## P. V. Emphasizes Teaching

### PRAIRIE VIEW ROTC OFFERS NEW PROGRAM

Effective September, 1954, Prairie View A. & M. College ROTC will convert to General Military Science. The military curriculum previously has qualified officers for service in Infantry only.

Under the new curriculum commissions as 2d Lieutenants will be given in Infantry, Artillery, Adjutant General's Corps, Armor, Quartermaster Corps, Transportation Corps, Military Security Corps, Engineer Corps, Finance Corps, Military Intelligence Corps, Military Police Corps, Ordnance Corps, Medical Service Corps, Signal Corps and Chemical Corps, depending upon the student's civilian experience and academic field of concentration.

The change to the General Military Science curriculum is particularly advantageous to the government, the institution, and the students in that the varied academic offerings of the college selected by the student may be directly related to the branch of military service in which he may be commissioned, thus giving the student greater opportunity to utilize his academic training and background, and rendering the army a better qualified officer in specific branches.

The program of deferment from the draft while enrolled in ROTC will continue and the subsistence allowance of approximately \$27.00 per month, paid to advance course cadets (Juniors and Seniors) will continue. Summer and winter uniforms, to include socks and shoes will be provided each formally enrolled ROTC student at no cost to the student.

The Department of the Army has begun assigning military officers and non-commissioned officers of the service, other than Infantry, to augment the present Infantry Staff to accomplish the new mission of the ROTC. The Professor of Military Science and Tactics predicts a larger Cadet Corps at Prairie View College based upon the greatly expanded opportunities and experience of other institutions that have been authorized to institute the General Military Science Program.

The Professor of Military Science and Tactics further expressed the opinion that the institutional authorities at Prairie View showed great concern for the opportunities and welfare of the young men of Texas and the strength of the nation in cooperating with the Army at this early date to initiate such a tremendously expanded military program.

### ART NEWS

The Art Exhibit will be held in the Art Studio of the Education Building the last week of this summer session.

On display will be many artistic articles such as weaving, crafting, free-hand painting on wood and straw, sock dolls, oil paints, and water colors.

Engineering students in architectural drawing in P. V.'s expanded program.

### P. V. COLLEGE IS APPROVED BY AAC; HAS MANY SCHOOLS

Prairie View A & M College, a part of the Agricultural and Mechanical College System of Texas, is approved by the American Association of Colleges for Teacher Training; The Southern Association of Colleges and Secondary Schools; The Association of Texas Colleges and the Texas Education Agency.

The institution places special emphasis on teacher-training as a part of the program-of-service. The School of Arts and Sciences—popular for its teacher-training and preparation for such professions as law, medicine, dentistry, social work and accounting—is filled with eager students whose sights are fixed on entering the social sciences, the research laboratories, and other areas for service.

The School of Agriculture attracts those interested in the special areas of animal husbandry, dairying, meat processing, agronomy and poultry husbandry. The N. E. B. Evans Plant and Animal Industries Building with its modern equipment permits the students to put theory into practice and to broaden their knowledge in the sciences of agrarian production.

The School of Home Economics with its program in dietetics and Home Management, stresses the scientific approach to food preparation, the proper values of family budgeting, and the courses related to Home and Family Living.

The Division of Industrial Education affords many job-preparations for those who have the skills necessary to help with improvement of the program of "structuring a better world, materially."

The School of Engineering assumes that social improvement takes place along with increase in better artifacts and areas of living, architectural, civil and electrical engineering fields offer a variety of training experiences which serve many worthwhile purposes.

The Division of Nursing Education offers a professional diploma program which may be completed after a three year professional training program. It also offers the degree program which leads to the Bachelor of Science in Nursing Education.

The State of Texas provides a stipend for each student in the Division of Nursing. This monthly stipend covers the major cost of the student's maintenance.

In addition to the State stipend, the Jeanette Jones Scholarship Fund is made available to a selected number of students in collegiate program. Recipients of the scholarship are given tuition and activity fee for two semesters.

Prairie View A & M College is a land grant college, and one of its basic program - offering is military science. Advanced ROTC training is offered, and beginning with the next school year, (Continued on page two)

### Visiting Professors On Summer Staff

The guest staff members of the Prairie View faculty are: Mrs. Fannie Mae Edmerson, San Antonio, Texas—Art Education; Mrs. Hattie Flowers, Brenham, Texas—Education; Dr. F. A. Jackson, Morgan State College—Business Administration, Mrs. Mable Kilpatrick, Houston, Texas—Education; Mr. A. W. McDonald, Galveston, Texas—Social Science; Mr. B. A. Mayberry, Kansas City, Missouri—Education; Mr. A. J. Murray, New Orleans, Louisiana—Music Education; Mrs. Erlene D. Wright, Houston, Texas—Special Education; Mrs. Lillian T. Orme, Kansas City, Missouri, Education; Dr. Fredrick Stubblefield, Navasota, Texas—Mathematics; Miss Onis V. Fox, Dennison, Texas—Child Development; Mrs. Josie B. Williams, Brenham, Texas, Education for Home and Family Living; Mrs. Eola Lyons Reid, New Orleans, Louisiana—Nursing Education; Miss Mildred F. Montgomery, Wichita Falls, Texas—Reference Librarian; Mrs. Doris B. Yancy, Bryan, Texas—Art Recreation and Social Studies. Mr. Tallie Moez, University of Iowa—Voice.

### Fall Semester To Begin On Sept. 13

The 78th year at Prairie View is scheduled to begin Sept. 13.

Registration and student orientation activities will be held during the period Sept. 13-15. Classes for regular session will begin Sept. 16.

Members of the faculty will hold conference during the week preceding student entrance, on Sept. 7-11.

### Campus Calendar

- July 3-4, Tennis Tournament.
- July 4, Independence Day.
- July 5-10, Annual Coaching School.
- July 6, The Washington Repertory. 8:00 P.M. Players present "The Miser."
- July 7, General Student Dance 8:00 p.m.
- July 8, Open Air Demonstration. (Principal's Workshop).
- July 15, Open Air Demonstration. (School of Engineering).
- July 15-16, Final Exams.—First Term.
- July 18, First Term Ends.
- July 19, Registration—Second Term.
- July 20, Class Work Begins—Second Term.
- July 22, Open Air Demonstration. (School of Agriculture).
- July 26, Registration Closes.
- July 29, Open Air Demonstration. (School of Home Economics).
- August 2, Approved Final Forms For Master's Thesis and Essay Due In Graduate Office by 5:00 p.m.
- August 2-13, Summer Band Camp.
- August 3-8, Lunchroom Worker's Workshop.
- August 5, Open Air Demonstration. (College Library Staff).
- August 7, Comprehensive Examinations For The Master's Of Education Degree.
- August 12, Open Air Demonstration. (Department Of Economics and Agricultural Economics).
- August 25, Commencement.
- August 26-27, Final Exams.—Second Term.
- August 28, Summer School Closes.
- August 29-31, State Conference, Homemaking Teachers.
- State Conference for Teachers (Continued on page five)

### Haitian Students At Prairie View

Three Haitian students will enroll in Prairie View A. & M. College as special students in the Department of Agriculture July 18 to Aug. 21. They will follow courses of guided study in irrigation and extension methods. Mr. G. L. Smith, Head of the Department of Agriculture, states that "the purpose of the study is to provide an opportunity for trainees to increase their knowledge of irrigation in the United States."

Objectives will be to receive practical training in the production of rice with special emphasis on irrigation.

Mr. Smith has worked out a detailed plan of study for the students. The three students are, Mr. Montaigu Cantave, Mr. Frantz E. G. Augstin and Mr. Rosemond Jeudi, who are Agronomists and Technologists. They have been touring the United States since Aug. 31, 1953, and will depart Aug. 30, 1954.

### Enrollment Is Up At Prairie View

Prairie View A and M College reported an enrollment of 1,910 students for summer school. This is a 7 per cent increase above that of the previous year.

The anticipated total enrollment for the first term should reach 2,100 student.

Between 150 to 200 additional students are expected to register as the several workshops and special classes are opened during the succeeding days of the term.

Administrative offices expressed no surprise at the increase in enrollment, since the registration of students at the college has been on the upswing for several years.

## ACCOMPLISHMENTS

By ADDIE PEARL OWENS

Often the best friend a man has is not always COMFORT, but a challenge of antagonistic environment to awaken his slumbering soul.

In my opinion, three major factors constitute accomplishments in life. The first is IMAGINATION. Great living starts with a picture held in some person's imagination of what he would like to be or do some day. Thomas Edison pictured himself an inventor—Florence Nightingale envisioned herself as a nurse. In spite of their handicaps they accomplished their desired goals because they had vivid imagination and put it in full play.

The second factor is common sense. One may have been through many high institutions of learning, he may know all the philosophy of Plato, Aristotle, or Socrates, and still not have sense enough to be thrifty, to respect the rights of others, to honor his parents, to render service in his community, nor be able to get along with those of whom he comes in contact. Common sense is necessary to be able to do the above mentioned things. It enables one to steady himself and use his head in picturing his goal. It lets one know that a round peg will not fit in a square hole.

The third and last factor is courage. Real possibilities always have a faith that produce courage. As soon as a man accepts a positive technique for handling his handicaps they present themselves as opportunities always challenging—sometimes fascinating. Rebellion against defeats gets one nowhere. Self pity gets one nowhere. One must have courage to accept himself as a bundle of possibilities and play hard to win the most interesting game in the world—making the most of one's self. Often one fails to accomplish in life because he has the wrong conception of thinking life is something he finds instead of something he creates. The fact is, existence is what he finds and the "Big Business" of being courageous enough to take existence and so organize it around his plans and purposes so that it becomes life and true living will determine to a great extent his accomplishments in life. The man who once fails and yet, wants to accomplish, must have the courage to believe that failure is remedial. Intelligence and courage have given men the mastery over the material world and through courage, he possesses the power to usher himself in the realm of his obstacles.

I believe, IMAGINATION, COMMON SENSE, and COURAGE, even moderately exercised will produce remarkable ACCOMPLISHMENTS.

## MODERN PIONEERS

By NETTIE L. BLAKELEY

We frequently hear the statement that pioneering days are over; that all the land and water have been discovered; all the wilderness explored; all the great machines invented. That is not true. Certain things have been accomplished, but many more remain to be done.

The subjects presented for study, from the grades through high school and college, are merely an abstract of the accumulation of knowledge which men, pioneering in their particular fields, have acquired over the centuries. The learning of these fundamentals is a saving in time, a short-cut to the end we wish to attain.

Only because the first pioneering settlers came to American shores was it possible for those later pioneers to cross the plains and mountains of a continent. Only because of that little gliding plane in North Carolina was it possible for men like Lindbergh to blaze a later trail for others to follow. Only because of the discovery of germs, are there institutions like the Rockefeller Foundation, pioneering in every corner of the globe, stamping out disease.

Our educational system is the result of all this work. It is like the foundation of a building which we find already laid for our use. We have only to accept it; to take advantage of the work of others over the centuries which have preceded us, building as high as we wish, and giving our structure whatever form we desire it to take.

Truly, we are still pioneers in a world yet filled with romance and adventure. As long as man has ambitions and dreams, so long there will be pioneers in every field of endeavor. When such dreaming stops, civilization will cease to be. If we wish to be one of those pioneers, the shortest way to attain that end is to accept the work already done by those who have preceded us. The better the foundation we lay now, the better will be the structure upon it.

## Religious Highlights

Officers elected for the Sunday School during the summer session are: Dr. Dewey McKnight, Supt.; Mrs. Corine A. Sandle, Asst. Supt.; Mrs. Juanita Turner, Secretary; Mr. Sylvester Thomas, Treasurer; Miss Dorphenia Smothers, Musician.

The regular hour for Sunday School is 9:15 a.m. The message for the morning service July 4, 1954, was delivered by the Rev. Lee C. Phillips, Dean of the Chapel, subject: "The Self In Which I Live."

## SUMMER MOVIES

July 9, "Hondon." Starring: John Wayne.

July 20, "Ride Clear Of Diablo." Starring: Audie Murphy.

July 11, "Rhapsody." Starring: Elizabeth Taylor.

July 16, "Bad For Each Other." Starring: Charlton Heston.

July 17, "Saskatchwen." Starring: Alan Ladd.

July 18, "Escape From Fort Bravo." Starring: William Holden.

July 23, "Walking My Baby Back Home." Starring: Donald O'Connor.

July 24, "99 River Street." Starring: Fernando Lamas.

July 30, "She Couldn't Say No." Starring: Robert Mitchum.

July 31, "The Golden Mask." Starring: Wanda Hendrix.

August 1, "Executive Suite." Starring: William Holden.

## CAMPUS CULLINGS

Dr. A. E. Teele, Arkadelphia, Arkansas — Education has become a permanent member of the Prairie View Faculty.

Mr. Coruthers, a Prairie View High school graduate, now majoring in Engineering at the University of Wisconsin is employed as Bookkeeper in the Fiscal Department.

Miss Dinah R. Young, a Business Education major, is now employed as Cashier in the Fiscal Department.

## P. V. Ag Graduates Receive Doctorates

In the spring quarter convocation on June 11, 1954 at Ohio State University, Doctor of Philosophy Degrees in Agriculture were conferred upon Mr. Winfred Thomas and Mr. Clarence B. Owens.

Mr. W. A. Williams, regular session chemistry instructor, is employed at North Carolina State College for the summer.

Mr. Charles Tatum, who for some years has worked in the Social Science Department was recently enlisted in the United States Army.

What we can't understand is how nature takes care of things, even though they may happen years and years later. For instance, look how our nose and ears are located, just to hold spectacles.

## HAPPENINGS

Open air demonstrations, forums, social activities make up the roster of events for the 1953-54 Summer session at Prairie View. There have been events of note in the past weeks and others to follow—THESE ARE THE HAPPENINGS!

The members of the English Workshop enjoyed an evening of entertainment at the Alley Theater, Houston, Texas. The production of "The Shrike" was presented.

Extension Workers in Agriculture and Home Demonstration Agents representing twelve states were enrolled at the college for the fifth annual Summer Extension program. The three weeks short term featured courses that were of special benefit to the participants. Competent consultants high-lighted the sessions.

A three day Institute on Health and School Sanitation was held on the campus. This Institute was sponsored cooperatively with the Texas State Dept. of Health. One hour of semester credit was given to students carrying a normal six hour load with out cost.

Participants of the Regional Institute made an educational tour to Mexico under the leadership of Dean G. L. Smith, School of Agriculture.

The Annual Coaching Clinic will be held on the campus July 5-10.

The Summer Band Camp will Convene here August 2-13.

The Kindergarten Elementary Workshop is sponsoring a field trip to San Antonio, Texas, July 13. Members of the English Workshop plan to accompany the group.

Augmenting the regular college staff are some visiting professors and lecturers who because of their outstanding experiences in the areas they represent, are offering many things of educational importance to the student body.

Special conferences are already planned for August. These include the vocational Agricultural and Home Economics teachers. The Extension Agents Short Course, and Teachers of Vocational Agriculture for Veterans.

Commencement is scheduled for August 28.

## P. V. Emphasizes - -

(Continued from page one)

The General Military Science course authorized by army regulations will be offered. All able bodied male students are required to enroll in the military program for two years, and those who qualify scholastically for the advanced training.

Upon completion of the advanced course in general military science, the student up on recommendation of the institution and the professor of Military Science and Tactics may go into that

branch of the service for which he is best qualified.

The college recently graduated its 303rd commissioned officer. Servicemen who have participated in the military training program of the institution are distinguishing themselves in the U. S. Armed Forces throughout the world.

These various fields make specialization and "general education" possible for all who enroll, thus giving truth to the expression that "Prairie View Agricultural and Mechanical College is an 'institution of opportunity'."

### Thirty Nurses To Graduate In August

Thirty nurses will graduate, August 16, 1954, from P. V.'s School of Nursing.

The requirements for these students are: they must have good health, and between 17 to 35 years of age.

The Director of the Council administered tests to forty-one students June 26, 1954.

The students spend 9 months during pre-clinical periods at P. V. after which they go to Jefferson-Davis Hospital in Houston for clinical experiences for 18 months, and to John Sealy of Galveston three months for psychiatric nursing experience.

They return to P. V. College for completion of training unless they choose to take some electives at Jefferson-Davis or John Sealy.

After passing the State Board examination, they are eligible for any position as a qualified nurse.

### Cattle Breeding Program Initiated

In an attempt to determine the influence of varying percents of Brahman blood on the birth weights and weaning weights of calves, a crossbreeding program has been initiated at Substation No. 18 of the Texas Agricultural Experiment Station located at Prairie View College, Prairie View, Texas.

The program will involve the use of twelve heifers. These heifers were selected so as to obtain varying percentages of Brahman and Hereford breeding. Four of them represent purebred Herefords, six are 87.5 percent Hereford and 12.5 Brahman, one is 75% Hereford and 25% Brahman, and one is 50% Hereford and 50% Brahman.

All of the heifers used in the breeding test were bred to a purebred Hereford bull the past January, so as to produce their first calves in October. Calves resulting from such matings will retain one-half of the original Brahman blood from their Mothers and the Hereford blood in the calves will be increased in the same proportion. By such a breeding program, we will obtain calves that will carry various percentages of Brahman blood, according to Mr. J. C. Williams, Superintendent of Sub-Station No. 18. Some of the calves will carry as much as 25% Brahman blood, where as the lowest per cent of Brahman blood present in any of the calves will be 6.25 percent.

We are of the opinion that the optimum percentage of Brahman blood in our beef cattle will vary with our environmental conditions, Williams states. We hope to get some definite indications of what that percentage is by measuring the performance of the animal in immediate environment.

Birth weights, average daily gains, and weaning weights of the October calf crop will be used to indicate what percentage of Brahman blood in our conventional beef cattle gives best results.

NOTICE! NOTICE!

### Announcement Pre-Registration For Saturday Classes

We are in the process of completing plans for conducting Saturday Classes during the 1954-55 school session. Persons who are interested in attending these classes may secure information sheet and pre-registration forms in Room 209 in the Administration Building.

These classes are designed to afford in-service teachers an opportunity for professional development as well as to earn resident credit on the graduate level leading to the Master's degree. Arrangements are being made for classes to begin September 20, 1954.

J. L. Brown, Director Extramural Activities

Student nurses in operating room.

### Ad Administrator's Work Conference At Prairie View

PRAIRIE VIEW — Now in session at Prairie View A and M College is the School Administrator's Work Conference which began today and which will run through July 9.

Four Units will be discussed during the work conference they are:

UNIT II—"Formulating An Adequate and Consistent Program of Record Keeping and Reporting". Discussion leaders are: Dr. L. P. Sturgeon, Associate Commissioner of Education Agency, Austin, Texas; Mr. Guy West, Supervisor of Census, Statistics and Reports, Office of Agency Administration, Texas Education Agency, Austin, Texas.

UNIT II — "Formulating An Adequate and consistent Program of Interpersonal Relations in Light of Democratic Outlooks and Practices of Group Dynamics." Discussion leaders are: Dr. R. M. Hall, Associate Director Southwestern Cooperative Program in Educational Administra-

tion, and other personnel in this organization; Mr. W. M. Hadley, superintendent of Schools, Alice Independent School District, Alice, Texas.

UNIT III — "Planning An Adequate and Harmonious Program of Instruction". Discussion leaders are: Dr. Donald McDonald, Director of Curriculum, Abilene, Texas; Dr. Marechal-Nail Young, Principal of Mayer Sulzberger Junior High School, Philadelphia, Pennsylvania; and Dr. A. E. Vells Superintendent, Abilene Independent School District, Abilene, Texas.

UNIT IV — "Organizing An Adequate School-Community Relations Program". Discussion leaders are: Dr. John W. McFarland, Superintendent School District, Vernon, Texas; Dr. Harry E. Moore, University of Texas, Austin, Texas; and Mr. Clint Pace, Regional Director, National Citizens, Dallas, Texas.

#### Flat Warning

GRAND RAPIDS, Mich. — An apartment house management pulled no punches in its warning to non-residents to stay out of its parking lot. A sign posted at the lot said: "Keep off or we'll flatten your tires."

### English Department News

The members of the English Workshop have been very active this session. They have participated in a Theatre Party, an informal discussion, a social and various other gatherings.

Dr. Nick Ford, Chairman of the English Dept., Morgan State College, and Dr. G. Robert Carlsen, University of Texas, were welcomed by the English Workshop members.

The participants presented an outdoor demonstration, July 1, 1954. The theme of the demonstration was "Language Arts in Everyday Living."

#### Back To School

MEMPHIS, Tenn.—John G. Ault is 47 and holds two college degrees, but he's a first-year student at the University of Tennessee Dental College here. Ault has been in public health work for years and says, "I can do more for public health by being a dentist." He has a bachelor of science degree and a master of science degree. His home is in Leesburg, Fla.

### AGRICULTURE NEWS

The school of agriculture is looking forward in planning an orchard which will be a new project in agriculture at Prairie View College. The project will consist of several varieties of Citrus fruits, Five acres are allowed to the project.

Experiments are being conducted by Dr. Coruthers on 24 varieties of "white potatoes" and "sweet potatoes" for weevil control. First application of "insecticides" has been placed on the project. No results have been recorded.

Dr. Coruthers and Mr. Oliver Smith visited Stonie Community near Navasota where watermelons were being harvested.

The school of agriculture and Substation No. 18 were host to 86 Regional Extension Agents and instructors on Thursday June 24, 1954. These persons seemed quite impressed with the facilities and production of the farm units, that they saw during their two hours tour through the various units. Substation No. 18 was highly commended for its research work being conducted.

## ROTC Head Is Reassigned

Lieutenant Colonel Hyman Y. Chase, Professor of Military Science and Tactics, Prairie View A & M College, for the past four years has been reassigned by the Department of the Army. Colonel Chase remained at the institution one year longer than the normally established tour for such duty. His new assignment will give him a short period at The Infantry School, Fort Benning, Georgia, then to the Far East Command.

Major Frank M. Christmas, the senior officer present, has assumed the duties of Military Science and Tactics. Major Christmas has served on the Military Staff one year since his return from the European Command where he was Deputy Headquarters Commandant for Lt. General Manton S. Eddy, Commanding General, United States Army, Europe.

## Keep Up

June Thomas

Many high school graduates have entering begun their careers by entering colleges. In college they will face a terrific challenge. A challenge of keeping up. How well these young people will shoulder this responsibility will depend upon the strength of their previous educational experience and the determination to keep up.

Many have felt that if they are poor it is impossible to keep up. Not So! It is not who you are but what you know and to know that you possess that something that continuously urges you to keep up.

The days of wasting time in college; and of generally playing around are gone. High school graduates must learn to catch up and keep up.

## Home Economics News

Dr. Katherine Whiteside Taylor, eminent authority in Child Guidance and Parent Education will have charge of the Parent Education Workshop from August 3-13. The Workshop carries 3 semester hours of credit on the Graduate and Undergraduate levels.

Workshop is recommended for all teachers, who feel they need help in working with youth and their parents.

There will be laboratory experiences in studying group processes, leading discussions, role playing and making guided observations.

## Many PV Faculty In Summer Study

Several individuals who constitute regular staff personnel of Prairie View College are using the time ordinarily termed "vacation" to study in various universities throughout the nation.

Now studying are: Miss Dorothy Alex (English) New York University; Miss Mae Ola Reynolds, (Education), Columbia University; Miss Minnie James, (Physical Ed) Iowa University; Miss Edmonia Townes, (Mathematics) University of Michigan; Mr. H. J. Brown (Education), New York University; Mr. L. C. Collins, (Biology) University of Texas; Mr. C. S. Garrett, (Music) Rochester School of Music, Mr. Edward Martin, (Biology), Iowa University, Mr. W. D. Swindall (Business Administration), Ohio State University; Miss A. B. Mills, (Library Science), University of Michigan; and Mr. J. E. Stamps, (Business Administration), University of Texas.

## Brotherly Reunion

MOREHEAD, Ky.,—Henry E. Crawford visited his brother, Millard Crawford, here recently, the first time the brothers had seen each other in 47 years. Henry left home at 16, went to the Philippines, and became a successful lumber dealer. He was held in a Japanese prison for 3½ years during World War II.

## Cosmetologists Gather For Annual Meet

Prairie View A. and M., Texas  
 —Over 100 operators and instructors will participate in a three week cosmetology institute at Prairie View A. and M. college, from June 28 to July 16.

The Institute is designed to help persons keep abreast of the latest development in the field of cosmetology, learn new techniques and procedures and to continue their college education.

Each person who enrolls in the institute and remains for the entire three weeks will be awarded a certificate at the end of the course. Of these persons, those who have finished high school will be given college credits for the course.

The faculty for the 1954 cosmetology institute will be made up of some of the state's and nation's outstanding cosmetologists and educational leaders.

Mary F. Hall, owner and director of a Style studio in Detroit, will be chief consultant for the Michigan and Indiana.

Mrs. Hall is renowned for artistry in hair styling, make-up, and salon management. She has traveled throughout the United States as guest artist for many beauty shows and educational programs, giving lectures on hair styling, hair cutting and fashions. She has conducted workshops for a reputable manufacturing company and several independent organizations both in Michigan and Indiana.

Among her various accomplishments in the beauty profession are certificates from two outstanding firms and teacher's cer-

tificate for Indiana, Oklahoma and Michigan. For years, she served as instructor-in-charge of many Beauty schools in Tulsa, Oklahoma, Indianapolis and Kansas City, Missouri.

For two years Mrs. Hall was supervisor of Beauty Services in a Detroit house, and has trained several outstanding stylists.

Assisting in the Cosmetology Institute will be Mrs. Irma Beal Wady, a specialist in Cosmetic Electricity. Other consultants in the institute will be Dr. A. S. Arnold, Business Administration; Dr. E. E. O'Banion, Cosmetic Chemistry, and Aaron Alexander, Applied Psychology.

Among the cosmetic distributors scheduled to be present are Mrs. Bula Parish, Wichita, Kansas; Paul Miller, St. Louis, Missouri; H. Sheldon, Houston and Mrs. Carmen Murphy, Detroit, Michigan.

## TEXAS' BEST COACHES LISTED AS INSTRUCTORS

The Twenty-second Annual Prairie View Coaching Clinic and the Twenty-second Annual Southwestern Open Tennis Tournament, will be held July 5-10, at Prairie View.

Coach W. J. Nicks, Director of the Clinic, has secured some of the best coaches in Texas as instructors. The instructors listed for the clinic are: Johnnie Frankie, Head Coach and Athletic Director, The Wharton County Junior College; Joe Davis, Line Coach, Rice Institute; S. V. Wright, Head Track Coach T. S. U.; Dan Stalworth, Head Coach and Athletic Director, Robert E. Lee High School, Baytown, Texas; J. Mitchem, O. J. Thomas, H. L. McKinnis, Prairie View College.

## ALUMNI NOTES

According to Mr. W. D. Thompson more than \$3,000 has been raised on the building fund for the construction of the P. V. Alumni Memorial Building for which the alumni association is directing its efforts. Funds are still coming in.

A new campaign will be launched in the fall leading up to the homecoming game. The association plans to have raised \$10,000 by that time. A list of donors will be published soon.

The new officers, beginning June first are: L. E. Mason, President; Mrs. Lula White, 1st. Vice President; R. A. Atkinson, 2nd. Vice President; L. O. Mosley, Executive Secretary; A. W. McDondald, Treasurer; Mrs. Faye Boyer, Secretary; E. E. Cleaver, Reporter.
