WELCOME!

This month marks the 46th opening of Prairie View's summer sessions--nearing half-a-hundred years of educational opportunities for those persons who wish to advance themselves when the time is most opportune. It is a pleasure, therefore, to welcome our summer staff personnel and our student body to our Prairie View community for the next twelve weeks. We wish that each of you would make yourself a bona fide member of our "Prairie View family" (and the expression has significant connotations). We take pride in being a closely knit unit--complete and self-sustaining. We have developed this feeling as the result of the cooperation and understanding with which each member of our staff

has given wholeheartedly of his intellect and energy to make our institution's program and its main function--education--a success. Each of you may be assured that it is a pleasure to have you with us; we hope that your time will be well spent, and that you will be glad for having become a part of our group during the next three months.

SPECIAL CONVOCATION

On Monday, June 11, at 11 o'clock a.m. in the Auditorium-Gymnasium, a general assembly of the student body and the faculty will be held. Each of you is invited to be present, and it is hoped that you will announce the time and place of the convocation in your classes.

NEW "FAMILY" MEMBER

The Prairie View community increased its size by a total of one, on Saturday, May 26, at noon, when an eight-pound son, David Lawrence, was born to Mr. and Mrs. Cube Charleston. Mr. Charleston is employed in the Division of Industrial Education, Department of Printing.

IN CLOSING

I wish to quote the words of Dr. Frederick L. Hovde, President of Purdue University, Lafayette, Indiana, who recently wrote of our nation's human resources:

This resource will not fail us if we take the proper steps and make the necessary investment today to insure the scientific and technological health of the nation tomorrow. This resource resides in people--individuals who have talent, ability, and motivation and who are provided the opportunity of advanced educational training to equip them to enlarge the frontiers of knowledge.

Prairie View is an instrument for and is dedicated to the development and training of our human resources. "What else in the categories of human activity can be more important?"

Very truly yours,

E. B. Evans
