# Budget of \$9.6 Million Approved For 1967-68

The W. R. Banks Library  
Prairie View A. & M. College

The Texas A & M University System Board of Directors approved a record \$9,636,000 operating budget for Prairie View A & M College during 1967-68.

The new budget which goes into effect September 1, represents an increase of more than \$1.5 million over current expenditures.

### NEW DINING HALL PLANNED

Board members also appropriated \$25,000 for the preparation of preliminary plans and other expenses for a new dining hall at Prairie View. According to Prairie View President, Alvin I. Thomas, the new facility will

be capable of feeding 5500 students.

Over \$250,000 was allocated to renovate college dormitories and purchase new furniture for several residence halls. An appropriation of \$70,000 was made for air conditioning the present dining hall.

### FACULTY SALARIES INCREASED

More than \$2 million of the 1967-68 appropriation went for faculty salaries. Dr. Thomas stated that while an across-the-board increase was not authorized, most faculty members received salary raises.

The appropriation included

\$240,000 for the college library, with a total of \$100,000 allocated for books. These funds will increase the library's collection considerably.

Increased funds were also allocated for institutional research projects.

Also approved were funds for the employment of ten faculty fellows who will have the responsibility of directing operations of the residence halls. In addition, faculty fellows, who will be qualified faculty personnel, will serve part-time on the instructional staff. The plan is a part of the institution's effort to develop a truly effective residen-

tial college.

### BUILDINGS NAMED

In other action affecting the college, the board approved naming three buildings in honor of deceased persons who rendered outstanding service to the school.

The new men's dormitory will be named in honor of the late Harry E. Fuller who was dean of men at Prairie View from 1949 until his death April 17, 1967.

Prairie View's new women's dormitory will be named Golovina Virginia Banks Hall, in memory of the wife of W. R. Banks, the school's chief ad-

ministrative officer from 1925 to 1947. In requesting the new dormitory be named in honor of the late Mrs. Banks, Prairie View A & M President Alvin I. Thomas told the board she was a major influence on the lives of young women on the campus during a period of more than two decades.

The present dining hall will be named in honor of the late Roby W. Hillard who was graduated from Prairie View in 1928 and later served in numerous capacities at the school, including dining hall manager, dean of men and several teaching positions. He died April 6, 1957.

## Freshman Orientation Program Set

Two outstanding state and national figures will serve on the Freshman Orientation program scheduled to begin on September 11. W. Van Johnson, director of Student Activities, announced.

Attorney Barbara Jordan of Houston, a member of the Texas legislature will speak to freshman students Tuesday, September 12 on the Theme — "Social Awareness in Education." Miss Jordan will speak on the subject from the point of view of the state.

Dr. Samuel Proctor, president of the Institute for Services in Education, Washington, D. C. will speak on the Theme from the National level. The date of Dr. Proctor's appearance has not been set.

President A. I. Thomas will welcome the new students and address the group at 9:00 a.m. on September 11. He is scheduled to speak on the subject — "Partners in Progress in the residential college."

Special programs have also been set for Sunday, September 10. A Convocation for parents is planned for the regular 11 o'clock service and Dr. Thomas will speak to this group on the residential concept of the college. At six o'clock, the United Ministries will sponsor a "Seminar in Ethics."

The week's activities will include get-acquainted sessions, counseling and testing, meetings with various instructional and

## Special Institutes, Programs Highlight Summer Session

Special institutes short courses and programs continue to highlight the session at Prairie View A&M College as the second six-weeks terms got underway this week.

Running throughout the month of July and August are two-week institutes in Agriculture and Home Economics. Designed for in service teachers, the subject matter included educational material, child care and development, clothing textiles, landscape design and maintenance, dairy management, beef cattle reproduction, swine production

and management and repairing small gasoline motors.

and management and repairing small gasoline motors.

SCIENCE PROGRAM — An experiment in chemistry is being performed by students, Joseph Coady and John Sempe under the supervision of professor Earl K. Jones. Thirty talented high school students participated in the six-weeks institute.

Beginning the second-term are short courses for baton twirlers, cheerleaders and high school student council members. Institutes are now operating for home economics teachers of disadvantaged youth and for teachers of physics. Both are supported by federal funds.

Programs operating throughout the summer and involving hundreds of special students, include "Upward Bound", "Experiment in Living", Neighborhood youth Corps, Dow Chemical Company Workshop, and the Teacher Corps.

Other institutes and workshops held during the first summer term were the National Science Foundation Institute for secondary teachers of science, High ability secondary students of chemistry, an Institute for Teachers of the educationally deprived, cosmetology and industrial education institutes, and workshops in music and mathematics. An institute and state wide conference on pupil achievement attracted over 200 school administrators to the campus earlier this summer.

Regular college level and graduate classes are in progress in addition to these special offerings.

## Summer Commencement Scheduled August 24

Approximately 300 graduates are expected to receive degrees, diplomas, and awards at the annual August Commencement exercises on August 24.

A special sermon for the graduates is scheduled for 11:00 a.m. Sunday, August 20. The speaker for the occasion is the Reverend Robert H. Wilson, Minister, St. John's Baptist Church, Dallas, Texas.

Faculty members will participate in the commencement procession on Thursday night, August 24. The procession will start at 7:15 p.m., and exercises set to begin at 8:00.

President Alvin I. Thomas will award degrees to the 1967 class who represent undergraduate and graduate students from all college divisions. He will also

Reverend Robert H. Wilson  
Special Sermon for Graduates

recognize honor students and persons receiving special awards.

The name of the commencement speaker had not been confirmed by press time.

## College Gets \$1.5 Million Grant

The U. S. Department of Labor has approved a grant of \$1.5 million for an experimental and demonstration manpower program to be conducted by Prairie View A. & M. College. The program, scheduled to begin around September 1, will operate for 23 months and will be concerned with recruiting and training older youth and adults (ages 18 and over) who are either unemployed or underemployed.

Participants in the program will be selected from poverty areas in twelve counties of southeast Texas that surround Prairie View. These counties in-

clude Austin, Brazos, Burleson, Colorado, Fayette, Fort Bend, Grimes, Harris, Montgomery, San Jacinto, Waller, and Washington. A weekly subsistence allowance will be paid to each trainee.

The skills training program will consist of the following industrial occupational areas: Auto Mechanics, Cooks (Hotel and Restaurant), Dry Cleaner-Presser, Landscape Gardener, Meat Cutter, and Office Occupations including clerk typist, stenographer, key punch operator, and computer programmer. In addition, the project will seek to

### Talented High School Students From Nine States Attend Science Institute

A total of twenty five highly gifted high school science students representing nine states are attending a Summer Science Training Program in Chemistry at Prairie View A&M College.

The program, in its ninth year of operation at the college, is sponsored jointly by The National Science Foundation and Prairie View A&M. Dr. E. E. O'Banion, head of the department of Natural Science serves as director.

Activities of the six-weeks program, which ends on July 21, include an intensive study of chemical principles, training in the use of the slide rule, practice in solving problems in general chemistry, and participation in scientific research under the supervision of research professors.

A field Trip to the Manned Space Center, the Houston Astrodome, the University of Texas Medical School and the Sea-Arama has been scheduled for the final week of the program.

States represented by students include Arizona, California, Minnesota, Nebraska, Ohio, Oregon, Texas, Washington, and Wisconsin.

Participants and staff members pictured in the group photo (above are L to R) First Row: Janis Mayeda, Otello Washington, Andray Cockerell; Linda Tang, Phoenix, Arizona; Aleta Pullins, Columbus, Ohio; Mary Racite, Winona, Minnesota; Michele Brand, El Paso, Texas; Sandra Willis, San Antonio, Texas; and Dr. O'Banion. Second Row: Stephen Hill, San Angelo, Texas; Ronnie Grant, Corpus Christi, Texas; David Fry, Ralston, Nebraska; Michael Wheeler, San Antonio, Texas; Nelson Anderson, Milwaukie, Oregon; Donald Lewis, Waller, Texas; Michael Cerullo, San Antonio, Texas; Third Row: John Sempe, Houston, Texas; Donald Ellis, Mission, Texas; Wendell Schwartz, Randolph A. F. B., Texas;

Reginard Sears, La Marque, Texas; Bruce Shanahan, San Antonio, Texas; Wilbert Carter, Port Arthur, Texas; Donald James, Houston, Texas; Fourth Row: J. E. Standifer, instructor; Gregory Bergner, Oconto Falls, Wisconsin; Arturio Riojas, San Antonio, Texas; David Rising, Tipton, California, and W. E. Reid, instructor.

### PALESTINE YOUTH WINS FFA PUBLIC SPEAKING

Inman B. White, the son of a PV grad, won the first place award in public speaking during the 39th annual FFA State Convention in Dallas.

### BOY SCOUT JAMBOREE ON CHANNEL 13

An A-B-C TV Special on the World Boy Scout Jamboree in Idaho this summer is scheduled from 8:00-9:00 p.m. Friday, August 18.

### "Upward Bound" Participants In Challenging Campus Programs

The "Upward Bound" project at Prairie View A&M College is moving along successfully in the summer residence program, with 130 high school students participating.

Participants represent 29 high schools located within a 100 mile radius of the college. They are all eleventh and twelfth graders and high school graduates. They have been living and studying on the college campus since June 19.

Activities for the summer have included studies in Mathematics, communications, art, Spanish, Music, typing, reading, and social studies. Opportunities also exist for the student to participate in such activities as journalism, band, piano, organ and violin lessons, key punch operation, photography, crafts,

### Pol. Science Prof. Attends Workshop In Government

Joseph Moore, Jr., Department of Political Science, received a grant and attended a summer Workshop on Teaching American Government and Politics held at the University of North Carolina at Chapel Hill, from June 25-30, 1967.

Here he would like very much to share with the institution some of his experience. The program was designed to strengthen and encourage the use of research as a teaching technique. Secondly, it stressed the fact that there are unlimited opportunities for research by professors of predominately Negro colleges and universities with available grants for such areas as poverty and civil rights.

The workshop also dealt with practical methods and techniques which might be useful in teaching political science courses. In an attempt to help the student attain the optimum understanding of his subject-matter, it was suggested that direct participation by the student in pragmatic events in the community would subsidize and strengthen the theoretical aspects of the course. Moreover, it was noted that techniques such as surveys, participation with local election campaigns, or perhaps voters registration drives would have measurable impact on the enhancement of the student's comprehension on the subject-matter.

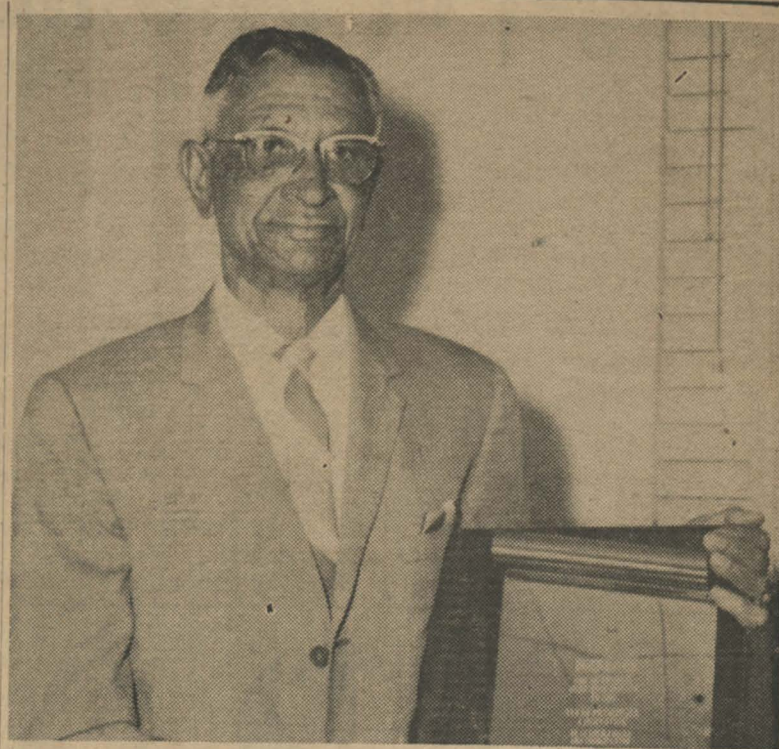

### Dr. J. L. Brown Receives Service Plaque From Texas Principals

Dr. J. L. Brown, director of extramural services at Prairie View A&M College, received a plaque from the Texas Principals Association honoring him for 20 years of outstanding service to that organization.

Representatives of the association met at Prairie View recently and made the presentation to Dr. Brown, who has served as coordinator for the group of over 475 Texas principals and supervisors. The Prairie View director assisted in re-organizing the Negro educators in 1947, when the membership was less than a hundred.

The organization of Texas principals became affiliated with the National Association of Secondary School Principals in 1954. The group has worked for several years with the Southern Education Foundation and Texas Education Agency in sponsoring in-service workshops and institutes for school administrators. Both Prairie View and Texas Southern University have cooperated in these programs.

An active member of the National principals organization, Dr. Brown has served as a member of the supervisory committee which nominates officers for the association. His work with the association is reported on page 7.

**TO PAKISTAN** — Dr. Theodore Freeman (1953)-(1962) has been appointed Assistant Agricultural Attache to Pakistan. The former agricultural economist with the Foreign Agricultural Service, USDA, will have headquarters in Rawalpindi.

### Work-Study Program

Seven weeks ago a group of 200 eager and energetic students arrived on Prairie View's Campus. These were the Work-Study students. They had 12 weeks of work, study, and play ahead of them.

That first day was a day of discouragement. Many of the students were not accustomed to the long waiting lines, the slow registration process, and most of all, the sight of their parents leaving them behind in a strange place. Finally after settling down they had a chance to tour the campus and meet their fellow students. Running into their home girls and home boys made them feel that they weren't so alone here. They also had the opportunity of making new acquaintances.

### Dr. Hill Retires To San Angelo

Dr. Kate Adele Hill, retired specialist with the Agricultural Extension Service, Texas A. & M. University, and a long-time friend of Prairie View, visited the campus in July prior to her moving to San Angelo.

She has lived in College Station for years and has served on the staff at Prairie View and maintained close contact with the college.

President Thomas Emeritus Dr. E. B. Evans and many other officials and staff members are made constantly aware of the interest and services to Prairie View rendered by Dr. Hill.

Her recent visit included the introduction of important visitors to the campus. She has made many such contacts and has been constantly on the alert in building better relations for Prairie View. Dr. Hill was instrumental in the college acquiring its present herd of Angus and Santa Gertrudis cattle.

Dr. Hill has a West Texas ranch background and has made a life-time career of advancing home demonstration work in the overall program of the Agricultural Extension Service. She holds two bachelors degrees — an A. B. in Sociology and B. S. in home economics from Texas Women's University; the M. S. degree from Texas Tech; and the Ph. D. from T. W. U.

Since 1951, she has served as Studies and Training and Reports Analyst for the Extension Service and was closely associated with the Regional Summer School program at Prairie View.

### College Grant

CONTINUED from Page 1  
integrate fundamental studies and cultural orientation with individual and family counseling.

A minimum of 2,000 rural persons will be contacted. Two hundred and eighty will be placed in the skills training program and 100 will be referred directly to employment. Recruitment, testing, counseling, and selection services of the Texas Employment Commission will be coordinated with similar services of the Counseling Center of Prairie View A&M College. An objective of the program is to place those who receive training on jobs in an urban environment.

A unique feature of the program is that trainees will be transported to and from the campus daily. This will make it possible for the families and trainees to remain intact throughout the training period.

Constantly meeting new people left them no time to feel home sick.

The students were assigned various jobs, such as working in the library, mathematics dept., education bldg., administration bldg., memorial center and various other places. They were to work 40 hours a week in order to pay for their tuition fees in Sept. In addition to this, they were to attend class 9 hours a week, where they were to study composition, English usage, creative writing, and in some cases, dramatics. The Work-Study faculty proved to be a group of talented, understanding, young instructors. All of the instructors have interesting backgrounds. Mrs. Mills has studied at the University of Wisconsin and at the University of Iowa, where she is now a candidate for a doctor's degree. Mr. Kuehn has studied at North Texas State University and the University of North Carolina, where he is now a candidate for the doctoral degree. Miss Haight has taught at the University of Wyoming and is studying at the University of Chicago for her Ph. D.

Miss Fox is a doctoral candidate at Howard University. Mr. Ragusis has studied at Columbia University and will be studying for his Ph. D. at John Hopkins University in the fall. Mr. See WORK-STUDY, Page 6

### Dr. Roscoe Lewis Named Science Assoc. Fellow

The Board of Directors of the American Association for the Advancement of Science elected Dr. R. W. Lewis, Nutrition and Biochemistry professor at Prairie View A. & M. College, a Fellow of the Association. The honor was awarded in recognition of contributions to the advancement of science.

Dr. Lewis' major research interests are in the areas of (1) Purine derivative antimetabolites as related to skin graft survival, leukopenia induction and toxicity. (2) Biochemical mechanism of purine antimetabolites home demonstration work in the overall program of the Agricultural Extension Service. She holds two bachelors degrees — an A. B. in Sociology and B. S. in home economics from Texas Women's University; the M. S. degree from Texas Tech; and the Ph. D. from T. W. U.

Since 1951, she has served as Studies and Training and Reports Analyst for the Extension Service and was closely associated with the Regional Summer School program at Prairie View.

### Dr. Owens Off to Meet in Australia

Dr. Emiel W. Owens, Professor of Economics at Prairie View A&M College, is one of twenty-eight Economists over the United States awarded a travel grant to attend "The International Conference of Agricultural Economists", to be held in Sydney, Australia, August 10 to September 16, 1967.

The grant was awarded by a group of Agri-business firms throughout the nation. Dr. Owens will serve as Consultant in the area of "Econometric" dealing primarily with new and advanced methods available for the conduct of research along with the application of statistical programming models to problems as Interregional Competition and Spatial Price Equilibrium Analysis. Other leaders who will serve in this area include Dr. Yoshiehor, Maruyama, Kyoto University, Kyoto, Japan; Professor Jean-Claude Tirel, Ecole Nationale Supérieure Agronomique, 78 Grignon, France, and Mr. R. W. M. Johnson, Lincoln College, University of Canterbury, Lincoln, New Zealand.

En route to the conference, visits will be made by the group to the Pacific Islands of Moorea, Bora Bora, Papeete, and a port conference tour of Northern Australia and New Zealand.

Dr. Owens has been quite active over the last few years, having served as a Technical Advisor for the International Cooperative Administration in Liberia, West Africa, for a two-year period; guest scholar at the University of California at Davis, summer 1963; and Rutgers University, New Brunswick, New Jersey, summer of 1964 and 1966.

### PV-ites In Service

Welton E. Hamilton, ('58) son of Mr. and Mrs. Albert Hamilton, Route 4, Pittsburg, Tex., was promoted to Army Major July 18 in Okinawa, where he is serving with the 30th Artillery Brigade.

Major Hamilton, an operations officer in Headquarters and Headquarters Battery, 8th Missile Battalion of the brigade's 1st Artillery, entered the Army in 1958.

Alton E. Simpson, ('61), 23, son of Mrs. Maseline Chriswele, Route 1, Livingston, Tex., was commissioned an Army second lieutenant after graduation from the Infantry Officer Candidate School, Ft. Benning, Ga., July 14.

Stonell B. Greene, ('66) son of Mr. and Mrs. L. V. Greene, House 2 Aaron St., Longview, Tex., was promoted to first lieutenant July 7 near Qui Nhon, Vietnam, where he is assigned as assistant registrar at the 67th Evacuation Hospital.

Captain Cecil A. Lynn, Jr., ('63) son of Mr. and Mrs. Cecil A. Lynn, Sr. of Rt. 1, Reagan, Tex., has arrived for duty at Ching Chaun Kang AB, Taiwan.

Captain Lynn, an avionics officer, previously served at Richards-Gebaur AFB, Mo.

Two brothers who had not seen each other in 15 years met in Vietnam recently and talked over old times of their hometown of Edwards, Miss.

U. S. Air Force Major Allen Smith ('51) arrived at Tan Son Nhut Air Base in February, and recently was able to visit with his brother, Staff Sergeant Alfonso Smith at Cam Ranh Bay Air Base where the sergeant has been since mid-1966.

They are the sons of Mr. and Mrs. Roosevelt Smith, Sr., of Edwards.

Army Lieutenant Colonel Harvey G. Dickerson, ('47) whose mother, Mrs. Ada T. Franklin, lives at 1701 Chew St., Houston, Tex., completed

five months of study at the Armed Forces Staff College at Norfolk, Va., June 30.

First Lieutenant James G. Wooten, ('60), 27, son of Mr. and Mrs. Allen G. Wooten, 4719 Buck, Houston, Tex., is taking part in two weeks active duty training July 16-29 with the Houston, Tex., Army Reserve School at Ft. Benning, Ga.

Second Lieutenant Don K. Clark, ('67), 21, son of Mrs. Dorothy Clark, 8706 Wiggins St., Houston, Tex., completed a combat platoon leader course at the Army Infantry School, Ft. Benning, Ga., July 26.

First Lieutenant Dorothy J. Leffall, ('64) whose brother, Oliver Leffall, resides in Linden, Tex., has completed the orientation course for U. S. Air Force nurses at Sheppard AFB, Tex.

Major Leroy R. Ragster, ('53) son of Mr. and Mrs. Ephram Ragster, Beckville, Tex., is taking part in two weeks active duty training July 16-29 with the Houston, Tex., Army Reserve School at Ft. Benning, Ga.

### Weaver Wins Prize In Art Festival

Leroy C. Weaver, art professor at Prairie View A&M College, received a second place award for excellence for his entry in the Fourth Annual Religious Fine Arts Festival held recently in Austin, Texas.

The title of Mr. Weaver's print was "Journey." The Festival is sponsored annually by St. Martin's Lutheran Church.

The Award was another in a long series received by the Prairie View professor of Art Education. He has received similar honors in the Atlanta University Art Exhibit, 1953, 1954 and 1959; Houston Museum of Fine Arts, 1957; and the Dallas Museum of Fine

### Music Review

By Dr. Noble Armstrong  
The Prairie View A & M College annual Music Workshop was held June 19-22, 1967. Instruction was offered in four areas: music education, piano, choral music, and band. The College was most fortunate in securing the services of Marion Egbert and Roy J. Johnson as music education consultants. William P. Foster served as band consultant, with Robert Brownlee and Charles Lindsay as consultants for piano and the choral work. Special performing groups included the Andante Glee Club, of Galveston, Texas; the Roosevelt High School Concert Choir, of Dallas, Texas; and the Emmett Scott High School Band, of Tyler, Texas.

At the Chris Dixie Scholarship Banquet the evening of June 21, most of the winners of awards performed in grateful response to the scholarship they are to use the ensuing school term. On this occasion also, special recognition was given to Mrs. Ella C. Weaver, who is retiring from Prairie View's Music faculty after 24 years of meritorious service as Professor of Music Education.

Certainly one of the most outstanding features of the series was the concert given by the brilliant and colorful young pianist, Robert Brownlee, of the University of Houston Music faculty. His program ranged from Bach to Prokofieff, but in the scintillating and always poetic rendition of Chopin he was at his best. Truly he is a unique interpreter of this greatest of all tone poets, demonstrating that the sensitive soul of an inspired performer is worthy to become a front-rank interpreter of another tone poet. He made the soul of Chopin a living reality in our midst.

The future outlook for the successful continuation of the Music Workshop series on this campus is indeed most favorable.

Arts, 1958.

Two of his works are parts of collections. A print, entitled "Kites" is with the James L. Britton Print Collection, Houston, Texas, and his "East Texas Oil Field" print is a part of Atlanta University's permanent Art Collection.

A native of Atlanta, Georgia, Weaver studied at Morehouse College (B. A.); School of Art Institute, Chicago; University of Iowa (M. A.); and University of Kansas. He has served on the staff at Prairie View for nine years, and has also taught art at Wiley College and Southern University in New Orleans.

LT. NURSE CORPS., USN — Miss Delores Marie Whalen is congratulated by CDR Roy Anderson, U. S. N., Commanding Officer of the U. S. Navy Recruiting Station, Houston, Texas, following her acceptance of a commission as Lieutenant, Nurse Corps, U. S. Navy. Miss Whalen is the daughter of Mr. and Mrs. Joseph A. Whalen of 2009 Conklin Street, Houston. Following a four-week indoctrination course at Newport, Rhode Island, Lieutenant Whalen will report for duty at the U. S. Naval Hospital, St. Albans, Long Island, New York. Miss Whalen graduated from the Prairie View School of Nursing August 1960.

HEALTH SERVICES — The granddaughter of Mr. and Mrs. Lewis Smith of Sunnyside, Texas, receives glasses. Child was referred through County-Wide Vision Screening Program held in Waller County April, 1967. Follow up examination was done by Amater Z. Trayton, Jr., M.D., optometrist (eye specialist). Glasses fitted by H. E. Smith, optician.

### "All Disadvantaged In Someway" Home Economics Teachers Told

"No one is deprived of culture. All of us are disadvantaged in some way." "Who is disadvantaged, depends upon the measure being used at the moment." "Every child is born into some kind of culture."

Thus spoke Dr. Alberta Baines, Assistant Superintendent for Coordination of Curriculum and Director of Headstart, Houston Independent School District, as she addressed participants in the NDEA Institute for Teachers of Disadvantaged Youth being held at Prairie View A&M College. Her subject centered on the cognitive and motivational effects of disadvantaged status and fundamental skills related to school success, and occupational and personal adjustment in later life.

Dr. Baines further pointed out that many youths are psychological dropouts long before they are school dropouts. This condition may be attributed, in part, to several internal factors affecting the individual youth. Included among these factors are language deficiencies, deficiencies in

visual and auditory perceptual skills, little orientation toward learning, weaknesses in the organization of information, and severe limitations in background experiences essential to school success.

With regard to the qualities of teachers for the disadvantaged, Dr. Baines stated that (1) Teachers must respect students as individuals; (2) they must allow some freedom — but with guidance and discipline; (3) they must be sincere in what you believe; and (4) must possess a sense of humor.

This Institute, the first in the nation designed for home economics teachers to be funded by the U. S. Office of Education, is currently in progress in the School of Home Economics at Prairie View with Dr. Flossie M. Byrd, dean of the school as director. Assisting her are Dr. Jamesanna Kirvin, counselor, Kealing Junior High School, Austin; and Mrs. Ora M. Thompson, teacher educator, School of Home Economics.

### Suarez Hall Gets Silver Service

The Experiment In Living Group of Prairie View A. and M. College sponsored a tea on the evening of June 27, 1967 in the lounge of Suarez Hall. The main purpose of the occasion was to present the silver service and crystals to Suarez Hall.

Two silver service sets and glistening crystals were presented to Mrs. Jones and the ladies of Suarez Hall by Clarissa Gamble, President of Women's Council for 1967-68. Suarez Hall was recipient of silver service and crystals from International Homes Company of Hutchins, Kansas. The Experiment In Living Group was honored to be the first to use this service. Mrs. R. L. Bland Evans, Dean of Women, sponsored the affair.

EXPERIMENT IN LIVING GROUP SPONSORS TEA — Regular student leaders were guests at the colorful event held in the ballroom, Memorial Center.

economics teachers employed in high schools throughout the State are participating in six weeks of intensive study of several facets of the problems of the dis-advantaged as a basis for developing understandings which will enable them to structure and/or adapt curricular offerings to needs of disadvantaged youth and their families.

### Mrs. Thomas Addresses Students In "Living Experience Program"

Mrs. Iris Thomas, wife of the President, was the principal speaker at the closing luncheon session for the program, "Experiment in Living," held on July 14.

A total of 30 students, all top graduates in their 1967 high school classes, received special certificates for participation in this first experiment emphasizing total living concerns in the residential college. Both Mrs. Thomas and President A. I. Thomas spoke concerning the experiment and its apparent success.

Dean C. L. Wilson awarded certificates to the participants. Other program participants included Mr. E. Outley and Dr. George Stafford, co-directors of the project, Mrs. Kathryn Jordan, director of Cultural activities, Mrs. Rose E. Hynes, Dean, School of Nursing, Dr. T. R. Solomon, Dean of Students, and students, Johnny Johnson and Mary

Lewis. A large percentage of the student participants are enrolled at the college for the second semester. All thirty of them plan to enroll in September.

PROF ATTENDS STUDENT PERSONNEL CONFERENCE — Dr. George Stafford was among 65 participants in the sixth annual Higher Education Student Personnel Conference at Oklahoma State University.

### Certificate Of Merit

Tyrone Collins, son of Dr. and Mrs. L. C. Collins of Prairie View, Texas received a special citation for his art work which was accepted by the International Exhibition of Children's Art Work held in Tokyo recently. In addition to the citation a gold medal was awarded. The exhibition was held by the Society for Art in Education and sponsored by the Prime Minister's office, the Ministry of Foreign Affairs, the Ministry of Education and the Japanese National Commission for UNESCO. The show will be on tour in many countries.

Tyrone is a ninth grade student at the Prairie View High School and has received numerous art citations, one from the Texas Education Agency in Austin. He is a student of Mrs. Pearl S. Martin.

ART AS A SPECIAL TECHNIQUE IN TEACHING — Participants in the Institute for Teachers of the Educationally Deprived exhibit some of the work of the group. Pictured, left to right, are Mrs. Sandra Schoenberg, Hockley; Mrs. Lou Lee Wood, Prairie View; Miss Barbara Riley, recent PV graduate and Mrs. Ruby Harden, who assisted Mr. H. T. Jones in directing the program.

### Work-Study Program

CONTINUED from Page 2

Mac Kendy is studying for his Ph. D. at the University of Michigan.

A host of activities were planned for the students by Rev. Van Johnson. Some of the activities that they have been able to attend have been dances, movies, picnics, teas and talent shows. Most of the Work-Study students attended these activities with enthusiasm and lively imaginations. Doris Gibbs, one of our more creative students, saw the tea in this way... "If I were a roach and had

the mind of a human, I wonder what I would have said about the tea Sunday given by Dr. Thomas. Okay, now I'm a roach. It's Sunday, June 11, about 3:50. How did I ever get here? This place is so very large and the people are looking at all the other people. Maybe if I get a wee bit closer I can tell what's going on.

Gosh, look at all the handsome young men in their Sunday Best. If I were only 35" 24" 25" and beautiful instead of 2-3-4 centimeters, I'd have it made. But even though I might be a wee bit jealous I must add that the girls look simply ravishing in their glad rags. Oh, all the beautiful colored dresses remind me of the rainbow and sunshine after an April shower."

The executives that gave the place a distinguished air had formed a line and were shaking the hands of the nervous self-conscious kids, whose smiles so well hid their feelings. As our country's future voters passed down the line bowing their heads and speaking politely to each executive, I soon came upon a table covered with a white table cloth and goodies. The refreshments, which my hungry nature would not let me overlook, were cookies. The cookies were a light and dark brown, yo yo and the punch. I found later to be pre-sweetened strawberry Kool-aid. The cookies and the punch made my stomach growl from want.

Later, as the last light was cut off and the last person had left the seemingly large ballroom, I crawled the long desert like floor up the mountainous wall to my long-awaited reward — food!!!

Naomi Clinkscales, another of our excellent students, felt this way about the first dance...

"As I neared the building where the dance was in progress, I knew it was going to be an exciting evening. The music seemed to drift out and draw me into the gymnasium. I could not resist that magic strand that lifted me, soothed me, and floated me across the floor."

"Suddenly the soothing music stopped and in its place came a throbbing, tortuous beat that rocked my very soul. My heart kept time with the pounding drums in the background. Time stood still for me as I listened. Strangely I was no longer at a dance at Prairie View. No, I was miles away. My imagination had taken me back to primitive Africa. I could feel the good earth under my bare feet. The white sand was oozing through my toes as I twisted and stomped to the beat of the wild drums."

"As quickly as it had started, it stopped. I opened my eyes and saw that I had returned to Prairie View. It was then that the disc jockey played my favorite song, "Summertime". The music and lyrics of this particular piece never fail to remind me of home. So away I went. I then found myself talking with mother as we picked peas together in the garden behind the house.

"The dance was fun, for every song took me to some exciting place. That wonderful music literally swept me out of the gymnasium, over the miles and away from Prairie View."

"At the close of the evening I was content. Just think, I had been across the globe in less than three hours."

The students, the teachers, the administration all have combined to make the Work-Study Program at Prairie View an enriching experience.

PARTICIPANTS — EXPERIMENT IN LIVING — SUMMER — 1967

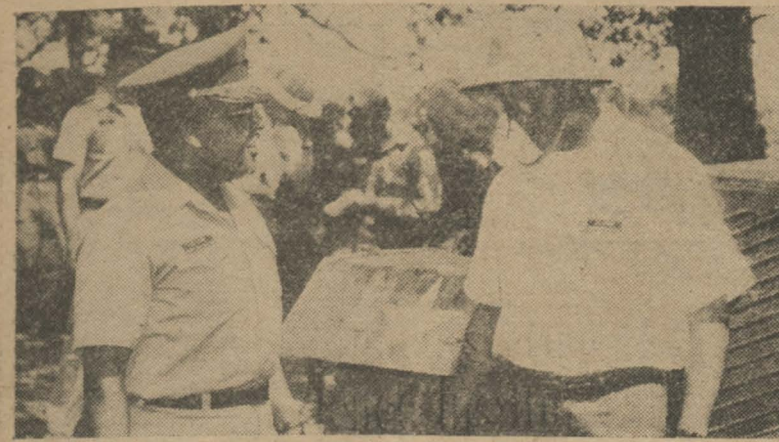

PUBLIC RELATIONS TOUR — Scenes above were taken during a tour by President Thomas and a team of faculty members. Top left is the Holiday Inn sign and special welcome at Bryan. Other photos — from left represent Tyler, Bryan, Fort Worth and Dallas. Photos from Texarkana have been run in earlier publications. (Photos by Henry)

APHI PHI OMEGA — Group photos above were taken during the initiation of 29 Prairie View students into Alpha Phi Omega, the National Service Fraternity. Pictured above are members of the initiating Chapter from Texas A&M University, College Station, and PV faculty members and officials also initiated into the group. Members of the charter group at Prairie View are pictured at bottom.

## ROTC NEWS

SUMMER CAMP VISIT — Lieutenant Colonel Lloyd Stark, PMS and Dr. Earl Lewis, Head of The Political Science Department, appear enlightened over their tour of the ROTC Camp at Fort Sill, Oklahoma. Dr. Lewis was selected as a representative of Prairie View A&M College to attend the ROTC Summer Camp held annually at Ft. Sill. (US Army Photo)

ARMED FORCES DAY — Hundreds of students enjoyed learning more about the Army and weapons during this special event earlier this summer.

## Nine Cadets Score High

Nine P. V. A & M College ROTC cadets Prairie View A&M College were recommended for the coveted title of Distinguished Military Student as a result of their outstanding performance during the 6-week ROTC Summer Camp at Fort Sill, Oklahoma.

The cadets designated tentatively as Distinguished Military Students (DMS) are Adolphus Pinson with a total grade of 90.2 out of a possible 100 points; Joseph D. Dickson, 88.5; Vacal D. Caldwell, 88.5; Alfred Howard, 88.2; Raymond C. Bennett, 87.1; Alphonso R. Askew, 86.8; Charles E. Traylor, 85.5; Ronald L. Reese, 84.7 and Willie C. Lott, 84.3.

The following cadets made maximum scores in the respective areas of evaluation: Cadet Pinson — leadership, job performance and cadet leadership; Cadet Caldwell — leadership and job performance and Cadet Bennett — leadership.

Cadet Dickson scored a 29.1 out of a possible 35 points on the comprehensive examination field problems, map reading, compass course and the Physical Combat Proficiency Test.

Cadet Howard scored a 9.3 out of a possible 10 points to place him fourth in the standings as a Distinguished Military Student from Prairie View A&M College.

The outstanding performance of the ROTC Cadets at Summer Camp resulted in 36% of the students from the College being designated as Distinguished Military Students.

The Distinguished Military Student Award is definitely an award of distinction. It symbolizes an elite class of military students who have been rated the best in their Military Science Class. It also symbolizes that these students have the qualities of being successful officers in the United States Army.

## Dr. J. L. Brown

CONTINUED from Page 2

The Upward Bound Project is a program designed for High School students from low income families who have the ability to pursue some form of post high school education but who may not have been motivated to do so.

OFFICES THROUGHOUT TEXAS

As director of extramural services, Dr. Brown coordinates various conferences, workshops and meetings and works with off-campus programs, including extension courses. Some of the programs sponsored by the college in cooperation with the Principals Association include — principals and supervisors workshops, teachers of reading in elementary schools, industrial education teachers, and supervisors of student teachers.

PV GRAD PROMOTED TO LT. COLONEL — Vernon R. Black, Sr., a 35 year old Prairie View Graduate, stands tall as Colonel Raymond C. Cheal, deputy Chief of Operations and Training at Ft. Sam Houston, Texas, pins on the rank of Lieutenant Colonel. Witnessing the ceremony are (from right to left) his wife, Nancy, and children, Andrea Renee, 9, and Vernon R., Jr., 5. A 1948 graduate of Carthage High School, Colonel Black received his commission as a second lieutenant in 1952 through the Reserve Officer's Training Corps (ROTC) program at Prairie View A&M College.

## PV Open Tennis Tournament Attracts Many Participants

John Wilkerson of San Antonio won the men's singles in the annual Prairie View A & M open Tennis Tournament held here Saturday and Sunday, defeating Williams James of Beaumont in final matches 6-2, 6-3.

The team of Wilkerson and Patrick Washington (Ennis) won the doubles title, defeating James and Clift Hardeman of Beaumont.

A total of 64 persons participated in the two-day tournament sponsored by the Prairie View Athletic Department.

In boys singles, Herman Williams of Beaumont 6-3, 6-3. Walter Smith and Patrick Williams won the boys doubles competition, scoring 8-6, 6-3 over Prairie View's Herman Williams and Joseph Sybille.

In the division for boys 16 years of age and under, Phillip Wright (Beaumont) won over Larry Lewis of Beaumont 6-1, 9-7 and doubles partners John Patterson and Billy Zenn beat Larry Lewis and John Bryant, (all of Beaumont) 62, 6-4.

Burnett Thompson defeated Tim Jones (both of Beaumont) 8-5 for the singles title for boys 14 and under.

In the women's division, Nancy Starr (Beaumont) defeated Edna Bean (Prairie View) 6-1, 6-3 in singles. In girls' singles, Carolyn LeBlanc was winner over Greta Wilson (both of Beaumont) 2-6, 6-3, 6-3. Miss LeBlanc and Greta Wilson defeated Richards and Wilson of Beaumont 6-2, 6-0.

Coach Epps was recently appointed by the National Intercollegiate Athletic Association (NAIA) as a member of the selection committee in tennis for the Pan American Trials of the 1968 Olympic games.

STATE LEAGUE COMMITTEE WITH TEXAS U. OFFICIALS Seated (l - r) Bailey Marshall, C. D. Yancy and Dr. Rhea Williams, Standing — J. C. Williams, J. J. Woods, W. J. Nicks, C. A. Wood, O. J. Baker, J. R. Powell and G. R. Woolfolk.

### PV Interscholastic League Plans General Phase-Out

Operation of the Prairie View Interscholastic League will continue as long as there is a need for its services to member high schools in Texas, The State Committee which directs the program announced at Prairie View A&M this week.

Meeting with representatives of the Texas University Interscholastic League, the group voted to evaluate its program at the end of each school year to determine the need for continued operation. The decision on what league a school joins rests solely with the local school administration.

Dr. Rhea H. Williams UIL associate director and state athletic director, and his assistant, Bailey Marshall, represented the University League. Prairie View League director, C. D. Yancy, was in charge of the meeting.

It was also agreed that following the termination of its league organization, Prairie View A&M would continue to cooperate with the University League in sponsoring student activities, conferences and various academic activities. These would include tournaments in various sports; conferences, such as journalism, mathematics, drama; and other similar activities.

Yancy reported that approximately 160 predominantly Negro high schools will participate in the Prairie View League this year. The 4A classification has been dropped, since most of the former 4A Negro high schools now hold membership in the University League.

Dr. Williams reported that 40 formerly all-Negro schools are now UIL members. "There is a total of 1002 schools registered for football this year," he said. Members of the State Committee at Prairie View expressed a desire that remaining member schools be assured of participation in either league. Due to scheduling problems, a high school cannot join the UIL immediately. Applications for the change should be made at least a year in advance.

## Football Season Opens Sept. 16

Before the month of September is over, the Southwestern conference 1967 football race may be decided. The Panthers will face the major powers — Jackson, Southern and Grambling — One week after the other, beginning with Jackson here on September 16.

ther optimistic over prospects for the coming season. They are expecting 17 returning lettermen, and the sophomore and freshman recruits look encouraging.

Practice sessions are scheduled to begin September 1, Head coach Hoover Wright, announced.

The PV coaching staff is ra-

**FAIRLY OPTIMISTIC** — Coach Hoover Wright feels he has some fine talent as the 1967 grid season approaches. Practice sessions get under way September 1.

### 1967 FOOTBALL SCHEDULE

### Mile Relay Team "Greatest" In Texas History

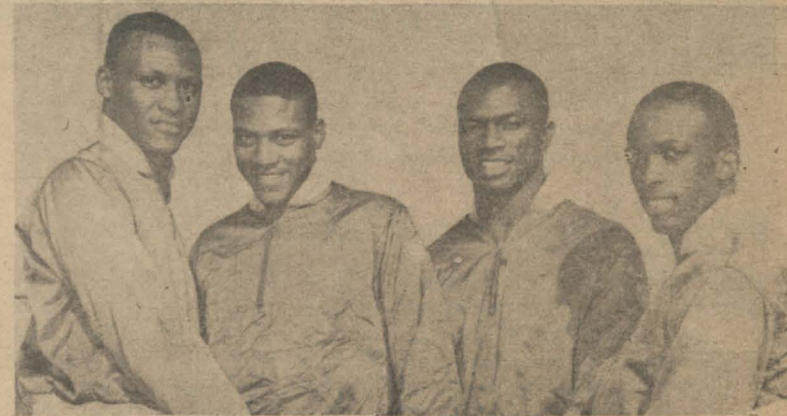

#### Second Best in Nation

Prairie View's Famed Mile-Relay Team made track history at Houston's Meet of Champions in June and again at The Junior Olympics at San Antonio on July 6.

Felix Johnson, Thurman Boggess, Jesse Ball and Finis Taylor won the mile relay at the Texas and Drake Relays with times of 3:07.8 and 3:07.7, and later sped the race in 3:04.9 in Houston. Only San Jose State's record of 3:03.5 bettered P. V.'s time this season.

Coached by Hoover Wright, the P. V. Track Team ranked high nationally in several other events. They are number 8 in the 440 yard relay, number 10

in the 880, number 5 in the 17th in the 880, and Jesse Ball 14th in 480 yard high hurdles relay.

**THE TEAM** Felix Johnson, Thurman Boggess, Finnis Taylor, Jesse Ball.
