D. SUMMER SCHOOL -

There is every indication of a good Summer School in the points of Attendance, Course Offerings and Instructional Staff. Dean J. M. Drew, who is the Director of the Summer School, this year, has announced that a great many people are interested in participating in the five Work Shops that will be conducted, Graduate work and completing the work for the Bachelor's Degree. The improvement in the teaching salaries for Texas has stimulated a keen interest in the improvement of teacher preparation. It is to be kept in mind that those who attend Summer School, in a great many cases, are the acknowledged leaders in their respective communities and, in consequence, we should be alerted to this fact in extending every courtesy and aid to those who enroll.

F. Permit me to close this News Letter with these fine words coming from the "Kansas City Kansan" - summing up the value of Federal Aid to education in a recent Editorial:

"The School Aid Bill guarantees a minimum education opportunity for all American children.you cannot fight Communism with ignorance.....the Nation must move ahead to meet this challenge coming from its own educational deficiencies. Six billion dollars of aid to Foreign countries has been voted; three billion dollars is a small amount to ask Congress to set aside for our own children. It is now up to the House of Representatives to discharge its duty to American Education."

Yours truly,

E. B. Evans, Dean
