**GRAD STUDENTS RECEIVE DIPLOMAS** — President A. I. Thomas congratulates two of nearly 300 graduate students who received Masters degrees during The Annual Summer Commencement Exercises held Sunday, August 16. (see other photos on inside pages).

**SUMMER READING PROGRAM** — Dozens of community youngsters participated in the Summer Reading program sponsored by local chapter of Alpha Kappa Alpha Sorority. Active leaders in the project and other photos are pictured on page 5.

## Annual Career Festival Set for September 23

On September 23, 1981, the Prairie View A&M University Division of Career Education and Placement will sponsor its 11th Annual Career Festival. Approximately 70 companies will have representatives on campus to participate in this affair.

On Wednesday, September 23, 1981, beginning at 9:00 a.m., company representatives will be able to discuss the various job opportunities in their organizations. Individual company booths will be located in Alumni Hall (all levels) and will remain open until 5:00 p.m.

All faculty members are encouraged to bring their classes to the Career Festival. This affair should provide the students with pertinent information about the companies and an awareness of the various career options as it relates to their own chosen field.

All Prairie View A&M University graduating seniors and alumni with definite career plans are especially encouraged to attend this affair. However, this affair was planned to encompass all students.

A partial list of Career

## 1981-82 Academic Year Begins August 29

Prairie View A&M University's 104th Academic Year will begin officially on August 26 for faculty and staff and students are expected to arrive on August 29 and the week following.

Festival participating companies is listed below:

Aerojet Tactical Systems Company  
Aluminum Company of America  
Amerada Hess Corporation  
Ames Research Center — NASA  
Amoco Oil Company  
Atlantic Richfield Company  
Ball Aerospace Systems Division  
Bechtel Corporation  
Boston Edison Company  
Buick Motor Division  
Cameron Iron Works, Inc.  
CBS, Inc.  
Colgate-Palmolive Company

See *FESTIVAL*, Page 3

A faculty renewal conference, which features outstanding speakers and workshops on instructional techniques, is scheduled for August 26-28.

New students, both freshmen and transfer are expected to arrive on August 29 and take part in orientation sessions sponsored by both academic and student leaders. Parents Day will be observed Sunday August 30.

Regular registration is set for August 31 and September 1 with classes scheduled to begin on September 2 at 7:30 a.m.

### TWILIGHT AND WEEKEND COLLEGE

Among several special features for the new term is the university's Twilight and Weekend program. A large number of courses are available in most departments with schedules set to accommodate working people.

### Present and Future

## Campus Improvements Planned

With unprecedented approaches to positive planning, Prairie View A&M University now has approximately \$50 million in recent, current and planned construction aimed primarily at an enrollment increase for the traditionally Black College.

The enrollment management policy for Prairie View calls for an expanded student recruitment program, stepped up efforts to obtain additional funds for scholarships, enhanced counseling and related programs designed to improve the school's student retention rate.

Also added emphasis will be placed on career opportunities provided by the school's academic programs.

Already a major source of supplying the nation — and the world with graduate engineers and nurses, Prairie View A&M

University's campus looks at times like the target of enemy bombers, as one older building is being demolished and another new one going up next to it.

As buildings are renovated, and as new ones are groundbreaking, there must be new pipe lines and underground cables to be laid, so much of the campus is necessarily turned up, say the university's maintenance engineers.

Dr. A. I. Thomas and his top cabinet members started a five year plan several years ago, and are not in the first year of one of the most ambitious plans in the long history of Black Universities in the country.

Already finished and ready for occupancy by professors and students at the 104rd school year opening is the

Mass Communications and Information Center, converted from the older dining hall (Hilliard Hall) into a modern, two story structure, complete with radio and television station.

The radio station is scheduled to open later this month.

Also ready after a two-year face lift is the Animal Industries Building, which has been redone completely, inside and out.

As leader in providing the nation with Black nurses, Prairie View intends to continue to be in the forefront of nursing after purchasing a 10 story building in the Texas Medical Center, and is now undergoing major renovations.

Ground has been broken on the \$1.5 million Dairy Goat Research Center, which will be

See *IMPROVEMENTS*, Page 2

### Student Applications Being Accepted

## Financial Aid Office Busy

The financial aid office is now in full operation processing financial aid application and awards for the Fall, 1981 and Spring, 1982 Semesters.

New procedures have been implemented so that fee payment may be accomplished in a faster and more orderly manner. All students are urged to:

1. Contact the financial aid office to be sure that your file includes (a) Financial Aid Form (FAF); (b) Student Eligibility Report (SER); (c) Income Tax Statement; and (d) Financial Aid Application.

2. Pre-register during August 1 thru August 30 and report to the Financial Aid

Office with the fee assessment card.

3. See the respective Financial Aid Counselor for award processing.

The regular registration period will start August 31, 1981. Student planning to register during that period should follow in the same procedures as those outlined in the pre-registration. Students who pre-register and receive a financial aid award have the option of having their fees paid for them by the financial aid office staff. This effort is being made to reduce the lines during the September registration period. Students having their fees paid in advance by the

financial aid staff will be able to secure their receipt in the Financial Aid Office.

Students returning to the Campus to pre-register should be certain to bring with them their BEOG Student Eligibility report and any other documents needed to complete the financial aid folder.

Financial aid in the form of Grants, Work-Study, Loans, and Scholarships are available for the 1981-82 school year. Be a financial aid early bird and receive your aid package and fee payment prior to the first class day.

**2nd LIEUTENANT BARS** — One of several ROTC graduates commissioned during special exercises is pictured having his bars pinned by parents.

## Nearly \$3 Million in Student Aid Funds Received

Prairie View A&M University has been awarded student financial aid funds for the 1981-82 school year in the amount of \$2,853,686, Dr. A. I. Thomas, president of the University, announced.

The U. S. Department of Education has given official notice of approximately \$1½ million of funding for the supplemental education opportunity grants and a similar amount for the College Work-Study Program.

Improvements Planned for The University

CONTINUED from Page 1 one of the finest facilities in the country for research in nutrition, reproduction, housing and equipment, and veterinary health.

Nearing completion is the tennis complex which will rival most in the country, and will be in a class that can hold championship tennis of any kind. The entire complex is lighted.

On the drawing board with groundbreaking scheduled for later this year is the new Industrial Education and Technology Building with a price tag of more than \$17 million, and Chemical Engineering Building costing more than \$8 million.

Also scheduled for starting construction this year is a new education building and a Home Management Complex totaling more than \$9 million. Other new building scheduled for construction in the ambitious five-year plan include Arts and Sciences II, continuing Education Center, School of Architecture, library, and eight other in the Educational and General category.

There are almost 50 buildings, complexes, airstrips, parking lots, athletic fields, post office, ect., planned for the non-educational and general categories building program.

The program includes an experimental solar house complex, engineering experiment station, an Afro-American Heritage Center, Memorial student center, movie houses, all Faiths Chapel Center, graduate student housing, men

Local Entrepreneurs Spend Day With Students and Staff

More than 15 local entrepreneurs and potential entrepreneurs spent the day on August 4, 1981, with students, faculty, and guest consultants at Prairie View A&M University.

practical operations of businesses, and (3) Create understanding and goodwill among the participants — students, local entrepreneurs, College of Business faculty, and guest consultants.

Opportunities were provided for the local entrepreneurs to interact with representatives from such companies as HARRY HOWARD HURST, INC. HUSBAND AND WIFE COMMISSIONED — "The First" husband and wife team to be commissioned together at PV (or anywhere) was 2nd Lieutenants Annette L. Slater (Buford) and Danny R. Slater of Chicago, Illinois. President Thomas is shown congratulating the couple following commencement ceremonies.

Dr. Williams Gets To Represent Church Women

Dr. Sarah Robinson Williams, Professor and Head of the Department of Social Work and Sociology has been appointed to serve on The Commission on the Status and Role of Women in The United Methodist Church.

The Commission is charged with responsibility to "challenge the United Methodist Church . . . to a continuing commitment to the full and equal responsibility and participation of women in the total life and mission of the Church". . . and women's residence halls.

And for the recreation and health addicts there will be, in addition to the spanking new tennis complex, racquet ball courts, mini-golf course, jogging trails, skating rink, softball fields, amusement park, outdoor basketball courts (covered), equestrian facilities and trails, soccer field, golf driving range, and others.

Area Educator Attends Consumer Institute

Dorothy Kizer, Professor of Home Economics, Prairie View A&M University was one of 25 leading college and university consumer education teachers selected to attend a ten-day Consumer Economics Institute sponsored by the Joint Council on Economic Education. Dr. Kizer was chosen from among applicants from 19 western states.

The 10-day session, was held August 2-14 in Boise, Idaho, and was hosted by the Idaho Council on Economic Education. Participants in this program were involved in exploring ways of incorporating basic economic principles into the consumer decision-making process. Participants developed teaching techniques geared to help students become effective purchasers of goods and services.

The Institute in Boise was Phase I of a 4-phase program. After attending the summer program, Dr. Kizer will be

Dorothy Kizer

involved in the planning and implementation of an inservice program for classroom consumer educators in their local area. The final phase of the program will be a follow-up meeting in Fall 1982, at which she and other participants in the program will report on the programs which they have run during the 1981-82 school year.

The Institute marked the third year of the Joint Council's National Consumer

Twilight and Weekend College

By Jack Weeks

The Twilight and Weekend College-Program, initiated at Prairie View A&M University in the fall semester of 1978, continues to record encouraging and highly satisfactory progress as 13 persons have been awarded diplomas during the past nine months.

The program offers Bachelor of Science degrees in Elementary Education and Sociology/Social Work.

In December, 1980, Mrs. Yvonne Redmon and Mrs. Alice Westbrook, of Hearne were the first graduates of the program to receive B.S. degrees in Elementary Education.

Six graduates of the program received their degrees during Commencement Exercises in May. They are Mrs. Valencia Donatto, Mrs. Carolyn Thomas, Mrs. Janice Mims, Mrs. Denise Thorne, Mrs. Clara Gilbert, and Ms. Ona McMillan.

During the August Commencement exercises, five graduates of the program included Mrs. Janice Purvis, Mrs. Ingrid Singleton, Mrs. Sylvia James, Mrs. Joyce Fridie and Mr. O. D. Baker.

Dr. A. I. Thomas, president of the university, offers hearty congratulations and best wishes for future success.

COMMENCEMENT SPEAKER — Arthur E. Teele, administrator of the U. S. Department of Transportation's Urban Mass Transit Division, is shown with President Thomas in academic procession. A former Prairie View resident, Teele served as Commencement speaker.

### Scarce Engineering Grads Continue to Draw Top Dollar

What happens when demand far exceeds supply? The price goes up. And that's what happened once again this year as employers recruited the nation's college campuses for new employees.

Most employers were scrambling for hard-to-find engineering graduates. Competition was so keen that engineering offers accounted for 65 percent of all offers reported in the study even though engineering majors comprised only 7 percent of the bachelor's degree candidates in 1980-81. The result was not surprising. The highest average salary offers went to engineering graduates, according to data just compiled by the College Placement Council for its on going Salary Survey study, reports Mr. Brutus N. Jackson, career planning and placement director at Prairie View A&M University, a participating institution in the national survey.

Students majoring in petroleum engineering drew the top offers at the bachelor's level — \$26,652 annually, an 11.8 percent increase. Second-ranked chemical engineering, at \$24,360, experienced a 12.7 percent gain. Since the July 1980 report, increases in average salary offers for the 11 bachelor's level engineering disciplines ranged from 10 percent to 14 percent.

On the other hand, students majoring in humanities and social sciences, who make up about 33 percent of the graduates at the bachelor's level, accounted for only 4 percent of the job offers

reported in the survey. An their average beginning salary offers were only about half the top engineering average — \$13,992 for other social sciences, \$14,448 for humanities, and \$16,440 for economics. Percentage increases for these disciplines ranged from 8.8 to 12.1 percent.

The tree business disciplines represented 22 percent of the bachelor's offers and reported increases of over 9 percent to 11 percent in average salary offers since a year ago. The highest average offer in this group, \$17,016 went to accountin majors.

The seven scientific disciplines included in the survey accounted for 9 percent of the bachelor's volume. Computer science continued to dominate this category in number of offers, but commanded second place in terms of dollar value with a reported annual average of \$20,712, up 10.9 percent. Other physical and earth sciences received the top dollar offer in this group. The annual average for this group was \$22,152, which was 19.6 percent higher than the July 1980 figure.

At the master's level, chemical engineering recorded the highest average at \$26,484 per year, up 13.4 percent since last year. MBA candidates with a technical undergraduate degree ranked second at \$26,268 per year, and 11.1 percent gain.

The College Placement Council Salary Survey data are based on offers, not acceptances, made to college students in selected curricula and graduate programs. Dat

### PV Administrator Promoted To Colonel in Army Reserves

Robert Vernon Cole Jr., Assistant to the Vice President for Academic Affairs and Assistant Professor of Foods and Nutrition has been promoted to Colonel, Army Medical Specialist Corps, United States Army Reserves.

Mr. Cole is a native of Dallas Texas and a graduate of Prairie View A&M University. He received his commission as second Lt. through the Army rotc program at Prairie View A&M University. He is a World War II Veteran, having received many decorations for outstanding military performance.

Colonel Robert Cole, Jr.

### PV Students Internship in U. S. Congress Completed

Ivory Lewis, a rising sophomore student in Agricultural Economics, recently returned from duty as a Summer Intern with the U. S. House of Representative-Committee On Agriculture.

Ivory was selected by Assistant Professor Lindsey Weatherspoon to participate in the program. This liberty which was extended to the College of Agriculture was negotiated with Congressman E. (Kika) de la Garza by the Ocleris Simpson, Research Director at Prairie View. During Mr. Lewis' tenure in Washington, he was able to witness the Hearings on legislation directly affecting the research program at Prairie View and other 1890 Land Grant Colleges.

The general nature of the work by Mr. Lewis was reflected in a letter of evaluation to Mr. Hulen Davis and is reprinted here in full text.

Dear Mr. Davis: I am writing on behalf of Ivory Lewis, a student at Prairie View A&M University who has interned with the House Committee on Agriculture for the last three months.

Candidly, I can say that this young man performed an outstanding job during his stay at the Committee. On a number of occasions, I requested that he attend and report to me on official briefings both here on Capitol Hill and at the Department of Agriculture. His reports were prompt and quite thorough, and over the weeks it was readily apparent his knowledge of the Federal Government was increasing.

Ivory attended a number of Capitol Hill Intern Programs while he was working with the Committee. These programs are designed to acquaint college students working on Capitol Hill for the summer months with various duties and functions of the Executive Branch as well as the goings-on of Capitol Hill, and Members of Congress and Cabinet Secretaries generally lead the discussions at these sessions. I am confident that as a result of his involvement in these informative sessions Ivory's understanding of the role of the Federal Government was greatly enhanced.

Lastly, let me say that a number of the Committee staff reported to me on Ivory's dependability and cooperative attitude. Certainly, all of us would welcome him back at any time.

It is a pleasure to provide you these comments. If you should need further information, please let me know.

With best regards, A. Mario Castillo Assistant to the Chairman

Rao Attends — CONTINUED from Page 4 main causes for most emergencies caused in the Nation. This has taken special importance in recent times due to new flammable and toxic materials used in construction of our homes furnitures ect. The threat to peace leads to explosions and fires. The purpose of this institute is to prepare many instructors with the needed knowledge in this regard to facilitate them to impart that knowledge to the students of engineering and architecture to prepare them to face such emergencies of the future in their design and construction profession.

To travel hopefully is a better thing than to arrive. — Robert Louis Stevenson

### PV-ite Class of 1918

An unusual celebration, of special interest to Prairie View alumni, occurred in Houston on Sunday afternoon, July 26, 1981. It was in observance of the sixtieth wedding anniversary of Dr. James L. and Cora Jean Stanley. The former is one of three surviving members of the Class of 1918. Approximately 75 guests were in attendance to witness the solemn renewal of vows, then participate in the reception following. Among the host of friends were several distinguished Prairie View alumni who are active members of the Houston-Prairie View Metropolitan Alumni Club.

Among the congratulations received were telegrams from Mayor McConn, Governor Clements, Lt. Governor Hobby, Senator Tower, Speaker Clayton, Don Rickles, and others. In appreciation of this rare occasion, Dr. Noble Armstrong, Professor Emeritus of Teacher Education at Prairie View, read a poem which he composed and presented to the honorees. We are pleased to present it as representative of the many tributes making it a memorable day.

A LOVING TRIBUTE to Dr. James L. and Cora Jean Stanley July 26, 1981 Since nineteen hundred twenty-one, When life together was begun, How glorious are life's goals you've won These sixty diamond years! You started in youth's morning fair To live as a devoted pair; And each with each life's fortune share Through sixty diamond years. How firm together you're been bound, In educating youth you found The call to highest service bound, These consecrated years. What sweeping changes have been wrought,

ALUMNI RECOGNITION — Dean Austin E. Greux (P.E.), College of Engineering, receives Alumni Association plaque for outstanding service from local Alumni representative Dr. S. R. Collins. The Award was made during The Annual Association meeting in Dallas last month.

What banes and blessings have they brought; Great lasting lessons have they taught Through dedicated years. The paths of youth have overgrown, The friends of childhood grown and gone; And age reaps what in youth was sown By love-filled diamond years. 'Tis wondrous how the Savior spared, And in His loving kindness cared, And richest blessings you have shared These gleaming diamond years. How few there be who live to see Six married decades, crowned and free, By deeds of utmost loyalty All sixty diamond years. And when you face life's setting sun, Your battles fought, you're vic'tries won, You'll hear the Master say, "Well done!" Through endless diamond years.

From your host of friends By Noble B. Armstrong Houston, Texas

### PV Teens Attend "Jack And Jill" Conference

The Prairie View teens of Jack and Jill of America, Inc. attended the twenty-seventh South Central Region annual conference held in Beaumont, Texas June 25-28, 1981. The Conference theme, "Teens of Vision — Daring to Venture In the 80's" was reflected in every activity.

Some of the workshops attended by teens and sponsors were Leadership, Family Relations, Values Clarification and Business Management. Prairie View Teens attending the conference were Metoya Brown, delegate, and Schretta Bledsoe, alternate. Other members attending were Mia Brown, Burnett Carter, Bena Clem, Cornelius Cooper, Frankie Francis, Jennifer Francis, Wendy Parker, Yvette Poindexter, Stephanie Sowell, Kevin Walker, Senora Web-

ster, John Bell, Bruce Davis, Marcus Higgs, and Gary Johnson. Sponsors attending along with the Teens were President Gwendolyn Carter, Senior Teen Sponsor, Lois Brown, Jr. Teen Sponsor, Rachel Poindexter and Jr. Teen Co-Sponsor, Johnnie Walker.

A RED CROSS C.P.R. CLASS (Cardio-pulmonary Resuscitation) will be offered at St. Francis' Episcopal Church Wednesday, Sept. 16 6:00 to 10:00 p.m. Call 857-3272 or 857-3590 for more information

# Cooperative Extension Service

Alfred Wade, IFPP Specialist and assistants are shown cleaning and processing catfish.

## PV Gets Catfish Grant — Demonstration Held

"The Extension Service-USA recently extended a contract to test catfish cooperatives for small farmers," states Hoover Carden, Administrator of the Cooperative Extension Program at Prairie View A&M University. Grant money for the project totaling \$77,380 for a two-year period was received from the Extension Special Needs Fund. The primary purpose of this Special Needs grant is to test the feasibility of a catfish marketing cooperative for small farm pond catfish producers.

Recent advances in fish culture have provided proven techniques on demonstrating efficient pond utilization to produce food fish at a low cost. Previous work in this area proved that small farm

### Catfish Harvest and Processing

The Cooperative Extension Program at Prairie View A&M University had as one of its projects a catfish harvest and processing demonstration which was conducted by Intensified Farm Planning Program (IFPP) specialist Alfred Wade and former fisheries Assistant Madison Rayford. The demonstration took place on Thursday, June 11, 1981 on the experimental farm at Prairie View A&M University. The demonstration was conducted to monitor fish growth and to demonstrate seining and processing techniques.

The pond used in the demonstration was stocked approximately 1 1/2 growing

seasons to the harvest. One hundred and sixty-five channel catfish fingerlings, 5 to 6 inches in length were stocked in the pond. The fingerlings were fed 32% catfish floating food on a daily basis (except on weekends) from April 15 to October 15. They were allowed to consume all they could eat for 15 minutes which was equivalent to approximately three percent of their body weight. Food conversion ratio was 1.5 pounds per pound of weight gained. The average weight of the catfish was 1.75 pounds.

Members of the agricultural faculty and other interested individuals were present at the demonstration.

Frank Walters Named Trainer

Frank Walters, former athletic trainer at M. B. Smiley High School in Houston, Texas has been named athletic trainer at Prairie View A&M University, announced Dr. Leroy Moore, athletic director. Walters earned a bachelors degree from Brooklyn College and a master of science degree in physical education-athletic training from Indiana State University in 1977. The Channelview, Texas native worked as an instructor of health education at Pharr San Juan Alama High School in Pharr, Texas and instructor of health education at Smiley prior to joining the Prairie View staff. He has also served as assistant supervisor of recreation for the Starrett City Recreation and Cultural Center in Brooklyn, New York and assistant athletic trainer for the J&A Golden Knights in the New York Football Conference. Walters carries memberships in the Southwestern Athletic Trainers Association, National Athletic Trainers Association, American College of Sports Medicine and American Association for Health, Physical Education Recreation and dance. He is a licensed athletic trainer in the state of Texas and has a national athletic trainers association certificate. He is also certified in first aid and in cardiopulmonary resuscitation.

CONTINUED from Page 7  
 solid football player," Cooper said. Three players from the Panther secondary — Barnett, Alexander and Hayes, — added credence to what Cooper has been saying throughout the pre-season. "We are real strong in the secondary!" Hayes, a 195-pounder, moved into the starting lineup the fourth game of last season and hasn't been out since. "He's very intelligent and has lots of football knowledge," Cooper said. He logged 10 tackles and had one interception against Arkansas-Pine Bluff and logged more than six tackles of five other occasions. "He should be the catalyst of the secondary," Cooper said. The other two, Alexander

# Footballers Report

Cornelius Cooper welcomed nearly 100 prospects to the Panther first football practice sessions in preparation for the 1981 football season. Cooper took on an optimistic outlook after early workouts even though there's just as much youth around this year as there was last year. Included in the 92 who showed up on the first day of practice were 42 freshmen, many of them walkons. There were 33 players who have won at least one letter at Prairie View including 15 who started last season. "We saw some talent out there. Now it's just a matter of the coaching staff molding it together into one unit. I think we'll be stronger; even though we still have a depth problem," Cooper said. Cooper said the Panthers would have 14 days of two-a-day drills. "We've got a lot to do and a short time to do it in," Cooper said of the Panther preparation for the season opener on September 5 in San Marcos, Tx. against Southwest Texas State. Cooper said he was pleased with showing of senior defensive tackle Milton Hall (Eutaw, Ala.), senior offensive guard Dale Clark (Miami, Fla.), senior cornerback Robert Alexander (Monticello, Fla.), sophomore cornerback Gerald Barnett (Orange, Tx.), junior cornerback John White (Beaumont, Tx.), senior full back Howard Grant (Milwaukee, Wis.) and junior strong safety James Hayes (Los Angeles, Cal.). "These are the people we are counting on for leadership. We are expecting a lot out of them, plus some other veterans, but they were head and shoulders

## Nine Panthers Tabbed

# Players to Watch

Nine Prairie View football players were tabbed among those as players to watch during the upcoming football season following the third annual Southwestern Athletic Conference Press Football Tour. The list was compiled on ballots taken from the league football coaches and sports information directors. Tabbed on offense were sophomore tight end Randall King of Houston, junior offensive tackle Jesse Nelson of Chicago, Ill.; senior offensive tackle Sammie August from Houston and junior split end Tracy Jones from Miami, Fla. Defensive players tabbed were senior end Milton Hall from Eutaw, Ala. senior linebacker Kevin Sullivan from Oakland, Cal.; sophomore cornerback Gerald Barnett from Orange, Tx., senior safety Robert Alexander from Monticello, Fla. and junior safety James Hayes from Los Angeles, Cal.

Alexander

Barnett

Hall

Hayes

King

Sullivan

The Panthers were tabbed to bring up the cellar in the pre-season poll of coaches and sports information directors with Grambling, last years co-champ with Jackson State, picked to win the conference. "We'll be in there biting, kicking scratching and struggling to climb out of the cellar," said Panther coach Cornelius Cooper. "We're still a bit young but we'll be looking for improvement each game out!" Improvement was what landed King a spot on the players to watch list. "He did a terrific job as a freshman alternating with another player last year," Cooper said of King, a 5-10, 205-pounder. "He improved with each game and should get better in the years to come!"

August has Cooper worried. The 6-3 250-pounder from Houston hasn't shown up for pre-season drills. He recently got married and was supposed to report a few days after his wedding but had not reported as of August 19. "With him out of the offensive line we'll have to do some moving around. We're thin in the offensive line anyway and that takes away a big part of our success," Cooper said. Jones, though, brings smiles to Cooper's face. The 6-0, 185-pounder was named first team All Conference after his freshman year but hasn't

played in two seasons — first because of a knee injury and second because of grade problems. He has all of those solved and Cooper feels the speedster is going to take up right where he left off. "He hasn't lost anything — speed, agility, ability to get open, excellent hands. He's a pleasure to watch," Cooper said. Hall is the versatile player of the defensive players picked. He has played linebacker, defensive end and defensive tackle with ease and may wind up playing all three positions again this year. Hall has been among the leaders defensively the past two seasons. "He's a sound athlete and individual with lots of leadership qualities," Cooper said. "He's one of the best pass rushers in the conference. He earned honorable mention all conference last year while toiling at defensive end. Sullivan, like Hall, has "lots of leadership ability!" Cooper said. "He has been a mainstay of the Panthers defense for three seasons!" He led the team in tackles two years ago and was No. 2 last season. He recorded 10 tackles in two games last year, against Texas Southern and Alcorn. "He's a

## Twilight and Weekend Program To Be Featured

The Twilight and Weekend College-Program, initiated at Prairie View A&M University in the fall semester of 1978, continues to record encouraging and highly satisfactory progress as 13 persons have been awarded diplomas during the past nine months.

The program offers Bachelor of Science degrees in Elementary Education and Sociology/-Social Work.

In December, 1980, Mrs. Yvonne Redmon and Mrs. Alice Westbrook, of Hearne were the first graduates of the program to receive B.S. degrees in Elementary Education.

Six graduates of the program received their degrees during Commencement Exercises in May. They are Mrs. Valencia Donatto, Mrs. Carolyn Thomas, Mrs. Janice Mims, Mrs. Denise Thorne, Mrs. Clara Gilbert, and Mrs. Ona McMillan.

During the August Commencement Exercises, five graduates of the program included Mrs. Janice Purvis, Mrs. Ingrid Singleton, Mrs. Sylvia James, Mrs. Joyce Fridie and Mr. O. D. Baker.

Dr. A. I. Thomas, president of the university offers hearty congratulations and best wishes for future success.

## Faculty Renewal Program Set for August 26-28

## Campus-Wide Improvements Continue

The daring maneuvers of painters on the water tower may well represent the state of campus improvements now underway in many areas. Over \$50 million is the amount set in the University's Master Plan for current and future construction.
