEDICAL Students Placement Service, Inc. 170 Old Country Road Mineola, N.Y. 11501

Come around. Taste the gusto of Schlitz.

Sigma Corner

Arthur Rawls

The Sigma Corner features brother Arthur J. Rawls, son of Mrs. Dorothy Goodwin and a senior from Trinity Texas majoring in Business Administration, centered on Accounting.

Brother Rawls made Delta Theta Chapter of Phi Beta Sigma on the spring line of April 1972. He is known as brother "Shakey" to his fraternity brothers, and friends on the hill. He has made the president's honor roll five times out of six semesters since arriving at Prairie View in September of 1970.

Brother Shakey had a very active high school career as he was class president of both his junior and senior classes. He also held the office of president of the Future Farmers of America his junior year, played varsity football for three years, lettering each year. He played on quarter finalist, semi-finalist, and state finalist teams respectively, and was captain of the team his junior year. Shakey also graduated valedictorian of his class.

During his sophomore year at Prairie View, he was selected by the Mobil

Oil Company to come to New York and spend a week in the business world with all expenses paid. He was chosen on the basis of an essay he wrote, and an interview taken by the representative of the company, in a campus wide contest.

The following summer he worked with Atlanta Life Insurance Company, and the summer following that with Dow Chemical Company, the companies were located in Houston, Texas and Denver, Colorado respectively.

While Brother Shakey was director of Social Action, he and the men of the mighty "blue and white" went to work in the community to put an electric pump and tank system to work for several families in Hempstead. They had financial assistance from Father Doyle and the

What's Happening On Other Campuses

JACKSON STATE COLLEGE — The ROTC Program has started to accept women in their program on the same basis as men. Wonder if that includes summer camp?

Vandalism of the pay phones and vending machines is also a problem at Jackson. So are the complaints about the food.

SOUTHERN UNIVERSITY — Nikki Giovanni visited their campus last month. The sound system went on the blink when she was ready to speak. Now that sounds like PVU.

SUNO editor expressed his dislike of military advertising in the school paper. Wonder what kind of ROTC program they have?

SUNO is looking for some cheerleaders. Are there any takers?

TEXAS SOUTHERN UNIVERSITY — The wo-

men seem to be having trouble with the dormitories. Lanier has sanitation problems and 47 Bolton residents had to move due to conditions.

TUSKEGEE INSTITUTE — Delta Sigma Theta is one the ball. They had a drive to raise money for the drought victims in Africa. Right on, sorors!

XAVIER — They are sponsoring a Black Cinema Arts Festival. Their first film was Porgy and Bess.

CLARK COLLEGE — The Clark Panther reports that the Alphas won the National College Achievement Award this past summer for outstanding services. Ladies, Clark College has elected a woman to head the SGA, Dorris Wright. A ball was sponsored in honor of Black women. Sounds like something a true Black school would do.

NORTH CAROLINA A & T STATE UNIVERSITY — During the week of Oct. 16 the students are to vote on co-ed visitation rights. The women in the dorms must agree by 2/3. Could you see PVU leaving such a decision to the students?

TEXAS WESLEYAN COLLEGE — The Greeks had Greek Day. On this

A Salute To Harold Haynes

by Lorn Hill

Prairie View A & M University is very gifted in having so many talented students. One particular student is from Port Arthur, Texas who composed an instrumental entitled "University Salute." This selection is in tribute of Prairie View changing from a college to a university. The selection for concert and marching bands was premiered on September 15, 1973 at half-time during the Jackson State-Prairie View game.

Mr. Harold Haynes is a senior English major and minoring in Business Education. He deems music as a hobby, but modestly admits that "University Salute" is his first arrangement for bands, but not his first musical selection.

Another composition by Mr. Haynes is "Twentieth Century Fantasia" which was written for pianos. This selection was per-

formed at the famed Play-boy Plaza in Miami Beach, Florida on August 7, 1973 during the "College Student of the Year Pageant." At this contest with students from Arkansas, Louisiana, and Texas, Mr. Haynes placed second, won the congeniality prize, and received a scholarship. From the past awards and honors, this student plans to continue his musical hobby and finish his college education as an English major. He also plans to continue his comments in Kappa Alpha Psi Fraternity, Sigma Tau Delta English honor society, and numerous clubs and organizations he is affiliated with.

Harold Haynes

Omega News

the Omega Psi Phi Fraternity salute you.

Bros. Charles Melton and Louis Roach are among the chosen few students here at P. V. to be named to "Whos Who" among American school scholars. Bro. Avery Doyle is president of the Greek Pan-Hellenic Council.

Omega Psi Phi Fraternity and Delta Sigma Theta Sorority were the joint winners of the spirit trophy at homecoming.

BRO.'S of THE WEEK

Bro. O. J. Simpson and Calvin Hill lead the A. F. C. and N. F. C. conferences of the National Football League in Rushing Yardage.

Look for the intramural game which pits Omega Psi Phi against Phi Beta Lambda. Keep this in mind. We may not be greatest of Fraternity in the world but we'll do till it comes along.

Bro.'s Donald McClure (Sweet Don) Johnny Phillips (Bay)

Newman Association.

Brother Rawls is a prospective December graduate who is interested in going to graduate school and receiving a Master's degree in Business Administration, or a degree in Proficiency of Accounting. He has been made several offers from such schools as University of Wisconsin, Southern California, University of Texas and Harvard, to name a few. He also has several job offers from such companies as Honeywell, Northern Natural Gas Pipeline, and General Motors. Other organizations which Bro. Shakey belongs to are, Phi Beta Lambda Business Fraternity, Alpha Kappa Mu, Delta Mu Delta honor societies, The Newman Association, A Accounting Club, and former Junior Fellow organization.

Engineering careers with a major utility in dynamic Phoenix. Campus Visit October 31

To Mechanical and Electrical Engineers who want to improve the lives of others as well as their own, we can offer far more than a permanent job and good salary.

Since 1903, when the Salt River Project began as a water storage and delivery association — the first multipurpose reclamation project in the United States — we've been committed to answering the human needs of the Arizona communities we serve.

Today, the Salt River Project is a major Southwest utility, supplying water and electricity to the fastest growing state in the nation. Current revenues exceed \$100 million a year, with over \$1/2 billion invested in production and service systems. Increasing demand has been doubling revenues and facilities every ten years, bringing our total generating capacity to nearly two million kilowatts. More than six billion kilowatt-hours of electricity are supplied annually to our residential, commercial and industrial customers.

As a Salt River Project engineer, you'll work with almost 3,000 other men and women dedicated to providing a good living environment, while conserving our natural resources.

For an extra reward, you'll enjoy life to the fullest in the famous Valley of the Sun, a progressive metropolitan area with a million population. The Phoenix area offers unequalled climate and a multitude of recreational and cultural opportunities for every interest.

Contact your placement office immediately to arrange for an interview with Sylvester Mabry, who will soon be on campus to meet with young career engineers.

If you have any questions now, phone Mr. Mabry collect today. 602-273-5900.

We think we can help you improve the quality of life. For yourself and for others.

SHEAFFER, WORLD-WIDE, A Textron COMPANY

Paperwork

Pulp and paper work. It is one of the top five U.S. industries. Eastex is one of the industry's fastest growing companies. Our rapid growth makes it possible for you to get responsibility quickly. We need graduating technical and professional students who are interested in pulp and paper work, not paper shuffling.

At Eastex you will become part of a relatively small but highly trained and technically oriented management group.

You will work with some of the newest developments in the industry, such as America's first complete paper machine and stock preparation system specifically designed for direct digital computer control.

You will also become a guardian of our great natural resources. For while we work, we replenish the forest, conserve the environment. We are concerned about the air we breathe, the water we drink and the origins of our raw material. We are concerned with pulp and paper work and your career with Eastex.

Make an appointment at your placement office now to see the Eastex representative on campus. In the meantime, write for our brochures.
