PRAIRIE VIEW A&M
UNIVERSITY

PRAIRIE VIEW, TEXAS

December 16-21, 1982

Wesley Foundation United Methodist Church at Prairie View A&M University presents \$1,600 to the All Faith's Chapel Drive. This gives a grand total of \$597,679.49. Pictured above from left to right: Michael Gilmore, President of the Wesley Foundation, The Reverend Therman Taylor Sr., Director of Wesley Foundation-United Methodist Church, The Reverend W. Van Johnson, Dean of Chapel, Prairie View A&M University, and Samuel Montgomery, Chairman of the Board, Wesley Foundation. Not shown is Mrs. Irma Kendricks, Secretary-Treasurer.

Funding Needed

PV Gets Mixed Report in State Ordered Study

Prairie View A&M faulities compare favorably in space per student with six other Texas universities of similar size, but additional funds are very badly needed for repair and rehabilitation of several campus buildings.

These and other facts about the university resulted from a study commissioned by the Texas A&M University System. The study was requested by the U.S. Office of Civil Rights and was conducted by the Boston educational consulting firm of Dober and Associates.

According to Gen Wesley peel, Texas A&M University System vice chancellor for facilities, Prairie View needs a level of funding slightly more than \$(million) or \$6 million a year for an eight or 10-year period in order to bring all the buildings we are going to retain up to first-class standards.

The A&M system will ask for almost \$18 million for the next biennium for repairs to the Health and Physical Educational Building, the old campus gymnasium, the M.T. Harrington Science Building, and other campus facilties.

Additional funding to upgrade buildings on the Prairie View campus was recommended in a Boston consulting firm's report on facilities at the institution.

Of the seven schools, Prairie View ranked third in total net square feet per full-time student and was rated particularly high in space for health care, offices, and supporting facilities.

But Prairie View ranked last

in classroom space and next to last in both study space and in a category called "general" space, which includes such things as lounges, meeting rooms and food facilities.

The study found that about 40 percent of the net square footage on campus should either be replaced or extensee MIXED REPORT, Page 3

Home Economics College Gets Certification Okay

The Council for Professional Development of the American Home Economics Association has notified the University that its College of Home Economics interim report and supplementary materials have been accepted.

Members of the Council commended Dr. Flossie M. Byrd, Dean of the College, and its faculty for evidences of progress made since accreditation was granted in 1977. Areas of improvement include:

1. Development and implementation of the Program of Requirements to meet the need for repair and renovation of the physical facilities.

the physical facilities.
2. Improvement in library allocations and holdings.

3. The continued support of the faculty by the Dean of Home Economics toward their educational development.

4. The support of home

4. The support of home economics by university administrators and faculty and administrators of other disciplines, schools and colleges across campus.

The Council for Professional Development encourages continued efforts toward the following:

1. Addressing facility needs and monitoring the work and progress toward this objective.

2. Reporting revisions resulting from the curriculum study currently underway.

MUSIC CONSULTANT — PV Grad James Williams, Director of Music in the Tyler Public Schools chat with students following his lecture in the Department of Music last week. Mr. Williams developed top state bands.

Historically Black Institutions

Placement Directors Meet at Prairie View

Because historically Black universities share common job placement problems for graduates coupled with unemployment in the millions, Prairie View A&M University held its first annual Placement Directors Conference recently and was tabbed a "resounding success" by Brutus Jackson, the host director.

"Our prime purpose was to get together for an exchange of information and to set up a referral service between the exchange schools, Jackson explained. "We all have basically the same placement problems, and we simply wanted to see, particularly during this great economic crunch, if we could pool some of our ideas."

Jackson was high on the referral idea to institute a network with the other schools to better identify jobs open in the different states that could form an exchange situation.

Attending the recent twoday conference was Ms. Esther Johnson, of Bishop College, Dallas; Lonnie B. Smith, Grambling State University, Grambling, Louisiana; Derry C. Henry, Jarvis Christian College, Hawkins, Texas; Leon Warren, North Carolina A&T State University, Greensboro, North Carolina; Odell Compton, Southern University, Baton Rouge, Louisiana, in addition to Jackson and several members of his staff.

Explaining the referral idea, Jackson said for instance, if visiting companies ask for a certain type job classification at a member university, and it can't be filled, that job would be immediately referred to another university.

"Thus, we can become a network to identify jobs in the different states," Jackson pointed out.

All member schools have similar programs during which time scores of the nation's largest industries, companies and government agencies visit campuses to identify jobs available to seniors in their chosen field.

Prairie View A&M University calls their day with the corporate world and government a "Career Festival" day and held its 12th annual this past September.

"There was at least a 20 per cent drop in the number of all types of recruiters who appeared at our last festival, and this, of course, is an added problem for our staff and students," Jackson said.

Lonnie B. Smith, placement director for Grambling State University, echoes the sentiments and admitted "we are in a squeeze" "Fewer companies are coming to our campus recruiting and are asking now for resumes from students instead of conducting personal interviews."

Smith said they are utilizing everything including listing questions for students they are

See DIRECTORS, Page 4

A FINAL SALUTE — The university band spells out the initials P-V-U during a recent game at Blackshear Field. The photo sort of symbolizes the end of a sports season and the Fall Semester. It is also a tribute to the band — to their performance, their hard work and dedication.

Academic Standards To Be Raised At PV In 1983-84

Satisfactory academic progress is one of the criteria for obtaining financial aid as contained in Section 484 of the Higher Education Act of 1965, as amended. Therefore, Prairie View A&M University must have standards of satisfactory academic progress to participate in Title IV Programs (34CFR 668.16 (E)). If a student does not meet satisfactory academic progress, an institution cannot legally disburse federal or state funds to student.

Because of the requirement of satisfactory academic progress Prairie View A&M University has established the following measurable standards a student must meet to qualify for financial aid. These standards provide for a probationary period of one semester before a student is placed on financial aid suspension. Neither Prairie A&M University nor the Department of Education has the discretion to waive this requirement for any Title IV student aid recipient.

SATISFACTORY ACADEMIC PROGRESS POLICY FOR FINANCIAL AID

A. Measurable Satisfactory Academic Standards for Full-time Student

- 1. The student must register for and complete a minimum of 12 semester hours if he/she is to be eligible for financial aid.
- The student must maintain a semester Grade Point Average of 2.00 and have a cumulative Grade Point Average of 2.00. Summer Session (Full-time Student): If enrolled in summer session, financial aid recipients are required to complete at least 6 hours and maintain a summer session Grade Point Average of 2.00 and have a cumulative Grade Point Average of 2.00.

Transfer applicants must prove eligibility to re-enter their previous institution plus meet the Satisfactory Progress Policy for Financial Aid Recipients at Prairie View A&M University.

leasurable Satisfactory Academic Standards for Part-time Student

- . The student attending half-time (6-8 semester hours) must register for and complete 6 semester hours.
- 2. The student attending three-quarter time (9-11 semester hours) must register for and complete 9 semester hours.

"If a student does not meet satisfactory progress, an Institution cannot legally distribute federal or state funds to student?"

3. ALL PART-TIME STUDENTS (half-time and three-quarter time) must maintain a semester Grade Point Average of 2.00 and

Summer Session (Part-time Student): If enrolled in summer ses sion, financial aid recipients are required to complete at least 3 hours and maintain a summer session Grade Point Average of 2.00 and have a cumulative Grade Point Average of 2.00.

- Following every semester, the Grade Point Average and number of hours earned by each financial aid recipient will be entered into his/her official student financial record.
- 2. The following shall be considered as semester hours completed: a. "A" through "D" grades
- 3. The following shall NOT be considered as semester hours com-
- a. "F" grades c. "I" incomplete
- 4. Students who do not complete any semester hours or who receive a 0.0 Grade Point Average in a particular semester will be placed on Financial Aid Suspension.

cept for C-4) in a particular semester, the student will be placed on Financial Aid Probation. A student in this category may receive financial aid for the upcoming semester, but MUST COMPLETE 12 semester hours with a SEMESTER Grade Point Average of 2.00.

Students enrolling in Summer School who are on Financial Aid Probation, MUST ENROLL BOTH SUMMER TERMS AND COM-PLETE 12 SUMMER HOURS with a Grade Point Average of 2.00. If a student DOES NOT COMPLETE 12 semester hours or 12 Summer Session Hours during his/her probationary period, the student is considered to be making "Unsatisfactory Progress" and is placed on FINANCIAL AID SUSPENSION. Financial Aid Suspension means the TERMINATION OF ALL FINANCIAL AID.

Appeal of Financial Aid Probation/Suspension

In the event a student feels an error has been made in determining his/her semester Grade Point Average, summer Grade Point Average, and/or cumulative Grade Point Average, the student may appeal to the Financial Aid Director.

A student who has been placed on financial aid suspension can receive financial aid again when his/her semester, summer session, and cumulative Grade Point Average is 2.00.

Each student is responsible for knowing his/her academic status regarding financial aid before applying for financial assistance at Prairie View A&M University.

If a student is on financial aid probation and/or suspension at Prairie View A&M University and he/she is admitted to another institution, the student is required to earn at that college or university a Grade Point Average equal to what is required at Prairie View A&M Univer-sity to be eligible to re-apply for aid at Prairie View A&M University.

Golden Staters (CSU) Unite

Prairie View A&M University welcomes the founding of a new organization, the California Student Union. An organized body of students established the California Student Union (C.S.U.) to tives. This socially, academically oriented organization maintains as its principal objective the unification of all Prairie View A&M students classified as residents of California. In addition, the C.S.U. encourages the political goals.

development of the commu-

Membership to the California Student Union require that one meet the established qualifications. The President and the Vice President of the C.S.U. are Don Ellis and Victoria Ford, respectively.

The California Student Speakers — Union unites students from over ten West Coast cities and as one unified organization we plan to accomplish a significant amount of progressive

For anyone interested in becoming a member of the

C.S.U. meetings are on Sundays and they shall be posted one day in advance. Come help the Golden Staters

Perhaps the largest annual expenditure against most departmental budgets is for photocopying.

Each department renting a copier has a rental plan that BUSINESS specifies a minimum monthly charge for up to a specific number of copies. For example, one plan may specify a minimum charge of \$77.00 per month for up to 2,000 copies, with a #.0175 charge for each copy over 2,000 copies. Annually, as each rental contract is renewed at the beginning of a fiscal year, the minimum monthly charge for a twelve month period is encumbered against the renting department's account. Any copy usuage above that covered by the minimum rate is paid from the account's unencumbered balance. Reviews of monthly billings for copier rentals show that many departments are paying three to four times the minimum monthly charge each month because of excessive copy usuage Management is the key to controlling these excessive expenditures that are resulting in non-programmed expenditure of operating funds. Management includes the budgetary head and his staff of users. Some suggested approaches to consider in establishing control over excessive copy usuage are:

- 1. Establishing a log that would require each user to describe the document copied, number of pages of the document, and mumber of copies made. A person should be assigned to monitor the copying and log en-
- 2. Restrict the use of the copier to copying documents used in conduct of official business for the renting
- 3. Designate the maximum number of copies to be made of a single document. Copy and distribute on a "needto-act" or need-to-know basis
- 4. Do not allow copier to be used for production of mass hand-outs of instructional materials. The University Learning Resource Center provides this service.
- 5. Make use of conventional duplicating equipment for voluminous reports, mailings, etc., for mass distribu-6. Educate staff personnel on being sensible and
- economy-minded in utilizing the copier for their 7. Review the log at the end of the month to determine whether or not there is need to eliminate some uses or
- exercise greater monitoring control. 8. Consider changing your rental plan to one that allows more copies for the minimum charge rate. Of course, a higher allowable copy volume means a higher

num charge rate - but not three times higher. **University Exchange**

Prairie View A&M University

Authorized by the Texas Legislature in 1876 • The "Agricultural and Mechanical College of Colored Youth" was Texas' Second State-Supported Institution of Higher Learning • As a land grant college, it occupied a 1434-acre former slave plantation • Organized by the Texas A&M Board of Directors, Prairie View has remained a part of the Texas A&M System •

The first eight students enrolled on March 11, 1878, but low enrollment caused the school to close • The following year the "Prairie View Normal Institute" was organized with emphasis on preparing teachers in trade and agricultural subjects • A Coeducational College, Prairie View's enrollment of 16 soon reached 60 • In ten years, industrial training was added to the curriculum • Intercollegiate Athletics began in 1904 • By 1931 the campus boasted 31 main buildings and 50 cottages •

In 1934 the Southern Association of Colleges and Secondary Schools granted a Class "A" rating • In 1947 the institution became "Prairie View Agricultural and Mechanical College • Integrated during the 1960s, the name changed to "Prairie View A&M University" in 1973 • The University's Motto is "Prairie View Produces Productive People" •

We're looking for a few good college students and graduates who can fill the shoes of a Marine Corps Officer. That's a pretty tall order. Because it means leading other Marines. Being a leader of the finest. Being responsible for their safety and welfare. Being in charge. That's something no civilian job can offer you at 26. It's something very few people can ever measure up to. For those few who do meet our standards and have the drive to be a Marine Officer, we offer tuition assistance in the NROTC, Platoon Leaders Class (PLC), even a chance to join the Marine Reserve while you're still in college. If you think you're cut from the right mold, drop by your college placement center and set up an appointment with your Marine Corps Officer Selection Officer. Or call this number, 800-423-2600.

Getting Off In Their Thing!!!

THE PRAIRIE VIEW PANTHER

By Norman V. Harrison Once again the "Marching Machine" would like to fill

you in on what's happening in heir music world. In previous performances the band motto was all work and no play, but for homecoming practices it was serious working and don't think about playing, as the band got ready for the halftime . The band entered the field with a fanfare in company front. To boost everyone's spirit, the band played "I'm So Glad I Go To P.V.U." as they formed the letters P.V.U. on the field, which gave everyone that extra little thrill. As our school queen, Ms. Trisha Bursey, was

introduced with her court the band played the "P.V.U.

Alma Mater?' The band then

drilled to the concert forma-

tion and played one of the

latest hit tunes "Just Believe In Love". The band then decided

that it was time to "shake a

leg" as they lined up in block

hand and danced to the tune

"Do Wa Ditty!" This did not

time for the Black Foxes to do

their heart-breaking dance

close the show for then it was

memory in the minds of the student body, faculty, staff,

Aretha Franklin.

In this issue, we would like to feature our drummers, better known as the P.V. Mac Funk Box. This group of young people always elates crowds wherever they perform. Christian, University of Ar-They are a group unioned to be one thing, "The Best!" That's right, the best they are. They have been given the title of the best drummers in the South-Western Athletic Conference. The Section Director of these talented young men is Mr. Larry Jones, Assistant Direct tor of the Marching Band. Section leader of the Mac Funk Box is Lionell Alexander. Now, it is my privilege to intoduce to you the P.V. Mac Funk Box.
