B. WELCOME

Each summer--for 45 consecutive years--it has been the good fortune of this institution to open a new school session. Visiting staff personnel, regular session staff members and the summer school student body are always welcome at Prairie View. We look forward to the twelve weeks ahead of us with a great deal of enthusiasm, and we hope that each of you will enjoy your sojourn with "the Prairie View Family."

C. THE WEEKS AHEAD

Our campus is a busy one for twelve months each year. June, July and August are especially busy because they are "crammed" with professional responsibilities, classroom instruction, recreational activities, cultural promotions and graduation exercises, as is true during the nine months' long session. We know that there is a great difference between nine months and twelve weeks; yet, our work must be done. We recognize that our summer school student body is composed mainly of adults who have also been busy during the past year. We realize that classroom instruction is twice as hard in the heat. Yet, we propose to make no unwarranted concessions at the expense of learning. Irrespective of the heat, educational standards are high and seem to be getting higher. Therefore, Prairie View's contribution to its student body must be of the finest caliber, and on the broadest possible base during the entire summer school session. We should remember that positive human relationships are a "must"; and we need resolve that the weeks ahead shall show evidence of our having done a first rate job for our students, our institution, and ourselves, individually.

F. A BELATED "THANK YOU"

The past month, May, was probably one of the busiest that the college experienced during the entire school year. The staff is to be congratulated for having accomplished each task and produced each program in a highly efficient manner. Thank you, one and all.

IN CLOSING

I would like to remind each of you again of the pleasure that is ours that you are a part of our "family" for the summer. I sincerely hope that we will work cooperatively and achieve cooperatively; only through a "togetherness" will we be able to say at the end of the summer:

"Our job has been well done."

Very truly yours,

E. B. Evans
