B. HOMECOMING PARADE SUPERB -

Many thanks are expressed for the splendid cooperation of faculty and students in the development of our Homecoming Program. Those who developed floats are to be especially congratulated for such a fine showing.

The floats were original in their scheme - idea, artistic in their form - expression, and impressive in their appearance. The splendid showing of our Cadets and Girls' Drill Squad added to the type of pomp and ceremony that usually make us proud. We should not forget that the clowing Panthers upheld the highest traditions known to the Prairie View Athletic heiritage. For this fact, we are all indebted to the coach and his staff.

C. DR. E. E. O'BANION: CONGRATULATIONS!

We extend congratulations to Dr. E. E. O'Banion for his contribution to the September 1946 issue of The Chemist Analyst. The author developed a technique to "Disposal of Waste Acids in The Laboratory". This is a valuable professional step because the true quality of a faculty is reflected considerably in the contributions its members make to professional journals.
