THE PRAIRIE VIEW STANDARD November 1959

THE PANTHERS FIRST UNIT - The Line (L to R) Frank McKee, Jimmy Hunt, Arthur Sewell, Charlie Malone, Gentris

Hornsby, Quincy Foster, James White. Backfield: Clifton Gilliard, Robert Shaw, David Webster, Arthur Seals

Panthers Win First Five Games Easily; Rated Top in Nation Early November finds the Pan Panthers Tromp TSU Jack White led the Panther scor Sion, Webster passed to McGhee

Early November finds the Pan- Panthers Tromp TSU ther football squad undefeated and untied, with five easy victories under its belt. They have dropped (non-conference), Texas Southern, Grambling, and Arkansas, and tied with Southern University for first place in the Conference.

Members of both the NCAA and NAIA, these national athletic orthe top in several areas of performance. The Panthers are number 3 in scoring in NCAA reports for small colleges in the nation. and NAIA ranks them number 3 in team rushing offense. When all game reports are in, the Panthers will probably take the top position.

Several national sports agencies like the publication "Illustrated the final period when quarterback Sports"-rate Prairie View as number one among the nation's small colleges.

Cagers Preparing For Georgia Tourney

Coach Leroy Moore's charges are about shaped up for the 1959-60 Cage season and will soon test their strength in the Sixth Annual Georgia Invitational Basketball Tournament scheduled at Morehouse College on December 3-5.

DALLAS-The fighting Panthers of Prairie View A. and M. Jackson College, Allen University College walloped Texas Southern University's Tigers 34-15 Monday night in the Cotton Bowl before more than 12,000 who watched this 35-year old State Fair of Texas Football Classic.

It was Prairie View's third ganizations rank Prairie View at straight victory over their sister state institution from Houston, and their 26th in the age old classic in which they serve as host team. Although predicted to win, the

defending Southwestern Conference Champions found a rough job cut out for them in pushing back the determined Tigers. It was a see-saw battle all the way until David Webster broke the Tigers back with touchdown heaves to ends John Farrington and later to Frank McGhee to move comfortably ahead. Panthers Surprize

Grambling 35-6

SHREVEPORT, LA. - Playing their second straight Monday night State Fair engagement, the Prairie View Panthers pulled a major upset in walking away with a quarterback roll out play for 20a 35-6 victory over the Grambling College Tigers.

ster, Edgar Johnson and Charles Warner. Co-Captain Gentris Hornsby fligured in two scoring plays, both blocked punts. Charles Fisher blocked the first and Hornsby covered and second was blocked and covered by the All-American guard.

PINE BLUFF, ARKANSAS -In their first straight high scoring victory, the flighting Panthers of Prairie View A. and M. College battered the Arkansas A. M. and N. Lions 28-0 in a major Southwestern conference battle.

Prairie View's depth continued to be a decisive factor as three Panther units figured in the scoring led by quarterbacks David Webster, Richard Ryan and Joel Smith. Webster initiated the first two touchdowns with identical pass plays to the left and then right. Jack White caught the first and lateralled to Charles Warner for a 35-yard TD run and Frank Mc-Ghee caught the right end pass and lattered to Tommy Williams who galloped 15-yards for paydirt.

Ryan passed to Charles Fisher yards to notch the final score. Lester Porter kicked the first conver-

ing to be followed by David Web- for two points and Smith hit Mc-Ghee for the closing points.

PV Student Serves As Co-Chairman of 'Regional Y' Council

Scott Westbrook, a senior student at the College, will serve as co-chairman of the Southwest Regional Conference, Student YMCA-YWCA scheduled at Mt. Wesley, Kerrville, Texas on December 27

A Houstonian and student leader on campus, Mr. Westbrook will share honors with representatives of Texas A. and M., the University of Texas and Oklahoma State Uni-

The purpose of the regional conference is to provide opportunities for the free open search for truth, the challenge of new ideas, the classification and renewal of one's faith, for a deeper understanding of the student YMCA and YWCA and the responsibilities of Chrisfor the third tally and Smith took tian leadership on the campus and in the world, for sharing in a community of work, play, study and

SPEAKER - The Reverend Robert S. Mosby, of Austin, delivered special address to student body in connection with conference for Texas Ministers held on October 20-

Student Government is Working at PV.

Oft'times student government is

merely a fine sounding word, still on paper and the hearts of students, but not so at Prairie View. Student government here has become to have real meaning, only after about eight years of trying to make it go. It started last year with an able Student Council whose members were determined to sacrifice time and energy for a real campus need. With many of the problems of reorganization now over, this year's student leaders are working like a clock, and everybody is awfully happy about prospects for the future.

Prairie View students today are concerned with every facet of campus life which affects them in any way. Student leaders are busiest in the area of activities. College spirit is up higher than ever in history, and many student projects which have failed to materialize before, (like the girls drill squad) are now about to become a reality. Leaders are now pushing for a college marching band, and this, too, may not be too far in the making.

The prospect of a Student Union building has played its part in the improvement of student life. So has the forward look of administrators and advisers who have helped lead the way. Temporary offices of the council and student activities will soon be replaced with adequate facilities in the new building.

Student decorum is also improved generally, just as student government contributes to better citi-

Memorial Fund Set

B. Evans announced recently.

Thirty students have been ac- ca; Merlie Gilmore, Business Educepted to represent Prairie View cation, Oakwood; Olivia Gray, in WHO'S WHO AMONG STU-DENTS IN AMERICAN UNI-VERSITIES AND COLLEGES for the current year.

The students were selected on the basis of scholarship, participation and leadership in extra curricular activities and citizenship Recommendations were received from both the student body and the faculty members. An effort was made to include students from all departments of the school.

Among the students selected were twenty-one seniors, eight juniors, and one grad student.

Students selected are as follows: George Brown, Agriculture, Prairie View; Elray Bundage, Elementary Education, Oklahoma City, Oklahoma; Billy Deramus, Business Education, Timpson; Edison Fowlks, Agriculture, Terrell; Mæ Garcia, Sociology, Dallas; Samuel Gbadeyan, Poultry, Nigeria, Afri-

'Face of India' Is Campus Forum Topic

A lecture and exhibit of materials on "Face of India" was presented at a forum sponsored by the department of Economics, Geography and Social Science at Prairie View A. and M. College.

Dr. G. T. Ridgel, dean of instruction, Wiley College, Marshall, Texas was the guest lecturer for the occasion. The speaker spent more than a year as a professor of social science at Tata Institute of Social Science in the city of Bombay, India.

The presentation included slides showing the culture, geography and economic status of the people of India, handicraft works, metals and other items brought back from India. Also appearing on the program were Earline Swisher, who presented the geographical setting, William Hill, master of ceremonies, and Dr. John D. Holmes, who gave a summary statement.

SCABBARD AND BLADE - Speakers and guest at the recent ROTC Scabbard and Blade banquet included (L to R) Major Levon Smith, PMS&T, Captain Walter Redd, President E. B. Evans; Mr. Clifton Vincent, Instructor; Registrar L. C. McMillan and Cadet John McNeil.

PV Scientists Use Chicken Blood Types as Tool in Research

The importance of blood types in The following criteria are used to humans has been long recognized evaluate the performance of the and the information used in human medicine for many years.

November 1959

Few people are aware that chickens have blood types, and even fewer people realize the value of blood typing as used by the geneticist to develop better laying and meat strains of poultry. Blood grouping or typing, a brand new poultry genetic tool, now aids breeders in developing inbred lines of chickens even more precisely than ever before.

Technicians can determine whether a chicken has a certain blood type by observing the way a drop of blood reacts when mixed with certain reagents. Scientists estimate that there are an infinite number of different blood gene combinations (or blood types) in chickens. In-breeding reduces the number of types drastically, and makes it possible for breeders to use blood grouping as an effective research tool. Birds with a certain type in one line (family) of chickens may combine well with birds having a certain type in another

The chickens that are produced as a result of the various blood combinations must be tested for performance. This is where the Department of Poultry Husbandry, Texas Agricultural Experiment Station Substation No. 18, Prairie View A. and M. College, enters the picture. For the past four years, the Poultry Department here at Prairie View has been cooperating in a Regional Research Project involving two Experiment Stations located in Louisiana and Georgia. The blood grouping and breeding under the supervision of Professors W. F. Krueger, population geneticist, and R. C. Fanguy, geneticist; is conducted at the main station, A. and M. College of Texas, and day-old chicks are shipped from there to the above mentioned stations where they are wing-branded, recorded and performance-tested.

PV Grads Represent At Chicago Meeting

Two Prairie View A. and M. College graduates have been selected to represent the College at the University of Chicago's Darrow Contennial Celebration scheduled for November 24-28.

Both Science teachers, they are Thomas J. Cleaver '46, of Anderson High School, Austin; and Hattye Palmer Owens '52, Sam Houston High, Huntsville. All expenses of the two in-service teachers will be paid by the National Science Foundation, who is underwriting the expenses of the one-week science celebration.

Leading scientists over the nation will meet together to discuss matters of biological and cultural evolution, including the evolution of life, of man and of the mind.

Somalian Official Is Guest of College

A representative of the African country of Somalia is visiting Prairie View A. and M. College during November to study programs of the Texas Agricultural Extension
