B. THE FIRST TERM IN 1955

There are many things to be glad about in 1955. We have not only "got off to a good start" but we have also been maintained a high level of instruction, increased faculty, and recreational. The first six weeks have been very successful and Prairie View continues to rate high in the hearts of its student body, alumni and friends.

C. DURING JULY

The month of July will bring about the end of the first six weeks' activities. In this connection, the instructional staff is asked to cooperate to the fullest in the matters of administering final examinations and supporting grades. Accuracy, thoroughness and speed are mandatory if these phases of our program are to be successful. The Office of the Registrar will furnish information to all instructors regarding official procedures in accomplishing these responsibilities.

JULY, 1955

Registration and the beginning of the second six weeks are important months for the college. We are looking for a high level of instruction which will follow. Our aim should be to "make a good initial impression," and maintain it.

7. Registration (second term) July 18
8. Classes Begin July 19
9. Educational Tour - -
 To the Historic Northeastern United States . July 21-August 16

B. THE FIRST TERM, THUS FAR

There are many evidences that the 45th Summer Session's first term not only "got off to a fine start," but it is apparent, also, that there has been maintained a high caliber of performance--administrative, instructional, and recreational. The quality of the work produced by our staff is the yardstick by which our institution is measured. Thus far, the first six weeks have been very successful and Prairie View continues to rate high in the hearts and minds of its student body, alumni and friends.

C. DURING JULY

The month of July will bring about the end of the first six weeks' activities. In this connection, the instructional staff is asked to cooperate to the fullest in the matters of administering final examinations and reporting grades. Accuracy, thoroughness and dispatch are mandatory if these phases of our program are to be successful. The Office of the Registrar will furnish information to all instructors regarding official procedures in accomplishing these responsibilities.

Registration and the beginning of classes for the second six weeks are important month-of-July activities, also. They are the "first impressions" which give our student body clues to the developments which will follow. Our aim should be to "make a good initial impression," and maintain it.

D. A SOURCE OF PRIDE

For a long time, Prairie View has hoped and planned for two new facilities which are now a realization and source of pride to the college; namely, the College Exchange and Bookstore and the Guest-house. It is a pleasure to announce the opening of these facilities, and it is hoped that all members of the staff will avail themselves of the opportunity to see and utilize the goods and services they provide.

E. "OPERATION RECREATION"

A well-planned program in recreational activities is in operation on our campus. The staff and the student body are encouraged to take advantage of the many programs planned and supervised by competent instructors for pleasure and relaxation.

F. THE "P. V. FAMILY" GROWS

Congratulations are extended to Mr. and Mrs. Willie J. Bell, II on the birth of their daughter and son, Felecia Denise and Willie J., III, on June 17. Mr. and Mrs. Bell are members of the Division of Industrial Education staff and the campus post-office personnel, respectively.

G. STUDYING

Mr. J. A. Randall (Sociology) University of Michigan
Miss Grace Hunt (English) University of Boston
Mr. Harold E. Mazyck (Education) New York University (second term)

IN CLOSING

Permit me to express my sincere appreciation for the splendid way in which the program of instruction and the several extramural activities have been conducted during the term. It is my hope that they will continue to be well-planned and executed.

Very truly yours,

E. B. Evans

E. B. Evans, President
