PANTHER

"The Voice of the Students of Prairie View"

VOLUME XLI—No. 10

Prairie View A. and M. College, Texas

FEBRUARY 17, 1967

Pictured above is Otis Taylor of the Kansas City Chiefs and former PV student who has returned to complete his formal education. Surrounded by many admiring fans who are only a small part of the crowd glad to have him home.

Prairie View Municipal Utility District Issues Progress Report

The Board of Directors of the Prairie View Municipal Water District has issued a progress report covering activities involved in the establishment of water and sewer services in the local community.

Residents of the Prairie View community presently purchase water and sewer services from the college. Several years ago the Municipal Utility District was established to provide these facilities.

The report states that the group's application for financing has been accepted by the Farmers Home Administration, provided that the District can comply with FHA policies and standards of construction.

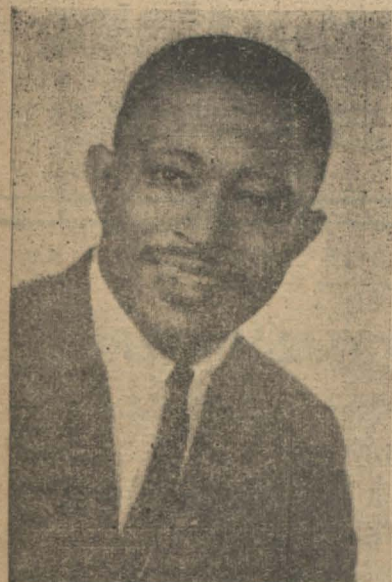

Mr. J. L. Hill is president of the District, Mr. F. G. Fry, Vice-president, Mr. C. L. Wilson, secretary Other Board members include Dr. E. M. Norris and Mr. G. W. Kendricks.

Former Panther Editor Is Now Post-Doctorate Fellow at Michigan State

Dr. Edison R. Fowlks, a former editor of THE PANTHER and outstanding graduate of the college, is the recipient of a post-doctoral fellowship from the U. S. Atomic Energy Commission. He is studying at Michigan State University.

As a part of his studies, Dr. Fowlks is working on the "Primary Structure of Plant Ribosomal Nucleic Acids."

Graduating at Prairie View in

Dr. Edison R. Fowlks

May, 1960, the former student leader received the M. S. degree at Michigan State in 1962 and the PhD degree at the Ohio State University in August, 1965. His specialty is Botany and Plant Pathology.

Dr. Fowlks was on the staff at Bishop College during the 1965-66 academic years.

He is a member of Alpha Kappa Mu National Honor Society, Gamma Alpha Scientific Society, Sigma Xi, American Phytopathological Society, American Institute of Biological Sciences and American Association of University Professors.

Texas Colleges For Freedom of The Student Press

Representatives of 40 Texas colleges and universities disagree on the issue that the content of student publications should be submitted to faculty or administrative representatives for review prior to publication.

Forty-nine percent responding disagreed while 40 percent agreed with this issue involving basic student freedoms.

This opinion of students, faculty and college presidents is one among several taken in a research project conducted by The Texas Intercollegiate Student Association at member institutions. Respondents were more definite in their belief that students should be free to examine and to discuss all question of interest to them, to express opinions and to invite and to hear any person of their own choosing.

Regarding teacher evaluations, colleges voted 85 percent (only 8% disagreeing) in favor of well prepared student courses and teacher evaluations at colleges and universities advocating such a proposal. There was also considerable agreement that students should be allowed to participate in some program of independent study and receive credit for such study.

Texas Colleges and universities are definitely in agreement that they should assume an educational posture and inform students of the issues and problems involved in the use of drugs and narcotics. They believe that disciplinary action should be taken against students who use drugs and narcotics illegally.

Miss Texas High To Be Named Miss Texas Teen

For the past six years, the name of the Miss Texas High Contest held annually each Spring at Prairie View, has been a famed one. It has brought high school girls from every part of Texas to compete in this much anticipated affair. For each participant the contest has contributed a fulfilling experience in their lives. Offering them the chance to display talent, poise, personality and attractiveness. Ending with a winner who has best shown these qualities, and rewarding each contestant with a prize. The winner receives a college scholarship and other useful gifts.

This year the contest will expand through the process of changing its name to MISS TEXAS TEEN. The change will now include not only high school girls, but will enable every teenage girl in Texas who belongs to various churches, Girl Scouts YWCA, social and civic organizations to participate.

The broad span of which the See MISS TEXAS HIGH, Page 8

Class A This Week

State Basketball Tourney Set for Friday & Saturday

State basketball finals for class "A" high schools in the Prairie View Interscholastic League are scheduled at Prairie View on Friday and Saturday.

The Tournament will begin at 8:30 a.m. Friday in the Health and Physical Education building. Finals are set for 9:00 a.m. Saturday morning.

Participating teams are Cold-

Springs-Lincoln, Dayton-Colbert, Mt. Enterprize Concord, Brookshire-Ralph Bunche, Fairfield-Butler, Hughes Springs-Traylor, Kirbyville-West, Hawkins-Southside, Groesbeck-Washington, and Jewett-Carver.

W. J. Nicks, director of athletics at Prairie View is tournament director. Prairie View coaches H. J. Wright, High Nekkinnis and M. L. Epps, along with student assistants, will serve as score and time keepers. The officials are George Higgs, Arthur Alexander and Ollie Williams.

Classes 4A, 3A, and 2A high school district winners will participate in state final tournaments at Prairie View next week end.

Schools scheduled to participate include-4A-Tyler-Emmett Scott, Houston-Yates, Beaumont-Charlton Pollard and Fort Worth-Terrell; 3A-Lufkin-Dunbar; Fort Worth-Kirkpatrick, Galena Park-Fidelity Manor, and Temple-Dunbar; 2A-Mexia-Dunbar, Atlanta-Washington, Dallas-Ervin, Texarkana-Macedonia, El Campo-Westside, Fairbanks, Carverdale and San Augustine-Lincoln.

1967 Yearbook

Photographing Complete

All photographing for the 1967 yearbook has been completed, this includes groups and individual shots.

All clubs which will have more than a one-page layout will have to have their extra pages layout done by Wednesday, February 22, 1967. This includes all art work done on white card board, pictures, and the publishing company sheet made out. If this is not followed the staff may be forced not to honor your clubs' request for extra pages.

The final shipment to the publishing company will be made before March 1.

Mosby Named Assistant To President

Mr. James E. Mosby, Jr. has been appointed as a Special Assistant to the President. The new position established by the President is a part of his program to improve the image of the College through "Partners in Progress." In this new position, Mr. Mosby will conduct studies designed to improve good will and public relations for the college. He will also serve as representative for the President on special assignments.

Mr. Mosby has served as a teacher and a principal in the Austin Public Schools before coming to Prairie View.

His wife and five of his children are graduates of the College. Mrs. Eva M. Mosby, M. S. 1965; daughter, Eva Marie, B. S. 1960, M. S., 1964; Mary Eliza-

beth, 1961; James Edward, III, 1963; Richard, 1965; Bernadette, 1966. A daughter, Gloria, is a freshman on the campus while another daughter, Naomi plans to enter in September 1967 and a son, Gerard, will enter the Prairie View Training School in the 7th grade.

He received his bachelor's degrees from Tuskegee and Huston-Tillotson Colleges, and earned his master's degree from Wayne University. He has done graduate work toward the doctorate degree at the University of Texas.

He is widely known on local, state and national levels because of his active participation in professional meetings. He is the past president of the Texas Industrial Education Association, past vice-president of Austin Education Association, Section Chairman of Texas State Teachers Association and currently a member of the following educational associations: National Education, Central Teachers, Adult Education, Civil Defense Education, and American Industrial Arts.

He is a member of Epsilon Pi Tau, Phi Delta Kappa, Omega Psi Phi. He is the founder and sponsor of the New Mechanics Club of Austin, Institutional Representative for Explorer Scouts, Chairman, Credit Committee of Teachers' Credit Union.

In 1958 he was honored for meritorious service to teachers. In 1959 he received honors for outstanding achievements and in May 1961 was honored as the See MOSBY NAMED, Page 8

Johnny Mathis At Jones Hall

Johnny Mathis, the only recording star to have four albums listed simultaneously on the best seller list on the national music charts, was brought to Jones Hall for a one night engagement Sunday, February 12, 8:30 p.m. by SOUTHWEST

CONCERTS, INC., Art and Barbara Squires, Executive Producers. It was part of a six-town Texas tour of Mathis by SOUTHWEST CONCERTS that saw the singer booked February 9, in San Antonio, February 10, in Dallas, February 11, in Port Arthur, February 12, in Houston, February 11, College Station, and February 14, in Austin. An

expected 30,000 people attended the Mathis shows in the six towns. Mathis has consistently played to "Standing Room Only" crowds and he's set attendance records at top supper clubs both in the United States and abroad. Mathis was accompanied by his own orchestra and a new exciting group from California. See MATHIS, Page 11

"Business is for the birds!"

Who says so?

Lots of people do. Some right on your campus. And for rationale, they point an accusing finger at business and say it lacks "social commitment."

Social commitment? We wish they could visit our Kearny, N. J. plant, where we make cable and apparatus for your Bell telephone company. But we have time for other thoughts, other talents.

Like the situation in nearby Newark. With civic and business leaders, we began buzzing with ideas. "Let's teach higher skills to some of the un-employed and under-employed. Say, machine shop practice. They could qualify for jobs that are going begging — and help themselves as well."

We lent our tool-and-die shop, evenings. We found volunteer instructors. A community group screened applicants. Another supplied hand tools. The Boys

Club donated classroom facilities. Another company sent more instructors.

Some 70 trainees enrolled. Their incentive? Self-improvement. Results to date? New people at better jobs. Happier.

And this is only one of dozens of social-minded projects at Western Electric plants across the country, where our first job is making communications equipment for the Bell System.

So, you don't give up ideals when you graduate. If anything, at a company like, say, Western Electric, you add to them. And it's not just a theory. It's practice. Satisfying. Come on and find out. And watch a feathered cliché fly out the window.

ROTC Cadets Receive Academic Achievement Awards

On February 9, 1967, Lieutenant Colonel Lloyd J. Stark, Professor of Military Science at Prairie View A&M College, Prairie View, Texas, announced that several upper classmen would receive the Academic Average Ribbon in recognition of their outstanding achievement. The awards were presented by Dr. A. I. Thomas, President of Prairie View A&M College, during the first drill period of the second semester. The award, made in two areas, is presented to sophomores and above for their academic excellence, achieving an overall academic average of 3.0 or better (B). The first group received the Academic Average Ribbon and held an accumulative grade point average of 3.0 - 3.2. Falling into this category were sophomore cadets Ronald S. Briggs, a Biology major from Houston, Texas who has a 3.2 overall average; John H. Fuller, an Engineering major from Hempstead, Texas with an average of 3.11; James Melton, a Chemistry major from Houston, Texas with an average of 3.19; Eddie L. Fletcher, an Electronics major from Grapeland, Texas, with an average of 3.01; and Milton N. Lynn, an Agriculture Engineering major from Marlin, Texas with an average of 3.18. The three juniors who made this list were Ronald L. Reese, a Business Administration major from Waco, Texas with a grade point average of 3.12; Joe M. Deason, an Elementary Education major from Apple Springs, Texas with a grade point average of 3.03 and George R. Hadnot, a Civil Engineering major from Jasper, Texas with an average of 3.04. The only two senior cadets to make this list were Otis D. Evans, the Brigade Commander from Navasota, Texas with an average of 3.21 whose major is Agriculture and Harmon Kelley,

'67 Campus Talent Show

Fellow Students, now is the time for all talented students to share their talent with the student body. It is now time to excel in your talented field. The Campus Talent Show will be presented by several members of our student body.

Trophies in different categories will be awarded to the top performers.

All students are invited to audition for the show. The categories available are:

1. Vocal
2. Instrumental Music
3. Dancing
4. Speaking
 - a. Dramatic Interpretation
 - b. Humorous Speaking

Any other talent available other than the categories mentioned are welcome to the try-out also. Your presence and participation will be of great help.

PV School of Home Economics Receives \$32,000 Grant

The School of Home Economics at Prairie View A&M College has received a \$32,000 grant to assist in financing a summer Institute for Teachers of Disadvantaged Youth.

Funds for the institute have been authorized under Title XI of the National Defense Education Act (NDEA). The deadline for applications from high school home economics teachers is March 20.

The six weeks program, scheduled in July and August, is designed to help equip secondary home economic teachers in Texas with understandings which will assist them in help-

Dr. Rao, Prof. Luke And Six PV Students Attend ASCE Conference

Dr. R. N. S. Rao, Head of Civil Engineering Department, along with Professor C. T. Luke and six members of the Prairie View A & M College Student Chapter of ASCE, attended the American Society of Civil Engineers Environmental Engineering Conference held in Dallas, Texas last week, (Feb. 6-9).

The Conference at the Statler Hilton Hotel drew attendance of leading engineers from all parts of the nation. They discussed and shared technical and professional knowledge associated with "engineering for the megalopolis". The newly-coined word "megalopolis" is being used to describe the expanding growth and encompassing of metropolitan areas.

The purpose of the Senior Class Meeting, held on February 9, was to select its class favorites, which was done by secret ballots.

These students were chosen according to their academic standing, campus leadership, and whatever they were nominated for.

Texas Girl's Choir Sponsors State Piano Contest

A State Piano Contest, sponsored by the Texas Girls' Choir, will be held April 8th and 9th at Town Hall Seminary South Shopping Center in Fort Worth, Texas.

The contest is open to girls age eight thru fourteen gifted in playing the piano. Acceptable repertoire will be original piano music literature, not arrangements. Repertoire must include ONE from each period with a minimum of four — such pieces as the following: BAROQUE - Bach (Inventions) etc., Scarlatti etc. (Sonatas) etc.; CLASSICAL - Mozart (Sonata - one movement), Haydn etc.; ROMANTIC - Chopin, Schumann (short work), Mendelssohn, etc. Debussy, Ravel, Griffes, etc.; CONTEMPORARY - Recognized American Composer of notable worth as Kabalensky, Bartok etc. Judges will pre-judge repertoire listing and will pass on the eligibility of contestants prior to assignment of preliminary auditions. All music must be memorized.

PV to Receive U. S. Office of Education Grant of \$14,400

Prairie View A&M College will receive a U. S. Office of Education grant of \$14,400 for training teachers of handicapped children, Dr. A. I. Thomas, president of the college announced.

The funds are part of the nearly \$1,000,000 to be granted Texas institutions for progress in special education. A \$160,000 grant will go to the Texas Education Agency for special programs. The remainder of the funds, including \$476,432 to the University of Texas in Austin, will be allocated to colleges and Universities in the state. Other recipients of the grants include SMU \$22,800; TCU \$11,400; Texas Women's University \$49,500; East Texas State \$74,400; Texas Tech., \$33,500; University of Houston, \$57,900; Lamar Tech., \$25,200; Baylor, \$15,000; Our Lady of the Lake, \$22,800; and Trinity, \$14,400.

Prizes are FIRST PLACE - Winner will appear as guest soloist on the Texas Girls' Choir Concert May 20, 1967 Will Rogers Auditorium and receive a trophy and a twenty five dollar educational fund check; SECOND PLACE will receive a trophy and a ten dollar check; THIRD PLACE will receive a trophy and a five dollar check; FOURTH and FIFTH PLACE will receive a Honorable Mention Ribbon; and all contestants See GIRL'S CHOIR, Page 6

First Upward Bound Participant at PV

Miss Ruby D. Johnson, a resident of Anderson, Texas; granddaughter of Mr. and Mrs. William Chatman of Navasota, Texas; and a former student at Carver High School, Navasota, Texas, has become the first Prairie View A. and M. College Upward Bound participant to enter college.

Miss Johnson joined the Prairie View Upward Bound Project in June, 1966. She has recently completed the requirements for graduation at Carver High School, and now plans to enter the School of Arts and Sciences at Prairie View College as a Business Education major.

She is the first of a group of fifty-two seniors in the Prairie View Project who are expected to enter some type of post high school educational program by

Debaters at Waco Houston Meets

Maxine Burley, Jacquelyn Johnson, James Melton, and Wayne Harris recently represented Prairie View in intercollegiate debates with Houston Baptist College in Houston and at the Baylor University's 34th Annual Forensics Tournament.

The Houston debates were by special arrangement between the debate coaches and allowed our debaters to take part in three rounds of competition, with a discussion period afterward.

The Waco tournament is one of the largest in this area, with fifty colleges attending. Many of the smaller Texas colleges participated, as well as the state universities and schools in California, Arkansas, Oklahoma, and Louisiana. Maxine Burley and James Melton entered the Junior Men's Division.

The next debate trip will be to Langston University, Langston, Oklahoma. Mrs. James Monroe, Coach, said that there are still vacancies on the squad. Regular meetings are held Tuesday and Thursday at 8 p.m. in the Memorial Center, Room 204. Listeners and critics are invited to attend the debates on foreign policy, as well as prospective squad members.

September of this year. The Upward Bound Project at Prairie View A. and M. College is financed by the Office of Economic Opportunity in its "War On Poverty," and sponsored by the college.

Six Flags Collegiate Talent Auditions Held

Talent scouts from the theme entertainment parks of Six Flags Over Texas and Six Flags Over Georgia were in Houston on Sunday, February 12, to conduct the collegiate talent auditions for Prairie View A & M College and other colleges in the South Texas Area.

The auditions were held in the studios of KHOY-TV. The purpose of the auditions were to find outstanding collegiate performers for the show department of both theme parks this summer. All types of talent was considered from singers, dancers, and musicians to specialty acts, magicians, acrobats, etc.

The South Texas auditions are part of an extensive tour which will take the Six Flags talent scouts into eleven strategically located regional audition sites.

After the completion of the entire tryouts, call-back auditions will be held in Dallas, Texas, and Atlanta, Georgia, in April before the final selections are made.

A combined total of approximately 200-250 performers will be selected by both entertainment centers for their summer productions.

The salary for those selected will range from \$75 to \$125 per week according to the type production in which they will appear, number of hours worked, and responsibilities.

Where does an engineer intern?

Before you decide on the job that's to start you on your professional career, it's good to ask a few point blank questions . . . like:

- Will this job let me rub shoulders with engineers doing things that haven't been done before, in all phases of engineering?
- Will I be working for an engineering oriented management whose only standard is excellence?
- Will I have access to experts in fields other than my own to help me solve problems and stimulate professional growth?
- Will I be working with the widest range of professional competence and technological facilities in the U. S.?
- Are engineering careers with this company stable . . . or do they depend upon proposals and market fluctuations?

Why not ask these questions about Bendix Kansas City when Mr. R. E. Cox visits the

Guest Editorial - From the Houston Chronicle, 2-12-67

Interest in Negro History On Rise

The successes of the civil rights movement in recent years has produced a new pride among Negro Americans and a new awareness of their contributions to this country's history. This is good, for too long have Negroes been studied in history as a "problem" rather than as major contributors to our culture, industry and economy.

Negroes to some degree have been treated in historical studies as aliens rather than as native Americans. Their achievements have been neglected and their problems magnified. As a consequence both Negroes and whites alike have developed no proper appreciation of the contributions of this large segment of our population.

Did you know, for example, that a Negro surgeon, Daniel Hale Williams, was the first to perform a successful operation on the human heart? Or that a Negro, James A. Bland, wrote Virginia's state song, "Carry Me Back to Old Virginia"? Or that a Negro poet, Phyllis Wheatley, was the second American woman to write a book?

This week is Negro History Week, an observance begun in 1926 for the purpose of emphasizing the Negro in history. In celebration of it, the Houston Public Library has arranged a week-long program of events. The library also has prepared a list of some 100 books on Negro history which are available on its shelves. It is a good list, and we hope many citizens will sample it. It's time for all of us to fill in some gaps in our knowledge of our own people.

THANKS TO THE CHRONICLE:

The above editorial is one of the finest tributes to Negroes paid at any time by any publication. With more expressions like this, perhaps we can find ways to eliminate the so-called "problem" simply by learning to appreciate one another more. Thanks to the Chronicle. (Editor)

March of Dimes

It was heart-warming to hear the reports that a good number of students said "Keep the change," when paying to enter the March-of-Dimes Dance last Saturday night. The feeling of wanting to help in the campaign is genuine.

Human Relations

Because February is the month of Lincoln, each year during the month we turn our thoughts to racial understanding, brotherhood and the whole field of human relations. It is too bad these basic needs in our lives get such little attention.

We continue to make great studies in technological progress, while the basic, centuries old problem of "learning to live together" appears to be getting less attention than ever. This fact is best illustrated in the current struggle in Viet Nam where we are pouring countless millions into the military phase and a pitiful amount, by comparison, in helping these people find a better way of life.

When will we learn that "The pursuit of happiness" is the way of love, brotherhood and understanding?

Prairie View A Cappella Concert Choir Heads For The Gold Coast

As the Golden West rolls out the red carpet for the Prairie View A Cappella Concert Choir, much preparation has already been made for the occasion.

The National Tour is scheduled for February 9-24, 1967. The theme for this year is "Versatile Telstar of Songs Internationale." The well-known choir will concertize in Dallas, Feb. 9; Abilene, Feb. 10; Lubbock, Feb. 12; Midland, Feb. 13; Roswell, New Mexico, Feb. 14; Los Angeles, California, Feb. 16; San Diego, Feb. 17; Phoenix, Arizona, Feb. 19; El Paso, Texas, Feb. 21; Austin, Feb. 23; and Waco, Feb. 24.

The choir consists of thirty-nine selected personnel. They are: FIRST SOPRANOS — Joan Holbert, Section Leader; Iva Hopkins, Robbie Middleton, Cornis Wells, Barbara Thompson; SECOND SOPRANOS — Mary Hunter and Shirley Vaughn, Section Leaders; Bobby White, Marjorie Payne, Phyllis Swere, Dollie Chaney; FIRST ALTOS — Laverne Mosley, Section Leader; Shirley Haynes, Joan Henderson, Grace Newsome, Joyce Davis, Nadell Robinson, Velma Ervin; SECOND ALTOS — Joyce Range, Section Leader; Roberta Ester, Brenda Anderson, Barbara Runnels, Julius Davis; FIRST TENORS — Paul Collins, Section Leader; Jackie Gentry, Alfred McKnight, Larry Jackson, Gerald Sharp; BARITONES — Charles McFall, Section Leader;

Tom Jones, Anthony Hilliday, Lorian Gipson; Charles Nelson, Carl Duncan; BASSES — Bob Duckens, Section Leader, Richard Perkins, Eddy Duckens, Joe Berry, Morris Bailey, Shelby Perkins.

The choir is a cross section of campus personnel including persons from various departments such as English, Mathematics, Biology, Agriculture, Business, Elementary Education, History and music. The officers are: Bob Duckens, President; Paul Collins, Vice President; Shirley Vaughn, Secretary; Richard Perkins, Sgt. at Arms; Joyce Range, Business Manager; Jackie Gentry and Roberta Ester, Chaplains, and Larry Jackson, Parliamentarian.

Under the superb directorship of Dr. H. E. Anderson, the choir has long awaited this tour with much enthusiasm and technical hard work.

U.S. Presidents Room Established by Waller County Public Library

Waller County has been given a collection of books, pictures, stamps and medallions of the United States. It is housed in the Room of the Presidents, adjoining the present Waller County Library.

A county-wide citizens committee has been organized to acquire additional materials, maintain and supervise the collection with a minimum expense to the county. This room is expected to attract tourists and historians to this area as well as present an exciting side of American History to school children. It is hoped that this research library will make a lasting and valuable contribution to the county.

The committee for the Room of the Presidents cordially invites the public to attend an open house at the Waller County Library, February 22, 1967, from 2:00 p.m. to 6:00 p.m.

Archie Smith

Tide-Water Oil Corp. Employs Archie Smith

Archie Smith, a former Drafting and Design Major in the School of Industrial Education and Technology, Prairie View A. and M. College, has been employed at the Tide-Water Oil Corporation, Houston, Texas as a Senior Draftsman. Due to the vast shortage of available drafting technicians, he will continue to work part-time with the Todd Shipyard, Houston, Texas.

Mr. Smith was employed at the Todd Shipyard as a Junior Marine Draftsman. After six months, he advanced to the position of Senior Marine Draftsman. His experiences involved the designing of barges, tug boats, supply vessels, small specified crafts, and cruisers. These experiences emphasized structural design, pipe design, and electrical design. He was involved in the designing of offshore oil drilling rigs according to company specifications.

According to Mr. Smith, he has been assigned to the Topo-See TIDE-WATER OIL, Page 8

Dorothy Yancy

Student Chosen To Attend Conf. In Atlanta Ga.

Dorothy Yancy who is a Senior Mathematics major from Karnaok, has been chosen by the Paperback Book Project Committee to attend a conference held in Atlanta, Georgia sometime during this semester. The exact date of the conference is not yet known.

Prairie View along with several other colleges was given a grant for paperback books. These books have been selected, received, and shelved downstairs in the reading room of the college library, for your convenience. They range from novels of all kinds to reference books on all subjects.

At the designated time, Miss Yancy will fly to Georgia with all expenses paid.

The committee is headed by Mr. Vacal Caldwell. Other members include Sullivan Baker, Betty McClain, Cheryl McIntyre, Dorothy Yancy, Ida Tarver, Donald Stinnett, Daniel Anderson, Romey Johnson, Odie Woods, Clarissa Gamble, Millage House, Leona Nickerson, Antoinette Gipson, and Monros Pierre.

Faculty members include, Dean R. L. Bland Evans, Mrs. F. Yeldell, Dean H. E. Fuller, Dr. W. B. Scott, and Mr. O. J. Baker.

Six PV MENC Members Delegates to TMEA

Six delegates from the Music Educators National Conference, Chapter 18, traveled to Houston for the Texas Music Educators Association which convened in the Rice and Lamar Hotels, February 9-11. The elected delegates were Georgia Pollard, Sandra Keener, Bonnie Giles, Hige Russell, James Taylor and Danny Kelley. They were accompanied by the chapter's sponsor, Miss Kathryn Jordan.

The convention consisted of discussions, lectures, clinics, and concerts held at the Sam Houston Coliseum, Music Hall and Jones Hall. Areas covered pertained to elementary and secondary music, choral organization and band.

SEEN FOLDING THE FLAG DURING A RECENT RETREAT FORMATION are: (from left to right) Cadets Charles E. Traylor, Willie H. Miner, Henry Upton and Albert Thompson.

"But What You Can Do For Your Country"

Several years ago, the late President John F. Kennedy spoke the above words as he addressed the citizens of the country of which he had been made chief executor. As a result, quite a surge for nationalism was brought about. Now amid the dusty struggle for "BLACK POWER," the ever important equalization of civil rights, the high gear race to the moon, the salt-fed wound of "end the fight in Vietnam," and the constant Democratic - Republican battle for political status, this drive for nationalism has lost its momentum to items of lesser importance.

However, as one examines the campus life of Prairie View A & M College, he can see easily that this nationalistic drive is not lost but merely misguided. Now the question arises, "How can this case of misguided effort be corrected in 'Pantherland'?", or better still "What can we Panthers do for our country?" One thing that can be done is paying the proper respect to the national flag and national anthem.

DAILY CEREMONIES HELD — At this institution daily ceremonies of raising and lowering the flag are held; re-

vised, the act of raising the national flag, takes place at 7:30 a.m. and retreat, the act of lowering the flag, comes at 4:30 p.m. each day with the exception of Saturday and Sunday. Members of the senior ROTC class have the duties as Officer of the Day and the junior ROTC cadets make up the flag detail. Each Thursday afternoon during the drill period, the national anthem is played and retreat is held as usual.

Being alert and knowledgeable of these ceremonies will assist you in doing those things required of all American citizens. Since courtesy is contagious, let us all vow to spread it across the campus and elsewhere in doing what we can for our country.

architectural, civil, electrical, electronics, mechanical engineers and chemists

investigate career opportunities at San Francisco Bay Naval Shipyard, the Navy's largest industrial activity.

ENJOY UNMATCHED POTENTIAL FOR PROFESSIONAL AND PERSONAL GROWTH. You'll be challenged by the variety offered in the design, construction, overhaul and conversion of Polaris missile submarines, guided missile frigates, destroyers, aircraft carriers, deep submergence craft, Sea Lab II, etc.

(analytical) and metallurgical inspection and test, quality assurance, process methods and standards, tools and plant utilization.

LIVE IN THE FAMED BAY AREA. San Francisco Bay Naval Shipyard has two work sites located 40 miles apart: Hunters Point in San Francisco and Mare Island in Vallejo, California. Each location has ready access to the cultural advantages of San Francisco. All types of recreation from ocean surfing to skiing on the slopes of the Sierras are within easy driving distance.

Students Here Invited To Enter National College Queen Contest

One of our students, here on this campus, could be the next National College Queen.

The annual search is now underway to select and to honor "the nation's most outstanding college girl." Young women attending this school are eligible as candidates. A special invitation has been extended to our students. The winner will receive more than \$5,000 in prizes, including a trip to Europe and an automobile.

The 1967 National College Queen Pageant will be held in June, and this year Pageant officials will again award 50 free trips to New York City. One college girl from every State, in-

cluding Alaska and Hawaii, will be flown to Manhattan to compete for high honors.

This Pageant is the annual event which gives recognition to students for their scholastic ability. It is not a "beauty contest." Judging is based on academic accomplishment — as well as attractiveness, charm and personality. The judges are seeking a typical American college girl.

For twelve years the National College Queen Contest has been growing, until it has become a tradition at hundreds of colleges and universities. This year, one of our students can win and bring nationwide recognition to our school. The National Finals will be held from June 9 thru June 19. The event is a highlight of the "New York Is A Summer Festival" celebration, which is sponsored by the New York Convention and Visitors Bureau.

For full details — and a free Entry Blank — just write to: National College Queen Contest Committee, P. O. Box 935, New York City, N. Y. 10023.

All undergraduate girls, from freshmen through and including seniors, are eligible. A candidate may send in her own name. Or, she can be recommended. Classmates, friends, sororities, fraternities or campus club groups can nominate the girl of their choice — by mailing her name to the above address.

College girls on this campus have an excellent chance to become a State Winner. If you are chosen to represent our State, you will travel to New York as a guest of the Pageant, all expenses paid. Imagine yourself spending ten days in Manhattan, seeing Broadway shows, dining at famous restaurants, appearing on television.

Last year, during the Pageant, the National Finalists toured the United Nations and they were honored by a reception at the American Embassy. Special theater parties are arranged, and after the performance they go backstage to meet the stars.

In 1966, the title of National College Queen was earned by Miss Vicki Lieberstein, from U. C. L. A. She has had an exciting year. For example, she was invited to appear in "The Tournament of Roses Parade on New Year's Day." She was featured on a float in that famous Parade, and was a guest at the Rose Bowl game. Miss Lieberstein has now returned to the University of California at Los Angeles, and is a student in her sophomore year.

With all the intelligent and attractive college girls on this campus, why don't we nominate some candidates this year? Let's have one of our students go to the National Finals, and win top honors in 1967!

It's easy to enter this contest. Nothing to buy. No slogans to write. The Pageant offers more than \$5,000 in prizes. For instance:

The next National College Queen will win a new automobile. She will receive a trip to Europe — a vacation tour of London, Paris and the Continent. In the field of fashions, she will be awarded a complete wardrobe of suits, dresses and sportswear. She can select \$500 worth of her favorite styles.

Sponsoring the 1967 Pageant is Best Foods, Division of Corn Products Company — makers of Best Foods/Hellmann's May-See QUEEN'S CONTEST, Page 8

KEEP YOUR COOL!

Be perfectly groomed, poised, sure of yourself, every day. Don't let differences in days of the month exist for you. All it takes is switching to Tampax tampons — the easier, neater way.

Made by the world's leading manufacturer of internal sanitary protection, they never interfere. They leave no wrinkles or bulges. They free you to dress in style, tub bathe, shower, even swim, whenever you choose. Dainty and feminine to use, the disposable silken-smooth container-applier insures quick, correct insertion. Tampax tampons are the confident way for millions of women everywhere who insist on being at their best at all times. Why not you, too?

PLANS SET AT PRAIRIE VIEW FOR COLLEGE FARM PROJECT — Prairie View A&M College President, A. I. Thomas welcomes representatives of the Soil Conservation Service during planning session at the college designed to establish a plant materials observation and evaluation nursery on the college farm. Attending the meeting were (L to R), J. C. Williams, superintendent, Prairie View Experiment Station; D. B. Polk, range conservationist, Bryan; Oliver E. Smith, agronomy professor; Dr. Thomas; A. L. Pace, conservation agronomist, Nacogdoches, Texas; and Dean G. L. Smith, Prairie View School of Agriculture.

Texas A&M Photo Salon Goes National

Texas A&M's 1967 Intercollegiate Photo Salon will go national in scope.

Amateur photographers of 500 colleges and universities all over the U. S. are invited to participate announced Ken Reese, president of the sponsoring Memorial Student Center Camera Committee.

"Salon '67 is open to members of photographic associations in all U. S. universities and colleges," Reese explained. "Students, graduate students and faculty may enter."

First, second and third place ribbons will be awarded in each of eight categories, pictorial, still life, nature, portraiture, news, sports, human interest and fashion-modeling.

"Fashion and modeling is a new category for the ninth salon," Reese said.

Judges will select the top Salon '67 print and outstanding photographer.

Salon chairman Louis Hodges of Houston indicated more than 500 prints are expected by the May 10 deadline. Judging will be open to the public May 13 in the MSC.

Award winning photos and accepted pictures will be displayed in the MSC for a week.

F. Carter to Participate in AIAA Convention

Fred Carter, a senior in the school of Industrial Education and Technology, Prairie View A. and M. College, has been informed that he is to be a participant in two of the organizational meetings at the 29th American Industrial Arts Association Convention to be held in Philadelphia, Pennsylvania, March 14-17, 1967. Carter is National Treasurer of the American Industrial Arts College Clubs Association. To date there are 67 College Clubs with 1500 paid members.

Carter is President of the Executive Council of the Prairie View Student Industrial Education Association, an organization composed of the three departments in the School of Industrial Education and Technology, namely Teacher Education, Industrial Technology, and Technical Education.

Vice-president Hubert Hum-See CARTER, Page 8

Former PMS Lives Up to His Proclamation

On the eve of his retirement from the United States Army in March 1966, Lieutenant Colonel Arthur N. Fearing, Professor of Military Science from 1964-1966, established a challenge to all freshmen cadets through a PROCLAMATION. In this document he defied anyone "to excel in leadership development".

In order to accomplish this goal, LTC Fearing donated an award called the Fearing Freshman Achievement Award. An explanation of the criteria one must meet in order to be eligible for this honor is described below:

(1) "This award is restricted to and presented annually to the MS I student who has never previously participated in or been enrolled in ROTC. Senior or Junior Division, and who at the end of his first year as a member of the Prairie View ROTC Brigade shall have demonstrated unequivocally to have advanced the farthest of all his contemporaries in leadership, drill and command.

(2) That the award shall be presented during the presentation ceremony phase of the ROTC Field Day Activities Program.

(3) That the award shall not be considered the same as the Superior Cadet Award.

(4) That the award shall become effective with School Year 1966-67."

An additional step was made in fulfilling this ambition on February 10, 1967 when the trophies and plaque were presented to Lieutenant Colonel Lloyd J. Stark, the present Professor of Military Science. The trophy will be given to the selected individual and his name will be inscribed on the plaque with the year he won the award.

Upon making the award, LTC Fearing stated that he hoped these would be inspirational to the freshman class and would serve as an incentive to them in their drive for excellence. Additionally, the donor suggested that the student should start now to prepare himself to receive this coveted award. This year's presentation, the first one of a long series will be made on May 5, 1967 during the annual ROTC Field Day.

LTC Fearing, now employed as a civilian at Fort Hood, Texas, hails from Cleveland, Ohio. He has spent over twenty years of his life as an Army officer. During this time he was able to work in job capacities, two of which were assignments as Assistants and Professor of Military Science. During the period April 1957 through July 1960 he was Assistant Professor of Military Science at Howard University, Washington, D. C. Following a tour of duty in Germany, LTC Fearing was assigned to

"In White America" The Price of Freedom

In observance of Negro History Week, students from the Phyllis Wheatley High School of Houston, Texas, presented a play entitled "In White America," by Martin Durham. The play was presented at Prairie View Monday night, February 13.

"In White America" was a historical drama in two acts of the Negroes life in America. Presenting the audience with a very dynamic and soul-searching performance were Kenneth Robertson, Dorothy Singleton, Dian Johnson, Chester Hobbs, Stephen Auzenne, Michael Ozen, and Gladys Glass.

Such outstanding personalities in Negro history impersonated by the cast were: John Brown, Father Divine, Nat Turner, and President Andrew Johnson.

George Washington was a leader who recognized the gifts and talents of others and assigned to each the task for which he was fitted. His simple, unassuming manner well graced a republic and helped to make him the true leader that he was.

On the birthday of our first President, it is well to remember the fundamental principles he propounded — principles that have helped guide this nation through the years.

It was a cold day at Valley Forge as General Washington prayed for Divine guidance for our young nation in its moment of severe trial. Later General Washington met with a group of his military. With tears in his eyes — not tears of fear or failure but rather tears of pride for his fellow man and admiration. See FREEDOM, Page 8

NEWS for ENGINEERING GRADUATES

Continued expansion of our military and commercial business provides openings for virtually every technical talent.

As you contemplate one of the most important decisions of your life, we suggest you consider career opportunities at Pratt & Whitney Aircraft. Like most everyone else, we offer all of the usual "fringe" benefits, including our Corporation-financed Graduate Education Program. But, far more important to you and your future, is the wide-open opportunity for professional growth with a company that enjoys an enviable record of stability in the dynamic atmosphere of aerospace technology.

And make no mistake about it . . . you'll get a solid feeling of satisfaction from your contribution to our nation's economic growth and to its national defense as well.

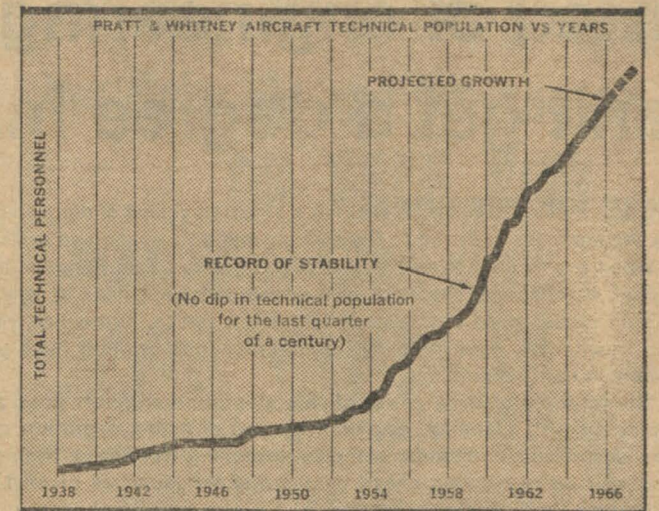

Your degree can be a B.S., M.S. or Ph.D. in: MECHANICAL, AERONAUTICAL, CHEMICAL, CIVIL (structures oriented), ELECTRICAL, MARINE, and METALLURGICAL ENGINEERING • ENGINEERING MECHANICS, APPLIED MATHEMATICS, CERAMICS, PHYSICS and ENGINEERING PHYSICS.

For further information concerning a career with Pratt & Whitney Aircraft, consult your college placement officer—or write Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

Pratt & Whitney Aircraft

CONNECTICUT OPERATIONS EAST HARTFORD, CONNECTICUT

Take a look at the above chart; then a good long look at Pratt & Whitney Aircraft—where technical careers offer exciting growth, continuing challenge, and lasting stability—where engineers and scientists are recognized as the major reason for the Company's continued success.

SPECIALISTS IN POWER . . . POWER FOR PROPULSION—POWER FOR AUXILIARY SYSTEMS. CURRENT UTILIZATIONS INCLUDE MILITARY AND COMMERCIAL AIRCRAFT, MISSILES, SPACE VEHICLES, MARINE AND INDUSTRIAL APPLICATIONS.

HAMLET Synopsis

An already dejected Hamlet is brooding over his father's death and his mother's hasty marriage to his uncle Claudius when his friend Horatio tells him of the late king's spirit, clad in armor, walking at night. Determined to know what disruption in Denmark this involves, Hamlet keeps watch. The Ghost appears, accused Claudius of his murder, and commands Hamlet to take revenge.

Wavering as to whether the Ghost is to be believed, Hamlet seizes upon the idea, when strolling players arrive, of having them stage a scene very much like the murder. Hamlet experiences a moment of triumph when Claudius rushes from the room, leaving no doubt of his guilt. He realizes his opportunity, draws his sword, but fails to strike, declaring his revenge would be incomplete if Claudius' soul, forgiven by prayer, was sent to heaven.

Hamlet visits his mother in her room and seethingly rebukes her. Hearing a noise behind the curtains, Hamlet strikes wildly and murders Polonius, who was hiding there. Claudius now has grounds to send the Prince to England, and commissions Rosencrans and Guildenstern to carry a letter with them which commands Hamlet's death.

Laertes, arriving home from Paris breathing threats of swift revenge for his father's death, discovers that his sister Ophelia, once loved by Hamlet, and been driven to madness and in her distracted state, wandered to a lake and was drowned. Claudius now finds Laertes a willing instrument to destroy Hamlet, who has escaped Claudius' mur-

Serve the Lord with gladness: come before his presence with singing. Do not enter into the silence with solemnity. The Divine Mind is also joyous. We find that to live in the Christ way enables us to live in the world of Christ love, to base our life on love. So let us worship with gladness, and then carry our gladness into our everyday living.

derous designs and has returned to Denmark. A fencing match is arranged in which Laertes will use an unbalanced sword dipped in poison. The King also prepared a cup of poisoned wine for Hamlet to drink.

The action moves quickly in the final scene. The queen mistakenly drinks the poisoned wine. Laertes fatally wounds Hamlet. The swords are dramatically switched and Hamlet pricks Laertes with the envenomed tip. Laertes confesses the plot to Hamlet, accusing the King. Hamlet finally plunges to his revenge and stabs Claudius. Asking Horatio to tell his story and naming Fortinbras as his choice for King of Denmark, Hamlet dies just before Fortinbras and his soldiers arrive to usher in a new realm.

Miss Texas High

CONTINUED from Page 1 MISS TEXAS TEEN contest of fers will undoubtedly bring even more popularity to the contest.

Qualifications for the contest state that the contestant must be 16 years - 19 years of age, and must be in grades 10-12. They may represent high schools, churches, civic or social clubs, or enter on their own initiative.

The following young ladies have had the honor of wearing the title of MISS TEXAS HIGH: Misses Joyce Hubbard of Angleton, Texas, 1961; Cheryl McIntyre - Bonham, Texas, 1962; Gloria Neal - Kilgore, Texas, 1963; Barbara Wood - Prairie View, Texas, 1964; Patricia Brown - Bryan, Texas, 1965; Jesselyn Box - Crockett, Texas 1965.

The 7-Up Company will co-sponsor the contest as they have previously done for the MISS TEXAS HIGH contest.

Hats Off

CONTINUED from Page 12 one of the starting players gets hurt or foul out, there would be very little difference in whom-ever Coach Moore sends in to replace the starting player.

Again, I say "Hats Off To Our Proud and Hustling PANTHERS"!

Air Force ROTC now offers a new two-year program along with its traditional four-year program. Each leads to an Air Force commission.

Retired officers and NCO's are teaching the new Air Force Junior ROTC program in secondary schools across the nation.

Arthritis To Receive Support From National Institute in Coming Year

Efforts to find further evidence of the role of infection in human arthritis will receive support in the coming year from the National Institute of Allergy and Infectious Diseases.

Under particular scrutiny will be bedsonia organisms, a distinct biologic group of intracellular agents responsible for diverse infections in birds, man, and other mammals. Dr. K. F. Meyer, dean of American investigators of bedsonia, will head a research team seeking to expand its earlier work in which bedsonia organisms were isolated from patients with Reiter's syndrome. Symptoms of this disease include arthritis, inflammation of the urethra, and conjunctivitis.

Dr. William H. Stewart, Surgeon General of the Public Health Service, announced the award of a \$42,547 grant for the coming year to Dr. Meyer, director emeritus of the G. W. Hooper Foundation, San Francisco Medical Center of the University of California. The NIAID is one of the eight National Institutes of Health of the Public Health Service.

At the third general session, Earl M. Weber, Millersville State College, Millersville, Pa., will speak on "How and Where Can we Develop Content for Teaching Industrial Arts from Technologies of the Past."

Speaker at the fourth general session will be Howard S. Decker, AIAA executive secretary, who will discuss: "Title III NDEA - Its Implications for Today's Industrial Arts Programs."

Working with other scientists concerned with the clinical and epidemiological aspects of the search, the investigators will expand and attempt to validate their original findings. And they will seek techniques for specific identification of the bedsonia isolates and their relationship to other organisms of the same biological group.

If the early findings are validated the implications for diagnostic and therapeutic approaches to certain arthritic disorders could be important, since all bedsonia organisms are susceptible to some antibiotics. And the development of experimental tools for studying the pathogenesis of arthritis would be invaluable.

This study is one of a number of research projects, conducted both at the NIAID laboratories and at non-Federal medical centers across the country, which are following clues to the possible identification of an agent of one of the chronic diseases of man.

Under particular scrutiny will be bedsonia organisms, a distinct biologic group of intracellular agents responsible for diverse infections in birds, man, and other mammals. Dr. K. F. Hooper Foundation, San Francisco Medical Center of the University of California. The NIAID is one of the eight National Institutes of Health of the Public Health Service.

Carter

CONTINUED from Page 6 phrey and U. S. Senator Joseph S. Clark, Pennsylvania, will address the opening general session of the American Industrial Arts Associations' 29th annual convention in Philadelphia, Pa., March 14 through 17. Theme of the convention, which begins Tuesday morning, is "Industrial Arts and Technology - Past, Present, and Future." Convention headquarters will be the Sheraton Hotel.

Melvin Kranzberg, secretary of the Society for the History of Technology, Case Institute of Technology, Cleveland, Ohio, will address the second general session, Wednesday, speaking on "Technology and Culture of the Past - Content for Industrial Arts."

At the third general session, Earl M. Weber, Millersville State College, Millersville, Pa., will speak on "How and Where Can we Develop Content for Teaching Industrial Arts from Technologies of the Past."

Speaker at the fourth general session will be Howard S. Decker, AIAA executive secretary, who will discuss: "Title III NDEA - Its Implications for Today's Industrial Arts Programs."

Mosby Named

CONTINUED from Page 1 "Outstanding Teacher in the State."

Mr. Mosby has worked and studied in the world famous Henry Ford Trade School, Fisher Body Craftsman School and the renowned Chrysler Apprentice School. Other activities that contributed to his professional growth were his privileges of teaching at Prairie View and serving as Director of Industrial Workshops during summer sessions.

Queen's Contest

CONTINUED from Page 6 onnaise, Skippy peanut butter, Mazola, Karo, etc. - and they will award an interesting prize. They will present ten shares of Corn Products Company stock to the next National College Queen. (So, girls, soon you could own stock, collect dividends, and be driving your new car to the airport as you leave for Europe. All this could happen to you. It's worth trying.)

Here's one final reminder from the judges: "The student's academic record, her volunteer activities and her hobbies are important. The winner will be someone who is active in several phases of campus life. She does not have to be a scholastic genius nor have the beauty of a Hollywood movie star. The next National College Queen will be a typical American college girl - bright, alert and personable."

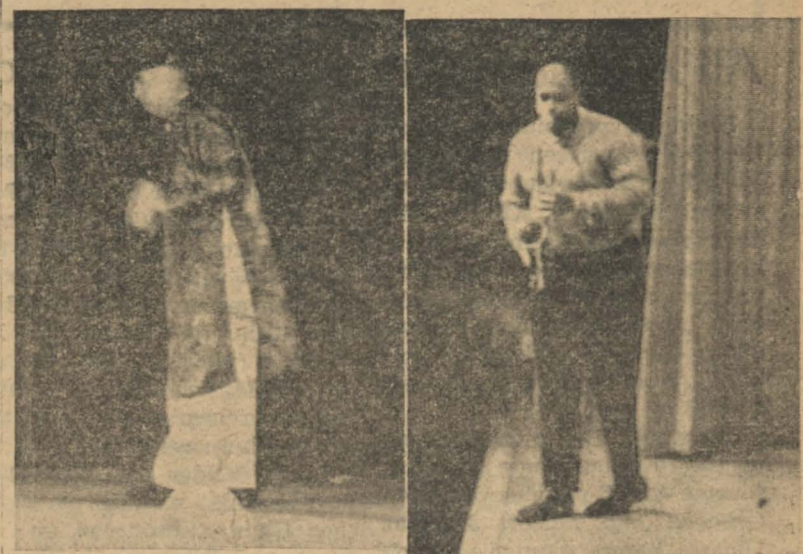

Freedom

CONTINUED from Page 7 for his struggling nation - he gave his military patriots a simple command, "Put none but Americans on guard tonight."

Tide-Water Oil

CONTINUED from Page 4 graphical Department. His work will consist of terranial locational map drawing. In addition, Mr. Smith will enroll in Civil Engineering at the University of Houston with the Tidewater Oil Company, defraying three fourths of his college expenses.

Faculty Talent Scenes

The above scenes show Dr. Noble Armstrong and Coach Martin Epps executing their talent numbers at the annual Faculty Talent Show sponsored by the local Alumni Association. Dr. Armstrong is demonstrating an Oriental dance, while Coach Epps plays "Misty" on the alto saxophone.

Student-Faculty Seminar To be Sponsored by I. E. Honor Society

On February 22, 1967 the Industrial Education Honor Society will sponsor its first Student-Faculty Seminar. The Seminar will be held in room 204 of the Memorial Center at 7:00 p.m.

The topic of the seminar is "Effective Study Habits For Improving Your Grades." The organizational structure of the seminar will be a panel discussion to be followed by a group discussion. The panel members are Mr. F. T. Hawkins and Miss Dorothy Yancy from the Mathematics Department, Mr. Hubert Smith and an English major from the English Department, and Mr. L. C. McGhee and Mr. Luther Berry from the Drafting and Design Department.

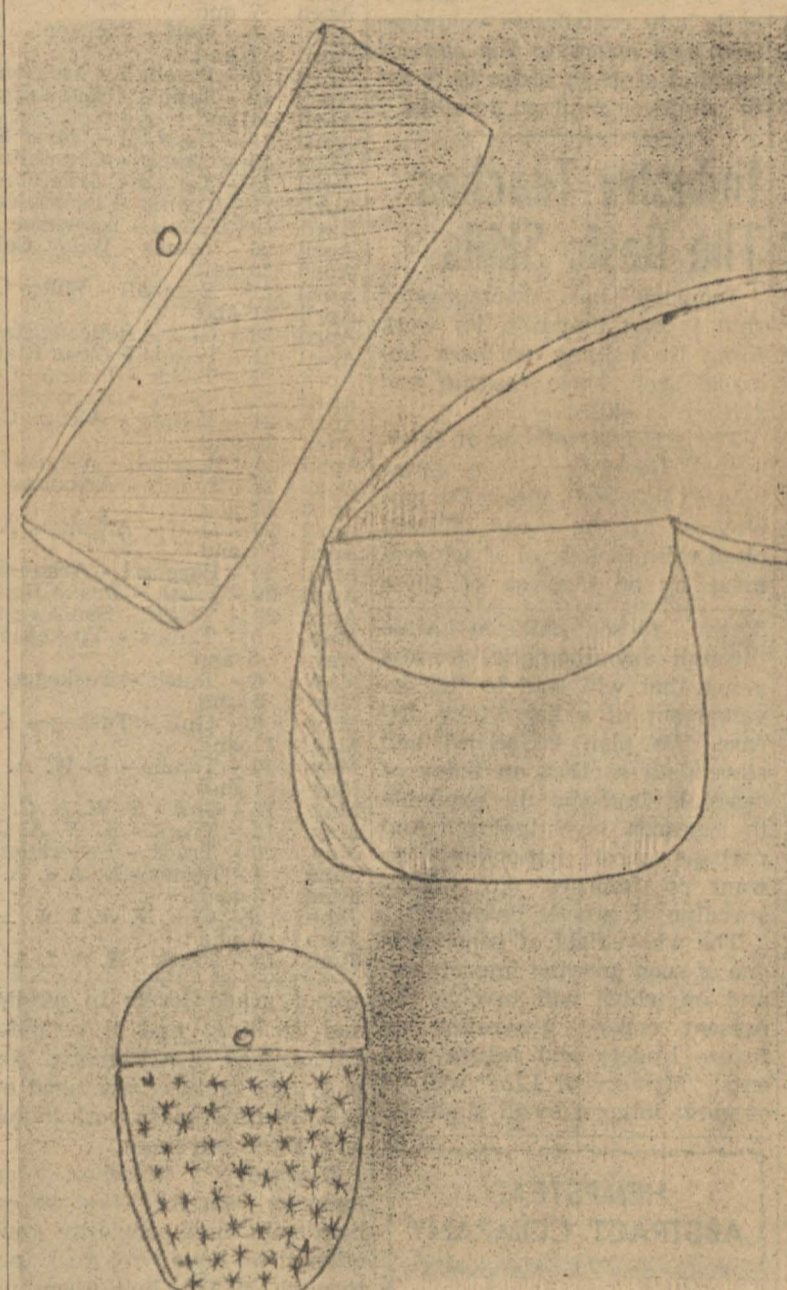

This Seminar is open to the entire Prairie View Student Body, and we feel that the Seminar will assist students in improving their study habits, which we hope will lead toward better grades this semester.

Campus Talent Show of '67 Notice! Notice! Notice!

Don't forget the audition for THE CAMPUS TALENT SHOW OF '67

Time: 3:00 - 5:00 p.m. Date: Saturday, Feb. 18, 1967 Place Memorial Center Ballroom

Truly Personal . . .

Co-ed

Have you ever asked yourself, "Why carry a bag?" What answer did you get? Oh, you are passing the question on to Co-ed?

The Co-ed of today wouldn't dare leave her room for eight hours without her bag. Why? She knows that her make-up will need retouching, her fragrance will need accenting, her hair style will need touching up where will she carry the "little help mates" IN HER bag of course!

- Co-eds do it this way: Daytime bags: 1. Make-up Kit containing cake-powder, lipstick, eyeliner. 2. Small comb or brush 3. Purse size spray perfume or cologne 4. Hanky

- 5. Breath mint 6. Cigarette case and lighter, if she smokes 7. Note pad with pen 8. Extra pair of gloves Evening bags, date, etc. 1. Cake-powder, lipstick 2. Breath mint 3. Small cigarette case (3-6 cigarettes) 4. Small handkerchief Dress-up bags 1. Cake-powder, lipstick, eyeliner - make-up kit 2. Breath mint 3. Handkerchief 4. Extra pair of gloves 5. Note pad with pen 6. Cigarette case with lighter, if she smokes Remember Co-ed, the bag you carry helps keep you beautifully attractive. GOOD LUCK CO-EDS! Archie Williams - Fashion Editor

We'll be on campus soon to talk about a new breed of engineering you can't get a degree in.

"RANGE PROFESSIONAL." It's a new discipline of our own creation . . . a blend of the many technologies required to support our nation's space and missile launches.

When a new grad joins Pan Am at the Eastern Test Range with a degree in electronic, electrical, mechanical, chemical, civil or industrial engineering, physics, or math . . . or even if he's an experienced specialist in telemetry, optics, hydraulics, radar, statistics, infrared, orbital mechanics, data handling, communications or what have you . . . he soon becomes proficient in many disciplines.

The multiple striking power of this all-around engineer goes a long way in explaining our success with planning, engineering, and directing operation of the Air Force's multi-million dollar instrumentation complex stretching from Cape Kennedy to the Indian Ocean . . . and why we're working ahead confidently for launches of MOL, Apollo, Voyager and a host of other sophisticated programs.

Find out more about your potential as a Range Professional when our team visits your campus. Arrange an appointment with your Placement Director now.

INTERVIEWS FOR BSEE'S TUESDAY, MARCH 14

Club News

All American City

Hello fellow Panthers, this is the All American City Club, Fort Worth, coming back for a second semester. After a few days between semesters, we hope that everyone is ready for another round with the books. Say, by the way, how did you enjoy our new registration system? As some have put it, easy as sliding on ice.

We would like to take this opportunity to welcome back two former AACC members, William Osborne and Robert Douglas. Have a happy reunion with old friends, fellows.

Our project, to beautify the campus, is off to a very good start. You have probably noticed the areas in front of the education building, Old Science Building and other areas, we extend congratulations to the Alpha Phi Omegas for this concern in this project.

Some of the students were a little skeptical about the new "Prairie View Partners in Progress" but credit must be given to a good start in our improvement programs.

Well, Fellow Panthers, here's wishing you the very best of scholastic success in the new semester.

Reporter: Evonne A. Jackson

BOI Report

We, the Barons of Innovation, would like to extend congratulations to our Sponsor, Mr. Samuel Montgomery, for his fine display of distinction. He was recently appointed Special Aid to the President, for College Development and Social Documents. Mr. Montgomery is Assistant Registrar at Prairie View and has been sponsor of the Barons for some eight years.

The aggressive Barons have initiated a new idea concerning interclub mingling, it is called "clubs in progress". Recent thinking is along the lines of all clubs combining their efforts in order to improve the standing of the clubs as a whole. The clubs should join together in being responsible for innovating particular activities on campus. This will place us in somewhat higher ranks to our most recent competitors, "The Greeks". We would like all clubs to join the Barons in a combined effort to keep the social club in its proper place.

Our Annual Courtesy Week is scheduled for March 5-12. During this week the Barons, along with others, will be participating in a number of activities. We hope courtesy will get started and continue through the year (for both students and faculty). Permit us to emphasize some courtesies that are needed: Speak to everyone - offer to assist when the need arises - be helpful - say thank you and please - and don't look so glum - Smile! Courtesy, as may be reminded, is always in place.

James T. Hart, Reporter

Club Crescendo

The Crescendo Musical Show-case will be held in the Auditorium Gymnasium March, 1967. Crescendo Erwin (smooth) Portis, the director of the Crescendo gig stated that this year the Showcase will be the up-most. The rehearsing started Monday, the 13th of February. Mr. Frankie (blowing) Ball the assistant Music Director, stated that the rehearsing will last until the Showcase is over.

Larry Yelder and Ben Danford are also making plans for the Club Crescendo-Club 26 Black and White Ball. The affair is sponsored jointly by the two Clubs and the expense of the Ball is shared equally. The affair is given during the month of April. Preferred dates, out of deference to Club 26, are those dates that have either sixes or nines in them.

The officers of Club Crescendo have been changed. Ernest (hustling) Biggers is now Potentate and Erwin (smooth) Portis is Club Crescendo Music Director.

Reporter - Crescendo James Taylor, Jr.

P/R News

News of the month for the P/R concerns getting ready for the Big Annual Meets in San Antonio, Texas. The membership is constantly growing as we have a fine group of young men who made P/R during the first semester of this year.

We extend an invitation to all young men here on campus who are interested in pledging the Persing Rifles during this second semester.

A friendly hello; a warm welcome to all, and the best of luck in your classes.

Reported by James Smith

"Mystery of Life"

On Sunday, February 26th, at 6 p.m. (Eastern Time), the CBS television will present "Mystery of Life", one of the "21st Century" series featuring Walter Cronkite, on research in human genetics and the implications for future generation. This program is being presented in cooperation with the National Foundation For Neuromuscular Diseases, Inc.

Another program sponsored by NFND is called Genetic Alert, which is a demonstration of the feasibility of screening seemingly healthy youngsters for hidden inborn conditions. It is believed that it may point the way to the preventive medicine of future. Genetic Alert will have tested 2,000 children, aged six months to six years, for susceptibility to Wilson's disease, obstructive pulmonary disease, glucose-6-phosphate dehydrogenase (G-6-PD) deficiency, and hereditary angioneurotic edema.

Genetic Alert has several objectives, say Dr. I. Herbert Scheinberg, professor of medicine at Einstein and chairman of the test project, "We hope to

ROTC Wives Club

The military wives of Prairie View A&M College commenced the club's activities by inviting the ladies of the Prairie View community and the ROTC Queens to enjoy a Sunday afternoon tea in the home of Mrs. Mary Stark, the wife of LTC Lloyd Stark. Other activities undertaken by the club members include the formation of a welcoming committee, the organization of a utility cupboard, and the publication of a brochure designed to assist the newcomers in adopting Prairie View as their home.

Monthly meetings are held in the homes of the members at which time a designated lady serves as hostess, and she assumes the responsibility of conducting the business or social meeting.

The primary aim of the ROTC Wives' Club is to become an active part of the college family and serve the community in an auspicious manner. In connection with this aim, the ladies distributed holiday baskets of cheer to two deserving families of the community. In addition, each lady contributes volunteer time and effort to the campus hospital staff in order to assist in whatever manner possible.

Some of the students were a little skeptical about the new "Prairie View Partners in Progress" but credit must be given to a good start in our improvement programs.

Reporter - Crescendo James Taylor, Jr.

Industry Teaches The Basic Skills

Industry has demonstrated that it can up-grade its work force by helping workers improve their basic reading and arithmetic skills.

The MIND (Methods of Intellectual Development) program helped 38 Corn Products Co. employees, at the Argo, Illinois plant raise their level of achievement by an average of three

detect those children who, through asymptomatic, possess genes that will lead to the development of a hereditary disease. We plan to record and store data so that an index of cases is immediately available to research investigators. And perhaps most important, we want to improve our understanding of genetic linkages".

The whole field of genetics is one of such growing importance, and on which will involve the present college generation as future leaders and future parents, "Mystery of Life" will be of great interest to all students.

school grade levels in reading and spelling, and three-and-a-half grades in arithmetic. Actually, the trainees averaged only 73 hours of class work to achieve these advances.

Richard P. Wascher, plant manager, stated: "Now we can help train some people we would otherwise have rejected and through MIND, help them upgrade themselves to job demands. With the need for increasingly better qualified people to run our increasingly complex operations, we believe that it will become more economical to train people than recruit them."

Using recorded instructional material, slides and mimeographed lesson sheets, the program emphasized self-help. Two instructors, neither of whom is a professional teacher, helped the trainees master fundamentals, and encouraged each trainee to work at his own pace to raise his ability to a functional level.

The average age of the trainees was 42 years, and they averaged 15 years of service with the company. Although the group represented a wide range of job classifications, most had been limited to lower level jobs because they had been unable to pass tests for promotion.

"FRAT" News

Kappa Kappa Psi Inc. Phi Beta Lambda

Kappa Kappa Psi, National Fraternity, recently established seven new members, who are as follows: Jimmy Rhodes-Columbus, Tex., Oscar Banks-Brookshire Tex., James Frazier-La Marque, Tex., Reginald Brooks-Weirgate, Texas, Billy Carter-Bonham, Tex., Lawyer Sirls-Houston, Texas, and Horace Roberson of Wadsworth. The Probation period and initiation ceremonies were a complete success, followed by an informal "Get-Together", to welcome the new brothers into the fraternity. Mr. David Cobbs, the Fraternity's sponsor, has done a splendid job in making this organization a success.

Officers of the fraternity includes: Pres. Frank N. Bell, Vice-Pres. Leslie Berry, Secretary-Elliott Gould, Treas. Thomas Wheat, Jr., and Robert L. Ware-Parliamentarian, Sgt.-at-Arms, and Chaplain, Hige W. Russell-Dean of pledges and Robert Ware-Asst. Dean of Pledges, were credited with doing a splendid job during the probationary period.

The old members and neophytes are planning for a spring ball, which should be a very colorful and gay affair, because it is being "Well-Planned". So if you can't make it to this, I'm sorry, and better luck next-time. Besides social activities, the frat. has also strived to help the college band overcome any obstacle, which might keep it from being one of the best.

This is all for now, but remember if you aren't a musician, you can't be trusted.

Reporter, James Taylor, Jr.

Gamma Theta Upsilon

Welcome back for another semester of fun filled activities, but most of all the hard studying, that each and everyone of us perhaps are striving to endure.

On March 9, the famed Geographer Wilbur Zelivsky will speak to persons connected with the Department of Economics. All interested persons are welcomed to attend.

Gamma Theta Upsilon has further plans for a Forum during the Spring on the problems of the current war, "Viet Nam."

The members of the Epsilon Beta Chapter of Phi Beta Lambda Fraternity Inc., congratulates all students that will take part in the Honor's Convocation. But special recognition goes out to all members of Phi Beta Lambda for striving and achieving academic excellence.

With the commencement of the second-semester, Phi Beta Lambda is looking forward in continuing in Service, Education and Progress. Madame President, Odie Woods, has announced that the Business Clinic will be held again this year, when some of the latest office machines and data-processing equipment will be on exhibit. Also planned for this semester is the Annual Blue and Gold Ball. The date has been set for May 6, in the auditorium-gymnasium.

In addition, the Kittens, Phi Beta Lambda pledges, will be going on probation in the near future, and Good-Luck — Potential.

Rogers Whitmire

Alpha Phi Alpha

The men of Alpha Phi Alpha proudly salute brother Rogers O'Neil Whitmire, a senior mathematics major from Houston, Texas.

Brother Whitmire graduated from Booker T. Washington in May, 1963. Even though ranked number four in his graduating class, he was the recipient of a Jesse H. Jones scholarship, a scholarship offer from Fisk University, as well as two scholarship offers from Huston Tillotson College.

Brother Whitmire chose to attend Prairie View and matriculated here in September 1963. While attending Prairie View he has been the recipient of many awards: he has received the Ak-Inson Mathematics Award for being the most promising freshman mathematics major, an award for being the most out-

District Scouts Plan Physical Fitness Rally

Boy Scouts and Explorers in the four-county David Crockett District will participate in a Physical Fitness Rally at Sam Schwarz High School, Hempstead on February 21.

Activities will include broad jump, Sargeant's jump, push-ups, rope climbing, sack race, and potato race. Also included will be the Mr. Explorer Physique contest.

Phi Beta Sigma

The soul brothers of Delta Theta Chapter of Phi Beta Sigma Fraternity, the latest Fraternity on campus announces

standing sophomore in science, he was voted the most studious Junior male, he is president of Alpha Kappa Mu, a member of Beta Kappa Chi Scientific Honor Society, a member of Alpha Phi Alpha Fraternity, Inc., and at present he has the highest scholastic average at Prairie View A&M College (3.81).

Truly, we must admit brother Whitmire is an outstanding young man. Finally he has been offered a job in California in industry starting at approximately \$9,000 per year and also he has been accepted to attend Michigan State University Graduate School. He also made a 4.00 average this semester and has made a 4.00 for a total of four semesters.

Again our hats are off to brother Rogers Whitmire for a well done job. Watch for future write-ups on outstanding Prairie View Alphas.

Daniel Anderson

their outstanding Frat brothers

who have gained recognition on Prairie View's campus. These persons have acquired an average of 3 points and above. They are: Wayne Buster, Willie Banks, Jr., Hilliard Lewis, and Ronald Reece.

The Fraternity also recognizes brother Richard Johnson, who has made all Southwest Conference on the football team.

The Fraternity acknowledges the achievements of our brothers and wish them much success in all their endeavors.

The officers of the Frat are: President, Willie Pollard; Vice-President, Raymond Carson; Recording Sect., Willie Banks, Jr., Corresponding Sect., Kenneth Martindale; Treasurer, Lee Von Spencer; Parliamentarian, Joe Wickware; Business Manager, Ben Cavit; Publicity Director, Paul Willie; Dean of Pledges, Hilliard Lewis; and Asso. Dean, Clarence Muse.

The brothers of Sigma also wish to express our appreciation and gratitude to our grad brothers for their cooperation in helping us to set up a solid foundation on our campus.

PV Panthers Spoils Southwestern Conference Basketball Race

The Prairie View A&M College Panthers played the role of spoilers in the tight Southwestern Conference basketball race over the past week.

The Freshmen studded Panther five, coached by veteran mentor Leroy Moore, dropped Texas Southern from a 3-1 league tie with Alcorn A&M, winning two in a row. Prairie View whipped the TSU Tigers 78-60 in the "little dome," which was considered a possibility, but the 91-88 licking at Texas

Southern was a real surprise.

Then came the league leading Grambling College, who fell before the Panther 86-82. Grambling's Tigers and Alcorn were leading, and following Grambling demise, the Panthers continued in the spoiler role, continuing the last big leader Alcorn 80-76.

The little men on the hill thus knocked off the giants and in doing so raised their own standing to five wins and five losses. Their overall season record is 11-9.

Southwestern Conference Standing

	Won	Lost
Alcorn A&M	7	3
Grambling	7	3
Arkansas AM&N	7	3
Southern	6	4
Jackson State	6	4
Prairie View A&M	5	5
Texas Southern	3	7
Wiley	0	10

PV Sports Quiz Did You Know?

Did you know that Prairie View's Guy Manning is playing professional basketball with the Michigan Bombers of Battle Creek, Michigan?

The Bombers is a form club of the NBA Baltimore Bullets. Guy is doing a superb job for the Bombers and is the leading scorer, shooting at a clip of 33.4 average per game. With shooting like that, Guy is a cinch to move up with the big boys.

Can you imagine head football Coach Wright was a 9.5 hundred yard dash man when he was running track in College? Our Athletic Director, Coach Nicks, was an All-American End at Morris Brown College in Georgia? Coach McKinnis was an All-American Halfback at Indiana University during his college days?

Did you know that Coach Ret-

tig was one of the best Ends in the country while he was playing football at Wilberforce College in Ohio? And I'm sure you didn't know that Prairie View's football Captain, James Williams, of 1967-68 has led our football teams in scoring in the last three football seasons.

VIP'S Watch Game

Prairie View's two great football pros were introduced at half time to the audience at the Prairie View-Grambling game. In the audience were Otis (all pro) Taylor, Kansas City Chiefs, and Charlie Warner, Buffalo Bills. Also there were Grambling's Big 6'7", 280 pounds, Buck Buchanan, Kansas City Chiefs and Houston Oilers 265 pounds, Garland Bogett.

Otis and Charlie had fun seeing P. V. "do it" to Grambling while Buck and Garland just sat and watched the slaughter. Otis Taylor has enrolled in Prairie View this second semester to continue work on his undergraduate study of P. E.

Otis, Prairie View welcomes you back, and thank you for such an outstanding job playing football this year. You made PVites real proud. Good luck in the coming season.

By Leon Brooks

Hats Off To The Panthers

by Leon Brooks

Hats off to our proud and hustling Panther Basketball Team. They were just great by "doing it" to the tall and talented Grambling Tigers 91-86 and coming back after a days' rest and beat Alcorn 86-76. Our boys proved again to the so-called expert predictors that it pays never to predict that PV will get beat, that goes in ping pong, jacks, marbles, and anything else.

Our short courageous Panthers out-moved, out-shot, and out-jumped their taller opponents during both conference basketball games. Captain "Pooky" Alexander was just great on defense and out of sight on offense. Let's don't forget the tremendous job Boney, Bolden, Settlers, Gamble, Mitchell, and Yes! our bench, Ricks, Gilder, Durham, and Mannings, played. To those who do not know it, if it were not for our bench strength, our boys could not improve game after game. Those fellows on the bench are very good ball players, and practicing everyday with each other helps keep our advance players sharp; if

See HATS OFF, Page 8

State Basketball Tournaments

Annual State Basketball Tournaments will be held for all high school divisions on the last two week-ends in February. Approximately forty high schools, winners in district competition, will be represented at these tournaments.

The cooperation of the faculty and staff is usually requested by The Interscholastic League Office in these and other State Contests coming up in the near future.

Johnny Temple School Of Champions Slated For June 25 Opening

KHOU-TV Sports Director Johnny Temple and the University of Houston's Ted Hendricks have announced June 25th as the opening date for the new Johnny Temple School of Champions.

A boarding school for boys eight through 14, it will consist of three two-week sessions with each session limited to 150 boys. Held on the University of Houston campus, the school's curriculum will include instruction in the fundamentals of baseball (hitting, bunting, sliding, fielding and pitching), lectures highlighted by training films, and actual game play daily.

Temple, veteran of 13 years in the Big Leagues — seven as an All-Star second baseman — and now Houston's most popular TV sportscaster, has long felt the need for such a facility in this area. We'll start at the end of Little League season," he said, "and give the kids the opportunity to develop under professional instruction during what normally is a period when there are no organized baseball programs under way."

Members of the staff include baseball coaches Lovett Hill of the University of Houston and Doug Osborne of Rice University and several of the area's leading high school coaches. Pitching instructions will be given by one of the St. Louis Cardinals' all-time greats, Howie Pollett. Guest lecturers include Eddie Matthews, Don Drysdale, Rusty Staub, Bob Aspromonte, and Gus Mancuso. Temple himself will co-ordinate overall instruction in addition to spending a large amount of time in individual teaching.

Other activities of the school include swimming, side trips to NASA and other attractions, and ball games at the Houston Astrodome. Boys will be housed See TEMPLE SCHOOL, Page 8

what's so special about Collins?

Unusual career opportunities? Fringe benefits? Ideal locations? Exciting work? Advancement potential?

Well, almost every industrial concern can offer those.

We can show you dozens of photographs of career people working at Collins, using the finest facilities and tools available. But that isn't the whole Collins story.

You see, one of our biggest specialties is you. Your specialty is special at Collins. Every major engineering breakthrough at Collins can be traced to an individual specialist or team of specialists.

Which leads to another speciality: state-of-the-art communication systems. Collins' record of "firsts" over the years is an enviable one: single sideband development, space communication systems, aircraft all-weather landing systems, high-speed data communication and message switching networks — to name a few.

We suggest you contact Collins' representative when he's on campus. And contact your college placement officer for details.

The rest of the Collins story? We frankly can't tell you at this moment.

You'll be writing it.
