# PV Programs Moving Forward

President Alvin I. Thomas has announced that many of the special programs initiated the very first day of his administration are moving forward impressively. Others are in the stage of study and planning.

Speaking at the monthly meeting of college staff members Dr. Thomas expressed pleasure at the rate his program is moving. The president still maintains an extremely busy

schedule as he works with various areas of the college staff in "getting things moving."

The Blue Ribbon Committee on Student Life appointed by the president has been very active and several sub-committees have submitted recommendations. Several experimental programs are in operation. One is the Dormitory life program which aims to give students actual experience in managing

their own affairs, particularly in the areas of sanitation, beautification, discipline and decorum.

Progress has been reported in the New Dormitory for Women. Student leaders are now active on every wing of the dormitory and are responsible for decorum. The young ladies work together insuring standards and helping to see that they are maintained.

A program is being initiated to give awards to the "best

rooms," and "best floors." The young ladies are now very definitely involved.

The committee on communications has submitted recommendations to the President. A major proposal calls for the extension of the PANTHER to a weekly publication. Dr. C. A. Wood, Panther adviser, says "all that's needed is additional funds." "Because the college is

isolated, we need at least a weekly."

A part-time radio station was also recommended by the committees on communications.

The greatest progress has been in the area of improved morale among students and staff. Everybody feels that he is a part of the program; "he's needed — wanted," is the way one employee put it.

## Miss PV Coronation Set Saturday Night

Saturday night, January 7, at 8:00 p.m. in the gymnasium, the queen of Pantherland will be crowned at the thirty-second annual Coronation Ball. Cheryl, who is the daughter of Mr. and Mrs. Leroy Edwin McIntyre of Bonham, Texas, will be escorted by Mr. Sullivan D. Baker, president of the Student Government Association. Mr. Baker will reign as king of this elaborate affair.

In order of their reigns, the former Miss Prairie Views have been Misses Wilma Roligan,

1933; Arthurine Andrews, 1934; Hattie Givens, 1935; Loudelle Routt 1936; Mable Porter, 1937; Frances Ellison, 1938; Madelyn Freeman, 1939; Jimmie Carothers, 1940; Ada L. Evans, 1941; Martha Estelle, 1942; Lillie B. Sinond, 1943; Earline Ross, 1944; Jean Harris, 1945; Doris J. Peppers, 1946; Lillian M. Brown, 1947; Joyce M. Wilson, 1948; Ida Mae Keith, 1949; Arthur Marie Crunk, 1950; Velma Livingston, 1951; Drucilla Moore, 1952; Dora Upson 1953; Opal Johnson, 1954; Bennie Jewel Douglas, 1955; Evelyn Alford, 1956; Jo Ellen McCauley, 1957; Celestine Tisdale, 1958; Lillian Doris Jackson, 1959; Hazel Muse, 1960; Katherine Weisner, and Charlotte Young, 1961; Mary Ann Jolivet, 1962; Maude Ferguson, 1963; Marie D. Johnson, 1964; Tobartha McDowell, 1965; Cheryl McIntyre, 1966-67.

About sixty other campus queens will be presented during the Coronation of Miss Prairie View. Among them will be Miss Kappa Omega Beta, Miss Les Belles Lettres, Miss Kappa Kappa Psi, Miss Cavalier Society, Miss Les Beaux Arts, Miss Dallas PV, Miss Ft. Worth PV, Miss San Antonio PV, Miss Barons of Innovation, Miss Panther Club, Miss Press Club, and the ROTC queens.

The color scheme for this elegant ball will be Flirt and Apple  
See CORONATION, Page 2

## Work On 1967 Yearbook Going Smoothly

The 1967 Yearbook is on schedule. The first section, color pictures, and most of the queens, was sent off in December. The month of January will contain almost all photographing for the book.

All social clubs which would like to have more than a one page spread should contact the editor before January 16, 1967.

Students should watch for schedules closely because no further scheduling of a picture will be done if scheduled before. If your club has not been scheduled before January 13, please contact the editor, Daniel Anderson, immediately.

THE REVEREND SHELBY ROOKS JR — To Keynote Religious Emphasis

RABBI NEWTON J. FRIEDMAN—Jewish Survival Techniques.

## Religious Emphasis Week Begins Sunday

Minority Group Survival Techniques will be the theme of Religious Emphasis Week scheduled at Prairie View A&M College on January 8-11, the Reverend L. C. Phillip, college chaplain and director, announced.

Visiting speakers for the occasion include Reverend Shelby Rooks, Jr., associate director, Fund for Theological Education, Princeton, New Jersey, and Rabbi Newton J. Friedman, of Temple Emanuel, Beaumont, Texas.

Reverend Rook will give the keynote address Sunday morning at 11 o'clock, speaking on

the subject - "Christian Non-Violent Resistance". Dr. Friedman will discuss "Jewish Minority Survival Techniques" at a 3:00 p.m. session, and a symposium on the topic "Why Not Black Power" is scheduled for 7:00 p.m.

All sessions are scheduled in the Memorial Center.

Week-day programs include class lecturers, individual and small group conferences, and general assemblies.

## New NSF Grants Total \$31,520

Prairie View A&M College's Science department has received two National Science Foundation grants totaling \$31,520 for summer programs in chemistry and physics.

A \$23,370 grant will assist in financing a cooperative college school program in Physics which is scheduled for the second six weeks summer term. High school physics teachers who participate will receive \$450 stipend, plus dependency allowance, and all tuition and laboratory fees.

A program for talented high school students in chemistry will also be operated with a grant of \$8,150. A total of 25 high school students will be selected.

See NSF GRANTS, Page 2

## International Night

The Iota Epsilon Chapter of Gamma Theta Upsilon — Department of Economics and Geography will again sponsor their annual International Night, January 9, in the Little Dome at 7:00 p.m. The theme for this year is: Dimensions In Human Understanding In An International World".

Representatives from twenty-seven nations will participate on the program. Exhibits of the many nations to be represented will be on display in the corridors of the Little Dome and in the Memorial Center.

An International Tea will be held in the Memorial Center Ballroom following the program.

## Thousands Attend Houston Symphony Performance Here

### Famed Group Is First In Cultural Series

By Dr. Noble Armstrong  
Under the auspices of the Cultural and Fine Arts Committee, and encouraged by the dynamic personal assistance of President Thomas, there was afforded the Prairie View campus and community a rare pre-Christmas event in the concert of the Houston Symphony Orchestra. Thus there was revived on the afternoon of December 15 to a capacity filled Field House audience a custom which had not been experienced in a number of years.  
See SYMPHONY, Page 3

RECEPTION FOLLOWING CONCERT — Hundreds met the artists after the Houston Symphony Orchestra performance.

PRESIDENT CONGRATULATES CONDUCTOR — Dr. A. I. Thomas, talks with Dr. A. Clyde Roller following the concert.

### Grad Reflects Excellence Of Prairie View

Another personal accomplishment reflecting the excellence of Prairie View's educational system was achieved by Joe M. Thompson, a 1958 chemistry grad who is presently Chief of the Research and Testing Branch for General Services Administration's Quality Control Division. Thompson, a former Analytical Chemist, at 28, is the youngest of nine national chiefs, and the only Negro in GSA history.

As chief of the Research and Testing Branch, he is responsible for the quality of goods totaling \$15 million annually in the states of Colorado, Wyoming, Utah, Arizona, and New Mexico.

Thompson is a member of the Church of Christ, American Society for Testing Materials, American Chemical Society, Federal Business Association, the Barons of Innovation, and is married to an ex-PV grad, the former Juanita J. Johnson.

### Coronation

CONTINUED from Page 1  
Green, Miss Prairie View will wear the traditional purple and gold robe, and will also bear a bouquet of pink roses in carrying out the color scheme. Her gown will be the traditional white gown.

The theme for this occasion is "A Hundred Million Miracles", and we must admit, our lovely queen is definitely among that hundred million.

### NSF Grants

CONTINUED from Page 1  
ected as participants with all expenses paid by the college.

Persons interested in securing application forms and further information concerning these programs should contact Dr. E. E. O'Banion, director, Prairie View, Texas.

### The Old Timer

"A borrower is a man who tries to live within your means."

ALPHAS DONATE CHRISTMAS BASKETS — Bruce Poin-dexter and Charles Muse are shown with the 10 huge baskets of groceries collected and distributed to needy families during the holiday period.

## Mid-Year Commissioning Set For Twelve Candidates

The annual mid-year commissioning exercise, planned for January 19, 1967 in the Health and Physical Education Building, will be the culminating act in the college lives of twelve seniors at Prairie View A&M College, Prairie View, Texas. These prospective commissionees have met all requirements for the Bachelor Degree in their respective fields while they simultaneously satisfied the requirements for being commissioned a Second Lieutenant in the United States Army. As these graduates terminate their college careers that night, they are launching another in the branch of their choice in the United States Army.

Comprising the list of officer-neophytes are many outstanding students. Three of these individuals are being commissioned into the Ordnance Corps. They are Leroy Coleman, a mathematics major from La Marque, Texas; Edward T. Kuykendall, Jr., a mechanical engineer major from Phoenix, Arizona; and Ira J. Strambler, a Civil Engineering major from Odenton Maryland. Going into the Artillery branch are Ernest Collins, a Business Administration major from Austin, Texas

and Dennis Diggs, a mathematics major from Bellville, Texas. Choosing the Corps of Engineers as their branch of endeavor are Joseph Page, a mathematics major from Redwater, Texas and Joseph Porter, an Industrial Arts major from La Marque, Texas.

The Infantry branch will receive Theodore Campbell, an electronic major from Houston, Texas and Evander Johnson, an Industrial Education major from Houston, Texas. Making the Armor branch their choice were Elrie Freeman, an industrial Education major from San Antonio, Texas and Billy McGowan, another Industrial Education major from Marlin, Texas. The last individual is Richard Grant, a Biology major from San Antonio, Texas. Grant has chosen to get into the Chemical Corps.

#### NOTED SPEAKER

The individual who has the distinct honor of being the keynote speaker for this occasion is Lieutenant General Ralph E. Haines, Jr., Commanding General of III Corps and Fort Hood located in Fort Hood, Texas. Qualifying for task through his varied background, education and experiences, the dignitary

has chosen for his subject "Preparation for Job Opportunities."

Born in Fort Mott, New Jersey, General Haines, was graduated from Texas Military Institute, San Antonio, Texas in 1930 and the United States Military Academy in 1935 when he was commissioned a second Lieutenant in the cavalry. During the period 1935-40, he served in various troops assignments in Texas and the Philippine Islands; he joined the embryo Armored Force as a tank commander in the summer of 1940 and later commanded a tank battalion in the Louisiana and Carolina maneuvers.

During World War II, General Haines served in the Mediterranean Theatre as the Assistant G-3 and G-3 of II Corps during operations which resulted in the capture of Rome, breaching of the German Gothic Line above Florence, and exploitation across the Po River to the Alps. He was transferred to the 88th Infantry Division and led an advance element from that division to a link-up with the forces from the European Theater several miles south of the Brenner Pass as the war ended. After the war this outstanding individual served with the 88th Division in the Trieste area and returned to the United States with the ratification of the Italian Peace Treaty.

In 1952, General Haines was one of a small group of officers ordered to Fort Monroe to form the original Combat Development Groups in the Office of the Chief of Army Field Forces. He assisted in the development of future Army doctrine and organization which led to the Pentomic Division. His second tour in Europe came from 1954 to 1957 when he commanded a Combat Command in the 2d Armored Division and also served in Heidelberg, Germany as the Deputy G-3 of the U. S. Army Europe and simultaneously G-3, Central Army Group of Allied Command Europe. In these latter capacities he was associated closely with the early steps in the organization, training and stationing of the new German Army.

His return to the United States found General Haines in many outstanding jobs. He was the Assistant Division Commander, 2d Armored Division in

## What Do You Gain From ROTC?

The basic purpose of ROTC training is to develop your qualities of leadership. This principle lies behind every hour of ROTC training given at Prairie View A & M College, Prairie View, Texas. Here's what this training gives you:

1. An understanding of human behavior — together with

proven methods for motivating the men under you.

2. Indoctrination in the techniques of leadership — tested practices and devices which tend to make a leader effective.

3. Opportunity to apply the principles of leadership to everyday problems.

When you're commissioned as an Army officer you will be in command of more men than the number supervised by many civilian executives years older than yourself. To meet your command responsibilities, you will employ many of the leadership principles acquired during your ROTC training. And your executive potential will develop while you gather leadership experience.

Leadership ability and executive ability are two names for the same thing. The executive experience you gain via ROTC and your Army tour will be an important advantage in any civilian career. That's why employment directors often prefer men who have served as commissioned officers. These men have already proven their capacity for handling executive responsibility.

All interested personnel are asked to the Professor of Military Science, Prairie View A & M College, Prairie View, Texas.

Fort Hood, Texas in 1960; later he became the Commanding General of the first Army division organized under the ROAD concept - the 1st Armored Division. During the Cuban Crisis in 1962, he moved this division from Ft. Hood, Texas to Georgia and Florida.

Next in 1962 he was assigned as the Senior Army Officer on Department of Defense Project 80 (Hoelscher Committee) which was concerned with the overall reorganization of the Department of the Army. From June 1963 to March 1965 General Haines served as the Deputy Assistant Chief of Staff for Force Development, Headquarters, Department of the Army.

Following his promotion to his present rank in March 1965, General Haines assumed command of III Corps and Fort Hood in Fort Worth, Texas. From July 1965 to February 1966, he served as President of a Department of the Army Board of Officers (Haines Board) which was designed to review and determine the adequacy of the current Army Officer School System. The recommendations of the board were based on a projection of the needs of the service during the next ten years.

In conjunction with the various commanding officers position See COMMISSIONING, Page 6

The School of Industrial Education and Technology is now preparing for the 33rd Annual Industrial Education Conference, which is to be held at Prairie View A. & M. College, May 5-6, 1967.

### Symphony

CONTINUED from Page 1  
ber of years. How fortunate was the timing of this superlatively fine musical event which epitomized in a rare and unforgettable manner the rapidly expanding and all-campus pervading slogan, "Partners for Progress".

It is the consensus of opinion among musicians, poets, psychologists and artists generally that when one is listening with deep appreciation to the divine harmonies of a full symphony orchestra he is about as near the celestial realm called Heaven as he will ever be while dwelling on this terrestrial sphere called Earth. For the internationally famed Houston Symphony to have led the appreciative Prairie View audience to this mount of musical transfiguration was doubly significant and felicitous.

The magnetic baton of the scholarly conductor, Dr. Clyde Roller, elicited with utmost fidelity the glamorous pomp and pageantry delineated in Rossini's Overture to La Gazza Ladra. This set the mood for the guest artist appearance of concert pianist Mme. Moreland Kortkamp-Roller, whose dazzling rendition of the universally popular Grieg Concerto in A minor fairly beggars description. Strikingly similar to the blue-eyed blond Norwegian composer in her own attractive appearance and stage bearing, she passed a rigid performance test of which she was not aware until after the concert. And herein lies a most unusual and intriguing personal note.

Grieg became a second father to the world renowned pianist, Percy Grainger. His fluency in all Scandinavian dialects enabled him to grasp all the composer's minute descriptions of messages intended in every chord, bar, line and phrase of the celebrated Concerto. With this first-hand knowledge Grainger edited for Shirmer's Musical Publishers the peerless work used throughout the civilized world. When Prairie View's revered Music Department Director, Dr. Von Charlton, became a master pupil of Grainger he was chosen as the one to whom these profound analyses would be entrusted. For well nigh a year of intensive study Grainger expounded minutely to Von Charlton the same information and interpretations given to him by Grieg. The fact that on this occasion Von Charlton extravagantly eulogized the Kortkamp-Roller performance as worthy of praise from both Grieg and Grainger speaks for itself. Attempts to gild the lily become futile.

The oriental flavor of Rimsky-Korsakoff's familiar Scheherazade featured Ralpheal Fliegel as violin soloist. Pulsating with accelerating ground swells and scintillating rhythms was the Berlioz Royal Hunt and Storm. Notable was the artistic finesse demonstrated by cello soloist Shirley Trepel. More familiar still was Rossini's vivacious William Tell Overture, immortalized for millions on the radio program Lone Ranger.

Turning to the delighted audience See SYMPHONY, Page 6

### Reporting Tips

Every employee who receives cash tips of \$20 or more in any calendar month while working for one employer, must report the amount of tips received during the month to that employer, according to James H. Bandy, administrative officer of Internal Revenue in Houston, Texas.

Cash tips are subject to withholding of income and social security taxes and must be reported to the employer on or before the 10th day of the following month.

The Internal Revenue Service has available free of charge Document No. 5635, "Employees' Daily Record of Tips and Report of Tips to Employer," which explains briefly the requirements of the law. It also has a supply of the forms needed to make the necessary reports, and provides space to record each day's tips for twelve months.

Tip income counts toward Social Security and Railroad Retirement benefits and may result in higher benefits for the employee and his family.

The headquarters for Air Force ROTC is located at Maxwell Air Force Base, Alabama — near Montgomery.

## Eye Specialists To Serve on Campus

As another special service to Prairie View, an ophthalmologist and an optician will be stationed at the Prairie View Hospital once a week to serve the students.

Dr. Amater Zeale Traylor, Jr., Ophthalmologist, and Dr. H. E. Smith-Optician, will be the presiding eye specialists. Dr. Traylor is equipped to take care of any type of eye condition, while Dr. Smith will dispense eye glasses of all types.

Dr. Traylor received his B. S. degree from Morehouse College, Atlanta, Georgia, M. A. from Atlanta University Graduate School, the Howard University Graduate School. He received his M. D. degree from the Howard University Medical School.

Dr. Smith is the present manager and part owner of the Metropolitan Opticians Inc., of Houston, Texas. He has had twenty-eight years experience in wholesale and retail optical business.

### Longer Library Hours

One of the recent student demands of the Prairie View faculty and administration was that they (the students) be granted longer library hours at night. Were these students actually serious? If you have ever been in the library after 9:30 p.m., you know that it looks as though it has been robbed of living human beings -- it is almost totally deserted.

Any student who is honestly and truly dedicated about studying, doing homework, or library assignments, has sufficient time to do so in accordance with the present library curfew.

What would Prairie View students do if they were granted extended library hours when approximately 97% of them do not take advantage of the present library curfew?

Marie Gray

### PV Image Improving

In the brief month of his administration, President Thomas has succeeded in changing one most important image at the college, and others are on the way.

The miracle of everyone connected with the institutions has been raised considerably during the period. As students, faculty and staff and alumni members hear and see more. This most vital aspect of our lives here will continue to improve.

Good morale among ourselves is the first requisite toward improving our total image. For some reason, this important area had reached rock bottom, and it would never have been possible for us to convince outsiders of the worth of our programs when we did not believe in them ourselves.

We will always believe that our best "public relations agent" is our student.

### The Adam Powell Case

Most Negroes, like other Americans, are actually ashamed of the conduct of New York City Congressman Adam Clayton Powell. By his talk and action, he represents everything that most persons would like to see eliminated in the life of a public figure.

Nevertheless, he may be doing the nation a great service. He claims that a large number of congressmen are doing the same as he -- padding expense accounts, employing members of their families at fantastic salaries, personal travel at government expense, and so on. There seems to be general consensus that Powell is right -- many are guilty of these same offenses.

Finally a move has been made to encourage a crackdown on misuse of federal funds by ALL congressmen, not just Powell. Negro Civil Rights leaders can take credit for bringing this idea to light. Perhaps Powell is making his greatest contribution by willfully dramatizing this almost unbelievable waste of the public's money.

BY FRED CARTER, PRESIDENT, P. V. S. I. E. A.  
At the close of the school for the holiday period, there was a great deal of enthusiasm generated as a result of our new president. Now we are faced with two alternates: We can capitalize on our gains in terms of concrete action that leads to tangible results, or we can complain among ourselves as to what is, or what is not being done to improve our lot. What will our choice be?

First, we as students, both individually and collectively, must take a critical analysis and evaluation of our progress with special emphasis on how we can improve ourselves in the new year. Where does such an analysis or evaluation start? We should have a clear indication of how we stand academically for at least two reasons. One is that it will tilt the scale in the direction of success or failure since it is the yard stick from which we are measured. Second, our hope of improving our college's image lies in higher standards of academic betterment.

A second major emphasis of evaluation should be concentrated on our student government and clubs internal and external results. What do they offer their members in terms of professional and social orientation? Do they offer opportunities for developing creative leadership? Are there opportunities to learn how to socialize in the professional world, or do their influence end at the local bus station? No attempt is made here to equate a single answer because the result will vary according to the objectives and philosophies of the group.

What can we do to improve our college's image? There is a definite need for a stronger constitution since it is the springboard for our action. Perhaps the words of James Madison can best illustrate the importance of a strong governing body. He once observed that "In a democracy the people meet and exercise the government in person; in a republic, they assemble and administer it by their representatives and agents." He further added that, "A democracy, consequently, will be confined to a small spot. A republic may be extended over a large region."

Under such a constitution, we could have a standing committee, who meets annually, to formulate broad policies for the student government. Other committees could be formed to work out certain grievances and problems as they arise out of the broad issues.

The president has indicated that he would not deal with "Bobby Socks" groups. Then what we do for ourselves and what we get from the administration, will depend on how strongly we are organized. A list of suggested projects are indicated below that we may consider.

- Short Term
- Putting names on dormitories
- Campus beautification broaden
- Playing creditable music and making announcements in cafeteria
- One example of a long range project would be to purchase

pool tables. How could the money be obtained? One way is for each student to pay one dollar over a six semester or three year period. Funds from this source would amount to \$24,000. This figure is based on the number of students attending the college. An estimate cost of one table is \$3,000. A decision here will have to be made to determine whether we will make a joint purchase, or use the pay as we go, whereby purchases are made when funds are available.

One problem connected with the project is, that it is basically a male's game. Since it would not benefit all our students, card tables, with all necessary equipment to play the game, could be purchased and placed in each female dormitory. Of course, we might not wish to spend all our funds for equipment. Bridge classes may be set up similar to the bridge club recently organized by the P. V. S. I. E. A., and in such case, funds would be made available for instructional purposes.

This is a challenge for our campus leaders to move their groups and student body toward worthwhile goals. They will play the most important role because our leaders set the pace for the group actions. This means that they must be able to function academically with ability, initiative, and foresight. Sometimes it might be necessary to take a position contrary to popular opinion, but in spite of the opposition, the group leader must be able to reason with his members on all factors connected with a

particular issue. This does not mean that they are not receptive to those they serve. Our leaders are usually more close-knit associated with the issues, and at the same time, information may be available to them that is not always available to the group. Thus, they play a greater part in decision-making.

Our capacity for playing a leading role in the theme, "Partner in Progress" is only limited by our willingness to work for ourselves, initiative and ability to get things done. Let us show the administration and faculty members that we can do more than complain about conditions at our college.

### Need for Trainees In Vocational and Technical Ed.

There has never been -- in the history of our nation -- a greater demand for expanding and improving vocational and technical education than at present. Evidence of this is coming from many sources. The primary reason for this great demand is the fact that there are so many, many "jobs begging" for men and so many men "begging for jobs."

The following are excerpts from M. D. Mobley's "Washington Vocational and Technical Education Report."  
A nationwide survey by the Manpower Research Council in cooperation with the American Society for Personnel Administration presents persuasive evidence that about three million jobs in the United States are "going begging" -- while at the same time we are faced with the paradox of about three million potential workers who are unemployed. This indicates that many of the unemployed are also presently unemployable because they possess no marketable skills in today's labor market. It is generally recognized that most of the unemployed must be trained or retrained if they are to find employment.

The School of Industrial Education and Technology is making a concentrated effort to formulate a program which will aid in providing skill workers and technicians, for our ever-changing and demanding industrial society.

reported that its members see no end to the tight labor market unless vocational training is expanded substantially. The article also points out that many manufacturers are shying away from apprenticeship training programs because of the necessary investment in their training and the prospect of losing the apprentices by the time or soon after they become journeymen.

Another first-page story in The Wall Street Journal (August 22, 1966) points out that labor shortage is driving some U. S. industries to recruiting workers in Europe. The article states that the recruiting of European workers is likely to accelerate -- and because of the shortage of skilled workers in the U. S. -- and because the U. S. Department of Labor plans to extend "blanket certification" to about 40 job categories as against the present 16. Blanket certifications are authorized under provisions of the immigration laws which permit the labor department to approve a visa of anybody whose job classification is included in a "blanket certification" category.

The School of Industrial Education and Technology is making a concentrated effort to formulate a program which will aid in providing skill workers and technicians, for our ever-changing and demanding industrial society.

### Permit To Pay Fees Cards Are Now Ready

REMINDER -- Before the Registrar's Office can change your fee assessment:

( ) Day students must pick up authorization from Dean of Women or Dean of Men.

( ) Veterans must pick up authorizations from Veterans Counselor.

( ) Vocational Rehabilitation students must get authorization from Mr. Bell (Fiscal Office B-2).

( ) Scholarship students must get exemption from Dr. T. R. Solomon.

( ) Student teachers must get authorization from supervisor.

( ) Employees must get authorization from President and supervisor.

( ) Spouses of employees must get authorization in Registrar's Office.

( ) Any other fee exemptions sought must be authorized in the Registrar's Office.

MAKE YOUR EXEMPTION CLAIMS IN THE REGISTRAR'S OFFICE BEFORE YOU ATTEMPT TO PAY FEES.

KEEP YOUR DECEMBER MAINTENANCE RECEIPT. SHOW IT WHEN PAYING 2ND SEMESTER FEES!!

### New Registration Procedures For 2nd Semester

1. Have Trial Schedule approved by Advisor

2. Receipt and Approved Trial Schedule admits to Gym.

3. Register with Departments for courses and secure an I. B. M. class card for each course.

4. Leave through corridor leading to Health and Physical Education Building

5. Enter balcony and fill out Assignment Card.

6. Report to Dean's Table for approval of Assignment Card.

7. Report to Class Card Checkers.

8. Report to Fee Assessors.

9. Pay Lab Fees if enrolled for lab course.

10. Turn in Registration Material at Registrar's Table.

### Harmon Kelley Accepted at Two Medical Colleges

Harmon Kelley, a senior Pre-med major from Cameron, Texas, has been accepted at the University of Texas medical school in San Antonio and Meharry Medical College.

He plans to accept the admission at the University of Texas and will graduate in May and begin Medical school in September. Here at Prairie View he is a member of the Advanced ROTC Corp, Beta Kappa Chi and the Association of U. S. Army.

ing the American education system. The Chamber, therefore, raises these questions:

Who will determine the "where" as well as the methods and equipments to be used in going there?

Shall we have more private implementation of publicity planned and financed programs of education and training? If so, to what extent will states and communities, and their respective school boards, reassert their powers to set priorities among the myriad Federal aids offered to them.

Will the school boards have the research -- and the courage to use it -- in choosing only those programs appropriate to their citizenry and the culture of their region?

Will state and local authority to make policies and evaluate results continue or will the headless - horsemanlike multiplicity of Federal programs, with their billions of "free" dollars and their new cost-benefits system of allocation and accounting dominate the diverse developments in education of the next decade?

These are questions on the future of public education which the National Chamber says should be the concern of every citizen.

The 4,500 college coeds who make up 130 Angel Flight units are dedicated to promoting interest in the Air Force ROTC program.

### Registration Changes At PV

The registrar's office extends to the Prairie View Student an invitation to participate in a new registration procedure scheduled to go into effect with the second semester. The new procedure is one that is used at most major colleges and universities, and is designed to overcome most of the problems encountered in past registrations. Generally, the first time any new procedure is initiated, a few mishaps occur; thus, we ask for your wholehearted support and unwavering sympathetic patience if things do not go as smoothly as expected. Paraphrasing the slogan of a well-known national concern, we're trying harder to do better.

The basic change in the registration procedure is that instead of the student giving a class ticket to a department for the course in which he is enrolling, the department will give the student a class ticket. After receiving his class tickets from the departments, the student then WILL WRITE ON HIS ASSIGNMENT CARD, AND THE INFORMATION CARD THE COURSES HE HAS CLASS TICKETS FOR. BEFORE LEAVING THE NEW GYM THE STUDENT WILL LEAVE HIS MATERIAL.

The above diagram shows the flow of registration. You will, as usual, have your trial schedule approved in the departmental offices. Departing from past practices, you will not execute

your assignment card and information card until you have received your class tickets from the departments. THE CLASS TICKETS MUST BE LEFT WITH THE REGISTRAR'S REPRESENTATIVES IN THE REGISTRATION AREA, for a student is not enrolled in a class unless the registrar can certify such.

We ask that you study the above diagram and remember that you are NOT TO WRITE ON THE ASSIGNMENT CARD AND THE INFORMATION CARD UNTIL YOU REACH (5).

We hope that this registration finds the students and the registrar's office true PARTNERS IN PROGRESS.

## A. S. C. E.

The Prairie View Student Chapter of the American Society of Civil Engineers in December held its annual Student Chapter Contest. The participants were Albert Foy - Civil Engineering, Willie Lott - Architectural Engineering, Paul Smith - Architectural Engineering, and George Williams - Architectural Engineering. The two top winners in the paper contest were Albert Foy first prize; George Williams, second prize; and Paul Smith won the third prize.

The judges for the contest were Mr. C. K. Andoh, Assistant Professor in Architectural Engineering, Mr. C. T. Luke, Assistant Professor in Civil Engineering; Dr. R. S. N. Rao, Professor in Civil Engineering; Mr. Ernest Williams, representative from the English Department; and Mr. John Calvin Williams, Professor in Animal Husbandry.

Albert Foy and George Williams will represent Prairie View at the January 17th Meeting of the Houston Branch of A. S. C. E. along with the student representatives from Rice University and the University of Houston.

Reporter, Mary Anderson

## All-American City Club

Hello fellow Panthers, this is the All American City Club, Fort Worth, ringing in the New Year loud and clear.

First, the members of AACC would like to take this opportunity to wish each of you a prosperous New Year. We sincerely hope that good resolutions were made for the new year.

Second, the members of AACC have made two important resolutions for the upcoming year. First, each member resolves to always conduct himself in such a manner that will reflect the dignity of AACC. Second each member resolves to continue to strive to make AACC the greatest club on campus.

On December 23, 1966, AACC sponsored a holiday party at the new Palm Club in Fort Worth. None other than the famous Blue Flame supplied the music for the merry event. Guests of the evening were former Prairie View students and old friends from Southern University, Huston-Tillotson, Los Angeles City College, North Texas State, Texas Southern, Texas A&M University and numerous other colleges.

Again, we wish each of you the very best in the coming year. Adios amigos.

President: Sherman Williams  
Reporter: Evonne A. Jackson

Approximately 2700 high school students are currently enrolled in the new Air Force Junior ROTC program.

## P.V.S.I.E.A. Bridge Club

The first instructional session of the P. V. S. I. E. A. Bridge Club was held in the "Sky Room" December 13, 1966.

Instruction was based on general rules applied to bridge, point system, how to value your hand, bidding, and other important aspects related to beginning bridge. The "Standard American" - the system used by more than fifty million bridge players throughout the Western World is used as a basis of instruction.

Mr. Harden Jones, head of the Department of Metal Technology in the School of Industrial Education and Technology, is the instructor of the bridge class. Mr. Jones used media such as the overhead projector, handout materials and latest booklets on the art of bridge. After the theory session, those in attendance, put into actual practice what had been taught.

A bridge tournament is to be held in the spring; individual trophies for each member of the team and a sectional trophy to the section winning the tournament will be presented at the P. V. S. I. E. A. Convention, May 5-6, 1967.

The objectives for the bridge class are:

1. To develop the social qualities of the students to participate in community bridge clubs.
2. To develop the ability of students to jointly participate in activities with a common interest.
3. To convey the knowledge of bridge and ability to play good bridge.

The bridge club was initiated by the technology section of the P. V. S. I. E. A. Organizational structure of the bridge club consist of the three sections of P. V. S. I. E. A. comprising of presidents from the sections. Miss Thelma Hall is president of teacher education; Mr. Charles Strahan, from industrial technology, and Mr. Jimmy Moye from technical education. Mr. H. L. Jones is the sponsor.

## Marlin PV

The members of the Marlin PV Club had a joyous time during their Christmas holidays.

On the 28th of December the club sponsored a party at the largest club in Marlin, "The Club Tropicana", for all college students of the city. The party was indeed a big success. The evening was full of fun and games.

The members of the club were congratulated for their generosity and their intellectual manner in carrying out this affair.

The club will have their first meeting for the year of '67 on the 9th of January. The president is asking all members to please be present at 8 p.m. in the Memorial Center.

President: John P. Smith  
Reporter: Alma Phillips

## KOB

A very happy New Year to all of you out there! We are sure each of you had a most pleasant Christmas Vacation. The Kappas certainly did, and now they are ringing in with more power for the year of '67.

Before we left for the holidays, our potentials presented us with a most delightful talent show. Their show was not much less than that of true professionals. Keep up the great work potentials!

We are now in the process of preparing for our annual fashion show, which all of you know is always supreme taste. So remember now, Keep your eyes on the Kappas, the group that is in during any season.

We know you'll be attending one of PV's main highlights of the year, the Coronation Ball. Yes, the time is here when our charming Miss Prairie View, none other than our own Club sister, Kappa Cheryl McIntyre will receive her crown. See you there!

Reporter-  
Kappa Romey Johnson

## Texarkana PV

Bonne Anne from the members of the Texarkana - PV Club. We are sure you had a very Merry Christmas and resolved to do nothing but Progress, Progress, Progress, in the field of success, of course.

We wish you the best of luck in '67 in all aspects of life and everything concerned.

Mav your knowledge go with you to your final examinations and you'll leave with the assurance of accomplishments.

Reporter, Odie Woods

## Symphony

# FISH-NET Co-ed

For Mid-Winter

The fish-net host highlights the mid-winter season. Fashionable, durable, easy to care for, these hose are prized by every co-ed.

Knitted in rectangular designs, the hose cling to the legs giving a look that is readily attracted by men. Co-eds simply adore their durability, which give them a life span beyond that of the regular stocking.

Fashioned in a multitude of beautiful pastels and bold colors, and rectangular designs of many sizes and shapes, the fish-netted hose can be worn with any casual outfit.

Wise co-eds select those colors and designs that best fit their personality and body type. Good luck Co-eds!

## Southern Students Lead in Peace Corps Volunteering

Southern college students are turning increasingly to Peace Corps service.

Visits this fall by Peace Corps recruiters to 82 southern campuses have resulted in more than 2,200 applications, twice the number received in a comparable period last year.

Southern schools account for a quarter of all college students but have provided less than 15 per cent of all Peace Corps Volunteers.

Peace Corps officials expect about 3,700 applicants from southern schools by next May, compared with 3,100 last year.

While an increase last year in Peace Corps applications from the South was occasioned by a jump from 200 to 1,800 among those applying from Negro colleges, the current surge of interest is in mostly white universities.

With 60 predominantly white colleges yet to be visited during winter and spring, 1,383 students — 83 more than applied during the entire 1966 academic year — have completed Peace Corps Questionnaires at 48 schools.

Negro colleges this fall accounted for 820 applicants, thus maintaining the pace set last year when the Peace Corps made its first concerted effort to recruit southern Negro students.

Recruiting officials are uncertain of what factors are most responsible for heightened interest in the Peace Corps among southern students.

Joseph Higdon, a 25-year-old

## Deaths

The Panther staff wishes to take this time out to acknowledge the deaths of the following persons:

Mrs. Erma Cole, Mother of Mr. Robert Cole, passed Monday, December 19, 1966. Funeral services were held Wednesday, December 21, 1966 at the Munger Avenue Baptist Church, Dallas, Texas.

Mrs. Bama E. Johnson, wife of Mr. E. J. Johnson, passed Monday, December 19, 1966. Funeral services were held Thursday, December 22, 1966 at Bethlehem Methodist Church, Hempstead, Texas.

Rev. A. L. Yancy, brother of Mr. C. D. Yancy, passed December 19, 1966. Funeral services were held Friday, December 23, 1966 in Bellville, Texas.

## Former PVite Works on Staff Of Temple News

Roscoe Harrison, Jr. was named the first Negro reporter on the Temple Daily-Telegram. Harrison has been employed as rewrite editor on the city desk of the Telegram.

Harrison formerly was employed at KTEM Radio in Temple and was the first Negro announcer there. While working at KTEM he was a sports announcer.

Harrison attended Temple Junior College, Prairie View A&M College, and is presently attending Mary Hardin-Baylor College in Belton.

He lives in Belton and is married to the former Sandra Kay Smith of Belton.

been released nationally.

While the objective of NAM's MIND project (Methods of Intellectual Development) is to develop inexpensive and efficient training and education programs for use in industry, this new course is an actual part of an applicant's job search, first helping him to decide, according to his needs and interests, what jobs to look for and how to look.

The course which also may be used in the classroom, according to the NAM, helps to develop the necessary skills for the interviews; how to dress; how to fill out application forms; what to take along. It also guides the job-seeker in assembling a "Job Search Kit" of materials for his own use and documents to show the prospective employer.

Eleven schools accounted for 40 per cent of all recruits during this fall's drive that concluded in early December. They are the University of Texas (134), Oklahoma State University (112), University of Maryland (87), University of Tennessee (87), North Carolina A & T (69), University of Oklahoma (68), University of Miami (65), University of North Carolina at Chapel Hill (63), Jackson State (Miss.) College (62), Texas Tech (60) and Virginia State College at Petersburg (60).

Peace Corps recruiting resumes across the nation after New Year's. In the South, visits are scheduled through May at 104 colleges.

The Peace Corps has continued to expand its recruiting efforts to meet the growing demand overseas for Volunteers. An "in-put" of more than 10,000 trainees is planned for the coming year.

About 12,000 Volunteers are serving in 52 countries. More than 15,000 are expected to be working in about 60 nations by the end of 1967.

The new two-year Air Force ROTC program is designed to provide greater flexibility in meeting the needs of students interested in getting Air Force commissions.

PV'S PRIZE WINNING VOCALISTS — Six Prairie View A&M music students received high ratings for their performances in regional auditions held by The National Association of Teachers of Singing at Oklahoma University recently. They are (L to R) Mary Hunter, Soprano; Richard Perkins, bass (certificate and Cash award); Shirley Vaughn, soprano; Kenny Arnold, tenor; Joan Holbert, soprano; and Bob Duckens, bass.

NOTE: All examinations are to be given at the time scheduled. In case of conflicts in the schedule, please notify the Registrar.

Tennessean and former Volunteer in the Philippines who directs recruiting in the 15-state area from Texas to Maryland, sees the increase, in part, as a result of improved educational standards in southern colleges.

Higdon also points to a "general youthful discontent with the old ways of thought now evident throughout the country." He believes the use of re-

turned Volunteers as recruiters has significant influence in drawing students to the Peace Corps.

"We have southerners talking to southerners," he says, referring to the assigning of former Volunteers to recruit in their home regions.

More than 3,000 southern Volunteers had served overseas as of June 30 1966 out of a total then of about 21,000. Texas,

## Two PV-ites Lead In American Football League

Two of Prairie View's great football players made the AFL All-League football team. They are Clem Daniels, halfback (of 1958 PV National champs), who made the starting 1st offensive halfback position. Otis Taylor flanker back (of 1963 and 64 PV National champions) who is on the second offense team.

Clem Daniels is the 2nd highest ground gainer in the American Football League with 875 yards gained this year.

Otis Taylor is fifth in pass reception in the American Football League. He has over a thousand (1,000) gained this year on pass receptions.

## PV Places Three On All SWAC Team

Alonzo Wallace, center, Kenneth Horton, lineback, and Richard Johnson, a back, have been named on the All-Southwestern Conference 1966 football team.

Wallace is listed on the offense team, and Horton and Johnson are on defense.

Prairie View, T. S. U., Jackson, and Arkansas A. M. & N. placed three men each on the 25-man squad. Grambling, co-champs with Southern, put six players on the squad. Southern placed four.

### OFFENSE

Ends — Rhone Nixon, Southern University; Charlie Joiner, Grambling College; Harold Jackson, Jackson State College.

Tackles — Norman Davis, Grambling College; Tommy Funchis, Jackson State College.

Guards — Willie Tate, Arkansas AM&N College; Clarence Powell, Grambling College.

Centers — Alonzo Wallace, Prairie View A. & M.; Larry Metevia, Grambling College.

Quarterback — Joe Williams, Southern University.

Halfbacks — Willie Ellison,

## Golf and Tennis Teams Ready To Defend Titles

The two talented teams are getting ready to defend their titles for 1967, says Golf and Tennis Coach, M. L. Epps. Both golf and tennis teams are Southwestern Conference Champions and are preparing to defend this highly sought after prize. The captain of the golf team is Curtis Carter and co-captains are Alfred Vaughn and Leonard Jones. PV golf team won the SWC last year by a whopping 42 strokes. The team averaged 73.6 last year. Coach Epps says the golfers are talented enough to shoot a 72.0 average this year, which is even par (look out University of Houston).

The golf team is composed of juniors, sophomores and freshmen, which makes PV hard to beat for the next 3 years.

The PV tennis team will be led by very stable captain Robert Batteaux and co-captain Benjamin Wright.

The Panthers won the SWAC with a clean sweep last year (66), and finished 5th in the National Tennis Tournament which was composed of 55 teams.

Coach Epps expects strong competition from TSU and Arkansas. He says his troops will be ready for all comers.

CLEM DANIELS — Halfback Oakland Raiders.

Texas Southern University; Charles Williams, Arkansas A. M. & N. University.

Fullback — Charlie Barnett, Arkansas AM&N College.

### DEFENSE

Ends—Al Beauchamp, Southern University; James Todd, Grambling College.

Tackles — Charles Stredit, Wiley College; Tom Walker, Texas Southern University.

Linebackers — Pete Barnes,

## Cage Team Back On Hardwood After Holidays

Panther cagers have returned to the hardwood following the holiday break.

Coached by Leroy Moore, the team had a 5-3 record before leaving Wednesday morning on a tour that takes them to Southwest Missouri State (Jan. 5) and to Arkansas AM&N in Pine Bluff (Jan. 7). The Lions are presently in the top ten in the nation in scoring (110.9 average).

The Panthers will meet the Wiley Wildcats in Marshall on January 9 as they swing back toward home. Both Arkansas and Wiley are conference games. On January 12, the Panthers will lock claws with the tough Jaguars of Southern University of Baton Rouge, Louisiana. They

Southern University; J. C. Williams, Alcorn A&M College; Earnest Callaway, Texas Southern University; Ken Houston, Prairie View A&M College.

Backs — Len Barney, Jackson State College; Robert Atkins, Grambling College; James Williams, Alcorn A&M College; Richard Johnson, Prairie View A&M College.

## Coach Epps Named Chairman Of Two N. A. I. A. Tennis Committees

Martin L. Epps, Prairie View A&M College Tennis Coach, has been appointed chairman of two National Association of Intercollegiate Athletics (N. A. I. A.) tennis committees.

He is national chairman of the membership committee of the NAIA Tennis Coaches' Association and also Tennis Committee chairman representing the NAIA for District 30. Both appointments are for three year periods.

Coach Epps has served for some time as chairman of the Golf and Tennis committees of the Southwestern Athletic Conference. He represents the conference as a member of The American Tennis Association's Intercollegiate Committee.

Prairie View Tennis Teams coached by Epps won the Southwestern Conference Championship in 1964, 1965 and 1966. The 1966 team was ranked fifth in the nation during the NAIA tournament in Kansas City,

will follow in a very tough encounter with a tall and talented Jackson State College basketball team here on January 14.

The Panthers will be ready.

MARTIN L. EPPS — plenty of championships.

Missouri.

Epps' golf teams won the conference title in 1964 and 1966. His 1966 team finished in the top twenty in the nation in the NAIA meet held last Spring in Shawnee, Oklahoma.
