Annual English Language Arts Institute to be Held Saturday

Dr. Dora V. Smith, Professor Emeritus of English-Education of the University of Minnesota, was keynote speaker for the

twelfth annual English-Language Arts Institute held on Saturday, March 6, at Prairie View A&M College.

Dr. Smith received the B.A., M.A., and Ph.D. degrees from the University of Minnesota, and was awarded an honorary Ed.D. degree by the Rhode Island College of Education. She attended also the University of London and Teachers College, Columbia University. She has experienced 42 years of teaching English at both high school and college levels in Minnesota public schools, the Lincoln School of Columbia University, St. George's College in London, the University of Minnesota, and summer session courses at various institutions. She is well-known for her participation in English Institutes, state education and library association meetings throughout the United States.

In addition to delivering the keynote address, Dr. Smith will serve as consultant for a discussion group. The institute, which is sponsored by the Department of English at the college, is designed to increase the effectiveness of teachers of English and language arts in the various area elementary and secondary

Home Ec. Staff Member Co-Authors Booklet

Miss Dolores B. Ashley has recently co-authored, with Mrs. Vivian A. Moseley, a booklet "Unique Bulletin Board Ideas," released by Precision Printers, Los Angeles, California in December 1964.

The booklet, divided into two parts - Part I: Purposes, Designs, Principles and Procedures for Constructing Effective Posters and Bulletin Boards, and Part II: Illustrations in Miniature - deals with the purposes and functional aspects of effective posters and bulletin boards. The examples as presented are largely geared to motivating typewriting skills. Of this the authors state "with a little ingenuity the examples presented ... are adaptable to any subject or grade level."

Miss Ashley joined the Home Economics faculty in September 1964 and teaches art, textiles, and home furnishings. She plans to study at Sophia University, Tokyo, Japan during the 1965 Summer Session.

Mrs. Moseley is Supervisor of Business Education, Los Angeles, California.

Engineering Inst. Scheduled April 28

The School of Engineering at Prairie View Agricultural & Mechanical College is sponsoring the second of its Annual Engineering Institutes with the same objective in mind as in the case of the first institute. It is interested in helping to focus the attention of our high school administrators, teachers, and laymen throughout the State of Texas on the nature and importance of the Engineering Profession and Engineering Education. It is also designed to cre-

Film Schedule of Academic Center

The spring schedule of free films shown in the Ballroom at 7 p.m. by the Academic Information Center:

- March 11: "A Raisin in the Sun"
- March 25: "As You Like It"
- April 5: "The Silent World"
- April 12: "The Birth of a Nation"
- April 22: "A Day With Chaplin"
- April 29: "Cyrano de Bergerac"
- May 6: "Les Mains Sales"
- May 17: "Death of a Salesman"
- May 20: "The Prisoner"

Leo McAfee

PVC Engineering Student Selected Ideal Engineer

The "Engineering Student of the Semester" for the First Semester of the 1964-65 academic year was selected on the basis of his excellent ability to master his engineering curriculum and at the same time take an active part in other affairs that characterize a well-rounded college community. Therefore, no other single student fulfills this requirement any better than Leo C. McAfee, Jr.

Fulfilled Requirements for AKM

At present, Leo is a Junior Majoring in Electrical Engineering and he has been at Prairie View for only three semesters and two summer sessions. He has fulfilled the academic requirements for membership in the Alpha Pi Mu Chapter of Alpha Kappa Mu National Honor Society, and he will be initiated into the society in another week. The topic of his investigative paper submitted as partial fulfillment for membership is "Basic Conduction Mechanisms of the Tunnel Diode." At least 75 credit hours and a 3.30 overall scholastic average are required for a student to be eligible for membership in Alpha Kappa Mu.

Leo is a Resident of Maud Lea, a resident of Maud, Texas, is the son of Mr. and Mrs. Leo C. McAfee, Sr., and he graduated Valedictorian of his class from Central High School of

One-Day Institute for Advancement Of Science Teachers Set March 13

"Innovations in Modern Science Curricula — their Implications for Teaching in Elementary and Secondary Schools" is the theme of the one-day Institute for the Advancement of Science Teaching to be held at Prairie View A&M College on Saturday, March 13.

The Institute this year will feature a keynote address by Dr. Lee Wilborn, Assistant Commissioner for Instruction of the Texas Education Agency. Other eminent scientists of the state who will participate in the program for the day as consultants include Dr. Paul J. Cowan, Associate Professor of Science Education, Hardin Simmons University; Dr. Addison E. Lee, Director, Science Education, The University of Texas; Dr. William H. Matthews III, Professor of Geology, Lamar State College of Technology, and Dr. Paul Westmeyer, Associate Professor of Science Education, The University of Texas.

Emphasis at this annual Institute, of which this is the tenth, is placed upon an attempt to help keep the secondary school science teachers ap-

prised of the latest developments and trends in their areas of interest. Advice and assistance is also given them in regard to the availability and acquisition of the most recently developed science teaching aids.

Four Sectional Meetings

There will be four sectional meetings in which each of the very recent developments in the areas of biological, chemical, geological, and physical sciences will be the principal concerns. Dr. Lee will conduct the section on the Biological Science Curriculum Study; Dr. Westmeyer will chair the Chemical Bond Approach Project section; Dr. Matthews will head the section dealing with the Earth Science Curriculum Project, and Dr. Paul J. Cowan will be consultant for the section dealing with the Physical Science Study Curriculum.

Registration for the Institute will begin at 8 a.m. and the meeting will be concluded at 3:30 p.m.

Dr. Jewel Berry and Mr. Robert Gibson are the co-chairmen of the Prairie View Committee which arranged the Institute.

NEWS IN BRIEF

HONORS CONVOCATION SET FOR MARCH 29

The annual honors convocation has been set for March 29 with a program in the auditorium-gymnasium featuring Mr. Marshall Williams, a Prairie View graduate, and a staff member of the Secretary-General of the United Nations. Also, the President's annual dinner for students listed on the first semester honor roll will be held March 29 featuring Dr. T. F. Freeman, head-department of Philosophy at Texas Southern

University, as speaker for the occasion.

STUDENT PRESS CLUB TO ELECT PRESS CLUB SWEETHEART MARCH 9

Members of the Student Press Club will elect their Press Club sweetheart in a meeting Tuesday, March 9, at 8:00 p.m. in Room 206 of the Memorial Center. All Press Club members are requested to attend. Discussion of the upcoming MISS TEXAS HIGH CONTEST AND THE REPORTERS' CONFERENCE will be considered.

New Academic Information Center Opened by Dept. of Political Science

A special information and cultural center for all students has opened its doors on the Prairie View campus.

The Academic Information Center is a quiet room devoted to the intellectual stimulation of Prairie View Students. It will provide information to any interested person about graduate school and graduate fellowships, opportunities with the Peace Corps, VISTA, and the Job Corps, and the latest developments in national, international, and cultural affairs.

The Center is located in the A. I. building, room 100, and is open from 2-5 p.m. Monday through Friday.

"Our books, magazines, information pamphlets, tables, and chairs may be used by anyone," says Mr. George T. Eaton of the Department of Political Science, who directs the Center. "Students should feel free to drop in and ask questions, to read, or to write."

The Academic Information

Center also has information about standard examinations, such as the Federal Service Entrance Exam and the Graduate Record Exam. Students may consult maps, atlases, reference works, and books of general interest.

The Department of Political Science and the Woodrow Wilson National Fellowship Foundation of Princeton, New Jersey are joint sponsors of the Academic Information Center. The Center is aided by the active cooperation and material assistance of Dean G. L. Smith and Dr. J. I. Kirkwood of the School of Agriculture.

From time to time the Center sponsors special events of interest to the entire campus. The first of these events, which runs during the entire spring, is a festival of distinguished movies, which are being shown free in the Ballroom. The first film was "The Caine Mutiny," in color, with Humphrey Bogart, presented on March 4 at 7 p.m. (See box for the complete film schedule).

Yearbook's Ten Most Beautiful to be Presented at Miss Texas High

MOST BEAUTIFUL — The college Yearbook, PANTHERLAND 1965, has conducted a contest for the 10-most beautiful girls at Prairie View. They are (l to r) Joyce Samuel, Beaumont; Marion Coss, Henderson; Anita Bradford, Houston; Lovie Hall, Huntsville; Sharon Taylor, New Orleans, La.; Kate Smith, Dallas; Gloria Neal, Kilgore; Bobby Jean Garrett, Chireno; Cheryl Kaye McIntyre, Bonham; and Latricia Brooks, Prairie View.

Student Life Dept. To Sponsor Ullman In Piano Recital

The Department of Student Life will present Mr. Theodore Ullman in a piano recital. Mr. Ullman is a representative of the Music Foundation Artists Bureau of New York, New York. The recital will be Thursday, March 18, at 7:30 p.m. in the Ballroom of the Memorial Center. The Public is invited.

Students Notified of Acceptance to Medical Schools in Sept. 1965

Two Prairie View students have been notified of their acceptance to several Medical Schools beginning September, 1965.

Richard Mosby, a senior major in biology, has been accepted at the University of Texas Medical School, Galveston, Texas and also at Meharry Medical College, Nashville, Tenn. Leo Orr, also a senior in biology, has been accepted by Southwestern Medical School, Dallas Texas and by The University of Texas Medical School in Galveston. Orr is a participant in the Cooperative Program with NASA in Houston and is a member of Beta Kappa Chi Honorary Scientific Society. Both students are honor students and are members of Alpha Kappa Mu Honorary Society.

Dr. Stubblefield Speaks At Seminar Held at UT

Dr. C. T. Stubblefield, Professor of Chemistry, at Prairie

Debate Tournament Expected to Draw Large Participation

The Prairie View A & M College Debate Club, sponsored by the English Department is promoting a debate tournament. It is the desired aim of the club to promote inter-social club competition with regards to the principle of debating.

Although definite and formal contacts have been made with the specific brother and sister social clubs, any other interested independent teams are wholeheartedly invited to participate. Presently a majority of the social clubs of the campus have given enthusiastic consent.

Preliminary debates will be held in closed sessions. Semi-final and final debates will be open to the public. Cash prizes will be awarded to first, second and third place winners. This event is expected to become an annual affair.

Persons desiring more exact knowledge of procedures and qualifications may contact Joan Derrough, Tournament Chairman in Room 210 of the Education Building. The deadline for filing an entry is March 12.

View A&M College, spoke at a seminar held by the Department of Biochemistry at the University of Texas Medical School in Galveston, Texas on February 9, 1965.

Dr. Stubblefield is a recognized authority in the field of calorimetry. He spoke on the subject of calorimetry which was based upon the calorimetry laboratory which he has constructed on the Prairie View campus. He has constructed an adiabatic calorimeter that can be controlled to 1/100,000th of a degree.

Nerly 800 Paperback Books to Go on Sale at Academic Center Exhibition

Paperback books on subjects ranging from history and literature to science and mathematics — nearly 800 selected paperbacks from 48 publishers — are in the Combined Paperback Exhibit to be on display and sale at Prairie View this month.

The exhibition, the second major event sponsored by the Academic Information Center, will be open to all faculty, students, and staff. It is to run daily from March 18 to April 1.

This new collection of representative paperback books covers a wide range of fields. Included are works of American and world history, sociology, anthropology, politics, philosophy, religion and Russian studies. There is also a section of reference and guidance materials.

A major part of the sale and exhibit is devoted to the Arts: American, English, and world literature, biography, drama and poetry, literary criticism, essays, rhetoric and composition, foreign languages, music, and the fine arts. There is also a substantial selection of books on science and mathematics.

Visitors will find that the collection provides a variety of reading material which teachers and students may use as classroom texts or for supplementary reading, as well as for required, recommended, or independent study. In addition one may purchase books to enrich his personal library and for general pleasure reading.

A catalogue of the exhibition

will be available for teachers who wish to mark books for possible future orders or recommendations.

INSTITUTE (cont. from Page 1) schools. The 1965 theme is "Promising Practices in the Teaching of English."

Dr. Smith is a past president of the National Council of Teachers of English and a member of Delta Kappa Gamma, Kappa Delta Pi, Phi Beta Kappa and Pi Lambda Theta fraternal organizations. In 1957, she received the Hatfield Award from the National Council of Teachers of English in the United States. In 1961, she received from the University of Minnesota the Alumni Outstanding Achievement Award.

Dr. Smith has since 1925 published many books, articles and instructional materials related to the teaching of English, and is a frequent contributor to English education journals. She has traveled in Europe and Africa, and in 1955, traveled around the world in search of best books for children.

GENERAL STUDENT MEETING TO BE HELD MARCH 9

A general student meeting will be held March 9, 1965 in the auditorium-gymnasium, it was announced by council prexy, Richard Lockett. This meeting will entertain all suggestions, discontents, and grievances from the student body as a whole.

ZETA PHI BETA SORORITY, INC. OBSERVES FINER WOMANHOOD WEEK — (Pictured left to right) First row: Sorors Esel Bell, Marjay Anderson (undergraduate), Lucelustine Wilson, Maggie Daniel, Robbie Johnson, Kathryn Gibson, Patricia Mayfield (undergraduate). Second row: Sorors Gertrude Tapscott, Reda Evans, Willia Marion, Jesse Kirkwood, Homerzelle Craig, Jimme Ruth Phillip.

Zeta Phi Beta Sorority, Inc. Observes Finer Womanhood Week and Founders Day

Members of the Epsilon Lambda Chapter of Zeta Phi Beta Sorority, Inc., recently observed Finer Womanhood Week and Founders Day culminating with chapel services Sunday, February 28, in the gymnasium-auditorium. Speaker for the occasion was Dr. Maggie B. Daniel, professor of English and head of the department of Humanities at Wiley College, Marshall, Texas.

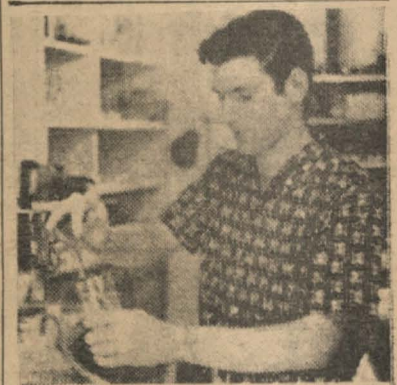

Saturday evening, the sorors held a love feast in honor of the guest speaker in the Ballroom of the Memorial Center. A delicious meal was served and Soror Jimmie Ruth Phillip presented a short talk posed on the question, "Are we Good Zetas?" The repast was tremendously enjoyed by all the sorors and in a gesture of sisterly love, the members of Epsilon Lambda Zeta Chapter of Zeta Phi Beta Sorority presented Soror Maggie B. Daniel with a gift.

During the well attended chapel services held Sunday,

February 28, Dr. Maggie B. Daniel presented some challenging guides for advancement in political, humanitarian, social, religious, and world affairs. Soror Gertrude Tapscott gave the reading for meditation and the prayer. Soror K. Snell Gibson revealed that the sorority is celebrating its forty-second year and is constantly soaring to even newer heights. Soror Lucelustine Wilson introduced the speaker and noted her many accomplishments. Sorors of an undergraduate chapter, Marjay D. Anderson and Patricia Mayfield participated in the activities of the program rendering the call to worship and the benediction.

Members of Epsilon Lambda Zeta Chapter of Zeta Phi Beta Sorority include the following: Esel D. Bell, Alberta Brady, Laura Brown, Juanita Byrd, Homerzelle Craig, R. L. Bland Evans, K. Snell Gibson, Blanche Johnson, Robbie L. Johnson, Jessie Kirkwood, Willia Marion, Flora D. Nauls, Jimmie Ruth

Phillip, Lillian Shelton, Crezetta Smith, Gertrude Tapscott, and Lucelustine Wilson.

Would you like to work in a European resort this summer?

PAYING JOBS IN EUROPE

Grand Duchy of Luxembourg — Thousands of jobs in Europe, including resort hotel, office, factory, sales, farm, child care and shipboard work are available through the American Student Information Service. Wages can reach \$400 a month, and, ASIS is giving travel grants up to \$390 to the first 5000 applicants. Job and travel grant applications and full details are available in a 36-page illustrated booklet which students may obtain by sending \$2 (for booklet and airmail postage) to Dept. M, ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg.

Work Study Program to Aid Needed College Students Established at PV

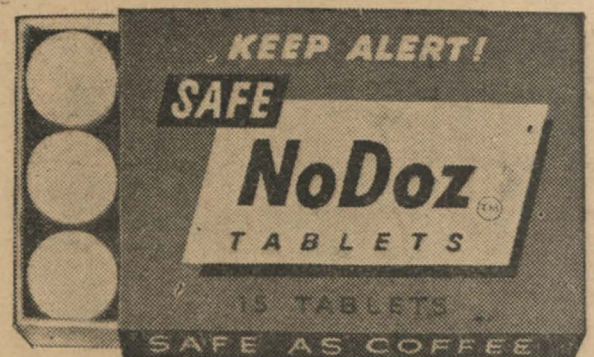

Prairie View A & M College has completed the establishment of a work-study program to aid needed college students through a grant of \$42,756, The Federal Economic Opportunity Act.

Approximately 300 Prairie View students, many who would be unable financially to attend college, have been given jobs as: teaching, laboratory and library assistants, and clerical, custodial and maintenance workers.

The program was set into motion at the college on January 25, the beginning of the second semester and students will receive their first pay checks on March 1, Dean G. L. Smith, Chairman of the committee in charge of the program, reports. Federal funds are being matched with ten per cent college funds.

The committee is working toward increasing the total number of students assisted. Dean Smith said, "We have made a request for additional funds

based on the large number of applicants for jobs."

THE SAFE WAY to stay alert without harmful stimulants

NoDoz keeps you mentally alert with the same safe refresher found in coffee and tea. Yet NoDoz is faster, handier, more reliable. Absolutely not habit-forming.

Next time monotony makes you feel drowsy while driving, working or studying, do as millions do... perk up with safe, effective NoDoz tablets.

Another fine product of Grove Laboratories.

CIVIL ENGINEERING CLUB ORGANIZED — A national professional society of Civil Engineers was inaugurated recently.

Inauguration of Prairie View A&M Civil Engineering Club

The fourth of February marked the beginning of the activities of American Society of Civil Engineers—a National Professional Engineers Society—on Prairie View campus. On that day the Houston Branch of ASCE inaugurated "Prairie View A&M College Civil Engineering Club." This club was inaugurated as an immediate first step towards the realization of a full fledged ASCE student chapter soon, joining the ranks of other such student chapters presently established in other schools of engineering, across the nation.

The club was inaugurated with the assistance of several distinguished guests. The inauguration of the club was initiated by Mr. John A. Focht, Jr., President of Houston Branch, Texas Section of ASCE. The address was given by Dr. C. H. Samson, Head of Civil Engineering Department at A&M University, College Station, Texas. In his address he pointed out some of the goals of such a club, which invariably lead to the broadening of one's knowledge and un-

derstanding of the Civil Engineering profession. He pointed out that it has unlimited outlets and covers a much broader field than the average person is led to believe.

Through such a club it is possible to keep students informed of the latest methods employed in Civil Engineering in addition to making it possible for the students to meet professional men working in a capacity that they are striving to attain, which is always profitable to the students.

Existence of the ASCE activity center on the campus always help those engineering students who are closely associated with Civil Engineering, in understanding this broad subject better in particular and professional accomplishment of many profession goals much easier in general. We are greatly indebted to

the gentlemen who helped to make the inauguration of this club a reality. It would be beneficial to all the engineering students in general and Civil Engineering Majors in particular to inquire and find out how they can support and develop the organization that was established with them in mind. In a meeting held on February 9, 1965 the following officers of the club were elected for the year of 1965. President — McNeal Adams; Vice President — Dwight A. Freeman; Secretary — Albert Foy.

We, the elected office-bearers of the club promise to present an interesting and instructive activity program during this year. Keep watch of such programs lest you may miss it. We do look forward for your encouraging patronage.

By Dwight A. Freeman

Annual Conference on Education Studies Socially Disadvantaged

Dr. Edward Brice
Keynote Speaker

Dr. A. C. Mallory
Luncheon Speaker

Prairie View A&M College's 36th annual Conference on Education held on March 5 centered around the theme - "Teaching the Socially Disadvantaged".

Special speakers for the occasion included Dr. Edward Brice, adult education branch, U. S. Office of Education, Washington, D. C.; Dr. Herbert Goldstein, director of special education, Yeshiva University, New York, N. Y.; and Dr. A. C. Mallory, Office of Manpower Automation and Training, U. S. Department of Labor, Washington, D. C.

Dr. Brice delivered the keynote address scheduled at

opening session at 9:00 a.m. in the Memorial Center, Dr. Goldstein spoke at the second session beginning at 10:15 a.m. and Dr. Mallory served as luncheon speaker.

The role of the public school and the community was discussed at all sessions. A topic of special interest was "Federal programs for the development of better opportunities for the socially disadvantaged."

Dr. G. R. Woolfolk is chairman of the committee planning the conference. Several hundred school administrators, teachers and community leaders were present.

Town Hall Discussion Presented

Students at Prairie View A&M College heard several area businessmen discuss needs and problems of business and industry during the annual Town Hall program held at the college on February 18.

The program was sponsored by the Texas Manufacturers Association in cooperation with the college department of economics.

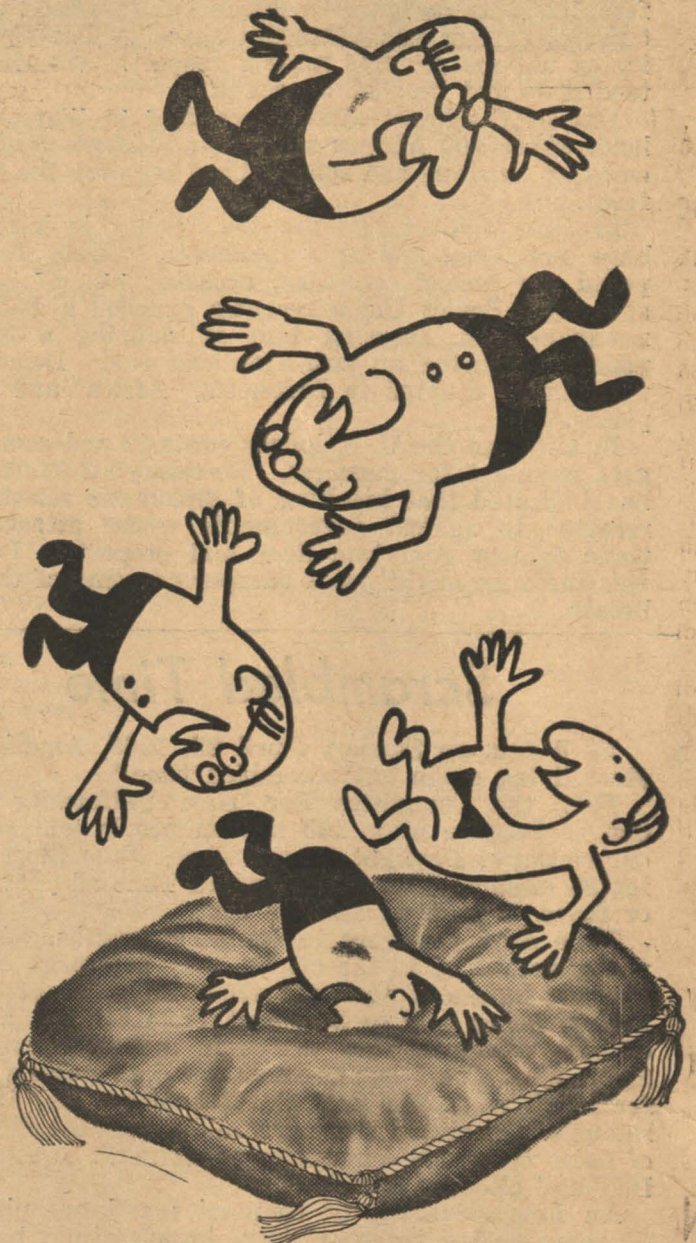

Members of the panel representing the TMA were Dave Bywaters, resident partner, Lawrence Leiter and Company; J. W. Collins, employment supervisor, Shell Oil Company; P. J. Dedeo, resident plant manager, Rheem Manufacturing Company; Eugene Hunt, Jr., president, Brenham Broom and Mop Works. The panel moderator was Stanley E. Keylon, assistant director of public relations, Texas Manufacturers Association, Houston, Texas.

Questions and discussion centered around such topics as the right-to-work law, the 35-hour work week, opportunities for college graduates in business and industry, qualifications of applicants, and the common market.

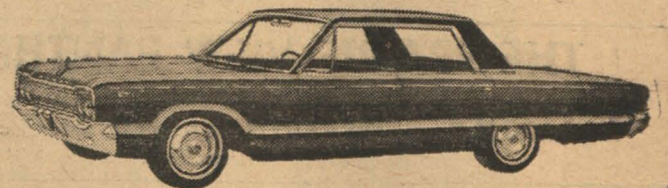

The program was coordinated by economics professor Clarence Batie. Dr. J. L. Brown is chairman of the department.

Our Prestige Abroad

This nation has just experienced one of the worst weeks on record concerning public demonstrations abroad aimed at damaging U. S. prestige.

As in many cases before, the incidents resulted in damage to U. S. embassies and other buildings and in abuse of American symbols such as the flag.

President Johnson has said: "We cannot be indifferent to acts designed to injure our interests, or our citizens, or our establishments abroad. The community of nations requires mutual respect. We shall extend it — and we shall expect it."

One of the latest attacks occurred in Warsaw, Poland, where 200 African and Asian students broke two embassy windows and splashed red ink over the marble front.

Protests against this country's policy in Viet Nam have not been the only incidents. Syria has expelled our second secretary, accusing him of being a spy. The Soviet Union recently expelled a Baltimore newspaperman, accusing him of slapping a Russian policeman during an anti-American riot. Demonstrations have erupted in Indonesia, Africa and other places.

In all cases the U. S. lodges protests and sometimes gets payment for damages. Secretary of State Rusk has indicated that breaking of diplomatic relations be resorted to against governments where attacks continue against American lives and property. Perhaps this measure might put a damper on some of the outbreaks.

Scrambled Time

At 2 a.m. on Sunday, April 25, 1965, America will start living again on "scrambled time."

This, the Committee For Time Uniformity points out, is because some 100 million people will advance our clocks to Daylight Saving Time, while the remaining 85 million will retain Standard Time all year round or move to DST on another date.

Time confusion goes to fantastic lengths. An airplane, according to the clocks, may arrive at its destination before it took off from its point of origin. Trains, being held to Standard Time by law, are out of step whenever they arrive in a DST community. Some West Coast businessmen are just getting ready for lunch when the East Coast business day is over. In one of the states, there are 25 different combinations of dates on which community areas move to and from DST and close by Standard.

An impressive list of companies and organizations — representing transportation, broadcasting, banking, communications, agriculture and many other enterprises have associated themselves with the Committee For Time Uniformity. Numbers of government departments and organizations, including Commerce, Defense, Post Office, General Services, the Weather Bureau, and others are also cooperating. The goal is to coordinate the efforts of all concerned and to bring about that uniformity through agreements and legislative action when and where needed. To risk a pun, it's high time this was done.

Needed: A Clean-up Campaign

By E. P. Williams

Within the last few years, there has been a tremendous growth of the community surrounding the college. This growth is laudable, and no one in his right mind would wish it away — although one might wish this growth had been better planned and controlled. Now as any reasonable person would expect, many problems have accompanied this growth. A few of these problems are now being worked on; but many have been left outstanding.

Among the problems that have not yet been aired in public, there is that universal one involving litter. And the litter problem in the community surrounding the campus is real indeed. The problem may not be as evident in some areas as it is in others, but it exists in those areas just the same. Even the main driveway to the campus is very often strewn with litter, sometimes so abundant as to be shocking and distressing.

Now if this rubbish in the community consisted merely of scraps of notebook paper, old pencils, and old magazines and newspapers, its presence might not be quite so shocking and irritating. But this is generally not the sort of litter defacing the streets and offending the eyes. Instead, there is a great array of food wrappings, wine bottles, and beer cans — mainly beer cans. Of course the presence of any sort of refuse is lamentable, for it causes questions to be

raised about the mentality of the people living in the community and of those moving around in it. Generally, those living in and moving about in the community should be either middle class people or people diligently striving to emulate the ways and assimilate the attitudes of middle class people. But the rubbish lying around would suggest that too many are refusing to give up the ways and attitudes of the slum, the alley, the gutter, and other such places where people seem to lust for squalor and ugliness.

At this point, it should be simply and clearly said that property owners are not being accused of littering their own places, even as tourists on their way from Maine to California are not. Such an accusation would be idiotic and groundless. In isolated instances, however, a few people living in certain areas may dispose of refuse so haphazardly that the wind eventually scatters it over the area; and there may be a few who find squalid conditions so natural that they put forth no effort to remove rubbish from their places.

But for the most part, home owners and responsible tenants can be credited with keeping the rubbish to a minimum. They apparently go out every so often and pick up the refuse from before their places. Otherwise, the whole community would look like one big dumping ground. However, these people would not be expected to clean up all the

vacant lots in the area.

Perhaps they could. Or perhaps the cleaning up of these unsightly areas might be accomplished in several other ways. A group of Peace Corps workers might be sent for; a group of students and professors from northern universities might be asked to do the job, perhaps those who came down to Mississippi to help rebuild a church and to help citizens qualify to register and vote; or a plea for help may be sent out to a fraternity at a certain northern university, the fraternity which some time ago caused its pledges to undertake a clean-up campaign in the community surrounding their campus rather than to engage in the usual horseplay and foolishness. Either way, a temporary clean-up job may be simple enough to accomplish.

But keeping the community free of refuse will remain as a job to be accomplished. And it will be a more monumental task than cleaning up; for this task will involve an attack on a whole way of thinking. In other words, minds will have to be cleaned up. The slum mentality and a distorted code of conduct, ever threatening to engulf the whole community, must be shown to be as undesirable and as unprofitable as the lack of the ability to read, write, figure and think. In those unthinking individuals, there needs to be instilled a greater sense of civic pride and responsibility. The naive must be shown that there is a more honorable code than the one which requires protecting public nuisances from exposure and ridicule.

To detail any program to reorient the thinking of litterers and would-be litterers is here impossible. It might be observed, however, that such a program will require organized efforts on the part of persons on the campus itself, with teachers talking to their classes and students talking to other students and to their friends from he outside. Perhaps the students living in the community might be more helpful than any other persons. No doubt being more often in a position to see others discarding things along the streets, these students could discreetly caution such persons about doing so.

If all those living in and moving about in the community would work together as responsible people should, the unsightly areas may get cleaned up and remain so. Then attention may be turned to a few other things that threaten to make the area surrounding the campus a full-fledged slum before it gets to be a first-class community.

Letters to the Editor —

Where is our Student Council? Last year we struck for our so-called rights, our own constitution to govern the student body by. The administration gave in and accepted the constitution. This constitution was to have been our "civil rights bill". How many student courts have we held? For that matter, how many student council meetings have we had?

Just where does the blame go? Is it the President? The Vice President, the members, or could it be the student-body? I think it's all of these people.

The office of president is a paid position. He should be the one to guide and direct us. It is true that the vice-president

Today's Youth

Perhaps those who despair of the nation's youth are wringing their hands too soon. There is no denying that juvenile delinquency is a genuine problem, but we should not lose sight of the fact that the vast majority of America's young people are serious, trust-worthy citizens.

A recent survey by Time magazine on present-day youth found that the country's youngsters are better educated and better equipped to deal with the world and its problems than ever before. Time thinks the potential of American youth is unlimited.

Vernon R. Alden, president of Ohio University, agrees. He says, "Today's student has a sense of mission. But his idealism is not vague: it is highly practical and pragmatic. The students I meet are skeptical of those who talk about their convictions but do not act on them." President Alden adds, "As I look at today's students, I am deeply moved by their maturity. It is fortunate that they are accepting responsibility at such an early age, for already the torch of leadership is being passed on to them."

Weird haircuts and wild music notwithstanding, the vast majority of our young people are

Looking in on the Moon

Amazing achievements come one upon the other in this space age — so fast, in fact, that the layman's mind can hardly comprehend them all.

The orbiting of a satellite nowadays has almost become routine news. Only a short time ago, it seems, it was a fantastic, almost unbelievable accomplishment.

Now we have crash-landed a second space vehicle — Ranger 8 — on the moon, taking thousands of photographs that will enable our scientists to actually see what it is like up there. One photograph taken in the latest historic mission was so closeup that it only covered an area about the size of a city block.

The fact that we can send a vehicle to the moon, crash-land it on a pre-designated spot, triggering mechanisms from the earth that send us back good, closeup photographs is amazing indeed.

The universe is beginning to give up many of its secrets, but no doubt this is only the beginning. One day Earthmen not only will study moon photos, but will walk upon its surface.

worthy heirs to their national heritage.

"Dear Prairie View . . ."

by Bobby Henderson

Alexis de Tocqueville, in his "Democracy in America", puts the problem of tyranny in a democracy in a new light. As he discusses the perils of freedom, he predicts the tendencies and problems of "mass society." He contends that contrary to the views of our founding fathers, the real problem is not that the majority will tyrannize the minority by forcing it's will and opinions upon them, but that all men will be gradually robbed of

all uses of themselves. A servitude of the quiet, regular, and gentle kind may even appear as an outward form of freedom. "Sovereignty of the people" may still appear to exist even after the people have been spared all of the care of thinking which if necessary to make their participation as citizens meaningful.

This ideology is by no means abstract or far-fetched to me. In fact, it hits very close to home. It kinda reminds me of the "Prairie View mass society."

DR. MAGGIE B. DANIEL — Guest speaker for the chapel exercises in observance of the finer womanhood week and founders day of the Zeta Phi Beta Sorority was Dr. Maggie B. Daniel, professor of English and head of the department of humanities, Wiley College.

Zeta Phi Beta Sorority Inc., Guest Speaker Was Dr. M. B. Daniel

Dr. Daniel is a native of Fort Worth, Texas. She is a graduate of I. M. Terrell High School-Valedictorian, Graduate of Wiley College, Bachelor of Arts, Magna Cum Laude, and a graduate of University of Wisconsin, Master of Arts; Doctor of Philosophy in English. Her teaching experience includes Wiley College, Huston-Tillotson College, Bennett College, and Alabama State College. Her professional organizations affiliations include National Council of Teachers of English, Modern Language Association, College Language Association, College Composition and Communication, Texas Folklore Society, and Howells Society. Other organizations listed are American Association of University Women, Dictionary of American Scholars in Literature, and Who's Who of American Women in 1964. Her social organization participation includes Zeta Phi Beta Sorority, Upsilon Zeta Chapter, Former First Anti Basileus of Zeta Phi Beta Sorority, Inc., Chairman, Executive Board, Zeta Phi Beta, Inc. Her church affiliation is Ebenezer Methodist - Marshall, Chairman, Circle No. 4, Women's Society of Christian Service. Her present position is Professor of English; chairman, Division of Humanities, Wiley College, Marshall.

Student Council Assemblies

The Executive Cabinet of the Student Council held a meeting recently to entertain suggestions, ideas, innovations, and grievances.

Among suggestions listed were the following: (1) a regular meeting day needs to be established, (2) a suggestion box should be made available for students use, (3) more general student body meetings should be held, and (4) faculty advisors should attend council meetings.

Grievances listed include: (1) the student newspaper's policy on articles, (2) the operations of the Book store, (3) compulsory chapel, (4) development of a bi-semester master course outline for all departments.

Those in attendance were

Richard Lockett, Rudolph Portis, Donald Dorsey, Edward Kuykendall, Joseph Page, Nolan Ward, Bobby Henderson, Marjay Anderson, Richard Gardner and David Hilliard.

Students Attend Colloquim at University of Texas

Barbara Tatum

Rudolph Portis

Jean Taylor

Edward Kuykendall

Five students from Prairie View along with two instructors attended a colloquim at the University of Texas on February 19th and 20th. The students and instructors were as follows: Jean Taylor and Barbara Tatum represented the sociology department. Michael Melton, Rudolph Portis and Edward Kuykendall represented the student body. Mrs. Johnson and Dr. Campbell were the instructors who attended the colloquim.

Challenge is the name given this formal student oriented program. The purpose of Challenge is to provide a series of provocative and informative lectures and discussion sessions pertaining to the political, economic, and social issues of the contemporary world. It pro-

poses to stimulate the apathetic student to enlarge his perspectives; provides participants an opportunity for direct confrontation of issues unparalleled in the normal campus setting.

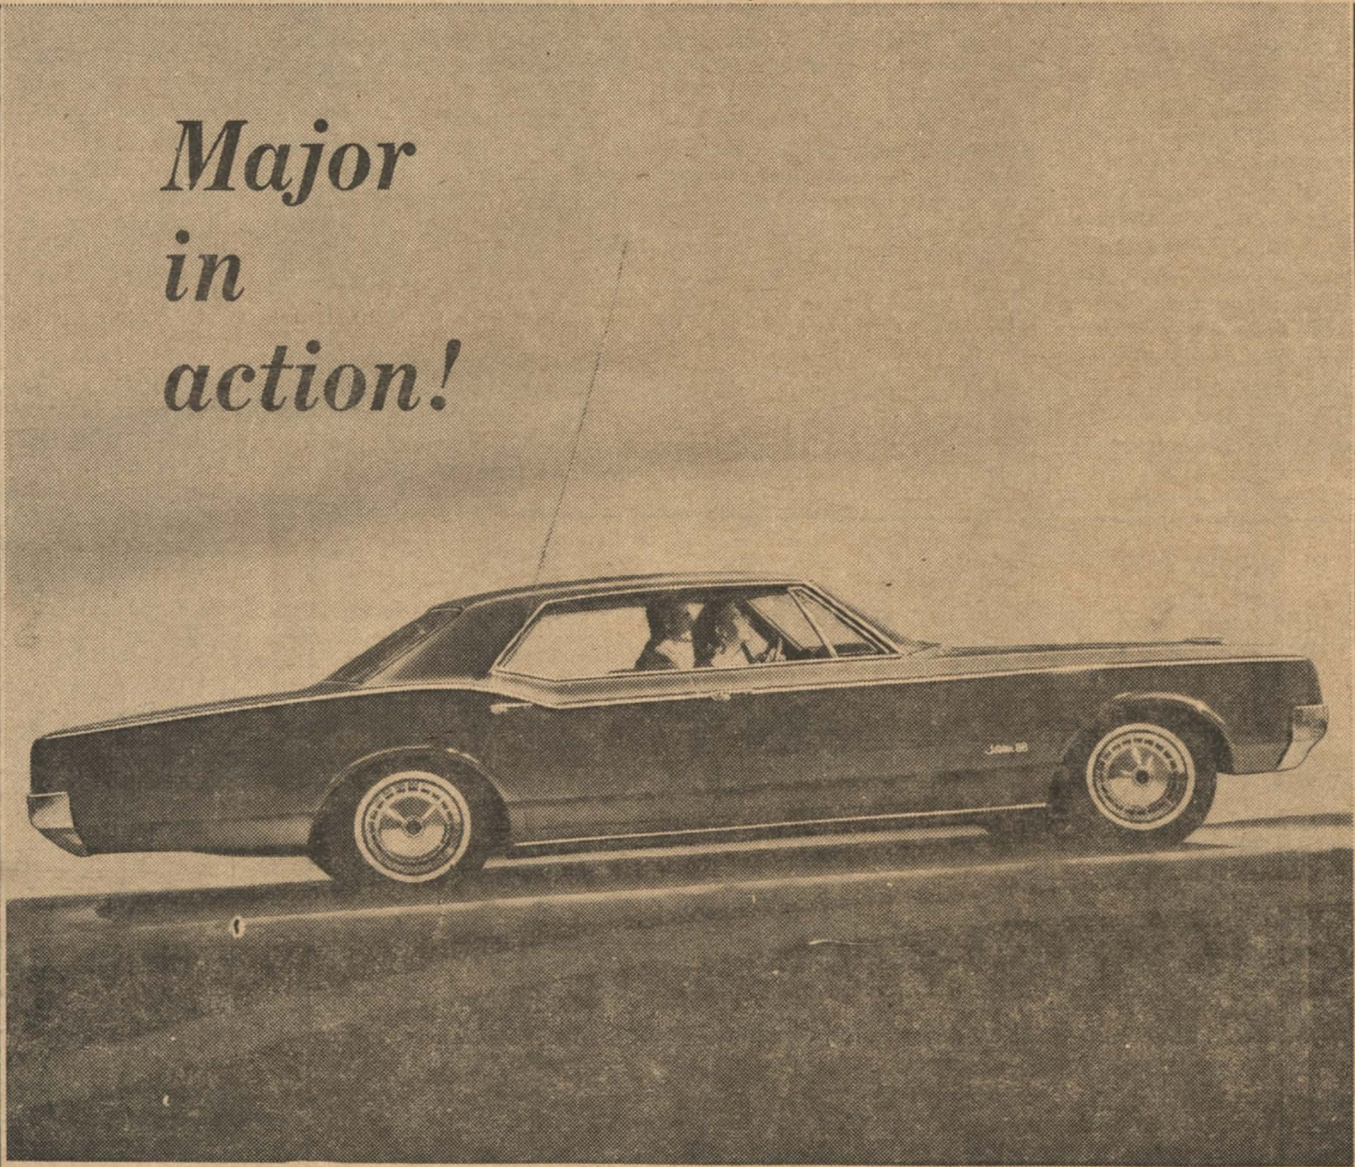

The topic for discussion was "Poverty in the Midst of Plenty."

The colloquim planners considered its challenge first to face and attempt to achieve an understanding of the plight of the poverty-stricken in our culture. Each generation of Americans has an obligation to understand the character, the strengths and the weaknesses of their society. Understanding the problem of poverty means understanding all of its forms: people who have lost desire for work, the special problems of the young and the

aged, the peculiar predicament of racial and ethnic minority groups. Yet, an understanding is not enough; what will we say to the American poor, once we have seen them? This is the second challenge; to endeavor to find honest but realistic solutions as education, retraining for employment, transferring workers to better employment areas, and the proposed Federal projects.

These were the issues raised by challenge 1965. The four speakers and a university professor, William Stringfellow, Otis Singletary, Senator Albert Gore and Senator Tower, were especially qualified to provide provocative insights from five different perspectives.

PV Engineering Student Honored

Three engineering students at Rice University, the University of Houston and PRAIRIE VIEW A&M COLLEGE were honored Wednesday, Feb. 24, as the outstanding students in their field, at an awards luncheon in Oberholtzer Hall on the University of Houston campus.

The awards were presented by Charles A. Lawler, president of the San Jacinto Chapter, Texas Society of Professional Engineers, as part of the local observance of Engineers' Week Feb. 21-27.

The students are Frederick M. Brasch, Jr., Rice senior of Mt. Prospect, Ill., majoring in electrical engineering; Willard N. Ander, Jr., University of Houston senior of Iago, Texas, majoring in industrial engineering, and FREDDIE LORACE THOMPSON, Prairie View senior, of Sealy, Texas, majoring in mechanical engineering.

All were selected on the basis of high academic standing and campus activity.

The buffet luncheon began at noon.

Students and faculty members of the three institutions and members of the San Jacinto chapter were invited to attend.

Science Profs Attend Meet at Bishop College

Dr. L. C. Collins, Dr. E. W. Martin, and Dr. E. E. O'Bannon attended a regional meeting of BKK and NIS which was held at Bishop College, February 12th and 13th.

Also attending were Billy Paul Smith, a graduate student in chemistry and Lofton Kennedy, a senior major in biology. Kennedy presented a paper in the biological section. Dr. O'Bannon served as chairman of the section in the Physical Sciences. Dr. Martin is the Vice-President of the Southwest Region for Beta Kappa Chi Honorary Scientific Society.

Earliest method of plating gold on a base metal was by using an amalgam of gold and mercury.

Students at UT

CONTINUED from Page 5

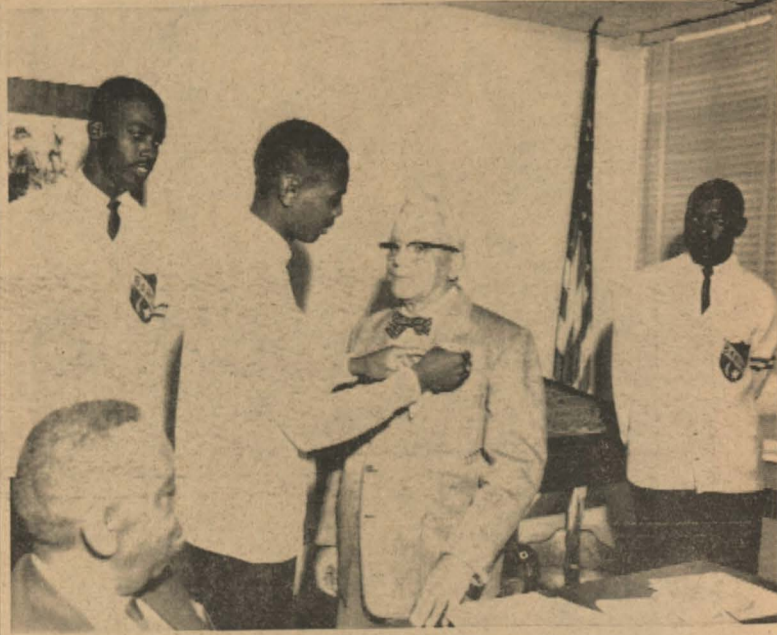

To examine poverty in the United States is in fact to examine the tenor and fiber of our society. We as a nation have approached mass affluence, yet we maintain within our borders something very close to mass poverty. This problem, one that our generation must face if we are to satisfy our moral consciences presents an enduring challenge.

On March 3, 1965 in the Memorial Center the students who attended the colloquium presented a discussion under the direction of the Y. W. & Y. M. C. A. on the insights of the well qualified speakers and the variety of views they presented concerning poverty and how it should and or could possibly be eliminated or reduced.

Jean Taylor discussed Senator Tower's address. Rudolph Portis discussed Mr. Stringfellow's views on poverty. Barbara Tatum discussed Mr. Shattuck's views on poverty. Edward Kuykendall was the moderator.

Mr. Portis told the audience that Mr. Stringfellow is a practicing attorney and a noted lay theologian. He lived and practiced law in the East Harlem section of New York City and his law firm denotes a large part of its work to the underprivileged in this and other cities. He is the author of "My People is the Enemy" in which he recounts many of his experiences during his seven years in Harlem.

Mr. Stringfellow in his religious or christian point view toward poverty spoke of moral decadence of our society as the apathy of the rich. He spoke on racism as an elementary denial of free enterprise. He suggested that we can "bridge the gap" between the rich and the poor by giving of the best of ourselves that the poor may be lifted from the dungeon of poverty. He concluded that the only way one can gain his life is to give

BARONS INITIATE COURTESY WEEK — Barons Leroy Hill and Bruin Glover observe as Baron Albert Holloway pins Dr. E. B. Evans with a courtesy tag during the onset of Courtesy Week.

it away.

Miss Taylor told the audience of Senator Tower's conservative view in regard to poverty. Senator Tower is the Republican senator from Texas. He is the first Republican senator to have been elected to represent Texas since 1870.

Senator Tower opposed the poverty program and made critical remarks on the Economic Opportunity Act. His address was an important part of the colloquium in that it pointed out some of the areas where improvement could be made in the poverty program, which in the early stage has not been perfected.

Miss Tatum presented the idealistic point of view in regard to poverty of Mr. Robert Shattuck, a professor of romance languages at the University of Texas.

Mr. Shattuck proposed a substitute of one year of voluntary service in concern for our fellow man here and abroad instead of the compulsory draft. He suggested that any male or female between the ages of 18-30 should enroll for one year of voluntary service in a program very similar to the Peace Corps or Vista in place of entering the selective service.

The strongest objection to such a proposal is not its impracticality but the difficulty of finding a high degree of national agreement on the goals of such an undertaking.

The entire meeting was both stimulating and informative.

Advancer's Science Club to Sponsor Fair

The Advancer's Science Club will sponsor its Fourth Annual Science and Craft Fair in the Austin County High School Gymnasium Thursday, March

LETTERS (cont. from Page 4)

should conduct the meetings for the general body or the legislative body of students, but if he doesn't do his job, then the president should push him. If he still does not function, he should impeach him. The members have the same privilege.

How many of us have stopped any of the officers of our student council and asked them what we were doing? I believe that if we worried them enough, they would either work or quit.

There are many questions to be asked and answered concerning our student life. The Student Council should be the one to seek the answers for our many questions. What are some of these questions:

(1) Why are we forced to be made so uncomfortable in our new Gym? We can't smoke, eat or drink sodas in it.

(2) What's happened to our Student dances?

(3) Is the Administration afraid that we might enjoy staying on campus during the weekend?

Well, who's going to answer these questions? What has happened to Prairie View???

David Hilliard

12, 1965. The activities of the day will begin at 11:00 a.m. with a program at which Dr. Charles Urdy will be the guest speaker.

The public is cordially invited to be present and observe the many fine projects prepared by the students of Austin County High School and Elementary Schools of the county. These exhibits will be originals of the students.

Exhibits will be on display from 1:00 p.m. until 4:00 p.m. See science in action at your school. Theme for the occasion "Wonderful World of Science"

CLUB TALK

Club Crescendo BOI

Last week the campus viewed the Probationary Period of the "Dogs" of Club Crescendo. Without a doubt, they presented the true spirit needed in the many hours of trials and tribulations.

When all the dust settled, Potentate Robert Sanders presented 25 Neophyte brothers to the Brotherhood. They included Ben Danford, Waco, Reliegh Woodard, Sweeny, Everett Smith, Port Arthur, Hommer Lee Smith, Dallas, Frankie Ball, Seguin, Carl Warren Hill, Mt. Enterprise, James Taylor, Wharton, Mario Rene Arriola, Santa Rosada Aguan, British Honduras, Hubert Steen, Houston, Marvin Robinson, Timpson, Garfield McConico, Round Rock, Norman Scales, Austin, Ernest Biggers, Edna, Elliott Gould, Houston, Hige W. Russell, Austin, Austin Richmond, Houston, James Robinson, Dallas, James E. Liggins, Cleburne, Erwin W. Portis, Calvert, Revous Taylor, Alto, Clarence Robinson, Port Arthur, Robert Gilbert, Ft. Worth, Larry Yelder, Gause, Charles Johnson, Denver, Colorado and one member by proxy Thornton Lamply, Houston. These are the men who will carry and perpetuate the color and spirit of Club Crescendo.

On Monday, March 1, 1965, Club Crescendo will hold its annual Sweetheart Serenade around the Abner Davis Fountain. The purpose of the Serenade is to present the neophyte Crescendos to the college community and to honor the Sweethearts of Crescendos and the Sister Club, the Club 26. The entire student body and faculty are invited to attend the Serenade.

The time for gala balls and activities is coming fast. So girls be sure you have a good hold on a Crescendo and don't be left behind. Plans and practice have begun on the Annual Crescendo Showcase. This year promises to be the best show ever presented.

We would like to shower Crescendo Edwin Clark, Crescendo Carl Hill and Crescendo Hernandez Jackson with Maroon and Gray rose petals for making the Honor Roll in their quest for academic excellence. We also extend hearty congratulation to the members of Club 26 and Pledge Club 13/26 for being so well represented on the Honor Roll.

Our featured Sweethearts for this week include all the members of Kappa Omega Beta Social Club. We are proud to announce that our mystical girl friend "Mama Lena" has found a new friend, "Papa Lena".

Nurses' Notes

The Prairie View Nursing Students' Association has chosen three delegates to accompany the president of the association to the state convention beginning March 21, which will be held in Austin, Texas. These

Saturday, February 27th marked the end of the Barons of Innovation tenth annual Courtesy Week. It was a complete success and we, the Barons of Innovation would like to thank all of you who wore the courtesy tags during Courtesy Week.

Courtesy Week started Sunday, February 21 with the Barons presenting the chapel services. The speaker was Dr. Samuel James of San Antonio, Texas. After the services all the Barons and their dates retired to the upstairs dining hall for dinner.

On Monday, the Barons presented Dr. E. B. Evans with an honorary membership into the Barons. This was done in the President's Cabinet meeting which was being held at that time.

Tuesday night the Barons gave a panel discussion to High School Seniors from the surrounding area. The purpose of the program was to help try and influence the students to finish their High School education and continue on to college. Topics that were discussed were: "Why is it Important to Finish High School", "What is College Really Like" and "Selecting a Field of Study." After the panel discussion the young men asked questions about problems that they would be confronted with in college, etc.

Thursday night was a very exciting one for the children in the community. The Barons presented them with a "Kiddie Show" which they enjoyed very much.

The brothers played games and sang songs with the children while the parents watched. The children showed their ap-

delegates are: Evelyn Knighton, Gwendolyn Stafford, Barbara Ann Jones, and Mardell Hunter, president of the association. The delegates will participate in all activities at the convention. Babara Jones will model the Prairie View Nursing Students' uniform. The delegates will stay at the Stephen F. Austin Hotel while attending the convention. Members of the association are wishing them a very enjoyable occasion and are confident that we have chosen very good representatives of the group.

On February 18, the executive boards of the Nursing Students' Association and the Texas Student Professional Engineers met to discuss the possibility of a special joint relationship. The two professional organizations considered a plan whereby they would come together to sponsor projects, which would not only be beneficial to themselves but to the entire student body; and social functions. A final decision and definite acceptance of the idea is the general consensus of all members of each association. Next scheduled meeting in March 4, 1965.

To the members of the association — "Remember mid-term examinations are right around the corner. PLAN AHEAD!"

Betty Lockett, Reporter

March of Dimes Funds Total \$228

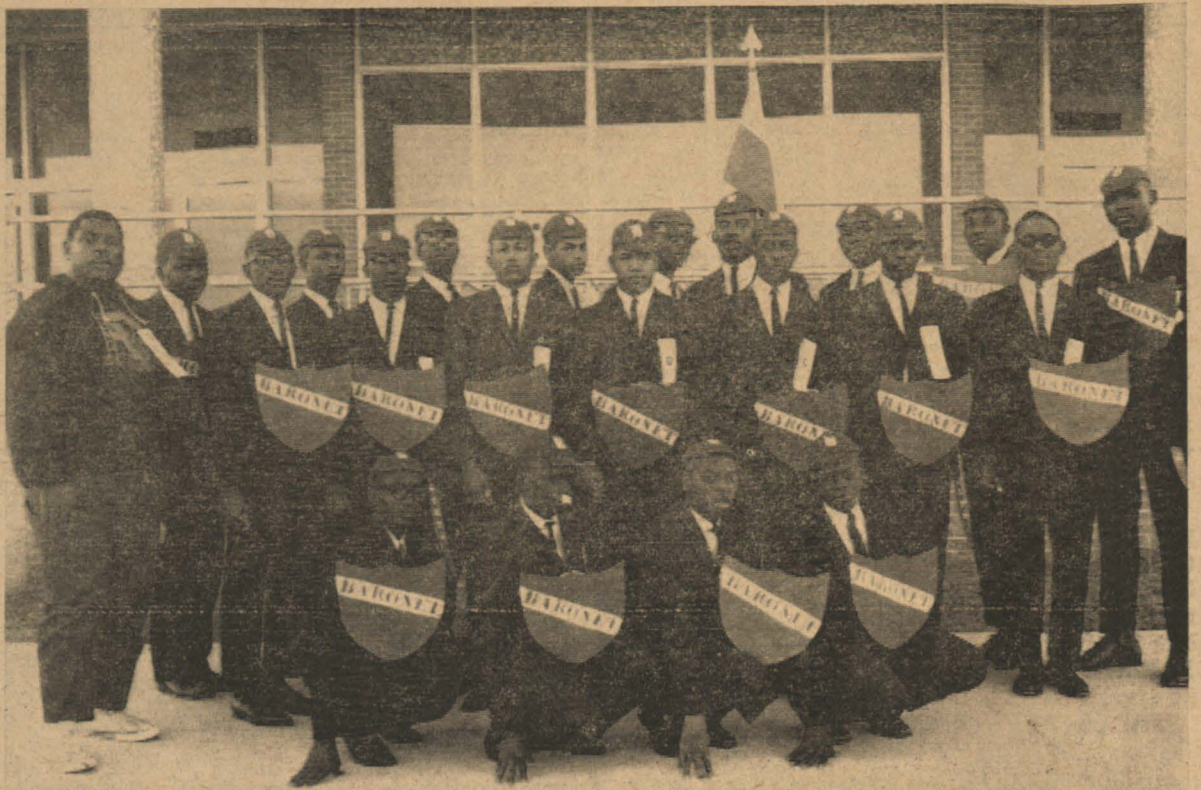

A total of \$228.00 was reported for the 1965 Prairie View March of Dimes Drive, Dr. C. A. Wood, local chairman, stated.

These funds include individual contributions and receipts from a student matinee dance and benefit movie.

The drive among students

and faculty was spearheaded by the Veterans Club.

The Mothers March was headed by Mrs. Marion Perry and assisted by Mrs. F. B. Ledbetter, Mrs. Iradene Lewis, Mrs. Jiles Daniels, Mrs. Billie Collins, Mrs. C. A. Wood, Miss Paula Poin-dexter, and Mrs. C. L. Ward. Boy scouts and cub scouts also assisted.

A MIGHTY PLEDGE CLUB — The Baronets (pledgees to the Barons of Innovation Social Club) were very active during their probationary period — winning the "tug-of-war" and delighting the student body with colorful antics around the fountain.

Biology Club

Elsaenia Soders

Biologist of the Month

Alberta Elsaenia Soders is a 1961 graduate of Washington High School, Marlin, Texas, where she finished with top honors.

Miss Soders, who is anticipating graduating in May is a Biology major and Chemistry minor. She is a member of Beta Kappa Chi National Scientific Honor Society and is Publicity Chairman of Alpha Gamma (Prairie View) Chapter. She is also president of the Biology Club.

Her campus activities include: Associate editor of the **Panther** and Business Manager of Club Twenty-Six.

At present she is doing research for an investigative paper in Parasitology. This research involves a comparative study of methods used in making helminth ova determinations.

Recently Miss Soders was recipient of a George Washington Carver Foundation Fellowship at Tuskegee Institute. She plans to begin graduate studies there toward the Master's Degree in June, 1965.

appreciation by sending thank you notes to the club.

Now that Courtesy Week is over, the Barons are looking toward the doing of more constructive things that will keep us "Tours Jours En Avant."

EPSILON PI TAU INDUSTRIAL EDUCATION FRATERNITY SCHEDULED FOR MARCH 27

The initiation services and banquet for Epsilon Pi Tau Fraternity is scheduled for Saturday, March 27, 1965. The speaker for the banquet is Mr. Homer H. Jackson, District Dir-

Fort Worth - PV

The Ft. Worth-P. V. Club took time out this past weekend to cheer our hometown high school to victory in the annual 4A basketball championship tournament (February 26-27). The club drew up signs and banners to attract Fort Worthians to one section of the gymnasium and with a tremendous amount of success. Everyone came out to watch the I. M. Terrell Panthers battle to a successful finish on Saturday afternoon. With the sounding of the last buzzer the Panthers spectators attempted to pour onto the floor to congratulate the coach and team with an unanimous amount of success (although they got the message). The club extends its sincere gratitude to everyone that participated in cheering the Panthers to another state championship title and also its congratulations to Coach Robert Huges and team for a job well done.

We would like to acknowledge the January graduates of our club. They are, Martha Clewis; Roberta Morgan; and Jessie Penson. These ladies have finished a successful academic tenure here at Prairie View. We, the club, congratulate our ex-members for achieving their goal.

Society of Visual Arts Initiated

The Society of Visual Arts, organized in February, elected the following officers: President, John Kyles; Vice-President, Richard Nicholson; Secretary, Beverly Hall; Assistant-Secretary, Selma Castleberry; Treasurer, Hall - Castleberry; Reporter, Patricia Dickson; and Parliamentarian, Archie Spencer.

The purpose of the Society is to encourage and stimulate an interest in the Visual arts (painting, sculpture, printmaking, architecture, et. al.). Membership is open to any Prairie View student and/or staff member who is interested in promoting art.

The Society plans a series of exhibitions originating from the University of Houston, Texas Southern University, and Prairie View College. There is also a possibility that a competitive Drawing Exhibition for Prairie View students will be sponsored.

For further information, contact Mr. John Kyles or any other member of the Society.

ector of the Houston District Texas Employment Commission. Pre-initiation activities will begin at 3:30 p.m. Room 114 of

Ideal Engineer

CONTINUED from Page 1

New Boston, Texas. Prior to coming to college he led as prosperous and active a life as he does now. During his years at Central High, he was a member of the basketball team, football team, band, and Dramatics Club. He was captain of the basketball team for two years and played on the first team for three years. He was a member of the High School Band for four years, with a specialized interest in first Trumpet.

Leo participated in the Interscholastic League for three years in Number Sense (arithmetic), and for two years he placed second in the District competition. In the other year of competition (1962), he won first place in District and State competition. Leo, also received the Honor Award and Scroll from the State Fair of Texas Association in 1962, for his work in the 4-H Club of which he was a member for nine years. The 4-H Club awards which Leo treasures most include the following: State in 1962 - First in Achievement; State in 1962—1st the Electric Program (in which he received a trophy and a \$50.-00 Saving Bond from Westinghouse Corporation); and State in 1963 - First in Citizenship (in which he received a watch). Leo received a Resolution from the Texas House of Representatives commending him for his high caliber of work in the 4-H Club.

Leo's achievements at Prairie View are just as numerous as those of his pre-college life. He received the Prairie View A and M College-Washington, D. C. Alumni Engineering Award which was given to the Freshman Engineering Student having the highest academic average. As a Freshman, he also was the winner of the First Annual A. W. Randall Freshman Mathematics contest, and the winner of the Freshman Annual Engineering Open Slide Rule Contest. At present he is a member of the Barons of Innovation Social Club, Institute of Electrical and Electronic Engineers, Texas Society of Professional Engineers, and the Methodist Student Movement. Lately he was selected as the most studious young man in the Junior Class.

the Memorial Center. Initiation will be held in the Ballroom at 4:30 p.m. and the banquet will be held at 7:30 p.m. in the Ballroom. There are eighteen members are to be initiated.

I. M. Terrell of Ft. Worth Nosed Out Worthing in State Basketball 81-80

I. M. Terrell High School, Fort Worth nosed out Worthing-Houston 81-80 in a thrilling climax to the three state Interscholastic League Basketball Tournaments held at Prairie View A&M College Friday and Saturday.

Fort Worth won the AAAA title in a field of four distinct winners, including Emmett Scott — Tyler and Charlton Pollard — Beaumont. Wayne Lewis and Edward Snaders led the scoring for the Terrell Panthers with 15 points each. Worthing's Juarez Rosborough scored 29 points in the final game.

In Class AAA, Dunbar-Lubbock turned back Turner High — Carthage 81-66 to win the state crown. Tommy Ricks scored 32 points for Dunbar, followed by Quincy White with 19 points.

Carverdale — Fairbanks (Houston) edged Dalworth High of Grand Prairie 75-72 in class AA finals. High scorers for Carverdale were Santee Roberts and Frank Henry.

In semi-final games played Friday, Grand Prairie defeated Rhoads-Dangerfield, and Carverdale dropped Washington-Teague 55-53. Carthage whipped Dunbar-Temple 86-73, and Lub-

bock downed Fidelity-Galena Park 59-54. Worthing won over Scott-Tyler 67-44, and Fort Worth beat Charlton Pollard 91-77.

The All-Tournament Teams name, school, city, games and average scores are as follows:

AAAA — Wayne Lewis, I. M. Terrell, Ft. Worth, 2, 18; Rasborough Tuareg, Worthing, Houston, 2, 20; Sammie McDonald, Charlton Pollard, Houston, 1, 19; Eddie Crockett, Charlton Pollard, Houston, 1, 25; James Cash, I. M. Terrell, Ft. Worth, 2, 21; Edward Sanders, I. M. Terrell, Ft. Worth, 2, 17; Richard Gross, Worthing, Houston, 2, 19; Willis Kenneth, Worthing, Houston, 2, 15.

AAA — Billy Hayes, Turner, Carthage, 3, 20; Levon Rocqumore, Turner, Carthage, 3, 22; Edward Osborne, Turner, Carthage, 3, 25; Clarence Hawkins, Dunbar, Lubbock, 2, 20; Quincy White, Dunbar, Lubbock, 2, 21; Clarence Bolden, Fidelity, Galena Park, 1, 27; Billy Rosemore Fidelity, Galena Park, 1, 20; Ricks Tommy, Dunbar, Lubbock, 2, 24.

AA — Willie Willis, Hoxie, Teague, 2, 23; Marvin Levels, Hoxie, Teague, 2, 22; Barney

sion.

This important affair will be held on April 28, 1965 on our college campus, and it is intended to be a grand-one-day event. Please let the School of Engineering take this opportunity to welcome the attendance of any interested high school student or faculty member.

Our School of Engineering offers an excellent opportunity for any qualified student to obtain a Bachelor of Science Degree in the following departments:

Department of Architectural Engineering

Department of Civil Engineering

Department of Electrical Engineering

Department of Mechanical Engineering

For more information, contact Mr. C. L. Wilson, Dean, School of Engineering, Prairie View A&M College, Prairie View, Texas 77445.

James A. Anderson, Chairman, (Assistant Professor of E. E.), Publicity & Invitation Committee.

Engineering Institute

ate interest in engineering among our high school principals, counsellors, and teachers so that they might in turn be able to encourage and constructively advise qualified high school students desiring engineering as a career.

Information will be given on the need for engineers, requirements of the Engineering Profession, pre-college preparation for engineering, and the opportunities available for engineering graduates.

The major objective of the institute is to disseminate information and materials that will increase the general understanding of engineering and engineering as a career. Particularly, it is an attempt to achieve a better understanding of engineering and its requirements of our high schools. It is hoped that the institute will be a valuable experience that will enhance the knowledge of teachers and counsellors relating to engineering and the opportunities available in the field for the young engineer in this Age of Space.

Outstanding men from education and industry have been chosen to participate in this special event, and they are prepared to offer first hand knowledge of the present requirements and opportunities inherent to the Engineering Profes-

THE CHAMPS — The Champions of the State AAAA basketball tournament are the I. M. Terrell Panthers of Fort Worth who overpowered the Worthing Colts of Houston for the coveted title.

Class A State Competition - Arp Victors

Industrial High School, Arp, emerged champions in the Class A state Interscholastic League basketball tournament held Friday and Saturday at Prairie View A&M College. Arp defeated Carver - Sweeny 63-38 in the finals.

In Class B competition, Woodson High-Normangee defeated Coleman 58-56 for the state basketball championship. First and second place championship trophies were awarded at the close of the tournament.

Semi-final games included Arp's 78-61 victory over Hughes Springs, and Sweeny 60-Commerce 54. Coleman defeated Floydada 69-57 and Normangee dropped Wellington 52-46 in

Fleming, Rhoads, Dangerfield, 2, 14; Richard Evans, Rhoads, Dangerfield, 3, 22; Santee Robert, Carverdale, Fairbanks, 3, 20; Joe Jones, Dalworth, Grand Prairie, 3, 25; Frank Henry, Carverdale, Fairbanks, 3, 12; Mitchell Sanders, Delworth, Grand Prairie, 3, 18.

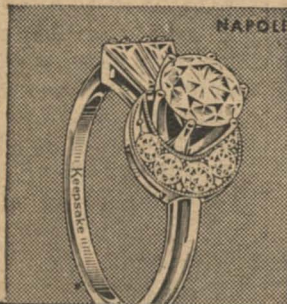

World population should reach 3.3 billion this year and 4.3 billion by 1980, according to the Population Reference Bureau. The growth rate is about 65 million annually, with the greatest increases in the least developed areas.

Class B semifinals.

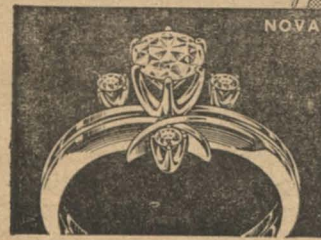

The Class A All Tournament Team included Jerry Walker, captain; and Cleburne Brigham, Commerce; Jesse Bess and Clarence Williams, Sweeny; Frank Corthridge, Arp; Chester Vaughn, LaRue; Lawrence

Smith, College Station; and Chris Donnell, Hughes Springs.

Other teams participating included Colorado City, Corrigan, Chester, Giddings, Mart, Wells-point, Texas City, Montgomery, Kendleton, Luling, Mt. Enterprise, Itasca and Lott.

Exciting New Designs

Keepsake DIAMOND RINGS

True artistry is expressed in the brilliant fashion styling of every Keepsake diamond engagement ring. Each setting is a masterpiece of design, reflecting the full brilliance and beauty of the center diamond... a perfect gem of flawless clarity, fine color and meticulous modern cut.

The name, Keepsake, in the ring and on the tag is your assurance of fine quality and lasting satisfaction. Your very personal Keepsake is awaiting your selection at your Keepsake Jeweler's store. Find him in the yellow pages under "Jewelers." Prices from \$100 to \$2500. Rings enlarged to show beauty of detail.® Trade-mark registered.

HOW TO PLAN YOUR ENGAGEMENT AND WEDDING

Please send new 20-page booklet, "How To Plan Your Engagement and Wedding" and new 12-page full color folder, both for only 25¢. Also, send special offer of beautiful 44-page Bride's Book.
