MISS PV AND ATTENDANTS — Marie Johnson will be crowned Saturday night amid the pageantry of the annual MISS PV Coronation. Attendants Marion Coss and Lovie Hall will participate also.

Coronation of Miss Prairie View Saturday Night

The coronation of MISS PRAIRIE VIEW, one of the outstanding student events at Prairie View A&M College, is scheduled to be held Saturday night in the college gymnasium.

Miss Marie Johnson, a senior, math major from Houston is the honoree of this annual occasion. Her attendants are Misses Marion Coss, (Henderson, Texas), and Lovie M. Hall (Huntsville). "My Fair Lady" is the theme for the coronation program and pink and white is the color scheme. A large number of the student leaders will participate in colorful ceremonies.

Students representing various

departments are as follows: Senior class, Gloria Burton; Junior class, Lorealia Mason; Sophomore class, Donetta Beverly; Freshman class, Evelyn McGee; Home Economics, Patricia Hawkins; Mathematics, Doris M. Williams; Political Science, Minnie Dyer; Library Science, Emmett Dansby; National Education Association, Cuney Robbins; History Club, Louise Pondexter; Sociology Club, Josie McPherson; Chemistry, Mildred Dunn; Music Club, Tobartha McDowell; School of Nursing, Edna Shanklin; Texas Society of Professional Engi-

24 Students in MDTA Program Here

Students Selected by Texas Employment Com.

The Manpower Development Training Act currently in session at Prairie View is restricted to high school graduates who are at least 16 years of age and under 22. Each high school graduate has the ability to attend college but is minus financial backing. The students are selected through test administered by the Texas Employment Commission. These students

take Aptitude Examinations designed to select only the most capable.

The instructor is Jean McDonald, a professional business woman. The decision was made to employ a professional business person as an instructor of the program, when theoretical teaching performed by classroom teachers failed.

NEWS IN BRIEF

DEPARTMENT HEAD TO PUBLISH ARTICLE

Dr. A. A. Dunson, chairman of the department of Modern Foreign Languages, will have an article published in the July issue of the Missouri Historical Review.

The scholarly and interesting article written from original records in the German language is entitled: "Notes on the Missouri Germans on Slavery."

FORMER CAMPUS LEADER NOW A MAJOR

Milton De Rouen, a campus leader and outstanding cadet during his training at Prairie View, has been promoted to the rank of major in the Signal Corps. He is stationed in New York.

MARCH OF DIMES DRIVE SCHEDULED

January is March of Dimes month. The annual campaign on campus is sponsored by the Veterans Club with Dr. C. A. Wood as adviser. Individuals

will be contacted personally, including the Mother's March in the community. In addition, student projects are being planned in connection with the drive.

MISS TEXAS COED SPONSORED BY CHRONICLE

The Prairie View Panther will participate in the annual Houston Chronicle contest for Miss Texas Coed. A candidate will be selected by the staff to compete with contestants from all Texas Colleges. The project is sponsored by the TEXAS MAGAZINE.

DR. STUBBLEFIELD PUBLISHES ARTICLE

An article by Dr. Cedric Stubblefield has been accepted for publication by the Journal of Physical Chemistry.

POLITICAL SCIENCE HEAD ATTENDS MEET

Dr. Earl M. Lewis attended the 36th Annual meeting of the Southern Political Association. Dr. Lewis served as chairman of one of the sectional meetings of the Association.

Change of Name for PV Proposed

College May Soon be Named Texas A. & M. University at PV

According to the daily press, the Board of Directors of the Texas A&M University System (of which Prairie View is a part) is proposing to merge the schools of the A&M System into a multicampus university.

All the colleges now in the System would carry the name: Texas A&M University. PV's name would be changed to Texas A&M University-Prairie View, or Prairie View campus. All degrees would be granted

under the name of Texas A&M University.

The Board has indicated that its members would meet Prairie View officials, faculty and student representatives on January 10 or 11 to present the proposals. They have already met at Arlington and Tarleton. Strong opposition to the plan has been expressed at Arlington where the enrollment has skyrocketed in the past few years.

The A&M System now is a wide but loosely affiliated con-

federation of the College Station facility, Prairie View, Arlington, Tarleton, The Texas Maritime Academy at Galveston, various agricultural experimental stations and other system entities.

The Board president, Sterling C. Evans of Houston, stated in a Houston Post article that the reorganization would strengthen all parts of the system. Each college will continue as separate units of one university. The title of president of each member college would be retained.

Yearbook Staff in Rush for Deadline

While practically every student at PV is busy making new year's resolutions, the 1965 Pantherland yearbook staffers are rushing to complete a second shipment to Taylor Publishing Company of Dallas.

The yearbook staff made its first shipment right before Christmas. A second preliminary shipment which includes the classes and organizations will be made before the month is gone. The class and organizations sections, considered the most tedious of the entire book, are in the completion stages now.

Staff Makes Final Call

Final call for materials and photographs of all campus organizations is being made by the yearbook staff. The deadline for all club information and photos is January 15.

The yearbook photographer will return to the campus Monday, January 11 to complete all group photographs. Students and faculty members who are to have re-takes of individual photos should check with Mr. Lloyd Wells on Monday.

Class and organization pages will be mailed to the yearbook publishers on or about January 15.

The following organizations are reported as having no photo and will be scheduled to be photographed at the late evening and night schedule at the Student Center: MENC, Library Science, Phi Beta Lambda, Progressive Veterans, Young Democrats, 13/26 pledge club, LBL pledge club, Waco - PV, Houston PV, Port Arthur PV, San Antonio PV, Commercial Foods,

Mr. W. J. "Billy" Nicks

Coach Nicks Receives Several Honors

Head football coach W. J. Nicks will leave for Atlanta, Georgia soon where he will be named Coach-of-the-year and will accept the giant National Championship Football Trophy presented by a professional sports organization in cooperation with the Coca Cola Company and the Atlanta Daily World.

Also to be honored are Co-captains Otis Taylor and Seth Cartwright.

Coach Nicks and quarterback

Collegiate NFA, SNEA, Newman Club, Women's Council, LBS, KOB, Junior Class Officers, Student Press Club and the Student Council. Schedules will be posted before Monday, January 11.

Science Department To Conduct Summer Training Program

The Department of Natural Sciences at Prairie View A&M College will conduct two Summer Science Training programs for secondary students in chemistry and biology on the campus for a six - week period June 14-July 24. The programs are supported by the National Science Foundation. The Biology Department will receive \$7970 and the department of Chemistry will receive \$8230.

The programs are designed for talented high school students in chemistry and biology. Both programs will emphasize new modern concepts in biology and chemistry. The chemistry program will be research oriented. Dr. L. C. Collins Prof. of Biology and Head of Department of Biology will direct the biology program and Dr. E. E. O'Banion Prof. of Chemistry and Head Department of Natural Sciences will direct the chemistry program. Nomination forms may be obtained by writing the directors of the programs.

Jimmy Kearney were named Coach of the year and player of the year by the Pittsburgh Courier in late December. Nicks and Kearney accepted the award at a banquet sponsored by the Courier and Royal Crown Cola Company at Pittsburgh, Penn. during late December.

Religious Emphasis Week Program

Sunday, January 10: 11:00 a.m. Sermon, Auditorium-Gymnasium, "The Role of Religion in Modern Society", Rabbi Newton J. Friedman, Beaumont, Texas.

2:00 p.m., Panel; Ballroom, Student Union Building, "The Role of Religion in International Relations", Panelists:

7:00 p.m., Assembly, Ballroom, Student Union Building, "The Role of Religion in Men-Women Relations", Rabbi Newton J. Friedman.

7:45 p.m., Bull Session, Ballroom "B" Student Union Building, A chance to talk-back to Rabbi Friedman, Sponsors: Methodist Student Movement. All interested are invited to attend.

Monday, January 11: Class room appearances

8:00 a.m., Mrs. Coss, 101 Education Building

10:00 a.m. Class room appearance, Mrs. Coleman, (Auditorium, Administration Building) All interested are invited to participate

11:00 a.m. Administration Auditorium, Mr. Coursey

7:00 p.m. assembly, Ballroom, Student Union Building, "The Role of Religion in Politics", Mr. George Eaton, Political Science Department, Prairie View A&M College.

7:45 p.m., Bull session with Mr. Eaton, Ballroom "B" Union. All interested persons are invited to participate.

Tuesday, January 12: 6:30 p.m., Prayer Meeting, Auditorium-Gymnasium. Topic: "The Role of Prayer in the Modern Society".

Brigade News ★

DISTINGUISHED MILITARY STUDENTS — Recently announced as DMS are (l to r) Carl Lockett, John Matt, James Snoddy, Ferman Hoxie, and Lawrence Madkins.

PV RIFLE TEAM — PV's precision rifle team recently scored highly in competition at Fort Sam Houston.

Distinguished Military Students at PV Selected for Regular Army

Lt. Col. Arthur N. Fearing, class. Infantry, Professor of Military Science at Prairie View A&M College, Prairie View, Texas, announced the selection of seven ROTC Distinguished Military Students (DMS) for appointment as Second Lieutenants in the Regular Army. Designees have demonstrated the requisite qualities of outstanding leadership, academic achievement, and high moral character. The Cadets awarded this distinction were Cadet Colonel Carl L. Lockett, Brigade Commander, Abilene, Texas, Cadet Lieutenant Colonel John E. Matt, Brigade Executive Officer, Weatherford, Texas, Cadet Lieutenant Colonel James E. Snoddy, Second Battalion Commander, Beaumont, Texas, Cadet Lieutenant Colonel Rudolph C. Portis, Provisional Battalion Commander, Oakland, California, Cadet Major Lionel J. Adams II, Brigade Information Officer, Dallas, Texas, Cadet Major Ferman C. Hoxie, Brigade Adjutant, Teague, Texas, and Cadet Major Lawrence H. Madkins, Jr., Brigade Supply Officer, Waco, Texas.

Each student named, in addition to maintaining exemplary academic, civic, and leadership records here at Prairie View, was an outstanding performer during the summer camp field training period at the 1964 ROTC Summer Camp in Fort Sill, Oklahoma. Other prerequisites considered in their selection were that they must have been in the upper third of their military science class and in the upper half of their academic

Cadet Lockett, an industrial education major will be commissioned in the Military Police Corps with a two year detail in the Infantry. Cadet Madkins, an agriculture major, and Cadets Matt and Hoxie, both biology majors, will be commissioned in the Medical Service Corps. Cadet Snoddy, a mathematics major will be commissioned in Artillery, Cadet Portis, a business administration major will be commissioned in the Adjutant General Corps with a two year detail in Infantry, while Cadet Adams also a mathematics major, will be commissioned in Ordnance Corps, with a two year detail in Infantry.

Upon successful completion of all academic requirements for graduation, these seven young men will have the opportunity of being commissioned in the Regular Army or the Army Reserve. Now, **THE CHOICE IS THEIRS.**

Never in This Lifetime

Never in this lifetime
Was there a sweeter one to love.
Never in this lifetime
Was one so like an angel above.
At last I have the true love,
And my heart within me sings.
For never in my lifetime,
Have I felt like this, a king.
Never in this lifetime
Had heave a better gift to give
Than you, dear, my true love.
For by your love I live.
Never in this lifetime
Was there one so sweet and rare
As you, my sacred jewel,
A treasure of life, so fair.

PV Rifle Team Competes at Ft. Houston

Our Prairie View ROTC Rifle Team fired a shoulder to shoulder match at Fort Sam Houston in San Antonio. Six other ROTC Teams from colleges in the Fourth Army Area also participated in the match. The Prairie View team came in fourth behind the University of Houston, Texas A&I, and the University of Texas in that order. Prairie View's top five shooters were Aaron Warren, Edward Kuykendall, Jr., Lemmon McMillan, Jr. Ira Strambler, and Leo Bradley. The prairie View sharpshooters have fired one other shoulder to shoulder match this year. It was against Southern University here at Prairie View. Our team won that one by a substantial margin. Other members of the rifle team are Negal Williams, Verlin Stripling, James Spencer, Jasper Dickson, Roy Pace, and Nobelton Jones.

Careers in Gov't. Service Offered

Students interested in a career in the government service who will receive their bachelor's degree in June are offered an opportunity to apply for fellowships to study at three different universities. Each fellowship has a total value of \$3,000. The stipend is \$2,500 and the remainder of the grant consists of fees and tuition at the three cooperating universities.

Beginning this June, fellows will serve a three-months' internship with a government agency in Alabama, Kentucky, or Tennessee such as the TVA, the Marshall Space Flight Center, a city or a department in one of the state governments. During the 1965-66 academic year, they will take graduate courses in public administration at the Universities of Alabama, Kentucky, and Tennessee.

Completion of the twelve-months' training period entitles fellows to a certificate in public administration. They can be awarded a Master's Degree at one of the three universities attended upon completing a thesis and passing appropriate examinations.

For information and applications, students should write to Coleman B. Ransone, Educational Director, Southern Regional Training Program in Public Administration, Drawer I, University, Alabama. The deadline for submitting applications is March 1, 1965.

Forth Worth-PV

With the new year coming to effect, the Ft. Worth PV Club has made a resolution to begin the new year off right by stimulating social and cultural environment around the campus. We have already begun by electing officers for the year of '65 and they are as follows: President-Maurice Barnes, Vice President-Earl Mitchell, Secretary-Margaret Gibbs, Assistant Secretary-Armelis Thomas, Treasurer-George Mitchell and Business Manager-James Parish and our club queen, Miss Brenda Moody.

With final exams coming up we'll be utilizing our time studying and passing, but immediately after exams, we hope to get in full swing with the new year and live up to our slogan to "Come alive in '65!"

The cowtowners would like to wish each and everyone a very prosperous new year.

James Brown-Réporter

Grin and Share It

Not all people keeping up with the Joneses are status seekers. Some are bill collectors.

Middle age is that time of life when the fellow who used to look like Gregory Peck now looks more like a bushel.

"Just because you have been waiting a long time," said the nurse to the expectant father, "does NOT mean that your baby will be a girl."

Diplomacy is the art of saying "nice doggie" while you look around for a stick.

Opportunist: Man who, finding himself in hot water, decides to take a bath.

Engineering Professor Profile

Dr. R. N. S. Rao

Shankaranarayana R. N. S. Rao is a native of India and hails from the city of Bangalore, the capital of one of the States of South India. He is a member of a family of ten, which include his parents, four brothers and three sisters who presently live in India.

He joined the Engineering Faculty at the beginning of the 1964-65 Fall Session as an Associate Professor and Head of Civil Engineering. During the week of 19-24 October he returned to Rutgers - The State University at New Brunswick, New Jersey to take an oral examination before the examining board to whom he had submitted his Doctorate Thesis prior to coming to Prairie View A and M College. He will receive his degree at the next commencement exercises of Rutgers University, which he plans to accept in absentia.

With this accomplishment, Dr. Rao becomes the second Ph.D. in the history of the School of Engineering at Prairie View A and M College. The first Ph.D. was Dr. Walter T. Daniels, Civil Engineering Department in 1942, who is now at Howard University. In addition, Dr. Rao has offered devoted assistance to Dean C. L. Wilson, School of Engineering, in proposing a graduate program in the near future.

Dr. Rao received a Bachelor of Engineering Degree from the University of Mysore in Bangalore in 1946, and later in 1958 he received a Master of Engineering Degree from the University of Roorkee majoring in Water Resources Development. Roorkee University is situated at the foothills of the Himalaya in Northern India. In 1959 he came to the United States to study Hydraulics and Soil Mechanics at the University of Connecticut. After completing the requirements for the Mas-

ter of Science Degree he began graduate study at Rutgers - The State University of New Jersey in 1961. Here he started graduate study for his doctorate degree in the Civil Engineering Department with his research topic being "Experimental Studies of Subpressure in a Freezing Soil System."

In addition to Dr. Rao's impressive educational background he has had many varied and illustrious professional experiences. During the period 1946-1959 he worked for the Government of Mysore State in various capacities. He served as Construction Engineer in charge of execution and maintenance of building works, road works, bridge works, and water resources development works. Later he became a design engineer in the River Valley Development Schemes of the Mysore State. He also worked in Mysore Engineering Research Station on "Basic Civil Engineering Problems of Restriction of Evaporation from Open Reservoirs" and on the problem of "Canal Lining."

Dr. Rao is a member of many honor and professional societies such as Phi Kappa Phi, Chi Epsilon, Sigma Xi, and the American Society of Civil Engineers. At present he is making arrangements for the installa-

Student Council President's Office —

The Future of PV

by Richard B. Lockett

You had probably heard the rumors of a change in the administration of the Texas A&M University. As you may or may not know, the system is to be a facsimile of the University of California system Texas style. Under this guise, the office of Chancellor, formerly held by M. T. Harrington, has been abolished. The President of the University, Gen. Earl Rudder has

assumed overall duties. These plans were formulated by the Board of Directors of Texas A&M University, which is headed by Sterling Evans of Houston. With the meager information that we have on this subject, it is very hard to form an opinion concerning the advantages and disadvantages of such a change. Some things that immediately come to mind are: (1) Loss of identity, (2) Growth of Prairie View under the same A&M Board as compared to the growth and expansion of PV for the last 88 years (3) Board of Directors for Prairie View (4) Monies for building and programs such as lyceum activities (5) Advantages and disadvantages of remaining in the A&M system.

tion of a student chapter of the American Society of Civil Engineers in the School of Engineering since joining the faculty at Prairie View A and M College in September. Dr. Rao also serves as Chairman of the Research Committee for the School of Engineering.

Dr. Rao's wife, Anasuya S. Rao, is a native of India and she has quite an illustrious educational background, too. Mrs. Rao has just completed the requirements for the Master of Education Degree from Rutgers University. In India she has taught history and English in the high schools for more than 10 years. In addition, she has had the rich experience of serving as Director of Girl Scouts Summer Camp in New Jersey for two years.

assumed overall duties.

The rumors that you have been hearing have been tentatively scheduled to be presented to a group supposedly representing the faculty administration, alumni and students on January 10 or 11, according to an article in a daily newspaper. It has been my understanding that the entire student body will have an opportunity to express an opinion on this issue, in a conversation with Dr. E. B. Evans.

tion of a student chapter of the American Society of Civil Engineers in the School of Engineering since joining the faculty at Prairie View A and M College in September. Dr. Rao also serves as Chairman of the Research Committee for the School of Engineering.

Dr. Rao's wife, Anasuya S. Rao, is a native of India and she has quite an illustrious educational background, too. Mrs. Rao has just completed the requirements for the Master of Education Degree from Rutgers University. In India she has taught history and English in the high schools for more than 10 years. In addition, she has had the rich experience of serving as Director of Girl Scouts Summer Camp in New Jersey for two years.

there has to be at least 100,000 young men and women who are not delinquent or derelict, anyway who do look for a real opportunity and who will profit from this kind of training.

Not all these young men and women need to be taken out of the environment where they are living in order to have a total change from the life they have been accustomed to. For those who can remain at home, we propose two programs. First, a work training program, which some people have compared to the old National Youth Administration. This work training program would give part-time jobs to young men and women—16 to 21 — who are poor and out of work and who are out of school. These jobs would be in the public parks, in repair and maintenance of public buildings and the rehabilitation of slums, in libraries, in recreation work, any type of a public purpose

CLUB TALK

K O B

Club 26

Happy New Year faculty, student body, and friends. First of all the Kappas hope you enjoyed your holidays and that you are ready to begin another school year.

Well, with the Coronation right around the corner the Kappa's will be extremely busy. For we have quite a few members participating. The vice-president of club KOB who is also our Miss Prairie View, will have a host of sisters supporting her on her royal night.

This week the Kappa's are extremely proud to spotlight Marie Johnson as Kappa of the week.

This year as history is fact, the Kappa's will continue their effectiveness on campus by participating, supporting, presenting and being the only KOB club on campus.

At this point I would like to encourage the potentials to keep up the good work for the weak shall fall, but the strong will stand. So keep on doing your best for the New Year, the Kappa's always see you in every little thing you do, so be on guard.

So now the members of Kappa Omega Beta Social Club, greet you a hearty good-bye until next time. OK?

—Reporter, Barbara Stringer

Biology Club

Biology Club members admonish the student body of Prairie View to continue to study and keep in mind that final examinations are just around the corner.

Along with the Members of the other departments in the Division of Natural Science, members of the Biology club enjoyed a pre-Christmas party held prior to the Holidays in the foyer of the Harrington Science Building. Music was played, refreshments were served, and an enjoyable evening was had by those attending the affair.

Barbara Kay Jones, Miss Biology of 1964-1965, will represent the Biology Club in the Miss Prairie View Coronation to be held soon. Miss Jones is a Senior Biology major from Sour Lake, Texas.

Many other activities and plans for members of the club are being discussed in addition to projects, selection of Biologist of the Month and intellectual series.

Education

CONTINUED from Page 2

the state university system are highly selective, but anyone failing to gain admission there can start at one of the state's 73 tuition-free junior colleges and work toward eventual transfer to a public four-year institution. Tuition and fees in the university system range from \$173 to \$224 a year.

New Jersey's public colleges, on the other hand, turn away thousands of qualified applicants each year, including some honor students. Rutgers, the state's only public university, is as selective as most private prestige institutions. Tuition and fees are \$506 a year, second only in state universities to Pennsylvania State's \$525 a year.

These figures tell the story: In 1963, there were 71,117 students from New Jersey attending college in other states. California, with a total population

Methodist Student Movement

Four members of the MSM here at Prairie View A&M attended the Eighth Quadrennial Conference of the Methodist Student Movement held in Lincoln, Nebraska, December 28, 1964-January 2, 1965. They are Joyce Adams, senior nursing, Gloria Titus, junior biology, Jacqueline Williams, junior elementary education, and Cleveland Shepard, senior arch. engineering (also president of the local MSM). There were 3500 students attending the conference from all 50 states and 36 foreign countries.

The theme of the conference was "The Church in the World." This conference was organized to explore the meaning of the Church in the world as a service; it's purpose was "to discover how the Church faces the world as the agent through which the world might be saved, redeemed, re-created."

The men who spoke to the conference were among the world's most renown persons. Dr. Martin L. King, Jr., recipient of the 1964 Nobel Peace Prize, spoke to the conference on the topic "Christian Responsibility in the Racial Revolution"; Louis Fischer, a leading authority on Russia, India, and the Middle East spoke on the present world situation; John Brademas, a U. S. Congressman (D-Indiana), addressed the conference on "Christian Responsibility in Politics and Government." Listed here are only three of the several speakers who spoke to the conference.

The four representatives will give a more detailed account of events high lighting the conference Monday evening Feb. 1, 1965, in the Memorial Center Ballroom - 6:30-7:30. This session will be conducted in a manner similar to the Huntley-Brinkley daily News report, and will be open to anyone who wishes to attend.

The next edition of the Panther will carry a concise report from the four representatives of events high lighting the conference.

primarily in the women's dormitories.

It was agreed that the Newman Club queen, Glenda Thiery, would represent the Newman Club in the upcoming coronation. Miss Thiery is a sophomore nursing major from Corpus Christi.

The Newman Club Congress will be held in Houston at the University of Houston. Registration (final) will be February 1, 1965. All Newman members interested in attending are urged to be present at the next meeting when the delegates will be selected.

Father W. D. Salisbury urged the social, religious, and intellectual committees to not stop working and to keep presenting good programs for the benefit of the club.

A speaker is contemplated for the first Tuesday following fi-

Les Beaux Arts Cultural Club

Greetings!!! We the members of Les Beaux Arts Cultural Club wish for each of you a most prosperous 1965. As we look into the future, we the brothers in Les Beaux Arts visualize 1965 as a "GOLDEN YEAR" for our organization.

Many projects similar to our "Keep Prairie View Beautiful Campaign" in which we donated to the campus 6 trash dispensers, are already out of the planning stage and on the drawing boards, all of which will include the entire campus. Preparation for our Annual Cultural Week has already begun and is developing splendidly.

Socially, we are expecting our Annual Sweethearts Ball, held in conjunction with our sisters in February to be the best ever. As finals rapidly approach every brother is conscientiously striving to win our semesterly "Scholarship Award" for the brother with the highest scholastic average.

We wish to publicly congratulate our brother, James Mitchell, for having been selected "MR. LBL ESQUIRE" for the school year 1964-65, he will be the official escort of Miss LBL, Carlotta Fontenot. Brother Mitchell is a senior, majoring in Electronics, from Pittsburg, Texas. Hats off to you Brother Mitchell, we don't think they could have made a better selec-

tion.

All persons interested in participating in Newman Club activities are urged to attend meetings which are held regularly in Room 204 of the Memorial Center on Tuesdays at 7:00 p.m.

Crescendo Notes

Well, the New Year of 1965 is here in full glory and splendor. We certainly hope everyone is successful in the fulfillment of all their resolutions and wishes.

On January 9, 1965, Club Crescendo will start the social whirl off with a blast. This will be the night when Santa makes his delayed visit to Prairie View. This will be the night of our Annual New Years Social... This will be a night of surprises and fun, all the brothers will shower their guests with multitudes of gifts. The boxes may range from large to small, but the ideas are all equal and will be evaluated in the same manner.

Be sure and keep posted for the date of the Vesper Program to be presented by Club Crescendo. It promises to be something entirely new and daring.

Before you realize it, final examinations will be here and the semester will be over, so don't be caught in that last minute rush.

This week we would like to spotlight Miss Bertha Huff and Miss Juanita Clark as our beauties of the week.

Well, that's all for now, see you next issue.

Reporter, Walter T. Lilly

It is our hope that each of you has among your New Years Resolutions, one which will help make Prairie View a better school. We are certainly going to try harder to better the cultural atmosphere here and we hope you will join us in our attempt. Remember Culture is a LEARNED trait, not an inborn one.

Newman

Members of the Newman Club here at Prairie View wish the entire student body, staff, and personnel a most happy and prosperous New Year. With the onset of a new year, the Newman club has set its goals even higher in providing social, religious, and cultural activities for members of the club. President Edward Kuykendall presided over the initial meeting of the New Year. A project on selling doughnuts was reported upon. The doughnut sell took place in order to supplement funds in the treasury. The sell was made

2.5 times that of New Jersey, "exported" only 33,022 college students.

The 21 institutions which said they still admit all graduates of high schools within the state are the Universities of Arkansas, Kansas, Kentucky, Minnesota, Nebraska, North Dakota, Wyoming and South Dakota, plus Arkansas AM&N, Kansas State, Kent State (Ohio), Louisiana State, Miami (Ohio), Ohio University, Ohio State University, Montana State College, Montana State University, New Mexico State, North Dakota State, South Dakota State, Tennessee A&I, and Texas Tech College.

There are other public institutions in this category which either do not belong to the association, or did not respond to the survey.

DOUBTING THOMAS? HOPEFUL AGNOSTIC?

Christianity has more to offer than hope. It has positive proof in the form of a MIRACLE which was foretold, described and is intensely personal. Ask the Religious Leaders or send me a card marked ESP-17. My reply is free, non-Denominational, Christian. Martyn W. Hart, Box 53, Glen Ridge, N.J. 07028 (USA).

THE SAFE WAY to stay alert without harmful stimulants

NoDoz keeps you mentally alert with the same safe refresher found in coffee and tea. Yet NoDoz is faster, handier, more reliable. Absolutely not habit-forming.

Next time monotony makes you feel drowsy while driving, working or studying, do as millions do... perk up with safe, effective NoDoz tablets.

Another fine product of Grove Laboratories.

PV CAGERS — Pictured above are members of PV's basketball team who soon will enter Southwestern Athletic Conference competition.

PV's Cage Team to Open 3-Game Stand With St. Mary's

Prairie View A&M's cage team will open a three-game home stand on Tuesday, January 12, when they entertain St. Mary's University of San Antonio.

The greatly improved Panther five is expecting a real test of strength against the San Antonio team. St. Mary's has about the same team that finished in runner-up position in the NAIA championship play off test year in Kansas City.

The annual grudge game with Texas Southern is set for January 14, in the Prairie View gym. Southern University's Jaguars will meet the Panthers at home on January 30, following the final examination period at the college.

Coach Leroy Moore's aggregation has won its last four straight games. The young team had a rough start, losing the

first three games by narrow margins. Opening conference competition with Arkansas AM&N at Pine Bluff Saturday night, they are hopeful of making a good showing against the several powerful league opponents.

Wiley College is also on the Panther travel schedule for January 11. Most league games are scheduled throughout the month of February.

"I suppose Henry is still taking life easy," remarked one woman to another.

"Oh, yes," was the answer. "Henry has only two regrets in life. One is that he has to wake up to eat, and the other that he has to quit eating to sleep."

After you've heard two eyewitness accounts of an accident, you begin to wonder about history.

Thanks to the ready mixes, pies like mother used to make will be no trouble to the next generation.

That's life — Youngsters of 4 and 17 are at their mental peaks. At 4 they know all the questions and at 17 they know all the answers.

structor, Mrs. McDonald reported midway the session two members because of ill health withdrew and two girls replaced them and without difficulty caught up. She also revealed this group was a very good one, and she was satisfied with the progress that had been made, especially with personal appearance, and in communicating.

Coronation

job in the community where the young men and women live. These jobs would have two purposes: (1) to give the young men and women the opportunity to earn some money in a legitimate and respectable way and (2) to teach them what it is to hold a job, how they have to conduct themselves in order to advance in the world of work. And at the same time to counsel some of them, to advise those who can do so to go back and continue their education.

Civil Service — Something you hope to get when you deal with a government bureau.

Books

CONTINUED from Page 6

White and Arthur Goldberg, are interesting and timely.

The book analyzes the new liberal - conservative dichotomy of the court and the judicial philosophy of the two blocs. During the 1962-63 term, the court's liberal wing, composed of Chief Justice Earl Warren and Associate Justices Hugo L. Black, William O. Douglas, William J. Brennan and Goldberg, claimed a majority of five. They were disposed to safeguard "the rights of the individual and to reinforce the guarantees of the Bill of Rights." The conservatives, now in the minority since retirement of Justices Felix Frankfurter and Charles E. Whittaker, urged judicial "self-restraint." This group consists of Associate Justices John M. Harlan, Tom Clark, Potter Stewart and White. Twelve cases were decided by 5-4 votes, and 10 of these involved protection of individual rights.

The book explains the nature and importance of the court's work for the layman and, hopefully, will promote more rational appraisal of its work. It should be worthwhile for citizens of all political persuasions and mandatory for undergraduate students of American government.

May 17, 1964, marked the 10th year since the Brown case decision which declared segregated schools unconstitutional. Benjamin Muse, former Virginia state senator and now on the staff of the Southern Regional Council, has written a book, "Ten Years of Prelude: The Story of Integration Since the Supreme Court's 1954 Decision." It is well timed.

It primarily is a survey of Negro's fight for implementation of the 1954 edict. He chronicles the emergency of many anti - integration organizations pledged to the maintenance of segregated schools and reviews effects of the decree in border states and the 11 Confederate states. Recent impact of the school desegregation struggle in many parts of the North is described. Progress in desegregating areas other than schools is included.

The book reflects the fact that implementation of the court's mandate has been slight. One must concur with Dr. Martin Luther King, who spoke recently in Houston and expressed the fear that at the present pace, it will take a century to

achieve total desegregation.

Muse's data clearly show that compliance has been achieved relatively easy where public officials endorsed or accepted the decision. The survey also reveals that more compliance was achieved during the presidency of John F. Kennedy than under President Eisenhower. — MAURICE COMPTON WOODARD, Political Science Teacher, Prairie View A&M College.

Manpower

CONTINUED from Page 1

The Manpower Program uses the programed method to teach such skills as typing and spelling. The program is designed to teach basic skills in typing, business communication, writing letters, telephone procedures, English, spelling, and punctuation. A basic knowledge of office machine practice is taught. Such machines as ditto, mimeograph and transcribing are used.

The students participate in an eight hour, five day a week program. This gives them the opportunity to experience a business atmosphere. The program now in progress started October 5 of '64 and will terminate February 5. A new program will start on February 8, and extend through May 8.

The 24 girls participating in this program were taken from their homes and put into a college environment, of the 24 girls three are now seriously considering entering college. The in-
