Board Approves \$10.4 Million PV Budget

A record \$10,040,160 operating budget for Prairie View A&M College was approved Tuesday by the Texas A&M University System Board of Directors for the fiscal year beginning Sept. 1.

The board also appointed Dr. Alvin J. McNeil dean of Prairie View's School of Arts and Sciences and Dr. R. W. Lewis associate dean of agriculture.

System officials noted Prairie View's 1968-69 allotment of funds represents an increase of \$1,779,118 over the current operating budget.

Dr. McNeill, whose appointment is effective Sept. 1, is currently head of the Social Sciences Department at Grambling State College. He has been associated with the Louisiana school 10 years and previously taught

and directed the extension services at Mississippi Valley State College.

He succeeds Dr. T. P. Dooley who has asked to be relieved as dean.

Dr. McNeill received a bachelor of arts degree at Tennessee A&I State College in 1947, master of arts from Boston University in 1951 and doctor of education from the University

of Denver in 1960.

Dr. Lewis joined the Prairie View faculty in 1955 as professor of nutrition and biochemistry and has served informally in recent years as assistant to Dean of Agriculture G. L. Smith. He also served one year as acting superintendent of the institution's agricultural experiment station.

He earned his bachelor of sci-

ence degree at Prairie View in 1939 and master's and Ph. D. from Kansas State in 1952 and 1955 respectively.

The board formally accepted gifts totaling \$9,546 in behalf of Prairie View. Among the awards were \$5,000 from the American Society for Engineering Education, \$2,000 from Atlantic Richfield Foundation and \$1,000 from Continental Oil Company.

Faculty Meet and Freshman Orientation to Open Year

The 1968-69 academic year is scheduled to get underway on September 3 when the annual Faculty Conference begins.

Freshman orientation activities will begin officially on Saturday, September 7, the date scheduled for new students to arrive. A Parents Convocation will be held on September 8 and other orientation and registration activities will begin Monday, September 9.

The theme for both student and faculty opening programs is — "The Residential College Concept — with Implications for the Development of Prairie View A & M College." President A. I. Thomas will deliver the keynote address at the Wednesday morning session. He will speak on the subject, "Goals for Today and Tomorrow."

Registration for graduate students will begin on September 14, and upper class registration is scheduled on September 16-17. Classes will begin on September 18.

Visiting speakers for the faculty conference will include Dr. Eldridge Scales, director of research, Southern Association of Colleges and Schools, and Dorsey E. McCrory of Texas A & M University. Dr. Scales will discuss the college Self-Study Project and Mr. McCrory the "Citizens Study." Dr. J. B. Murphy will talk on the philosophy and organization of the NCATE Study, currently underway.

Entertainment for the faculty includes a Social Hour sponsored by President and Mrs. Thomas on Tuesday evening and a Western Supper on Friday following the last work session.

New Campus for Oceanography Planned by Texas A&M BOARD

Development of a 100-acre marine and oceanographic campus of Galveston's Pelican Island was announced Tuesday by the Texas A&M University System Board of Directors.

Board President L. F. Peterson of Fort Worth said construction of the campus, which will include A&M's Texas Maritime Academy, Marine Laboratory and other oceanographic installations, will begin within a year.

Peterson said the new facility is made possible through donation of land by George P. Mitchell of Houston, a \$1 million grant from the Moody Foundation of Galveston and \$500,000 provided by the 60th Texas Legislature.

The board also approved a record \$1,186,513 operating budget for TMA for the fiscal year beginning Sept. 1. The academy's 1968-69 budget represents an increase of \$396,472 over the current allotment.

A&M's new facility will be designated the Mitchell Campus in honor of the Houston businessman's parents, Mr. and Mrs. Mike Mitchell.

Mitchell, a 1940 graduate of Texas A&M, donated 40 acres individually and 60 acres through the Mitchell-Dobbins Land Corp., of which he is president.

The Texas Maritime Academy and the Marine Laboratory are currently housed in facilities at Galveston's Fort Crockett. The port city also serves as base for A&M's two ships, the "Texas Clipper," a 15,000-ton converted oceanliner used by TMA, and the "Alaminos," a 180-foot research vessel operated by the university's Oceanography Department.

AUGUST, 1968

Commencement Held Aug. 22

DR. FELIX C. ROBB
Commencement Speaker

Summer Commencement Exercises were held in Prairie View A & M College Field House on Thursday night, August 22, at 8:00 p.m.

The Commencement speaker was Dr. Felix Robb, director of the Southern Association of Sec-

ondary Schools and Colleges, Atlanta, Georgia.

He received the bachelor's degree from Birmingham Southern College, an MA degree from Vanderbilt University, and the doctorate from Harvard University. Dr. Robb previously served as president of Peabody College.

PV Expands Foreign Language Courses

In a continued expansion and improvement of its curriculum, Prairie View A. & M. College is proud to announce that beginning in September 1968, there will be offered major programs of study, in the Department of Modern Foreign Languages, leading to the B. A. degree in French and the B. A. degree in Spanish.

The Southern Association is the South's regional accrediting agency for elementary schools, colleges and universities. The Association concerns itself with the quality and improvement of education in eleven states from Texas to Virginia and with accreditation of overseas schools in Latin America. In addition to its basic function of standard-setting and accreditation, the Southern Association is an action agency sponsoring a variety of pioneering experimental and demonstration programs and services in education.

Approximately 250 students received bachelor's and masters degrees, diplomas and certificates. Several Army ROTC candidates were commissioned Second Lieutenants in the United States Army Reserves.

Dr. Alvin I. Thomas, president at Prairie View, awarded degrees and gave special recognition to outstanding graduating seniors.

Special religious services were held Sunday for the graduating classes. The Sunday worship hour speaker was the Reverend Shelby Rooks, Director of the Rockefeller Fund for Theological Education, Princeton, New Jersey.

Construction Projects To Be Completed Early in September

Several renovation projects across the campus are nearing completion and are expected to be ready for the beginning of classes in early September.

Residence Halls projects — including Alexander, Collins and Suarez will be ready when students arrive for the Fall term.

Renovating work also includes the college Library, Student Aids and Nursing Buildings.

University officials said the new campus also will figure A&M received a \$475,000 National Science Foundation grant in June for first-year operations.

prominently in long-range plans to develop a Gulf Coast marine resources program, for which

UH, Prairie View Grants Approved

The U. S. Office of Education has awarded grants totaling \$65,793 to two Texas universities for teacher corps programs to train 25 people at each school, Sen. Ralph Yarborough, D-Texas, announced Thursday.

The University of Houston will receive \$30,213, and Prairie View A&M, \$35,580.

Biology Depart. Acquires Aquarium

Recently, the Department of Biology acquired two very colorful aquaria which are useful in the teaching of zoology. One aquarium is a freshwater type and is stocked with tropical fishes of several types; the second aquarium is for marine (salt water) animals and plants and stocked with a large variety of invertebrates, such as anemones, marine worms, starfishes, and other interesting specimens. In addition to being useful in teaching and research, these aquaria provide an interesting display. The faculty and staff, students, and general public are welcome to view these two additions to the Department of Biology which is located on the second floor of the Harrington Science Building.

Airlines Have Advantage In Salary Cost

Why are passenger trains fast disappearing from the American scene?

William J. Quinn, president of the Chicago, Burlington and Quincy Railroad, summed up the situation with these words, "High operating costs."

To prove his point, Mr. Quinn disclosed the results of a recent study, comparing revenues and costs of a Boeing 727 jet plane and the California Zephyr during an average trip between Chicago and Denver.

The jet produces a profit of \$950, the train a loss of \$350.

The jet requires a crew of 6, the Zephyr 47. (A train crew averages a run of 150 miles).

Labor costs 16 pct. of the jet's expenses, 42 pct. of the train's.

Total expenses of the jet are \$2,500, for the train \$5,400.

The jet's passengers produce \$3,400 revenues, the train's 166

STUDENT AND FACULTY PLANNING SESSIONS — President A. I. Thomas is shown discussing two major projects with a Student group (above) and with faculty and students below. The Freshman Studies Program and Physical Improvements were topics of concern.

Army Cadets Complete Summer Camp

Ten of the 26 ROTC Cadets from Prairie View A&M College were recommended for the coveted title of Distinguished Military Student as a result of their outstanding performance during the 6-weeks ROTC Summer Camp at Fort Sill, Oklahoma. The Camp was conducted during

the period 12 June, 23 July, 1968 and 2327 Cadets participated. These Cadets represented 40 institutions from five states in the great Southwest.

The Cadets designated tentatively as Distinguished Military Students (DMS) are Cadets Arthur Aikin, Ronald Briggs, Danny Kelly, Milton Lynn, Nathaniel McClinton, Larion Ryals, Earlyn Sanders, Alvin Washington, Jesse Watson and Booker T. Williams.

Cadet Ronald Briggs was rated the most outstanding Cadet in his Platoon (39) cadets. Arthur Aikin fired the second highest score of all 2300 Cadets on the Train-Fire Rifle Marksmanship Course.

At the ROTC Summer Camp each student was afforded maximum opportunity to participate in an intensive period of practical, individual and small unit training. Cadets developed and demonstrated traits of Military Leadership. During the camp, emphasis was also placed on the development of the physical and mental characteristics of a Junior Officer.

The outstanding performance of the ROTC Cadets at Summer Camp resulted in 38% of our products being recommended for Distinguished Military Students, and exceeds last year's enviable record in which 36% of our students were so recognized.

The Distinguished Military Student Award is definitely an award of distinction. It symbolizes an elite class of military students who have been rated the best in their Military Science Class. It also symbolizes that these students have the qualities of being successful in the United States Army.

Some of the attributes of a Distinguished Military Student are: rating in the upper one-third of his Military Class, rating in the top half of his academic class and outstanding performance at the ROTC Summer Camp.

The performance of the Prairie View A&M College Cadets places the College's Army

Program in good standing with other ROTC Units throughout New Mexico, Oklahoma, Louisiana, Texas and Arkansas.

Let us join in and congratulate the Cadets and Staff of the Army ROTC Unit for the outstanding manner in which they represented Prairie View A&M College at the 1968 ROTC Summer Camp.

The deadline for entries is September 30, 1968. Awards will be presented at the AACTE Annual meeting, February 27, 1969.

Producing \$5,000.

Kerosene burned by the jet costs \$300, oil for the train \$500.

The jet's profit per hour is \$470, the train's hourly loss is \$20.

PV Officers Depart For Vietnam

The Staff of the Military Science Department (Army) at Prairie View A&M College will lose three officers before the beginning of the 1968-69 school year. Majors Clyde Cleveland, Maynard Brown and Marvin Kennedy are scheduled to attend U. S. Army Schools at Fort Benning and Fort Gordon, Ga., and Washington, D. C., respectively before departing for overseas duty in Viet Nam.

Maj. Brown is scheduled to depart for Viet Nam on August 20, 1968 while Majors Cleveland and Kennedy are scheduled to depart in September and October respectively.

Joining our Staff is Captain Joseph M. Hay, a 1962 graduate of Tuskegee Institute. Captain Hay hails from Jupiter, Fla. He is married and the father of two children.

AACTE Achievement Awards

The American Association of Colleges for Teacher Education sponsored a program of distinguished Achievement Awards for Excellence in Teacher Education. Now in its fifth year, the purpose of the awards program is to identify and honor programs in higher education selected by a distinguished panel of judges for outstanding contributions to the improvement of teacher education. The association makes the awards to encourage collegiate institutions to establish exemplary programs and to inform the American people about them.

The primary focus of the institute is on methods, techniques, and skills needed to make the transition from teaching pupils of one race to teaching in a multi-racial situation. Emphasis is being placed on pupils who have not had equal opportunity and who have not enjoyed full citizenship.

Scheduled for three-weeks (July 15-August 2), the Institute featured several special lecturers in the areas of psychology, sociology and educational methods and techniques, including techniques of motivating disadvantaged children. Speakers scheduled included — Dr. John L. Creswell, Dr. J. Don Boney, Professor of Education, University of Houston; Dr. Wm. Barron, University of Texas, Austin, and Marion Jacobs, University of Texas at Arlington.

Prairie View staff members who served as lecturers include Dr. J. L. Brown, director of Extramural Services; Dr. G. R. Ragland, professor of Sociology, and institute staff members C. A. Thomas, former principal at Midland, Texas; Harold Johnson, Counselor, Fidelity High School, Galena Park; Mrs. M. Carter, instructor, Lubbock

High School; Joe E. Smith, principal, Booker Washington High School Elementary School, Beaumont, and E. K. Downing, principal, Odessa, Texas.

Participants representing the six school districts were:

BRENNHAM — Mrs. Anna Bosse, James Cooper, Donald Crowson, Elmer Faykus, Lucas Hicks, Mrs. M. F. Mack, Henry Pettie, Jr., Henry Rogers, Jr., Harold Rudloff, and Coleman Stanfield.

HEMPSTEAD — Mrs. Clarice Callender, Mrs. Estell Creig, Mrs. Irma Ruth Crutchfield, K. R. Donison, Mrs. Edna Hammer, Mrs. Vivian Killian, Mrs. Nina Klingaman, Wallace Klingaman, and Mrs. Mary Jane Ragston, Mrs. Mernice M. Vincent.

MAGNOLIA — Mrs. Evelyn Fleming, Mrs. Ola M. Fulton, Mrs. Reber Hinton, Mrs. Constance Keathley, Mrs. Hazeltyne

and on to Windsor, Canada.

The return trip covered the New England States, Mid-Atlantic and Southeast.

A Canpont and final briefing was held for boys and their parents at Hudson Training Center in Houston prior to their departure.

Hadnot, a 1964 graduate of J. H. Howe High School in Jasper, will receive a bachelor of science degree in Civil Engineering from Prairie View A & M College in August 1968.

He is the son of Mr. and Mrs. Jack Hadnot of Route 2, Box 117, Jasper. He was cadet captain in the Reserve Officer Training Corps during 1968 at Prairie View A&M College and had also been active in the college chapter of the YMCA.

Among oil companies operating in the United States, Humble is the leading producer of liquid petroleum, crude oil, condensates, natural gas and natural gas liquids; first in the movement of crude oil and oil products by pipeline, by barge and by tanker; first in volume of oil refined; and first in volume of products sold.

CANTON, OHIO — The U. S. Air Force C-5 Galaxy recently unveiled by the Lockheed-Georgia Company is scheduled for test flights in June of this year. Gross weight of the Galaxy is 728,000 pounds. By using 28 Timken tapered roller bearing-equipped landing wheels under safe low tire pressure, this massive plane can utilize airfields classified for medium to heavy loads without causing any critical runway deterioration. Almost 85 yards long, it has a wing span of 223 feet and towers 65 feet into the air. Carrying a maximum payload, the C-5 Galaxy can cover 2,500 nautical miles in less than 6 hours.

Six Public School Systems Cooperate In College Desegregation Institute

Sixty teachers, counselors, supervisors and other administrative personnel from six public school systems participated in an Institute on Problems of School Desegregation being held at Prairie View A & M College.

Independent school districts represented include Brenham, Hempstead, Magnolia, Navasota, Royal and Waller. Representation was about equal on a racial basis and all are presently or plan to participate in implementing integration in their respective school systems.

The primary focus of the institute is on methods, techniques, and skills needed to make the transition from teaching pupils of one race to teaching in a multi-racial situation. Emphasis is being placed on pupils who have not had equal opportunity and who have not enjoyed full citizenship.

Scheduled for three-weeks (July 15-August 2), the Institute featured several special lecturers in the areas of psychology, sociology and educational methods and techniques, including techniques of motivating disadvantaged children. Speakers scheduled included — Dr. John L. Creswell, Dr. J. Don Boney, Professor of Education, University of Houston; Dr. Wm. Barron, University of Texas, Austin, and Marion Jacobs, University of Texas at Arlington.

Test Dates for National Teacher Exams Announced

College seniors preparing to teach school may take the National Teacher Examinations on any of the four different test dates announced today by Educational Testing Service, a non-profit, educational organization which prepares and administers this testing program.

New dates for the testing of prospective teachers are: November 9, 1968, and February 1, April 12, and July 19, 1969. The tests will be given at nearly 500

Lewis, Mrs. Orna Swann, John Wax, Mrs. Ruby Lee Williams, Willie Williams, and Mrs. Lou Lee Wood.

NAVASOTA — Mrs. Mary Cannon, Mrs. Tricie Drews, Mrs. Kathleen Goree, George Hall, Mrs. Florence Hardeeman, Shirlev Hartley, Mrs. Melvia Mitchell, Mrs. Katherine Reed, Mrs. Mary Jane Ward and Miss Loretta Williams.

ROYAL — Mrs. Mary Alice Boren, Mrs. Dorothy Griffin, Mrs. Ida M. Harris, Mrs. Eugene Matthews, Mrs. Eddie Mayberry, Mrs. Audrey Redd, Mrs. Lynda Sparks, Mrs. Belva Walters, Mrs. Valerie Wilson and Mrs. Ann Bostick Young.

WALLER — James Bowman, Mrs. Libby Brown, George Higgs, Mrs. Hattie Owens, Mrs. Bobbie M. Schultz, Wayne C. Schultz, Mrs. Eunice Sitton, Mr. James C. Turlington, Mr. Nolan Ward, and Mrs. Dorothy Williams.

locations throughout the United States, ETS said.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations. The school systems and state departments of education which use the examination results are designated in the Bulletin of Information for Candidates.

On each full day of testing, prospective teachers may take the Common Examinations, which measure their professional preparation and general cultural background, and a Teaching Area Examination which measures mastery of the subject they expect to teach.

Prospective teachers should contact the school systems in which they seek employment, or their colleges, for specific advice on which examinations to take and on which dates they should be taken.

The Bulletin of Information for Candidates contains a list of test centers, and information about the examinations, as well as a Registration Form. Copies may be obtained from college placement officers, school personnel departments, or directly from National Teacher Examinations, Box 911, Educational Testing Service, Princeton, New Jersey 08540.

EDITORIAL Comment

Still A Problem:

Integration will be back in the spotlight when schools reopen next month. Reason: More Negroes will attend segregated schools in the fall than before the U. S. Supreme Court's 1954 decision declaring segregation unconstitutional. The matter is of deep concern to the Department of Health, Education and Welfare, which is working closely with the Department of Justice to bring greater integration to schools in both the North and South.

One major action: The Justice Department is moving to compel school districts in nine Southern states to take steps to mix more whites and Negroes in classrooms by replacing "freedom of choice" plans with pupil-assignment measures. Under freedom of choice — in effect in about 90 per cent of Southern schools — pupils are allowed to attend any school of their choice, provided there are vacancies. U. S. officials believe pressure is brought on Negroes to keep them from applying to white schools.

Another target: Northern "neighborhood" schools, which create de facto segregation by requiring students to attend schools in their own neighborhoods — usually either predominantly white or predominantly Negro. In the first judicial test of Northern de facto segregation the government won a court order which will require the South Holland, Ill., school district to integrate its six elementary schools, beginning next month and to be completed by 1969.

Student Involvement

College and university administrators, anxious to turn the student's voice from dissent to decision, are rapidly reaching out to include students in campus policy-making. The trend to increased student involvement at the policy-making level has accelerated dramatically in the past year, though some institutions have for many years actively sought student participation at the policy-making level.

Indications are that, in the future, students on many state university campuses will be limited in participation primarily by their own degree of interest and willingness to share responsibility. If proliferation is the yardstick for measuring success in this area, then college and university administrators have indeed found previous student involvement to have been beneficial and worthy of repetition.

Throughout the nation students at state and land-grant universities are being given the opportunity to study and help solve the complex problems of providing quality higher education. The University of Kentucky helped make history in this area by recently announcing the appointment of a student to its Board of Trustees. At the University of Houston the student body president has accepted an invitation to serve on an advisory committee which will aid President Philip G. Hoffman in the selecting of a new vice president and dean of faculties.

MAJOR TOPICS:

Bringing Up Children, Family Life, Public Education

Except for men's "thing" about professional sports and the Federal government and women's obsession with clothing and fashions, consumers (men and women) talk most about bringing up children (69 percent women, 43 percent men); family life (58 percent women, 36 percent men); religion (52 percent women, 41 percent men), and public education (43 percent women, 39 percent men). The findings of two Harvard professors are based on 3,382 depth interviews made on behalf of the American Association of Advertising Agencies and appear in *Business Week*, July 20. As for what needs change the most: public education (41 percent women, 40 percent men.)

Letters To The Editor

Dear Sir:

My Mother, Mrs. Aquilla Hicks White, was a member of the Prairie View graduating class May, 1916. At the time she lived in Dallas, Texas. After graduation she taught two (2) years in the Dallas School System. She moved to Chicago where she married my father, Harold L. White, also previously of Dallas. Mother accompanied me here while I served this Summer as visiting professor in Special Education. My regular job is teaching Mentally Handicapped Children in Chicago Public Schools.

Now that Mother is in her golden years any honors I can bring to her would bring great happiness to her. She had fond memories of PV and loves being here.

If this can not be done, or you have met a deadline, I certainly understand.

I might add Mother and Daddy celebrate their 50th Marriage Anniversary October 5, 1968, thanks to our Lord's goodness.

May I also state I love Prairie View! It has been a gratifying memorable experience. I hate to see August 23 come.

Sincerely,
(Mrs.) Jacquelyn Prince

Odds Are Given On Having Your Tax Return Examined

There is one chance out of 124 your place of business will be field audited, if you file a 1040 income tax form, according to Mrs. Doris Myers, Extension home management specialist at Texas A&M University.

The Commissioner of Internal Revenue reported to the treasury secretary on its 1967 activities saying this number compares with one out of 121 chances in 1966.

For the Internal Revenue Service to audit your tax form in their office, the chances are one out of 30 compared to the previous rate of one out of 26.

The specialist noted that more individual returns showed mathematical errors than in fiscal 1966. Errors in favor of the taxpayer averaged \$87, compared to \$63 in favor of Uncle Sam. The previous year was \$91 to \$58.

But it doesn't seem to pay to go to court, says Mrs. Myers. In the Tax Court, decisions during fiscal '67, the treasury won 2830 cases, while taxpayers were victorious in only 77.

Expression of Thanks

I would like to take this means of expressing my deepest appreciation to members of the faculty, staff, students and citizens of the community for the thoughtfulness expressed and assistance given to my family in our recent hour of bereavement.

Alvin Coleman
Biology Dept.

It now looks as though the taxpayer will be the first of America's natural resources to be completely exhausted.

Freshman Studies Program To Begin at Prairie View

Early in the Fall of 1966, Prairie View A. and M. College began the identification of the concept of its role as a "residential college."

The "residential college" concept envisions the integration of residence living with the instructional program, rendering the totality of college life for students as an on-going learning experience. The formulation of ideas relating to the Freshman Studies Program has emanated from the need for a next step in the growth and development of the residential college and the ubiquitous desire to improve instruction.

President Thomas Commissions A Study

In June, President Thomas assigned to Dr. Robert Hughley, who rejoined the faculty after a one year absence, the task of conducting a survey to seek information relative to freshmen studies programs, basic education programs, and other creative, innovative and exemplary practices and programs at the lower division level. Dr. Hughley is seeking information from selected colleges and universities, and he is reviewing the literature and

DR. ROBERT HUGHLEY

interviewing staff members and students for answers to the several questions.

Meat cooked at low to moderate temperatures is generally more tender, juicy and flavorful than that cooked at higher temperatures. In addition, there is less loss through evaporation, shrinkage and drippings.

Wedding Bells

A large number of PV students hit the marriage circuit over the summer. The list of newly married PV-ites include the following:

Carolyn Marie Owens and Carl Westbrook, II, August 3, at Church of St. Martin De Porres, Prairie View, Texas.

Elizabeth Annette Caldwell and John A. Young, August 17, Naples, Texas.

Dorothy Marie Johnson and Sgt. Willie Wells, III, July 13, at Pilgrim Baptist Church, La Marque, Texas.

Alice Marie Walker and Percy L. O'Neil, July 20, at Antioch Baptist Church, Waco, Texas.

Majorie Payne and Wilburn Young, August 31, New Hope Baptist Church, Waco, Texas.

Claudette Williams and Irving Quay Hurdle, II, June 22, St. Thomas Catholic Church, Huntsville, Texas.

ROTC NEWS

NAVY OFFICERS VISIT NASA — Ensign Hagerty, Capt. Brady, Astronaut Shepard, Lt. Mabie and Mrs. Brady at NASA Headquarters in Houston during the Prairie View NROTC Unit's tour through NASA Training Facilities on 31 July. Capt. Alan Shepard, USN, the first man to penetrate outer space, is now a head consultant with NASA's astronaut program. Capt. Brady commands the NROTC Unit at Prairie View A&M College, Lt. Mabie is a guest instructor from Cornell University teaching Prairie View's Naval Science Institute Naval Orientation and Sea Power Courses. ENS Hagerty is a graduate of the Harvard NROTC Program and is assistant instructor in the NROTC's Naval Science Institute at Prairie View this summer.

Capt. Shepard is shown with (L to R) Midshipmen 2/C Tarver, Brewer, Locke, Ealy and Bell during the recent NROTC tour of the National Aeronautics and Space Administration facilities in Houston. MDN Locke, from Harvard, is currently assisting Naval Science Institute instructors at Prairie View this summer. The remaining midshipmen are NSI students from Prairie View.

The Army ROTC Program

Prairie View, August 13 — All mentally and physically fit young Americans have an obligation to contribute to our National Defense. Under the Reserve Forces Act, however, there are alternate methods of fulfilling this obligation.

Whether or not a student elects to participate in ROTC, he will in all likelihood be able to defer his military service until after graduation. It is the manner in which he then meets the obligation that ROTC makes an important difference.

Army ROTC is currently offered at some 247 colleges and universities throughout the United States and its territories to provide Army Officer training. Prairie View A&M College, Prairie View, Texas, is included among the institutions offering a Senior Division Program for this purpose. Under this program at Prairie View, a General Military Science Curriculum is in effect, preparing cadets for commissions in all branches of the Army respectively to their major and minor fields of academic endeavor.

Whether a Student plans to attend one of the many colleges and universities that offer Army Officer training, or not, he should know how Army ROTC can benefit him now and in the future.

The Army Reserve Officers Training Corps (ROTC) is an On-Campus program designed special qualities in college men — qualities that can help to make you a success as an Army Officer or in a civilian career.

ROTC training is really a program of learning to organize and direct others — to be a leader. Consider how important this ability can be to students throughout life; yet, to acquire it they will spend relatively little time in the ROTC classroom. The Basic Course, during freshman and sophomore years, requires only about three hours of work per week. The Advanced Course, during the final two years of College, takes about

five hours of study each week plus an interesting summer camp between the junior and senior years. In addition, there are many extracurricular activities which enhance prestige on the campus and provide for maximum leadership development.

As a provision of the ROTC Vitalization Act, of 1964, Prairie View A&M College provides both an ROTC four-year program and a ROTC two-year program.

The ROTC Student gets valuable junior management experience . . . a fuller and richer campus life . . . extra spending money (\$50 per month during summer training) . . . and, when he graduates, an Army Officers' commission as a Second Lieutenant.

Many class leaders in high schools throughout the country consider ROTC the smartest way for college men to approach military service. Participation in the ROTC four-year scholarships under the ROTC Scholarship program. The Distinguished Military Student — Distinguished Military Graduate program, a competitive program, permits outstanding ROTC students to apply for a Regular Army Commission immediately upon graduation from college.

After graduation, ROTC students are assigned positions of responsibility which take full advantage of their college education and leadership training. A ROTC graduate may delay his active military service to pursue a filled time course of instruction leading to an advanced degree. Officers, especially those who have backgrounds in scientific and technical fields, may qualify for graduate study at government expense after they enter active service.

To find out more about Army ROTC, specifically at Prairie View A & M College, write to the Professor of Military Science, Prairie View A & M College, Prairie View, Texas 77445.

PV-ites in Service

Major James R. Dickey, recently returned from service in Vietnam, has been appointed assistant professor of military science at the University of Cincinnati.

In Vietnam Major - Dickey was with the 7th Support Battalion, 199th Infantry Brigade Separate. He was brigade maintenance officer and was awarded the bronze star for meritorious service.

Major Dickey is an ROTC graduate with a bachelor of business administration degree from Prairie View A&M College in Texas. Before his service in Vietnam he was an instructor at the U. S. Army Ordnance School, Aberdeen Proving Ground, Maryland.

Army Reserve Major Reginald W. Carrington, son of Mr. and Mrs. Leroy Carrington, 3905 Crozier St., Dallas, Texas, was graduated August 3 from the officer course at the Command and General Staff College, Ft. Leavenworth, Kan.

The course, which was attended by members of the active Army, Army National Guard and Army Reserve, was conducted over a five-year period.

Airman First Class Harvey L. Tutt, son of Mrs. Kittie R. Tutt of 506 Jackson St., Teague, Texas, has been graduated from

a U. S. Air Force technical school at Sheppard AFB, Texas. He was trained as a telephone installer repairman and has been assigned to a unit of the Air Force Communications Service at Barksdale AFB, La.

Floyd Evans, Jr., son of Mr. and Mrs. Floyd Evans, Sr. of 1817 Fifth St., Richmond, Calif., is attending the Air Force Institute of Technology (AFIT) at Wright-Patterson AFB, Ohio.

Mr. Evans has entered a 21-month curriculum leading to a master of science degree in aerospace - mechanical engineering. The course provides military officers and selected key government civilian personnel a broad theoretical background in aeronautical engineering with particular emphasis on space study and advanced areas of mechanical engineering.

The program is conducted by AFIT as part of the Air Force's professional military education system.

Army Reserve Major Elsworth Locus, whose mother, Mrs. Vera Locus, lives at 5409 Fletcher St., Fort Worth, Texas, completed a command and general staff officer course at the U. S. Army Command and General Staff College, Ft. Leavenworth, Kan., July 6.

DEATHS

Mrs. Margaret Coleman, Staff member of Data Processing and wife of Mr. Alvin Coleman, Science Department, died on August 5. Funeral services were held at Singleton Funeral Home, Hempstead and Boals Funeral Home in Westport, Maryland.

Mrs. Lillian Thomas, Mother of Dr. Alvin I. Thomas, President of the College, died on August 13. Funeral services were held in New Orleans, La.

Mr. Henry Mathis, father of Mr. Emmitt Mathis of the Science Department. Funeral services were held on August 14 at Mt. Corinth Baptist Church, Hempstead.

The U. S. Employment Service has developed aptitude tests for more than 500 different occupations. Matching the qualifications of individual workers to the requirements of specific job openings is the most challenging of the many tasks performed by the 2,200 Federal-State public employment offices.

PLANNING MOVIE — PV Staffers go over plans for making a promotional movie for the college with a representative of KHOU-TV, Houston.

Foundation Aids Education of Negroes

The Ford Foundation today announced grants totaling \$4.1 million for a variety of programs for the higher education of Negroes, both in predominantly Negro and predominantly white colleges and universities. They range from efforts to strengthen institutions across-the-board to special attention to

fund-raising, student relations, business procedures, library services, faculty education, and administration.

The grants represent a continuation and diversification of the Foundation's support for Negro higher education, for which some \$30 million has been granted since 1963. The Foundation's current objectives are two-fold: first, to help increase higher education opportunities available to Negro youth, who are now not only segregated but under-represented; second, to

find ways to improve the quality of the education Negroes receive after they get to a college, whatever its composition and support — black or white, private or public.

Prairie View A&M College received \$16,715 for Faculty Study grants.

Teacher Corps Begin Third Cycle Program

After two successful years, Prairie View Agricultural and Mechanical College Teacher Corps is initiating its Third Cycle Program September 9, 1968. The aim of the Corps is to train promising college graduates in special methods in reaching and teaching disadvantaged children. All applicants with bachelor's degrees in any area will be considered regardless of race, religion, sex or national origin. The Teacher Corps program is a two year program that will result in certification for the interns plus a Master of Education degree. Corpsmembers will receive year-round financial support.

During the past two years the Teacher Corps has worked with great success within a one-hundred mile radius of Prairie View Agricultural and Mechanical College in Texas school districts and communities.

Applications for the Third Cycle Program should be made immediately to the Director, Teacher Corps, Drawer T, Prairie View, Texas 77445.

Former Student Heads New Division of Rockwell Corp.

The formal opening of NARTRANS, a new subsidiary of North American Rockwell Corp. to hire the so-called "hard-core" unemployed, took place today when top company executives welcomed an initial work force of 125 production employees to the plant site at 531 Mateo St. in Central Los Angeles.

NARTRANS employment is expected to increase to 175 by August, and the subsidiary plans to hire an additional 225 persons during the next 12 months.

Employees, drawn from people normally considered unemployable by industry, will perform machine shop operations, drafting, typing and key punching, and will produce plastic bags, shipping pallets and crates.

President of the new company is Elmer P. Wohl, vice-president - Administration, for North American Rockwell's Aer-

ospace and Systems Group, and the general manager is Robert C. Robinson, a graduate of Prairie View A&M, a space engineer who worked on the Saturn V launch vehicle, and a former U. S. Army pilot.

Work performed at NARTRANS will be contracted from North American Rockwell's five Southern California divisions. When employees reach a minimum level of skill, they can move to better jobs at these divisions, remain at NARTRANS, or go to other companies.

In addition to on-the-job training, employees will be offered remedial training in such things as reading, arithmetic, and office practices. They will be hired initially through the Concentrated Employment Program of the California State Employment Service. Starting wages are \$2 an hour with maximum rates set at \$2.35 to \$2.50 per hour.

PV Grad Earns A Second "First"

An alumni of Prairie View A and M College and who became the first Negro Texan to be employed as a sales representative for the New York Life Insurance Company in 1966 has become the first of his race to be appointed an officer in the redesignated 446th Tactical Airlift Wing (formerly the 446th Troop Carrier Wing) here.

He is George O. Hudspeth, 35, who received a B. S. degree in industrial technology in 1958 and M.E. degree in school administration in 1965. He was appointed captain (reserve) under the "Outstanding Reserve Airman Appointment Program" effective June 17. His new assignment is as group training officer of the 924th Tactical Airlift Group.

Hudspeth enlisted in the Air Force in 1950, and held the rank of staff sergeant when he received an honorable discharge June 7, 1954. He enlisted in the Air Force Reserve Program here the same year. He was a master sergeant, with duty as education and training superintendent before his appointment.

A native of Hempstead, he completed the 10th grade at Sam Schwarz High School there when he ran track two years. He completed his secondary education at Central High School, Galveston, in 1950.

After his active duty service with the Air Force, Hudspeth attended Prairie View.

Hudspeth taught industrial art and mathematics at Dunbar Junior High School, Beaumont, for eight years and was assistant principal at the same institution one year.

He became a sales representative for the New York Life Insurance Company in 1966. In 1967 he was named "Man of the Month" five months. He has also been awarded the Centurion Award for insuring more than 100 persons.

PV-Grambling To Meet In Washington D.C.

TWO REMAINING — Quarterbacks Dearion and Shaw (left) are not returning, but Bivian Lee and Robert Hamilton will be top candidates for the key positions.

Final arrangements have been made with the sponsors of the "DC Classic" for Prairie View and Grambling to meet in Washington, D. C., on October 5, according to announcements from College Athletic officials.

The game would normally have been scheduled at Prairie View. The move was decided by officials mainly because of the National publicity involved. The Grambling Tigers are also scheduled to play in New York City this Fall. Their game with Morgan State has created great interest in the nation's largest city, it is reported.

Prairie View's homecoming is

set for November 2, with Mississippi Valley as guests. A Band Day and Dad's Day have been added to the local schedule.

For the first time in thirty-odd years, the Panthers will not play in the Cotton Bowl at Dallas. The college will sponsor its annual game with Bishop in Dallas, but on Saturday night in another stadium.

PV will be host in Houston when the Panthers meet Texas Southern. The November 23 date was already scheduled at the Domed Stadium, so a definite playing site is still under consideration, probably at Rice Stadium.

1968 Football Schedule

- Sept. 21—*Jackson College (N) Jackson, Miss.
 - Sept. 28 —*Southern University (N) Baton Rouge, La.
 - Oct. 5—*Grambling College (N) Washington, D. C. (D. C. Classic)
 - Oct. 19—Bishop College (N) Dallas, Tex.
 - Oct. 26—*Arkansas AM&N Here (Dad's Day)
 - Nov. 2—Mississippi Valley Here (HOMECOMING)
 - Nov. 9—Allen University Columbia, S. C.
 - Nov. 16—*Alcorn College Here (Band Day)
 - Nov. 23—*Texas Southern Univ. (N) Houston, Tex. (PV Host)
 - Nov. 30—*Wiley College (N) Marshall, Tex.
- *Conference Games (N) Night Games

Returning Lettermen

James Mitchell, Nolan Bailey, Charles Williams, Co-Captain, Richard Lewis, Claude Harvey, Clarence Jones, James Bagby, Sam Adams, Clarence Williams, Glenn Wood, Jesse Hatton,

Johnny Jernigan, Robert Jones, Robert Hamilton, Lee Von Spencer, co-captain, Frank Perry, John Benton, Kenneth Martindale, Otis Pointer, Uriel Johnson, James Bodley, Leon White, Finnis Taylor, Richard Johnson, Otto Brown.

Newcomers To Panther Squad

Football players entering the college for the first time include sixteen men, half of which are from out-of-state.

The list of newcomers include David Barnes, Perry Chaney, Gary Hendrix, Leslie Hundson, Luther R. Hudson, David Jefferson, Alfred Johnson, Clarence Johnson, Paul Kearney, Allen Merchant, Floyd Preston, James Simmons, Jerry Wallace, Jessie Webb and Donald Wesley.

while he is still receiving assistance from a scholarship period. If a student works during the summer months or part time during the school year, and earns \$1,680 or less for the year, he can still collect all of his social security benefits. If his earnings go over \$1,680, he gives up some or all his benefits, depending upon the amount of his total earnings and how steadily he works."

Mr. Bowers added that a 1967 change in the dependency requirements for the children of women workers added about 175,000 more young persons to those eligible for payments.

Today's average American, who "eats out" every fourth meal, will by 1975 be taking one in every three meals away from home. To staff the growing food service industry, 2.5 million new employees will be needed in the next ten years, according to a survey by the U. S. Department of Labor.

Any student in the 18-22 age group whose mother is deceased, disabling, or retired after earning social security coverage, should visit his social security district office as soon as possible, suggested Bowers. The Houston office is located at 515 Rusk Avenue, CA 8-0611.

MEET THE CHALLENGE!

SERVE WITH PRIDE IN THE NATIONAL GUARD

Former PV Editor Receives Degree

Marjay Anderson, a 1966 graduate of the College with a major in biology, was recently awarded the Master of Science degree by Howard University. Miss Anderson did her major work at Howard in the area of developmental biology and minored in microbiology at Howard University. She plans to begin course work in the fall leading to the Ph. D degree in the field of psychology.

While enrolled here at Prairie View, Miss Anderson was very active in student affairs and was once editor of the Prairie View Panther. She has a brother presently enrolled at Prairie View. He is Danny Anderson, former president of the Student Council.

Student Benefits

By Edgar M. Bowers, Jr., District Manager

Social security is now paying more money to students aged 18 through 21 than all the scholarships in all U. S. Colleges and Universities, according to data just received by Edgar M. Bowers, Jr., district manager for the Social Security Administration in Houston.

"In the 1968-69 school year," Bowers explained, "the social security program will pay about \$479 million to approximately 466,000 students entitled to payments on the earnings record of a disabled, retired or deceased parent."

The school year that begins next fall will mark the fourth year of payments under a 1965 change in the law providing for the continued payment of social security benefits past the age of 18 to unmarried, full-time students.

"Nothing in the law prevents the student from receiving his social security benefits
