YOUR WEEK

As a Public Service We Give You
THE PRAIRIE VIEW COLLEGE PROGRAM

"..... Early in the formation of Prairie View College, its administrators developed the philosophy that the basic purpose of this institution should be to serve the colored citizens of Texas at the point of their greatest need, through the process of bringing the students training into closer relationship with life's occupations and problems. In order that this idea might be clarified and made meaningful to teachers and students, the following objectives were delineated:

1. We propose the continued and fuller development in students of basic knowledge, skills, habits, interests and attitudes necessary for effective living in a democracy.
2. The Development within students abilities and habits of sound, clear, critical, and logical thinking.
3. The development of habits of thrift and efficiency in the expenditure of personal incomes.
4. The development in students of a clear and workable concept of democratic principles and processes.
5. The preparation of teachers, vocational and industrial specialists, and candidates for professional school degrees.
6. The development of a tendency and a knowledge of how to help Negroes to meet and solve their problems intelligently.
7. And to develop in students a full appreciation for the contributions of American Negroes to American Life.

-From Dr E B Evans' address delivered over Radio Station KLEE,
February 7, 1948.
