N F A and N H A CONVENTION. (Opening Session)

—o—

About EGLAR HOPKINS. EGLAR HOPKINS is the name of the young man injured in the chemistry laboratory explosion Wednesday March 4. Injuries sustained by Mr Hopkins necessitated removal of his left eye, and two fingers from his left hand. A committee of students and faculty members has been formed, and Prairie View Family folk will be asked to contribute funds, and items to be raffled, in a drive to raise money to help this needy member of our family. It is requested that you watch for announcements about activities sponsored by the committee for Mr. Hopkins' benefit.

YOUR WEEK

What With Brightness On Our Plain

How fine it is to be a living
Now that Spring has come again
Bringing greenness to our meadow
And a brightness to our plain

Bringing warmth to our ploughland
And a bright new rain-washed sky
Bringing fragrance to our dogwood
For each breeze as it blows by

All our earth takes on a newness
All our hearts proclaim it Spring
What with greenness on our meadow
What with brightness on our plain
