MAYS DELIVERS ELO

PANTHERS ALABAMA JAN.

New Year's Day will leave another page for football history when Coach Sam Taylor and his mighty Panthers match their wits and strength against the Alabama State Hornets in Houtson at the Buffalo Stadium.

This promises to be a great game, as Alabama has closed an almost perfect season, having suffered only one loss to Lemoyne. The Hornets have several Texans on the team and it is certain that Theodore Smith of San Angelo, Texas the kicking quarterback will see much service in the game. Sharing honors in the backfield with Smith will be Thornas Lundy of Indiana at fullback, Thomas Greene of Ohio and Jones also of Unio. it will be grand to wait's

STUDENT COORDINATING CABINET

The Prairie View Student Body has at last begun to realize the necessity of its cooperation en masse in establishing a more intimate relationship, a more significant bond, a more tangible linkage between itself and the faculty and administration. The realization of this responsibility has resulted in the organization of the Student Coordinating Cabinet.

This cabinet, organized through the initiative of some of the student leaders and through the cooperation of the administration, has come as a much needed gear in the coordinating machinery of our school. But even a much needed gear can be misplaced so as to gum up the whole works. In other words, we feel that as long as the Student coordinating cabinet continues to recognize the fact that its mere existence is no guarantee to its successful and beneficial operation, and that power may be converted into progress only when directed in the right channels, there can be no doubt as to the usefulness of this new instrument.

Incompatibility is often the result of the desire of . suppressed personalities to express themselves. An organization like the Student Coordinating Cabinet attempts to relieve any such condition which might exist between Prairie View students, faculty and administration. Let us hope, then, that its actions will proceed from an acute sense of responsibility and a realization of the fact that rights and privileges imply duties and obligatons.

The Student Coordinating Cabinet has pledged itself to the task of helping to maintain the best harmony and the most thorough synchronization of the various divisions of our social set-up. Cooperation is always necessary to an uninhibited drive toward the attainment and maintenance of an idea. The Cabinet solicits the unconditional cooperation of students, faculty and administration, in return for which it unconditionally guarantees your satisfaction with the results.

WE PASS THIS WAY BUT ONCE

Have you ever watched a group of highly trained athletes just

The Prairie View Panthers are

before they enter a game? It makes no difference what particular sport they are about to engage in, they minutely inspect their spikes and shoe strings; they jog lightly up and down the track; they throw goals, run ,stoop, squat and in every conceivable way to make sure that they are in "trim" for the contest.

We do not have to tell men and women of the Freshman, Sophomore and Junior College level that they can cram a lot of facts into their heads, play a lot of games and enjoy a lot of social life. They are fully aware of all this. But do you know that there are ways and means of making all these activities serve you in attaining the greatest good in your college education, and that at the end of four to make guest towels for Christ- Li the Herbert Bailey on the line years you can look back with satisfaction upon a period of genuine progress. If you have the real stuff, mental curiosity and gusto for living you won't need any advice on how to get the most out of your college life. If it is in you, it will come out.

But the world is much bigger than the campus of "Dear Old assist its members in skilled Wister Lee's passes. Prairie View;" and if we have not prepared for this larger school work which teems not only with bigness but with weighty experience of broader and more abundant life, our preparations have been futile. Time is precious, and it waits on no individual or group. So while we are here let us make the most of our college experiences, as we only encounter these experiences once. Our formative period will count for naught unless we like the skillful athlete are "on our toes" fully adjusted and ready for service, as the new world untired and mysteriously unfolds before us.

As our college days begin to fade into the realms of memory, let us be ready; let us trust, to commence life from a new vantage

December, 1940

THE PANTHER

Greetings friends! For the first time in ages your scribbling scribe is back to chew a little with you. We have received several set-backs since it was last our pleasure to meet. Our Panthers have dropped two of the most important games and our hopes of a National Championship have gone with the wind. But let's leave the dark side and look to the brighter side of things.

IN THE MAGNOLIA BOWL

On January the first, we meet the highly touted Alabama State gridiron aggregation in the Magnolia Bowl Classic. The game as usual will attract many hundreds of staunch pigskin fans from all part of the Southwest. Prairie View has not lost a Magnolia Bowl engagement in many a moon. Last New Year's Day battle saw the Panthers at their best as they eked out a 7-0 decision over the tough Xavier Gold Rush of Xavier University. This next battle should prove to be a good one, bringing together two strong teams from two rough conferences, the Southwest and Southeast. If you miss this game you will miss the game of the year.

FINAL CONFERENCE STANDINGS

As Langston destroyed our hopes of a National Championship so did the Southern Jaugars knock out our hopes of a Co-Championship with the Langston Lions. So we have to be satified with second as we

d	id last year.	The	final	confere	nce	standing	are	as :	follows:

CROSS COUNTRY

On the day of the Southern-Prairie View tilt, Coach Ralph Metcalfe of Xavier University, brought down his track team to meet Prairie View's track team in a cross-country race. Cuplps of Xavier won over a field of eighteen with our stalwart O. D. Williams bringing in a close second. Xavier took the meet with 44 points. When Prairie meets Xavier, Coach Taylor will carry his V-8s to New Orleans Arts and Sciences Division will for a return bout.

TRACK MEN WANTED

Track season is just around the corner and still there are not enough men out for practice. Out of all the fellows on the campus there are surley many who have had previous track experience. So come out men! Give yourself and the School a break.

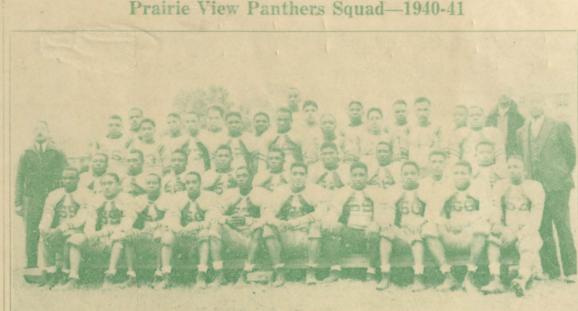

GRIDIRON SWAN-SONG

As all good things must come to an end, so must the football player hang up his togs and bid farewell to the beloved gridiron.

This year, the Panthers will lose many of the first string players. The New Year's Day game will be the last game for Frank Slider and Curtis Marks, two great ends. Co-Captain Leory Marion, Herbert Richards and Herbert Bailey superb linesmen. Also Julius Whiteside alternate tackle-guard will not return to the gridiron to play in the Purple and Gold.

Wister Lee, Captain, and one of Prairie View's all-time great passers will have completed his four years playing time. And thus it goes, meaning that from somewhere and somehow Coach Taylor will have to get some new material. Best of luck Coach!

Well that's about all your scribe has to say this time. Maybe we'll have more to say next time. Your scribe is wishing you a most prosperous New Year and a Merry Christmas.

OFF-TIME

DORMITORIES

Boys! Listen while I give you. the "low down" on the girls in their dormitories. If you could see them as I do, you would find out many interesting things about them. They spend many enjoyable evenings doing the following things: It is remarkable how the girls are engaging in their studies as well as participating in the various clubs, which are carried on in the dormitories. Among these clubs are Sculpture Soap Carving Club, Annie Laurie Evans Club, Bridge Club, Evans Hall Glee Club and many others.

The postmistress was kept very busy during the Thanksgiving rush, issuing out boxes, large and small. They were carried to the dormitories to compile one big feast. Turkeys, chickens, pies, and many other delicious food were quickly devoured by the ravenously hungry students.

There is much enthusiasum going on in and around the dormitories in preparation for the forthcoming "Y" dance. There will Many caption this occasion. vating dances are being learned by the girls.

There has been much discussion among the young ladies in the this line be broken down.

We are all anxiously awaiting so I shall close by wishing you a numbers. very Merry Christmas and Prosperous New Year.

JUNIOR CLASS PRESENTS PROGRAM

Sunday, December 1, 1940 the Junior Class made its debut in presenting a program to the audience that was educational and entertaining.

Disposing of all astute ideas in trying to surpass other vesper program, the Junior Class has realized the need of more training of more prominent Negro leaders in this changing world, and they are trying to attain ample space on Prairie View's peak of famous Negroes, men and women that their names may there appear.

Everyone was filled with delight as the program began with members of the Junior Class singing their theme song "Just a Song At Twilight" and dying out into a hum as Charles Johnson, president of the class announced and gave the audience the introduction.

The aduience showed their appreciation for such poems by Paul Lawrence Dunbar "The Party" "Dissapointed," and "The Path," that were rendered to them by Martha V. Estelle, Charles Johnson, and Mulburn Penson rebe many gorgeous gowns worn spectively. They listened attentively to the mixed group sing 'Jesus Priceless Treasurer" the girls' group singing "I'll Never Smile Again," and Richie Dell Archia's organ solo.

We would not be surprised to dormitories concerning the stag line at previous dances. Look hear of Duke Ellington, king of Fellows! The girls demand that the ivories retiring in a few years because we can readily see Charles Brown, our own king of the time to leave the campus to the ivories taking his place if he return to our respective homes for continues to excute such numbers the Christmas holidays. Campus Practice Teaching.

Off-Campus Teaching Provides Wholesome Experience

by Jimmie R. Dykes

Of all the various enterprises during college, student teaching affords the most exhilarating of experiences. In the two months which the student spends in practice teaching he finds the contacts experienced broadens him both mentally and socially.

Neither can skill in handling children of all age groups, and mental capacities, be regarded as a matter of little consequence. The typical school child of a rural or semi-rural community presents to the student teacher an everlasting chain of problems.

The student teacher must exhibit, in each case, his or her ability to make wise, and partial decision as well as just and useful opinions. The personality of the child must be considered in order to determine the degree of severity to be employed. there is no need for fear.

A study of individual person-

alities is the secret behind every mystery of student teaching. The student teacher who fears this secret is sure to agree that the two months of his or her life have been well spent.
